The IFSC also produced an identity theft leaflet and poster. Over 13 million leaflets have been distributed since September 2005. Home Office expenditure for printing leaflets and posters in 2007 is £11,000. No expenditure has been incurred through other media channels.

### Police: Ethnic Groups

**Jo Swinson:** To ask the Secretary of State for the Home Department what proportion of police force recruits were *(a)* men, *(b)* women, *(c)* black and minority ethnic men and *(d)* black and minority ethnic women in each of the last 10 years. [171376]

**Mr. McNulty** *[holding answer 4 December 2007]*: The requested data are for police officer joiners, and are published annually in the Home Office Statistical Bulletin series "Police Service Strength, England and Wales" which are available online and in the Library of the House.

The available data are given in the following table.

*Proportion[1] of police officer joiners[2] by gender and ethnicity[3] as at 31 March 1998-2007*

| | | | | Percentage |
|---|---|---|---|---|
| *Date as at 31 March* | *Male* | *Female* | *Minority ethnic male* | *Minority ethnic female* |
| 1998 | 73.2 | 26.8 | n/a | n/a |
| 1999 | 74.2 | 25.8 | n/a | n/a |
| 2000 | 72.3 | 27.7 | n/a | n/a |
| 2001 | 73.5 | 26.5 | n/a | n/a |
| 2002 | 73.2 | 26.8 | n/a | n/a |
| 2003 | 75.6 | 24.4 | n/a | n/a |
| 2004 | 69.8 | 30.2 | 5.0 | 1.5 |
| 2005 | 67.8 | 32.2 | 4.0 | 1.8 |
| 2006 | 67.4 | 32.6 | 3.7 | 1.7 |
| 2007 | 65.2 | 34.8 | 4.0 | 1.9 |

n/a = not available

[1] Based on full-time equivalent figures that have been rounded to the nearest whole number. Because of rounding, there may be an apparent discrepancy between the totals and the sums of constituent items.

[2] Joiners include transfers from other England and Wales forces, but does not include those officers returning after a period of secondment.

[3] Minority ethnic officers only, does not include those officers whose ethnicity is listed as "not stated". Ethnicity data are not available prior to 2003/04.

### Pornography: Internet

**James Brokenshire:** To ask the Secretary of State for the Home Department what assessment she has made of the effectiveness of measures taken by internet service providers offering broadband connections to prevent access to images of child abuse. [172391]

**Mr. Coaker:** The Government are very grateful to all ISPs that have implemented measures to block child abuse images. The great majority of consumer broadband connections are now covered, and I would like to encourage those ISPs that have not already done so to take the necessary action.

### Stop and Search

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many searches of *(a)* persons and *(b)* vehicles under section 60 of the Criminal Justice and Public Order Act 1994 were carried out by each police force in each year since 1997; and how many arrests for (i) possession of offensive weapons and (ii) other reasons resulted. [167002]

**Mr. Coaker:** The available information held by the Office for Criminal Justice Reform for the period 1998-99 to 2005-06 is in tables. Copies will be placed in the House Library.

Information on searches of 'persons' and 'vehicles only' cannot be separately identified prior to 1998-99.

### Telephone Tapping

**Norman Baker:** To ask the Secretary of State for the Home Department which organisations are entitled to access data on telephone calls made in the UK. [162489]

**Mr. McNulty** *[holding answer 12 November 2007]*: Public authorities able to obtain communications data using the provisions of section 22 of the Regulation of Investigatory Powers Act 2000 are set out in section 25(1) of that Act and in orders made under section 25(1)(g).

Those orders are the Regulation of Investigatory Powers (Communications Data) Order 2003 (Statutory Instrument 2003 No. 3172), the Regulation of Investigatory Powers (Communications Data) (Amendment) Order 2005 (Statutory Instrument 2005 No. 1083) and the Regulation of Investigatory Powers (Communications Data) (Additional Functions and Amendment) Order 2006 (Statutory Instrument 2006 No. 1878).

In relation to telephone calls, communications data includes information about the use of telephone services, such as billing records, and about the users of services, such as identifying the subscriber of a telephone number and their address. It excludes the content of phone calls and what individuals say or what data they pass on. Lawful interception of communications content can be authorised only by a warrant issued by the Secretary of State under section 5 of the 2000 Act or in other very specific circumstances permitted by sections 3 and 4 of that Act.

### Terrorism

**Keith Vaz:** To ask the Secretary of State for the Home Department when she last met the Director of Public Prosecutions to discuss counter-terrorism policy; and what discussions she has had with the Director of Public Prosecutions on revising counter-terrorism legislation. [169702]

**Mr. McNulty:** My right hon. Friend the Home Secretary has not met the Director of Public Prosecutions to discuss counter-terrorism-related issues since she took office in June 2007. However, we have undertaken an extensive consultation on proposals for forthcoming counter-terrorism legislation and this approach has been widely welcomed. The Director of Public Prosecutions has been involved in discussions at official level on issues relating to counter-terrorism legislation.

**David Davis:** To ask the Secretary of State for the Home Department what remuneration was received by Lord Carlile of Berriew QC for his role of independent reviewer of terrorism legislation in each year since his appointment. [169694]

**Jacqui Smith:** Lord Carlile of Berriew received a daily rate of £452 in 2001 for his role of independent reviewer of terrorism legislation. This has increased since then to the current daily rate of £900.

## COMMUNITIES AND LOCAL GOVERNMENT

### Adult Education: Elderly

**Mr. Baron:** To ask the Secretary of State for Communities and Local Government what plans she has to make future provision for people aged 65 and over to receive concessions for adult education courses. [167869]

**Bill Rammell:** I have been asked to reply.

We recognise the importance of adult learning in meeting a range of personal, social and community needs and we know how much people, particularly older learners, value and enjoy their courses. The Government remain fully committed to ensuring equal opportunities for all learners and that learning serves the needs of the whole community, including older people both within and outside the work force.

Fee concessions for people aged 65 and over are at the discretion of individual providers. I must make clear that the Employment Equality (Age) Regulations 2006 do not bar providers from offering fee discounts for learners aged 65 and over. They allow for such positive action provided that it can be objectively justified.

I refer the hon. Member to my written statement on 16 May 2007, *Official Report*, column 35WS.

**Mr. Baron:** To ask the Secretary of State for Communities and Local Government what guidance she has issued to local authorities on the effect of the provisions of the Employment Equality (Age) Regulations 2006 on concessionary fees for adult education courses for people aged 65 years and over. [167872]

**Bill Rammell:** I have been asked to reply.

We are committed to ensuring equal opportunities for all learners, and that learning serves the needs of the whole community, including older people both within and outside the work force. Our strategy for World Class Skills and our reforms of wider adult learning are designed to ensure that everyone, whatever their age or background, has the opportunity to improve their skills, prospects and quality of life.

I must make clear that the Employment Equality (Age) Regulations 2006 do not bar providers from offering fee discounts for learners aged 65 and over. They allow for such positive action provided that it can be objectively justified. I refer the hon. Member to my written statement on 16 May 2007, *Official Report*, column 35WS.

### Children in Care: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what *(a)* targets and *(b)* best value performance indicators (i) have been and (ii) are set and recorded for local authorities in relation to the number of children in care. [171513]

**John Healey:** The Department for Communities and Local Government does not, and has not in the past, set targets or best value performance indicators in relation to the number of children in care.

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Communities and Local Government how much her Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171435]

**Mr. Dhanda:** With regard to Christmas cards, I refer the hon. Member to the reply given by my hon. Friend the Member for Poplar and Canning Town (Jim Fitzpatrick) to the hon. Member for Hammersmith and Fulham (Mr. Hands) on 1 February 2006, *Official Report*, column 495W, to the reply given by my hon. Friend the Member for Corby (Phil Hope) to the right hon Member for Haltemprice and Howden (David Davis) on 21 December 2004, *Official Report*, column 1558W and to the reply given by the former Member for Shipley (Mr. Leslie) to the hon. Member for Huntingdon (Mr. Djanogly) on 19 December 2002, *Official Report*, column 948W. The figure for 2006 was £1,802.80 plus VAT.

The other information requested could be supplied only at disproportionate cost.

### Elections: Bedfordshire

**Andrew Selous:** To ask the Secretary of State for Communities and Local Government with reference to her answer of 25 October to Written Questions 160879 and 160880, on Elections: Bedfordshire, when she will take final decisions on the structural arrangements in Bedfordshire; and whether, as a consequence, there are to be district, town and parish elections in 2008. [161903]

**John Healey:** On 19 November, we issued the Invitation to councils in Bedfordshire to make proposals for unitary solutions for the rest of Bedfordshire, following my right hon. Friend the Secretary of State's decision of 25 July, and further confirmed on 5 December, that she is minded to implement Bedford borough council's proposal, subject to their being suitable arrangements for the rest of the county. We will take final decisions on the structural arrangements in Bedfordshire as soon as practicable following receipt and analysis of those responses.

Any decisions on elections will be made as part of the final decisions on the structural arrangements for Bedfordshire.

### Fire Services: Contracts

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the timetable is for contracts to be finalised for the *(a)* FireControl and *(b)* Firelink projects. [173293]

**Mr. Dhanda:** The FiReControl contract was signed on 30 March 2007. The Firelink contract was signed on 29 March 2006 and extended to include Scotland and Wales in June 2006.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the minimum contractual periods are of the contracts for the *(a)* FireControl and *(b)* Firelink projects; and whether the contracts allow for early termination of the agreements. [173300]

**Mr. Dhanda:** The minimum contract term for FiReControl is eight years (expires 30 March 2015). There are standard termination clauses, either in event of contractors' default of 12 months notice by the Department.

The contractual period for the Firelink contract is 10 years nine months. There is provision within the agreement for early termination of the contract by the Department.

### Legislation: Commencement

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the timetable is for the implementation of the provisions of *(a)* the Greater London Authority Act 2007 and *(b)* the Local Government and Public Involvement in Health Act 2007. [171634]

**John Healey:** The Local Government and Public Involvement in Health Act 2007 enables commitments in the local government White Paper "Strong and Prosperous Communities" to be delivered. Section 245 of the Act sets out which provisions were commenced at Royal Assent on 30 October 2007, and which will commence on 30 December 2007. All remaining provisions will be commenced by Order. One commencement order has been made so far. This brought Part 1 into force on 1 November 2007. The intention is to make several such orders to fit the planned timetable for implementing relevant policies. The latest version of the White Paper "Implementation Plan" was published on 1 November.

### Housing: Carbon Emissions

**Mr. Kemp:** To ask the Secretary of State for Communities and Local Government what progress her Department has made in discussions with housebuilders and manufacturers of building materials on the development of new materials for the construction of zero-carbon housing. [173562]

**Mr. Iain Wright:** Through the 2016 taskforce, we are having constructive discussions with the Home Builders Federation and the Construction Products Association, the latter which represents the UK's manufacturers and suppliers of construction products components and fittings. The 2016 taskforce is looking to identify the barriers to implementation of the zero carbon 2016 target, and will put in place measures to address them.

### Local Authorities: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what *(a)* targets and *(b)* performance indicators English Partnerships and its successor agency are developing for local authorities. [173304]

**Mr. Iain Wright:** English Partnerships is governed by nationally agreed policy objectives, priorities and performance targets. Its programme is delivered through a portfolio of local area-based projects, each focused on the specific local needs but which take into account regional and local objectives/priorities.

English Partnerships has no authority or powers to impose performance indicators and targets on local authorities.

The Homes and Communities Agency will be a partner authority for local authorities with regard to local area agreements and local improvement targets.

### Local Government Executive: Referendums

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many referendums have taken place on whether to establish an elected mayor since 1997. [173227]

**John Healey:** Since 1997 there have been 35 referendums held by local authorities in England on whether a directly elected mayoral model should be adopted. In 1998 a referendum was held on whether there should be an elected mayor for London. In Wales, where local government matters are devolved to the National Assembly for Wales, there has been one such referendum.

### Local Government Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much and what proportion of total Government grant to local authorities in England was ring-fenced in *(a)* 1997-98 and *(b)* 2007-08. [173332]

**John Healey:** Excluding funding for schools, the level of ring-fencing in 1997-98 was 4.4 per cent. On a comparable basis, the level of ring-fencing in 2007-08 is 10.5 per cent.

### Local Government Finance: Community Policing

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many of the local authorities which received central government funding for community/neighbourhood wardens are funding warden schemes since the ending of central funding. [173380]

**John Healey:** Support for warden schemes has now been pooled within local area agreements, which focus on achieving a series of public service outcomes agreed between central and local government. Information is not collected at the centre about the number and type of schemes that are being supported through LAAs.

### Local Government: Ipswich

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the timetable is for the local government restructuring in Ipswich, including the passage of secondary legislation. [171610]

**John Healey:** In the written ministerial statement I made to the House on 5 December 2007, *Official Report*, columns 65-69WS, I announced that we intend to ask the Boundary Committee to provide advice on Ipswich Borough council's unitary proposal under section 4 of the Local Government and Public Involvement in Health Act 2007.

We are aiming to issue our terms of reference, including a proposed timetable for its work, to the Boundary Committee to enable it to begin its review early in the new year.

### Mortgages

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate she has made of how many and what proportion of first time buyers took out mortgages of 100 per cent. or more of the purchase price of the property in each year for which figures are available from 1997 to 2005. [173299]

**Mr. Iain Wright:** Data on first time buyers (FTBs) using a mortgage is available from the regulated mortgage survey which is supplied to communities and local government by the Council of Mortgage Lenders. As the survey is a sample, data on the exact number of FTBs is unavailable from this source. However we can derive proportions from the survey and applying these to the total number of FTBs in the UK, as published by the Council of Mortgage Lenders, we can estimate the numbers.

The number and proportion of first-time buyers in the UK that took out mortgages on a home to the value of 100 per cent or more is shown in the following table.

*Number and proportion of FTBs that took out mortgages of 100 per cent or more of the value of the property, UK*

| | *Number* | *Proportion (percentage)* |
|---|---|---|
| 1997 | 43,300 | 8.6 |
| 1998 | 34,400 | 6.6 |
| 1999 | 38,900 | 6.6 |
| 2000 | 37,000 | 7.4 |
| 2001 | 36,200 | 6.4 |
| 2002 | 51,600 | 9.7 |
| 2003 | 16,300 | 4.4 |
| 2004 | 30,900 | 8.6 |
| 2005 | 35,100 | 9.4 |

*Sources:*
Regulated Mortgage Survey and the Council of Mortgage Lenders

### Motorcycles: Noise

**Mark Pritchard:** To ask the Secretary of State for Communities and Local Government if she will bring forward proposals to give local authorities more powers to enforce noise pollution legislation in relation to off-road scrambling in areas which are adjacent to residential areas. [172875]

**Jonathan Shaw:** I have been asked to reply.

Under part III of the Environmental Protection Act 1990, local authorities have a statutory duty to inspect their areas for existing, potential and recurring statutory nuisances from time to time. They are also required to take reasonable and practicable steps to investigate complaints of statutory nuisance and to issue an abatement notice where it is satisfied that a statutory nuisance exists, or may occur or recur. Local authorities may also seize noise-making equipment.

Noise from off-road vehicles on premises can constitute a statutory nuisance. Premises can include land and beaches and, in the case of stationery vehicles, streets. Off-road vehicles can also be seized as noise-making equipment.

A statutory nuisance materially affects someone's reasonable use of their home and/or is prejudicial to their health, as assessed by the local authority on a case-by-case basis.

Off-road vehicles driven illegally or in a careless or anti-social manner (that is causing or likely to cause harassment, alarm or distress) may be seized by the police under section 59 of the Police Reform Act 2002 powers. A new guidance document was published in November 2005 and sent to all chief police officers.

## Railways

**Mr. Hayes:** To ask the Secretary of State for Communities and Local Government how much was spent by her Department on first class train tickets in the last 12 months. [171266]

**Mr. Dhanda:** I refer the hon. Member to the answer given to the hon. Member for Fareham (Mr. Hoban) on 3 September 2007, *Official Report*, columns 1648-49W.

## Regeneration: Finance

**Justine Greening:** To ask the Secretary of State for Communities and Local Government (1) what financial allocation has been made to the Working Neighbourhoods Fund for the next three years, split by local authority; and if she will make a statement; [173391]

(2) what allocation of Neighbourhood Renewal Fund was made in 2007-08, split by local authority; and if she will make a statement. [173392]

**John Healey** *[holding answer 11 December 2007]*: As I announced to the House on 6 December, £1.5 billion has been allocated to authorities to provide additional resources to tackle high levels of worklessness and low levels of enterprise. 66 local authority districts have qualified to receive an allocation under the Working Neighbourhoods Fund (WNF) and a further 21 authorities that currently receive Neighbourhood Renewal funding will receive two years transitional payments as they have not qualified for WNF. A full breakdown of allocations over the next three years is tabled as follows.

| | *WNF allocation* | | |
|---|---|---|---|
| *LA name* | *2008-09* | *2009-10* | *2010-11* |

## Regional Planning and Development: East of England

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what further stages and consultations remain to be undertaken in relation to the East of England Regional Spatial Strategy before it is finalised. [173308]

**Mr. Dhanda:** Following the current consultation on the Habitats Directive Assessment and Further Proposed Changes which ends on December 18, Ministers will consider the representations on the two sets of proposed changes and publish the final version of the Alterations to the Regional Spatial Strategy, incorporating any final changes to reflect consideration of the representations. The current timetable anticipates publication of the final alterations in early 2008.

## Repairs and Maintenance: Finance

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government by *(a)* how many percentage points and *(b)* how much the average management and maintenance allowances changed in (i) 2005-06, (ii) 2006-07 and (iii) 2007-08. [163510]

**Mr. Iain Wright:** The changes in average management and maintenance allowances per dwelling are shown in the following table:

| | *Management and maintenance allowance* | *Difference (£)* | *Difference (percentage)* |
|---|---|---|---|
| 2004-05 | 1,316.28 | — | — |
| 2005-06 | 1,461.52 | +145.24 | 11.0 |
| 2006-07 | 1,599.47 | +137.95 | 9.4 |
| 2007-08 | 1,660.01 | +60.54 | 3.8 |

## Safer Stronger Communities Fund

**Justine Greening:** To ask the Secretary of State for Communities and Local Government what funding was made available via the Safer and Stronger Communities Fund in *(a)* 2006-07 and *(b)* 2007-08; what allocation is planned for 2008-09, split by local authority; and if she will make a statement. [173393]

**John Healey** *[holding answer 11 December 2007]*: Full details of the local authority split for 2008-09 can be found on the Communities and Local Government website. The overall allocation is £112,848,000.

From 2008-09 funding that was previously paid through the Safer Stronger Communities Fund will be part of the Area Based Grant. Area Based Grant is a non-ringfenced general grant, which means local authorities are free to use the totality of the grant as they see fit to support the delivery of local, regional and national priorities in their areas, including the achievement of their new local area agreement targets.

The overall SSCF allocations for English local authorities for previous years were as follows:

| | *Overall SSCF allocations (£)* |
|---|---|
| 2006-07 | 69,862,703 |
| 2007-08 | 158,946,201 |

## Stamp Duties

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many and what proportion of first time buyers in England purchased properties in the three or four per cent. stamp duty band in each of the last three years. [173311]

**Mr. Iain Wright:** Data on first time buyers (FTBs) using a mortgage is available from the Regulated Mortgage Survey which is supplied to Communities and Local Government by the Council of Mortgage Lenders. However, as the survey is a sample, data on the number of FTBs for England is unavailable. However we can still derive proportions.

The proportion of first time buyers in England that purchased properties in the 3 and 4 per cent. stamp duty bands is shown in the following table.

*Proportion of first time buyers that purchased properties in the 3 or 4 per cent. stamp duty bands, England*

| | Percentage | | |
|---|---|---|---|
| | *3 per cent. stamp duty band* | *4 per cent. stamp duty band* | *3 or 4 per cent. stamp duty bands* |
| 2004 | 5.6 | 0.9 | 6.4 |
| 2005 | 5.7 | 0.7 | 6.4 |
| 2006 | 6.6 | 0.8 | 7.4 |

*Source:*
Regulated Mortgage Survey

### Supporting People Programme

**Mr. Harper:** To ask the Secretary of State for Communities and Local Government pursuant to the written statement of 6 December, on Supporting People, at what time the *(a)* table of indicative Supporting People grant allocations and *(b)* copy of the consultation response were placed in the Library. [173412]

**Mr. Iain Wright** *[holding answer 11 December 2007]:* In accordance with parliamentary guidance on Deposited Papers, the table of indicative Supporting People grant allocations and copy of the consultation response were sent electronically to the Libraries.

The consultation response was sent at 1.08 pm; the table of indicative Supporting People grant allocations at 1.12 pm.

### Travelling People

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many unauthorised Gypsy and Travellers' *(a)* caravans and *(b)* developments there were in each (i) January and (ii) July since 2001 in (A) England and (B) each government office region in England. [171638]

**Mr. Iain Wright:** Communities and Local Government publish data on the number of Gypsy and Traveller caravans on authorised public and private sites, and unauthorised encampments and developments twice yearly.

The latest publication "Count of Gypsy Caravans on 19 July 2007: Last Five Counts" is available on the Department's website at:

http://www.communities.gov.uk/housing/housingmanagementcare/gypsiesandtravellers/gypsyandtravellersitedataandstat/

The following table shows the levels of unauthorised caravans, encampments and developments in England since 2001:

| | | *NW* | *NE* | *EM* | *WM* | *Y and H* | *East* | *SE* | *SW* | *London* | *England* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| January 2001 | Total number of unauthorised caravans | 76 | 43 | 191 | 207 | 117 | 993 | 443 | 387 | 146 | 2,603 |
| | Unauthorised encampments | 48 | 38 | 157 | 118 | 73 | 555 | 291 | 260 | 98 | 1,638 |
| | Unauthorised developments | 28 | 5 | 34 | 89 | 44 | 438 | 152 | 127 | 48 | 965 |
| July 2001 | Total number of unauthorised caravans | 176 | 84 | 304 | 319 | 187 | 714 | 827 | 644 | 91 | 3,346 |
| | Unauthorised encampments | 123 | 79 | 252 | 186 | 138 | 367 | 608 | 555 | 74 | 2,382 |
| | Unauthorised developments | 53 | 5 | 52 | 133 | 49 | 347 | 219 | 89 | 17 | 964 |
| January 2002 | Total number of unauthorised caravans | 114 | 79 | 432 | 329 | 137 | 691 | 458 | 371 | 163 | 2,774 |
| | Unauthorised encampments | 48 | 79 | 388 | 182 | 96 | 239 | 285 | 187 | 133 | 1,637 |
| | Unauthorised developments | 66 | 0 | 44 | 147 | 41 | 452 | 173 | 184 | 30 | 1,137 |
| July 2002 | Total number of unauthorised caravans | 155 | 127 | 367 | 340 | 164 | 1,005 | 752 | 499 | 90 | 3,499 |
| | Unauthorised encampments | 97 | 123 | 333 | 211 | 117 | 386 | 546 | 395 | 53 | 2,261 |
| | Unauthorised developments | 58 | 4 | 34 | 129 | 47 | 619 | 206 | 104 | 37 | 1,238 |
| January 2003 | Total number of unauthorised caravans | 128 | 10 | 313 | 322 | 147 | 952 | 628 | 428 | 100 | 3,028 |
| | Unauthorised encampments | 84 | 6 | 266 | 153 | 89 | 248 | 411 | 321 | 42 | 1,620 |
| | Unauthorised developments | 44 | 4 | 47 | 169 | 58 | 704 | 217 | 107 | 58 | 1,408 |
| July 2003 | Total number of unauthorised caravans | 126 | 93 | 379 | 363 | 165 | 1,190 | 962 | 558 | 143 | 3,979 |
| | Unauthorised encampments | 93 | 87 | 318 | 210 | 130 | 405 | 599 | 400 | 73 | 2,315 |
| | Unauthorised developments | 33 | 6 | 61 | 153 | 35 | 785 | 363 | 158 | 70 | 1,664 |
| January 2004 | Total number of unauthorised caravans | 120 | 105 | 256 | 413 | 174 | 1,172 | 736 | 425 | 170 | 3,571 |
| | Unauthorised encampments | 77 | 96 | 195 | 203 | 111 | 250 | 351 | 228 | 83 | 1,594 |
| | Unauthorised developments | 43 | 9 | 61 | 210 | 63 | 922 | 385 | 197 | 87 | 1,977 |
| July 2004 | Total number of unauthorised caravans | 184 | 129 | 396 | 418 | 276 | 1,288 | 764 | 568 | 209 | 4,232 |
| | Unauthorised encampments | 158 | 118 | 294 | 263 | 209 | 466 | 343 | 425 | 101 | 2,377 |

| | | *NW* | *NE* | *EM* | *WM* | *Y and H* | *East* | *SE* | *SW* | *London* | *England* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | Unauthorised developments | 26 | 11 | 102 | 155 | 67 | 822 | 421 | 143 | 108 | 1,855 |
| January 2005 | Total number of unauthorised caravans | 185 | 38 | 412 | 262 | 171 | 1,056 | 635 | 511 | 170 | 3,440 |
| | Unauthorised encampments | 146 | 35 | 292 | 76 | 98 | 193 | 158 | 256 | 47 | 1,301 |
| | Unauthorised developments | 39 | 3 | 120 | 186 | 73 | 863 | 477 | 255 | 123 | 2,139 |
| July 2005 | Total number of unauthorised caravans | 243 | 48 | 307 | 286 | 473 | 1,168 | 778 | 613 | 122 | 4,038 |
| | Unauthorised encampments | 177 | 43 | 210 | 135 | 404 | 325 | 422 | 367 | 16 | 2,099 |
| | Unauthorised developments | 66 | 5 | 97 | 151 | 69 | 843 | 356 | 246 | 106 | 1,939 |
| January 2006 | Total number of unauthorised caravans | 200 | 48 | 291 | 282 | 115 | 999 | 609 | 626 | 102 | 3,272 |
| | Unauthorised encampments | 126 | 31 | 128 | 99 | 44 | 148 | 182 | 351 | 9 | 1,118 |
| | Unauthorised developments | 74 | 17 | 163 | 183 | 71 | 851 | 427 | 275 | 93 | 2,154 |
| July 2006 | Total number of unauthorised caravans | 187 | 99 | 297 | 300 | 221 | 1,023 | 874 | 891 | 100 | 3,992 |
| | Unauthorised encampments | 136 | 84 | 178 | 112 | 185 | 288 | 354 | 427 | 8 | 1,772 |
| | Unauthorised developments | 51 | 15 | 119 | 188 | 36 | 735 | 520 | 464 | 92 | 2,220 |
| January 2007 | Total number of unauthorised caravans | 207 | 24 | 312 | 339 | 172 | 994 | 550 | 776 | 164 | 3,538 |
| | Unauthorised encampments | 132 | 21 | 168 | 143 | 102 | 195 | 136 | 326 | 63 | 1,286 |

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture: Nitrates

**Dr. Richard Taylor:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of whether farmers will be able to increase their slurry storage capacity to satisfy the requirements of the Nitrate Action programme; and if he will consider extending the period of implementation. [171201]

**Mr. Woolas:** We are currently undertaking a consultation on the implementation of the nitrate directive in England, which includes the Nitrate Action programme.

### Angling

**Sir Paul Beresford:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to implement the recommendations in the Net Benefits report on the development of the UK's recreational sea angling sector, in particular the recommendation that bass be considered as a recreational species. [172781]

**Jonathan Shaw:** Our plans to take forward the recommendations in the Prime Minister's Strategy Unit report "Net Benefits" concerned with inshore fisheries in England including recreational sea angling, were addressed in DEFRA's "Charting a New Course". These publications are available in the Library of the House.

These plans included a commitment to consult on measures to increase the number and size of sea bass available to benefit both recreational anglers and commercial fishermen. My decision not to increase the minimum landing size of bass was announced on 25 October. This announcement included a number of other measures to benefit bass stocks and recreational sea angling in general.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) pursuant to the answer of 21 November 2007, *Official Report,* column 860W, on angling, for what reason he did not launch a consultation on the draft Recreational Sea Angling Strategy in November 2007; and if he will make a statement; [173003]

(2) pursuant to the answer of 21 November 2007, *Official Report,* column 860W, on angling, on what date the final draft of the draft Recreational Sea Angling Strategy was approved for publication for consultation; and if he will make a statement; [173004]

(3) for what reasons the draft Recreational Sea Angling Strategy was not published for consultation between January and March; and if he will make a statement; [173005]

(4) what factors he took into account when deciding the date on which to announce the Recreational Sea Angling Strategy; and which bodies he consulted while formulating the strategy. [173032]

**Jonathan Shaw:** The draft Recreational Sea Angling Strategy was developed with representatives from the following organisations:

National Federation of Sea Anglers

National Federation of Fishermen's Organisations

Department for Culture Media and Sport

Bass Anglers Sportfishing Society

Sea Anglers Conservation Network

Eastern Sea Fisheries Joint Committee

Sussex Sea Fisheries Committee

Shellfish Association of Great Britain

Natural England

Environment Agency

CEFAS

Marine and Fisheries Agency

It was endorsed by DEFRA's Inshore Fisheries Working Group on 23 March 2007 and on 3 December 2007. I approved the draft strategy for publication. My priority in relation to sea angling was to make a decision on an increased minimum landing size for bass. I announced my decision on this on 25 October after which I launched a consultation on the draft Recreational Sea Angling Strategy on 6 December, six days later than planned. The closing date for comments is 31 March 2008. A copy of the strategy has been placed in the Library of the House.

### Animal Feed: Prices

**Danny Alexander:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the effects of the increases in prices of feed on the pig farming industry; [172998]

(2) what assessment he has made of the effect of worldwide increases in cereal prices on the livestock industry in England. [172999]

**Jonathan Shaw** *[holding answer 10 December 2007]*: The higher feed costs in the UK are due to global cereals price rises following two successive lower wheat harvests and increasing demand for cereals for food, feed and fuel purposes. The impact, in financial terms, will differ across the farming sectors, as explained in our recent report "Implications of rising agricultural commodity prices". A copy of this report is available on the DEFRA website.

I am aware that the pig industry has been particularly affected by increases in feed costs as feed makes up a significantly larger proportion of their total costs. This is reflected in the report.

Projections of the aggregate measure of total income from farming have been published on the DEFRA website and the first full set of farm income statistics, including a breakdown by farm type, will be published at the end of January.

### Animals: Disease Control

**Anne Milton:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the reduction in funding for county councils for trading standards officers to carry out animal disease control work; what assessment his Department has made of the effect of the change in funding on the enforcement of animal disease control; and if he will make a statement. [168187]

**Jonathan Shaw:** The bids received from local authorities this year for additional funding to support their work on animal health and welfare exceeded the budget available by over £1 million. DEFRA has therefore allocated the available funding within the constraints of the available budget.

Local authorities have been asked to discuss with their local divisional veterinary managers any necessary adjustments to the planned level of work under the framework agreement between DEFRA and local authorities.

### Animals: Herefordshire

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how much he allocated to Herefordshire council for animal health purposes in *(a)* 2006-07 and *(b)* 2007-08; and if he will make a statement. [172023]

**Jonathan Shaw:** The amount allocated to Herefordshire council for animal health purposes in 2006-07 was £128,319 of which £124,109 was spent. The forecast submitted through the divisional veterinary manager for 2007-08 was £136,100. The allocation is £119,768.00.

### Aviation

**Mr. Hayes:** To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171248]

**Jonathan Shaw:** From information held centrally, the core-Department spent *(a)* £899,611 and *(b)* £11,152 on business and first class air travel respectively in the period October 2006 to September 2007 inclusive.

### Bluetongue Disease

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* new farms confirmed bluetongue infection and *(b)* farms were declared free of bluetongue in each of the last four weeks. [171914]

**Jonathan Shaw:** The number of confirmed cases of bluetongue in each of the last four weeks is as follows:

| *Week commencing* | *Premises* |
|---|---|
| 12 November | 2 |
| 19 November | 1 |
| 26 November | [1]0 |

[1] No new cases confirmed

As of 3 December, there have been 66 confirmed premises affected by bluetongue since the first case was confirmed on 28 September. None of these premises has yet been confirmed to be free of the disease. However, in the case of bluetongue, restrictions are lifted on the premises after the veterinary inquiry, and only the area restrictions relating to the protection and surveillance zones remain in place. Cases of bluetongue currently remain contained to the east and south-eastern parts of England, but, since disease is transmitted by midges, there is no use in restricting the individual premises.

## Bluetongue Disease: Disease Control

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what side effects have been identified of the use of active vaccines for bluetongue virus; [171865]

(2) what research he has *(a)* commissioned and *(b)* evaluated on side effects of active vaccines for bluetongue virus. [171866]

**Jonathan Shaw:** There are significant, potential risks associated with live bluetongue vaccines. Live vaccine strains can become more virulent than the field strain, produce new strains through re-assortment with the field strain and circulate in the midge vector. Live vaccines can also cause disease in some breeds of sheep (and potentially cattle), cannot be given to pregnant ewes (as they can cause foetal deformities), and can be a potential source of infection on mating and artificial insemination as the vaccine can be found in the semen of bulls and rams.

For those reasons, the use of live vaccines would not normally be considered as a disease control measure and the tender for vaccine we have issued states that a vaccine should be inactivated (killed).

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs what restrictions could be imposed by the Food Standards Agency in relation to vaccinated animals intended for human consumption if active vaccines are used during a bluetongue outbreak. [171912]

**Jonathan Shaw:** Our recent tender for bluetongue vaccine stated that we would only use inactivated vaccine that had received a marketing authorisation from the Veterinary Medicines Directorate. Such a marketing authorisation would certify that the vaccine was both effective and safe for use. The Food Standards Agency has advised that, provided such a marketing authorisation is received, there would be no food safety implications of the use of an inactivated bluetongue vaccine. Therefore, no restrictions would be put in place on the human consumption of bluetongue vaccinated animals.

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what criteria will be used to determine whether the bluetongue outbreak warrants the use of vaccinations; [171915]

(2) when a vaccination programme for bluetongue would be able to start; and which areas would have priority; [171916]

(3) what plans his Department has to implement a bluetongue vaccination programme. [171917]

**Jonathan Shaw:** We are currently developing a detailed plan with scientific experts on bluetongue, representatives of the farming industry and others as to how a vaccination programme would work. This plan must be submitted to the European Commission by the end of January. We are also in discussions with the Commission and other affected member states about the content of that plan, which will set out how the Government and industry jointly intend to use vaccination and which areas would take priority. Although EU law provides that vaccination can only take place within the protection zone (currently East Anglia and the South East) we will keep under review with the industry whether to increase the size of that zone to allow vaccination to take place in a wider area.

In order for a vaccination programme to be fully effective next year, it will be important that vaccination starts as soon as the vaccine is available. Given that it can also take six to eight months for vaccine to be produced and made ready for use, we have tendered for between 10 and 20 million doses of vaccine. We are currently considering the bids made and we expect to place a firm order very soon, so we expect to have a vaccine ready by early summer.

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs how much the Government allocated to research and development of inactive bluetongue vaccines in each of the last three years; and how much has been allocated for research in each of then next three years. [171985]

**Jonathan Shaw:** The research, development and production of bluetongue vaccine is a lucrative commercial proposition and there are a number of private companies involved in this process, so there is no need for the Government to carry out such research. We have issued a tender to those companies to supply between 10 and 20 million doses of vaccine which sets out the technical specifications we expect a vaccine to meet.

This tender was based on the advice of experts at the Institute of Animal Health, which carries out general research into bluetongue, and the Veterinary Medicines Directorate (VMD). These experts have also been assessing the three bids received. It will be a condition of any order for vaccine that the VMD issue it with a marketing authorisation confirming that it is effective and safe for use.

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of individual vaccines required to control the outbreak of bluetongue at present levels of infection; and to which animals the vaccines would be applied. [171986]

**Jonathan Shaw:** We have tendered for 10 to 20 million doses to ensure that the bank will be adaptable to a range of circumstances. Discussions on anticipated demand for vaccine are currently under way with the farming industry and we expect to place a firm order for vaccine very shortly.

We are currently developing a detailed vaccination plan with scientific experts on bluetongue, the farming industry and others which will address questions such as the species to be vaccinated. However, it is likely that all domestic susceptible species, for example, cattle, sheep, goats, farmed deer, camelids and zoo ruminants, in a given area would be eligible for vaccination, although it would be impractical to attempt to vaccinate wild susceptible species, such as wild deer.

**Patrick Mercer:** To ask the Secretary of State for Environment, Food and Rural Affairs what the current cost is of individual vaccinations against bluetongue; how widely available the vaccine is; and if he will make a statement. [171987]

**Jonathan Shaw:** We have tendered for 10 to 20 million doses to ensure that the bank will be adaptable to a range of circumstances. We are currently assessing the bids submitted and we expect to make a firm order very soon. This process of assessment and negotiation with the vaccine producing companies is establishing the likely cost of vaccination.

In keeping with the principles set out in the Bluetongue Control Strategy, which was developed in partnership with the farming industry, livestock keepers will be offered the opportunity to purchase vaccine from the bank. EU law limits vaccination to the protection zone. However, we will keep under review with the industry whether to extend that zone to permit vaccination to take place in a wider area once a vaccine is available in early summer.

## Cereals: Prices

**Danny Alexander:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the change in volume of bioethanol production of fuel from cereals; and what assessment he has made of its effect on cereal prices. [173000]

**Jonathan Shaw** *[holding answer 10 December 2007]:* Overall sales of fuel bioethanol into the UK market increased from 85 million litres in 2005 to 95 million litres in 2006. These sales have been from imported sources. The UK currently has one fuel bioethanol production plant which opened this year. British Sugar's facility in Wissington processes sugar beet and has a capacity of around 70 million litres per annum. A number of companies are planning to build further plants which would use UK-grown crops such as wheat.

It is unlikely that the production of biofuels has had a discernable effect on UK cereals prices to date. Current high prices are due to global factors, including two successive lower world wheat harvests, low global stocks and increased demand for cereals from the range of sectors including food, feed and fuel. Growing global demand for biofuels will put upward pressure on crop prices, but also increase the supply of crops in the future, leading to a stabilisation of the market. Analysis by the European Commission assessing the impact of the 10 per cent. by energy biofuel target for 2020 indicates that prices for agricultural raw materials in the EU would increase by 3 to 6 per cent. for cereals.

## Dangerous Dogs Act 1991

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) how many attacks on people there were by dogs designated as dangerous under the Dangerous Dogs Act 1991 in each year since 1997; and how many there were by dogs owned in contravention of the Act in each year; [171884]

(2) how many people were prosecuted under the Dangerous Dogs Act 1991 in London in each year since 1997. [171882]

**Jonathan Shaw:** The information requested is provided in the following tables. Table 1 shows the number of people prosecuted for allowing a dog to be dangerously out of control. Table 2 shows the number of defendants proceeded against. However, we do not hold information on whether the dogs involved were held in contravention of the law.

*Table 1: Number of defendants found guilty at all courts for offences related to allowing a dog to be dangerously out of control, England and Wales 1997 to 2006*[1, 2]

| *Offence description* | *Principal statute* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 821 Owner or person in charge allowing dog to be dangerously out of control in a public place injuring any person. | Dangerous Dogs Act 1991 S.3 (1) | 121 | 239 | 262 | 260 | 285 | 300 | 302 | 350 | 403 | 458 |
| 822 Owner or person in charge allowing dog to enter a non-public place and injure any person. | Dangerous Dogs Act 1991 S.3 (3) | 5 | 13 | 19 | 32 | 31 | 30 | 33 | 25 | 25 | 29 |
| 11118 Owner or person in charge allowing dog to be dangerously out of control in a public place, no injury being caused. | Dangerous Dogs Act 1991 S.3 (1) | 88 | 125 | 126 | 130 | 157 | 150 | 171 | 167 | 168 | 160 |
| 11119 Owner or person in charge allowing dog to enter a non-public place causing reasonable apprehension of injury to a person. | Dangerous Dogs Act 1991 S.3 (3) | 4 | 8 | 5 | 13 | 14 | 7 | 10 | 5 | 9 | 11 |
| Total | | 218 | 385 | 412 | 435 | 487 | 487 | 516 | 547 | 605 | 658 |

*Table 2: Number of defendants proceeded against at magistrates courts in Greater London for offences under the Dangerous Dogs Act 1991, 1997 to 2006*[1, 2]

| | Number proceeded against |
|---|---|
| 1997 | 80 |
| 1998 | 83 |
| 1999 | 79 |
| 2000 | 92 |
| 2001 | 97 |
| 2002 | 86 |
| 2003 | 91 |
| 2004 | 82 |
| 2005 | 80 |
| 2006 | 102 |

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the police forces and courts. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid by his Department in consultancy fees in each year since 2004-05. [171874]

**Jonathan Shaw:** I refer my hon. Friend to the answer I gave to the hon. Member for Fareham (Mr. Hoban) on 22 October 2007, *Official Report*, columns 78-79W.

**Jon Trickett:** To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid in consultancy fees by *(a)* the Ministry of Agriculture, Fisheries and Food and *(b)* the Department for the Environment, Transport and the Regions between 1997 and 8 June 2001. [172075]

**Jonathan Shaw:** DEFRA came into being in June 2001. I refer my hon. Friend to the answer I gave to the hon. Member for Fareham (Mr. Hoban) on 22 October 2007, *Official Report*, columns 78-79W.

### Departmental Data Protection

**Mr. Walker:** To ask the Secretary of State for Environment, Food and Rural Affairs whether his Department's information technology and data management systems are BS7799 compliant. [168749]

**Jonathan Shaw:** I refer the hon. Member to the statement made by right hon. friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Environment, Food and Rural Affairs how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172252]

**Jonathan Shaw:** DEFRA is committed to achieving workforce reductions of 1,400 posts by the end of 2007-08. This is a net target and no posts will be reallocated to the frontline as part of it.

### Departmental Public Expenditure

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what account he will take of the likely costs of the proposed *(a)* Marine Management Organisation and *(b)* reforms of the Sea Fisheries Committees when deciding to allocate the moneys allocated to his Department in the next comprehensive spending review period; and if he will make a statement. [173007]

**Jonathan Shaw:** DEFRA's business planning and budgeting process is currently in hand for the period covered by the recent comprehensive spending review (CSR07). Allocations have not been finalised, but the likely costs of implementing the Marine Bill, including the costs of establishing the Marine Management Organisation and reforming Sea Fisheries Committees, are being taken into account.

### Fisheries

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to undertake research into developing market opportunities for low-value fish; and if he will make a statement. [173018]

**Jonathan Shaw:** Making low-value fish available and convenient to consumers is a key part of Fisheries 2027, a long-term vision for sustainable fisheries. I am discussing with stakeholders a draft delivery plan for Fisheries 2027, which sets out the shared responsibilities of those involved in the fisheries supply chain. This includes DEFRA's role. Fisheries 2027 is available in the Library of the House.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what discussions he has had with the European Commission on the classification of the *(a)* 10 metre and under fleet and *(b)* 10 metre and over fleet; whether there are any proposals to change this classification; and if he will make a statement. [173025]

**Jonathan Shaw:** I have had no discussions with the European Commission on any changes to the use of 10 metres as a division of the fishing fleet in the UK, and I am unaware of any proposals to change this classification.

### Fisheries: Quotas

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether he plans to implement a Quota Management Change Programme without Scotland's participation; and if he will make a statement; [172039]

(2) whether he plans to resume discussions with the devolved administrations on the Quota Management Change Programme; and if he will make a statement. [173021]

**Jonathan Shaw:** Following the Scottish Executive's withdrawal from the Quota Management Change Programme, DEFRA and the devolved Administrations are currently considering how to take forward work on quota management reform flowing from the change programme, and any other measures that might be necessary. As soon as this has been decided I will make an announcement.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) whether he plans to alter the proportion of 2008 quota received by the *(a)* producer organisations, *(b)* 10 metre and under fleet and *(c)* non-sector compared to the allocation for 2007; and if he will make a statement; [173019]

(2) what he estimates to be an appropriate amount of quota for the 10 metre and under fleet for each fish stock; and if he will make a statement; [173020]

(3) when he expects to announce proposals to reform the management of the 10 metre and under fleet; and if he will make a statement; [173022]

(4) whether he intends to allow 10 metre and under vessels to continue to lease quota from the producer organisations in 2008; and if he will make a statement. [173023]

**Jonathan Shaw:** The proportions of quota received by each sector of the fishing fleet are based on arrangements laid down in the UK's Quota Management Rules. I have no plans to change these arrangements for 2008.

Requirements for quota for each sector and each vessel vary throughout the year and between years in response to changing environmental and economic conditions. For this reason there is no single "appropriate amount of quota" for the under 10 metre fleet. In response, the Marine and Fisheries Agency adjusts quota holdings for the under 10 metre fleet throughout the year through quota swaps, donations from producer organisations and contributions through economic links.

The facility for the leasing of quota by under 10 metre vessels was introduced as a temporary measure for 2007. I am currently examining options to improve the management of the under 10 metre fleet, including the arrangements for access to quota by these vessels, and expect to make an announcement on this matter soon.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how much quota available to skippers in each sector has been unused in each year since 1997; and if he will make a statement. [173024]

**Jonathan Shaw:** Figures for the uptake of United Kingdom quotas of fish are published each year in Table 6.2 of the United Kingdom Sea Fisheries Statistics Tables published by the Marine and Fisheries Agency (MFA). This provides information on the level of quota and the landings of each fish stock (covering demersal, pelagic and shellfish species) for which the UK receives a quota. Information for the year 2006 is included in the latest edition, a copy of which has been placed in the Library of the House. Information for previous years is available online from the MFA website.

The MFA also publish information on the uptake of quotas in terms of the quota allocated and uptake by each producer organisation in the United Kingdom. The latest information on uptake in 2007 is available, and similar information related to activity in 2005 and 2006 is available on the MFA website.

Fisheries Administrations in the UK seek to work with the industry to facilitate maximum uptake of UK quota. Uptake of quotas by the UK industry varies from stock to stock in line with operational and business decisions made by the industry, as well as the effect of other constraints on fishing operations such as the various effort control regimes that exist. Uptake also varies from year to year as well as throughout the year.

## Fisheries: Science

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what funding has been provided for fisheries-related science in each year since 1997; and if he will make a statement. [173015]

**Jonathan Shaw:** The following table shows spending by DEFRA and the Ministry of Agriculture, Fisheries and Food on Marine Fisheries Science in each year since 1997. The figures show total spending, and also break this down into spend on Research and Development (R and D) and on monitoring and assessment work (non R and D).

Increases to the non R and D funds for 2004-06 reflect the introduction of a £1 million Fisheries Science Partnership initiative in 2004, and several increases to Capital Charges paid to the Centre for Environment, Fisheries and Aquaculture Science (CEFAS).

£

| | *R and D* | *Non R and D* | *Total* |
|---|---|---|---|
| 1997 | 3,091,018 | 4,664,238 | 7,755,256 |
| 1998 | 4,097,522 | 3,884,120 | 7,981,642 |
| 1999 | 3,074,360 | 4,224,513 | 7,298,873 |
| 2000 | 3,566,795 | 4,598,165 | 8,164,960 |
| 2001 | 3,354,031 | 4,621,959 | 7,975,990 |
| 2002 | 3,367,063 | 5,942,000 | 9,309,063 |
| 2003 | 3,243,581 | 5,942,000 | 9,185,581 |
| 2004 | 3,199,128 | 8,487,999 | 11,687,127 |
| 2005 | 3,168,882 | 9,985,000 | 13,153,882 |
| 2006 | 3,380,906 | 10,543,000 | 13,923,906 |

## Fisheries: Standards

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* targets and *(b)* deadlines for achieving them were set out in each Marine and Fisheries Business Plan published by his Department since 1997; which targets were (i) reached and (ii) not reached by the deadlines; and if he will make a statement. [173006]

**Jonathan Shaw:** DEFRA's Marine and Fisheries Directorate was established on 1 April 2006. Business plans were published for 2006-07 and 2007-08, and copies are available in the House of Commons Library. They set out the work and milestones of the directorate for this period, and the 2007-08 plan includes a review of the previous year's progress.

I am pleased to say that the Government have made considerable progress on a wide range of marine and fisheries issues. We published the Marine Bill White Paper in March 2007 and plan to publish the draft Bill next year.

We have delivered key UK objectives on a number of important marine and fisheries portfolios at European Council and international meetings, including changes to allow more informed decision making on fish quotas and technical regulations and on the Marine Strategy Directive.

There have been important improvements in fisheries management in response to the Prime Minister's Strategy Unit report "Net Benefits". We have also secured amendments to the London and OSPAR conventions to allow carbon storage on the sea bed. This has the potential to be a significant means of ameliorating the effects of carbon emissions.

## Fisheries: Subsidies

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how much fisheries-related funding was allocated from the EU to the UK in each year since 1997, broken down by *(a)* region and (b) fisheries administration; and if he will make a statement. [171682]

**Jonathan Shaw:** The fisheries-related allocations from the EU to the UK were as follows:

*1997-99*

*UK Objective 5a programme (England, Lowland Scotland, Wales)*

(The EU did not provide an allocation by region for this programme)

1997: 14.8 mecus (£10.2 million)

1998: 14.8 mecus (£10.2 million)

1999: 14.8 mecus (£10.2 million)

*UK Objective 1 programmes*

| | *Merseyside* | | *Scotland Highlands and Islands* | | *Northern Ireland* | |
|---|---|---|---|---|---|---|
| | *Mecus* | *£ million* | *Mecus* | *£ million* | *Mecus* | *£ million* |
| 1997 | 0.1 | 0.1 | 3.1 | 2.1 | 2.5 | 1.7 |
| 1998 | 0.1 | 0.1 | 3.1 | 2.1 | 2.5 | 1.7 |
| 1999 | 0.1 | 0.1 | 2.7 | 1.8 | 2.5 | 1.7 |

*Fisheries element of UK PESCA programme*

| | *England* | | *Lowland Scotland* | | *Scotland Highlands and Islands* | | *Wales* | | *Northern Ireland* | |
|---|---|---|---|---|---|---|---|---|---|---|
| | *Mecus* | *£ million* | *Mecus* | *£ million* | *Mecus* | *£ million* | *Mecus* | *£ million* | *Mecus* | *£ million* |
| 1997 | 0.9 | 0.6 | 0.4 | 0.3 | 0.6 | 0.4 | 0.02 | 0.01 | 0.1 | 0.04 |
| 1998 | 0.7 | 0.5 | 0.4 | 0.2 | 0.5 | 0.3 | 0.01 | 0.01 | 0.1 | 0.04 |
| 1999 | 0.8 | 0.6 | 0.4 | 0.3 | 0.6 | 0.4 | 0.02 | 0.01 | 0.1 | 0.04 |

*Total UK:*

1997: 21.8 mecus (£15.0 million)

1998: 21.6 mecus (£14.9 million)

1999: 21.4 mecus (£14.7 million)

*2000-06*

*UK Outside Objective 1 programme*

| | *England* | | *Lowland Scotland* | | *Wales* | |
|---|---|---|---|---|---|---|
| | *Meuro* | *£ million* | *Meuro* | *£ million* | *Meuro* | *£ million* |
| 2000 | 8.6 | 5.9 | 8.6 | 5.9 | 0.4 | 0.2 |
| 2001 | 8.8 | 6.0 | 8.8 | 6.0 | 0.4 | 0.2 |
| 2002 | 9.0 | 6.2 | 9.0 | 6.2 | 0.4 | 0.2 |
| 2003 | 9.2 | 6.3 | 9.2 | 6.3 | 0.4 | 0.2 |

| 2005 | 2.2 | 1.5 | 0.0 | 0.0 | 2.9 | 2.0 | 2.1 | 1.5 | 5.4 | 3.7 |
| 2006 | 2.0 | 1.4 | 0.1 | 0.1 | 1.9 | 1.3 | 2.1 | 1.4 | 5.4 | 3.7 |

*Total UK:*

2000: 24.0 meuros (£16.6 million)

2001: 32.9 meuros (£22.7 million)

2002: 35.1 meuros (£24.2 million)

2003: 33.5 meuros (£23.1 million)

2004: 30.3 meuros (£20.9 million)

2005: 30.2 meuros (£20.8 million)

2006: 29.6 meuros (£20.4 million)

## Fishing Catches

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs when he expects further proposals from the Commission Communication: A Policy to Reduce Unwanted By-catch and Eliminate Discards in European Fisheries (COM (2007) 136 final) to be discussed at a Fisheries Council meeting; and if he will make a statement. [173012]

**Jonathan Shaw:** I would expect the issue of discards to be a key topic of discussion during the negotiations surrounding the setting of total allowable catches (TACs) and quotas for 2008 at the December EU Fisheries Council.

The first Council debate was held at the June Agriculture and Fisheries Council and the Commission hopes to finalise a plan for implementation by the end of 2007 and develop and introduce legislative proposals during 2008.

The Commission published its policy paper containing proposals to address the problem of discarding on 28 March 2007. Member states and regional advisory councils among others have since been consulted by the Commission on its proposals in order to develop an implementation plan.

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with *(a)* his Belgian counterpart, *(b)* his Danish counterpart, *(c)* his French counterpart, *(d)* his Portuguese counterpart, *(e)* his Spanish counterpart and *(f)* the European Commission on the submission of discard data to the Commission's Scientific, Technical and Economic Committee for Fisheries; and if he will make a statement. [173013]

**Jonathan Shaw:** I have made clear to the Commission and other member states that I am concerned about the absence of adequate data on discards. I expect the Commission to be pressing those who have failed to deliver to provide the data as soon as possible. The Commission have assured me that this is a key priority for them.

Since 2002, all EU countries have been required to collect data on discarding under Council Regulation 1543/2000. Unfortunately, the information has not yet been systematically compiled.

A report published in November this year by the Subgroup on the Assessment of the Fishing Effort Regime of the Scientific, Technical and Economic Committee (STECF), presents an overview on 2003-2006 catch data reports (landings and discards) provided by EU member states with and without special conditions laid down in Annexes IIA-C of Council Reg. 41/2007. These are shown in the following table.

*According to 41/2007 Annexes IIA-C*

| *Country* | *Landings data 2003-2006* | *Discards data 2003-06* |
|---|---|---|
| Belgium | Landings, age composition (no special condition) | None |
| Denmark | Landings, age composition | Data not in the requested format |
| France | Landings, age composition, not for ICES Div. 8c-9a | None |
| Germany | Landings, age composition | Discards, age composition |
| Ireland | Landings, age composition (no special condition) | None |
| Netherlands | Landings, age composition (no mesh size for beam, no special condition) | Discards, age composition (no mesh size for beam, no special condition) |
| Portugal | Landings, age composition (only 2004-2006, no special condition for regulated gears) | None |
| Spain | None | None |
| UK England incl. Northern Ireland | Landings, age composition | Discards, age composition |
| UK Scotland | Landings, age composition | Discards, age composition |
| Sweden | Landings, age composition, not by quarter | Landings, age composition, not by quarter |

## Foot and Mouth Disease

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the costs associated with the 2007 outbreak of foot and mouth disease, broken down by subheading. [169446]

**Jonathan Shaw:** As of 26 November the estimated total cost of the foot and mouth disease (FMD) outbreak was in the region of £48.3 million and is broken down as follows:

| | *Costs (£000)* |
|---|---|
| Staff costs | 13,112 |
| FMD aid package for farming | 12,500 |
| Compensation costs | 793 |
| Cleansing and disinfecting costs | 1,792 |
| Vaccination and vaccine bank costs | 2,246 |
| Communications costs | 191 |
| Surveillance and diagnostic testing costs | 11,490 |
| Infected Premises and Local Disease Control Centre costs | 6,100 |
| Consultancy | 84 |
| Total | 48,308 |

## Foot and Mouth Disease: Disease Control

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what restrictions on movement remain in place to counter *(a)* foot and mouth and *(b)* bluetongue; and if he will make a statement. [171167]

**Jonathan Shaw:** For foot and mouth disease, there are some remaining movement restrictions in some boroughs and districts in the south east. These restrictions also prevent exports of meat and meat products from the area. A decision was agreed by EU member states on 3 December to allow live animal exports, which will come into force later in December. Details, and a map outlining the boundaries of these zones, can be found on the DEFRA website.

For bluetongue, a protection zone exists in East Anglia and south east England, and a wider surveillance zone is in place covering a large part of England except the north and south west. There are a number of restrictions relating to movements in and across these zones, and details can be found on the DEFRA website. We are keeping these restrictions under review with industry during the low vector period over winter.

### International Whaling Commission

**Mrs. James:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will make a statement on recent UK Government representations to the International Whaling Commission. [172563]

**Jonathan Shaw:** The UK plays a prominent role within the International Whaling Commission (IWC) in building and maintaining the coalition of anti-whaling countries. At this year's meeting, due in part to the UK's efforts to increase the number of anti-whaling countries within the IWC, the anti-whaling bloc regained the simple majority within the Commission.

This majority enabled the UK and our allies to pass several key resolutions, in which the IWC: called on Japan to halt it's lethal "scientific" research programme known as JARPA II; recognised the need to promote the non-lethal use of cetaceans (i.e. whale-watching); and reaffirmed the continuing need for the IWC moratorium on commercial whaling in the face of proposals to be considered by the Conference of Parties to the Convention on International Trade in Endangered Species (CITES) aimed at eventually permitting trade in some cetacean products.

### Marine and Fisheries Agency: Finance

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) when he will decide on the grants he will give to the Marine and Fisheries Agency for each of the next five years; and if he will make a statement; [173009]

(2) what account he will take of the likely costs to the Marine and Fisheries Agency of the proposed EU legislation on electronic recording and reporting of fish when deciding to allocate the moneys allocated to his Department in the next comprehensive spending review period; and if he will make a statement; [173010]

(3) what representations he has received from the Marine and Fisheries Agency on its budget for each of the next five years; and if he will make a statement. [173011]

**Jonathan Shaw:** As an Executive Agency of DEFRA, the Marine and Fisheries Agency participates in our business planning and budgeting process. Their applications for funding for the period covered by the comprehensive spending review are now being considered by DEFRA as part of that process. That process will also take into account the future spending requirements of the Agency to meet their statutory and policy delivery priorities. This includes those costs currently identified as necessary to cover the requirements of the proposed EU legislation on electronic recording and reporting of fish. However, final decisions on some aspects of the implementation of these requirements in the UK have yet to be taken. The Agency will seek additional funds if shown to be necessary.

### Pirbright Laboratory: Disease Control

**Mr. Roger Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps have been taken to prevent further leaks from the laboratory at Pirbright. [164406]

**Jonathan Shaw:** As soon as we became aware that Pirbright was a potential source of the foot and mouth disease (FMD) outbreak we put in place a number of additional safeguards at the Pirbright site. We immediately asked the Health and Safety Executive (HSE) and Professor Spratt to carry out reviews of biosecurity and subsequently accepted all of the recommendations in their reports. Since then, stringent new biosecurity conditions have been applied to work on the Pirbright site, providing several independent layers of safety and ensuring that the process is contained. For example, the drainage system has been relined and tested. These measures will ensure the highest level of biosecurity at Pirbright.

Additional measures have been implemented for the Institute of Animal Health, including tougher controls over access and on movement of people and vehicles, and an agreed protocol to prevent activities that could result in virus entering the drainage system. We have worked closely with the HSE and are satisfied that all necessary measures are in place to manage any risk of further virus release.

On 22 November, my right hon. Friend the Secretary of State (Hilary Benn) made a written statement, *Official Report*, columns 143-44WS, after Merial informed DEFRA officials of an incident that led to a possible leak of live virus into the contained drainage system.

A joint DEFRA, HSE and veterinary medicine directorate inspection team visited the site on 21 November. They confirmed that all work with live virus had stopped, and they carried out a detailed inspection.

The inspection team judged that, while it was possible that live FMD virus had entered the contained drainage system, they were assured that live virus had not been released into the environment. The extensive layers of biosecurity that we require under the Special Animal Pathogens Order licence effectively contained the virus in the closed, re-lined drainage system, before deactivation in the chemical treatment facility.

### Pork

**Danny Alexander:** To ask the Secretary of State for Environment, Food and Rural Affairs what consideration he has given to intervention buying of pork products to take excess supply from the UK market; what consideration he has given to the banning of pork imports which are not produced to British standards; and what steps he is taking to ensure pork products carry labelling indicating from which country the pork has been sourced. [172829]

**Jonathan Shaw** *[holding answer 10 December 2007]:* Intervention buying of pigmeat is governed by the EU pigmeat regime which includes provision for limited private storage aid under certain market conditions. Applications for private storage aid were recently opened for the period from 29 October to 4 December. Uptake in the UK was very low compared to the rest of the EU.

The vast majority of pigmeat imports into the UK are from EU countries and are, therefore, protected by single market legislation. There are very few areas in which UK law goes beyond the requirements of the EU minimum standards. The principal remaining difference between UK and other member states' pig welfare standards regards the use of sow stalls, where UK-type restrictions will not apply across the EU until 2013. World Trade Organisation rules currently do not allow us to restrict trade on animal welfare grounds.

All consignments of meat imported into the UK from other EU member states and third countries must have been produced in accordance with the harmonised animal and public health rules laid down in European Community legislation.

The Trade Descriptions Act 1968 and the Food Safety Act 1990 govern the use of labelling including that for country of origin. Any labelling that provides information on the origin of meat must not mislead consumers. Where meat has been processed, provided it is a substantial change, it is permissible to describe as its origin the country where that change took place. The Food Standards Agency (FSA) has lead responsibility for labelling and has issued guidance which suggests that if the absence of information might mislead consumers, both the origin of the meat and the country where the processing takes place should be declared in order to facilitate informed consumer choice. The FSA also leads on engagement in the EU's Review of Food Labelling and DEFRA is liaising with it to ensure that concerns such as country sourcing are taken fully into account.

We also welcome initiatives such as that of the British pig industry to develop a code of practice to help make consumers better informed about methods and origin of pigmeat production.

### Public Sector: Procurement

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment he has made of the effect of the public sector food procurement initiative on the animal welfare standards related to the production of the meat and eggs purchased by public sector bodies; and if he will make a statement; [173459]

(2) what the public sector food procurement initiative for public sector bodies concluded on the purchase of conventional battery eggs or food and meals using such eggs; and if he will make a statement. [173461]

**Jonathan Shaw:** No such assessment has been made.

The public sector food procurement initiative (PSFPI) does not contain any specific guidance on purchasing eggs. However, objectives which apply to all food purchases include: increasing tendering opportunities for small and local food producers; raising standards of production; and, addressing barriers to supply. We have recently published a new guide, "Putting it into practice", which promotes animal welfare along with other PSFPI objectives.

### Seas and Oceans

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what his estimate is of the costs to the public purse of introducing the measures proposed in the Marine Bill White Paper over the next 10 years; and if he will make a statement. [173008]

**Jonathan Shaw:** In the partial regulatory impact assessment, published with the Marine Bill White Paper, we have set out the estimated costs and benefits of our proposals. We are updating that assessment and will publish it next year alongside the draft Marine Bill.

### Seas and Oceans: Biodiversity

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 4 December 2007, *Official Report*, columns 1097-8W, on seas and oceans: biodiversity, which special areas of conservation he has identified beyond the 12 nautical mile limit; what measures he is taking to protect these areas; and if he will make a statement. [173014]

**Jonathan Shaw:** We are finalising our Natura 2000 network of sites in the marine area, which we hope to substantially complete by 2012. We expect to send an initial tranche of candidate offshore special areas of conservation to the European Commission before September 2008.

The Joint Nature Conservation Committee will be consulting on seven initial sites later this month. These include: Braemar Pockmarks, Darwin Mounds, Haig Fras, North Norfolk Sandbanks and Saturn Reef, Scanner Pockmark, Stanton Banks and Wyville Thomson Ridge.

At the time of the consultation the sites are not European offshore marine sites so the Offshore Marine Conservation (Natural Habitats, &c.) Regulations 2007 do not apply as a matter of law or as a matter of policy. However, DEFRA will consider what action might reasonably be taken to protect sites. Consenting authorities are encouraged to take note of proposals in consideration of any licensing or consenting decisions that may affect sites.

If the Joint Nature Conservation Committee (JNCC), as our scientific nature conservation advisers, advised us that potential offshore sites were being damaged by fishing activities, we would approach the Commission to ask them to consider proposing protective measures. The JNCC have not indicated that there is any such damage occurring in our current potential sites.

Our programme of data collection and survey work will continue to identify further sites required to complete the UK network.

### Slaughterhouses: Religious Practice

**Mr. Bone:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will bring forward proposals to regulate the halal slaughter industry in order to assist the identification of such produce throughout the wholesale process. [171938]

**Dawn Primarolo:** I have been asked to reply.

The Government recognise that some purchasers may wish to have access to this information. However, they have no plans to bring in legislation in this area. There is, of course, nothing to prevent food businesses from providing this information throughout the supply chain on a voluntary basis.

### Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Environment, Food and Rural Affairs which executive agencies and non-departmental public bodies for which his Department is responsible provide a customer contact service; and which of these are 0800 or 0845 numbers. [173205]

**Jonathan Shaw:** All of DEFRA's executive agencies and non-departmental public bodies provide public contact points for enquiries. Details are available on their websites.

In addition, the following DEFRA sponsored bodies offer a substantive customer contact service:

| *Delivery body etc.* | *Customer contact service* | *Use of 0800 or 0845 numbers?* |
|---|---|---|
| DEFRA | DEFRA Helpline | Yes |
| Animal Health | National Scrapie Plan, Welfare in Transit, Pet Travel scheme, Helpline | Yes |
| Rural Payments Agency | Rural Payments Agency Customer Service Centre, British Cattle Movement Service | Yes |
| Environment Agency | National Customer Contact Centre provides a single point of contact for the Agency's customers | Yes |
| Natural England | National Enquiry line | Yes |
| British Potato Council | Market Information function | No |

### Thames and Severn Canal

**Mr. Clifton-Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs for how long the scheme proposing the restoration of the Thames and Severn canal has been in place. [172705]

**Jonathan Shaw:** The Cotswold Canals Trust was established in 1972, with the vision of restoring these canals to navigation. The regenerative benefits of the proposed restoration was recognised by the local community and local authorities by the early 1990s. The Cotswold Canals Partnership—made up of 17 stakeholders—was formed in 2001 and is leading the restoration of the canal.

**Mr. Clifton-Brown:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to publish the MWH report into the Thames and Severn canal. [172706]

**Jonathan Shaw:** The Montgomery Watson Hydrological study into the feasibility of water supply to the restored canals is well advanced, and is currently being reviewed by British Waterways in consultation with the Environment Agency. I understand that it will be published once the study is fully complete.

### Whales

**Mrs. James:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent representations he has made to countries who permit whaling. [172413]

**Jonathan Shaw:** The UK Government have consistently voiced their strong opposition to countries engaged in lethal 'scientific' and commercial whaling programmes.

Last year the UK took part in two demarches presented to the Japanese Government regarding their 'scientific' whaling operations: in January 2006 over the JARPA II whaling programme, and a similar protest in December 2006.

In April 2006, the British Charge d'Affaires in Oslo delivered a demarche to the Norwegian Government, on behalf of the UK and 11 other countries, urging it to stop its commercial whaling programme.

In November 2006, the UK led a diplomatic demarche of 25 countries, together with the European Commission, in condemning the Icelandic Government's decision to resume commercial whaling.

### Whales: Research

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs what proposals he has made in international institutions to prevent the killing of humpback whales for scientific research. [173385]

**Jonathan Shaw** *[holding answer 11 December 2007]*: At the annual meetings of the International Whaling Commission (IWC), the UK regularly co-sponsors resolutions calling on those countries which undertake lethal whaling operations for the ostensible purpose of scientific research to desist from these activities. We also participate in high-level diplomatic protests to the Japanese Government on this issue. In more general discussion on the future of the IWC, we have argued that the international convention for the regulation of whaling should be amended to close the loophole that renders such operations legal. Were such an amendment formally proposed, it would only take effect if all parties to the convention ratified it. This seems an unlikely outcome.

## CHILDREN, SCHOOLS AND FAMILIES

### Academies: Fire Extinguishers

**Bob Russell:** To ask the Secretary of State for Children, Schools and Families how many academies there are; and how many of these have been fitted with fire sprinkler systems. [171229]

**Jim Knight:** I refer the hon. Member to the reply given on 13 November 2007, *Official Report*, column 150W, and to the reply given on 13 November 2007, *Official Report*, column 154W.

### Academies: General Certificate of Secondary Education

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many pupils were entered for each subject at GCSE and equivalent qualifications in 2007 by each academy school; how many achieved each grade in each academy; and if he will make a statement. [172749]

**Jim Knight:** 2007 GCSE and equivalent results for each school—including those for academies—are not available until their publication in the secondary school achievement and attainment tables in January 2008. However, the Department does not produce reports showing individual subject level results for each individual school—including academies. Such a report could be produced only at disproportionate cost.

### Academies: Pupil Exclusions

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many permanent exclusions there were from each academy in each year since 2002-03; how many there were in those schools in the year before academy status was granted; and if he will make a statement. [172084]

**Kevin Brennan:** The number of permanent exclusions from each academy in each year since 2002-03 to 2005-06 is provided in the table. Exclusions data relating to the 2006-07 school year are expected to be available in June 2008.

Information on the number of exclusions from the predecessor schools of each academy could be provided only at disproportionate costs.

Exclusions in academies are high relative to national averages. However, academies are placing great emphasis on getting the basics right and improving behaviour in particular. Academies often inherit a large number of disengaged pupils and need to establish good behaviour in order to raise attainment. As the new ethos and behaviour policy are enforced in an academy's early days, the number of exclusions may rise, but it typically drops down as behaviour improves. This phenomenon is not unique to academies—the same effect is often observed when a new head teacher transforms a struggling maintained school.

*Academies: number of permanent exclusions[1, 2] 2002-03 to 2005-06, schools in England*

| | | Number of permanent exclusions | | | |

n/a = not applicable

[1] Figures are as reported by schools and are unconfirmed.

[2] It is possible that in some cases exclusions from a predecessor school have been transferred across to the academy. This may have happened in only a small number of cases and only in the first year of the academy's operation.

[3] One or two exclusions

*Source:*

School Census

### Assessments: Standards

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families whether any of the key stage 3 English tests are marked overseas; and if he will make a statement. [172505]

**Jim Knight:** The eligibility criteria for markers of key stage 3 English tests include a requirement that they have an address in the United Kingdom for delivery of scripts.

### Children: Databases

**Tim Loughton:** To ask the Secretary of State for Children, Schools and Families what the timescale is for publication of the report his Department commissioned from Deloitte on ContactPoint's security procedures. [171698]

**Kevin Brennan:** Given the obvious importance of ensuring that ContactPoint has extremely robust security measures in place, on 20 November, the Secretary of State asked for an independent assessment of ContactPoint's security procedures—to be conducted by Deloitte.

The findings will be compared with the international security standard ISO27001, which defines the requirements for an information security management system, and the Government's own Manual of Protective Security (MPS) standards. The expectation is that the independent assessment will report back to the Secretary of State at the end of January 2008. We plan, thereafter, to make public the key findings of Deloitte's report.

### Children: Equal Opportunities

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to widen equality of opportunity for children since 1997. [169327]

**Jim Knight:** Since 1997, with the support of teachers and practitioners, we have achieved an unprecedented increase in school standards. And, in the context of raising school standards, we have also met the challenge of broadening equality of attainment for many under-achieving groups. Our continued focus is to raise school standards and deliver a world class education system where every child, irrespective of gender, race, disability or background, receives the best possible education, personalised to their needs, aptitudes and aspirations.

Doubling funding per pupil in real terms since 1997, record number of adults in the classroom, our national strategies, our focus on literacy and numeracy, personalised learning, progression, curriculum changes, behaviour, academies and a better choice of schools—all these actions and achievements will continue to support this effort. Additionally, targeted interventions to address disadvantage and promote equality, such as City Challenge, Aiming High, approaches to benefit boys' attainment where they have been under-achieving, attracting more girls into physics, addressing prejudice driven bullying, and increased school funding for children from poor families, with special needs and/or with English as an additional language, will continue to support this effort.

In addition to raising school standards we have made a number of far-reaching policy commitments to widen equality of opportunity for children. The cross-Government Every Child Matters programme will secure an expansion of early education, the development of Children's Centres and extended schools and the development of integrated multi-agency working to support children and young people with additional needs.

Our 14 to 19 reforms will ensure equality of opportunity for all young people. We are creating an entitlement for every young person to be able to study the new Diplomas, and this will require schools, colleges and other providers to work together to deliver these new courses to all young people in their area. Diplomas will be offered at Levels 1, 2 and 3, and will include Functional Skills, so that young people get a real grounding in basic English, maths and ICT as well as more subject-specific knowledge. The entitlement to Diplomas is in addition to the existing National Curriculum offer, and will give young people much greater choice about what and where they study.

We are working hard to tackle problems of disengagement and low attainment. The 14 to 19 reforms not only offer a broader curriculum, but also one with clearer pathways from Entry Level through to Level 2 qualifications and beyond. We want as many young people as possible to attain Level 2 qualifications by the time they reach the age of 19, as we believe it is Level 2 qualifications which will give them real employability.

We want as many young people as possible to stay in education and training until the age of 18 so that they can maximise their potential and gain the key skills which will enable them to be successful in employment and in life. We will raise the compulsory education and training leaving age to 18 to ensure that all young people have as much of an opportunity as possible to set themselves up with key life skills.

We will set out our commitments in more detail in the forthcoming Children's Plan.

### Children: Exercise

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families (1) what recent estimate he has made of the proportion of five to 16-year-olds taking part in at least two hours high quality PE and school sport within and beyond the curriculum in each week; and if he will make a statement; [172156]

(2) how much has been spent in each local authority on delivering the PE, school sport and club links strategy since 2003; and if he will make a statement. [172157]

**Kevin Brennan:** The annual PE and school sport survey collects data relating to participation in PE and school sport. The 2006/07 survey found that 86 per cent. of pupils take part in at least two hours of high quality PE and school sport a week.

Investment in the PE, school sport and club links strategy has been £978.5 million in the five years to 2008. Funding is routed through School Sport Partnerships and partner organisations rather than local authorities.

### Children: Poverty

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to reduce the number of children living in poverty since 1997. [169326]

**Beverley Hughes:** The Government are working to halve child poverty by 2010-11 and eradicate it by 2020. Since 1997, many steps have been taken to improve financial support for families, provide employment opportunities for all, provide support when people cannot work, tackle material deprivation through promoting financial inclusion and better housing and improve children's life chances and break cycles of deprivation (as set out in "Child Poverty Review" (July 2004) HM Treasury). A total of 600,000 UK children have been lifted out of relative poverty since 1998/99, (both before and after housing costs). The number of children in absolute poverty (before housing costs) has been more than halved since 1998/99.

The Government have recently published a Delivery Agreement (DA), underpinning the Child Poverty Public Service Agreement (PSA) which, alongside other delivery agreements aimed at improving outcomes for children and young people, also impacts on child poverty. These comprise agreements aimed at narrowing the gap in educational achievement, raising educational attainment, improving children's health and well being, increasing the number of young people on the path to success, and improving the safeguarding of children. The Child Poverty Unit has also been set up to drive forward the Government's commitment to eradicate child poverty by bringing together policy and analytical civil servants from the Department for Work and Pensions and the Department for Children, Schools and Families.

### Children's Centres: Low Incomes

**Bob Russell:** To ask the Secretary of State for Children, Schools and Families what guidance his Department provides to low income key workers who are parents of twins, triplets or greater multiple births and wish to arrange childcare via their local Sure Start Children's Centre. [173270]

**Beverley Hughes:** The Department does not provide guidance directly to parents who wish to arrange childcare via their local Sure Start Children's Centre. Our guidance for local authorities and children's centre managers (Sure Start Children's Centres Planning and Performance Management Guidance November 2006) makes it clear that all centres should provide advice and information for parents about local childcare options. Those centres serving the most disadvantaged communities will include early years provision (integrated early learning and full daycare places) within the services they offer at the centre.

Parents can find out about local childcare options by contacting their local Children's Information Service on freephone 0800 2 346346 or on line at

www.direct.gov.uk/childcare.

### Class Sizes

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many key stage 2 pupils were in classes of 30 pupils or more in each year since 1996. [172092]

**Jim Knight:** The available information is given in the table.

*Maintained primary schools[1]: key stage 2 classes as taught[2] Position in January each year 1996 to 2007: England*

| | Number of pupils in classes of 31 or more pupils | Percentage of pupils in classes of 31 or more pupils |
|---|---|---|
| 1996 | 724,250 | 36.0 |
| 1997 | 779,530 | 37.9 |
| 1998 | 832,670 | 39.9 |

*Maintained primary schools[1]: key stage 2 classes as taught[2] Position in January each year 1996 to 2007: England*

| | Number of pupils in classes of 31 or more pupils | Percentage of pupils in classes of 31 or more pupils |
|---|---|---|
| 1999 | 835,260 | 39.4 |
| 2000 | 814,310 | 38.2 |
| 2001 | 747,090 | 34.6 |
| 2002 | 635,820 | 30.1 |
| 2003 | 550,620 | 27.4 |
| 2004 | 509,960 | 25.5 |
| 2005 | 498,550 | 24.9 |
| 2006 | 477,480 | 24.3 |
| 2007 | 448,500 | 23.0 |

[1] Includes middle schools as deemed.

[2] Classes as taught by one teacher during a single selected period in each school on the day of the Census in January each year.

*Note:*

Numbers have been rounded to the nearest 10. There may be discrepancies between the sum of constituent items and totals as shown.

School Census

## Class Sizes: Cleethorpes

**Shona McIsaac:** To ask the Secretary of State for Children, Schools and Families what the ratio of pupils to teachers was in *(a)* primary and *(b)* secondary schools in Cleethorpes constituency in the latest period for which figures are available. [172517]

**Jim Knight:** The following table provides the pupil:teacher ratios in local authority maintained primary and secondary schools in Cleethorpes constituency and England in January 2007.

*Pupil:teacher ratios in local authority maintained primary and secondary schools in Cleethorpes constituency and England, January 2007*

| | Cleethorpes constituency | England |
|---|---|---|
| Primary | 22.2 | 21.8 |
| Secondary | 17.1 | 16.5 |

*Source:*

School Census.

## Departmental Data Protection

**Mr. Hayes:** To ask the Secretary of State for Children, Schools and Families (1) what steps his Department has taken to protect the personal data on members of the public which it holds; [171425]

(2) how many documents sent either to or from the Department have been reported as missing in the past year. [171039]

**Kevin Brennan:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

## Departmental Manpower

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many staff work in his Department, broken down by area of responsibility; and if he will make a statement. [172550]

**Kevin Brennan:** 2,923 staff work in the Department. The following table provides a breakdown of this figure by area of work, as covered by each of the directorates:

| *DCSF directorate* | *Number of staff* |
|---|---|
| Children and families directorate | 526 |
| Communications directorate | 287 |
| Corporate services directorate | 899 |
| Schools directorate | 777 |
| Young people directorate | 309 |
| Private office | 53 |
| Legal advisers office | 7 |
| Internal audit | 38 |
| Non-directorate | 27 |
| DCSF Total staff (headcount) | 2923 |

## Education: ICT

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to widen the availability of technology in support of learning. [165421]

**Jim Knight:** The Government set their strategy for technology in education in their Harnessing Technology document published in 2005. The priorities for the strategy are underpinned by a number of system-wide and sector-specific actions applying to the children's services, schools, 14 to 19, HE and lifelong learning sectors. In addition, there have been targeted programmes to put ICT in the homes of the most disadvantaged pupils, and a taskforce, set up earlier this year to look at how we might ensure sustainable access for all school age learners, is due to report next year.

## Education: Local Authorities

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families if he will rank local authorities by *(a)* percentage change in real spending on education and *(b)* percentage improvement in five A*-C GCSE results since 1997-98. [172105]

**Jim Knight:** The requested information for *(a)* has been provided in the following table. The available information for *(b)* about the percentage improvement in five A*-C GCSE and equivalent in each local authority for each year since 1977-98 is published in the Secondary School Achievement and Attainment tables in the Library of the House.

| *Local authority* | *1997-98* | *2005-06* | *Percentage increase between 1997-98 to 2005-06* |
|---|---|---|---|
| Middlesbrough | 3,136 | 4,837 | 54 |
| Stoke-on-Trent | 2,924 | 4,462 | 53 |
| Hartlepool | 2,965 | 4,467 | 51 |
| Salford | 3,012 | 4,534 | 51 |
| Rochdale | 3,023 | 4,539 | 50 |
| Gateshead | 2,931 | 4,396 | 50 |
| Blackburn with Darwen | 3,113 | 4,655 | 50 |

| *Local authority* | *1997-98* | *2005-06* | *Percentage increase between 1997-98 to 2005-06* |
|---|---|---|---|
| Oldham | 2,989 | 4,467 | 49 |
| Sandwell | 3,033 | 4,502 | 48 |
| South Tyneside | 3,027 | 4,492 | 48 |
| Halton | 3,109 | 4,609 | 48 |
| Dudley | 2,716 | 4,021 | 48 |
| Birmingham | 3,242 | 4,791 | 48 |
| Nottingham | 3,322 | 4,906 | 48 |
| Redcar and Cleveland | 2,968 | 4,378 | 48 |
| Cumbria | 2,840 | 4,187 | 47 |
| Ealing | 3,576 | 5,270 | 47 |
| Wolverhampton | 3,100 | 4,563 | 47 |
| Bradford | 3,113 | 4,579 | 47 |
| West Berkshire | 2,945 | 4,327 | 47 |
| Bristol, City of | 3,022 | 4,439 | 47 |
| Bolton | 2,908 | 4,266 | 47 |
| Sunderland | 2,979 | 4,370 | 47 |
| Stockton-on-Tees | 2,926 | 4,290 | 47 |
| Rutland | 2,792 | 4,093 | 47 |
| Reading | 3,177 | 4,654 | 46 |
| Walsall | 2,942 | 4,309 | 46 |
| Durham | 2,928 | 4,279 | 46 |
| St. Helens | 2,942 | 4,300 | 46 |
| Tower Hamlets | 4,666 | 6,818 | 46 |
| Manchester | 3,446 | 5,030 | 46 |
| Bury | 2,783 | 4,059 | 46 |
| Islington | 4,456 | 6,488 | 46 |
| Tameside | 2,859 | 4,163 | 46 |
| North Tyneside | 2,885 | 4,191 | 45 |
| Darlington | 2,885 | 4,188 | 45 |
| Doncaster | 3,005 | 4,357 | 45 |
| Wakefield | 2,856 | 4,141 | 45 |

*Notes:*

Price Base: Real terms at 2006-07 prices, based on GDP deflators as at 26.09.07

2. Figures reflect relevant sub-blocks of Standard Spending Assessment/Education Formula Spending (EFS) settlements and exclude the pensions transfer to EFS and LSC.

3. Total funding also includes all revenue grants in DCSF departmental expenditure limits relevant to pupils aged 3 to 19 and exclude education maintenance allowances (EMAs) and grants not allocated at LEA level. For those authorities in receipt of advance of grant under the transitional support arrangements for 2004-05, advance grant funding is included in the year of payment (2004-05). There will be a consequential reduction in DCSF grant for these LEAs in future years (either 2006-07 and 2007-08 or 2006-07 to 2008-09, depending on the terms on which the advance was given to the LEA).

4. The pupil numbers used to convert £m figures to £ per pupil are those underlying the SSA/EFS settlement calculations plus PLASC three year old maintained pupils and estimated 3 to 4 year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.

5. Figures are rounded to the nearest £.

6. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.

7. Figures are in real terms at 2006-07 prices.

## Education: Research

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how much his Department spent in educational research in each year since 1997; and if he will make a statement. [172746]

**Jim Knight:** I have interpreted 'educational research' to mean social research commissioned by the Department in all its guises since 1997. Until September 2004 social research funded from budgets other than the Department's central research budget was not monitored centrally; to gather that information now would incur disproportionate costs given the many changes to the structure of the Department over the years. The amounts recorded centrally as spent by the Department in each year since 1997 are as follows:

| | £ |
|---|---|
| 1997 | 4,573,628 |
| 1998 | 5,485,589 |
| 1999 | 8,751,496 |
| 2000 | 12,692,912 |
| 2001 | 12,014,947 |
| 2002 | 13,770,227 |
| 2003 | 16,523,705 |
| 2004 | 23,322,938 |
| 2005 | 20,280,123 |
| 2006 | 24,466,756 |
| 2007 | 26,770,579 |

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what educational research was commissioned by his Department *(a)* internally and *(b)* externally in each month from November 2006 to December 2007. [172769]

**Jim Knight:** Since November 2007 the Department has commissioned external suppliers to undertake 75 research projects. The monthly breakdown of these follows. The Department does not hold information centrally about the research that is commissioned internally; to collect this now would incur disproportionate costs. The Department's analytical strategy, which is currently being updated to reflect the recent machinery of government changes, contains details of our high-level analytical priorities that are being addressed by both internally and externally commissioned work.

*DCSF Externally Commissioned Research between November 2006 to December 2007*

*November 2006:*

Case management and outcomes for neglected children: A five-year follow-up study of neglected children who have been looked after and reunified

Evaluation of 'Taking the Chair' (national development programme for chairs of governing bodies and head teachers)

Evaluation of the early learning partnerships

International civic and citizenship education study

Noticing and helping the neglected child: a review of the literature

The views of young people and their experience of education

2006-07 school sport survey

What role for the 3Rs? progress and attainment during primary school

*December 2006*

Evaluation overlap co-ordination: targeted youth support pathfinders, budget holding lead professional and parenting early intervention

Further analysis for the development of the 10-year youth strategy—Phase 1

Evaluation of the primary social and emotional aspects of learning (SEAL) work

*January 2007*

Research on three- and four-year-old pathfinders

Understanding the contribution of Sure Start local programmes to the task of safeguarding children's welfare

Review of the national adoption register for England and Wales and the independent review mechanism in England

Connexions direct website evaluation 2007

OECD thematic review of school to work transition

Evaluation of the first phase of health-led parent support demonstration sites

Behavioural impact of changes in the Teachers Pension Scheme

Office of Manpower Economics teachers' workload diary survey

Determine the optimum supply of children's residential care

Review of capacity in the parenting support market

*February 2007*

Evaluation of disagreement resolution services

The evaluation of the high performing specialist schools programme and specialist special schools

*March 2007*

Commissioning and dissemination costs for the safeguarding children initiative

International civic and citizenship education study (international fees)

Phase 2 further analysis for the development of the 10-year-old youth strategy

An evaluation of education related parenting contracts

Promotion of and training for the children's services statistical neighbour benchmarking tool

*April 2007*

A review of existing evidence around the benefits of raising the participation age to 18

Evaluation of local authority commissioning Pathfinders

Evaluation support to the re-ach project

Exploring issues surrounding post-16 participation in education and training

Formalised peer mentoring pilot (Phase 2)

Hosting the June 2007 meeting of the OECD's technical group for indicators of education systems

Local safeguarding children's boards programme

Programme for international student assessment: national project management for PISA 2009

A review of how fathers are recognised and supported through DCSF policy

Evaluating the impact of the UK resilience programme

Local authority music services provision for key stages 1 and 2

*May 2007*

Evaluation of the enhanced key skills support programme

Independent learning: a review of the evidence

Literature review on complex expression and punctuation

National centre for excellence in the teaching of mathematics (NCETM)

Parents' involvement in children's education 2007

Improving the outcomes for Gypsy, Roma and Traveller pupils

A review of existing evidence around the benefits of raising the participation age to 18—economic assessment of the benefits

Review of research centres

*June 2007*

An evaluation of the impact of secondary social and emotional aspects of learning (SEAL) programme

Evaluating the impact of the UK resilience programme—base line data collection

International perspectives on parenting support

Programme for international student assessment: national project management for PISA 2009

Raising the participation age in education and training to 18: review of existing evidence of the benefits and challenges

Towards the new children in need census

Disabled children: numbers, characteristics and local service provision

*July 2007*

Evaluation of choice advisers

Evaluation of the progression pilot

Literature review on inference and deduction skills for reading

Research into work force remodelling strategies and their impact on school standards

Research to explore how transport barriers to 14 to19 participation can be overcome

The opinions of younger people about the London 2012 Olympic and Paralympic Games

Evaluation of the London student pledge

*August 2007*

Definitions of LA services and guidance for children in need

Reviewing diploma development: an evaluation of the design of the diploma qualifications

*September 2007*

After school science and engineering clubs

An investigation of the role of the voluntary and community sector in supporting parents and families

Health-led parenting project review of health-led interventions in pregnancy and early years

Investigation of the role of schools with foundations

Research into the allocation of special educational needs allowances in England and Wales

Review of section 58 of Children Act 2004—parental opinion survey

Evaluation of sustainable modes of travel strategies

*October 2007*

In-depth understanding of parents and children and carers and young people

Survey of parents and carers and children and young people

The training and development requirements of senior local leaders and managers of children's services

*November 2007*

Byron review on the impact of new technologies on children: research literature review

Development in the first three sweeps of the millennium cohort study

## English Language: Assessments

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families whether any maintained schools have declined to have their pupils take the key stage 3 English tests; and if he will make a statement. [172504]

**Jim Knight:** No schools declined to enter pupils for the key stage 3 English tests in May 2007.

### Financial Services: Education

**Mr. Hoban:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the curricular time needed for the teaching of financial capability at key stages 3 and 4. [173183]

**Beverley Hughes:** No formal assessment has been undertaken. It is for schools themselves to decide how to organise their timetables, including how much time to spend teaching each subject, working within National Curriculum requirements. To help schools plan for delivery of the new secondary curriculum, the National College of School Leadership and the Specialist Schools and Academies Trust are running joint regional events for secondary school leaders and curriculum planners on whole curriculum design, to help them think through the process of designing and timetabling a curriculum in their own schools.

**Mr. Hoban:** To ask the Secretary of State for Children, Schools and Families what plans he has to monitor and audit the implementation of financial capability education at key stages 3 and 4. [173184]

**Beverley Hughes:** From September 2008, a new dedicated 'Economic wellbeing and financial capability strand will be introduced at key stage 3 and 4, as part of a revised curriculum for Personal, Social, Health and Economic (PSHE) education. In September, my hon. Friend the Secretary of State for Children, Schools and Families announced £11.5 million new funding over three years to support the teaching of financial education in schools. We are in the process of appointing a contractor to develop and implement a programme of support for schools in this area. The impact of this programme will be measured by independent evaluation, assessing outcomes through interaction with teachers, pupils and other key stakeholders. We will also use Ofsted evidence and research conducted by the Financial Services Authority to judge the effectiveness of our approach.

### Free School Meals

**Mr. Frank Field:** To ask the Secretary of State for Children, Schools and Families how many children were *(a)* eligible for and *(b)* in receipt of free school meals in the latest period for which figures are available, broken down by eligibility criteria. [172405]

**Jim Knight** *[holding answer 10 December 2007]*: 1,088,610 children were eligible for and 859,000 were in receipt of free school meals in January 2007, the latest date for which data are available. Information broken down by eligibility criteria is not collected centrally.

The figures quoted are from the School Census of January 2007 and are rounded to the nearest 10. They cover LA maintained nursery, primary and secondary schools (including middle schools) and dually registered and boarding pupils.

### Free School Meals: Child Tax Credit

**Mr. Frank Field:** To ask the Secretary of State for Children, Schools and Families how many children of recipients of child tax credit were *(a)* eligible for and *(b)* claiming free school meals in the latest period for which figures are available. [172404]

**Kevin Brennan** *[holding answer 10 December 2007]*: The requested information is not available.

### Head Teachers: Pay

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what freedom *(a)* academies and *(b)* other maintained schools have to set head teacher pay; what local authority approval over pay levels is required; and if he will make a statement. [172086]

**Jim Knight:** Academies are independent schools. One of their key features is the freedom to be innovative in the way they reward and retain staff, including their principals. However, we know that many academies base their pay and conditions on the School Teachers' Pay and Conditions Document (STPCD), which governs the pay of teachers and heads at maintained schools.

Under the STPCD, heads at maintained schools must be paid on a seven-point range on the leadership group spine, but there are a number of flexibilities as to the basis for determining the range. Heads may also receive recruitment and retention incentives and benefits. Pay decisions are the responsibility of the governing body in all maintained schools with delegated budgets, and no local authority approval of decisions is required.

### History: Ethnic Groups

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government has taken to encourage schools to teach Black history. [166960]

**Jim Knight:** This Department is committed to supporting equality and diversity through the National Curriculum. The revised secondary curriculum for history, to be taught from September 2008, now includes compulsory study of the "British Empire and its impact on different people in Britain and overseas, pre-colonial civilisations, the nature and effects of the slave trade, and resistance and decolonisation". To mark the bicentenary of the abolition of the slave trade a new resource pack for teachers was developed by the Understanding Slavery Initiative as a key element of a national competition for schools, funded by the Government. In addition, the new Citizenship curriculum, aligned with the history curriculum, covers "Living together in Modern Britain", including themes on immigration, the Commonwealth, and links to the study of the British Empire in history. In line with the recommendations of Sir Keith Ajegbo's review of diversity, the new citizenship curriculum will ensure young people will develop a historical understanding of issues that have shaped contemporary life in the UK and the values we share.

### Literacy: Standards

**Dr. Kumar:** To ask the Secretary of State for Children, Schools and Families (1) what estimate he has made of levels of literacy amongst school children in *(a)* England, *(b)* Teesside and *(c)* Middlesbrough South and East Cleveland constituency in each of the last 10 years; [171765]

(2) what steps his Department is taking to improve standards of literacy among school children; and if he will make a statement. [171766]

**Jim Knight:** There have been significant improvements in the standards of literacy in primary schools. This year 80 per cent. of pupils achieved the target level 4 and above in English, an increase of 17 percentage points compared to 1997.

We have a strong platform for securing further improvements. From this autumn every primary school is using the renewed primary framework which puts phonics at the heart of the teaching of reading. We are also introducing nationally the Every Child A Reader (ECAR) programme. By 2011 this programme will provide 30,000 six-year-olds who have difficulty reading with intensive one-to-one tuition each year.

We are also developing a new programme of intensive support for writing in primary schools—Every Child a Writer—to ensure that every teacher uses the best teaching methods, including one-to-one coaching, in areas of writing which primary children find hardest to master.

The time series for Middlesbrough South and East Cleveland are shown in the following table below, but data are not yet available for 2007. The figures for Teeside are not published and therefore cannot be provided except at disproportionate costs. For England, comprehensive figures for all key stages with time series are published in the Statistical First Releases available in the House of Commons Library.

*Key stages 1, 2, 3 and 4 results by Parliamentary constituency of school 1997-2006 Middlesbrough South and East Cleveland*

| | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |

[1] Figures for 5+A*-C including English and maths not available from 1998 to 2004

### Primary Education: Gloucestershire

**Mr. Drew:** To ask the Secretary of State for Children, Schools and Families what discussions Stroud district council has had with *(a)* Gloucestershire city council and *(b)* his Department on a proposal to open a new primary school at Hunts Grove. [171017]

**Jim Knight:** The Department has not had any discussions with Stroud district council about proposals to establish a new primary school at Hunts Grove. It would be for Gloucestershire county council to confirm whether they have had such discussions with the district council.

The normal route by which a new school can be established is for a local authority (LA) to run a competition, which enables a range of providers to put forward proposals for the new school The process involves six statutory stages: Consultation; Published Notice Inviting Bids; Published Notice Summarising Bids; Representations; Decision; and Implementation. Our guidance on establishing new schools requires the LA to inform the Department when it begins the consultation stage. We have not been informed that Gloucestershire LA is consulting on plans for a new school in Hunts Grove.

### Primary Education: Newcastle

**Mr. Henderson:** To ask the Secretary of State for Children, Schools and Families what percentage of parents did not receive their first choice of primary school for their children in the Newcastle local education authority area in the last period for which figures are available. [172758]

**Jim Knight:** Data on the percentage of parents who do not receive their first choice of primary school are not collected centrally.

### Publications

**Tim Loughton:** To ask the Secretary of State for Children, Schools and Families (1) when his Department commissioned the report on the Integrated Children's System: An Evaluation of the Practice, Process and Consequences of the ICS in CSSRs; [171697]

(2) when he plans to publish the report commissioned by his Department on the Integrated Children's System: An Evaluation of the Practice, Process and Consequences of the ICS in CSSRs; and when his Department received the report. [171705]

**Kevin Brennan** *[holding answer 5 December 2007]*: The study was commissioned in June 2004. The first draft of the report was received in September 2006. A summary of the key findings from the research is being prepared for publication on the Department's website in early 2008.

### Pupil Exclusions: Males

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many fixed period exclusions there were of boys in each local authority aged *(a)* 12, *(b)* 13, *(c)* 14 and *(d)* 15 years in each year from 2001-02 to 2007-08; what proportion of the total school population this represented in each year; and if he will make a statement. [172099]

**Kevin Brennan:** The latest available data on exclusions relate to the 2005-06 school year.

A table showing the requested information for 2005-06 has been placed in the Library.

Information for earlier years could be provided only at disproportionate costs.

### Pupils: Per Capita Costs

**Andrew Rosindell:** To ask the Secretary of State for Children, Schools and Families what the allocation of funding per pupil in Romford will be in the academic year 2008-09. [171210]

**Jim Knight:** The Department allocates education funding to local authorities so the requested information for Romford constituency is not available.

The guaranteed per pupil unit of funding for 2008-09 for Havering local authority in cash terms is £4,137. This covers all funded pupils aged 3 to 15.

*Note:*

1. This covers funding through the Dedicated Schools Grants (DSG).

2. This figure does not represent the totality of 'education' funding allocated in that year. There are other grants that support the schools budget whose allocations have not yet been finalised—these are not included in the provided DSG figure.

### Schools: Disabled

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to make schools accessible to pupils with disabilities since 1997. [166959]

**Jim Knight:** In 2001, the Government extended the scope of the Disability Discrimination Act 1995 (DDA) to cover access to education. As a result disabled children, students and adults seeking access to education now have rights against discrimination under part 4 of the DDA.

The discrimination duties schools have under part 4 of the DDA mean that they must not, without justification, treat disabled pupils or students less favourably than pupils who are not disabled, and they must make reasonable adjustments to ensure that disabled pupils and students are not put at a substantial disadvantage in comparison to those who are not disabled. Also, schools and local authorities (LAs) are under a duty to plan strategically to increase, over time, access for pupils with disabilities to schools. This duty includes planning to increase access to the school premises and to the curriculum, and providing written material in alternative formats to ensure accessibility.

To support schools in meeting their responsibilities under the DDA, the then DFES published a training resource for schools and local authorities: 'Implementing the Disability Discrimination Act in schools and early years settings'.

More resources are going into schools to support children with SEN and disabilities. Local authorities' planned spending on SEN stood at almost £4.9 billion in 2007-08, up from almost £2.8 billion in 2000-01. Indicative SEN funding in mainstream schools rose by 52 per cent. from almost £1.3 billion in 2003-04 to over £2.0 billion in 2007-08 and school budgets for special schools rose by 31 per cent. from almost £1.1 billion to over £1.4 billion over the same period. In addition, substantial capital funding—a total of some £800 million up to 2007-08 has been allocated to local authorities and schools through the Schools Access Initiative (SAI) and equivalent voluntary aided funding, which provides capital funding for projects to improve the accessibility of mainstream schools to disabled pupils. Further capital allocations totalling £340 million will be made during the years 2008-09 to 2010-11.

### Schools: Discipline

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how much notice a secondary school is required to give parents before keeping a child after school hours on detention. [172150]

**Jim Knight:** Schools are required to give parents at least 24 hours notice in writing of any detention outside normal school hours.

### Schools: Sports

**Mr. Yeo:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the effect on participation in school sport of introducing British Summer Time in winter and double British Summer Time in summer. [172340]

**Kevin Brennan:** None.

## Science: Standards

**Mr. Hayes:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the reasons for the change in international ranking of UK schools for science since 2000. [172273]

**Jim Knight:** The Government are encouraged by the findings set out in the full international report of the Programme for International Student Assessment (PISA) that was published on 4 December 2007 by the Organisation for Economic Co-operation and Development (OECD). It shows that in science, the results for young people in England were significantly above the OECD average. Because this is the first time that science has been the main focus of PISA, the OECD states on page 32 of its international report, "PISA 2006: science competencies for tomorrow's world", that it is not possible for any country to compare science learning outcomes from PISA 2006 with those of earlier PISA assessments.

The study shows that in science we have performed well compared to other countries and that the best English teenagers are among the best in the world and that they greatly value science. But it also shows that a challenge still remains for schools and businesses to get students enthused about science. Work is already under way to meet this challenge, for instance:

> we are already changing the curriculum, giving more pupils the chance to study separate physics, chemistry and biology GCSEs and piloting 250 science clubs for 11 to 14-year-olds. We will also increase the number of science ambassadors (people with industry experience in science and engineering) to 18,000 by 2008 to work with teachers in schools to engage and enthuse young scientists;
>
> next year we will launch a programme of careers guidance to capture young people's imagination by showing them the range of career opportunities available to those who study science;
>
> we are planning a three-year programme of communications activity to support policy reforms in order to increase take up of science post-16.

## Science: Teachers

**Mr. Willis:** To ask the Secretary of State for Children, Schools and Families how many teachers with a level 4 qualification or above in *(a)* physics, *(b)* chemistry, *(c)* biology and *(d)* mathematics were teaching in English schools in each of the last 10 years. [172483]

**Jim Knight** *[holding answer 10 December 2007]*: The information requested is not available in the format requested.

Information on the number of full-time teachers in service in secondary schools by the highest post-A-level qualification in the subject they teach is available from the Secondary School Curriculum and Staffing Survey (SSCSS) an occasional sample survey last conducted in 2002 and 2007. 2007 figures are expected to be published in spring 2008.

The following table provides the number of teachers teaching each subject area and the level of qualification in that subject in 2002, the latest information available.

*Teachers in Service: Full-time teachers in maintained secondary schools—Highest post-A-level qualifications[2] held in the subjects they teach in year groups 7-13, England*

| | Percentages | | | | | | |

| | | | | | | | |
| Music | 59 ± 5 | 15 ± 4 | 5 ± 2 | 6 ± 3 | 2 ± 2 | 15 ± 4 | 6.3 |

*Teachers in Service: Full-time teachers in maintained secondary schools—Highest post-A-level qualifications[1] held in the subjects they teach[2] to year groups 7-13. England*

| | Percentages | | | | | | |
|---|---|---|---|---|---|---|---|
| | Degree[3] | BEd | PGCE | Cert Ed | Other Qual. | No Qual. | Total teachers (Thousand) |
| Drama | 25 ± 4 | 10 ± 3 | 12 ± 3 | 6 ± 2 | 2 ± 1 | 45 ± 5 | 8.1 |
| Art and design | 54 ± 4 | 10 ± 3 | 7 ± 2 | 9 ± 3 | 1 ± 1 | 20 ± 4 | 9.3 |
| Physical education | 25 ± 3 | 31 ± 3 | 6 ± 2 | 13 ± 2 | 2 ± 1 | 22 ± 2 | 21.4 |
| Careers education | 2 ± 2 | 1 ± 2 | 3 ± 3 | 4 ± 4 | 3 ± 4 | 87 ± 7 | 1.5 |
| PSHE[6] | 1 ± - | 1 ± - | 2 ± 1 | 1 ± - | - ± - | 95 ± 1 | 61.4 |
| General studies | 1 ± 1 | 2 ± 1 | 1 ± 1 | - ± 1 | - ± - | 95 ± 2 | 7.1 |
| Citizenship | 2 ± 1 | 1 ± 1 | 2 ± 1 | - ± 1 | - ± - | 94 ± 2 | 9.0 |
| Other | | — | | — | — | — | 32.8 |
| Total[2] | 33 ± - | 10 ± - | 7 ± - | 5 ± - | 1 ± - | 44 ± - | 388.4 |

'-' = zero or less than 0.5.

[1] Where a teacher has more than one post-A-level qualification in the same subject, the qualification level is determined by the highest level reading from left (Degree) to right (Other Qual.). For example, teachers shown under PGCE have a PGCE but not a degree or BEd in the subject, while those with a PGCE and a degree are shown only under Degree.

[2] Teachers are counted once against each subject which they are teaching.

[3] Includes higher degrees but excludes BEds.

[4] Teachers qualified in combined/general science are treated as qualified to teach biology, chemistry, or physics. Teachers qualified in biology, chemistry or physics are treated as qualified to teach combined/general science.

[5] Teachers qualified in other/combined technology are treated as qualified to teach design and technology or information and communication technology. Teachers qualified in design and technology or information and communication technology are treated as qualified to teach other/combined technology.

[6] Information and Communication Technology is abbreviated as ICT and Personal Social and Health Education is abbreviated as PSHE.

[7] 'Other' not included in total percentages.

*Source:*

Secondary Schools Curriculum and Staffing Survey 2002.

## Secondary Education: Pupil Exclusions

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many fixed period exclusions there were in secondary schools in each year from 2003-04 to 2007-08; what percentage of the school population this represented in each year; and if he will make a statement. [172098]

**Kevin Brennan:** The available information is given in the table.

Information on the number of fixed period exclusions during 2006/07 is expected to be available in June 2008.

*Maintained secondary schools[1] [2]: Number of fixed period exclusions by type of school England, 2003/04-2005/06[3]*

| | 2003/04[3] [4] | 2004/05[4] | 2005/06[5] |
|---|---|---|---|
| Number of fixed period exclusions | 288,040 | 329,680 | 343,840 |
| Percentage of school population[6] | 8.66 | 9.94 | 10.40 |

[1] Includes middle schools as deemed.

[2] Excludes city technology colleges and academies.

[3] In 2003/04, information on fixed period exclusions was collected for the first time.

[4] Information on fixed period exclusions has been derived from termly exclusion survey returns.

[5] For the 2005/06 school year, information on fixed period exclusions from secondary schools was collected via the school census for the first time (the termly exclusions survey has been discontinued).

For exclusions during 2006/07, information on fixed period exclusions will also be collected from primary and special schools.

[6] The number of fixed period exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils) in January each year.

*Note:*

Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

*Source:*

Termly exclusions survey and school census

## Secondary Education: School Meals

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what the level of take-up of school meals in secondary schools was since September 2007; and if he will make a statement. [172120]

**Kevin Brennan:** The level of take-up of school lunches in secondary schools since September 2007 is not yet recorded. The School Food Trust (SFT) carries out an annual survey of school meal take-up. The second annual survey was conducted in April 2007; and a further survey will take place in 2008.

Increasing take-up of school lunches is a priority for this Department and for the SFT. The SFT has a target to increase take-up of school lunches, from a 2005-06 baseline, by four percentage points by March 2008 and by 10 percentage points by autumn 2009. In addition, school lunch take-up is now an indicator in both the local government national indicator set, from which local authorities and their partners will agree their own targets in local area agreements; and public service agreement 12—'Improve the health and well-being of children and young people'—of the 2007 comprehensive spending review.

## Secondary Education: Standards

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families which secondary schools have gone into special measures in each month since 1st January 2007; and what proportion of pupils in each such school achieved five A* to C GCSEs in *(a)* 2006 and *(b)* 2007. [172775]

**Jim Knight:** The following table lists the secondary schools that have been placed in special measures by Ofsted since 1 January 2007. It also shows, where applicable, the percentage of pupils in each school who achieved five A*-C grades at GCSE or equivalent in 2006. The results for 2007 will not be published until January 2008.

| *School name* | *Local authority* | *Date of Ofsted inspection* | *Percentage of pupils achieving five A*-C grades in 2006* |
|---|---|---|---|
| The Ridings | Calderdale | 18 January 2007 | 19 |
| Tividale Community Arts College | Sandwell | 18 January 2007 | 25 |
| Cheadle High School | Staffordshire | 25 January 2007 | 50 |
| West Sleekburn Middle (deemed secondary) School | Northumberland | 1 February 2007 | [1]n/a |
| Hameldon Community College | Lancashire | 22 February 2007 | [2]n/a |
| Elgar Technology College | Worcestershire | 22 February 2007 | 27 |
| Burnham Upper School | Buckinghamshire | 28 February 2007 | 37 |
| Grylls Community Middle (deemed secondary) School | Kirklees | 28 February 2007 | [1]n/a |
| Woodhouse High School | Staffordshire | 28 February 2007 | 40 |
| The City School | Sheffield | 8 March 2007 | 34 |
| Sheredes School | Hertfordshire | 15 March 2007 | 48 |
| City of Preston High School | Lancashire | 27 March 2007 | 24 |
| Redditch, Dingleside Middle (deemed secondary) School | Worcestershire | 26 April 2007 | [1]n/a |
| Elm Tree Middle (deemed secondary) School | Suffolk | 10 May 2007 | [1]n/a |
| Earlham High School | Norfolk | 16 May 2007 | 37 |
| Egerton Park Arts College | Tameside | 17 May 2007 | 41 |
| Alderman Blaxill School | Essex | 24 May 2007 | 34 |
| South Leeds High School | Leeds | 07/06/2007 | 27 |
| The Grays School Media Arts College | Thurrock | 29 June 2007 | 46 |
| Bexleyheath School | Bexley | 3 October 2007 | 41 |
| Bishops Park College | Essex | 11 October 2007 | [3]0 |
| The Alfred Barrow School | Cumbria | 12 October 2007 | 21 |
| Ulverston Victoria High School | Cumbria | 31 October 2007 | 65 |
| Parrs Wood High School | Manchester | 31 October 2007 | 71 |
| Costessey High School | Norfolk | 31 October 2007 | 44 |
| Billingham Campus School | Stockton on Tees | 31 October 2007 | 32 |

[1] Middle deemed secondary schools have no GCSE level results.

[2] School opened in.

[3] Only seven pupils in cohort September 2006.

## Teachers: Pay

**Rosie Cooper:** To ask the Secretary of State for Children, Schools and Families what the consequences are for a school which does not comply with the stipulations of the School Teachers' Pay and Conditions Document. [172174]

**Jim Knight** *[holding answer 10 December 2007]*: Local authorities and governing bodies of maintained schools must comply with the provisions of the School Teachers' Pay and Conditions Document because it has statutory force. Any failure on the part of LAs or governing bodies to comply with its provisions would therefore be unlawful and actionable by teachers by way of judicial review.

In addition to this, those provisions which relate to conditions of employment other than pay have effect as terms of the teachers contracts of employment[1], breach of which could give rise to claims by teachers before the courts/employment tribunal for compensation or other remedies.

The Secretary of State also has powers under section 497 of the Education Act 1996[2] to intervene and direct a local authority or school governing body to comply with any provision of the STPCD, where he is satisfied that it is in default of its statutory obligation to do so.

[1] By virtue of section 122(2)(b) Education Act 2002.

[2] The so-called 'general default powers'.

**Rosie Cooper:** To ask the Secretary of State for Children, Schools and Families what the consequences are for non-maintained schools which fail to comply with the School Teachers' Pay and Conditions Document where this is included in teachers' contracts. [172175]

**Jim Knight** *[holding answer 10 December 2007]*: Non-maintained schools which incorporate the provisions of the School Teachers' Pay and Conditions Document into their contracts of employment with teachers would be in breach of contract if they fail to comply with any of those provisions. Such a breach could give rise to a claim by the teacher before the courts/employment tribunal for compensation or other remedy.

## Teachers: Standards

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to improve the quality of teaching in primary and secondary schools since 1997. [165420]

**Jim Knight:** Since 1997 we have focused strongly on improving the quality of teaching at both primary and secondary levels through the Primary National Strategy and the Secondary National Strategy. They are our key levers to raise standards of teaching and learning in all four Key Stages, and it is through them that we provide a wealth of training, guidance and materials aimed at supporting teachers and improve the quality of teaching. We continue to invest in and offer a range of different ways of training to teach. Through all of this we support teachers in helping children make the fastest possible progress.

The quality of teaching in our primary and secondary schools has risen significantly since 1997 and Ofsted say that we have the best generation of teachers ever. This is evidenced by ever increasing standards in literacy and mathematics. In total over 375,000 more young people gained 5 or more good GCSEs over the period 1997-2006. Provisional results for 2007 show that 60.3 per cent. achieved 5 A*-C grades (an increase of 13.4 percentage points since 1997) and 45.7 per cent. achieved 5 A*-C GCSEs including English and maths (up 9.7 percentage points since 1997). At primary in 2007 80 per cent. of 11-year-olds achieved the target level 4 or above in English and 77 per cent. did so in maths. In 1997 less than two thirds of 11-year-olds reached this level in either subject (63 per cent. in English and 62 per cent. in maths).

But we want to do even more to improve the quality of teaching. Through revised performance management arrangements, introduced in September, we will ensure that all teachers have objectives which reflect their own individual development needs.

## Teachers: Training

**Mr. Willis:** To ask the Secretary of State for Children, Schools and Families how many students were recruited for initial teacher training in *(a)* science, *(b)* mathematics and *(c)* design technology and information and communication technology in each of the last 10 years. [172484]

**Jim Knight:** The following tables show recruitment through mainstream and employment-based routes (EBR) for initial teacher training (ITT) courses for science, mathematics, design and technology and information and communications technology between 1997/98 and 2006/07.

*Recruitment to mainstream initial teacher training courses[1, 2], academic year 1997/98 to 2006/07, England*

| *Secondary subject[3]* | *1997/98* | *1998/99* | *1999/2000* | *2000/01* | *2001/02* | *2002/03* | *2003/04* | *2004/05* | *2005/06* | *2006/07* |
|---|---|---|---|---|---|---|---|---|---|---|
| Mathematics | 1,460 | 1,120 | 1,300 | 1,290 | 1,550 | 1,670 | 1,940 | 2,030 | 1,920 | 2,000 |
| Science | 2,790 | 2,280 | 2,360 | 2,410 | 2,590 | 2,700 | 2,870 | 2,830 | 2,890 | 2,990 |
| Design and Technology | 1,030 | 810 | 790 | 860 | 970 | 960 | 1,070 | 940 | 940 | 1,010 |
| Information and Communications Technology | 380 | 400 | 460 | 520 | 620 | 800 | 930 | 960 | 920 | 930 |

[1] Recruitment figures for 2006/07 are provisional and are subject to change.

[2] Includes universities and other HE institutions, SCITT and OU, but excludes employment-based routes. Recruitment numbers shown are rounded to the nearest 10.

[3] Excludes vocational subjects e.g. applied ICT, applied science, engineering from 2003/4 onwards.

| Information and Communications Technology | 0 | 0 | 20 | 80 | 230 | 340 | 370 | 390 | 350 | 210 |

[1] Recruitment numbers shown are rounded to the nearest 10. '*'represents less than 10.

[2] Recruitment in 2006/07 is for the autumn term only and is provisional. Figures from 2003/04 onwards are subject to future revision.

[3] Design and technology includes textiles.

*Note:*

Figures prior to 2002/03 are taken from TDA records as at the end of the academic year. Figures for 2002/03 onwards are taken from the TDA EBR database as at January 2007 and are not directly comparable with previous years. 2003/04 was the first year of the Teach First programme. Teach First data for 2003/04 and 2004/05 are at November of the academic year Teach First data for 2005/06 and autumn term 2006/07 are at January 2007.

*Sources:*

TDA Employment Based Routes Database.

Teach First Organisation.

Updated tables, incorporating final 2006/07 and provisional 2007/08 recruitment data, are scheduled to be published in January 2008.

## Truancy

**Mr. Willetts:** To ask the Secretary of State for Children, Schools and Families what the rate of unauthorised absence was of 15 to 16-year-olds in the latest period for which figures are available. [172057]

**Kevin Brennan:** The readily available information relates to absence rates by national curriculum year group. In 2005/06 the unauthorised absence rate of pupils in national curriculum year group 11 (typically aged 15 at the start of the school year) was 2.43 per cent.[1].

Information on absence is collected centrally for those pupils who are of compulsory school age. Absence rates for pupils who are aged 16 (at the start of the school year) are not collected centrally.

### Young People: Lancashire

**Mr. Evans:** To ask the Secretary of State for Children, Schools and Families how many 16 to 18-year-olds in *(a)* Ribble Valley constituency and *(b)* Lancashire were not in education, employment or training in the most recent period for which figures are available. [173419]

**Beverley Hughes:** The Department publishes annual estimates of the number of 16 to 18-year-olds not in education, employment or training (NEET) in England. These estimates cannot be disaggregated to local authority or constituency level.

However, we can use information collected by the Connexions Service to estimate the number and proportion of young people NEET at local authority level. The 2006 estimate for Lancashire is that 2,820 (7.5 per cent.) of 16 to 18-year-olds were NEET. Figures are not available separately for Ribble Valley constituency.

### Young People: Unemployment

**Mr. Hepburn:** To ask the Secretary of State for Children, Schools and Families how many people aged 18 in *(a)* Jarrow constituency, (b) South Tyneside, *(c)* the North East and *(d)* England have not been in education, employment or training in each year since 1997. [169970]

**Beverley Hughes:** The Department publishes annual estimates of the number of 18-year-olds not in education, employment or training (NEET), and figures for 1997 to 2006 are shown in the table.

| | *18-year-olds NEET* | *Percentage* |
|---|---|---|
| 1997 | 68,300 | 11.6 |
| 1998 | 75,600 | 12.5 |
| 1999 | 60,900 | 10.2 |
| 2000 | 76,900 | 13.1 |
| 2001 | 71,000 | 11.8 |
| 2002 | 75,400 | 12.1 |
| 2003 | 79,900 | 12.3 |
| 2004 | 80,100 | 12.3 |
| 2005 | 90,800 | 13.6 |
| 2006 (provisional) | 100,700 | 14.8 |

The 18-year-old population has risen from 602,000 to 680,000 during this period.

These estimates cannot be disaggregated to regional, local authority or constituency level. However, we can use information collected by the Connexions Service to estimate of the number of 18-year-olds NEET at local authority level since 2005, and regionally since 2003. These are shown in the table as follows.

| *As at December* | *South Tyneside* | *Percentage* | *North East* | *Percentage* | *England* | *Percentage* |
|---|---|---|---|---|---|---|
| 2003 | — | — | 4,190 | 12.4 | 53,770 | 8.8 |
| 2004 | — | — | 4,540 | 13.2 | 47,420 | 8.0 |
| 2005 | 320 | 15.6 | 4,350 | 12.6 | 49,540 | 8.1 |
| 2006 | 240 | 12.4 | 4,570 | 13.2 | 50,020 | 8.1 |

*Note:*
Figures are not available for Jarrow constituency.

The DCSF and Connexions estimates are collected very differently. They use different definitions of age and NEET. As a result, Connexions estimates are lower, although the two sets of figures generally show a similar trend across a period of time.

## INNOVATION, UNIVERSITIES AND SKILLS

### National Institute for Medical Research: Industrial Health and Safety

**Adam Afriyie:** To ask the Secretary of State for Innovation, Universities and Skills what assessment his Department has made of the potential biosecurity risk to central London from the planned relocation of the National Institute for Medical Research. [171950]

**Ian Pearson:** Biosecurity will be a major consideration for the consortium developing the UK Centre for Medical Research and Innovation (UKCMRI). The consortium will be working closely with the relevant agencies, including the Health and Safety Executive (HSE), and as plans develop they will ensure that the facilities meet regulatory requirements.

### Adult Education: Concessions

**Mr. Baron:** To ask the Secretary of State for Innovation, Universities and Skills how many local authorities offered concessionary fees for adult education courses for people over the age of 65 years in the 12-month period *(a)* before and *(b)* after the introduction of the Employment Equality (Age) Regulations 2006. [169495]

**Bill Rammell:** We recognise the importance of adult learning in meeting a range of personal, social and community needs and we know how much people, particularly older learners, value and enjoy their courses. The Government remain fully committed to ensuring equal opportunities for all learners and that learning serves the needs of the whole community, including older people both within and outside the work force.

Fee concessions for further education (FE) provision are offered at the discretion of FE providers, including local authorities (LA). As a result information on those learners who receive these concessions is not held by my Department.

We do not want older people to be priced out of learning. Therefore, in line with our fee remission policies, older learners on limited incomes should not have to contribute to the tuition costs of their learning. We define limited incomes as receiving a means-tested benefit like housing benefit, income support or the pension (guarantee) credit.

[1] Across maintained secondary schools, city technology colleges and academies.

Many older people will also be able to take advantage of free access to literacy and numeracy courses, as well as free tuition to undertake first full level 2 vocational qualifications.

However, I would like to make clear that the Employment Equality (Age) Regulations 2006 do not bar providers from offering fee discounts for learners aged 65 and over. They allow for such positive action provided that it can be objectively justified. I refer the hon. Member to my written statement on 16 May 2007, *Official Report*, column 35WS.

### Animal Experiments: Finance

**Sandra Osborne:** To ask the Secretary of State for Innovation, Universities and Skills how much of the budget held by the National Centre for the Replacement, Refinement and Reduction of Animals in Research is used for the replacement of the use of animals in research. [170606]

**Ian Pearson:** Since it was launched in 2004, the National Centre for the Replacement, Refinement and Reduction of Animals in Research has committed £5.3 million to support 31 research projects. 18 of these projects, at a total cost of £3.4 million, are aimed at replacing the use of animals in scientific research and testing.

### Anti-Semitism

**Mr. Amess:** To ask the Secretary of State for Innovation, Universities and Skills (1) how many officials from his Department attended the cross-government working group on anti-Semitism on 11 October, broken down by grade; and if he will make a statement; [172411]

(2) which Ministers from his Department attended the cross-government working group on anti-Semitism on 11 October; and if he will make a statement. [172412]

**Bill Rammell:** The meeting was attended by one official from my Department, who had the correct policy knowledge for the area. The official's grade was Higher Executive Officer. No Ministers attended the meeting from any Government Department, as the working group has delegated responsibility to take forward the 35 recommendations published in the Government's response.

I can assure you that my Department deplores any acts of racial or religious intolerance in higher education. We are committed to tackling any form of anti-Semitism and racial intolerance in general. Although higher education institutions have primary responsibility for ensuring equal opportunities and for abiding by legislation in this area, and taking forward the recommendations in the inquiry's report which were addressed to the sector, the Department for Innovation, Universities and Skills is committed to encouraging the higher education sector to ensure that discrimination has no place in any of its policies or practices.

### Apprentices

**Mr. Hoban:** To ask the Secretary of State for Innovation, Universities and Skills what percentage of *(a)* the 800 level 2 adult training places, *(b)* the 500,000 level 3 adult training places and *(c)* the 400,000 apprenticeship places announced by his Department on 16 November 2007 will be filled in 2010-11. [173418]

**Mr. Lammy** *[holding answer 11 December 2007]*: We intend for all the publicly funded places made available in 2010/11 to be filled. World Class Skills: Implementing the Leitch Review of Skills in England sets out how we will reform provision and create the demand to do that.

### Apprentices: Cleethorpes

**Shona McIsaac:** To ask the Secretary of State for Innovation, Universities and Skills how many apprenticeships there were in Cleethorpes constituency in *(a)* 2004-05, *(b)* 2005-06 and *(c)* 2006-07. [172518]

**Mr. Lammy:** Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). The following table shows the number of apprenticeship starts from August to July in each year in Humberside local LSC area. (These figures are not readily available at parliamentary constituency level.)

*Thousands*

| | *Advanced apprenticeships* | *Apprenticeships* |
|---|---|---|
| 2004/05 | 0.8 | 2.3 |
| 2005/06 | 0.8 | 2.3 |
| 2006/07 | 1.0 | 2.1 |

### English Language: Teachers

**Mr. Boris Johnson:** To ask the Secretary of State for Innovation, Universities and Skills how many qualifying English for Speakers of Other Languages teachers with a degree from *(a)* a Russell Group and *(b)* another British university there were in each of the last 10 years in (i) England and (ii) London. [172491]

**Jim Knight:** The information is not collected centrally.

### Further Education Funding Council: Finance

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills (1) what proportion of the Further Education Funding Council's budget was spent on in-house education and training in each of its last four years of existence; [165529]

(2) how much the Further Education Funding Council spent on administration costs in each of its final four years of operation. [165533]

**Bill Rammell:** The Further Education Funding Council (FEFC) was dissolved when the Learning and Skills Council became operational in April 2001.

The following table sets out the staff training costs of the FEFC and what proportion this was of the total spend on administration:

| *FEFC annual report* | *In-house staff training costs (£000)* | *Administration costs (£000)* | *Percentage of spend on administration* |
|---|---|---|---|
| 1997-98 | 336 | 23,972 | 1.4 |
| 1998-99 | 362 | 23,323 | 1.6 |
| 1999-2000 | 482 | 25,526 | 1.9 |
| 2000-01 | 438 | 32,410 | 1.4 |

The following table sets out the administration costs from FEFC's annual reports published for each of the last four years of its operation:

| | *£000* |
|---|---|
| | *Administration costs* |
| 1997-98 | 23,972 |
| 1998-99 | 23,323 |
| 1999-2000 | 25,526 |
| 2000-01 | 32,410 |

### Further Education: Fees and Charges

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills what guidance has been issued to further education colleges on fee payments for courses by persons claiming income support; and what steps have been taken to enforce the rules on fee exemptions. [171969]

**Bill Rammell:** The Learning and Skills Council (LSC) issues annual guidance to colleges on which learners and which provision are eligible for fee remission or exemption. Guidance for the current academic year is in the 'Funding Guidance for Further Education in 2007/08[1]' booklet issued by the LSC in March 2007 and the 'LSC Learner Eligibility Guidance 2007/08' booklet published in July 2007.

The guidance is clear that colleges have a mandatory duty to exempt from all costs learners aged 16-18 and all learners undertaking Skills for Life courses. It also describes other categories of LSC-funded provision where learners may be eligible for full fee remission. These include those on their first full level 2 qualifications, 19-25 year olds on their first full level 3 qualification and those in receipt of income-related benefits including income support. Colleges will be subject to audit arrangements on the funding they claim in respect of learners including those for whom they claim full fees.

Any provision funded by other funding bodies, including local authorities, will not be covered by the LSC guidance, but may be covered by separate arrangements for fee remission that are agreed with that funding body.

### Higher Education: Admissions

**Mr. Stephen O'Brien:** To ask the Secretary of State for Innovation, Universities and Skills what definition the UCAS form uses of an EU national; who drew up the form using that term; whether the use of the term is a European Union requirement; and if he will review the UCAS form. [170566]

**Bill Rammell:** The term EU National on the UCAS application indicates that the applicant should identify him or herself as an EU national if he or she is a citizen of one of the 26 nation states which, in addition to the UK, make up the European Union. UCAS drew up the form using this term, which is not an EU requirement. The purpose of this question is to provide guidance to institutions on the residency of the potential student. I see no reason for UCAS to review the form.

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills which 10 universities attracted the *(a)* highest and *(b)* lowest numbers of students from socio-economic classes (i) C, (ii) D and (iii) E in each year since 1997. [172275]

**Bill Rammell:** The available information is shown in the accompanying tables. The figures show proportions of UK-domiciled young (aged under 21) entrants to full-time first degree courses at each higher education institution, who are from lower social classes over the period 1997/98-2001/02, and the proportions from lower socio-economic classes over the period 2002/03-2005/06. The social classification in the student data changed in the 2002/03 academic year, and the two classifications are not comparable.

This information is taken from the annual performance indicators in higher education, which are currently published by the Higher Education Statistics Agency.

For each institution, the social class/socio-economic class proportion is shown against a benchmark. This is a sector average which is adjusted for each institution to take into account the following factors: subject of study, qualifications on entry and age on entry.

The benchmarks can be used to show how a university is performing compared to the sector as a whole, and also help to determine whether a meaningful comparison can be drawn between two or more universities.

Figures for 2006/07 will be available in 2008.

There are some points which need to be considered when using the accompanying tables:

1. The tables include the numbers of young entrants to each institution. From this it is clear that the number of students at each institution varies widely, and some have less than 100 students. Figures based on small numbers such as these should be treated with care.

2. Each year some institutions do not have figures included in the performance indicators publication due to problems with their data. It is possible that any of these could have been placed in the highest and lowest groups if the data for that year had been available.

The proportion of students from low social classes/low socio-economic classes for each institution has been calculated using information on students whose social class/socio-economic class background is known. A significant proportion of students' social backgrounds are unknown and so exact numbers cannot be determined.

*Proportion of UK-domiciled young (under 21) full-time first degree entrants to higher education institutions, who are from socio-economic classes 4, 5, 6 and 7—2005/06*

| | Number who are young | Percent from NS-SEC classes 4, 5, 6, and 7 | Bench mark (percentage) |
|---|---|---|---|
| *Ten institutions with highest socio-economic class proportions:* | | | |
| Harper Adams University College | 260 | 59.0 | 36.5 |
| The University of Wolverhampton | 2,490 | 50.0 | 38.1 |
| The University of East London | 1260 | 48.8 | 37.7 |
| The University of Greenwich | 1,825 | 47.1 | 37.2 |
| The University of Teesside | 1,500 | 45.6 | 37.6 |
| Birmingham College of Food, Tourism and Creative Studies | 370 | 45.4 | 40.3 |
| Middlesex University | 2,370 | 44.6 | 37.8 |
| Newman College of Higher Education | 330 | 44.3 | 36.1 |
| The University of Bradford | 1,500 | 43.7 | 34.6 |
| University of Bedfordshire | 685 | 43.0 | 39.4 |
| *Ten institutions with lowest socio-economic class proportions:* | | | |
| London School of Economics and Political Science | 575 | 17.5 | 19.4 |
| University College London | 2,080 | 17.5 | 20.5 |
| Imperial College of Science, Technology and Medicine | 1,295 | 17.3 | 20.8 |
| The University of York | 1,885 | 17.1 | 20.5 |
| The University of Nottingham | 4,200 | 16.9 | 22.3 |
| Royal Academy of Music | 45 | 16.7 | 25.9 |
| The University of Bristol | 2,845 | 16.4 | 20.7 |
| University of Durham | 3,195 | 16.4 | 21.9 |
| University of London (Institutes and activities) | 30 | 12.0 | 19.9 |
| The University of Oxford | 2,790 | 11.4 | 18.3 |

*Notes:*

1. The socio-economic group classification was introduced in 2002/03 to replace the social class groupings. The two classifications are not directly comparable.

2. Numbers are rounded to the nearest 5.

*Source:*

"Performance Indicators in Higher Education", published by the Higher Education Statistics Agency (HESA)

## Higher Education: Age Participation Rates

**Mr. Boris Johnson:** To ask the Secretary of State for Innovation, Universities and Skills whether he plans to extend the study of the young participation in higher education rate by local authority beyond 2000. [172593]

**Bill Rammell:** The Higher Education Funding Council for England will extend the analysis referred to in PQ 172593. This work is under way and nearing completion. Updated annual young HE participation rates covering the young cohorts who reached 18 between 2001 and 2004 will be released for local geographies, including local authorities, early next year.

## Higher Education: Newcastle

**Mr. Henderson:** To ask the Secretary of State for Innovation, Universities and Skills what steps he plans to take to encourage an increase in undergraduate course applications from those school leavers who reside in the Newcastle local education authority area. [172761]

**Bill Rammell:** Attainment at GCSE level is a key factor in determining participation in higher education. Nationally, at GCSE, the A*-C pass rate increased to 63.3 per cent. in 2007 from 62.4 per cent. in 2006. Academies are challenging the culture of under-achievement and, in Newcastle, Excelsior Academy is opening in September 2008. We are also seeking to strengthen schools' partnerships with universities to raise standards further.

In July, we announced further improvements to the financial help available to students. No students need to be deterred from higher education because of the costs. We have also announced that the national Aimhigher programme, which runs a range of activities to raise aspirations and increase pupil attainment, will continue for another three years. The vast majority of schools and colleges in Newcastle have one or more Aimhigher-funded Progression Coaches to provide tailored support to groups and individuals. Aimhigher in Newcastle is also looking at ways to raise awareness of vocational higher education options through Foundation Degree taster courses, and is raising the attainment of learners by investigating awards such as the Certificate of Personal Effectiveness.

## Learning and Skills Council for England: Recycling

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills what *(a)* volume and *(b)* percentage of its waste the Learning and Skills Council recycled in each of the last five years. [172417]

**Bill Rammell:** In May this year the Learning and Skills Council (LSC) published its Sustainable Development Action Plan. Over the next 10 years the LSC aims to have become an exemplar organisation by integrating sustainable development into its policies and everyday practice. Information on the volume of waste recycled is not collected. The LSC currently recycles shredded waste paper, fluorescent tubes and toner cartridges.

## National Institute for Medical Research

**Adam Afriyie:** To ask the Secretary of State for Innovation, Universities and Skills what assessment his Department has made of the features of the National Institute for Medical Research's site at Mill Hill that make a relocation of the institute necessary. [172188]

**Ian Pearson:** The Government have accepted the Medical Research Council's case to relocate the National Institute for Medical Research (NIMR) to a central London location based on the council's vision for the institute, as this would:

> enhance the multidisciplinary nature of NIMR's work, providing much improved access to other biomedical researchers, physical scientists, engineers and mathematicians; and
>
> provide opportunities to collaborate more closely with clinicians and strengthen the impact of translational research, thereby exploiting alongside the medical and healthcare cluster in central London.

## School Leaving

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills what research was used as the basis for calculating the economic benefits of increasing the compulsory education age to 18 years. [172372]

**Jim Knight:** I have been asked to reply.

The basis of the estimate of economic benefits of raising the participation age (RPA) in education or training is new joint research by Sheffield university and DCSF. The research's central estimate of the additional benefits of RPA is around £2.4 billion for a single cohort of young people discounted over their lifetimes. This research was published alongside the introduction of the Education and Skills Bill to the House on 29 November.

For further details of the methodology and data sources used to estimate the economic benefits of RPA (and the magnitude of the benefits under alternative scenarios), the full report is accessible at:

http://www.dfes.gov.uk/research/data/uploadfiles/DCSF-RW026.pdf. The research will also be placed in the House of Commons Library.

## Science: Qualifications

**Mr. Rob Wilson:** To ask the Secretary of State for Innovation, Universities and Skills (1) what percentage of degrees awarded in science, technology, engineering or mathematics were awarded as equivalent or lower-level qualifications in the last 10 years; [171961]

(2) how many students in higher education studying for a science, technology, engineering or mathematics degree were pursuing equivalent or lower-level qualifications in the last 10 years. [171962]

**Bill Rammell:** The precise information requested could be provided only at disproportionate cost. However, the following table sets out the number and proportion of students studying the major science, technology, engineering and maths (STEM) subjects as equivalent or lower-level qualifications (ELQ) in 2005/06. Subject to consultation, we plan to continue to support vulnerable strategic subjects including STEM subjects studied as ELQs. The £100 million to be redistributed as a result of our ELQ policy will also enable more students to study STEM subjects as first degrees than would otherwise be the case.

We have already announced that we will be spending an extra £75 million over three years to support relatively expensive STEM subjects.

*Number and proportion of students studying major STEM subjects as equivalent or lower qualifications*

| *Subject* | *ELQ students* | *ELQ students as percentage of total* |
|---|---|---|
| Maths | 590 | 4 |
| Physics | 180 | 2 |
| Chemistry | 140 | 2 |
| Biology | 340 | 3 |
| General Engineering | 320 | 5 |
| Electronic Engineering | 300 | 2 |
| Mechanical Engineering | 230 | 3 |

## Training

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills if he will break down by scheme the 7.5 million training places announced in Her Majesty's Gracious Speech. [172271]

**Bill Rammell:** The Learning and Skills Council (LSC) Statement of Priorities published on 16 November set out the funding strategy for post-16 further education (FE) and skills for the comprehensive spending review (CSR) period (2008-09 to 2010-11). Total investment on post-16 FE and skills will increase from £11.2 billion in 2007-08 to £12.4 billion in 2010-11.

Funding for adult participation will be £3.6 billion in 2010-11, an increase of 17 per cent. compared with 2007-08. This will support on average 3 million adult learners each year on programmes ranging from on-line courses to full-time qualifications taken in FE colleges (this includes learners funded through the adult learner responsive and employer responsive models, and the adult safeguarded budget).

The 7.5 million adult learners refers to the total adult places funded through the adult learner and employer responsive models (rounded to the nearest half a million) as set out in the joint Grant Letter to the LSC from my Department and Department for Children, Schools and Families. Annex C to the Grant Letter provides a breakdown of these figures by programme and can be found at

http://www.dius.gov.uk/publications.html

Between 2007/08 and 2010/11, the funding settlement will allow us to increase the number of fully funded adult places at full level 2 (5 A*-C GCSEs or their equivalent) by over 30 per cent., and at full level 3 (2 A-levels or more or their equivalent) by around 148 per cent. It will also support an additional 30,000 apprenticeship places for learners aged 25 or over during the CSR period. £1.5 billion per year will be available to support a full range of pre-level 2 first steps and progression programmes.

**Mr. Hoban:** To ask the Secretary of State for Innovation, Universities and Skills what estimate his Department has made of the number of individuals who will receive a training place following the announcement by his Department on 16 November 2007. [173172]

**Bill Rammell:** The Learning and Skills Council (LSC) Statement of Priorities published on 16 November set out the funding strategy for post-16 further education (FE) and skills for the comprehensive spending review (CSR) period (2008-09 to 2010-11).

Total investment on post-16 FE and skills will increase from £11.2 billion in 2007-08 to £12.4 billion in 2010-11.

Funding for adult participation will be £3.6 billion in 2010-11, an increase of 17 per cent. compared with 2007-08. This will support on average over 3 million adult learners each year on programmes ranging from on-line courses to full-time qualifications taken in FE colleges. Specifically, it will allow us to increase the number of fully funded adult places at full level 2 (5 A*-C GCSEs or their equivalent) by over 30 per cent. and at full level 3 (2 A-levels or more or their equivalent) by around 148 per cent. It will also support an additional 30,000 apprenticeship places for learners aged 25 or over during the CSR period and £1.5 billion per year will be available to support a full range of pre-level 2 first steps and progression programmes.

Funding for young people (aged 16 to 19) will be £6.9 billion in 2010-11, an increase of 14 per cent. compared with 2007-08. This puts the Government firmly on track to drive up participation and attainment towards the goal of achieving 86 per cent. participation by the end of the CSR period and on to 90 per cent. by 2013, while significantly narrowing achievement gaps through access to a wider range of progression routes, including through a significant expansion of apprenticeships and the roll-out of the new diplomas.

Annex C to the joint Grant Letter to the LSC from my Department and Department for Children, Schools and Families provides a breakdown of the number of funded places by programme and can be found at:

http://www.dius.gov.uk/publications.html

**Mr. Hoban:** To ask the Secretary of State for Innovation, Universities and Skills how many of the training places announced by his Department on 16 November 2007 will be provided *(a)* full-time, *(b)* part-time and *(c)* via online arrangements. [173173]

**Bill Rammell:** The Learning and Skills Council (LSC) Statement of Priorities published on 16 November set out the funding strategy for post-16 further education (FE) and skills for the comprehensive spending review (CSR) period (2008-09 to 2010-11). Total investment on post-16 FE and skills will increase from £11.2 billion in 2007-08 to £12.4 billion in 2010-11.

Funding for adult participation will be £3.6 billion in 2010-11, an increase of 17 per cent. compared with 2007-08. This will support on average over 3 million adult learners each year on programmes ranging from online courses to full-time qualifications taken in FE colleges. Specifically, it will allow us to increase the number of fully funded adult places at full level 2 (5 A* - C GCSEs or their equivalent) by over 30 per cent. and at full level 3 (2 A-levels or more or their equivalent) by around 148 per cent. It will also support an additional 30,000 apprenticeship places for learners aged 25 or over during the CSR period and £1.5 billion per year will be available to support a full range of pre-level 2 first steps and progression programmes.

## Union Learning Fund

**Mr. Hoban:** To ask the Secretary of State for Innovation, Universities and Skills whether his Department has commissioned any assessment of the effectiveness of the Union Learning Fund in the past three years. [173164]

**Mr. Lammy:** An evaluation of the Union Learning Fund (2001 to 2005), which surveyed a range of employers, individual learners and unions involved in ULF, was undertaken on behalf of the former Department for Education and Skills by York Consulting Ltd. Key findings from this evaluation indicate that:

almost two thirds of those employers who responded had a learning agreement in place as a result of ULF and 75 per cent. reported an increase in Skills for Life learning;

11,000 union learning reps had been recruited but many were not as active as they would like due to a lack of employer support;

153,000 people had accessed learning opportunities, the vast majority of whom were able to apply their skills in the workplace;

Unions had successfully used ULF funds to develop their learning policies and strategies, improving their capacity to support the learning agenda.

A copy of this evaluation report is available in the House of Commons Library.

**Mr. Hoban:** To ask the Secretary of State for Innovation, Universities and Skills what funding was allocated to the Union Learning Fund in each year since 1998. [173165]

**Mr. Lammy:** Trade unions have a key role to play in promoting the development of learning and skills in the workplace. To help them do this more effectively we introduced the Union Learning Fund in 1998. This source of funding is helping trade unions use their influence with employers, employees and training providers to encourage greater take-up of learning at work and boost their own capacity as learning organisations. Since 1998 annual expenditure on the Union Learning Fund has been as follows:

| | *Annual expenditure on Union Learning fund (£million)* |
|---|---|
| 1998/99 | 1.7 |
| 1999/2000 | 3.1 |
| 2000/01 | 3.9 |
| 2001/02 | 6.3 |
| 2002/03 | 7.4 |
| 2003/04 | 12.2 |
| 2004/05 | 14.4 |

| | *Annual expenditure on Union Learning fund (£million)* |
|---|---|
| 2005/06 | 15.4 |
| 2006/07 | 16.9 |

The budget for 2007/08 is £18.4 million.

With the help of the Union Learning Fund, trade unions and their union learning representatives have been really successful in working with employers to raise skill levels in the work place. There are now over 18,000 trained union learning reps who have helped over 400,000 workers back into learning since the Fund was introduced. Over 150,000 last year alone, many of whom were Skills for Life learners, those most in need of new skills who employers and training providers find it so difficult to reach.

### Young People: Wirral

**Stephen Hesford:** To ask the Secretary of State for Innovation, Universities and Skills how many people between the ages of 18 and 24 years in Wirral, West constituency are not in education, employment or training; and what steps his Department is taking to increase the number of those entering higher education. [173616]

**Bill Rammell:** Annual average estimates of the numbers and proportion of people who are not in education, employment or training are available at a local level from the Annual Population Survey (APS). However, this information cannot be provided for the 18 to 24 age group for the Wirral, West constituency because the number in the sample is so small that ONS rules on protecting confidentiality do not permit disclosure. Estimates for 2006 for Wirral local education authority (LEA), and by comparison Merseyside/Halton Learning and Skills Council (LSC), the North West and England, are shown in the table as follows. As with all sample surveys, estimates from the APS are subject to sampling variability and the smaller the geography the smaller the sample and hence the larger the sampling variability relative to the estimate. Estimates for small areas should therefore be treated with caution.

*18 to 24-year-olds not in education, employment or training (APS. 2006)*

| *Area* | *Number* | *Total* | *Per cent* |
|---|---|---|---|
| Wirrall LEA | 4,000 | 22,000 | 20 |
| Merseyside/ Halton LSC | 25,000 | 136,000 | 19 |
| North West | 98,000 | 589,000 | 17 |
| England | 686,000 | 4,248,000 | 16 |

[1] Based on academic age—ie age as at the previous 31 August. For example, someone of academic age 18 is the age one would most often expect someone to enter higher education if they do not take a gap year (ie they will be in their third academic year since completing compulsory education).

The Government remain committed to ensuring that all those with the merit and potential to benefit from higher education are able and willing to do so. The Government will provide an average real-terms increase in funding for higher education of around 2.5 per cent. per annum to 2011, which means that in 2010-11 there will be over £1.5 billion of additional funding compared with 2007-08, with funded student numbers rising to around 1.2 million by 2010-11—50,000 more than now. Alongside this the Government support the Aimhigher Programme, which seeks to raise aspirations and motivation to enter higher education among young people who are from under-represented backgrounds. The programme was launched nationally in August 2004, is delivered through 45 area-based partnerships of schools, colleges and higher education institutions.

The Government also offer non-repayable grants. The full grant will be £2,835 per annum from September 2008. At the same time the income threshold for a full grant for new entrants will increase from £17,500 to £25,000 and for partial grant to £60,005. Student numbers in England are up by 323,000 since 1997 to 1.95 million in 2005/06.

# Written Answers to Questions

*Thursday 13 December 2007*

## LEADER OF THE HOUSE

### Oral Statements

38. **David T.C. Davies:** To ask the Leader of the House what recent assessment she has made of the effectiveness of the procedures for oral statements by Ministers. [173667]

**Helen Goodman:** Oral statements are one of the most valued and effective parts of the House's proceedings. The Government have no plans to propose any changes to present procedures, though we are always open to representations from hon. Members on this as on other matters.

### Voting Rights

40. **Angela Watkinson:** To ask the Leader of the House what the Government's policy is on the right of right hon. and hon. Members representing Scottish constituencies to vote on matters relating to England where responsibility for such matters in Scotland has been devolved to the Scottish Executive. [173669]

**Helen Goodman:** The Prime Minister has previously set out the Government's policy to the House on the 3 July. This Government do not accept that there should be any discrimination in the rights of hon. Members to take part in the business before the House. 'English votes for English laws' would lead to the break up of the Union. This Government believes in the Union and will do nothing to harm it. Constitutional issues are the responsibility of my right hon. Friend the Justice Secretary.

### Departmental Manpower

**Mrs. May:** To ask the Leader of the House how many *(a)* men and *(b)* women of each Civil Service grade are employed by her Office. [172743]

**Ms Harman:** The following table gives information for people currently working in my office who are employed by the Cabinet Office.

| *Grade* | *Female* | *Male* |
|---|---|---|
| ScS | 0 | 1 |
| Special Adviser | 2 | 0 |
| A | 0 | 2 |
| B | 2 | 3 |
| C | 1 | 4 |

In addition there are four members of staff who are either on loan or paid for by the Department of Work and Pensions to support me in my duties as Minister for Women and Equalities.

| *Grade* | *Female* | *Male* |
|---|---|---|
| ScS | 0 | 0 |
| Special Adviser | 0 | 0 |
| A | 1 | 0 |
| B | 1 | 0 |
| C | 0 | 2 |

### Departmental Meetings

**Mr. Hoban:** To ask the Leader of the House what the *(a)* date, *(b)* location and *(c)* purpose was of each meeting she attended with the Prime Minister in (i) the week commencing 19 November and (ii) the week commencing 26 November. [173345]

**Ms Harman:** I have regular meetings with the Prime Minister.

## SOLICITOR-GENERAL

### Rape

16. **Ms Katy Clark:** To ask the Solicitor-General what steps she is taking to increase conviction rates for rape. [173642]

**The Solicitor-General:** The Crown Prosecution Service (CPS) now monitors all rape cases to ensure consistent good practice. The CPS works with the voluntary and community sector and the police to improve the service to victims and to build stronger cases. A cross government group is overseeing performance to address local variations in investigation and prosecution.

### Anti-trafficking Legislation

17. **Mr. Bone:** To ask the Solicitor-General what assessment she has made of the effect of the UK's anti-trafficking legislation on the ability of the Crown Prosecution Service successfully to prosecute trafficking offences. [173643]

**The Solicitor-General:** I am satisfied that our human trafficking legislation is as effective as possible to ensure the Crown Prosecution Service is able to prosecute successfully those who commit such offences. In addition the Crown Prosecution Service is tasked with keeping under review the anti-trafficking legislation under the UK Action Plan on Trafficking.

### "Undercover Mosque"

18. **Dr. Evan Harris:** To ask the Solicitor-General what discussions she has had with the Crown Prosecution Service over the decision of the west midlands Crown Prosecution Service and West Midlands Police to refer the programme "Undercover Mosque" to Ofcom; and if she will make a statement. [173644]

**The Solicitor-General:** The matter was referred to Ofcom by West Midlands Police and not the Crown Prosecution Service (CPS). There were no discussions about the issue between my office and the CPS.

### Criminal Justice Targets

19. **Miss McIntosh:** To ask the Solicitor-General what progress has been made towards those elements of the Government's criminal justice system targets for which she has responsibility; and if she will make a statement. [173645]

**The Solicitor-General:** I have responsibility for the persistent young offender and victims and witnesses criminal justice targets. The PYO pledge was to halve the average time from arrest to sentence for persistent young offenders from 142 days to 71 days. The average time for the quarter to September 2007 was 62 days. In the year to June 2007, in 59.7 per cent. cases, victims and witnesses were satisfied with the handling of matters by the police and other criminal justice agencies. This is on course to meet the 60.1 per cent. target by the end of March 2008.

### Trans-national Bribery

20. **Hugh Bayley:** To ask the Solicitor-General how many cases of trans-national bribery are under investigation by the Serious Fraud Office. [173646]

**The Solicitor-General:** The Serious Fraud Office is currently investigating 11 cases where there are allegations of trans-national bribery, as well as fraud.

It is not possible for operational reasons to give specific details on these cases but they include an investigation into Energy Financing Team Ltd in Bosnia, an investigation into Kellog Brown and Root in connection with Nigeria and a number of other countries, an investigation into the construction of the Unesco-financed Bibliotecha Alexandria in Egypt and an investigation into reinsurance involving the National Insurance Institute in Costa Rica.

A number of other cases are also currently being considered for investigation in the vetting process.

## CHURCH COMMISSIONERS

### Church Appointments

11. **Simon Hughes:** To ask the hon. Member for Middlesbrough, representing the Church Commissioners what representations the Church Commissioners have received on the Prime Minister's proposal to change the role that Ministers and civil servants play in relation to some Church appointments. [173658]

**Sir Stuart Bell:** Following the Government's Green Paper, the archbishops issued a consultation paper on Crown appointments in the Church in October. In light of the views expressed in the consultation period, which ended on 7 December, the archbishops will shortly decide what proposals to put to General Synod in February.

## HOME DEPARTMENT

### Crime: Internet

**James Brokenshire:** To ask the Secretary of State for the Home Department what recent discussions she has had with *(a)* the police and *(b)* Ministerial colleagues on the establishment of a police central e-crime unit. [167104]

**Mr. Coaker:** I have regular meetings with the police and ministerial colleagues on a range of issues, including fraud and e-crime.

On 17 October 2007, my right hon. Friend the Chancellor of the Exchequer (Mr. Darling), announced that funding would be made available through the comprehensive spending review for the establishment of a National Fraud Reporting Centre.

The Home Office is currently considering proposals to improve the handling of e-crime.

### Domestic Violence

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department what steps the Government have taken to protect people from domestic violence, since 1997. [170976]

**Mr. Coaker** *[holding answer 4 December 2007]*: Since 1997, the Government have been working to: increase the early identification of (and intervention with) victims of domestic violence; ensure that effective advice and support is provided to victims of domestic violence; improve the criminal justice response to domestic violence; and to manage perpetrators to reduce risk.

These aims have been underpinned by the Domestic Violence, Crime and Victims Act 2004 and an annual cross-Government National Delivery Plan for Domestic Violence (since 2005) to progress this work both nationally and locally.

The following table sets out some of the key steps that the Government have taken to tackle domestic violence. Main themes have included:

> (i) strengthening the criminal justice response to domestic violence through the development and expansion of Specialist Domestic Violence Courts to 64 systems in England and Wales, ensuring that domestic violence coordinators are located in every police force, probation and Crown Prosecution Service area, and rolling out perpetrator programmes to all probation areas; and
>
> (ii) improving the safety of identified high risk victims of domestic violence through the development of Independent Domestic Violence Adviser services and Multi-Agency Risk Assessment Conferences, with over 100 areas currently supported.

This work has had a significant impact: according to the British Crime Survey the prevalence of domestic violence has fallen by 59 per cent. between 1995 and 2006-07.

*Summary of steps the Government have undertaken to protect people from domestic violence since 1997*

| | *Key steps* |
|---|---|
| 1999 | Women Ministers launch 'Living Without Fear', a national strategic approach to violence against women |
| 2002 | Order made under Housing Act 1996 to extend priority need for accommodation to people vulnerable because they have fled their home because of violence |

*Summary of steps the Government have undertaken to protect people from domestic violence since 1997*

| | Key steps |
|---|---|
| 2002 | Rape Action Plan published |
| 2003 | Home Office launch Safety and Justice Consultation Paper |
| 2003 | Launch of 24 hour National Domestic Violence free phone helpline, run in partnership between Women's Aid and Refuge |
| 2003 | Female Genital Mutilation Act 2003 |
| 2003 | Sexual Offences Act 2003 |
| 2003-04 | Development of 14 Sexual Assault Referral Centres (SARCs) |
| 2003-06 | Gender equality public service agreement (PSA) to include domestic violence measure |
| 2004 | National awareness raising campaign launched for domestic violence |
| 2004 | Domestic Violence, Crime & Victims Act 2004 |
| 2004 | United Nations Resolution on Honour Killings, jointly presented by UK and Turkey |
| 2004 | Costs of domestic violence research published |
| 2005 | March is named National Domestic Violence Month |
| 2005 | Official launch of Forced Marriage Unit |
| 2005 | National Report and National Delivery Plan launched |
| 2005 | Launch of Corporate Alliance Against Domestic Violence |
| 2005 | Domestic Abuse Strategy for Wales launched |
| 2005 | Development of Northern Ireland 24 hour free phone Domestic Violence Helpline, open to anyone affected by domestic violence |
| 2005-06 | 25 Specialist Domestic Violence Courts announced to be established and operating by the end of 2005-06 |
| 2005-06 | 100 Independent Domestic Violence Advisors trained; 70 trained in 2006-07 |
| 2005 | 'Tackling Violence At Home' strategy for domestic violence and abuse launched in Northern Ireland |
| 2006 | Over 400 refuges in the UK |
| 2005-06 | Consultation on creation of specific offence of forced marriage; responses have been published |
| 2006-08 | Gender Equality PSA to include domestic violence measure |
| 2006-07 | First national conference for Domestic Violence Co-ordinators held |
| 2006-07 | Progress Report on National Delivery Plan published |
| 2006-07 | Homicide Review guidance published for consultation |
| 2006/07 | Publication of health professionals' domestic violence handbook |
| 2006-07 | Development and funding of more Sexual Assault Referral Centres |
| 2006-07 | Funding of Independent Domestic Violence Advisors and Independent Sexual Violence Advisors |
| 2006-07 | Selection of further Specialist Domestic Violence Court systems, bringing total supported by national Programme to 64 |
| 2006 | Northern Ireland join the Corporate Alliance Against Domestic Violence |
| 2006 | Publication and distribution of workplace Guidance on Domestic Violence to Northern Ireland employers |
| 2006 | Public Prosecution Service for Northern Ireland (PPS) launch its policy on prosecution of cases of domestic violence |
| 2006-07 | Pilot MARAC in the Antrim area, Northern Ireland, continuing following evaluation |
| 2007-08 | Support given to over 100 areas to enable the MARAC model to be rolled out |
| 2007-08 | Pilot of sanctuary scheme in the Ballymena/ Antrim area, Northern Ireland |

## Genetics: Databases

**Lynne Featherstone:** To ask the Secretary of State for the Home Department how many people whose DNA is held on the national database that have committed no offence are *(a)* male and *(b)* female; and if she will make a statement. [162218]

**Meg Hillier:** On 31 October 2007, there were an estimated 4,188,033 individuals with a DNA profile retained on the National DNA Database (NDNAD). This includes approximately 22,700 persons who had provided a DNA profile voluntarily. Of the 4.18 million persons, 3,938,156 persons were sampled by police forces in England and Wales. These figures were obtained from the NDNAD.

Data on arrest and criminal histories are not held on the NDNAD, but are held on the Police National Computer (PNC). Such data are not available routinely at present, but the National Policing Improvement Agency which has responsibility for the delivery of NDNAD services is working towards being able to provide such data regularly from the NDNAD and PNC.

Data obtained from the PNC on 31 October indicate that 3,637,163 (of the 3,938,156) persons had a record retained on PNC. Of these, 3,117,942 persons had a conviction, caution, formal warning or reprimand[1] recorded on the PNC (79 per cent. of persons on the NDNAD sampled by forces in England and Wales); and 519,221 persons (13 per cent. of persons on the NDNAD sampled by forces in England and Wales) had no current conviction, caution, formal warning or reprimand recorded on PNC. The latter figure comprises some persons who may have had a caution or conviction record removed from PNC after five to 10 years in accordance with the Rules for Criminal Record Weeding (which applied prior to April 2006); persons who have been charged and acquitted or proceedings discontinued; persons who have been charged with a recordable offence and proceedings are ongoing; and persons who have been arrested but no further action was taken against them. The PNC records for the other 300,993 persons (8 per cent. of persons on the NDNAD) had been removed from the PNC for various reasons, for example, their conviction and caution records had been weeded after five-10 years, the person had been acquitted or proceedings were discontinued. No breakdown is available of the number of males and females who have a profile on the NDNAD but who have not been convicted, cautioned etc. These data could be obtained only at disproportionate cost.

[1] Cautions, final warnings and reprimands are sanctions administered to a person who admits to having committed a criminal offence which could have led to prosecution.

## Passports

**Mr. Philip Hammond:** To ask the Secretary of State for the Home Department what percentage of passports were renewed more than a year before the expiry date in the latest period for which figures are available. [171876]

**Meg Hillier:** This question can only be answered in relation to adult renewal passports, the required data for child renewal passports is not currently available.

For all adult passports renewed during the 2006 calendar year a proportion of 3.1 per cent. were renewed more than 12 months prior to expiry.

## Prosecutions: Licensing

**John Cummings:** To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions there were in Easington constituency for the illegal sale of alcohol from off licence premises in each year since 2000. [172766]

**Mr. Coaker:** Data on prosecutions and convictions held by the Ministry of Justice are not broken down by constituency area. The data show that no prosecutions took place in Easington local criminal justice area or North Durham (which Easington was amalgamated into in 2002), for the illegal sale of alcohol in off-licence premises from 2000-06.

## INNOVATION, UNIVERSITIES AND SKILLS

### Apprentices

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills what estimate his Department has made of the number of *(a)* apprenticeships, *(b)* level two apprenticeships and *(c)* advanced apprenticeships there are likely to be in 2010-11, broken down by age group (i) 16 to 18, (ii) 19 to 25 and (iii) over 25-year-olds. [173558]

**Mr. Lammy:** Planned apprenticeship volumes by academic year to 2010/11 were published in the Learning and Skills Council's Statement of Priorities on 16 November 2007, available at http://readingroom.lsc.gov.uk/lsc/National/nat-statementofpriorities-nov07.pdf. The breakdown is available by 16 to 18 and 19+ only, and not by level.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Innovation, Universities and Skills how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disk; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168277]

**Mr. Lammy:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental ICT

**Gordon Banks:** To ask the Secretary of State for Innovation, Universities and Skills which manufacturers' software is used in his Department. [167226]

**Mr. Lammy:** The Department currently shares software with the Department for Business Enterprise and Regulatory Reform and the Department for Children, Schools and Families. The following list provides the names of manufacturers providing software applications to Business Enterprise and Regulatory Reform.

1E
ActiveState Software Inc
ActiveXperts Software BV
Acuity Risk Management LLP
Acuma Software Limited
Adobe Systems
Agresso Limited
Art Technology Group Inc.
Aventail
BEA Systems Inc.
Business Objects
CASE Technologies
Check Point Software Technologies Limited
Cisco Systems Inc.
Citrix Systems Inc.
Clearswift Limited
CommVault
CA
Dell Inc.
Diskeeper Corporation
Double-Take Software
EMC Corporation
Environmental Systems Research Institute Inc.
EVault
Ixia
INPHASE Software Limited
Intel Corporation Intercede Limited
Internet Security Systems Inc.
JAM Software
JZero Solutions
Kainos Software Limited
Mantix Systems Limited
McAfee Inc.
MEGA
Meridio
Microsoft Corporation
MidlandHR
Network Appliance Inc.
PTM EDV-Systeme GmbH
QAS Limited
QLogic Corporation
Qube Global Software
Quest Software Inc.
RealVNC Limited
Research In Motion Limited

SafeNet Inc.
Semio
Sherpa Software
Softerra Limited
Sophos Plc
Source Code Technology Holdings Inc.
SPSS Inc.
Sun Microsystems Inc.
Symantec Corporation
TANDBERG
Telelogic AB
Trend Micro
VMWare Inc.
Websense Inc.
WinZip International LLC

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Innovation, Universities and Skills whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibits the assignment of debt. [172316]

**Mr. Lammy:** The Department's standard terms and conditions for the purchase of goods and services do not specifically mention the prohibition of the assignment of debt. They do include a clause stating that the benefit and burden of the contract may not be assigned or sub-contracted in whole or in part by the contractor without the prior written consent of the Department.

## WALES

### Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Wales how many *(a)* men and *(b)* women of each Civil Service grade are employed by his Department. [172734]

**Mr. Hain:** The Wales Office published the numbers of staff by grade in its departmental annual report, which is available online at www.walesoffice.gov.uk or in the House Library.

Figures for the number of women in each grade are also provided.

## CULTURE, MEDIA AND SPORT

### Arts: Finance

**Dan Rogerson:** To ask the Secretary of State for Culture, Media and Sport what his Department's public service agreement targets are for arts inclusion following the comprehensive spending review settlement. [168865]

**James Purnell:** HM Treasury announced in the comprehensive spending review that from April 2008 there would be 30 public service agreements (PSAs) setting out priority outcomes for the Government as a whole. The percentage of people who participate in culture and sport is one of the indicators for PSA21: Build more cohesive, empowered and active communities.

My Department has also published its new Departmental Strategic Objectives (DSO), the first of which is Opportunity: encourage more widespread enjoyment of culture, media and sport. Detailed indicators for this DSO are currently being developed and will be published in due course.

### Christmas

**Malcolm Bruce:** To ask the Secretary of State for Culture, Media and Sport whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173505]

**Mr. Sutcliffe:** The Department currently uses incandescent light bulbs for festive decorations on three Christmas trees inside its buildings. However in line with the Department's policy to use energy efficient light fittings, we will purchase LED lights when we need to replace them.

The Department does not have any external festive decorations.

### Sports: Schools

**Mr. Jenkins:** To ask the Secretary of State for Culture, Media and Sport what steps his Department are taking to encourage school students to participate in competitive sport. [173460]

**Mr. Sutcliffe:** Increasing inter and intra-school sporting opportunities is a key component of the National School Sport Strategy, which is delivered jointly by the Department for Children, Schools and Families and the Department for Culture, Media and Sport.

The 2006-07 School Sport Survey showed that:

98 per cent. of schools held a competitive sports day,

58 per cent. of pupils were involved in intra-school competition, and

35 per cent. of all pupils were involved in inter-school competition.

Earlier this year, the Prime Minister announced extra funding to extend the number of Competition Managers to at least 225 by the beginning of 2009. Competition Managers will work with Governing Bodies and School Sport Associations to create a stronger framework for competitive sport and increase the amount of competitive sport in primary and secondary schools.

As part of this work, our Secretary of State has chaired two summits with Governing Bodies and School Sport Associations to discuss the development of world class junior competition frameworks in their sports.

In addition, we are introducing a new National School Sport Week, championed by Dame Kelly Holmes, to encourage all schools to run sports days and tournaments. This will build on the success of the UK School Games and its impact on motivating young people to take part in competitive sport.

## OLYMPICS

### Departmental Foreign Workers

**David Simpson:** To ask the Minister for the Olympics how many *(a)* EU foreign nationals and *(b)* non-EU foreign nationals are employed by her Office. [168093]

**Tessa Jowell:** I refer the hon. Member to the answer given to him by my hon. Friend the Parliamentary Secretary for the Cabinet Office (Gillian Merron) on 28 November 2007, *Official Report*, column 442W.

### Olympic Delivery Authority: Carbon Emissions

**Mr. Gummer:** To ask the Minister for the Olympics what discussions she has had with the Olympic Delivery Authority on reducing the carbon footprint of the 2012 Olympic Games. [172013]

**Tessa Jowell:** On 26 November, the Olympic Board, on behalf of the ODA and other Olympic partners, launched the London 2012 Sustainability Plan—Towards a One Planet 2012, which confirmed our commitment to minimise carbon emissions for the 2012 Games including the creation of a new decentralised energy supply infrastructure; designing buildings and parkland to minimise energy use; procurement of low carbon vehicles for the official fleet; and maximising the use of public transport to reach venues.

The ODA also set out their specific proposals on minimising carbon emissions as part of their detailed Sustainable Development Strategy published in January 2007.

**Mr. Gummer:** To ask the Minister for the Olympics what the difference is in the carbon footprint of the original plans for portable facilities for the Olympic Games and the proposed single permanent venue at ExCel. [172014]

**Tessa Jowell:** Decisions on temporary and portable facilities for the 2012 Games have yet to be finalised. As part of the decision-making process there will be a detailed analysis of the carbon footprint of the options.

On 26 November, the Olympic Board launched the London 2012 Sustainability Plan—Towards a One Planet 2012, which confirmed our commitment to minimise carbon emissions for the 2012 Games.

### Olympic Games 2012: Finance

**Mr. Boris Johnson:** To ask the Minister for the Olympics if she will place in the Library copies of all monthly financial updates against the respective budgets of the *(a)* London Organising Committee of the Olympic Games and *(b)* Olympic Delivery Authority. [172966]

**Tessa Jowell:** As announced on 10 December, I will provide a detailed account of progress across the Olympic programme when the first Olympic annual report is produced in the new year. Following this, I will make further reports to Parliament on a six monthly basis.

The Olympic Board will receive monthly updates.

## ELECTORAL COMMISSION COMMITTEE

### Elections

**Mr. Pickles:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how many performance indicators the Electoral Commission plans to set for local authorities. [173473]

**Peter Viggers:** The Electoral Commission informs me that it is currently developing a performance standards framework for Electoral Registration Officers, Returning Officers and Referendum Counting Officers, arising from the powers given to it under section 67 of the Electoral Administration Act 2006.

Although the Commission has yet to determine the final number of performance indicators, it aims to ensure that the performance framework is focused and proportionate, and does not represent an unjustified burden. The Commission is currently consulting with stakeholders and expects to publish the final performance standards by the end of 2008.

### Electoral Register

**Mr. Pickles:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what research the Commission has commissioned from NOP into electoral registration; and what the cost was of such research. [173484]

**Peter Viggers:** The Electoral Commission informs me that GfK NOP Ltd. was commissioned to conduct research into the "Completeness and accuracy of the electoral registers in Greater London". The project was carried out between April and September 2007 and cost £78,796 +VAT. The findings of the project were published in October 2007 on the Commission's website at:

www.electoralcommission.org.uk

In addition, NOP was commissioned in 2007 to conduct two public opinion research projects into the general experience of voting in Wales and Scotland; only a small component of which concerned voter registration. The combined cost was £52,357 + VAT.

## NORTHERN IRELAND

### Demonstrations: Belfast

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland what steps have been taken by the Parades Commission in relation to offensive and blasphemous placards displayed at the Gay Pride march in Belfast in August. [172719]

**Paul Goggins:** I have been advised by the Parades Commission that it has written to the parade organiser in relation to alleged breaches of its code of conduct at the Belfast Pride parade on 4 August 2007, and has sought a meeting to discuss the matter further.

The Commission is committed to use all of the information at its disposal, including reports from police, participants, authorised officers and monitors, to inform its review of any such parade in the future.

### Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Northern Ireland how many *(a)* men and *(b)* women of each Civil Service grade are employed by his Department. [172729]

**Mr. Woodward:** As at 6 December 2007, the gender breakdown within the Northern Ireland Office is shown in the following table.

| *Grade* | *Male* | *Female* | *Total* |
|---|---|---|---|
| SCS | 32 | 18 | 50 |
| A | 111 | 91 | 202 |
| B1 | 130 | 150 | 280 |
| B2 | 132 | 134 | 266 |
| C | 144 | 328 | 472 |
| D1 | 140 | 460 | 600 |
| D2 | 134 | 147 | 281 |
| Industrial | 12 | 19 | 31 |
| | | | 2,182 |

## Police Service of Northern Ireland: Secondment

**Mr. Dodds:** To ask the Secretary of State for Northern Ireland how many members of police forces in Great Britain were *(a)* seconded and *(b)* transferred to the Police Service of Northern Ireland in each year since 2005, broken down by (i) rank and (ii) sex. [170490]

**Paul Goggins:** I am advised by PSNI that, as of 5 December, the following tables show the number of members of police forces in Great Britain who have been seconded or transferred to PSNI in each year since 2005.

*(a) Secondments*

| | *Rank* | *Number* |
|---|---|---|
| 2005 | Superintendent | 1 |
| 2006 | Superintendent | 2 |
| | Chief Inspector | 2 |
| 2007 | Superintendent | 1 |
| | Chief Inspector | 2 |
| | Inspector | 1 |
| | Sergeant | 3 |
| | Constable | 7 |
| | Student Officer | 1 |

| | *Gender* | *Number* |
|---|---|---|
| 2005 | Male | 1 |
| 2006 | Male | 3 |
| | Female | 1 |
| 2007 | Male | 10 |
| | Female | 5 |

*(b) Transfers*

| | *Rank* | *Number* |
|---|---|---|
| 2005 | Superintendent | 1 |
| | Chief Inspector | 3 |
| | Inspector | 1 |
| | Sergeant | 2 |
| 2006 | Assistant Chief Constable | 1 |
| | Chief Superintendent | 1 |
| | Inspector | 4 |
| | Sergeant | 12 |
| | Constable | 3 |
| 2007 | Inspector | 6 |
| | Sergeant | 8 |
| | Constable | 2 |

| | *Gender* | *Number* |
|---|---|---|
| 2005 | Male | 5 |
| | Female | 2 |
| 2006 | Male | 20 |
| | Female | 1 |
| 2007 | Male | 12 |
| | Female | 4 |

## Prisoners: Literacy

**Lady Hermon:** To ask the Secretary of State for Northern Ireland what the assessed level of numeracy and literacy rates were amongst prisoners in Northern Ireland in each of the last five years. [170464]

**Paul Goggins:** The following tables provide a breakdown of the assessed levels of numeracy and literacy rates among prisoners in Northern Ireland in each of the last five years. The figures are for each of the financial years listed and for the current year up to November 30. It is expected that literacy and numeracy assessments for the full year 2007-08 will reach approximately 1,400.

*Numeracy*

| | *Total number of assessments* | *Below entry level* | *Entry Level 1* | *Entry Level 2* | *Entry Level 3* | *Level 1 + above* |
|---|---|---|---|---|---|---|
| April 2003 to March 2004 | 1,403 | 85 | 130 | 317 | 509 | 362 |
| April 2004 to March 2005 | 1,423 | 110 | 118 | 331 | 475 | 389 |
| April 2005 to March 2006 | 1,486 | 112 | 131 | 352 | 513 | 378 |
| April 2006 to March 2007 | 1,512 | 118 | 73 | 273 | 588 | 460 |
| April 2007 to 20 November 2007 | 828 | 79 | 37 | 177 | 301 | 234 |

*Literacy*

| | *Total number of assessments* | *Below entry level* | *Entry Level 1* | *Entry Level 2* | *Entry Level 3* | *Level 1 + above* |
|---|---|---|---|---|---|---|
| April 2003 to March 2004 | 1,404 | 57 | 65 | 237 | 581 | 464 |
| April 2003 to March 2004 | 1,421 | 76 | 97 | 236 | 523 | 489 |
| April 2003 to March 2004 | 1,480 | 90 | 75 | 235 | 590 | 490 |
| April 2006 to March 2007 | 1,508 | 116 | 49 | 202 | 621 | 520 |
| April 2007 to 20 November 2007 | 833 | 77 | 29 | 115 | 329 | 283 |

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Construction: Skilled Workers

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of jobs that the National Skills Academy for Construction will create by 2016. [173344]

**Mr. Lammy:** I have been asked to reply.

The National Skills Academy for Construction (NSAfC) has been established to provide sector specific training not to create jobs. However, the NSAfC estimate that those joining the industry through apprenticeships and adult traineeships via the National Skills Academy for Construction projects could exceed 2,500 over the next nine years. In addition to newcomers to the industry, the NSAfC will be focusing on upskilling existing construction sector employees.

### Internet: Standards

**James Brokenshire:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions Ministers and officials from his Department have had with internet service providers on the adoption of minimum standards of security offered to consumers; and if he will make a statement. [172393]

**Mr. Timms:** Officials in the Department for Business Enterprise and Regulatory Reform are in regular contact with the internet service providers and bodies associated with the industry on a range of consumer issues. These issues include what actions the industry can take to improve the standard of security that a consumer may expect from a service provider. These discussions are also addressing other consumer issues relating to access to harmful content.

### Partnership at Work Fund Programme

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department commissioned any external assessment of applications for funding under the Partnership at Work Fund programme. [173166]

**Mr. McFadden:** The Department commissioned the Industrial Relations Research Unit at the University of Warwick to undertake an evaluation of the Partnership Fund. This was published in 2003 as Employment Relations Research Series No. 17.

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost to his Department of administering the Partnership at Work Fund programme was in each year since 1999. [173167]

**Mr. McFadden:** This information is not held centrally and could be obtained only at disproportionate cost.

### Post Offices: Closures

**Mr. Weir:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform who was responsible for the decision to instruct Post Office Ltd. to postpone the post office network change programme pending the May 2008 municipal and local authority elections in England and Wales. [173252]

**Mr. McFadden:** Cabinet Office guidelines clearly state that consultations should not be launched, and decisions relating to them announced, in an election period. Successive Administrations of both parties have observed these arrangements for many years.

### Post Offices: Lancashire

**Mr. Evans:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the timetable is for the Post Office to finalise assessments of sub-post offices in Lancashire; and if he will make a statement. [173421]

**Mr. McFadden** *[holding answer 12 December 2007]*: Post Office Ltd. expects that the consultation on the area plan proposals for post office closures and new outreach services in Lancashire and Fylde with Southport will commence 22 January 2008 and conclude 3 March 2008. I understand that Post Office Ltd. expects to announce final decisions in early April 2008.

### Post Offices: Tamworth

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the timetable is for the Post Office to finalise assessments for sub-post offices in Tamworth constituency. [173262]

**Mr. McFadden:** Post Office Ltd. expects that the consultation on the area plan proposals for post office closures and new outreach services in Tamworth will commence 1 April 2008 and conclude 9 June 2008. I understand that Post Office Ltd. expects to announce final decisions in early July 2008.

## PRIME MINISTER

### Russia: Foreign Relations

**Mr. Evans:** To ask the Prime Minister when he next plans to discuss UK-Russia relations with President Putin. [172047]

**The Prime Minister:** It is not the practice of the Government to make public details of all discussions with foreign Governments.

## DEFENCE

### Afghanistan: Peacekeeping Operations

**Patrick Mercer:** To ask the Secretary of State for Defence what estimate he has made of the number of Taliban members who have surrendered then subsequently returned to anti-coalition forces. [172153]

**Des Browne:** All insurgents who surrender either to the Afghan National Security Forces or the International Security Assistance Force are held in the custody of the Afghan authorities. No information is held on whether any detainees who may be released by the Afghan Government subsequently rejoin the insurgency.

**Ann Winterton:** To ask the Secretary of State for Defence if he will make a statement on the recent military operations in Musa Qaleh. [173959]

**Des Browne:** The recent operation by the government of Afghanistan to reassert its authority over Musa Qaleh, which was fully supported by coalition forces, has so far proceeded according to plan. Establishing security in that area will enable reconstruction and economic development, which will benefit all the local population.

### Armed Forces: Catering

**Mr. Vara:** To ask the Secretary of State for Defence what the average cost was of providing a 24-hour ration pack in 2006-07. [172032]

**Mr. Bob Ainsworth:** The average cost of a 24-hour ration pack in 2006-07 was £6.57.

### Armed Forces: Housing

**Mr. Bellingham:** To ask the Secretary of State for Defence how much Ministry of Defence accommodation is deemed uninhabitable. [171002]

**Derek Twigg:** Accommodation can be uninhabitable for various reasons, such as it is awaiting demolition or is undergoing major repair, modernisation or upgrade work.

All currently occupied service accommodation is of a habitable standard. It is not possible to separately identify uninhabitable accommodation without incurring disproportionate cost.

### Defence Aviation Repair Agency: Gosport

**Peter Viggers:** To ask the Secretary of State for Defence if he will make a statement on the Defence Aviation Repair Agency at Fleetlands, Gosport. [173214]

**Mr. Bob Ainsworth** *[holding answer 11 December 2007]:* In my written ministerial statement of 25 July 2007, *Official Report*, column 74WS, I confirmed that work was continuing to progress the sale option for DARA's rotary wing and components businesses. I also announced that Vector Aerospace was selected as the preferred bidder and that if sale did not show MOD best value for defence then these business units would form part of a new defence support organisation being created by merging DARA's remaining businesses with ABRO.

No decision has yet been taken as to whether the sale offers and delivers the best overall value for defence and provides a better long-term future for these businesses and their employees. We recognise the important role that all employees and industry play in supporting the armed forces. Negotiations are continuing with Vector Aerospace and we will arrive at a final decision as soon as possible to remove uncertainty for DARA's rotary and components staff.

### Defence Equipment and Support Organisation: Finance

**Annette Brooke:** To ask the Secretary of State for Defence how much was spent by the Defence Equipment and Support Organisation on equipment programmes in each of the last three years. [173408]

**Mr. Bob Ainsworth** *[holding answer 11 December 2007]:* The information requested is provided in the following table:

| *Financial year* | *£ million* |
|---|---|
| 2004-05 | 10,590 |
| 2005-06 | 10,833 |
| 2006-07 | 12,130 |

The figures include expenditure on equipment additions, equipment support (including stock consumption and post design services), PFI service charges and IT and telecommunications.

### Defence: Procurement

**Mr. Carswell:** To ask the Secretary of State for Defence for what reasons contract amendments relating to equipment acquisition programmes are proposed by his Department; and if he will make a statement. [171826]

**Mr. Bob Ainsworth:** Contract amendments relating to equipment acquisition programmes are proposed where it is appropriate to meet the Department's business needs and are agreed between the parties to the contract, or where there are legislative changes.

**Mr. Carswell:** To ask the Secretary of State for Defence under what circumstances he would require would-be contractors to spend their own or third party funds on advancing the development of new equipment for the armed forces; how this requirement is conveyed to contractors; and if he will make a statement. [171828]

**Mr. Bob Ainsworth:** The Ministry of Defence (MOD) conveys its future industrial and technological requirements to potential contractors via the Defence Industrial Strategy (DIS) and the Defence Technology Strategy (DTS), respectively.

DIS and DTS bring clarity to the MOD's research and development (R and D) priorities, and provide a strategic view of the UK's defence R and D requirements for up to the next 10 years. They give industry a better understanding of where the MOD will invest its limited R and D budget, and thereby encourage industry to increase its investment in areas that are of importance to us. Copies of these strategies are available in the Library of the House.

**Mr. Carswell:** To ask the Secretary of State for Defence for what reasons post design services contracts as they relate to equipment acquisition programmes are awarded by his Department; and if he will make a statement. [171830]

**Mr. Bob Ainsworth:** As part of the Department's commercial transformation, there has been a shift from traditional support arrangements with separate contracts for post design services, spares and maintenance, to integrated, innovative output-based support solutions. These are designed to optimise levels of service through life and to achieve better value for money.

**Mr. Carswell:** To ask the Secretary of State for Defence with reference to the Answer of 29 October 2007, *Official Report*, columns 959-60W, on defence: procurement, what proportion of offer prices quoted by contractors on *(a)* equipment programmes worth more than £100 million and *(b)* other programmes were within (i) 10 per cent., (ii) six per cent. and (iii) two per cent. of the corresponding expenditure figure advertised as a guide to suppliers within the MoD Defence Contractors Bulletin value banding information or elsewhere by his Department in the last period for which figures are available; what proportion of offer prices were greater than the guide figures; and what mechanisms are in place to ensure price competitiveness in the procurement process. [172003]

**Mr. Bob Ainsworth:** This information is not held centrally and could be provided only at disproportionate cost. The MOD uses competition where it can to ensure price competitiveness. Where competition is not a valid option, the MOD uses its well established non-competitive pricing arrangements to agree a fair and reasonable price for a contract.

## Departmental Public Expenditure

**Mr. Philip Hammond:** To ask the Secretary of State for Defence whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibit the assignment of debt. [172321]

**Mr. Bob Ainsworth:** The standard terms and conditions used by the MOD in the procurement of goods and services from the private sector do not prohibit the assignment of debt owed by the private sector.

## Fisheries: Navy

**Bill Wiggin:** To ask the Secretary of State for Defence pursuant to the answers of 26 November 2007, *Official Report*, column 41W, on fisheries: Navy, for what reasons there were no river class offshore patrol vessels in operation on *(a)* 27 April 2007, *(b)* 28 April 2007 and *(c)* 11 October 2007; and if he will make a statement. [171724]

**Mr. Bob Ainsworth:** There were no river class patrol vessels patrolling on 27 and 28 April 2007 as all three were on stand off activities (i.e. periods off task designated for activities such as handovers, stores replenishment and crew rest and recreation). On 11 October 2007 members of the crews of HMS Mersey and HMS Severn were engaged on naval training and HMS Tyne was de-ammunitioning prior to a docking period. Fishery protection duties were undertaken by Hunt Class vessels on each of the three days specified.

## Helicopters: Procurement

**Mr. Carswell:** To ask the Secretary of State for Defence (1) what assessment his Department made of the capability of the EADS Eurocopter UH-145 to fulfil the light utility role prior to awarding the Future Lynx contract to Finmeccanica; and if he will make a statement; [172537]

(2) what assessment his Department made of the capability of the US Sikorsky Seahawk to fulfil aspects of the capability role identified in the Future Rotorcraft Capability programme prior to awarding the Future Lynx contract to Finmeccanica; and if he will make a statement; [172538]

(3) whether his Department considered procuring different helicopter types to fulfil separately the different capability requirements detailed in the Future Rotorcraft Capability programme prior to awarding the Future Lynx contract to Finmeccanica; and if he will make a statement; [172539]

(4) what alternatives to the Future Lynx helicopter his Department considered to fulfil the Battlefield Light Utility Helicopter requirement before awarding the contract; and what the average cost per helicopter was of each contract considered. [172589]

**Mr. Bob Ainsworth:** The Future Rotorcraft Capability (FRC) programme explored the capabilities of many different helicopter types from all major western helicopter manufacturers, including products from EADS Eurocopter and Sikorsky. It also explored whether certain helicopter types could contribute to more than one area of our overall capability need, thus helping reduce through-life costs, though the wide spectrum of tasks required of our helicopter fleet means that no single type is able to meet the required capability in full.

The through-life military capability, cost and risk of various mixes of different helicopter types was assessed. These mixes included options that used different aircraft types to deliver the Land and Maritime capabilities now contracted to be provided by Future Lynx.

This analysis concluded that, alongside other investments arising from the FRC programme, the delivery of the British Army's Battlefield Reconnaissance Helicopter (BRH) and the Royal Navy's Surface Combatant Maritime Rotorcraft (SCMR) through a single helicopter type (Future Lynx) provided the best combination of through-life military capability, cost and risk.

I am withholding the information requested on our internal assessments of the average cost per helicopter as its disclosure would prejudice commercial interests.

## Iraq: Peacekeeping Operations

**Mr. Jenkin:** To ask the Secretary of State for Defence what fuel with additives is being used for light A class, B class wheeled and C class platform vehicles in Iraq and Afghanistan; who is contracted to supply such fuel; what effect use of this fuel has had on fuel costs; how many engine breakdowns and write-offs have occurred attributed to use of such fuel in 2007; and what the cost of repairs and replacements arising has been. [171773]

**Mr. Bob Ainsworth:** In Iraq, Class A, B and C vehicles are fuelled using diesel (F-54) with no additives during the winter months. In the summer a 50/50 blend of diesel and aviation fuel (F-34) known as F-65 together with a lubricant additive, Lubrizol 539M, is used. The fuels are obtained from the US military in Kuwait under the UK-US Fuel Exchange agreement, with logistic support provided by two contractors. F-65 is approximately 11 per cent. more expensive than plain diesel.

In Afghanistan, vehicles are operated in accordance with the NATO single fuel policy where this is technically feasible. The fuel is aviation fuel (F-34) (which has already been treated with AL41 Icing Inhibitor and AL61 Lubricity Improver) to which Lubrizol 539M is also added, the resulting mixture being referred to as F-63. A number of vehicle types are being fuelled with F-54 at certain locations for operational reasons, these include engineering plant, Warrior and CVR(T) vehicles. These fuels are provided under a NATO contract with a civilian contractor. In Afghanistan, F-34 is approximately two per cent. more expensive than F-54.

No breakdowns have been apportioned to the use of any of these fuel types. During the transition from diesel to F-65 or F-63 use, there can be a transient increase in fuel filter use as the F-34 component has a cleansing effect on the engine.

**Dr. Fox:** To ask the Secretary of State for Defence how much his Department spent on repairing *(a)* armoured vehicles, *(b)* aircraft, *(c)* helicopters and *(d)* weapons systems damaged in use in Iraq and Afghanistan in each year since 2003-04; and if he will make a statement. [171896]

**Mr. Bob Ainsworth:** The information is not held centrally and could be provided only at disproportionate cost.

**Mr. Ellwood:** To ask the Secretary of State for Defence what plans there are for the RAF to resume daytime flights on the Jasper airbridge in Iraq. [172601]

**Mr. Bob Ainsworth** *[holding answer 10 December 2007]*: RAF logistics flights into and around Iraq are undertaken in a way that strikes the correct balance between minimising risks and meeting operational requirements. Generally this means that flights are undertaken during the hours of darkness, but the most appropriate scheduling of each flight is considered on a case-by-case basis.

## Iraq: Reconstruction

**Dr. Fox:** To ask the Secretary of State for Defence how many of his Department's personnel were assigned to the British provincial reconstruction team in *(a)* Basra and *(b)* Lashkar Gah in each year since 2005; what contact those personnel have with local people on reconstruction issues; and if he will make a statement. [170823]

**Des Browne:** The Ministry of Defence attached two UK Service personnel to the Provincial Reconstruction Team in Basra when it was established in 2006. This has recently been reduced to one.

Since 2005, four UK service personnel have been attached to the Provincial Reconstruction Team in Lashkar Gar. In addition, a further contingent is assigned to the Security Sector Reform cell, which has gradually grown to its present size of 15 personnel.

The Provincial Reconstruction Teams in both Basra and Lashkar Gar pursue a comprehensive approach to reconstruction. This includes: making regular contact with local Iraqis and Afghans through the mentoring of the Iraqi and Afghan National Security Forces and Judiciary; attendance, as appropriate, at shuras; meeting with representatives of the Governments of Iraq and Afghanistan at regional, provincial and district levels; and routine patrolling.

## Nuclear Submarines

**Mr. Hancock:** To ask the Secretary of State for Defence if he will introduce safeguards to ensure that UK submarine commanders are unable to launch a nuclear attack on their own initiative under any circumstances; and if he will make a statement. [172814]

**Des Browne:** I am satisfied that all the necessary safeguards are in place.

## Patrol Craft

**Bill Wiggin:** To ask the Secretary of State for Defence for what purposes he used each category of River Class offshore patrol vessels in each year since 1997; for how many patrol days in each category; and if he will make a statement. [168221]

**Mr. Bob Ainsworth:** The River Class Offshore Patrol Vessels were commissioned in 2003 and 2004. The number of patrol days on fishery protection for each River Class Vessel were as follows:

| | *Vessel* | *Days* |
|---|---|---|
| 2002-03 | Tyne | 22 |
| 2003-04 | Tyne | 222 |
| | Severn | 112 |
| | Mersey | 11 |
| 2004-05 | Tyne | 192 |
| | Severn | 204 |
| | Mersey | 230 |
| 2005-06 | Tyne | 193 |
| | Severn | 225 |
| | Mersey | 218 |
| 2006-07 | Tyne | 225 |
| | Severn | 185 |
| | Mersey | 208 |

For the remaining time the vessels were used for standoffs (periods off task for activities such as handovers, stores replenishment, and rest and recreation for the crew), training, maintenance, passage and visits, and unused days owned by VT Group plc.

**Bill Wiggin:** To ask the Secretary of State for Defence what maximum number of patrol days each River Class offshore patrol vessel may undertake *(a)* operationally and *(b)* under the terms of his Department's (i) agreement with DEFRA and (ii) the contract with Vosper Thornycroft. [168244]

**Mr. Bob Ainsworth:** The Royal Navy Plan specifies that each River Class vessel undertakes up to 230 Patrol Days each year depending on the requirement of the MOD/DEFRA contract. Remaining days are taken up by standoff (ie periods off task for activities such as handovers, stores replenishment and crew rest and recreation); training; passage and visits, and 45 days, including 25 for maintenance, which are owned by the VT Group plc, from whom the vessels are, leased.

The current agreement with DEFRA does not specify the type(s) of vessels to be used but does state the proportion of total patrol days to be provided by Offshore Patrol Vessels. In 2007-08 800 patrol days are to be provided, of which 560 must be Offshore Patrol Vessel days.

The contract with the VT Group plc does not include a maximum number of patrol days. It specifies that each of the three River Class patrol vessels must be available to the Royal Navy for 320 days per year.

**Bill Wiggin:** To ask the Secretary of State for Defence (1) for what purposes the River Class offshore patrol vessels have been used in addition to fisheries protection; how many patrol days this has required in each case since the River Class were commissioned; and if he will make a statement; [170908]

(2) for what purposes the River Class offshore patrol vessels will be used in addition to fisheries protection for the next five years; and if he will make a statement. [170909]

**Mr. Bob Ainsworth:** The operational focus of the River Class vessels is fishery protection. When not being used for this purpose their time is used for stand-offs, training, passage, visits and maintenance. They must also be available for the VT Group plc 'unused' days (days for which the ships are not contracted and therefore unavailable for any FLEET tasking). They may also be programmed by the Commander in Chief Fleet for other tasks, such as maritime security, in the case of an urgent operational requirement. These cases are likely to be rare. None of these tasks are carried out at the expense of the agreed number of fishery patrol days provided by the Ministry of Defence to DEFRA. There are currently no plans to change the purposes for which River Class vessels are used in the future.

### Puma Helicopters

**Mr. Keetch:** To ask the Secretary of State for Defence what plans his Department has for extending the life of the RAF's existing fleet of Puma HC1 helicopters; when the proposed Puma Mk 2 helicopter will come into service; and if he will make a statement. [171012]

**Mr. Bob Ainsworth:** The Ministry of Defence announced in June 2007 the award of a contract to EADS Eurocopter to assess the timescale, cost, performance and risk issues associated with the enhancements of the capability and the extension of the in-service life of the Puma HC1 helicopter until 2022. This assessment will explore issues relating to the upgrade of avionics systems and the replacement of engines and obsolete items. It is scheduled to conclude in 2008 to inform an investment decision to undertake the capability enhancement and life extension programme. It is envisaged that the resultant aircraft would be known as the Puma HC2. In-service duties will not be decided until the main investment decision is made.

### Trident Missiles

**Norman Baker:** To ask the Secretary of State for Defence what formal procedure has to be followed for submarine commanders to launch Trident missiles; and what role security codes play in that procedure. [173867]

**Des Browne:** I am withholding the information as its disclosure would, or would be likely to prejudice the capability, effectiveness or security of the armed forces.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Bluetongue Disease: Disease Control

**Mr. Swayne:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the merits of the use of pre-movement testing as a strategy for containing bluetongue disease; and if he will make a statement. [172297]

**Jonathan Shaw:** The strategy to manage movements of animals from bluetongue restricted zones has been agreed at EU level and is set out in Regulation 1266/2007. The regime is based around the scientific evidence base, with movement conditions intended to provide appropriate assurance that animals are not infected before moves can be allowed. Pre-movement testing forms an integral part of this regime, but testing must be used in conjunction with other measures to provide appropriate guarantees, due to the nature of bluetongue spread by midges.

These measures include testing during the "vector free period" when temperatures have dropped significantly and midge activity is greatly reduced, or isolating animals in midge-proof buildings before testing. In each case, the aim is to ensure that the animal is safe to move. Guidance on these provisions, and on movement in the vector free period in particular, will be published shortly (the most likely window for such a period if it can be declared is January to March).

### Foot and Mouth Disease: Disease Control

**Mr. Swayne:** To ask the Secretary of State for Environment, Food and Rural Affairs what account is taken of *(a)* county boundaries and *(b)* distance from outbreak in determining foot and mouth disease restriction zones; and if he will make a statement. [172296]

**Jonathan Shaw:** EU legislation sets out that a Protection Zone must be imposed for a minimum of 3 km, and a Surveillance Zone for a minimum of 10 km, around each infected premises. Our Protection and Surveillance Zones have always followed these minimum requirements and have not been demarcated by county boundaries.

The wider Restricted Zone originally covered the whole of Great Britain and implemented the national movement ban, but was subsequently reduced in size to be based on administrative and county boundaries, based on a veterinary risk assessment. In addition, the EU export areas have been delineated by administrative and county boundaries on the same basis.

## WOMEN AND EQUALITY

### Pay Equality

27. **Miss Kirkbride:** To ask the Minister for Women and Equality when she will bring forward proposals to address the gender pay gap. [173635]

**Barbara Follett:** For the first time, we have an indicator to narrow the pay gap in the Equalities Public Service Agreement. The Government have announced their decision to extend the right to request flexible working to parents of older children, and we are considering responses to our consultation on the Equality Bill about how the law on equal pay could be strengthened.

### Public Bodies: Appointments

28. **Anne Snelgrove:** To ask the Minister for Women and Equality what progress the Government has made on increasing the proportion of women appointed to public bodies. [173636]

**Barbara Follett:** This Government are committed to equal representation of women and men on our public bodies. Women currently hold 35.5 per cent. of public appointments—an increase from 32 per cent. in 1997. One of my priorities for women is to empower more of them to take up opportunities to participate in public life.

### Women: Political Life

29. **Mr. Allen:** To ask the Minister for Women and Equality what steps the Government is taking to increase the representation of women in political life. [173637]

**Barbara Follett:** I refer the hon. member to the answer given to the hon. Member for North Ayrshire and Arran (Ms Clark) today, *Official Report* col. 451.

### Imprisonment

30. **Sarah McCarthy-Fry:** To ask the Minister for Women and Equality what recent discussions she has had with ministerial colleagues on alternatives to imprisonment for women. [173638]

**Barbara Follett:** I refer my hon. Friend to the answer that I gave to the hon. Member for Bridgend (Mrs. Moon) today, *Official Report* col. 450.

## SCOTLAND

### Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Scotland on how many occasions he has accepted corporate hospitality in the last 12 months. [171308]

**David Cairns:** Chapter 7 of the 'Ministerial Code' sets out the rules on the registration of hospitality.

### Delivery Services

**Mr. Carmichael:** To ask the Secretary of State for Scotland which companies are under contract to his Department to provide mail services. [170173]

**David Cairns:** The Scotland Office uses the Scottish Executive's postal facilities for the majority of outgoing mail and reimburses them for usage. In addition, the office uses Royal Mail for the transportation of ministerial papers.

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for Scotland how much was paid in consultancy fees by his Department in each year since its establishment. [171999]

**David Cairns:** I refer my hon. Friend to the answer that I gave to my right hon. Friend the Member for Oldham, West and Royton (Mr. Meacher) on 3 July 2007, *Official Report*, column 959W.

### Departmental Labour Turnover

**Mr. Philip Hammond:** To ask the Secretary of State for Scotland what the percentage turnover of staff was in his Department in *(a)* the last 12-month period and *(b)* the last 24-month period for which figures are available. [169041]

**David Cairns:** All the staff in the Scotland Office are on loan from other Government Departments, normally for a period of two to three years. At the end of this period, staff generally return to their parent Department.

### Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Scotland how many *(a)* men and *(b)* women are employed by his Department, broken down by civil service grade. [172693]

**David Cairns:** Information on gender and civil service grade is published in the office's annual report, a copy of which has been placed in the House Library.

### Departmental Pay

**Mr. Philip Hammond:** To ask the Secretary of State for Scotland how much his Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171536]

**David Cairns:** I refer the hon. Member to the answers that I gave to my right hon. Friend the Member for Leicester, East (Keith Vaz) on 19 December 2006, *Official Report*, column 1769W, and the hon. Member for Orkney and Shetland (Mr. Carmichael) on 13 June 2007, *Official Report*, column 1048W.

### Illegal Immigrants

**Damian Green:** To ask the Secretary of State for Scotland how many illegal immigrants were discovered working for his Department in the last year for which figures are available. [170505]

**David Cairns:** Employment in the civil service is done in accordance with the civil service nationality rules, which are available at:

www.civilservice.gov.uk/nationality

## CHILDREN, SCHOOLS AND FAMILIES

### Antisocial Behaviour: South West Region

**Mr. Steen:** To ask the Secretary of State for Children, Schools and Families how many people comprise the respect squad sent to the West Country; what work the squad will undertake; and whether it plans to visit Torbay. [172837]

**Beverley Hughes** *[holding answer 11 December 2007]*: The group of expert practitioners referred to as the respect "squad" comprises of 10 people.

The purpose and work of these expert practitioners is to provide advice and assistance for local partners in relation to complex cases of antisocial behaviour. An expert practitioner intervention has no formal power and is not designed to be an inspection but to provide support where local partners are unable to formulate a clear solution to individual cases, excluding these cases where court action is already underway, or trends in incidents of antisocial behaviour. These nationally recognised expert practitioners have committed to giving some time and advice with the agreement of their employer and taking into account their own work priorities.

In September 2007, two expert practitioners visited and gave advice to local service providers and members of the public in an ongoing case of antisocial behaviour in Torbay, however there is no current outstanding case in this area and no visit to the area is planned.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Children, Schools and Families whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibit the assignment of debt. [172324]

**Kevin Brennan:** The Department's standard terms and conditions for the purchase of goods and services do not specifically mention the prohibition of the assignment of debt. They do include a clause stating that the benefit and burden of the contract may not be assigned or sub-contracted in whole or in part by the contractor without the prior written consent of the Department.

### Departmental Publicity

**Julia Goldsworthy:** To ask the Secretary of State for Children, Schools and Families what the budget was of his Department's public communications unit in the latest period for which figures are available; and how this budget was spent. [173204]

**Kevin Brennan** *[holding answer 11 December 2007]*: The budget for the Department's public communication unit for 2006-07 was £3.5 million on salaries and £218.4k on operational costs. In addition £120.5k was spent on programmes to improve delivery. During this period the unit responded to: 167,086 telephone enquiries; 53,844 letters and emails from members of the public; and drafted 8,846 responses to letters from MPs and Peers. It also managed 47 public consultations and processed 15,835 consultation responses.

The figures supplied are for the former Department for Education and Skills and the costs include work which is now the responsibility for Department for Innovation, Universities and Skills. We would not be able to separate these cost out except at disproportionate cost.

### Literacy

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to increase literacy rates since 1997. [172644]

**Jim Knight:** Improving standards of literacy is one of the Government's top priorities. Since 1997 literacy rates have risen dramatically. The 2007 English results show that 80 per cent. of 11-year-olds reached the expected level or above, an increase of 17 percentage points since 1997; and 74 per cent. of 14-year-olds reached the expected level or above, an increase of 17 percentage points since 1997. At GCSE, 2007 results indicate that 45.7 per cent. of young people achieved 5 A*-C GCSEs including English, an increase of 9.7 percentage points since 1997.

This is as a result of a number of factors, including the challenge and support provided through the Primary and Secondary National Strategies. The National Strategies provide continuing professional development to support schools in raising standards in teaching, support better use of pupil performance data and challenge schools and local authorities to set ambitious targets for their pupils.

The primary framework for teaching literacy has been renewed to reflect the recommendations of the "Rose Review". The renewed framework now puts phonics at the heart of teaching reading and, backed up by the letters and sounds phonics teaching programme, will help to raise attainment levels in all pupils. Next April a revised and updated secondary framework for teaching

English will be published which will place greater focus on pupil assessment and progression.

For those children who struggle most in learning to read, the additional support provided through the national roll-out of the Every Child a Reader programme and the development of an Every Child a Writer programme will help to ensure that we maintain and extend the improvements we have already achieved.

### Members: Correspondence

**Mr. Baron:** To ask the Secretary of State for Children, Schools and Families when he will reply to correspondence from the hon. Member for Billericay dated *(a)* 28 August, *(b)* 15 October and *(c)* 15 November on the subject of Mrs Diana Taylor's attempts to establish contact with her daughter; and if he will provide the legal advice requested. [172609]

**Kevin Brennan** *[holding answer 10 December 2007]*: I replied to these letters on 7 December 2007. I apologise for the delay in responding. This matter involved complex policy and legal considerations, requiring discussion between my officials and officials of the General Register Office. My reply explains the provisions of the relevant legislation.

### Pupils: Intimidation

**Tom Brake:** To ask the Secretary of State for Children, Schools and Families how many deaths of school children have been reported as attributable to bullying in each of the last 10 years; and if he will make a statement. [173485]

**Kevin Brennan:** This information is not centrally available.

### Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Children, Schools and Families if he will place in the Library details of his Department's contracts with suppliers to provide telephone helpline services to the public. [173272]

**Kevin Brennan:** Details of all the telephone helpline services to the public which the Department supports through contracts or grants to suppliers or voluntary sector organisations are not held centrally and could be provided only at disproportionate cost. Some of these are included in the following table.

| *Name of helpline* | *Purpose* |
|---|---|
| Connexions Direct | To provide advice and support for 13-19 year olds. |
| Sexwise | To answer queries on sex and relationships from under 18 year-olds and to signpost to local services. Jointly funded by DCSF as part of the teenage pregnancy national campaign |
| FRANK | To provide factual information on drugs to young people and parents and signpost to local services. Jointly funded by DCSF as part of the drug information national campaign. |
| Young Minds | To provide advice for young people on mental health issues, including depression, self harm and eating disorders. |
| Early years and childcare careers helpline | To provide information about careers in the early years and childcare sector and to pass on caller details to local authorities. |
| Parentline Plus | To provide general information and support for parents. An additional contract covers provision of a helpline on bullying. |
| Affordable Childcare | To signpost parents to information about childcare options in their local area. |
| Advisory Centre for Education | To provide advice for parents on educational matters, including special educational needs, exclusions and admissions law. |
| Children's Legal Centre | To provide legal advice for parents on issues around contact and parental responsibility |
| Family Rights Group | To provide advice for parents involved with the social care system. |
| One Parent Families | To provide advice for single parents on topics like benefits, housing and debt. |
| Contact a Family | To provide advice for parents of disabled children. |
| DCSF Public Enquiry Unit | To provide the general public with information on DCSF-related enquiries. |
| Prolog publications helpline | To enable members of the public to order DCSF publications. |

Additionally, the Department has announced that it will provide a grant to support the expansion and development of helpline services provided by the NSPCC.

### Visits Abroad

**David Simpson:** To ask the Secretary of State for Children, Schools and Families how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171336]

**Kevin Brennan:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006—31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the "Ministerial Code".

## TRANSPORT

### Aviation: Exhaust Emissions

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the average volume of carbon dioxide emissions per passenger, per kilometre for travel by air. [168664]

**Jim Fitzpatrick:** DEFRA publish estimates of the carbon dioxide emissions per passenger kilometre from aircraft, flying domestic, short haul and long haul routes. These are contained in their report "Guidelines to DEFRA's GHG conversion factors for company reporting", which was updated in June 2007.

The estimated emissions are 158 grammes of carbon dioxide per passenger kilometre for domestic flights; 130 grammes of carbon dioxide per passenger kilometre for short haul flights and 105 grammes of carbon dioxide per passenger kilometre for long haul flights. When using these factors, an uplift of 9 per cent. is then applied to these factors in line with the evidence from the intergovernmental panel on climate change to account for non-direct routes (i.e. not along the straight line between destinations) and delays/circling.

This would effectively increase the factors to apply to a given flight distance to 172 grammes, 142 grammes and 114 grammes of carbon dioxide per passenger kilometre for domestic flights, short haul flights and long haul flights respectively.

These factors are illustrative; actual emissions will vary significantly according to the type of aircraft in use, the load, or cabin class for example.

### Aviation: Standards

**Sir George Young:** To ask the Secretary of State for Transport what evidential basis there is for the Terminal Control South West Airspace Development change reducing delays in flights. [171849]

**Jim Fitzpatrick:** It is not for the Secretary of State for Transport to determine the evidential basis for the NATS' Terminal Control South West Airspace Development to reduce delays in flights.

The NATS Terminal Control South West Airspace Development proposal is currently subject to scrutiny by the Civil Aviation Authority (CAA), in accordance with their independent Airspace Change Process.

### Compton VHF Omnidirectional Radio

**Sir George Young:** To ask the Secretary of State for Transport how many flights using the Compton VHF omnidirectional radio (VOR) there were between September 2005 and September 2006; how many of these flights were delayed as a result of congestion in the VOR system; and what the average delay in those flights was. [171850]

**Jim Fitzpatrick:** This is an operational matter for NATS, the air navigation services provider. I have asked the chief executive of NATS to respond to the question of the right hon. Member directly.

### Departmental Food

**Mr. Roger Williams:** To ask the Secretary of State for Transport what percentage of *(a)* beef, *(b)* lamb, *(c)* pork and *(d)* dairy products used in her departmental headquarters were imported products in the most recent period for which figures are available. [166643]

**Jim Fitzpatrick:** All beef, lamb and dairy products used in the Department's headquarters catering service are sourced within the UK. Bacon originates from Denmark but all other pork products such as chops and joints are obtained from the UK.

### Departmental ICT

**Mrs. Villiers:** To ask the Secretary of State for Transport what teleconference facilities are available to *(a)* ministers and *(b)* officials at her Department and how many ministerial meetings took place by teleconference link in her Department in each of the last five years. [170716]

**Jim Fitzpatrick:** The Department for Transport uses both video conferencing and telephone conference facilities, and all staff are encouraged to use them whenever possible to save time and travelling expenses.

Video conference facilities are available in the Department for Transport (Central) and its agencies, with the exception of the Government Car and Despatch Agency and Vehicle Certification Agency who have no such facilities. They are available to all staff but no record of specific usage is kept.

Telephone conferencing facilities are available to most staff, either through specific units or their individual handsets, but no records are kept of usage.

The information about ministerial meetings that took place by telephone conference or through video conferencing in the last five years could be provided only at disproportionate cost.

### Departmental Official Visits

**Mrs. Villiers:** To ask the Secretary of State for Transport how many flights to *(a)* Brussels, *(b)* Paris, *(c)* Manchester and *(d)* Leeds were taken by Ministers and officials in her Department in each of the last five years. [170712]

**Jim Fitzpatrick:** This information can be provided only at disproportionate cost. Since 1999, the Government have published on an annual basis a list of all overseas visits by Cabinet Ministers costing in excess of £500, as well as the total cost of all ministerial travel overseas. Copies of the lists are available in the Libraries of the House. All travel is undertaken in accordance with the "Civil Service Management Code", the "Ministerial Code" and "Travel by Ministers".

### Departmental Pay

**Sarah Teather:** To ask the Secretary of State for Transport how many people in her Department and its predecessors were paid over £100,000 in each year since 1997. [167201]

**Jim Fitzpatrick:** The number of people in the Department for Transport earning over £100,000 is set out in the following table for each year since 2003. Earnings comprise basic salary plus bonus, where applicable. Figures prior to 2003 are not readily available and can be obtained only at disproportionate cost.[1]

| | *Number of staff* |
|---|---|
| 2003 | 8 |
| 2004 | 19 |
| 2005 | 25 |
| 2006 | 44 |
| 2007 | 48 |

The figures for 2006 include the impact of transfer to the Department of the responsibilities of the Strategic Rail Authority, including about 30 senior civil servants, some earning above £100,000.

---

[1] *[Official Report, 8 January 2008, Vol. 470, c. 3MC.]*

### Departmental Sustainable Development

**John McDonnell:** To ask the Secretary of State for Transport whether her Department is working towards an accredited certified environmental management system *(a)* for its whole estate and *(b)* in some of its buildings. [171980]

**Jim Fitzpatrick:** The information requested is as follows:

*(a)* The Department is working towards an accredited certified environmental management system in a number of its sites. The diverse and geographically remote nature of the departmental building stock makes the achievement of an accredited EMS covering the whole estate an extremely challenging task.

*(b)* The Department has five sites that are covered by an accredited certified EMS and three sites that have a non-certified EMS. In addition 608 sites are working towards attaining an EMS.

### Galileo Satellite Programme

**Mr. Evans:** To ask the Secretary of State for Transport if she will make it her policy to oppose the further development of the Galileo Satellite programme without the commissioning of an independent cost benefit analysis; and if she will make a statement. [173382]

**Ms Rosie Winterton** *[holding answer 11 December 2007]:* The results of a first exploratory evaluation by the Galileo Supervisory Authority of the benefits of Galileo for the EU over the 20 year period to 2027 were published by the Commission in September. This showed substantial additional value for the EU of €50 billion to €60 billion over the period, over and above the benefits of the market created by GPS. The UK minutes statement at the Transport Council on 30 November called on the Commission regularly to review costs, risks and likely revenues as the project progressed.

**Graham Stringer:** To ask the Secretary of State for Transport when she expects to receive from the European Commission a full cost-benefit analysis of the Galileo satellite system. [169792]

**Ms Rosie Winterton** *[holding answer 5 December 2007]:* The results of a first exploratory evaluation by the Galileo Supervisory Authority of the benefits of Galileo for the EU over the 20 year period to 2027 were published by the Commission in September. This showed substantial additional value for the EU of €50 billion to €60 billion over the period, over and above the benefits of the market created by GPS. The UK minutes statement at the Transport Council on 30 November 2007 called on the Commission regularly to review costs, risks and likely revenues as the project progressed.

### Government Car and Despatch Agency: Standards

**Mr. Hoban:** To ask the Secretary of State for Transport if she will place in the Library a copy of the Government Car and Despatch Agency's latest customer satisfaction survey results. [173178]

**Jim Fitzpatrick:** The GCDA customer satisfaction survey is carried out independently by GfK NOP. The results of the survey are published each year in the Agency's Annual Report and Accounts, copies of which are available in the Library of the House.

### Heathrow Airport: Public Participation

**Justine Greening:** To ask the Secretary of State for Transport if she will release details of submissions to the public consultation on expanding Heathrow on a regular basis as the consultation progresses. [172713]

**Jim Fitzpatrick** *[holding answer 10 December 2007]:* It is anticipated a very large number of responses to the consultation will be received. We will not be in a position to release any information until after the consultation is closed and replies have been collated and analysed. We will make available a summary of responses as soon as we are able to do so and in line with the Cabinet Office Code of Practice on Consultation.

**Justine Greening:** To ask the Secretary of State for Transport if she will take into account the number of responses to the public consultation on the expansion of Heathrow airport in reaching her decision on the project; and if she will make a statement. [172812]

**Jim Fitzpatrick** *[holding answer 10 December 2007]:* We expect to make final policy decisions later in 2008, taking account of all the available evidence, including the responses to the consultation.

### Navigation

**Sir George Young:** To ask the Secretary of State for Transport what assessment she has made of whether introduction of precision radio navigation in the UK would make unnecessary the Terminal Control South West Airspace Development change proposal affecting current flights in the vicinity of Compton VHF omnidirectional radio; and whether she plans to introduce precision radio navigation in the UK. [171848]

**Jim Fitzpatrick:** It is not for the Secretary of State for Transport to either assess the impact of the introduction of Precision Area Navigation (P-RNAV) on Airspace Change Proposals or to make any decision on the introduction of Precision Area Navigation in the UK, as these are matters for the Civil Aviation Authority.

### Regional Airports

**Mr. Kemp:** To ask the Secretary of State for Transport what plans she has for the development of regional airports; and if she will make a statement. [173567]

**Jim Fitzpatrick:** The Government's Future of Air Transport White Paper recognised provision of additional regional airport capacity as a key driver to generating growth and investment in the regions, subject to local and wider environmental impacts of air travel being taken into account. Within this context airport operators across the UK were invited to publish master plans outlining their future development proposals.

Many regional airport operators have produced comprehensive master plans and will submit development proposals for planning approval as and when they are ready to do so.

### Roads: Noise

**Mrs. Maria Miller:** To ask the Secretary of State for Transport how much was (*a*) allocated to and (*b*) spent on mitigating the effects of noise generated by major roads and motorways in each year since 2000; how much has been allocated for this purpose in each year until 2011; if she will place in the Library copies of research commissioned by her Department on identifying, mapping and modelling communities affected by such noise; and if she will make a statement. [173628]

**Mr. Tom Harris:** Since 2000 the Highways Agency has been allocated £5 million per annum for noise mitigation measures to deal with the most serious and pressing cases, where practical and cost-effective measures can be provided. These measures are applied to the entire strategic road network including both motorways and trunks roads. This annual allocation for noise mitigation is scheduled to continue until the end of the period covered by CSR07.

The Agency's expenditure in this area is not limited to this figure as noise mitigation measures are included in all the Agency's schemes, where warranted, as it is more cost effective to do this work concurrently with other scheme works. The cost of these works are subsumed within the overall cost of the individual schemes making it impossible to extract the exact figure spent on noise mitigation without incurring disproportionate costs.

In 1999, the Agency commissioned research to develop a system which would help to identify and classify residential areas adjacent to the road network on the basis of their noise exposure. A copy of the report from this research will be placed in the House library. More recent research has been undertaken by DEFRA, as a result of the introduction of the Environmental Noise Directive into UK legislation. This has required major sources of noise to be mapped, including the entire strategic road network. These maps are expected to be published by DEFRA in early 2008.

## WORK AND PENSIONS

### Conditions of Employment: Mental Health

**Mr. Harper:** To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on mental health and employment, (1) what the role is of the national director of health and work; [169848]

(2) what the terms of reference are of the review into improving the health and employment prospects of people of working age being undertaken by Dame Carol Black. [169947]

**Mrs. McGuire:** Professor Dame Carol Black is the Government's first ever national director for health and work. Dame Carol is a champion for the health, work and well-being strategy which is a partnership between Department for Work and Pensions, Health and Safety Executive and the three Health Departments of Great Britain. In this role she advises Ministers, engages stakeholders, raises awareness of the importance of work to health and helps to change perceptions and behaviour.

In March 2007, jointly with the Department of Health, we commissioned Dame Carol to carry out a review. The terms of reference are

> "To conduct a review of health-related factors that influence working life in Great Britain, and make recommendations."

This review will be crucial to helping us understand the impact of ill health in working age people and how best we can tackle this and support people to stay in work. It will help steer the Government's strategy for the coming years.

As a specific task within the role of national director we have asked Dame Carol to chair a high-level group drawn from business, the medical profession, academia, the third sector, and stakeholder groups to oversee the work on mental health and employment that we announced on 27 November. We are currently developing the detailed terms of reference for this steering group.

**Mr. Harper:** To ask the Secretary of State for Work and Pensions pursuant to the written ministerial statement of 27 November 2007, *Official Report*, columns 27-30WS, on mental health and employment, what form a fitnote will take; and how a fitnote will differ from a sicknote. [169946]

**Caroline Flint:** DWP is currently revising the format and content of the medical certificate (FMed3). The Department is working with employers, employees, healthcare professionals and their representative bodies to produce a certificate that will assist and encourage doctors to provide clearer and more helpful fitness for work advice to their patients, especially those with mental health conditions. The revised certificate will also provide employers with the information needed to help facilitate an employee's earlier return to work where possible.

### Departmental Consultants

**Mr. Walker:** To ask the Secretary of State for Work and Pensions what contracts his Department has with external consultants; what the total value, including all VAT and disbursements, of these contracts are for the current financial year; how long each contract lasts; and what the forecast total value is of each contract. [163809]

**Caroline Flint:** The Department for Work and Pensions' current contracts with external consultants, the estimated expenditure on them (including VAT and all disbursements) in the current financial year, their total value and duration are shown in the following table.

*Department for Work and Pensions—contracts with external consultants—November 2007*

| Contract | External consultants | Estimated total value July 2008 (£) | Duration of contract | Estimated total value of contract (£) |
|---|---|---|---|---|
| Support to pensions transformation programme | Booz Allen Hamilton | 14,134,745 | 3 February 2003 to 30 November 2007 | 104,680,750 |
| Strategic partner to employment support allowance project | Capgemini | 5,875,000 | 26 March 2007 to 25 March 2011 | 15,275,000 |
| Integrated communications network services - contract transformation plan management | Deloitte | 3,935,977 | 24 November 2005 to 31 March 2009 | 12,038,290 |
| DWP cross towers communications | Deloitte | 5,875,000 | 3 April 2006 to 31 March 2008 | 11,792,357 |
| Support to disability and carers service change programme | PA Consulting | 237,607 | 1 December 2006 to 31 May 2008 | 10,575,000 |
| Professional and consultancy services for the continuous improvement programme | Capgemini | 6,165,120 | 7 July 2007 to 6 July 2008 | 8,220,161 |
| Strategic partner—business and financial controls | PricewaterhouseCoopers | 1,818,248 | 1 April 2006 to 31 March 2008 | 6,462,500 |
| Initial design support—business process design and re-engineering | Deloitte | 1,343,601 | 20 June 2006 to 28 December 2007 | 4,419,985 |
| Strategic partner to risk assurance division | Grant Thornton | 1,175,000 | 1 June 2005 to 31 May | 3,414,714 |
| Enabling retirement savings programme (design and implementation strand) | Deloitte | 1,175,000 | 8 August 2007 to 31 July 2009 | 2,585,000 |
| HR IS/IT modernisation programme | Capgemini | 1,435,876 | 23 October 2006 to 22 October 2008 | 2,350,000 |
| Support to central payments system programme 2 | Deloitte | 1,374,734 | 1 November 2007 to 31 May 2007 | 1,924,628 |
| DWP leaflet review and analysis | Bang Communications | 634,984 | 29 September 2006 to 31 January 2008 | 1,039,348 |
| DWP mystery shopper | GFK/NOP | 242,581 | 3 January 2006 to 31 January 2009 | 728,479 |
| Support to central payments system programme 1 | PricewaterhouseCoopers | 431,862 | 1 November 2007 to 31 May 2007 | 604,608 |
| Support to performance and planning: clear line of sight | Capgemini | 587,077 | 31 May 2007 to 31 May 2008 | 587,077 |
| Fraud tracking research | GFK/NOP | 273,706 | 30 July 2007 to 31 December 2008 | 581,625 |

| Total | | 51,077,485 | | 192,769,602 |

## Departmental Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions which telephone contact centres are the responsibility of his Department; what mechanisms are in place to monitor their effectiveness; and how many people have been employed in each of those centres in each year since they were established. [166522]

**Mrs. McGuire:** The information requested on the Department's contact centres and the numbers employed in them is shown in the following tables.

The Department monitors the effectiveness of its contact centres through a scorecard that measures performance across a balanced range of measures. Performance is reported on a monthly basis to the Department's Contact Centre Advisory Team and, each quarter, to the DWP Planning, Performance and Risk Committee. Performance is also monitored by the Contact Centre Performance Working Group whose remit is to: understand and improve performance; identify common performance pressure points, share good practice; and support common performance improvement initiatives.

In addition, each business unit employs a range of performance management measures and tools to monitor the effectiveness of its centres which, for example, include: real time and historic performance measurement; mystery shopping; and the reviewing of the performance of individual agents.

The Department also now reports on the performance of its contact centres to the Contact Council established following Sir David Varney's recommendations in his report 'Service transformation: A better service for citizens and businesses, a better deal for the taxpayer'.

[4] Staff figures as at 20 March includes all telephony staff.
[5] 2007-08 figures as at October 2007.
[6] Staff figures as at April each year includes centre managers and support staff.
[7] Management and central support staff figures unable to split between centres. Figures provided separately.
[8] Staff figures as at 31 March.
[9] 2007-08 figures as at October 2007.
[10] Group Management and Central support staff figures provided separately and Staff figures as at 1 April each year.

## Employment

**Mr. Hoban:** To ask the Secretary of State for Work and Pensions what estimate he has made of the proportion of vacancies in the UK economy that will be filled by British workers in *(a)* 2007-08 and *(b)* 2008-09. [164766]

**Caroline Flint:** No such estimate has been made.

## Employment: New Deal Schemes

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how the flexible New Deal process outlined in "In work, better off: next steps to full employment" will accommodate the adult careers service recommended by Lord Leitch in his report, "Prosperity for all in the global economy, world class skills". [169913]

**Caroline Flint:** The Government's approach to improving adults' skills is set out in both the recent DWP/DIUS publication "Opportunity, Employment and progression: making skills work" and the Green Paper "In-work, better off: next steps to full employment".

"Opportunity, Employment and progression" sets out how Jobcentre Plus will work collaboratively with the adult advancement and careers service in England and with the equivalent skills services in Scotland and Wales. Skills screening, assessment and development will form an integral part of the activity related to getting a jobseeker into work and progressing where they can. We will combine support for skills development alongside job-search activity to ensure individuals can access the help they need early, taking into account local labour market requirements and the customer's needs and aspirations.

Our Green Paper proposed measures to tackle an individual's basic skills needs early in a jobseeker's allowance (JSA) claim. Throughout their claim, including any period spent on the flexible new deal, JSA customers will be reminded of the importance of continuing to develop their skills to help them secure longer-term employment. We have recently concluded the consultation on "In-work, better off: next steps to full employment" and will publish a full response soon.

## Employment: Vacancies

**Chris Grayling:** To ask the Secretary of State for Work and Pensions if he will place in the Library the evidential sources for his statement that there are 600,000 vacancies in the economy in each month. [169498]

**Caroline Flint:** The figures are published as part of the Office for National Statistics monthly Labour Market Statistics, in tables 21 and 22 which can be found at:

www.statistics.gov.uk/statbase/Product.asp?vlnk=13310&More=n

and

www.statistics.gov.uk/statbase/Product.asp?vlnk=13311&More=n

respectively.

This information is available in the Library.

## Housing Benefit: Peterborough

**Mr. Stewart Jackson:** To ask the Secretary of State for Work and Pensions how much was spent on housing benefit in the Peterborough city council area in each month since January 2004. [173705]

**Mr. Plaskitt:** Housing benefit expenditure figures are not available on a monthly basis. The Department receives annual expenditure figures from local authorities via housing and council tax benefit subsidy claim forms.

The available information is in the following table

*Housing benefit expenditure for Peterborough local authority district*

| | £ million |
|---|---|
| 2004-05 | 32.3 |
| 2005-06 | 36.7 |
| 2006-07 | 40.0 |

*Notes:*

1. Information sourced from local authority claims for housing revenue account subsidy and housing benefit subsidy.

2. Figures are rounded to the nearest £100,000.

3. Figures prior to 2006-07 are audited, but may change in future if local authorities' audited accounts are amended after a decision or appeal. Figures for recent years are more likely to be amended than older data.

4. 2006-07 figures are initial final (pre-audited) and are subject to change.

5. From 1999-2000 onwards, housing benefit expenditure on asylum seekers was funded by the National Asylum Support Service, and is therefore excluded from the figures presented at Great Britain. However, local authority level information includes all expenditure on these benefits relating to asylum seekers, as it is not possible to isolate at this level that part which applies to asylum seekers.

6. Figures relate to what local authorities spend on claimants, and include discretionary expenditure (mainly disregards of War Pensions), and overpayments except where benefit has been granted in advance (where the benefit is paid in the form of a rebate).

*Source:*

DWP Benefit expenditure tables.

DWP housing benefit and council tax benefit expenditure tables are available online at:

http://www.dwp.gov.uk/asd/asd4/HBandCTB_expenditure.asp

## Jobcentre Plus: Rural Areas

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions what assessment his Department has made of the ease of access to Jobcentre Plus in rural areas. [163583]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide the hon. Member with the information requested.

*Letter from Lesley Strathie, dated 13 December 2007:*

The Secretary of State has asked me to reply to your question about what assessments his Department has made of the ease of access to Jobcentre Plus in rural areas. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

Jobcentre Plus services are provided not only through the Jobcentre network but also by telephone through the Contact Centre and Benefit Delivery Centre network as well as the internet. This allows all customers to access services regardless of where they live. Where there are issues about customer access to a Jobcentre provision can be made for additional more flexible support arrangements. These include the installation of Jobpoints in libraries, surgeries in third party premises, partnering in Local Authority outlets and, where practical, some mobile services.

At the inception of Jobcentre Plus in 2002 District Managers developed local service delivery plans in consultation with key stakeholders from the community. This exercise led to the identification of where best to locate our Jobcentre network and where to introduce the additional flexible arrangements referred to above. In developing service delivery plans District Managers had full regard for a range of factors including where people live, the needs of those people, ease and cost of accessing Jobcentres by those communities and the viability of maintaining an outlet or introducing a flexible support arrangement.

Since the development of those original plans our service provision has been continuously improving, because of advances in telephony and e-channels. These improvements mean that District Managers can review the original plans to ensure that we achieve our aim of providing work for those who can and support for those who cannot in the most efficient and effective manner.

Devon & Cornwall Jobcentre Plus District, for example, is in the process of reviewing its Service Delivery Plan. This review is being carried out once again in consultation with key stakeholders and their views will be fully considered before decisions are finalised. Access to services for all customers will be a key consideration of that review regardless of where they live.

I hope this is helpful.

## Minimum Wage: Expenditure

**Mr. Byers:** To ask the Secretary of State for Work and Pensions what estimate he has made of the effect on his Department's expenditure on benefits which would arise from an increase in the national minimum wage to £6.75 per hour. [174025]

**Mr. Plaskitt:** No such estimate has been made.

## National Insurance: Foreigners

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many national insurance numbers have been issued to non-EU foreign nationals in each quarter since 1 January 2004; and what the percentage change was between each *(a)* year and *(b)* quarter. [162142]

**Mr. Plaskitt:** The available information from National Statistics is in the following table.

*National insurance numbers allocated to non-EU nationals entering the UK*

| Year of registration | Number | Percentage change from previous year |
|---|---|---|
| 2003-04 | 256,300 | 2.6 |
| 2004-05 | 238,700 | -6.9 |
| 2005-06 | 287,500 | 20.4 |
| 2006-07 | 288,100 | 0.2 |

*Notes:*

1. Figures are rounded to the nearest hundred. Some additional disclosure control has been applied.

2. Percentages are rounded to one decimal place.

3. Years referred to are financial years. Reliable quarterly estimates from National Statistics are not currently available.

4. Figures exclude cases where nationality is unknown.

5. Figures are produced from section four of the 2007 'NINO allocations to Overseas Nationals Entering the UK' report http://www.dwp.gov.uk/asd/asd1/niall/niall_report.pdf

*Source:*

100 per cent. extract from national insurance recording system at 14 May 2007

### National Insurance: Romania

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many national insurance numbers have been issued to *(a)* Romanian and *(b)* Bulgarian citizens in each quarter since 5 April 2002. [162140]

**Mr. Plaskitt:** The available information from National Statistics is in the following table.

*National insurance numbers allocated to Bulgarian and Romanian nationals entering the UK*

| *Year of registration* | *Bulgaria* | *Romania* |
|---|---|---|
| 2002-03 | 3,990 | 1,880 |
| 2003-04 | 5,160 | 3,170 |
| 2004-05 | 4,490 | 3,290 |
| 2005-06 | 2,810 | 2,860 |
| 2006-07 | 3,080 | 4,360 |

*Notes:*

1. Figures are rounded to the nearest ten. Some additional disclosure control has been applied.

2. Years referred to are financial years. Reliable quarterly estimates from National Statistics are not currently available.

*Source:*

100 percent. extract from national insurance recording system at 14 May 2007

### New Deal for Young People: Suffolk

**Mr. Spring:** To ask the Secretary of State for Work and Pensions how many people in Suffolk registered for new deal for young people in each of the last five years. [172151]

**Caroline Flint:** The requested information is in the following table.

*Starts to new deal for young people in Suffolk*

| | *Number of starts* |
|---|---|
| 2002 | 1,140 |
| 2003 | 1,310 |
| 2004 | 1,250 |
| 2005 | 1,150 |
| 2006 | 1,530 |

*Notes:*

1. The county of Suffolk comprises the local authorities of: Babergh; Forest Heath; Ipswich; Mid Suffolk; St. Edmundsbury; Suffolk Coastal and Waveney.

2. Years are calendar years.

3. Latest complete year data are for 2006

4. All figures have been rounded to the nearest 10.

*Source:*

Information Directorate, Department for Work and Pensions.

### New Deal Schemes

**Danny Alexander:** To ask the Secretary of State for Work and Pensions which groups of benefits claimants will be fast tracked to the gateway stage of flexible New Deal under the proposals outlined in "In work, better off: next steps to full employment". [169916]

**Caroline Flint:** The Green Paper proposed that the criteria for fast tracking customers to the Gateway stage of flexible new deal would be based on benefit history and those with long recent durations on jobseeker's allowance (JSA) would be mandated to it. Other customers would be able to volunteer for early referral to the Gateway if they are in a recognised disadvantaged group. The flexible new deal would be for JSA customers only.

We have recently concluded our consultation on "In-work, better off: next steps to full employment" and will publish our full response soon.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions whether all strands of current New Deal programmes will be subsumed into flexible New Deal under the proposals outlined in "In work, better off: next steps to full employment". [169917]

**Caroline Flint:** In the Green Paper "In-work, better off: next steps to full employment", we set out our proposals for the flexible new deal. Our proposals are that the flexible new deal would replace the existing mandatory new deal for young people (NDYP) and new deal 25-plus (ND25+) programmes, and would be for jobseeker's allowance (JSA) customers only. The funding for the new deal for musicians, which is offered through NDYP and ND25+, would be incorporated into the flexible new deal.

It is intended that the flexible new deal will look very different to these programmes and will respond more flexibly to individual needs; providers may draw on experiences from the activity offered in the current mandatory new deal programmes but would be able to develop and offer other initiatives as well.

The voluntary new deals are open to customers across benefit groups. Under flexible new deal, there would be some changes to the way the additional support available through flexible new deal applies to jobseeker's allowance (JSA) customers on these programmes.

New deal 50-plus would continue in its present form for non-JSA customers. The support currently offered to JSA customers through new deal 50-plus would be replaced by the additional employment and skills support and activity requirements at the six-month Gateway stage of flexible new deal.

New deal for lone parents would continue to support JSA customers as now. New deal for partners would offer additional work-focused interviews from April 2008 where there are dependent children.

The new deal for disabled people (NDDP) is not available to JSA customers and so would be unaffected by the introduction of the flexible new deal.

We have recently concluded the consultation on "In work, better off: next steps to full employment" and will publish a full response soon.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how the flexible New Deal programme proposed in "In work, better off: next steps to full employment" will affect the delivery of the city strategy in pathfinder areas. [170112]

**Caroline Flint:** As with the Department's existing employment programmes, wherever there are local initiatives, Jobcentre Plus and providers operating within the flexible new deal will make best use of the opportunities they offer to improve the employability and job outcomes of unemployed people.

### Poverty: Children

**Mr. Stewart Jackson:** To ask the Secretary of State for Work and Pensions how many children there were in families in work earning less than the average national weekly income in each year since 1997; and if he will make a statement. [170605]

**Caroline Flint** *[holding answer 4 December 2007]*: The available information is in the following tables.

*Table A: number (million) and percentage of children in families in work with income less than the average national weekly income in each year since 1997*

| | *Number of children living in families in work with income below contemporary median income (before housing costs)* | *Number of children living in families in work* | *Percentage of children living in families in work with income below contemporary median income (before housing costs)* |
|---|---|---|---|
| 1996-97 | 4.7 | 9.7 | 49 |
| 1997-98 | 5.1 | 10.0 | 51 |
| 1998-99 | 5.2 | 10.0 | 51 |
| 1999-2000 | 5.1 | 10.1 | 51 |
| 2000-01 | 5.1 | 10.1 | 51 |
| 2001-02 | 5.2 | 10.1 | 52 |
| 2002-03 | 5.4 | 10.5 | 51 |
| 2003-04 | 5.3 | 10.4 | 51 |
| 2004-05 | 5.5 | 10.4 | 52 |
| 2005-06 | 5.4 | 10.4 | 52 |

*Source:*
Family Resources Survey

*Table B: number of children (million) in families in work with income below 60 per cent of contemporary median income in each year since 1997*

| | *Number of children living in families in work with income below 60 per cent of contemporary median income (before housing costs)* | *Number of children living in families in work* | *Percentage of children living in families in work with income below 60 per cent of contemporary median income (before housing costs)* |
|---|---|---|---|
| 1996-97 | 1.4 | 9.7 | 15 |
| 1997-98 | 1.6 | 10.0 | 16 |
| 1998-99 | 1.5 | 10.0 | 15 |
| 1999-2000 | 1.5 | 10.1 | 15 |
| 2000-01 | 1.3 | 10.1 | 13 |
| 2001-02 | 1.4 | 10.1 | 13 |
| 2002-03 | 1.4 | 10.5 | 13 |
| 2003-04 | 1.3 | 10.4 | 13 |
| 2004-05 | 1.3 | 10.4 | 13 |
| 2005-06 | 1.4 | 10.4 | 14 |

*Notes:*

1. The information shown is for Great Britain up to 2001-02 and for the United Kingdom for 2002-03 onwards.

2. The figures are based on OECD equivalisation factors and will therefore not be the same as any figures previously published that were based on McClements equivalisation factors.

3. The income measures used to derive the estimates shown employ the same methodology as the Department for Work and Pensions publication 'Households Below Average Income' series, which uses disposable household income, adjusted for household size and composition, as an income measure as a proxy for standard of living.

4. Table A uses contemporary median income, a different measure to the Government's preferred poverty measure, to measure national average weekly income. Table B uses the Government's preferred measure of relative low income poverty, defined as being the number of children living in families with a household income of less than 60 per cent. of the contemporary median income. This is an internationally recognised measure.

5. The tables show numbers rounded to the nearest 100,000, and percentages based on unrounded source data rounded to the nearest whole per cent.

6. Families have been defined as working if at least one adult (living in the family) is in at least part-time work.

*Source:*
Family Resources Survey

### Unemployed: Children

**Mr. Rooney:** To ask the Secretary of State for Work and Pensions what guidance has been issued to Jobcentre Plus on the circumstances in which availability and affordability of childcare is to be taken into account in assessing a claimant's availability for work. [171487]

**Caroline Flint** *[holding answer 4 December 2007]*: Guidance is issued to Jobcentres about the action to take when doubts arise as to whether the jobseeker is available for work. Jobcentres will refer the doubts to an independent decision maker who will determine whether availability and affordability of child care is to be taken into account.

## TREASURY

### 11 Downing Street

**Chris Grayling:** To ask the Chancellor of the Exchequer (1) on which dates in 2006 the facilities at 11 Downing Street were used by outside charitable bodies to hold events; and which charities held each event; [167041]

(2) whether charities organising events at 11 Downing Street are required to submit guest lists in advance for each event; [167042]

(3) how many people attended events organised by charities at 11 Downing Street during 2006; [167051]

(4) how much was paid by charities for use of 11 Downing Street in *(a)* 2006-07 and *(b)* 2007-08 to date; [167053]

(5) whether charities using facilities at 11 Downing Street may charge admission fees for those events; [167143]

(6) what the *(a)* date and *(b)* purpose was of each event held at No. 11 Downing Street by or in conjunction with the Smith Institute in the last 24 months or the nearest period for which records are available; [167667]

(7) what records his Department holds of charitable events that were organised or hosted by his Department, including those held at No. 11 Downing Street, where donations were raised for the charity; [167668]

(8) if he will place in the Library a copy of the guest list of each Smith Institute event held at No. 11 Downing Street between 1 January and 27 June. [167669]

**Angela Eagle** *[holding answer 22 November 2007]*: The relevant information is disclosed on the Treasury Freedom of Information website

http://www.hm-treasury.gov.uk/about/information/foi_disclosures/2007/foi_no11_2007.cfm

Details of receptions held by charities in 11 Downing street in 2007-08 will be given to Parliament before the House rises for the summer recess.

### Carbon Markets Expert Group

**Mr. Hoban:** To ask the Chancellor of the Exchequer who the members are of HM Treasury's Carbon Markets Expert group. [173196]

**Angela Eagle:** The Carbon Markets Experts group is intended to use the knowledge and the skills of the private sector to act as a sounding board for the Treasury, and to discuss ways of enhancing and developing the global carbon market. The membership of the group is currently being finalised and invitations will be issued shortly.

### Child Benefit

**Bob Russell:** To ask the Chancellor of the Exchequer what estimate he has made of the cost to the public purse of paying the carer of twins, triplets or higher multiple births *(a)* the higher level of child benefit and *(b)* the baby element of tax credit for each child. [173124]

**Jane Kennedy:** The annual extra cost in 2007-08 of paying the eldest child rate of child benefit in respect of multiple birth children is estimated to be approximately £50 million.

This other requested information is available only at a disproportionate cost.

### Child Benefit: Databases

**Mr. Dai Davies:** To ask the Chancellor of the Exchequer which civil service grades have permission to download to CD-ROM information on the child benefit database at HM Revenue and Customs; what checks they are required to undertake; which protection mechanisms they should use; and what evaluation he has made of the suitability of current arrangements for such data transfer. [169780]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

### Child Benefit: EU Nationals

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer (1) what the evidential basis was for his estimate that 14,000 A8 nationals in the UK claim child benefit in respect of children living abroad, as referred to in the answer of 10 September 2007, *Official Report*, column 1968W, on child benefit: EU nationals; and what sources of information he used to make the estimate; [169504]

(2) upon what data his Department's estimates of the number of child benefit claims made by A8 nationals in respect of children living abroad are made. [169508]

**Jane Kennedy:** This information is based on information collected by the Child Benefit Office as part of a database maintained for the accession monitoring report, last published on 20 November 2007

http://www.bia.homeoffice.gov.uk/aboutus/reports/accession_monitoring_report

### Child Benefit: Personal Records

**James Brokenshire:** To ask the Chancellor of the Exchequer what recent estimate he has made of the number of *(a)* taxpayers and *(b)* recipients of tax credits or pension credits whose personal details have been misdirected or mislaid by HM Revenue and Customs (HMRC) or may otherwise be at risk of becoming victims of identity theft due to error or omission by HMRC; and if he will make a statement. [167591]

**Jane Kennedy** *[holding answer 26 November 2007]*: The police continue to have no reason to believe that this data have found their way into the wrong hands or have been used for fraudulent purposes or criminal activity.

For details of the data mislaid by HMRC, I refer the hon. member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Mr. Hoyle:** To ask the Chancellor of the Exchequer what security procedures are in place governing the transport of discs and documents containing personal tax related information. [168225]

**Jane Kennedy** *[holding answer 26 November 2007]:* On 13 November HMRC initiated immediate increased security with a new three step process:

> transfers will now only take place if they are absolutely necessary;
>
> written authorization for the transfer has to be given by senior HMRC manager; and,
>
> a clear instruction has been given regarding the appropriate standard of protection for the transfer.

Where directors decide that a data transfer by disc is unavoidable such media must, in every case, be securely encrypted at the appropriate level.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Mr. Hoban:** To ask the Chancellor of the Exchequer what estimate his Department has made of the number of disks containing data protected by the Data Protection Act that were sent to the National Audit Office by *(a)* (i) recorded and (ii) non-recorded delivery and *(b)* (A) Government, (B) private and (C) Royal Mail systems in each of the last two years. [168364]

**Jane Kennedy** *[holding answer 26 November 2007]:* The information could be provided only at disproportionate costs.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_0 7.cfm and a copy has been placed in the Library of the House.

**Mr. Dunne:** To ask the Chancellor of the Exchequer which version of which computer software was used for the Child Benefit database within HM Revenue and Customs *(a)* in March 2007 and *(b)* in October 2007. [168708]

**Jane Kennedy** *[holding answer 27 November 2007]:* There is an ongoing police investigation and it would not be appropriate to comment on these issues.

**Mr. Dunne:** To ask the Chancellor of the Exchequer what level of password to access the Child Benefit database within HM Revenue and Customs was capable of being encrypted. [168710]

**Jane Kennedy** *[holding answer 27 November 2007]:* The location of the missing data disks is the subject of an ongoing police investigation. It would therefore not be appropriate to comment on these issues.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Mr. Evans:** To ask the Chancellor of the Exchequer what estimate HM Revenue and Customs made of the cost of de-sensitising the data held on the Child Benefit database prior to its transfer to the National Audit Office in March 2007. [168936]

**Jane Kennedy** *[holding answer 27 November 2007]:* I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers, will investigate HMRC's security processes and procedures for data handling.

The full terms of reference for that review are available on the HM Treasury website at

> http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Mrs. Gillan:** To ask the Chancellor of the Exchequer by what process an IT operator could have extracted data from the HM Revenue and Customs child benefit database in the form requested by the National Audit Office. [169002]

**Jane Kennedy** *[holding answer 28 November 2007]:* I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007 *Official Report*, columns 1101-04.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at

> http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Mr. Gauke:** To ask the Chancellor of the Exchequer what personal data in relation to child benefit awards were provided to KPMG as part of the National Audit Office's 2006-07 resource accounts audit for HM Revenue and Customs. [169050]

**Jane Kennedy** *[holding answer 28 November 2007]:* This is a matter for the National Audit Office and the hon. Member may wish to write to the Comptroller and Auditor General about it.

**Anne Main:** To ask the Chancellor of the Exchequer what steps he plans to take to help alleviate concerns of child benefit recipients whose data were lost by HM Revenue and Customs on possible use of the data by third parties to establish contact with minors. [169261]

**Jane Kennedy:** My right hon. Friend the Chancellor of the Exchequer said in his original statement to the House of Commons on the data loss issue, 20 November 2007, *Official Report*, columns 1101-04, that police continue to have no reason to believe that the data have fallen into the wrong hands. The Acting Chairman of HMRC has also written to all customers affected to reassure those affected. The Government are continuing to discuss the broader implications of the incident with a range of organisations, and has considered appropriate steps to manage any risks resulting from the unlikely event that these data fall into the wrong hands.

**Mr. Amess:** To ask the Chancellor of the Exchequer on what occasions discs containing personal data were lost by HM Revenue and Customs and its predecessors in each year since 1997; and whether in each case the data were *(a)* subsequently found and *(b)* considered (i) lost and (ii) stolen. [169422]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers. The full terms of reference for that review are available on the HM Treasury website at http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm and a copy has been placed in the Library of the House.

**Mrs. Gillan:** To ask the Chancellor of the Exchequer how many families in Wales had their data downloaded onto the discs that have gone missing from HM Revenue and Customs. [170577]

**Jane Kennedy** *[holding answer 3 December 2007]*: The missing information contains details of all child benefit recipients: including those in Wales.

Information on families receiving child benefit at 31 August 2006 nationally and by country are published as part of National Statistics and can be found in table 1 of Child Benefit Statistics Geographical Analysis which are available on HMRC's website at:

http://www.hmrc.gov.uk/stats/child_benefit/geog-aug06.pdf

**Jim Cousins:** To ask the Chancellor of the Exchequer what extra security measures have been put in place as a result of the recent loss of data sent between HM Revenue and Customs and Standard Life; what review of procedures was undertaken at HM Revenue and Customs following the loss of data in transit; what recommendations were made; what steps were taken; and if he will make a statement. [171493]

**Jane Kennedy** *[holding answer 6 December 2007]*: On 20 November 2007 the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_13_3_07.cfm

and a copy has been placed in the Library of the House.

**Mr. Wallace:** To ask the Chancellor of the Exchequer whether HM Revenue and Customs data consisting of *(a)* names and addresses of tax credit and child benefit claimants, *(b)* bank account details of such claimants and *(c)* a combination of names and addresses and bank account details are given a protective marking in accordance with the manual of protective security. [172044]

**Jane Kennedy** *[holding answer 6 December 2007]*: On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Mr. Hoban:** To ask the Chancellor of the Exchequer on how many occasions data from the child benefit database have been posted to recipients outside HM Revenue and Customs in the last 12 months. [173669]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Mr. Hoban:** To ask the Chancellor of the Exchequer pursuant to the statement of 20 November 2007, *Official Report*, columns 1110-18, on HM Revenue and Customs, how many HM Revenue and Customs staff have been interviewed regarding the two missing discs. [173429]

**Jane Kennedy:** The location of the missing data discs is the subject of an ongoing police investigation and it is not appropriate to comment on any aspect of their inquiries.

**Mr. Hoban:** To ask the Chancellor of the Exchequer pursuant to the statement of 20 November 2007, *Official Report*, columns 1110-18; on HM Revenue and Customs, how many discrete physical searches for the two missing discs were conducted *(a)* between 10 November and 14 November inclusive and *(b)* after 14 November; what premises and facilities these covered; and how many personnel were deployed. [173430]

**Jane Kennedy:** The search for the missing data disks is the subject of an ongoing police investigation and it is not appropriate to comment on issues which might form part of that investigation.

### Child Benefit: Telephone Services

**Mr. Hoban:** To ask the Chancellor of the Exchequer how many staff worked on HM Revenue and Custom's Child Benefit Helpline on each day since 1 October 2007. [173355]

**Jane Kennedy:** The answer is not available in the format requested. However during the period 1 November 2006 to 31 October 2007 it is estimated that an average of around 380 full time equivalent staff were employed as advisers on the child benefit helpline. HMRC keeps the demand on the child benefit helpline under constant review and has the flexibility to adjust resource as and when needed.

**Mr. Hoban:** To ask the Chancellor of the Exchequer how many calls were handled by the Child Benefit Helpline on each day between 22 November and 6 December 2007 inclusive. [173428]

**Jane Kennedy:** The following table provides HMRC's best current estimate, of calls handled by the Child Benefit Helpline on each day from 22 November until 6 December 2007 inclusively.

| *Date* | *Calls handled* |
|---|---:|
| 22 November 2007 | 21,080 |
| 23 November 2007 | 14,786 |
| 24 November 2007 | 4,742 |
| 25 November 2007 | 1,301 |
| 26 November 2007 | 25,041 |
| 27 November 007 | 24,873 |
| 28 November 2007 | 19,479 |
| 29 November 2007 | 19,722 |
| 30 November 2007 | 18,031 |
| 1 December 2007 | 4,838 |
| 2 December 2007 | 1,472 |
| 3 December 2007 | 23,628 |
| 4 December 2007 | 25,551 |
| 5 December 2007 | 18,888 |
| 6 December 2007 | 16,185 |

### Christmas

**Malcolm Bruce:** To ask the Chancellor of the Exchequer whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173493]

**Angela Eagle:** LED lights are used on the Christmas tree supplied by the PFI provider in 1HGR.

**Malcolm Bruce:** To ask the Chancellor of the Exchequer what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173511]

**Angela Eagle:** A real Christmas tree is supplied by the PFI provider for 1 Horse Guards Road. The tree will be removed subsequently and chipped and the material then used on flower beds.

### Data Protection

**Mr. Evans:** To ask the Chancellor of the Exchequer what additional training has been provided in the last two weeks to the staff of HM Revenue and Customs on the safe handling of data to counteract identity theft and other data breaches. [171372]

**Jane Kennedy** *[holding answer 6 December 2007]:* On 13 November, HMRC initiated immediate increased security.

I refer the hon. Member to my remarks to the House, on 28 November 2007, *Official Report*, column 344, which set out the three key steps HMRC staff must now follow before transmitting bulk data.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers, will investigate HMRC's security processes and procedures for data handling.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

The review will cover the steps that should be taken to ensure any further measures are adhered to consistently by all staff.

### Departmental Data Protection

**Keith Vaz:** To ask the Chancellor of the Exchequer what procedures are in place in his Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168459]

**Jane Kennedy:** I refer the hon. Member to the statement made by right hon. friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

On 13 November HMRC initiated immediate increased security with a new process:

transfers will now only take place if they are absolutely necessary;

written authorisation for the transfer has to be given by senior HMRC manager; and,

a clear instruction has been given regarding the appropriate standard of protection for the transfer.

Where directors decide that a data transfer by disc is unavoidable such media must, in every case, be securely encrypted at the appropriate level.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Mr. Gauke:** To ask the Chancellor of the Exchequer how many discs containing personal data were lost in total by HM Revenue and Customs and its predecessors in the latest year for which figures are available. [168941]

**Jane Kennedy** *[holding answer 27 November 2007]:* On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at

<http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm>

and a copy has been placed in the Library of the House.

**Tom Brake:** To ask the Chancellor of the Exchequer whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169383]

**Jane Kennedy:** The loss of the discs is subject to an ongoing investigation and it would be inappropriate to comment further.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

**Mr. Amess:** To ask the Chancellor of the Exchequer how many people of each grade have *(a)* partial and *(b)* full access to data held by (i) his Department and (ii) HM Revenue and Customs on child benefit recipients; what guidance his Department issues to persons seeking access to those data; and if he will make a statement. [169589]

**Dr. Cable:** To ask the Chancellor of the Exchequer what mechanisms his Department has in place to ensure that its databases containing personal information on members of the public are not accessed by *(a)* unauthorised staff and *(b)* authorised staff for unauthorised purposes. [169717]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm and a copy has been placed in the Library of the House.

### Departmental Databases

**Dr. Cable:** To ask the Chancellor of the Exchequer how many staff of each grade have access to electronic databases in his Department which contain personal information on members of the public. [169713]

**Jane Kennedy:** On 20 November, the Chancellor announced an independent review of HMRC's security processes and procedures for data handling, to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers. The full terms of reference for that review are available on the HM Treasury website at: http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm and a copy has been placed in the Library of the House

**Dr. Cable:** To ask the Chancellor of the Exchequer how many times databases in his Department containing personal information on members of the public were accessed in each month of the last five years. [169714]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm and a copy has been placed in the Library of the House.

**Dr. Cable:** To ask the Chancellor of the Exchequer how many times databases in his Department containing personal information on members of the public were transferred *(a)* physically and *(b)* electronically in each year since 1997. [169715]

**Jane Kennedy:** This information is not available.

**Dr. Cable:** To ask the Chancellor of the Exchequer how many requests his Department received from the National Audit Office for access to its databases containing personal information on members of the public in each year since 1997. [169716]

**Jane Kennedy:** The information requested could be made available only at disproportionate cost.

### Departmental Telephone Services

**Julia Goldsworthy:** To ask the Chancellor of the Exchequer pursuant to the answer of 6 December 2007, *Official Report, column* 1492W, on departmental telephone services, if he will provide the information his Department holds on the costs of each of its contact centres. [173809]

**Jane Kennedy:** The requested information could be provided only at disproportionate cost.

### Departmental Visits Abroad

**David Simpson:** To ask the Chancellor of the Exchequer how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171329]

**Angela Eagle:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is undertaken in accordance with the Ministerial Code.

### Economic and Monetary Union

**Lynne Featherstone:** To ask the Chancellor of the Exchequer what recent assessment he has made of UK performance against the five economic tests for entry to the euro; and if he will make a statement. [173572]

**Kitty Ussher:** The Government's policy on membership of the single currency is unchanged. It remains as set out by the former Chancellor in his statement to the House of Commons in October 1997, and again in the statement on the five tests assessment in June 2003.

The June 2003 statement on UK membership of the European single currency set out a reform agenda of concrete and practical steps to address the policy requirements identified by the 2003 assessment. The former Chancellor committed the Government to an annual review of progress.

The former Chancellor announced in Budget 2007 that,

> "the Government does not propose a euro assessment to be initiated at the time of this budget."

The Treasury will again review the situation at Budget time next year as required by the June 2003 statement.

## Minimum Wage

**Mr. Byers:** To ask Mr Chancellor of the Exchequer what his estimate is of the *(a)* reductions in tax credit expenditure and *(b)* additional taxation and national insurance revenue which would result from an increase in the national minimum wage to £6.75 per hour. [174024]

**Jane Kennedy:** Changes in expenditure and revenue are not only dependent on the level of the national minimum wage, but also the macroeconomic effects of an increase to the national minimum wage.

It is not possible to reliably estimate the impact that increasing the minimum wage to £6.75 per hour would have. Such a large increase at one time would be likely to jeopardise employment and inflation.

## Perinatal Mortality

**Mr. Lancaster:** To ask the Chancellor of the Exchequer how many stillbirths there were as a percentage of all births in the UK in each of the last 10 years. [173968]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 13 December 2007:*

The National Statistician has been asked to reply to your recent question asking how many stillbirths there were as a percentage of all births in the UK in each of the last 10 years. I am replying in her absence. (173968)

The table below shows the number of stillbirths, and stillbirths as a percentage of all births in the UK, 1997 to 2006.

*Number of stillbirths and stillbirths as a percentage of all births, United Kingdom, 1997-2006*

| *Year* | *No. of stillbirths* | *Stillbirths as % of all births*[1] |
|---|---|---|
| 1997 | 3,889 | 0.53 |
| 1998 | 3,890 | 0.54 |
| 1999 | 3,723 | 0.53 |
| 2000 | 3,594 | 0.53 |
| 2001 | 3,572 | 0.53 |
| 2002 | 3,772 | 0.56 |
| 2003 | 4,016 | 0.57 |
| 2004 | 4,116 | 0.57 |
| 2005 | 3,864 | 0.53 |
| 2006 | 3,987 | 0.53 |

[1] All births includes live births and stillbirths.

## Population: Staffordshire

**Mr. Jenkins:** To ask the Chancellor of the Exchequer what the population is of *(a)* Staffordshire and *(b)* Tamworth constituency, broken down by age group; and if he will make a statement. [173078]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 13 December 2007:*

As National Statistician, I have been asked to reply to your question asking what the population is of (a) Staffordshire and (b) Tamworth constituency, broken down by age group (173078).

The attached table, Table 1a, shows the population by quinary age group for Staffordshire for mid-2005 and mid-2006. Table 1b shows the population by quinary age group for Tamworth constituency for mid-2005. These are the latest population estimates available.

*Table 1a: Population estimates for Staffordshire by quinary age group for mid-2005 and mid-2006*

*Thousand*

| *Mid-year* | *All ages* | *0-4* | *5-9* | *10-14* | *15-19* | *20-24* | *25-29* | *30-34* | *35-39* | *40-44* |
|---|---|---|---|---|---|---|---|---|---|---|
| 2005 | 821 | 43 | 48 | 52 | 53 | 47 | 41 | 52 | 63 | 64 |
| 2006 | 823 | 43 | 47 | 51 | 54 | 48 | 41 | 49 | 62 | 65 |

*Thousand*

| *Mid-year* | *45-49* | *50-54* | *55-59* | *60-64* | *65-69* | *70-74* | *75-79* | *80-84* | *85+* |
|---|---|---|---|---|---|---|---|---|---|
| 2005 | 57 | 54 | 61 | 50 | 41 | 34 | 27 | 20 | 15 |
| 2006 | 59 | 54 | 60 | 52 | 42 | 34 | 28 | 20 | 16 |

*Table 1b: Population estimates for Tamworth parliamentary constituency by quinary age group for mid-2005*

*Thousand*

| *Mid-year* | *All ages* | *0-4* | *5-9* | *10-14* | *15-19* | *20-24* | *25-29* | *30-34* | *35-39* | *40-44* |

Office for National Statistics.

### Public Expenditure

**Chris Huhne:** To ask the Chancellor of the Exchequer what *(a)* the lowest rate of economic return is on an approved existing Government expenditure project in each Government Department and *(b)* the size of the approved expenditure in each case. [173540]

**Angela Eagle:** Spending projects are appraised within each Government Department according to the guidance contained in "The Green Book: Appraisal and Evaluation in Central Government." The Government use a discount rate of 3.5 per cent. in real terms in central Government appraisals to produce net present value figures which are used in support of decision making. Records of projected net present values are not centrally collected and the cost of supplying this information is considered prohibitive.

### Revenue and Customs: Civil Proceedings

**Philip Davies:** To ask the Chancellor of the Exchequer on how many occasions legal proceedings have been instigated against HM Revenue and Customs for alleged offences not directly related to assessing tax liabilities, administering the tax system or the collection of tax. [171953]

**Jane Kennedy:** Since its formation HM Revenue and Customs has not been prosecuted for any offences.

**Philip Davies:** To ask the Chancellor of the Exchequer on what occasions court proceedings, now completed, have been instigated against HM Revenue and Customs in the last three years. [171976]

**Jane Kennedy:** The information requested is not readily available and could be provided only at disproportionate expense.

I refer the hon. Gentleman to my answer of 23 October 2007, *Official Report*, column 252W.

### Revenue and Customs: Data Protection

**Keith Vaz:** To ask the Chancellor of the Exchequer (1) what standard procedure is used at HM Revenue and Customs for the transportation of personal information outside secure offices; [168463]

(2) how many copies are routinely made of personal information by HM Revenue and Customs when dealing with a case; [168464]

(3) how many CDs that carry information on members of the public have been mislaid by HM Revenue and Customs in the last 10 years; [168465]

**Jane Kennedy:** On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Keith Vaz:** To ask the Chancellor of the Exchequer how CDs are identified as carrying secure personal information by HM Revenue and Customs. [168466]

**Jane Kennedy:** The location of the missing data discs is the subject of an ongoing police investigation. On 20 November, the Chancellor announced an independent review of HMRC's security processes and procedures for data handling, to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Daniel Kawczynski:** To ask the Chancellor of the Exchequer whether HM Revenue and Customs (HMRC) have dispatched discs containing confidential data to solicitors dealing with HMRC prosecutions in the same package as the access password over the last three years. [169102]

**Jane Kennedy:** It would be inappropriate to comment on this issue as there is an ongoing police investigation.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

<http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm>

and a copy has been placed in the Library of the House.

**Daniel Kawczynski:** To ask the Chancellor of the Exchequer what assessment he has made of security measures taken by HM Revenue and Customs in respect of the transportation of discs containing *(a)* confidential and *(b)* personal data. [169103]

**Jane Kennedy:** The loss of the discs is subject to an ongoing Police investigation and it would be inappropriate to comment further.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Mr. Burns:** To ask the Chancellor of the Exchequer what estimate he has made of the cost of removing the data which was not required by the National Audit Office from the discs that recently went missing from HM Revenue and Customs. [169766]

**Jane Kennedy:** I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at: http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm and a copy has been placed in the Library of the House.

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer what systems HM Revenue and Customs has in place to track deliveries placed with mail carriers. [169891]

**Jane Kennedy** *[holding answer 3 December 2007]:* On 20 November 2007 the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Mr. Hoban:** To ask the Chancellor of the Exchequer (1) what systems are in place within HM Revenue and Customs to flag up suspicious use of data by its employees; [173356]

(2) what internal policies HM Revenue and Customs had in place regarding the use of removable media on 18 October 2007. [173357]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

### Revenue and Customs: Sick Leave

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer how many sick days were taken by Tax Credit Office staff in each of the last 12 months; and what the average number of sick days was per staff member in each of those months. [167658]

**Jane Kennedy:** The information requested is given in the following table:

| | *Tax credit office* | |
|---|---|---|
| | *Full-time equivalent days taken* | *Average working days lost* |
| October 2006 | 4,239.62 | 1.17 |
| November 2006 | 3,870.84 | 1.17 |
| December 2006 | 3,125.31 | 0.96 |
| January 2007 | 4,037.03 | 1.24 |
| February 2007 | 3,724.54 | 1.16 |
| March 2007 | 3,346.64 | 1.07 |
| April 2007 | 4,235.74 | 0.86 |
| May 2007 | 5,146.76 | 1.05 |
| June 2007 | 5,053.19 | 1.05 |
| July 2007 | 5,482.22 | 1.16 |
| August 2007 | 5,446.68 | 1.16 |
| September 2007 | 4,653.60 | 0.99 |
| Year | 52,362.17 | 12.95 |

### Self-employed: Tamworth

**Mr. Jenkins:** To ask the Chancellor of the Exchequer what the average income of a self-employed person in *(a)* Tamworth constituency and *(b)* the UK was in each year since 1997; and if he will make a statement. [173080]

**Angela Eagle:** The mean self-employment income of taxpayers in the constituency of Tamworth can be found in table 3.15 "Income and tax by parliamentary constituency" on the HM Revenue and Customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#315.

These tables are only available for 2003-04 and 2004-05 and are based on the Survey of Personal Incomes.

The mean total income of people in the UK with self-employment sources of income is shown in 3.10 "Income of individuals with self employment sources, by range of self employment income and source" on the HM Revenue and customs website at:

http://www.hmrc.gov.uk/stats/income_distribution/menu-by-year.htm#310

The tables are based on the Survey of Personal Incomes and are available for 1999-2000 to 2000-5. Information for earlier years can be found in the annual Inland Revenue Statistics publications available in the Library.

### Trading Funds

**Mr. Prisk:** To ask the Chancellor of the Exchequer when he expects to publish the findings of the review of trading funds commissioned from Cambridge University. [172474]

**Andy Burnham:** The Government will publish the analysis undertaken by Cambridge university on the definition and charging models for the public information held by trading funds in the new year.

### Welfare Tax Credits: Overpayments

**Julia Goldsworthy:** To ask the Chancellor of the Exchequer pursuant to the answer of 6 December 2007, *Official Report*, columns 1500-01W, on welfare tax credits, how many tax credit overpayments have been written off *(a)* in total and *(b)* in part since 2003 due to exceptional circumstances; and what the reasons were in each case. [173810]

**Jane Kennedy:** The value of overpayments remitted on the grounds of hardship is compiled annually to the end of October and shown in the following table. Figures cannot be disaggregated into instances of total and partial write offs.

| | *Number of cases* | *Amount remitted (£000)* |
|---|---|---|
| 2004 | 0 | 0 |
| 2005 | 437 | 287 |
| 2006 | 134 | 148 |

**Lady Hermon:** To ask the Chancellor of the Exchequer how many cases of overpaid tax credit where a joint award was made but the couple have since separated there have been where HM Revenue and Customs has sought recovery from *(a)* one and *(b)* both partners in each year since 2003. [166318]

**Jane Kennedy:** At April 2007 there were about 270,000 claims originally made by couples, who are recorded as having split up by that date, and for which there were outstanding undisputed overpayments over £10 for 2003-04, 2004-05 or 2005-06.

The other information requested is not available.

## DUCHY OF LANCASTER

### Chequers

**Mr. Pickles:** To ask the Chancellor of the Duchy of Lancaster (1) if he will place in the Library a copy of the guidance on the use of Chequers by civil servants when the Prime Minister is not resident; [171236]

(2) on how many occasions Chequers has been used by civil servants on occasions when the Prime Minister was not present in the last 12 months; and for what purposes in each case. [171237]

**Gillian Merron** *[holding answer 4 December 2007]*: Chequers has not been used by civil servants when the Prime Minister was not present in the last 12 months.

Guidance on the use of official residences is set out in the Ministerial Code.

### Civil Service Agencies: Information Officers

**Mr. Maude:** To ask the Chancellor of the Duchy of Lancaster what guidance he has issued on the creation and operation of separate press offices with Departments' Executive agencies. [171451]

**Gillian Merron:** There is no central guidance on whether Executive agencies should run separate press offices from their parent Departments. This is a matter for individual Departments and agencies. The guidance issued across the Government Communication Network on issues like propriety is the same for press officers in all Government bodies.

### Departmental Records: Office of the Deputy Prime Minister

**Mr. Maude:** To ask the Chancellor of the Duchy of Lancaster which Department is responsible for the files and records formerly held by the Deputy Prime Minister's Office. [171457]

**Gillian Merron:** The Cabinet Office is responsible for the files and records formerly held by the Deputy Prime Minister's Office.

## FOREIGN AND COMMONWEALTH OFFICE

### Bulgaria: Children in Care

**Richard Burden:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has received on conditions for children in care in Bulgaria; and whether he plans to make representations on the matter to the Bulgarian authorities. [172702]

**Mr. Jim Murphy:** Since the documentary on the Mogilino Children's Care Home was first screened by the BBC, we have received over 150 emails and letters about childcare in Bulgaria. Our Embassy in Sofia has raised the issue with the Bulgarian Prime Minister, Justice Minister and Minister of Labour and Social Policy and remains in close touch with the authorities, as well as with non-governmental organisations (NGOs) and others active in this field such as the UN Children's Fund. Embassy officials are encouraging NGOs to work together and alongside the Bulgarian authorities, to help implement the necessary reforms. The Bulgarians have announced that they will direct around €5 million of EU structural funds for 2008 to develop alternative care arrangements.

### Christmas

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173502]

**Mr. Jim Murphy:** The Foreign and Commonwealth Office has no specific policy on this matter.

**Malcolm Bruce:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173528]

**Mr. Jim Murphy:** All Christmas trees for use in common areas of Foreign and Commonwealth Office buildings in the UK are real. They are procured in full compliance with Government procurement rules, including environmental aspects. Once removed, trees are disposed of by chipping, to create soil-improving mulch and compost. Decorations provided with the trees remain the property of the supplier and are recovered for subsequent re-use. Our overseas missions apply the same guidelines, although practice may vary according to local circumstances.

### Colombia: Armed Forces

**Mr. David Anderson:** To ask the Secretary of State for Foreign and Commonwealth Affairs for what reason British military assistance has been provided to the High Mountain Battalions of the Colombian Army. [173574]

**Dr. Howells:** Our bilateral defence co-operation programme in Colombia has very specific objectives: to improve the Colombian Army and National Police's adherence to human rights norms and values, including international humanitarian law, humanitarian demining and counter narcotics. All our assistance has respect for human rights at its core. It comes with conditions and safeguards attached, and we monitor this closely. All reasonable precautions, subject to resource constraints, are undertaken to avoid any UK assistance being implicated in any human rights abuses.

We do not publish details of all the support we provide, nor to whom we provide it, as to disclose such information could endanger not only the effectiveness of the support, but also the lives of the British and Colombian personnel involved.

### Colombia: Human Rights

**Mr. David Anderson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the observance of human rights in Colombia; and if he will make a statement. [173573]

**Dr. Howells:** We are concerned about the human rights situation in Colombia and the continued threats against human rights defenders, including trade unionists, community leaders and teachers. However, we are encouraged by the positive steps the Government of Colombia have been taking to address the human rights situation. For example, a new unit of specialised prosecutors with greater resources has been established to deal with cases of human rights abuses involving trade unionists - a point specifically welcomed by the UN High Commissioner for Human Rights in his report on Colombia, published on 15 March 2007.

The UK provides assistance to Colombia in the area of human rights so that the serious, continuing challenges facing the country can be addressed and further improvements can be made to the lives of the Colombian people. Further detail can be found on the Foreign and Commonwealth Office website:

http://www.fco.gov.uk/Files/kfile/
UK%20Columbia%20Assistance%Matrix.pdf

We will continue to work with the Colombian Government and other partners, such as the EU, UN and civil society, to help Colombia address its serious problems.

### Departmental Internet

**Mr. Hoban:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many unique visitors there were to each departmental blog in the last month; how many full-time equivalent staff work on each blog; and what the costs of each were for 2007-08. [173177]

**Mr. Jim Murphy:** The statistics available to the Foreign and Commonwealth Office for the Blogging Platform are for the site as a whole and show the number of sessions. For November 2007, there were 52,322 individual sessions on the platform. The statistics are not broken down by individual blog, nor can we say how many unique visitors there were.

Between two and three full-time equivalent members of staff work on the Blogging Platform dealing with all of the blogs, of which there are currently eight. This includes the bloggers themselves, those involved in filming and uploading content and those responsible for updating and maintaining the platform.

The Blogging Platform was launched on 26 September 2007. To date, the costs for setting up and maintaining the platform have been £10,185.52 plus the salaries of the staff involved.

### Ethiopia: Eritrea

**Sarah Teather:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Ethiopia and Eritrea border dispute. [172940]

**Mr. Jim Murphy:** The Government's policy towards the Ethiopia-Eritrea border dispute is based on three principles: to avoid any return to war, which would be unacceptable; for the border to be demarcated; and for the Parties to find a way to normalise relations. Ethiopia and Eritrea should agree a way forward to allow demarcation to proceed and for a normalisation process to begin.

We have set out this policy to both Ethiopia and Eritrea, including when my right hon. Friend the Foreign Secretary met with Ethiopian Foreign Minister Seyoum Mesfm and when my noble Friend the Parliamentary Under-Secretary of State for International Development, Baroness Vadera, and our ambassador in Addis Ababa met Ethiopian Prime Minister Meles Zenawi, in November. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, also made these points to Eritrean Foreign Minister Osman Saleh in November.

We support the efforts of the UN with the Parties and will continue to pursue this policy with our international partners, including through the UN Security Council (UNSC). In this regard, we fully support the UNSC's Presidential Statement of 13 November, a copy of which will be placed in the Library of the House.

### International Law

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what proposals the UK has advanced for internationally agreed procedures to prevent breakdowns of states and societies, as referred to in the Prime Minister's Mansion House speech of 12 November. [166136]

**David Miliband:** The UK is already playing a leading role alongside international partners in ensuring that the international community can become more effective in preventing the breakdown of states and societies. Effective measures will require international consensus on the challenges and the backing of the international community. That is why the UK is pressing the UN and other bodies to deliver the 2005 World Summit commitment to the creation of a single Early Warning System and to operationalise the concept of Responsibility to Protect also endorsed at that World Summit. My right hon. Friend the Prime Minister set out the clear challenge to the international community to deliver its commitments by improving procedures to prevent conflict. Specifically, the UN Security Council needs to act earlier, and there needs to be more use of targeted sanctions and international criminal court actions. The UK will continue to work with international partners on specific mechanisms to deliver existing international commitments.

### Iran: Nuclear Weapons

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what decisions were taken at the meeting of E3+3 Political Directors in Paris on 1 December about the next stage in discussions with Iran over its nuclear programme; and when the next meeting between Javier Solana and Saeed Jalili is expected. [172792]

**David Miliband:** E3+3 Political Directors agreed in Paris on 1 December that neither the report of Mohammed El Baradei nor that of Javier Solana could be described as a 'positive outcome', the test set in the statement issued by E3+3 Foreign Ministers on 28 September in New York. Accordingly, they agreed that we should seek a new UN Security Council sanctions resolution. Dr. Solana made clear to Sa'id Jalili that they should remain in touch as necessary, but there is no date fixed for a further meeting at present.

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of whether Iran is meeting its commitments under the IAEA-Iran work plan of August 2007; and if he will make a statement. [172793]

**David Miliband:** Dr. Mohammed El Baradei, Director-General of the International Atomic Energy Agency (IAEA), reported on 15 November the level of co-operation Iran was giving the agency following the agreement of the IAEA-Iran work plan. In his report, he stated that Iran had provided 'sufficient access' to individuals and had responded in a 'timely manner' to the IAEA's questions. However, he also noted that co-operation had been 'reactive rather than proactive' and that active co-operation and full transparency were 'indispensable for full and prompt implementation of the work plan'. Even more concerning, he noted that the IAEA's knowledge about Iran's current nuclear programme is diminishing.

We share Dr. El Baradei's concerns. After many years of concealing its nuclear programme, Iran has still not disclosed in full its past nuclear activities, and the IAEA is still unable to state its confidence in the answers Iran has given. To do this, the IAEA has made clear that Iran needs to give proactive co-operation and implement the Additional Protocol. Unless Iran does this, the IAEA has said it is unable to provide assurances about the exclusively peaceful nature of the programme. If Iran is serious about building international trust, it should implement the Additional Protocol and suspend all enrichment-related activities without delay.

**Mr. Dai Davies:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the most recent United States intelligence agencies' National Intelligence Estimate Report, Iran: Nuclear Intentions and Capabilities. [173081]

**Dr. Howells:** It is not the practice of this or previous Governments to comment on intelligence matters. However, nothing in the National Intelligence Estimate changes the fundamental problem that we face which is Iran's pursuit of a uranium enrichment programme that has, as far as we can see, no civilian application. This is despite the unanimous demand from the UN Security Council and from the International Atomic Energy Agency that it stops doing so. Accordingly, we will continue to act in the UN, the EU and bilaterally to persuade Iran to change its approach and comply with its international responsibilities.

### Kuwait

**Dr. Fox:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many of his Department's personnel were based in Kuwait in support of Operation Telic in each year since 2003. [170812]

**Dr. Howells:** There has been one UK based member of staff posted to our embassy in Kuwait in support of Operation Telic in each year since 2003. However, before the set up of the Iraq support unit in February/March 2004, embassy staff already posted in Kuwait helped with the logistics of officials travelling to Iraq.

### Peacekeeping Operations

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what contribution the UK made to UN peacekeeping operations in each of the last 10 years; and if he will make a statement. [172533]

**David Miliband:** The following table provides details of the UK's contribution to UN peacekeeping operations over the last 10 years. The figures include troop, police and civilian personnel.

The UK is currently the fourth largest contributor to the UN peacekeeping budget.

In addition, the UK makes a significant contribution of troops to UN mandated missions, including Afghanistan (7,700), Kosovo (140) and Bosnia (19).

| | *Military personnel, military observers, police, civilians* | *UK assessed contributions to UN peacekeeping (£)* |
|---|---|---|
| 1997 | n/a | 57,685,432 |
| 1998 | n/a | 29,337,251 |
| 1999 | n/a | 28,020,242 |
| 2000 | 594 | 93,951,000 |
| 2001 | 714 | 126,725,157 |
| 2002 | 612 | 86,928,831 |
| 2003 | 563 | 87,286,235 |
| 2004 | 542 | 152,915,762 |
| 2005 | 349 | 163,600,452 |
| 2006 | 358 | 199,566,553 |
| 2007[1] | 366 | 221,018,081 |
| Total | 4,098 | 1,247,034,996 |

[1] Forecast.

## Projecting British Islam

**Mr. Paul Goodman:** To ask the Secretary of State for Foreign and Commonwealth Affairs what work has been undertaken by Projecting British Islam delegations abroad; who the members of each delegation were; what the cost of each delegation was; and how he plans to evaluate their effectiveness. [174087]

**Dr. Howells:** The 'Projecting British Islam' project is a programme of media intensive visits by British Muslim delegations, supported by the Foreign and Commonwealth Office (FCO), to countries with significant Muslim populations. The aim is to counter misconceptions and misperceptions, which are exploited by extremists, about the treatment of Muslims and Islam in the UK.

In financial years 2005-06 and 2006-07 the delegations cost £350,000, visiting: Bahrain, Qatar, Sudan, Egypt, Nigeria, India, Bangladesh, Pakistan, Malaysia, Singapore, Indonesia, Algeria, Bosnia, Morocco, Tanzania, Kenya, Germany, France, the Netherlands and the USA.

In financial years 2007-08 the FCO has allocated £180,000 to this project, for delegations to a range of countries including Sudan, Indonesia, Libya, Yemen, Afghanistan, Egypt, Bangladesh and Pakistan.

To date more than 60 British Muslims have taken part, reflecting the diversity of British Muslim communities, and with a balance of age and gender. The delegates come from a range of professional backgrounds—doctors, scholars, lawyers, teachers, bankers and community activists.

To evaluate the effectiveness of the project, we monitor media coverage in the countries concerned surrounding the delegation's visit and receive feedback from the delegates and the opinion-formers they meet. We also encourage follow-up by delegates on their return to the UK, in particular working through the Department for Communities and Local Government's Preventing Violent Extremism work.

## Reconstruction

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will place in the Library a copy of the UK's proposal for an international standby civilian force which could be deployed to rebuild civic societies as referred to in the Prime Minister's Mansion House speech of 12 November. [166138]

**David Miliband:** The UK and other leading players in the post-conflict field operate different rosters of reconstruction experts. My right hon. Friend the Prime Minister indicated that these separate capacities need to be brought together to ensure the UN and other international agencies can draw on the right expertise to respond quickly and effectively to post-conflict situations. The UK will develop proposals with the UN and international allies first.

## Russia: Elections

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with *(a)* opposition parties and *(b)* civil organisations in Russia on reports of voting irregularities in the recent election. [172048]

**Mr. Jim Murphy:** My right hon. Friend the Foreign Secretary has not held such discussions, but our Embassy in Moscow regularly with Russian political parties, and local civil society organisations such as "Golos", an independent Russian civic organisation founded in 2000 to defend voters' rights which unites over 280 non-governmental organisations (NGOs). Representatives of opposition parties and civil society have raised concerns about a number of aspects of the 2 December parliamentary election campaign, and about conduct on polling day.

The Foreign and Commonwealth Office made a statement on 3 December expressing its concern about allegations of electoral malpractice which, if proven correct, would suggest that the Russian parliamentary elections were neither free nor fair.

The EU issued a statement on 5 December in which it regretted the numerous reports and allegations of media restrictions, as well as harassment of opposition parties and NGOs in the run-up to the elections, and on election day, and concluded that procedures during the electoral campaign did not meet international standards and commitments voluntarily assumed by Moscow. The EU hoped that investigations would clarify the accuracy of these allegations. The EU also regretted that there was no long-term observation mission from the Office for Democratic Institutions and Human Rights (ODIHR)/Organisation for Security and Co-operation in Europe Office to follow the election campaign and underlined that the presence of ODIHR would have constituted a reliable basis for a full assessment of the elections.

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place between the Government, the Organisation for Security and Co-operation in Europe and the EU on the conduct of the Russian election. [172049]

**Mr. Jim Murphy:** At the recent meeting of the Organisation for Security and Co-operation in Europe's (OSCE) Ministerial Council in Madrid on 29 November I said that we

> "regret that the Office for Democratic Institutions and Human Rights (ODIHR) has recently faced a number of unprecedented restrictions and bureaucratic obstacles to observing the Russian Duma elections".

I also met the Director of ODIHR, Ambassador Strohal, on 22 November, and discussed monitoring of the Russian elections with him. The EU presidency also spoke on behalf of EU member states at the OSCE Permanent Council on 6 December. The presidency welcomed the fact that the elections had taken place in an orderly and organised fashion, but regretted the numerous reports and allegations of media restrictions, as well as harassment of opposition parties and non-governmental organisations in the run-up to the elections and on election day. The statement concluded that procedures during the electoral campaign did not meet the international standards and commitments voluntarily assumed by Moscow and hoped that investigations would clarify the accuracy of these allegations. The EU also regretted that there was no long-term observation mission from ODIHR or OSCE to monitor the election campaign and underlined that the presence of ODIHR would have provided a reliable basis for a full assessment of the elections.

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of the Russian election result on the wider region. [172050]

**Mr. Jim Murphy:** It is too early to determine what impact the results of the Russian parliamentary election may have on the politics across the wider region. It is reassuring that Kyrgyzstan and Georgia have extended invitations to the Organisation for Security and Co-operation in Europe's specialist election monitoring body, the Office for Democratic Institutions and Human Rights, to monitor their parliamentary elections on 16 December 2007 and 5 January 2008 respectively. A smaller delegation will be observing the Presidential election in Uzbekistan on 23 December 2007.

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on UK relations with Russia following the Russian parliamentary elections. [172051]

**Mr. Jim Murphy:** We continue to engage Russia in pursuit of our international objectives related to energy security, climate change, international peace and security. This approach was commended in the recently published Foreign Affairs Committee report "Global Security: Russia".

However, we share the widespread concern about the conduct of the Russian parliamentary elections. There were numerous allegations of electoral malpractice which, if proven correct, would suggest that the elections were neither free nor fair. Our long-standing policy is to air our concerns openly with the Russian Government, for example on human rights and the shrinking democratic space. We have said that it is vital that the Russian Central Election Committee urgently investigates all allegations of electoral abuses and that the Russian Government put in place systems to ensure that the Presidential elections in March 2008 will be transparent and democratic.

**Sarah Teather:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many election observers were sent from the UK to monitor the recent Russian elections. [172948]

**Mr. Jim Murphy:** I refer the hon. Member to the reply I gave to the right hon. Member for Gordon (Malcolm Bruce) on 5 December 2007, *Official Report*, column 1303W.

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Organisation for Security and Co-operation in Europe on the conduct of the recent elections in Russia. [173372]

**Mr. Jim Murphy:** At the recent meeting of the Organisation for Security and Co-operation in Europe's Ministerial Council in Madrid on 29 November I said that we

> "regret that the Office for Democratic Institutions and Human Rights (ODIHR) has recently faced a number of unprecedented restrictions and bureaucratic obstacles to observing the Russian Duma elections".

I also met the Director of ODIHR, Ambassador Strohal, on 22 November, and discussed monitoring of the Russian elections with him.

## South Africa: Mining

**Mr. Jim Cunningham:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government have had with the South African Government on fatal accidents involving mineworkers. [173423]

**Dr. Howells:** We have not discussed mine fatalities with the South African Government. There exists already a strong domestic debate in South Africa on this issue. In October President Mbeki ordered a safety audit of South Africa's mines. In addition, the National Union of Miners and the Congress of South African Trade Unions are actively pressing the Government to take further steps to ensure miner safety, with the former leading a march on December to protest against the level of fatalities in South Africa's mines. The Chamber of Mines has confirmed it will engage with stakeholders on mine safety.

## Sudan: Armed Conflict

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government of Sudan has approved landing and night flying rights to all UNAMID aircraft. [173248]

**Mr. Jim Murphy:** UN Under-Secretary-General, Jean-Marie Guehenno, Head of the UN Department of Peacekeeping Operations (DPKO), told the UN Security Council on 27 November that the Government of Sudan had not approved adequate night flying rights for aircraft of the UN-African Union hybrid peacekeeping force in Darfur (UNAMID).

However, representatives of the DPKO discussed UNAMID deployment, including landing and night flying, with representatives of the Government of Sudan on 8 December. The press statement released after the meeting noted that both sides agreed on the importance of the full and timely implementation of UN Security Council Resolution 1769 and agreed to continue their discussions to resolve issues.

We have pressed the Government of Sudan to co-operate fully with the DPKO over UNAMID deployment and we continue to monitor closely their discussions.

### Sudan: Peace Negotiations

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of progress made by the Southern Sudan Peace and Reconciliation Commission in facilitating South-South dialogue. [173247]

**Mr. Jim Murphy:** We understand the work of the Southern Sudan Peace Commission (SSPC) has stalled since the Sudanese Peoples' Liberation Movement's (SPLM) withdrawal from the Government of National Unity.

The UK is urging the SPLM and National Congress Party to resolve their differences about the implementation of the Comprehensive Peace Agreement (CPA). Renewed and accelerated CPA implementation is essential for stability and peace in the whole of Sudan.

We are pressing all sides to speed up the reconciliation process and to resolve all outstanding CPA-related issues. The UK is discussing a support programme for reconciliation and community security in the south, which would include support to the SSPC.

### Sudan: Peacekeeping Operations

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK has *(a)* made and *(b)* received on the adequacy of helicopter numbers for the UNAMID mission to Darfur; and if he will make a statement. [166140]

**David Miliband:** We have had extensive contacts over several months with senior UN officials about requirements for the UN African Union Mission in Darfur (UNAMID), including helicopters, and have regularly called in the UN Security Council and elsewhere for the force's full and early deployment. Most recently, I spoke about delays to the deployment with UN Secretary-General Ban Ki-moon on 7 December.

The UN Department of Peacekeeping Operations (DPKO) has planned for 18 transport helicopters and six tactical utility helicopters for UNAMID, and has identified and approached countries that could potentially supply them. We have worked closely with the DPKO to support its lobbying efforts with those countries. We continue to work closely with them, with allies in the UN Security Council and with other potential contributors to secure the supply of helicopters.

### Translation Services

**Mr. Hoban:** To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's budget for translating Government publications and online services into other languages *(a)* was in 2006-07 and *(b)* is for 2007-08. [173351]

**Mr. Jim Murphy:** The Foreign and Commonwealth Office does not hold dedicated budgets for translating Government publications and online services and the information requested by the hon. Member could be obtained only at disproportionate cost.

### Tristan da Cunha: Overseas Aid

**Sarah Teather:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance his Department is providing to the people of Tristan da Cunha; and if he will make a statement. [172942]

**Mr. Jim Murphy:** Tristan da Cunha is financially self-sufficient and therefore does not receive any direct budgetary assistance from the Government. The Department for International Development (DFID) is providing £60,000 for some off-island training activities and a review of options for Tristan to diversify its economy and increase its revenue. DFID provides a resident doctor, and a visiting dentist and optometrist, under its health programme for St Helena. The Foreign and Commonwealth Office and DFID are funding £107,000 this financial year from their Overseas Territories Environment Project budget for a number of small-scale development projects. The Foreign and Commonwealth Office is also working closely with DFID and the Tristan Government on the emergency repairs of Calshot Harbour.

A recent viral outbreak on Tristan da Cunha has triggered a rise in the cases of asthma on the island. The island has enough stocks of the necessary drugs for this not to be an emergency situation now. Following close liaison with the Administrator on Tristan, DFID, the Ministry of Defence and others, however, we are making arrangements to provide an additional supply of drugs in advance of the next regular ship's visit to the island at the end of January 2008. We hope to be able to deliver these supplies to the island on a Royal Navy vessel around 15 December.

### Zimbabwe: Human Rights

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government have to raise the issue of human rights in Zimbabwe at the EU-African Union Summit in Lisbon; and if he will make a statement. [172381]

**David Miliband:** My noble Friend the right hon. Baroness Amos raised Zimbabwe and the appalling human rights situation caused by President Mugabe during her intervention on behalf of the UK at the EU/Africa summit in Lisbon. As high representative for the EU's Common Foreign and Security Policy, Javier Solana delivered a statement on behalf of the EU underlining member states' collective concern at the deteriorating human rights situation. Other EU member states (Germany, the Netherlands, Denmark and Sweden) also made interventions that specifically criticised the human rights situation in Zimbabwe.

## INTERNATIONAL DEVELOPMENT

### Afghanistan: Drugs

**Mr. Hague:** To ask the Secretary of State for International Development when the final report by his Department and the World Bank into possible economic incentives to reduce opium production in Afghanistan will be published; and if he will place a copy in the Library. [174173]

**Mr. Douglas Alexander:** The final report by DFID and the World Bank into possible economic incentives to reduce opium production in Afghanistan will be published at the end of January. A copy will be placed in the Library as part of our broader dissemination strategy.

### Democratic Republic of Congo: Politics and Government

**Mr. Keith Simpson:** To ask the Secretary of State for International Development what assessment he has made of the humanitarian situation in the North Kivu Province of the Democratic Republic of Congo; and what discussions he has had with his EU counterparts on the provision of humanitarian assistance to the country following the ACP-EU joint parliamentary meeting earlier this month. [169906]

**Mr. Thomas:** Recent assessments by DFID and the United Nations in North Kivu province of the Democratic Republic of Congo (DRC) suggest that for the moment, although the humanitarian situation is serious, most of the critical humanitarian needs are being met. However, many areas are increasingly difficult to access, both due to ongoing conflict and poor infrastructure. The recent surge in fighting between the FARDC and forces of rebel General Nkunda is a serious cause for concern. There are reports of tens of thousands of newly displaced people. Although funding is available to respond to further needs through the DRC Humanitarian Pooled Fund—to which DFID has contributed £30 Million in 2007—if large scale displacements occur, the capacity of the humanitarian community could become overstretched and may struggle to address the humanitarian needs.

On the 22 November, the ACP-EU Parliamentary Assembly adopted a resolution which called on the Governments of the EU and ACP countries, the Council of the EU, the European Commission, the UN and the African Union (AU) to do everything possible to provide efficient and adequate aid to the population in the east of the DRC and to contribute to address a humanitarian disaster. As a member of the Good Humanitarian Donorship group in the DRC, DFID regularly meets with partners, including EU counterparts and the European Community Humanitarian Office (ECHO), to discuss humanitarian assistance priorities and needs. We continue to monitor the situation closely.

### Departmental Consultants

**Jon Trickett:** To ask the Secretary of State for International Development how much was paid in consultancy fees by his Department in each year since 1997. [171998]

**Mr. Malik:** Expenditure on consultancy services for the financial years 1997-98 to 2006-07 is listed in the following table. For 2000-01 onwards this includes both consultancy to deliver parts of our development programme where services are often provided to third parties such as recipient Governments, and consultancy to DFID as an organisation. For 1997-98 to 1999-2000, figures only include consultancies to deliver the development programme (as published in Statistics on International Development). Consolidated amounts for consultancy to DFID as an organisation are not available for this period.

*£ million*

| | *Consultancy spend* | *Of which programme budget (delivering parts of our development programmes)* | *Administration budget (consultancy to DFID as an organisation)* |
|---|---|---|---|
| 1997-98 | | 204 | |
| 1998-99 | | 199 | |
| 1999-2000 | | 197 | |
| 2000-01 | 284 | 209 | 75 |
| 2001-02 | 273 | 257 | 16 |
| 2002-03 | 274 | 250 | 24 |
| 2003-04 | 270 | 241 | 29 |
| 2004-05 | 276 | 239 | 37 |
| 2005-06 | 255 | 228 | 27 |
| 2006-07 | 270 | 250 | 20 |

These figures do not include lower-value contracts issued by DFID's overseas offices, which could be obtained only by incurring disproportionate cost.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for International Development what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172512]

**Mr. Malik:** The Department for International Development (DFID) has records of data for waste arisings from our UK buildings for the last four years:

| | *Total waste (tonnes)* | *Percentage recycled /re-used (%)* |
|---|---|---|
| 2003-04 | 342 | [1]81 |
| 2004-05 | 364 | 77 |
| 2005-06 | 335 | 78 |
| 2006-07 | 329 | 80 |

[1] recycling figure based on waste contractors policy, no reports available.

**Mr. Hayes:** To ask the Secretary of State for International Development what his Department's policy is on recycling. [174401]

**Mr. Malik:** The Department for International Development is strongly committed to the Sustainable Operations on the Government Estate targets. We have an Environmental Operations Policy outlining our commitment to meeting the Government waste targets, minimising and recycling waste as far as possible. Our Waste Contractors have policies in place which guarantee they will recycle at least 75 per cent. of all our waste.

**Mr. Hayes:** To ask the Secretary of State for International Development how much and what proportion of its waste his Department recycled in each of the last five years. [174424]

**Mr. Malik:** The Department for International Development (DFID) has records of data for waste arising from our UK buildings for the last four years:

| | *Total waste (tonnes)* | *Percentage recycled /re-used (%)* |
|---|---|---|
| 2003-04 | 342 | [1]81 |
| 2004-05 | 364 | 77 |
| 2005-06 | 335 | 78 |
| 2006-07 | 329 | 80 |

[1] recycling figure based on waste contractors policy, no reports available.

## Economic Agreements: Intellectual Property

**Mr. Sharma:** To ask the Secretary of State for International Development what the Government's policy is on the inclusion of provisions on intellectual property rights in economic partnership agreements; and what assessment he has made of their likely effect on access to essential medicines. [172988]

**Mr. Thomas:** No intellectual property provisions have been included in the Economic Partnership Agreements (EPAs) signed to date.

The UK has always been clear that issues other than trade in goods should only be included in EPAs if the African, Caribbean or Pacific regions wish them to be. If a region wants to negotiate intellectual property rights in its EPA, then the UK policy is that no country should be required to go beyond existing commitments under the World Trade Organisation (WTO) agreement on trade related intellectual property rights (TRIPS). This agreement includes the right for countries to improve their access to cheaper medicines by producing, exporting or importing generic medicines under a compulsory licence. The UK supports this right. The Department for International Development has financed a number of organisations to assist developing countries to make better use of their TRIPS flexibilities, including compulsory licensing.

## Gaza: Health Services

**Mr. Hague:** To ask the Secretary of State for International Development what assessment he has made of the availability of medical stocks in hospitals and clinics in Gaza; and if he will make a statement. [172532]

**Mr. Douglas Alexander:** DFID does not carry out its own assessments, but relies on information from other bodies including the World Health Organisation (WHO). According to WHO's latest information from October this year, 91 out of 416 essential drugs, and 188 out of 596 essential medical supplies were out of stock due to problems faced by suppliers in delivering. Stocks of a further 114 items of medical suppiies were only predicted to last one to three months.

More recently, in November the UN OCHA reported that first line paediatric antibiotics were no longer available in the Ministry of Health (MoH) because the only drug manufacturer that produces them in Gaza is unable to import the necessary chemical precursors. In addition, certain expensive drugs that are not on the essential drug list and that the MoH has no budget to procure have run out.

These shortages are the result of the closure of Gaza's crossings. We call on all sides to assume their responsibilities in ensuring they re-open as soon as possible, and stand ready to provide appropriate assistance. I raised the closure of Gaza crossings and its humanitarian impact with the Israeli and Palestinian authorities during my visit earlier this week.

## Iraq: Overseas Aid

**Dr. Fox:** To ask the Secretary of State for International Development with reference to the answer of 9 October 2007, *Official Report*, columns 437-38W, on Iraq: Overseas Aid: (1) how much of the £744 million the Government has allocated to Iraq came from his Department; [170808]

(2) how much of the £744 million the Government has allocated to Iraq has not been used by the Iraqis. [170810]

**Mr. Douglas Alexander:** The UK has pledged £744 million for reconstruction and development in Iraq since 2003. From 2003 to March 2007, £667 million has been disbursed, of which £489 million has been spent by DFID (including EC contributions). The DFID budget for Iraq in 2007-08 is £30 million. We expect to have spent the total HMG pledge by the end of 2008-09.

The UK has disbursed the following amounts by contributing Department:

*£ million*

| | *DFID (including EC contribution)* | *FCO (Secondments and Peacekeeping Conflict Pool)* | *MOD (Quick Impact Projects)* | *Global Conflict Prevention Pool (GCPP) Joint DFID/FCO/MOD* |
|---|---|---|---|---|
| 2002-03 | 9 | 0 | 0 | 0 |
| 2003-04 | 227 | 29 | 0 | 5 |
| 2004-05 | 70 | 21 | 30 | 18 |
| 2005-06 | 110 | 15 | 5 | 15 |
| 2006-07 | 73 | 12 | 3 | 25 |
| Total | 489 | 77 | 38 | 63 |

*Note*
Unofficial estimates only

## Somalia: Overseas Aid

**Sarah Teather:** To ask the Secretary of State for International Development if he will make a statement on the distribution on food aid in the Lower Shabelle region of Somalia. [172941]

**Mr. Thomas:** Recent reports including that of Sir John Holmes, the UN Under-Secretary-General for Humanitarian Affairs and Emergency Relief, who visited some of the worst affected areas on 3 December, are that despite the many obstacles facing them, and the increasing seriousness of the situation, relief agencies are now distributing food and other essential supplies to the estimated 223,000 people in Lower Shabelle who were displaced from Mogadishu by this year's fighting. Supply routes via the port of Merca and by road still face obstruction where payment is demanded at checkpoints. We and others are putting pressure on the authorities to deal with this problem. However, distribution monitoring remains inadequate and the World Food Programme is taking steps to improve this by opening a base in Lower Shabelle and deploying more staff there.

DFID has provided £8.6 million to the UN agencies, NGOs and the International Committee of the Red Cross who are leading the humanitarian effort in Somalia. We are prepared to provide further support.

### Sudan: Reconstruction

**Mr. Drew:** To ask the Secretary of State for International Development what the status is of the Eastern Sudan Reconstruction and Development Fund. [173249]

**Mr. Thomas:** The Government of National Unity have allocated the required US$100 million to the Eastern Sudan Reconstruction and Development Fund but this funding has yet to be disbursed. The structure of the Fund's governing board, which is detailed in Article 23 of the Eastern Sudan Peace Agreement, has been agreed. However, the executive director has not yet been appointed and as such the board is not operational. State governments, however, are preparing projects in anticipation of the receipt of funds.

### Tanzania: Overseas Aid

**Mr. Gale:** To ask the Secretary of State for International Development if he will review the UK aid programme to Tanzania in the light of the Silverdale case. [166006]

**Mr. Thomas** *[holding answer 26 November 2007]*: We regularly review our aid programme to Tanzania and take account of all aspects of the country's performance and prospects for reducing poverty. The experiences of investors, including cases such as that of Silverdale, are considered as part of those reviews. But the most important consideration is whether we believe our assistance will effectively reduce poverty.

## HEALTH

### Adult Dental Health Survey

**Sir Paul Beresford:** To ask the Secretary of State for Health (1) on what date the next Adult Dental Health Survey will be published; [173776]

(2) what funding his Department has committed to the forthcoming Adult Dental Health Survey. [173777]

**Ann Keen:** Responsibility for determining the way forward on the next Adult Dental Health survey rests with the Information Centre for health and social care (IC).

The IC is looking, with the Department and other stakeholders at the way forward. The funding requirements will be dependent on the outcome of these discussions and will feed into relevant organisations business planning for 2008-09 and subsequent years. We cannot yet predict when the results of the survey will be published.

### Alcoholic Drinks: Misuse

**Mr. Spring:** To ask the Secretary of State for Health how many patients were admitted to *(a)* West Suffolk hospital, *(b)* Addenbrookes hospital and *(c)* Ipswich hospital as a consequence of (i) alcoholic liver disease and (ii) cirrhosis in each of the last five years. [170781]

**Mr. Ivan Lewis:** Information is not available by individual hospital rather it is collected for national health service trusts that the named hospitals are managed by. The following table shows the count of finished admission episodes at West Suffolk Hospital, Cambridge University Hospital National Health Service Foundation Trust (of which Addenbrookes Hospital is a part), and Ipswich Hospital.

*Count of finished admission episodes where alcoholic liver disease (K70) or cirrhosis of the liver (K703, K717, K743, K744, K745, K746) were mentioned in any primary or secondary diagnosis field for selected trusts*

| | *Cambridge University Hospital NHS Foundation Trust (RGT)** | | *Ipswich Hospital NHS Trust (RGQ)** | | *West Suffolk NHS Trust (RGR)** | |
|---|---|---|---|---|---|---|
| | *Alcoholic liver disease* | *Cirrhosis of the liver* | *Alcoholic liver disease* | *Cirrhosis of the liver* | *Alcoholic liver disease* | *Cirrhosis of the liver* |
| 2005-06 | 701 | 681 | 157 | 98 | 83 | 85 |
| 2004-05 | 525 | 526 | 121 | 77 | 69 | 96 |
| 2003-04 | 643 | 889 | 140 | 86 | 85 | 92 |
| 2002-03 | 464 | 653 | 101 | 89 | 95 | 99 |
| 2001-02 | 418 | 475 | 102 | 63 | 64 | 59 |

*Notes:*
1. All diagnosis count of episodes: These figures represent a count of all finished admission episodes where the diagnosis was mentioned in any of the 14 (7 prior to 2002-03 diagnosis field in a HES record).
2. ICD10 code used for Alcoholic Liver Disease = K70
ICD10 codes used for Cirrhosis of Liver:
K70.3 Alcoholic cirrhosis of liver
K71.7 Toxic liver disease with fibrosis and cirrhosis of liver
K74.3 Primary biliary cirrhosis
K74.4 Secondary biliary cirrhosis
K74.5 Biliary cirrhosis, unspecified
K74.6 other and unspecified cirrhosis of liver
Code K70.3 is also included within the data for alcoholic liver disease. Do not add these figures together as this would cause double counting.
3. Assessing growth through time: HES figures are available from 1989-90 onwards. During the years that these records have been collected in the NHS there have been ongoing improvements in quality and coverage. These improvements in information submitted by the NHS have been particularly marked in the earlier years and need to be borne in mind when analysing time series. Changes in NHS practice also need to be borne in mind when analysing times series. For example a number of procedures may now be undertaken in outpatient settings and may no longer be accounted in the HES data. This may account for any reductions in activity over time.
4. Data Quality: HES are compiled from data sent by over 300 NHS trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
5. Finished admission episodes: A finished admission episode is the first period of in-patient care under one consultant within one health care provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
6. Ungrossed Data: Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).
*Source:*
Hospital Episode Statistics (HES), The Information Centre for health and social care

**Mr. Lansley:** To ask the Secretary of State for Health what the *(a)* start and *(b)* end date is of each activity he has planned for next year to tackle excessive alcohol consumption; and what the expected cost is of each activity in each year for which expenditure is planned. [172466]

**Dawn Primarolo:** The start and end dates of planned activity to tackle excessive alcohol consumption next year are listed and described in detail with timescales in Annex B in The Government's renewed alcohol strategy, "Safe. Sensible. Social", published in June 2007. A copy is available in the Library.

The planned new actions and next steps involve a number of Government Departments as well as the national health service locally, and it is therefore not possible to fully set out expected costs.

The Department is spending £1.7 million in 2006-07 on the 'Know your Limits' campaign, which is a joint campaign with the Home Office who are contributing additional funding. In the case of the NHS, primary care trusts are responsible for delivering improvements to patient care, so spending on activity outlined in the strategy will be based on local decisions. We would also expect there to be scope for off-setting efficiency savings, for example from reduced hospital admissions.

## Arthritis

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what the expenditure by *(a)* his Department's research and development budget and *(b)* the Medical Research Council on research into rheumatoid arthritis was in each year since 1997-98. [172910]

**Dawn Primarolo:** Over the last 10 years, the main part of the Department's total expenditure on health research has been devolved to and managed by national health service organisations.

Details of individual NHS supported research projects including a large number concerned with rheumatoid arthritis are available on the national research register at

www.nrr.nhs.uk

In addition, the Department's expenditure on national research programme projects specifically concerned with rheumatoid arthritis during this time has been as follows:

| | *£000* |
|---|---|
| 1997-98 | 59 |
| 1998-99 | 119 |
| 1999-2000 | 119 |
| 2000-01 | 136 |
| 2001-02 | 144 |
| 2002-03 | 67 |
| 2003-04 | nil |
| 2004-05 | 72 |
| 2005-06 | nil |
| 2006-07 | 36 |

Implementation of the Department's research strategy "Best Research for Best Health" has led to an expansion of our research programmes and in significant new funding opportunities for health research. Work relevant to rheumatoid arthritis will for example be undertaken in several of the National Institute for Health Research Biomedical Research Centres (BRC). The Cambridge BRC has a musculoskeletal disorders research theme to which £2.2 million has been allocated over five years; and the Imperial College Healthcare NHS Trust BRC has a rheumatology research theme for which the total budget over five years is £2.7 million.

The Medical Research Council (MRC) is one of the main agencies through which the Government supports biomedical research. The MRC is an independent body funded by the Department for Innovation, Universities and Skills.

The MRC funds a large portfolio of research related to arthritis and rheumatism much of which will be of relevance to rheumatoid arthritis Available MRC expenditure figures for research relevant to arthritis and rheumatism are shown in the following table.

| | *Expenditure (£ million)* |
|---|---|
| 1999-2000 | 4.8 |
| 2000-01 | 3.9 |
| 2001-02 | 4.2 |
| 2002-03 | 6.8 |
| 2003-04 | 6.8 |
| 2004-05 | 5.0 |
| 2005-06 . | 5.5 |

### Arthritis: Drugs

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how many drugs for the treatment of rheumatoid arthritis were dispensed in the community in each year since 1997; and at what net ingredient cost. [172908]

**Dawn Primarolo:** The main drugs that can be used to treat rheumatoid arthritis are listed at paragraphs 10.1.1 (Non-steroidal anti-inflammatory drugs), 10.1.2 (Corticosteroids) and 10.1.3 (Rheumatic disease suppressant drugs) of the British National Formulary (BNF). The number of prescription items dispensed and associated net ingredient cost for drugs listed in these paragraphs are shown in the following tables. Some prescribing of these drugs will be for reasons other than rheumatoid arthritis (e.g. muscle strain) and there will be some prescribing from other areas of the BNF for the condition, e.g. BNF section 4.7 (Analgesics), which is not included.

*Prescription items dispensed in the community, in England*

*£000*

| | *BNF paragraph 10.1.1* | *BNF paragraph 10.1.2* | *BNF paragraph 10.1.3* | *Total* |
|---|---|---|---|---|
| 1997 | 18,195.4 | 475.0 | 576.6 | 19,247.0 |
| 1998 | 18,462.4 | 478.5 | 641.9 | 19,582.7 |
| 1999 | 18,688.6 | 482.1 | 721.7 | 19,892.3 |
| 2000 | 18,779.9 | 475.3 | 812.4 | 20,067.6 |
| 2001 | 19,414.2 | 451.0 | 925.2 | 20,790.4 |
| 2002 | 20,031.7 | 442.7 | 1,035.8 | 21,510.1 |
| 2003 | 20,595.8 | 447.6 | 1,147.0 | 22,190.5 |
| 2004 | 20,871.4 | 456.4 | 1,259.3 | 22,587.1 |
| 2005 | 18,454.8 | 487.1 | 1,400.1 | 20,342.0 |
| 2006 | 17,606.3 | 505.5 | 1,551.6 | 19,663.4 |

*Source:*
Prescription cost analysis (PCA) system

*Net ingredient cost of prescription items dispensed in the community, in England*

*£000*

| | *BNF paragraph 10.1.1* | *BNF paragraph 10.1.2* | *BNF paragraph 10.1.3* | *Total* |
|---|---|---|---|---|
| 1997 | 160,710.6 | 1,759.1 | 5,289.3 | 167,759.0 |
| 1998 | 157,926.1 | 1,761.6 | 6,338.6 | 166,026.3 |

| 2006 | 144,810.9 | 2,341.7 | 19,155.7 | 166,308.4 |

*Source:*
PCA system

### Bacterial Diseases

**Mr. Lansley:** To ask the Secretary of State for Health what plans he has to introduce mandatory reporting of cases of the health care associated infection pseudomonas. [167833]

**Ann Keen:** There are no plans to introduce mandatory reporting of cases of pseudomonas blood stream infections at present, but we will keep this under review.

### Breast Cancer: Screening

**Dr. Kumar:** To ask the Secretary of State for Health whether the NHS plans to use stereo mammography as a means of detecting breast cancer. [171857]

**Ann Keen:** Currently there are no plans to use stereo mammography in the national health service breast screening programme.

We would welcome any new technology that could improve the breast screening programme, however, this is a developing technology and we would need to consider the evidence of its effectiveness before it could be introduced into the screening programme.

**Mr. Jamie Reed:** To ask the Secretary of State for Health by what means his Department plans to extend the NHS breast cancer screening programme to all women aged 47 to 73 years by 2012. [171894]

**Ann Keen:** The extension of the breast screening programme age range will start from April 2008 and will be managed by National Health Service cancer screening programmes in partnership with local health services.

As with the previous age extension, increasing the upper age range limit to 70 years, this will take several years to implement fully, as more staff will need to be recruited and trained and more equipment purchased. Full implementation is expected by the end of 2012.

The necessary phasing in of this expansion will be carefully considered to ensure that the most useful epidemiological data can be gathered to inform future decisions about the breast screening programme.

**Mr. Jamie Reed:** To ask the Secretary of State for Health what the reasons are for the ages of people to whom the *(a)* breast cancer and *(b)* bowel cancer screening programmes apply. [171901]

**Ann Keen:** In March 2002 the International Agency for Research on Cancer (IARC) of the World Health Organisation (WHO) evaluated the evidence on breast cancer screening. They concluded that trials have provided sufficient evidence for the screening of women between 50 and 69 years, and that the reduction in mortality from breast cancer among women who chose to participate in screening programmes was estimated to be about 35 per cent. The IARC working group consisted of 24 experts from 11 countries.

We now want to extend the breast screening programme so that more women benefit and even more lives are saved. At present women are invited for screening seven times at three yearly intervals between

50 and 70. Over time, this will be extended to nine screening rounds between 47 and 73 years with a guarantee that women will have their first screening invitation before the age of 50.

This extension was recommended by the Cancer Reform Strategy (CRS) Breast Cancer Working Group, who carefully examined the emerging evidence on extending the programme below and above the current age ranges, and the recommendation was accepted by the CRS Advisory Board.

For bowel screening research undertaken in Nottingham and Funen in the 1980s showed that screening men and women aged 45 to 74 for bowel cancer using the faecal occult blood test (FOBt) could reduce the mortality rate from bowel cancer by 16 per cent. in those screened.

An independently evaluated pilot in Warwickshire and Scotland showed that this research can be replicated in an national health service setting. Based on the final evaluation report of the pilot and a formal options appraisal, the NHS bowel cancer screening programme in England is screening men and women aged 60 to 69.

As announced in the recently published cancer reform strategy, from 2010 we will be extending the screening age range for bowel cancer to invite men and women aged 70 to 75 years.

By the end of 2010, decisions will be taken about the possible roll out of bowel screening to people in their 50s, dependent on forthcoming research findings.

**Mr. Jamie Reed:** To ask the Secretary of State for Health what assessment his Department has made of the likely effects of lowering the entry level age of the breast cancer screening programme. [171902]

**Ann Keen:** The extension of the breast screening age range was recommended by the cancer reform strategy (CRS) Breast Cancer Working Group, which carefully examined the emerging evidence on extending the programme below and above the current age ranges, and the recommendation was accepted by the CRS Advisory Board.

The CRS Breast Cancer Working Group membership consisted of expert stakeholders, including clinicians, breast cancer charity representatives, researchers and patients.

By lowering the starting age for breast screening we will guarantee that women will have their first screening invitation before the age of 50.

### Cancer: Finance

**Mr. Lansley:** To ask the Secretary of State for Health what the planned start date is of the *(a)* National Cancer Survivorship Initiative and *(b)* National Cancer Equality Initiative; and what the expected cost is of each in each financial year for which estimates have been made. [172449]

**Ann Keen:** The National Cancer director will lead the new National Cancer Survivorship Initiative (NCSI) in partnership with Macmillan Cancer Support and other cancer charities. The NCSI will consider a range of approaches to survivorship care and how these can best be tailored to meet individual patients' needs.

As part of this work, Macmillan Cancer Support will host a think tank event, Making the Cancer Survivorship Agenda a Reality, in March 2008. The key outcomes of the event will be to: identify key policy work streams and priorities; to agree stakeholder involvement for each of the policy work streams; and to produce a report outlining the outcome of the event for wider circulation.

The event will be co-chaired by the National Cancer director and the chief executive officer of Macmillan Cancer Support and will involve patients, health professionals, the voluntary sector, academics, research experts, international experts and Government.

In recognition of the challenge to reduce inequalities in cancer, the National Cancer director will begin a National Cancer Equality Initiative (NCEI), bringing together key stakeholders from the professions, voluntary sector, academia and equality groups to develop research proposals on cancer inequalities, test interventions and advise on the development of wider policy. The National Cancer director is currently discussing with key stakeholders how best to take the NCEI forward, and detailed work will begin in early 2008.

Both of these are new initiatives, and costs will emerge as the details of the initiatives are developed.

### Cancer: Medical Treatments

**Mr. Jamie Reed:** To ask the Secretary of State for Health by what means the NHS Cancer Reform Strategy will address inequalities between regions in cancer *(a)* diagnosis, *(b)* treatment and *(c)* survival rates. [171905]

**Ann Keen:** The Cancer Reform Strategy (CRS), published on 3 December 2007, and the Equality Impact Assessment published alongside the strategy, set out a comprehensive series of measures to address inequalities between regions in cancer diagnosis, treatment and survival rates.

Socio-economic deprivation has a marked impact on cancer outcomes. Cancer mortality is more than 15 per cent. higher in spearhead primary care trusts (PCTs) than the national average. To address this regional variation, along with tackling other cancer inequalities, the Department will begin a national cancer equality initiative (NCEI), which will develop research proposals on cancer inequalities, test interventions and advise on the development of wider policy.

The Department will work through the NCEI with strategic health authorities (SHAs) and PCTs to agree challenging goals for reducing cancer mortality in every cancer network area by 2012. The National Audit Office is funding a dedicated post in the Cancer Action Team to drive forward equity issues.

Other specific actions in the CRS to reduce regional inequalities include:

the Government will continue to invest in social marketing initiatives at the national level to support people to stop smoking, especially with the free support available from the national health service. Social marketing initiatives will be focussed towards groups in our community with the greatest smoking prevalence;

commissioners in PCTs with low coverage levels for cancer screening will wish to develop targeted programmes that increase the uptake of screening in poor communities. To incentivise services to encourage higher coverage for screening we will explore moving to an activity based system for funding screening services;

the Department is investing in a campaign that uses social marketing techniques to raise awareness of the signs and symptoms of breast, lung and bowel cancers and to encourage people who think they might have cancer to seek help earlier in 20 of the most deprived areas; and

the National Cancer Director will repeat his evaluation of National Institute for Health and Clinical Excellence (NICE) -approved cancer drug usage during 2008 to ensure that patients across the country continue to have access to drugs positively appraised by NICE.

## Cancer: Screening

**Mr. Jamie Reed:** To ask the Secretary of State for Health how the NHS Cancer Reform Strategy is expected to improve cancer detection in primary care. [171903]

**Ann Keen:** The Cancer Reform Strategy contains several actions that will improve cancer detection and recognises that primary care professionals have essential roles at all stages of the cancer care pathway, one of which being the diagnosis of cancer.

The main actions are:

*Establishing a national audit in primary care*

The audits will build on the 'significant events reviews' already being undertaken by many general practitioners and will focus on aspects such as the number of visits to primary care with relevant symptoms before referral to hospital (delay pattern analysis).

The resultant information will inform both local practice learning as well as the national audit. The audit will be undertaken collaboratively by the Royal College of General Practice and the National Patient Safety Agency.

*Establishing a national awareness and early diagnosis initiative*

Some good work to raise cancer symptom awareness and encourage early presentation is already under way. The initiative, led by the National Cancer Director, will provide co-ordinated support to local health services to deliver effective interventions.

The initiative will also develop key cancer messages for both health professionals and the public. The messages will be developed over the course of 2008-09.

*Improving access to diagnostics*

This is the single most important priority in primary care. The strategy sets out the mechanisms, such as developing and agreeing local protocols and commissioning diagnostic providers, that need to be put in place to improve access and increase capacity of diagnostic services.

This issue also forms an important component of the national health service Next Stage Review, which is being conducted by Lord Darzi. The review is due to be published in the summer 2008.

## Care Homes

**Mr. Willetts:** To ask the Secretary of State for Health (1) how many and what proportion of private sector care homes are owned by companies who own more than one home; [166867]

(2) how many *(a)* private, *(b)* public and *(c)* voluntary sector care homes for the elderly were subject to regulation and inspection by the Commission for Social Care Inspection in each of the last five years. [166868]

**Mr. Ivan Lewis:** We have been informed by the chair of the Commission for Social Care Inspection (CSCI) that it does not collect information on the proportion of private sector care homes owned by companies which own more than one home. CSCI inspects and regulates each individual service and not the organisation running the home.

The following table shows counts of the numbers of care homes regulated against the Care Homes Regulations 2001 and National Minimum Standards (NMS) for Care Homes for Older People year on year (which will be less than the total numbers of homes registered).

| | *Type of home* | | | | |
|---|---|---|---|---|---|
| *As at 31 March* | *Private* | *Local authority* | *Voluntary* | *NHS* | *Other*[1] |
| 2006-07 | 8,617 | 783 | 1,035 | 15 | 115 |
| 2005-06 | 8,642 | 828 | 1,093 | 13 | 95 |
| 2004-05 | 8,796 | 871 | 1,095 | 14 | 89 |
| 2003-04 | 9,020 | 915[3] | 1,130 | 13 | 89 |
| 2002-03 | 8,768 | 158[3] | 1,037 | 10 | 76 |

[1] CSCI inspects homes against the NMS for Care Homes for Younger Adults (aged 18-64) or the NMS for Care Homes for Older People. Homes are classified by CSCI as homes for younger adults or for older people depending on the set of NMS against which they are inspected. The decision about the set of standards used is based on the relative numbers of older people (aged 65 plus) or younger adults (aged 18-64) resident at the time of inspection.

*Notes:*

1. Homes chose how they are classified during the registration process. "Other" includes any form of ownership not covered by the principal four categories.

2. When the National Care Standards Commission (NCSC) database was established in 2002, the process of registration of homes was staggered. Local authority services were registered after private and voluntary services. The increase in numbers between 2002-03 and 2003-04 does not represent an increase in homes, but in the number registered with NCSC.

CSCI Registration and Inspection database.

## Care Homes: Closures

**Mr. Spring:** To ask the Secretary of State for Health how many care homes in Suffolk have closed in the last five years. [169571]

**Mr. Ivan Lewis:** Data on care home closures prior to 2002 is not held centrally. We are informed by the Commission for Social Care Inspection (CSCI) that the number of homes de-registered in Suffolk since 2002-03 were as shown in the following table. De-registration is not the same as closure. It includes not only homes permanently closed, but also temporary closures, for example, while refurbishment takes place or while a new manager is appointed.

*Number of care homes de-registered in Suffolk*

| | *Number* |
|---|---|
| 2002-03 | 18 |
| 2003-04 | 40 |
| 2004-05 | 11 |
| 2005-06 | 27 |
| 2006-07 | 18 |
| Total | 114 |

CSCI Registration and Inspection database 2007 (data as at 4 November 2007).

### Care Homes: Finance

**Mr. Waterson:** To ask the Secretary of State for Health if his Department will fund a trial of a partnership model for funding social care in East Sussex. [165826]

**Mr. Ivan Lewis:** The Department has no plans to fund a trial of a partnership model for funding social care in East Sussex.

### Care Homes: Inspections

**Mr. David Anderson:** To ask the Secretary of State for Health whether the Commission for Social Care Inspection is required to undertake a new inspection of a care home when the registered manager of a care provider changes. [172054]

**Mr. Ivan Lewis:** Before a person is registered to manage any service regulated by the Commission for Social Care Inspection (CSCI), they must complete the application process. This will not necessarily involve an inspection of the care home in question, but it ensures that new managers are positively approved in their personal capacity before becoming registered and starting work.

All registered persons are required, under Regulation 39 of the Care Homes Regulations 2001, to notify CSCI when a manager of the service in question is to leave, or if a new manager is to be appointed. CSCI may respond to notifications in any way it chooses, and will decide on what action to take in relation to a change of manager depending on what is already known about the service in question. In some cases, CSCI may decide it is appropriate to visit the service in question.

**Mr. David Anderson:** To ask the Secretary of State for Health if his Department will review the *(a)* efficacy and *(b)* effect on service users of the new inspection methodology introduced in April 2006 by the Commission for Social Care Inspection; and if he will ensure that such a review includes a comparative assessment of care inspection frequency in Wales, Scotland and Northern Ireland. [172166]

**Mr. Ivan Lewis:** The Commission for Social Care Inspection (CSCI) operates at arms length from Government. It is for CSCI to evaluate any changes to its inspection methodology.

**Mr. Willis:** To ask the Secretary of State for Health how many registered nursing inspectors were available to inspect nursing and care homes in England in each of the last five years. [172939]

**Mr. Ivan Lewis:** We are informed by the Commission for Social Care Inspection (CSCI) that it does not collect annual figures on the number of registered nurses working as inspectors. However, CSCI carried out a data verification project on the skills and experience of its staff in May 2005. This project, which not every member of staff chose to participate in, revealed that at least 318 inspectors had nursing experience or skills at that time.

CSCI is to commence a new such verification project in 2008. It estimates that there are currently at least 300 CSCI inspectors who have an active nursing qualification. Where possible, CSCI will assign inspectors with a nursing background to inspect nursing homes.

### Children: Exercise

**Norman Lamb:** To ask the Secretary of State for Health how much has been spent on the National School Pedometer Programme; how much is planned to be spent; what estimate he has made of pedometer use by children; and what assessment has been made of the effectiveness of such use in tackling obesity. [171691]

**Dawn Primarolo:** The Department is spending £494,000 on the 'Schools on the Move' National School Pedometer Programme in 2007-08. Our spending plans beyond this financial year are yet to be finalised. The Department also contributed £98,500 to the piloting of the Programme.

A full evaluation of the pilot was undertaken by the London Institute for Sport, Middlesex university, in September 2006. During the pilot year, step counts increased steadily from an average of 8,355 steps at baseline to an average of 16,436 in the 28 week (97 per cent. increase). The pilot found that students' intention to maintain their walking levels was optimistic as 35 per cent. reported that they 'definitely' will maintain their walking during the next 12 months. Most students (51 per cent.) reported that since the beginning of the school year they had increased their physical activity levels. We are confident that the increases in physical activity it produced are likely to have an important impact on energy balance, helping to reduce levels of obesity.

### Chronic Fatigue Syndrome

**Mr. Hepburn:** To ask the Secretary of State for Health how many people were diagnosed with chronic fatigue syndrome in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [172970]

**Ann Keen:** Information on the number of people diagnosed with chronic fatigue syndrome/myalgic encephalomyelitis is not collected.

### Commission for Social Care Inspection: Manpower

**Mr. David Anderson:** To ask the Secretary of State for Health what proportion of the inspections carried out by the Commission for Social Care Inspection in the last 12 months were carried out by locum inspectors; and what training is received by locum inspectors from the Commission for Social Care Inspection before they are deployed. [172118]

**Mr. Ivan Lewis:** The total number of inspections completed by the Commission for Social Care Inspection (CSCI) between 1 December 2006 and 1 December 2007 was 28,116. 293 of these inspections were carried out by locum inspectors, which equates to 1.04 per cent. of inspections for this period.

The majority of locum inspectors are retired inspectors. Training for locum inspectors varies according to region and the requirements of the individual, which will depend on their requirements and previous experience.

## Community Care

**Mr. Yeo:** To ask the Secretary of State for Health (1) what estimate his Department has made of the costs of providing community care *(a)* in people's own homes and *(b)* at a single central location in rural areas; [172280]

(2) what estimate his Department has made of the costs of providing community care in people's own homes in *(a)* rural and *(b)* urban areas; [172281]

(3) what estimate he has made of the *(a)* time spent by and *(b)* costs of healthcare professionals travelling to provide community care in homes in (i) rural and (ii) urban areas. [172289]

**Mr. Ivan Lewis:** The Government's policy is to support people in their own homes for as long as possible, where it is safe to do so and when it accords with their wishes and assessed needs.

No estimate has been made of the costs of providing social care services in people's own homes or at a single central location in rural areas. Local councils are responsible for providing or arranging social care services in people's own homes. Councils have considerable freedom to manage and direct their own resources and the Department does not direct them how best to do so.

No estimate has been made centrally of time spent by and costs of healthcare professionals travelling to provide community care in homes in rural and urban areas. It is for primary care trusts, in partnership with local authorities and other local stakeholders, to assess the needs of their local communities and to commission services accordingly. This process provides the means for addressing the needs of the local population, including the provision of community care services.

## Community Care: Direct Payments

**Mr. Graham Stuart:** To ask the Secretary of State for Health how much has been paid in direct payments under the Fair Access to Care Services scheme in the last 12 months, broken down by local authority area; how much of this has not been spent; and if he will make a statement. [169738]

**Mr. Ivan Lewis:** The following table shows the gross expenditure spent on direct payments under the fair access to care services scheme in 2005-06, broken down by councils with adult social services responsibilities (CASSRs) in England. The figures in this table give details on direct payments spent on adults aged 18 and over who fall under the eligibility criteria of the fair access to care services scheme.

Information on how much has not been spent is not centrally available.

PSSEX1

**Mr. Graham Stuart:** To ask the Secretary of State for Health (1) how often local authorities are required to carry out a review into the distribution of direct payments under the Fair Access to Care Services scheme; and if he will make a statement; [169739]

(2) which local authorities have carried out a review into the distribution of direct payments under the Fair Access to Care Services scheme in the last 12 months; and if he will make a statement. [169740]

**Mr. Ivan Lewis:** Local authorities are not required to carry out a review into the distribution of direct payments under the Fair Access to Care Services (FACS). FACS is a framework that councils should use to help them determine if individuals are eligible for support. If an individual is eligible, support may be provided as a direct payment or as a service arranged or provided directly by the council.

Local authorities are expected to keep the distribution of direct payments across client groups under review as part of their local performance management arrangements. An annual assessment of performance on direct payments is included as one of the Commission for Social Care Inspection's (CSCI) Social Services Performance Assessment Framework Indicators for adults. This forms part of the information CSCI uses in its evidence based judgments on star ratings.

### Departmental Responsibilities: Climate Change

**Rob Marris:** To ask the Secretary of State for Health what steps he *(a)* has taken and *(b)* intends to take by (i) 2012 and (ii) 2020 in relation to adaptation to the effects of climate change as they affect his departmental responsibilities; and if he will make a statement. [164696]

**Mr. Ivan Lewis** *[holding answer 29 November 2007]*: The importance of the climate change agenda is well understood and it is recognised that to tackle climate change, not only do we have to reduce greenhouse gases, but we must also adapt to the impacts we are already experiencing and will continue to experience over the coming decades due to the inertia in the system.

Climate impacts affect many departmental responsibilities. We have worked closely with the Department for Environment, Food and Rural Affairs to develop the adaptation sections of the Climate Change Bill, which will require Government to assess the risks climate change poses to the United Kingdom—including to public health and the health estate—and to develop a programme to respond to those risks. The first risk assessment will be due three years after Royal Assent (around 2011) with the programme being published shortly afterwards. We have also worked with other Departments on the development of the Adaptation Policy Framework which will be published in spring 2008, setting out the Government's programme of action on climate impacts.

In May 2007, the Department published an update of their 2001 report "The Health Effects of Climate Change" for comment. This is being finalised for publication later this year.

The Department has a national heat wave plan in place, which is evaluated and updated annually to ensure that the best available evidence is used to reduce the ill effects of heat-waves. The plan and supporting guidance are circulated to emergency planners and relevant stakeholders in May each year.

On flooding, the Department's emergency preparedness division continues to work across the health economy in partnership with other agencies and Departments to ensure improved resilience of patient services, including national health service infrastructure and health supply chains, and the preparedness of the service to respond to major flooding incidents. Closer work will be needed between the NHS and the Environment Agency to mitigate the affects of flooding in the longer term.

Protection from skin cancers, sunburn and cataracts caused by ultraviolet radiation will rely heavily on public health messages building, for example, on the Department's current collaboration with Cancer-Research UK for the SunSmart campaign.

Although winter deaths are likely to decline, the Department's Keep Warm Keep Well campaign provides annual advice to vulnerable people (mainly older people and also disabled people and families on low incomes) on how to keep themselves and their homes warm in the winter.

The UK recognises that the potential health impact of climate change also requires global action. To this end, the UK has successfully arranged for an agenda item on 'climate change and health' to be included on the agenda of the forthcoming World Health Organisation Executive Board in January 2008. Our aim is to raise awareness of the health implications of climate change among health ministries and professionals and promote practical and sustainable action nationally and internationally to respond to these. Discussion at the Executive Board will enable member states to focus on planning and developing adaptation policies. The UK is also engaged with the European Union on their recent Green Paper on Adaptation.

### Doctors' and Dentists' Review Body

**Mr. Lansley:** To ask the Secretary of State for Health how many hours per week a full-time equivalent staff member is expected to work for each of the groups listed in paragraph 3.4 on page 20 of his Department's evidence to the Review Body on Doctors' and Dentists' Remuneration. [163380]

**Ann Keen:** The number of hours expected of each staff group depends on the employment contract by which they are bound.

Each contract type has a basic number of hours per week, listed as follows for each of the staff groups. In addition to these basic contracted hours, employers and individual staff can agree to contract for additional hours.

| *Staff group* | *Basic contract hours (per week)* |
|---|---|
| Consultants | 40 |
| Associate specialists | 38.5 |
| Staff grades | 40 |
| Junior doctors | [1]— |
| General Practitioners (GP) registrars | 40 |
| GP | [2]— |
| Salaried GPs | 37.5 |

[1] The basic contract is 40 hours

[2] The majority of GPs are independent contractors and can therefore decide what hours they work. However they do need to make sure that the business needs meet the GP contract.

### Doctors: Housing

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what discussions he has had with the Chancellor of the Exchequer on the tax liabilities of junior doctors receiving *(a)* partially and *(b)* fully subsidised hospital accommodation. [164577]

**Ann Keen:** The issue of fully subsidised hospital accommodation had been discussed from time to time over a number of years between officials from the Department, HM Revenue and Customs (and its predecessor) and representatives of NHS Employers. Agreement was reached in August 2007 that the exemption from income tax in respect of provided living accommodation will continue to apply to junior doctors who are employed at Foundation House Officer 1 grade on contracts that are effective for the year commencing 1 August 2007. No discussions have taken place relating to partially subsidised accommodation.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on doctors: housing, if he will place in the Library the relevant sections of the guidance within the Terms and Conditions for Employment for Junior Doctors on the application of charges for accommodation provided through hospital channels. [172010]

**Ann Keen:** NHS Employers are responsible for the terms and conditions of service for junior doctors. An extract of the paragraphs (173 to 178), covering charges for accommodation for junior doctors has been placed in the Library.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 714W, on Doctors: Housing, when the guidance within the terms and conditions for employment for junior doctors on the application of charges for accommodation provided through hospital channels was last updated. [172011]

**Ann Keen:** NHS Employers issued guidance in August 2007 to trusts following the changes to the Medical Act 1983 which came into effect on 1 August 2007.

### Doctors: Training

**Mr. Lansley:** To ask the Secretary of State for Health what the competition ratio for training posts for registrar group doctors was in 2007, broken down by region and specialty. [165685]

**Ann Keen:** The Department does not have this information for the whole of the 2007 recruitment because the national Medical Training Application Service computer system was not used for applicants in Round 2. However, we published the competition ratios for Round 1 earlier in the year and these are available on the Modernising Medical Careers (MMC) website at: www.mmc.nhs.uk

### Doncaster and Bassetlaw Hospitals NHS Trust: Industrial Disputes

**Mr. Meacher:** To ask the Secretary of State for Health if he will take steps to resolve the dispute between maintenance craft workers and Doncaster and Bassetlaw NHS Trust. [165434]

**Ann Keen:** The Secretary of State has no locus to direct the trust in this matter given its status as a National Health Service Foundation Trust.

### Drugs: Death

**Mike Penning:** To ask the Secretary of State for Health how many people died from drug overdoses while on the waiting list to receive hard drug substitutes in the last 12 months for which figures are available. [170667]

**Dawn Primarolo:** This information is not collected centrally.

### Eating Disorders: Children

**Stephen Williams:** To ask the Secretary of State for Health which primary care trusts provide specialist eating disorder services for those aged under 13 years. [172782]

**Mr. Ivan Lewis:** This information is not collected centrally.

We take the issue of eating disorders, especially among young people, very seriously. This is why the Department asked the National Institute for Health and Clinical Excellence (NICE) to produce a clinical guideline on the core interventions in the treatment and management of anorexia nervosa, bulimia nervosa and related eating disorders, and which NICE published in 2004. The guideline covers physical and psychological treatments, treatment with medicines, and information specifically for patients, carers and the public. NICE will commence a review of this guideline in January 2008.

As primary care trusts consider local health needs and commissioned services, they will need to assess whether the right balance exists between in-patient care and home-based care, particularly at a highly specialised levels, to help individuals with eating disorders.

### Elderly: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health whether he intends to provide any incentives to *(a)* GPs, *(b)* district nurses and *(c)* other professionals in primary care settings to provide nutritional screening for older people in line with National Institute for Health and Clinical Excellence's (NICE) guidelines, as referred to on page 35 of his Department's document, Improving Nutritional Care; and for what reasons he does not expect (i) GPs, (ii) district nurses and (iii) other professionals in primary care settings to provide nutritional screening for adults of all ages. [170058]

**Mr. Ivan Lewis:** There is no intention to nationally provide new or additional incentives for general practitioners (GPs), nurses, or other health professionals to deliver nutritional screening for older people. Prioritisation is a matter for primary care trusts (PCTs) who would need to pay for any local incentive scheme. However, one aim of the Agenda for Change pay system, introduced in 2003-04 for the majority of non-medical national health service staff, was to establish a framework within which PCTs could incentivise delivery of local priorities through rigorous job evaluation, which enables remuneration based on skills and experience, better training opportunities linked to pay progression and use of recruitment and retention premia to attract difficult to recruit skills.

Older patients regularly see their GP or other member of the primary care team. On average, over-75s see their GP at least six times a year, and as part of GPs' essential services, elderly patients' general health would be assessed as part of their regular ongoing treatment within these visits.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health who the members of his Department's Nutrition Action Plan Delivery Board are. [170059]

**Mr. Ivan Lewis:** Membership of the Nutrition Action Plan Delivery Board is being decided and details will be published in due course.

### Females: Conferences

**Mr. Amess:** To ask the Secretary of State for Health which Ministers from his Department *(a)* attended and *(b)* spoke at the Women Deliver conference held in London from 18 to 20 October; whether his Department contributed (i) direct funding, (ii) informal support and (iii) personnel; whether officials from his Department (A) attended and (B) participated; what discussions his Department had with the Department for International Development on this conference; and if he will make a statement. [172422]

**Ann Keen:** No Department Ministers attended the Women Deliver conference. Dr. Gwyneth Lewis, the National Clinical Lead for Maternal Health and Maternity Services, attended as an observer and represented the Department. No other support was given by the Department for the event.

The Government lead for the conference lay with the Department for International Development and my right hon. Friend the Secretary of State for International Development opened the conference.

### Fibromyalgia

**Mr. Hepburn:** To ask the Secretary of State for Health how many people were diagnosed with meningitis in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [172969]

**Dawn Primarolo:** The number of people diagnosed with meningitis in South Tyneside , North east England and England in each year since 1997 is shown in the following table. Information is not collected by constituency.

*Statutory notifications of meningitis*

| *Area* | *1997* | *1998* | *1999* | *2000* | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|---|---|---|---|
| South Tyneside[1] | 2 | 1 | — | 1 | 1 | 1 | 2 | | | |
| North East England | 115 | 77 | 76 | 95 | 104 | 72 | 51 | 50 | 65 | 80 |
| England | 2,144 | 1,925 | 1,916 | 2,251 | 2,431 | 1,449 | 1,387 | 1,186 | 1,271 | 1,406 |

[1] South Tyneside figures are also included in the North England and the England total

Health Protection Agency

### Health Services: Disadvantaged

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government has taken to reduce health inequalities between the richest and poorest quartiles of the population since 1997. [169329]

**Dawn Primarolo:** Health inequalities targets are not set and monitored in terms of the richest and poorest quartiles of the population.

This Government have introduced the most comprehensive programme ever seen in this country to address health inequalities, including the first national public service agreement (PSA) targets to reduce inequalities as measured by infant mortality (by socio-economic classification) and life expectancy (by geographical area) by 10 per cent. by 2010.

National initiatives to deliver the PSA include:

putting a cross-government national health inequalities strategy in place to deliver the 2010 target, complemented by programmes such as NHS Health Trainers, NHS Life Check and Communities for Health;

launching the Health Inequalities Intervention Tool in August 2007; and

reviewing the success of the Inequalities Infant Mortality PSA target and committing to publish an implementation plan/good practice guidance shortly

Action to tackle health inequalities was strengthened further by the Secretary of State's announcement last September that the Department will publish a comprehensive strategy next year for reducing health inequalities. This will address unjustified gaps in health status, fair access to national health service services for everyone and good outcomes of care for all.

## Heart Diseases: Health Services

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government plan to take to increase the availability of cardiac rehabilitation services. [173703]

**Ann Keen:** The provision of cardiac rehabilitation services is a matter for the local national health service, working in partnership with stakeholders and the local community. It is for NHS organisations to plan and develop services based on their specific local knowledge and expertise.

A new National Cardiac Rehabilitation Audit has been introduced across England, jointly sponsored by the British Heart Foundation and the Healthcare Commission. This will provide stronger evidence on effectiveness and encourage local areas to appraise and improve their provision of cardiac rehabilitation.

Furthermore, in July 2007, a British Heart Foundation-led campaign with the British Association of Cardiac Rehabilitation was launched, which together with the audit will raise the profile of rehabilitation and give impetus to the provision of rehabilitation services.

## HIV Infection: Research

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government has taken to encourage scientific research into HIV since 1997. [170159]

**Dawn Primarolo:** The Government encourages scientific research into HIV through long-standing partnerships between the Department of Health, the Department for International Development (DfID) and the Medical Research Council (MRC). The MRC receives its funding through the Department for Innovation Universities and Skills.

The Department has since 1986 supported a research programme on sexual health and HIV. The programme is managed on its behalf by the MRC, with advice from the Sexual Health and HIV Research Strategy Committee[1]. In this way, the MRC is able to co-ordinate the work of the programme with its broader portfolio of national and international research on sexual health and HIV that aims to address the two challenges of protection from HIV transmission and treatment of those affected.

The Committee identifies research needs and priorities, stimulates new research, and advises on the value and relevance to the programme of proposals submitted to it for funding. Studies on HIV epidemiology, prevention and treatment have been a major part of the programme. Currently, around half of the studies funded are concerned with HIV, or HIV in the context of sexually transmitted infection more generally.

Other joint initiatives supporting and encouraging research on HIV include the MRC/DFID DART trial, one of the largest trials in Africa to evaluate two strategic approaches for the management of Antiretroviral Therapies; and the MRC/DFID Microbicides Development Programme, a partnership between the United Kingdom and sub-Saharan Africa to develop vaginal microbicides for the prevention of transmission of HIV infection.

Internationally, the European and Developing Countries Clinical Trials Partnership (EDCTP), which involves 16 European countries and 46 sub-Saharan African countries, aims to develop new clinical interventions to fight HIV/AIDS, malaria and tuberculosis.

## HIV Infection: Young People

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government have taken to educate young people about HIV infection since 1997. [170158]

**Beverley Hughes:** I have been asked to reply.

Teaching about safer sex is one of the Government's key strategies for reducing the incidence of HIV/AIDS and other sexually transmitted infections (STIs).

The Department issued its "Sex and Relationship Education (SRE) Guidance" to all maintained schools in July 2000. Prior to this the basic requirements for sex education were covered by the 1996 Education Act. The guidance took account of the revised national curriculum published in 1999 and was developed in discussion with key stakeholders to make sure it covered all relevant issues. It sets out the framework within which schools should provide effective SRE at each of the four key stages. At secondary school level SRE should prepare young people for an adult life in which (among other things) they can:

be aware of their sexuality and understand human sexuality;

understand the reasons for having protected sex;

have sufficient information to protect themselves from HIV and other STIs.

The position has been further reinforced following the recent review of the secondary curriculum undertaken—at the request of the Department—by the Qualifications and Curriculum Authority. SRE will continue to place a strong emphasis on sexual activity, HIV and other STIs, and how high-risk behaviours affect the health and well-being of individuals, families and communities.

---

[1] This Committee was established in 2002 when it replaced the Committee for the Epidemiological Study of AIDS.

## Hospital Beds

**Mr. Burns:** To ask the Secretary of State for Health whether changes have been made to *(a)* the definition of the term delayed discharges and *(b)* the procedures in determining a delayed discharge since the implementation of the Delayed Discharges Act 2003; and if he will make a statement. [171843]

**Mr. Ivan Lewis** *[holding answer 6 December 2007]*: Guidance on the implementation of the Community Care (Delayed Discharges etc) Act 2003, including the definition of and procedures for notifying delayed discharges was issued on 24 September 2003 as Health Service Circular, HSC 2003/009 and Local Authority Circular, LAC (2003) 21. This guidance is still current and has not been amended.

## Hospital Beds: East Anglia

**Mr. Spring:** To ask the Secretary of State for Health how many bed spaces there were on average at *(a)* Addenbrookes, *(b)* West Suffolk and *(c)* Ipswich hospitals in (i) 1997, (ii) 2002 and (iii) at the latest time for which figures are available. [167527]

**Mr. Ivan Lewis:** The following table shows the average available and occupied beds for Addenbrooke's Hospital National Health Service Trust, Ipswich Hospital NHS Trust and West Suffolk Hospitals NHS Trust in 1996-07, 2001-02 and 2006-07.

| | *1996-07* | | *2001-02* | | *2006-07* | |
|---|---|---|---|---|---|---|
| *Org name* | *Available beds* | *Occupied beds* | *Available beds* | *Occupied beds* | *Available beds* | *Occupied beds* |
| Addenbrooke's NHS Trust[1] | 1,287 | 1,135 | 1,280 | 1,102 | 1,048 | 912 |
| Ipswich Hospital NHS Trust | 816 | 638 | 769 | 644 | 700 | 594 |
| West Suffolk Hospitals NHS Trust | 685 | 506 | 679 | 566 | 494 | 413 |

[1] Addenbrooke's NHS Trust became Cambridge University Hospitals NHS Foundation Trust in July 2004

Department of Health form KH03

## Hospital Beds: Eastern Region

**Mr. Ruffley:** To ask the Secretary of State for Health how many hospital beds there were in each primary care trust area in the East of England in each year since 1997. [170127]

**Mr. Ivan Lewis:** The information is not available in the format requested. The following table shows the average available beds for national health service trusts in the East of England between 1997 and 2007 (latest data available).

*Average daily available beds for NHS trusts in the East of England between 1997 and 2007. In 2000-01, East Hertfordshire NHS Trust and North Hertfordshire NHS Trust merged to form East and North Hertfordshire NHS Trust. In 2000-01, Mount Vernon and Watford Hospitals NHS Trust and St. Albans and Hemel Hempstead NHS Trust merged to form West Hertfordshire NHS Trust. Department of Health form KH03

### Hospital Beds: Mid Essex Hospital Services NHS Trust

**Mr. Burns:** To ask the Secretary of State for Health (1) what procedures were used in determining the status of a delayed discharge patient in the Mid-Essex Hospital Trust area in *(a)* 2002 and *(b)* the latest period for which figures are available; [171842]

(2) how many delayed discharges there were in the Mid-Essex Hospital Trust area in each of the last 12 months; [171844]

(3) what assessment has been made of the effect of the closure of the intermediate care wards at St. John's Hospital, Chelmsford on the number of delayed discharge patients in the Mid-Essex Hospital Trust area in the last 24 months. [171845]

**Mr. Ivan Lewis** *[holding answer 6 December 2007]*: The information is not currently available, it will be available in February and a copy will be placed in the Library.

### Hospitals: Admissions

**Jim Cousins:** To ask the Secretary of State for Health how many alcohol-related admissions there were to hospitals in each primary care trust area in *(a)* 2004, *(b)* 2005 and *(c)* 2006; and what proportion these figures represented of all admissions in each area. [172406]

**Dawn Primarolo:** The information requested has been placed in the Library.

### Hospitals: Eastern Region

**Mr. Spring:** To ask the Secretary of State for Health how many operations were cancelled at *(a)* Addenbrooke's hospital, *(b)* West Suffolk hospital and *(c)* Ipswich hospital within (i) seven days and (ii) 24 hours of the appointment in each of the last five years. [167901]

**Mr. Ivan Lewis:** Information is not available in the format requested. However the following table shows the number of last minute cancelled operations for non clinical reasons, at Cambridge University Hospitals National Health Service Foundation Trust, Ipswich Hospital NHS Trust and West Suffolk Hospitals NHS Trust for each year from 2002-03 to 2006-07 which is the latest data available.

*Number of last minute cancelled operations for non clinical reasons*

| *Name* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|
| England | 67,254 | 66,303 | 68,569 | 60,803 | 52,005 |
| Cambridge University Hospitals NHS Foundation Trust | 645 | 769 | 1,090 | 507 | 460 |
| Ipswich Hospital NHS Trust | 417 | 488 | 533 | 384 | 355 |
| West Suffolk Hospitals NHS Trust | 194 | 425 | 585 | 275 | 225 |

*Notes:*

A last minute cancellation is one that occurs on the day the patient was due to arrive, after they have arrived in hospital or on the day of their operation. Some common non-clinical reasons for cancellations by the hospital include: ward beds unavailable; surgeon unavailable; emergency case needing theatre; theatre list over-ran; equipment failure; admin error; anaesthetist unavailable; theatre staff unavailable; and critical care bed unavailable.

An operation which is rescheduled to a time within 24 hours of the original scheduled operation should be recorded as a postponement and not as a cancellation. The QMCO collection does not record the number of postponements.

Department of Health dataset QMCO

### Hospitals: Manpower

**Mr. Lansley:** To ask the Secretary of State for Health with reference to the answer to the hon. Member for East Worthing and Shoreham (Tim Loughton) of 16 October 2007, *Official Report*, column 1055W, on hospitals: manpower, what funding his Department has provided to the NHS National Workforce Projects (NWPs) in *(a)* 2005-06, *(b)* 2006-07 and *(c)* 2007-08; where the pilots commissioned by the NHS NWPs are operating, and what the objectives for each pilot is; whether the results of the pilots will be made public; what lessons have so far be learned as a result of the pilots; and if he will make a statement. [166324]

**Ann Keen:** The funding allocations to national health service National Workforce Projects were £6,800,000 in 2005-06; £3,500,000 in 2006-07; and £762,000 in 2007-08 for NHS National Workforce Projects. A total of £11,062,000 is being invested for the five year duration of the programme from 2005-06 to 2009-10 to support front line NHS services.

The pilot projects under way are with the Royal College of Paediatrics and Child Health and the Royal College of Obstetricians and Gynaecologists; Milton Keynes General NHS Trust; shift patterns; paediatric solutions; cooperative solutions; taking care 24:7; team working, handover and escalation; and information technology solutions. Full details of all these pilots including locations and where available their objectives, results and lessons learned have been placed in the Library. All this information can also be viewed at the National Workforce Project website:

www.healthcareworkforce.nhs.uk/pilotprojects.html.

### Hospitals: Standards

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) when he intends to publish Patient Environment Action Team scores for 2007; [170054]

(2) whether the National Patient Safety Agency's Patient Environment Action Team scores for 2007 incorporated an assessment of the extent to which nutritional screening is undertaken in hospitals as part of its work on hospital food. [170081]

**Ann Keen:** The 2007 patient environment action team (PEAT) scores were published on 21 November 2007 and the summary results for the last three years are given as follows. Full details are available on the NPSA website at:

www.msnpsa.nhs.uk/peat/

|  |  |  |  |  | *Percentage* |
|---|---|---|---|---|---|
|  | *Excellent* | *Good* | *Acceptable* | *Poor* | *Unacceptable* |
| *Patient environment* |  |  |  |  |  |
| 2005 | 10.3 | 44.8 | 40.1 | 4.6 | 0.2 |
| 2006 | 14.2 | 49.8 | 31.1 | 4.8 | 0.2 |
| 2007 | 14.3 | 48.9 | 34.8 | 1.6 | 0.5 |
| *Hospital food* |  |  |  |  |  |
| 2005 | 32.4 | 51.5 | 14.8 | 1.3 | 0.0 |
| 2006 | 33.8 | 57.8 | 8.3 | 0.08 | 0 |
| 2007 | 46.5 | 48.5 | 4.5 | 0.5 | 0.0 |

*Notes:*

Figures rounded to one decimal place

As part of the PEAT survey 2007, responding national health service organisations were rated on various aspects of hospital food provision. This includes a category designated 'nutritional' care which asks whether all patients have been nutritionally screened, but this is only one component of the category, and the results cannot be disaggregated.

Guidance states that in answering, respondents should also consider whether there is evidence that weighing scales are regularly calibrated; there is a policy on nutritional care; there is an active nutritional screening group; and whether staff are aware of the importance of nutritional care for patients' health and quality of life.

### Influenza: Disease Control

**Mr. Lansley:** To ask the Secretary of State for Health (1) how much his Department has budgeted for the costs associated with the new measures in the Flu Pandemic Plan in each financial year from 2007-08 to 2010-11, broken down by *(a)* resource and *(b)* capital expenditure; [169945]

(2) what arrangements his Department has to replenish its stocks of Tamiflu as existing stocks expire; what estimate he has made of the cost of stock replenishment; and how such costs will appear in his Department's resource accounts; [169953]

(3) when he expects his Department to have increased its stock of antivirals to the levels where it has sufficient for at least 50 per cent. of the population in the event of pandemic influenza. [169954]

**Mr. Spellar:** To ask the Secretary of State for Health where the advanced supply vaccines recently announced will be manufactured. [170201]

**Dawn Primarolo:** Clinical countermeasures, vaccines, antivirals, antibiotics and facemasks are a key part of the Government response to pandemic influenza. I refer the hon. Member to the statement given by my right hon. Friend the Secretary of State on 22 November 2007, *Official Report*, columns 1350-61, to launch the national framework for responding to an influenza pandemic and the Government's plan to increase the level of stockpiles of the clinical countermeasures to improve the ability of the United Kingdom to respond to a pandemic.

The costs of new clinical countermeasure strategy cannot be provided as it could affect the commercial negotiations that will be progressed and potentially reduce the possibility of getting best value for money.

The increasing of current stockpile of antivirals is subject to a commercial assessment on antivirals will be completed that will identify the worldwide capacity and demand for antivirals.

The current stockpile of Tamiflu will be replenished if it passes its shelf life and has not been used to respond to a pandemic. The costs of replenishment will be subject to the same commercial arrangements as that for procuring new stockpiles and therefore cannot be currently stated.

The Advance Supply Agreements for the supply of pandemic specific vaccine were signed with GlaxoSmithKline (GSK) and Baxter this summer. These allow for the purchase of sufficient vaccine for the UK population. The Baxter vaccine will be manufactured in the Czech Republic and Austria, while the GSK vaccine will be manufactured in Germany and Belgium.

### Influenza: Vaccination

**Mr. Evans:** To ask the Secretary of State for Health what steps he is taking to increase the percentage of old age pensioners who receive an influenza vaccine. [170092]

**Dawn Primarolo** *[holding answer 5 December 2007]*: We launched a campaign on 28 September incorporating a number of strategies aimed at encouraging people aged 65 and over to receive their flu immunisation. The campaign incorporated:

national television advertising;

advertising in national and regional newspapers, including ethnic media;

advertising on pharmacy bags; and

work with commercial partners such as Tesco, Morrisons and other stakeholders such as Alzheimer's Society and Aid for the Aged in Distress.

Details of those eligible to receive their free flu vaccination this year was made available to all health professionals via the chief medical officer letter dated 30 March 2007 and also as part of the 'If you knew about Flu' campaign leaflet. Two million of these leaflets have been distributed as part of this year's campaign.

### In-vitro Fertilisation

**Mike Penning:** To ask the Secretary of State for Health if he will estimate the cost to the NHS of providing one cycle of in-vitro fertilisation treatment in the latest year for which figures are available. [174014]

**Dawn Primarolo:** We do not have an estimate of how much the national health service spends on in-vitro fertilisation. However, we arranged for a survey of primary care trusts by strategic health authorities in the autumn about the commissioning of infertility treatment. The responses to the survey are currently being analysed.

### Malnutrition: Screening

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) what progress has been made in establishing a nationally-agreed standard malnutrition screening tool, as stated in section 5.0 of the National Patient Safety Agency's Nutritional Screening: Structured Investigation Project; [170078]

(2) what steps he is taking to ensure patients are aware of nutritional screening so that they can ask for an assessment, as recommended in section 4.4 of the National Patient Safety Agency's Nutritional Screening: Structured Investigation Project. [170079]

**Ann Keen:** The National Nutrition Plan published in October 2007 encouraged commissioners and providers to promote nutrition screening in all health and social care settings. The National Patient Safety Agency is currently supporting the implementation of the malnutrition universal screening tool (MUST) as the screening tool of choice. This is being done in collaboration with the Royal College of Nursing, as part of the Nutrition Now Campaign, through a serious of trust based workshops. The workshops are attended by nurses, dieticians and caterers and provide a training session on using the MUST screening tool.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what representations his Department has received from *(a)* NHS staff, *(b)* social care staff and *(c)* other interested parties on the (i) availability and (ii) suitability of weighing scales to assess patients for risk of malnutrition in the last year; what the content was of these representations; and if he will make a statement. [170080]

**Ann Keen:** The Department's correspondence database contains no representations made in the last year that mention 'weighing scales'. Other departmental offices also confirmed that they are not aware of receiving representations in the previous year, which raised the issue of the availability and suitability of weighing scales to assess patients for risk of malnutrition.

### Maternity Services

**Norman Lamb:** To ask the Secretary of State for Health which NHS trusts in England provide maternity services. [171664]

**Ann Keen:** Analysis of national data from NHS Maternity Statistics, England 2005-06 shows that the national health service trusts listed as follows provide maternity services.

Aintree University Hospitals NHS Foundation Trust
Airedale NHS Trust
Ashford and St. Peter's Hospitals NHS Trust
Avon and Wiltshire Mental Health Partnership NHS Trust
Barking, Havering and Redbridge Hospitals NHS Trust
Barnet and Chase Farm Hospitals NHS Trust
Barnsley Hospital NHS Foundation Trust
Barts and The London NHS Trust
Basildon and Thurrock University Hospitals NHS Foundation Trust
Basingstoke and North Hampshire NHS Foundation Trust
Bedford Hospital NHS Trust
Birmingham Children's Hospital NHS Foundation Trust
Birmingham Women's Health Care NHS Trust
Blackpool, Fylde and Wyre Hospitals NHS Trust
Bolton Hospitals NHS Trust
Bradford Teaching Hospitals NHS Foundation Trust
Brighton and Sussex University Hospitals NHS Trust
Bromley Hospitals NHS Trust
Buckinghamshire Hospitals NHS Trust
Burton Hospitals NHS Trust
Calderdale and Huddersfield NHS Foundation Trust
Cambridge University Hospitals NHS Foundation Trust
Central Manchester and Manchester Children's University Hospitals NHS Trust
Chelsea and Westminster Hospital NHS Foundation Trust
Chesterfield Royal Hospital NHS Foundation Trust
City Hospitals Sunderland NHS Foundation Trust
Cornwall Partnership NHS Trust
Countess Of Chester Hospital NHS Foundation Trust
County Durham and Darlington NHS Foundation Trust
Dartford and Gravesham NHS Trust
Derby Hospitals NHS Foundation Trust
Doncaster and Bassetlaw Hospitals NHS Foundation Trust
Dorset County Hospital NHS Foundation Trust
Dudley Group of Hospitals NHS Trust
Ealing Hospital NHS Trust
East and North Hertfordshire NHS Trust
East Cheshire NHS Trust
East Kent Hospitals NHS Trust
East Lancashire Hospitals NHS Trust
East Sussex Hospitals NHS Trust
Epsom and St. Helier University Hospitals NHS Trust
Essex Rivers Healthcare NHS Trust
Frimley Park Hospital NHS Foundation Trust
Gateshead Health NHS Foundation Trust
George Eliot Hospital NHS Trust
Gloucestershire Hospitals NHS Foundation Trust
Great Ormond Street Hospital for Children NHS Trust
Guy's and St. Thomas' NHS Foundation Trust
Hammersmith Hospitals NHS Trust
Hampshire Partnership NHS Trust
Harrogate and District NHS Foundation Trust
Heart of England NHS Foundation Trust
Heatherwood and Wexham Park Hospitals NHS Foundation Trust
Hereford Hospitals NHS Trust
Hinchingbrooke Health Care NHS Trust
Homerton University Hospital NHS Foundation Trust
Hull and East Yorkshire Hospitals NHS Trust
Ipswich Hospital NHS Trust
James Paget University Hospitals NHS Foundation Trust
Kettering General Hospital NHS Trust
King's College Hospital NHS Foundation Trust
Kingston Hospital NHS Trust
Lancashire Teaching Hospitals NHS Foundation Trust
Leeds Teaching Hospitals NHS Trust
Liverpool Women's NHS Foundation Trust
Luton and Dunstable Hospital NHS Foundation Trust
Maidstone and Tunbridge Wells NHS Trust
Mayday Healthcare NHS Trust
Medway NHS Trust
Mid Essex Hospital Services NHS Trust
Mid Staffordshire General Hospitals NHS Trust
Mid Yorkshire Hospitals NHS Trust
Milton Keynes General Hospital NHS Trust
Newham University Hospital NHS Trust
Norfolk and Norwich University Hospital NHS Trust
North Bristol NHS Trust
North Cheshire Hospitals NHS Trust
North Cumbria Acute Hospitals NHS Trust
North Middlesex University Hospital NHS Trust
North Tees and Hartlepool NHS Trust
North West London Hospitals NHS Trust
Northampton General Hospital NHS Trust
Northern Devon Healthcare NHS Trust
Northern Lincolnshire and Goole Hospitals NHS Foundation Trust

Northumbria Healthcare NHS Foundation Trust
Nottingham University Hospitals NHS Trust
Oxford Radcliffe Hospitals NHS Trust
Pennine Acute Hospitals NHS Trust
Peterborough and Stamford Hospitals NHS Foundation Trust
Plymouth Hospitals NHS Trust
Poole Hospital NHS Trust
Portsmouth Hospitals NHS Trust
Queen Elizabeth Hospital NHS Trust
Queen Mary's Sidcup NHS Trust
Robert Jones and Agnes Hunt Orthopaedic and District Hospital NHS Trust
Royal Berkshire NHS Foundation Trust
Royal Brompton and Harefield NHS Trust
Royal Cornwall Hospitals NHS Trust
Royal Devon and Exeter NHS Foundation Trust
Royal Free Hampstead NHS Trust
Royal Liverpool and Broadgreen University Hospitals NHS Trust
Royal Surrey County Hospital NHS Trust
Royal United Hospital Bath NHS Trust
Royal West Sussex NHS Trust
Salford Royal NHS Foundation Trust
Salisbury NHS Foundation Trust
Sandwell and West Birmingham Hospitals NHS Trust
Scarborough and North East Yorkshire Health Care NHS Trust
Sheffield Teaching Hospitals NHS Foundation Trust
Sherwood Forest Hospitals NHS Foundation Trust
Shrewsbury and Telford Hospital NHS Trust
South Devon Healthcare NHS Foundation Trust
South Staffordshire and Shropshire Healthcare NHS Foundation Trust
South Tees Hospitals NHS Trust
South Tyneside NHS Foundation Trust
South Warwickshire General Hospitals NHS Trust
Southampton University Hospitals NHS Trust
Southend University Hospital NHS Foundation Trust
Southport and Ormskirk Hospital NHS Trust
St George's Healthcare NHS Trust
St. Helens and Knowsley Hospitals NHS Trust
St Mary's NHS Trust
Stockport NHS Foundation Trust
Surrey and Sussex Healthcare NHS Trust
Swindon and Marlborough NHS Trust
Tameside and Glossop Acute Services NHS Trust
Taunton and Somerset NHS Trust
The Hillingdon Hospital NHS Trust
The Lewisham Hospital NHS Trust
The Mid Cheshire Hospitals NHS Trust
The Newcastle upon Tyne Hospitals NHS Foundation Trust
The Princess Alexandra Hospital NHS Trust
The Queen Elizabeth Hospital King's Lynn NHS Trust
The Rotherham NHS Foundation Trust
The Royal Bournemouth and Christchurch Hospitals NHS Foundation Trust
The Royal Wolverhampton Hospitals NHS Trust
The Whittington Hospital NHS Trust
Trafford Healthcare NHS Trust
United Bristol Healthcare NHS Trust
United Lincolnshire Hospitals NHS Trust
University College London Hospitals NHS Foundation Trust
University Hospital Birmingham NHS Foundation Trust
University Hospital of North Staffordshire NHS Trust
University Hospital of South Manchester NHS Foundation Trust
University Hospitals Coventry and Warwickshire NHS Trust
University Hospitals of Leicester NHS Trust
University Hospitals of Morecambe Bay NHS Trust
Walsall Hospitals NHS Trust
Walton Centre For Neurology and Neurosurgery NHS Trust
West Hertfordshire Hospitals NHS Trust
West Middlesex University Hospital NHS Trust
West Suffolk Hospitals NHS Trust
Weston Area Health NHS Trust
Whipps Cross University Hospital NHS Trust
Winchester and Eastleigh Healthcare NHS Trust
Wirral University Teaching Hospital NHS Foundation Trust
Worcestershire Acute Hospitals NHS Trust
Worthing and Southlands Hospitals NHS Trust
Wrightington, Wigan and Leigh NHS Trust
Yeovil District Hospital NHS Foundation Trust
York Hospitals NHS Foundation Trust

## Medical Treatments Abroad: France

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what recent discussions Ministers have had with their EU counterparts on the Employment, Social Policy, Health and Consumer Affairs Council on *(a)* the provision of healthcare to English nationals in France and *(b)* electronic patient record-sharing across Europe. [172901]

**Dawn Primarolo:** Neither of these subjects was on the agenda of last weeks Employment, Social, Policy, Health and Consumer Affairs Council. In addition to regular meetings between officials there has been bilateral contact at ministerial level with the French Government about the provision of healthcare to United Kingdom nationals in France.

There have been no recent discussions at ministerial level on electronic patient record-sharing across Europe.

## Mental Health Services: Armed Forces

**Richard Younger-Ross:** To ask the Secretary of State for Health what assessment he has made of the effectiveness of the provision of healthcare by his Department to former servicemen and women with combat stress. [172886]

**Mr. Ivan Lewis:** The Department takes very seriously the health needs of our troops when they return from serving their country. From 1948, successive Governments have been clear that healthcare for veterans is the responsibility of the national health service. We recently announced an extension of priority treatment provisions for veterans as well as the establishment, in partnership with the Ministry of Defence, of the first pilot projects aimed at making our mental health services more accessible to ex-service personnel.

In addition, the Improving Access to Psychological Therapies programme will improve access to talking treatments to all victims of trauma, including those affected by combat experience. This programme has been funded by £170 million of new money and will eventually provide coverage to all parts of the country.

### Mental Health Services: Suicide

**Anne Milton:** To ask the Secretary of State for Health what estimate his Department has made of the number of suicides committed by people who have received treatment for mental illness in each of the last five years. [173280]

**Mr. Ivan Lewis:** I refer the hon. Member to the answer given on 15 October 2007, *Official Report*, columns 925-26W.

### Mentally Incapacitated: Protection

**Mr. David Anderson:** To ask the Secretary of State for Health how many adult protection referrals have taken place in each local authority in England, broken down by the assessment level of the provider involved. [172104]

**Mr. Ivan Lewis:** This information is not currently collected centrally.

On 14 June 2007, I announced that plans are being put in place to introduce a new national monitoring system to report the extent of abuse. This will be based on a standardised method for the collection of data on protection of vulnerable adult referrals in England. The Information Centre for health and social care is leading the work to develop and collect data from councils on a national basis.

### Methadone: Durham

**John Cummings:** To ask the Secretary of State for Health how many people were prescribed methadone and other hard drug substitutes in *(a)* County Durham and *(b)* Easington constituency in each year since 2000. [172763]

**Dawn Primarolo:** The information is not available in the format requested. Dispensing data is collected by the number of prescription items and not by individuals. The following table contains figures for the number of prescriptions of methodone and buprenorphine in County Durham Primary Care Trust and predecessor organisations from 2003, the earliest full year for which information is available.

| | *Methadone* | *Buprenorphine and buprenorphine with naloxone* |
|---|---|---|
| 2003 | 12,478 | 1,386 |
| 2004 | 17,433 | 2,298 |
| 2005 | 21,598 | 3,579 |
| 2006 | 25,130 | 6,588 |

*Notes/Sources:*
Prescription information is taken from the Prescription Cost Analysis system, supplied by the Prescription Pricing Division of the Business Services Authority, and is based on a full analysis of all prescriptions dispensed in the community i.e. by community pharmacists and appliance contractors, dispensing doctors, and prescriptions submitted by prescribing doctors for items personally administered in England. Also included are prescriptions written in Wales, Scotland, Northern Ireland and the Isle of Man but dispensed in England. The data do not cover drugs dispensed in hospitals, including mental health trusts, or private prescriptions.
Prescription Items: prescriptions are written on a prescription form. Each single item written on the form is counted as a prescription item.
County Durham Primary Care Trust (PCT) was formed in October 2006 from a merger of Durham Dales, Derwentside, Durham and Chester-le-Street, Easington and Sedgefield PCTs.

### Midwives: Training

**Mr. Hancock:** To ask the Secretary of State for Health what the total cost was of training student midwives in the 2006-07 financial year. [172145]

**Ann Keen:** Information on the total cost of training student midwives in the 2006-07 financial year is not held centrally. The latest year for which data are available is the 2005-06 financial year when the total cost was estimated at £82.2 million.

**Mr. Hancock:** To ask the Secretary of State for Health how many midwifery training places were commissioned in each academic year since 1997-98. [172146]

**Ann Keen:** Information on the number of student midwives in each academic year since 1997-98 is shown in the following table.

| | *Diploma* | *Degree* | *Total pre-registration* | *Other* | *Grand total* |
|---|---|---|---|---|---|
| 1997-98 | 572 | 224 | 796 | 908 | 1,704 |
| 1998-99 | 597 | 255 | 852 | 899 | 1,751 |
| 1999-2000 | 620 | 395 | 1,015 | 757 | 1,772 |
| 2000-01 | 604 | 494 | 1,098 | 789 | 1,887 |
| 2001-02 | 525 | 621 | 1,146 | 732 | 1,878 |
| 2002-03 | 651 | 724 | 1,375 | 752 | 2,127 |
| 2003-04 | 716 | 753 | 1,469 | 790 | 2,259 |
| 2004-05 | 744 | 895 | 1,639 | 735 | 2,374 |
| 2005-06 | 517 | 1042 | 1559 | 661 | 2220 |
| 2006-07 | 540 | 983 | 1523 | 467 | 1990 |

*Source:*
Quarterly monitoring/financial and workforce information return

**Mr. Hancock:** To ask the Secretary of State for Health which higher education institutions offer training in midwifery. [172147]

**Ann Keen:** Information on the higher education institutions that offer training to student midwives, is not held by the Department. The Nursing and Midwifery Council is responsible for approving education institutions to run midwifery training programmes.

### National Institute for Health and Clinical Excellence

**Mike Penning:** To ask the Secretary of State for Health when the National Institute for Health and Clinical Excellence intends to publish a review of its guidance on "Fertility: assessment and treatment for people with fertility problems", published on 25 February 2004. [174016]

**Dawn Primarolo:** The National Institute for Health and Clinical Excellence (NICE) sets out a proposed review date when it publishes each new clinical guideline. We understand that the published review date for NICE's clinical guideline on "Fertility: assessment and treatment for people with fertility problems" is February 2008. At that point, NICE will take a view on whether the guideline requires an update. This will depend primarily on whether significant new information has become available since the guideline was originally published. If NICE decides that the guideline does not need to be updated, it will set out a new time scale for a future reassessment of the need for a review.

## NHS: Managers

**Mike Penning:** To ask the Secretary of State for Health what the total wage cost of employing managers in the NHS was in the latest period for which figures are available; and what it was in 1997. [170597]

**Ann Keen:** Total costs of employing managers in the national health service in 2006-07 was £2,088 million. The total cost in 1997-98 was £912 million.

The figures include salaries and wages, national insurance and pension contributions. It is not possible to identify wages alone.

*Source:*

Annual financial returns of health authorities and NHS trusts 1997-98.

Annual financial returns of strategic health authorities, primary care trusts and NHS trusts 2006-07.

Data do not include NHS foundation trusts in 2006-07.

## NHS: Overseas Visitors

**Bob Russell:** To ask the Secretary of State for Health (1) what estimate he has made of the number of *(a)* people and *(b)* children who would be denied access to medical care if the proposal to exclude overseas visitors from eligibility to free NHS primary medical services is implemented; and if he will make a statement; [173373]

(2) what assessment he has made of the likely effect on the incidence of communicable diseases in the general population if the proposal to exclude overseas visitors from eligibility to free NHS primary medical services is implemented; and if he will make a statement; [173374]

(3) if he will publish all the written responses received by his Department to the consultation on the proposal to exclude overseas visitors from eligibility to Free NHS primary medical services; [173375]

(4) when he plans to publish the results of the consultation on the proposal to exclude overseas visitors from eligibility to free NHS primary medical services. [173376]

**Dawn Primarolo:** The responses to the 2004 consultation are being considered.

No estimation has yet been made of the potential impact on people and children.

All current regulations will take into account the key preventative and public health role of NHS primary care as well as international law and humanitarian principles.

## Northern Lincolnshire and Goole Hospitals NHS Trust: Waiting Lists

**Shona McIsaac:** To ask the Secretary of State for Health what the *(a)* average and *(b)* maximum waiting times for (i) inpatient and (ii) daycase admissions were in Northern Lincolnshire and Goole NHS Foundation Trust in each of the last four quarters for which figures are available. [172519]

**Ann Keen:** The information requested has been set out in the following table.

*Patient waiting for elective admission at Northern Lincolnshire and Goole NHS Foundation Trust*

| | Quarter | Admission type | Total waiting list | Maximum weeks | Median wait (weeks) |
|---|---|---|---|---|---|
| 2006-07 | Q3 | Ordinary | 1,364 | 25 to <26 | 7.8 |
| | Q3 | Daycase | 4,773 | 25 to <26 | 6.2 |
| | Q4 | Ordinary | 1,210 | 19 to <20 | 5.9 |
| | Q4 | Daycase | 4,231 | 19 to <20 | 4.8 |
| 2007-08 | Q1 | Ordinary | 1,078 | 19 to <20 | 6.0 |
| | Q1 | Daycase | 4,138 | 19 to <20 | 4.5 |
| | Q2 | Ordinary | 927 | 16 to <17 | 5.4 |
| | Q2 | Daycase | 3,541 | 16 to <17 | 4.0 |

*Notes:*

1. The average waiting times given are estimated from quarterly Korner returns (KH07) submitted by NHS providers to the Department of Health.
2. The figures show the median waiting times for patients still waiting for admission at the end of the period stated. Inpatient waiting times are measured from decisions to admit by the consultant to admission to hospital.
3. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. Where there are low numbers of waiters the median is prone to fluctuations. This should be taken into account when interpreting the data.

*Source:*

Department of Health form KH07.

## Nurses: Pay

**Mike Penning:** To ask the Secretary of State for Health what estimate he has made of the average wage of nurses outside the NHS in *(a)* the last year for which figures are available and *(b)* 1997. [170657]

**Ann Keen:** No estimate has been made of the average wage of nurses outside the national health service in the last year for which figures are available and 1997. However, as part of its mandate, the independent NHS Pay Review Body compares NHS nurses' pay with others as part of its deliberations in making recommendations about pay uplifts for NHS nurses.

## Nurses: Standards

**Dr. Richard Taylor:** To ask the Secretary of State for Health what assessment he has made of the risk of increased patient infections if visits from specialist nurses are capped as proposed in his Department's consultation on Part IX of the Drug Tariff. [171197]

**Dawn Primarolo:** The proposal set out in the consultation document regarding remuneration for home visits is not intended to impact adversely on infection control but rather to increase the transparency and the quality of services.

No assessment has been made on the potential impact of these proposals on infection control but an impact assessment is being developed that will consider the social impact of them; this includes a health impact.

### Nutrition: Training

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health on what date the inter-agency round table group met to raise issues around training, as described on page 17 of his Department's document, Improving Nutritional Care; what issues were raised; whether further meetings of the inter-agency round table group are planned; which agencies are represented on the round table group; and if he will make a statement. [170065]

**Mr. Ivan Lewis:** The inter-agency round table group is chaired by the National Association for Care Catering and as such is independent of Government. The membership of the group and dates and contents of meetings are a matter for it to decide.

### Obesity

**Mr. Lansley:** To ask the Secretary of State for Health on what date he expects the cross-Government strategy to tackle obesity to be published. [172465]

**Dawn Primarolo:** The cross-Government strategy to tackle obesity will be published in January 2008.

### Paramedical Staff: Training

**Mike Penning:** To ask the Secretary of State for Health what his policy is on the use of *(a)* vocational training courses and *(b)* degree-level courses to train paramedics; and if he will make a statement. [170548]

**Ann Keen:** The Department is working with partners to consider the options for educating a workforce that will achieve the aims set out in the national ambulance strategy. Strategic health authorities working with their ambulance trust and education partners are best placed to determine the best way to educate their workforce teams to meet local needs.

### Patients: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health in what ways his Department has supported BAPEN's screening initiative, as referred to on page 14 of his Department's document, "Improving Nutritional Care". [170066]

**Dawn Primarolo:** The Department has supported the British Association Parental and Enteral Nutrition's National Screening Week by distributing information in advance of the initiative to health and social care organisations encouraging hospitals and care homes to take part in the exercise.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health pursuant to the answer of 30 October 2007, *Official Report*, column 1244W, on patients: nutrition, what the barriers to nutritional screening in hospitals identified in the two workshops hosted by the National Patient Safety Agency (NPSA) were; in what ways the NPSA asked patients for their views on nutritional care in hospitals; what views were expressed by patients; and if he will provide a breakdown of the committed expenditure provided in the answer by major cost area. [170114]

**Ann Keen:** The following barriers to nutritional screening within 24 hours of admission to hospital were identified by the National Patient Safety Agency (NPSA) at the two workshops: lack of equipment, weighing scales and height measures; lack of leadership; lack of clarity relating to screening and assessment; dependency of patients; credibility and usability of available screening tools; lack of education and training for medical and nursing staff and that it is not mandatory.

The NPSA hosted two patient participation meetings in early 2007 to gain their views of nutritional care in hospitals. 27 patient representatives either nominated by Age Concern or recruited from the NPSA patient participation register attended these meetings. All of the participants had been hospital inpatients in the last two years. The meetings were facilitated externally.

The patient participation meetings discussed the patients' experience of hospital food and focused in more detail on nutritional screening. Perhaps the most surprising finding of these workshops was that participants did not generally complaint about the quality of the food. Many, indeed, said that it was very reasonable or even good.

Several commented that hospital food had improved beyond all recognition, noting earlier experiences when the food had been inedible. There was a concern to acknowledge this improvement, one commented:

> "it used to be cold fish and stale cabbage smells—you don't get that now".

There were some issues raised relating to the availability and choice for some patient groups, specifically diabetics and people on a halal diet.

There were considerable complaints about the way the food was served. The tendency for the food to be plated before reaching patients in some hospitals was disliked, as some people got too much, which was then wasted, and others did not get enough and went hungry.

Getting food delivered was seen as the start. It must be possible for patients to reach it and then to be able to eat it. This is clearly not always the case. Sometimes food was put out of reach, so that someone had to move it closer to a patient. A number of participants recounted that they or others were unable to eat without help due to problems associated with their illness.

Participants were asked if they had been aware of being screened while in hospital. Some were aware of being weighed, but not much else. Several said that they had lost substantial amounts of weight, but no one asked them about it. A few were aware of their height being checked. Very, very few remembered being asked any questions about what they ate, although some Asian participants had been asked about this and one person remembered being asked if he was diabetic.

The costs of the workshops were £2,500. The balance is an approximation of the staff and non-pay costs associated with supporting this work and the work with the Royal College of Nursing.

### Peterborough and Stamford Hospitals NHS Foundation Trust: Orthopaedics

**Mr. Stewart Jackson:** To ask the Secretary of State for Health what the average waiting time was for elective orthopaedic surgery in the Peterborough and Stamford Hospitals NHS Trust in each of the last 10 years; and if he will make a statement. [167881]

**Mr. Ivan Lewis:** Information is not available for elective orthopaedic surgery alone at Peterborough and Stamford Hospital National Health Service Foundation Trust. The following table shows the in-patient waiting list statistics for the trauma and orthopaedic specialty for the Peterborough and Stamford NHS Hospital Foundation Trust.

| *Time period—month ending* | *Median waiting time of patients still waiting for in-patient admission (in weeks)* |
|---|---|
| March 1997 | 11.6 |
| March 1998 | 18.1 |
| March 1999 | 14.0 |
| March 2000 | 18.0 |
| March 2001 | 17.3 |
| March 2002 | 14.2 |
| March 2003 | 15.8 |
| March 2004 | 13.0 |
| March 2005 | 10.5 |
| March 2006 | 8.6 |
| March 2007 | 15.0 |
| September 2007 | 12.1 |

*Notes:*

1. Elective orthopaedic surgery, is only a subset of trauma and orthopaedic specialty which is collected on the return.
2. The figures show the median waiting times for patients still waiting for admission at the end of the period stated. Inpatient waiting times are measure from decision to admit by the consultant to admission to hospital.
3. Median waiting times are calculated from aggregate data, rather than patient level data, and therefore are only estimates of the position on average waits. In particular, specialties with low numbers waiting are prone to fluctuations in the median. This should be taken into account when interpreting the data.

Department of Health KH07 Quarterly Monitoring

### Peterborough District Hospital: Alcoholic Drinks

**Mr. Stewart Jackson:** To ask the Secretary of State for Health how many alcohol-related admissions to the accident and emergency department of Peterborough District Hospital by the East of England NHS Ambulance Trust and other agencies there were in each month since May 2005; and if he will make a statement. [168863]

**Mr. Ivan Lewis:** Information is not available in the format requested. However, the following table shows the count of finished admission episodes where the admission method was via accident and emergency (A and E) for alcohol related diagnosis to Peterborough and Stamford NHS Foundation Trust for each month from April 2005 to March 2006 (which is the latest data available):

| *Month of admission* | *Total admission episodes* |
|---|---|
| April | 66 |
| May | 45 |
| June | 66 |
| July | 58 |
| August | 63 |
| September | 60 |
| October | 63 |
| November | 66 |
| December | 58 |
| January | 55 |
| February | 36 |
| March | 49 |
| Total: | 685 |

*Notes:*

*Finished admission episodes*

A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

*Data Quality*

HES are compiled from data sent by over 300 national health service trusts and primary care trusts in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.

*All diagnoses count of episodes*

These figures represent a count of all Finished Consultant Episodes where the diagnosis was mentioned in any of the 14 (seven prior to 2002-03) diagnosis fields in a HES record. ICD10 Diagnosis codes used: K70,T51,F10.

*Source:*

Hospital Episode Statistics (HES), the Information Centre for health and social care

### Pregnancy Complications

**Mike Penning:** To ask the Secretary of State for Health how many diagnoses of ectopic pregnancy there have been in each year since 1997-98. [174018]

**Ann Keen:** Information is not available in the exact format requested. The following table has the number of ectopic pregnancies that resulted in a stay in a national health service hospital for each year since 1997-98.

*Ectopic pregnancies that resulted in an NHS hospital stay, England, 1997-98 to 2005-06*

| | *Number of ectopic pregnancies* | *Rate per 100 deliveries* |
|---|---|---|
| 1997-98 | 9,300 | 1.6 |
| 1998-99 | 9,100 | 1.6 |
| 1999-2000 | 8,900 | 1.6 |
| 2000-01 | 9,100 | 1.7 |
| 2001-02 | 8,800 | 1.6 |
| 2002-03 | 8,800 | 1.6 |
| 2003-04 | 9,000 | 1.6 |
| 2004-05 | 9,200 | 1.5 |
| 2005-06 | 9,600 | 1.6 |

*Source:*

NHS Maternity Statistics, England: 2005-06, Hospital Episode Statistics.

### Pressure Sores

**Mr. Burstow:** To ask the Secretary of State for Health what data are routinely collected by *(a)* the Commission for Social Care Inspection and *(b)* the Healthcare Commission on the prevalence and severity of bed sores. [172554]

**Mr. Ivan Lewis:** Under regulation 37 of the Care Homes Regulations 2001, care home providers are required to notify the Commission for Social Care Inspection (CSCI) of instances of 'death, illness and other events'. We are informed by CSCI that it has defined 'other events' as including notification of pressure sores of grade 2 or above occurring while resident in a care home, as these constitute a serious injury to the service user. Where such cases occur, providers must inform CSCI immediately (by fax, e-mail or first class post).

These data are used for the purposes of intelligence gathering. Inspectors will note the number of instances reported and make a judgement about whether to specifically include this as a focus at next inspection. Where information gathered, including concerns about the incidence of pressure sores in a particular home, indicates any serious risk to the experience of people living there, inspectors may bring forward an inspection programme or conduct an unannounced inspection. This information is collected and used locally by CSCI and is not collated centrally.

Information about pressure sores is not routinely collected by the Healthcare Commission.

### Provider of Care Services

**Mr. David Anderson:** To ask the Secretary of State for Health (1) whether there are plans to review the Commission for Social Care Inspection's current practice of referring complaints from members of the public about a care provider back to the provider; how many complaints about a provider of care services are required before an inspection is triggered; and what assessment he has made of any changes in the role of the Commission for Social Care Inspection; [172053]

(2) if he will make it his policy that the Commission for Social Care Inspection should have to make an additional inspection of a care home assessed as requiring a three yearly inspection in cases where there have been significant levels of staff turnover. [172165]

**Mr. Ivan Lewis:** We have no plans to review the Commission for Social Care Inspection's role in complaints. We are informed by the Chair of the Commission for Social Care Inspection (CSCI) that the threshold for intervention by CSCI is not measured uniquely in terms of the number of complaints about a provider. It is one of a number of factors that CSCI take into account.

CSCI has developed, through the inspection methodology, "Inspecting for Better Lives", a proportionate inspection framework based on risk. This enables CSCI to focus its resources on those homes that have been assessed as requiring the most improvement. Minimum inspection frequencies are based on quality ratings as follows:

homes classified as 'poor' receive two key inspections per year;

homes classified as 'adequate' receive one key inspection per year;

homes classified as 'good' receive one key inspection every two years; and

homes classified as 'excellent' receive one key inspection every three years;

Even when a home is judged to be 'good' or 'excellent', it will continue to be monitored throughout the period and CSCI will act on any concerns, complaints or allegations. In addition to key inspections, which are thorough, detailed inspections, under which CSCI will assess all of the key national minimum standards, CSCI also carries out random and 'thematic' inspections, which are short, focused inspections on a specific theme or area.

Annual Service Reviews are also conducted from information obtained from the home and a report produced on an annual basis. Reviews are an analysis of all information that CSCI has gathered since the last key inspection, information submitted each year from the service itself and information from surveys sent to people who use the service and other interested parties. The assessment will consider matters such as staff turnover; if any concerns are raised about how well outcomes are being met for the people who use the services, or if CSCI receives information that causes concern between reviews, it will bring forward the date of the key inspection of the service. CSCI retains the power to conduct an inspection of any home at any time.

### Ritalin: Children

**Mr. Spring:** To ask the Secretary of State for Health how many children in *(a)* the East of England and *(b)* Suffolk were prescribed Ritalin in each of the last five years. [169570]

**Mr. Ivan Lewis:** Information is not collected in the format requested. In March 2006, the National Institute for Health and Clinical Excellence (NICE) published guidance on the use of all drugs used to treat attention deficit hyperactivity disorder (ADHD). They estimated that around 5 per cent. of school-aged children meet the diagnostic criteria for ADHD, equivalent to 366,000 children and adolescents in England and Wales, but not all these children will require medication.

We have also asked NICE to develop a clinical guideline on both the pharmacological and psychological interventions to treat ADHD. The guideline will cover the care provided by primary, community and secondary health care professionals who have direct contact with, and make decisions concerning, the care of children, young people and adults with ADHD.

The guideline will include:

care in general practice and national health service community care;

hospital out-patient and in-patient care;

primary/secondary interface of care and

transition from childhood services to adult services.

Publication of the guideline is expected in July 2008.

### Skin Cancer: Health Education

**Mr. Lansley:** To ask the Secretary of State for Health how much his Department has allocated to the Sunsmart campaign in each year from 2007-08 to 2010-11. [172467]

**Dawn Primarolo:** Cancer Research UK, which runs the SunSmart campaign on behalf of the United Kingdom Health Departments, has been awarded funding of £104,000 for 2007-08 by the Department (under the provisions of section 64 of the Health Services and Public Health Act 1968). Provisionally and subject to the availability of funds approved by Parliament it has also been awarded £110,000 for 2008-09, and £115,000 for 2009-10.

### Social Services: Expenditure

**Mr. Lansley:** To ask the Secretary of State for Health for what reason expenditure on grants for adult personal social services in 2006-07 was £267 million less than the plans set out in his Department's 2006 annual report. [167829]

**Mr. Ivan Lewis:** The Department's 2006 annual report set out expenditure on grants for adult personal social services in 2006-07 of £1,688.8 million. Of this, £1,590.4 million was revenue grants and £98.4 million was capital resources including Supported Capital Expenditure (Revenue).

The Specific Grant Resources allocated by the Department in 2006-07 totalled £1,644 948 million. Of this, £1,596.848 million was allocated to revenue grants. This is £6.485 million, higher than the resources allocated in the annual report, due to this sum being made available to fund new pressures from the Mental Capacity Act and Independent Mental Capacity Advocate Service. £48.1 million was allocated to specific capital grants and a further £50.3 million of capital funding was allocated to Supported Capital Expenditure (Revenue). Total capital expenditure was £98.4 million, as set out in the annual report.

### Social Services: Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health if he will place in the Library the report of the review by the Social Care Funding Group. [164613]

**Mr. Ivan Lewis:** The review of social care funding, led by Her Majesty's Treasury, was an internal Government exercise and therefore the report is not available in the public domain.

### Social Services: Inspections

**Mr. David Anderson:** To ask the Secretary of State for Health how many providers of adult social care services are regulated by the Commission for Social Care Inspection; and what proportion of all providers of adult social care services regulated by the Commission for Social Care Inspection have had their assessment level changed from 3 to 1 as a result of an inspection since 1st April 2006. [172107]

**Mr. Ivan Lewis:** The number of adult care services registered with the Commission for Social Care Inspection (CSCI) on 9 November 2007 was 24,405.

The number of services that remained active in the period from 1 April 2006 until 9 November 2007 is 21,257. Of these, 236 services that had a quality rating of level 3 on 1 April 2006 were then at rating level 1 on 9 November 2007. This is a proportion of 0.0111 (a percentage of 1.11 per cent.) of the services active between both dates.

### Social Services: Personal Records

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what social care information the Information Centre for Health and Social Care has identified as being relevant at a *(a)* national and *(b)* local level, as stated on the our priorities for 2007-08 section of its website; and what progress the Information Centre has made in (i) providing a forum for sharing good practice across information specialists in social care, (ii) forging greater integration of social care and health information, (iii) setting appropriate standards for social care data collection and (iv) producing a publication on the state of the nation using all the Information Centre's sources of data on social care and other sources as appropriate. [170499]

**Mr. Ivan Lewis:** The publication of the New Performance Framework, for Local Authorities and Local Authority Partnerships, in October, has led to a review of all the Information Centre for Health and Social Care's (IC) social care data, with a view to establishing which social care information is used at national and/or at local level.

The IC is currently engaging with stakeholders to establish a National Information and Intelligence Service. This will make better use of the extensive information resource available in locally managed systems and will provide the basis for integrated information in health and social care during 2008.

Social care data collections undertaken by the IC are subject to stringent standards which are regularly reviewed and revised by the Strategic Information Group for Adult Social Care. A specific work programme has been established to review these and other arrangements for setting standards (by March 2008). A decision has been taken for the Information Standards Board, which currently operates across the national health service, to extend its remit to cover social care.

The State of the Nation report will be available by the end of March 2008. It will outline the IC's social care data and set out a work programme for 2008-11.

### Sport

**Mr. Allen:** To ask the Secretary of State for Health (1) how many officials in his Department work on policy on encouraging mass participation in sport.; [172845]

(2) what changes in the allocation of responsibilities for policy on sport between the Department for Culture, Media and Sport and his Department have taken place since he became Secretary of State; [172846]

(3) how much his Department plans to spend on encouraging mass participation in sport in 2007-08. [172847]

**Dawn Primarolo:** The Department has an important role in promoting the benefits of physical activity for all as set out in the Chief Medical Officer's report 'At least five a week: Evidence on the impact of physical activity and its relationship to health'. We have worked closely with other Government Departments, including the Department for Culture Media and Sport, the Department for Children, Families and Schools and the Department for Transport to deliver the existing strategy for physical activity set out in 'Choosing Activity: a physical activity action plan'.

While competitive sport contributes significantly to physical activity levels across the population, encouraging mass participation in sport has hitherto fallen within the remit of Sport England.

HM Treasury has asked the Secretary of State for Culture, Media and Sport, to develop a new strategy for Sport England. Ministers have also agreed to work closely over the next few months to ensure that all relevant Government Departments are working together to deliver a physical activity strategy for all. Any changes in responsibilities for policy on physical activity, including the promotion of mass participation in sport, would emerge from this work.

The Department has no plans to fund work to encourage mass participation in sport in 2007-08. However, we are providing funding of £97,000 to the Amateur Swimming Association under the section 64 Scheme of Grants for a project that promotes swimming for health.

## STDs

**Mr. Vara:** To ask the Secretary of State for Health pursuant to the answer of 3rd December 2007, Official Report, column 1015W, on sexually transmitted diseases, if he will break down the figures supplied by age-group. [173070]

**Dawn Primarolo:** The information requested for genitor urinary clinics (GUM) is published by age bands in 'Diagnoses and rates of selected STIs seen in GUM clinics: 2002-2006 National and Strategic Health Authority Level Summary tables'. A copy has been placed in the Library. Similar information for the national chlamydia screening programme has also be placed in the Library.

## Surgery: Eastern Region

**Mr. Ruffley:** To ask the Secretary of State for Health how many NHS operations were cancelled in each primary care trust in the east of England as a result of *(a)* administrative errors, *(b)* shortages of beds, *(c)* outbreaks of MRSA or other hospital-acquired infections, *(d)* unavailability of correct or clean equipment and *(e)* missing notes in each year since 1997. [170128]

**Mr. Ivan Lewis:** The information is not held in the format requested. The Department collects data on the number of operations cancelled at the last minute for non-clinical reasons for acute trusts in the east of England for the period 1997-98 to 2006-07 and the first quarter of 2007-08. The following table shows data for the number of operations cancelled for non-clinical reasons, national health service organisations in the east of England, 1997-98 to 2006-07 and the first quarter of 2007-08.

*Cancelled operations for non clinical reasons: NHS organisations in East of England, 2001-02 to 2006-07 and quarter 1 2007-08*

| | | *Number of last minute cancellations for non clinical reasons* | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| *Organisation identification* | *Name* | *1997-98* | *1998-99* | *1999-2000* | *2000-01* | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* | *2007-08 quarter 1* |

| QEQ | West Hertfordshire HA | 142 | 255 | 214 | 425 | | | | | | | |

*Notes*

1. The table shows the organisations as they existed, at the time of each collection.
2. A last minute cancellation is one that occurs on the day the patient was due to arrive, after they have arrived in hospital or on the day of their operation.
3. Some common non-clinical reasons for cancellations by the hospital include: ward beds unavailable; surgeon unavailable; emergency case needing theatre; theatre list over-ran; equipment failure; admin error; anaesthetist unavailable; theatre staff unavailable; and critical care bed unavailable.
4. An operation which is rescheduled to a time within 24 hours of the original scheduled operation should be recorded as a postponement and not as a cancellation. The QMCO collection does not record the number of postponements.

*Source:* Department of Health dataset QMCO

## Tobacco: Vending Machines

**Mr. Jenkins:** To ask the Secretary of State for Health when he last held discussions with the National Association of Cigarette Machine Operators. [173268]

**Dawn Primarolo:** Departmental officials last met with the National Association of Vending Machine Operators in June 2007, and have plans to meet with the organisation again in February 2008.

## Wheelchairs: Waiting Lists

**Richard Younger-Ross:** To ask the Secretary of State for Health what the *(a)* longest and *(b)* average waiting time for electric wheelchair provision was in the last 12 months; and what steps he is taking to reduce waiting times. [172888]

**Mr. Ivan Lewis:** The information requested is not held centrally.

With regard to waiting times, it is the responsibility of local health and social care organisations to prioritise and allocate funding for wheelchairs based on their knowledge of the needs of their local populations. To support this process the Government recently announced, through the comprehensive spending review, that local authority funding will increase by £2.6 billion by 2010-11 and national health service funding will increase from £35 billion in 1997-98 to £110 billion in 2010-11.

As part of the Transforming Community Equipment and Wheelchair Services Programme the Department has been working collaboratively with service users and carers to develop a new model which will deliver an improved experience for the people who need equipment and wheelchairs, as well as those who care for them. The Department is currently undertaking a data collection process to develop a business case for change. The analysis of the information gathered has begun and a report will be provided in December.

## COMMUNITIES AND LOCAL GOVERNMENT

### Business: Non-Domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the aggregate yearly additional revenue that would be raised were every local authority in England with the power to levy a supplementary rate to levy the maximum supplementary business rate. [171601]

**John Healey:** An estimate of the aggregate yearly additional revenue by region that would be raised were every local authority in England with the power to levy a business rate supplement to levy the maximum business rate supplement is published in Table 3.4 of 'Business rate supplements: a White Paper'. This is available on the Communities and Local Government website at the following link:

http://www.communities.gov.uk/publications/localgovernment/504933

### Council Housing: Debts

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what the historic debt outstanding against council house construction was in each year since 1990 in *(a)* cash terms and *(b)* as a proportion of the public sector borrowing requirement; and what the projection for these figures is, including borrowing supported by arms-length management organisations. [165566]

**Mr. Iain Wright:** Data on historic debt outstanding against council house construction are not available, as local authorities do not differentiate the uses to which their capital borrowing for housing is put between, for instance, new build, capital repairs, capital improvements or refurbishments.

The net amount of borrowing on council housing since 1993-94, as well as the proportion of public sector net borrowing that this represents for each year, is set out in the following table. Net, rather than gross figures are given for the value of housing debt in order to provide a comparison with the measure of public sector borrowing—this is expressed as a net figure and is negative where debt repayment exceeds borrowing for that year.

| | *HRA Borrowing £* | *Public sector net borrowing PSBN £* | *HRA Borrowing/PSBN Percentage* |
|---|---:|---:|---:|
| 1993-94 | 347,455,678 | 51,054,000,000 | 0.68 |
| 1994-95 | 431,792,337 | 43,271,000,000 | 1.00 |
| 1995-96 | 170,209,016 | 34,713,000,000 | 0.49 |
| 1996-97 | -435,801,552 | 27,170,000,000 | 1.60 |
| 1997-98 | 504,249,410 | 6,374,000,000 | 7.91 |
| 1998-99 | -678,146,182 | 4,017,000,000 | 16.88 |
| 1999-2000 | 542,751,024 | 16,251,000,000 | 3.34 |
| 2000-01 | 880,453,782 | 19,896,000,000 | 4.43 |
| 2001-02 | -14,679,989 | 921,000,000 | 1.59 |
| 2002-03 | 1,166,619,645 | 24,916,000,000 | 4.68 |
| 2003-04 | 2,415,662,009 | 34,094,000,000 | 7.09 |
| 2004-05 | -1,120,419,927 | 39,189,000,000 | 2.86 |
| 2005-06 | 418,022,901 | 37,516,000,000 | 1.11 |
| 2006-07 | 1,212,183,164 | 35,848,615,071 | 3.38 |

Notes:

1. From 2001-02 onwards the Department did not collect data on local authority borrowing for council housing from those authorities with no notional housing debt (used in calculating HRA subsidy entitlement).
2. Negative housing debt is an indication that housing authorities were repaying more debt than they were incurring. Negative PSBN is occasionally negative for the same reason but at a national level.
3. The figures are unaudited and based on claims submitted by local authorities.
4. Pre 1993-94 data is only available at disproportionate cost.
5. 2007-08 data is not available as the financial year is not finished yet.
6. Projections for future years are not available.

### Council Tax

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the annual percentage change in average Band D council tax was in England in real terms in each year since its introduction. [171584]

**John Healey:** Details of the annual percentage change in the average Band D, 2 adult, council tax in England, in real terms, since the introduction of council tax can be found on page eight of the Communities and Local Government's publication 'Local Government Finance Key Facts : England' that was published on 14 November.

A copy can be found on the Communities and Local Government's website at:

http://www.local.communities.gov.uk/finance/stats/keystats/key2007.pdf

### Council Tax: Renewable Energy

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the presence of ground source heat pumps would be taken into account in the valuation of a property for council tax purposes by the Valuation Office Agency. [173313]

**John Healey:** Provisions in the Council Tax (Alterations of Lists and Appeals) Regulations 1993, which have been in force since council tax was introduced, mean that adding energy efficient measures, such ground source heat pumps, or making any other improvements to a property will have no effect on its current council tax banding.

If a property is sold, improvements may have an effect, but only if they are such that they push the value of the property into the next band range. Only substantial improvements would be likely to move a property up a band when it is sold. Energy efficiency measures are, in isolation, unlikely to do so.

### Councillors' Commission: Secondment

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many full-time equivalent civil servants from her Department are seconded to the Councillors' Commission. [171637]

**Mr. Dhanda:** Communities and Local Government allocated four full-time equivalent staff to run the Secretariat of the Councillors Commission over the period April to the end of November.

### Departmental Parliamentary Questions

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of her Department's internal guidance on *(a)* answering written parliamentary questions and *(b)* ministerial corrections to oral and written parliamentary questions. [174460]

**Mr. Dhanda:** The Department's guidance on writing answers to parliamentary questions has been deposited in the Library of the House.

The Leader of the House made a written ministerial statement on "Corrections to the Official Report" on 18 October 2006, *Official Report*, column 1856WS. At the same time, my right hon. Friend issued guidance to Departments a copy of which was deposited in the Library of the House. Communities and Local Government follow that guidance for any ministerial corrections to oral and written parliamentary questions.

**Andrew Mackinlay:** To ask the Secretary of State for Communities and Local Government when she expects to reply to Question 165129, on the Thames Gateway Forum tabled by the hon. Member for Thurrock on 13 November 2007. [174340]

**Yvette Cooper:** I have now replied to my hon. Friend's question.

### EU Grants and Loans: North West Region

**Jim Cousins:** To ask the Secretary of State for Communities and Local Government on what date the European Commission suspended approval for European Regional Development Fund payments to the Government Office North West and Government Office North East; when those suspensions were lifted; and what interim transitional payments were made to those regions by the Government. [172842]

**John Healey** *[holding answer 11 December 2007]*: The European Commission suspended ERDF grant payments to the North West Objective 1 and Objective 2 programmes, and the North East Objective 2 programme on 11 April 2007. The temporary suspension was formally lifted for the North East and North West Objective 1 programmes on 11 September 2007. In the case of the North West Objective 2 programme we are carrying out urgent further work to re-assure the Commission before a final decision is taken. I have also met with Commissioner Hubner and held a further discussion with her to offer the reassurance that we are taking all steps possible to deal with the Commission's concerns.

The Government are continuing to pay all ERDF projects where eligible claims are made.

### Floods

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether she plans to revise Regional Spatial Strategies' flood risk assessments, in light of *(a)* recent flooding, *(b)* climate change and *(c)* the Lessons Learned review. [173306]

**Mr. Dhanda:** Planning Policy Statement 25 (PPS25) was published in December 2006 to provide stronger planning policy on development and flood risk. It incorporates the latest forecasts of climate change. It also requires regional planning bodies to ensure their regional spatial strategies include a broad consideration of flood risk from all sources and set out a strategy for managing it. This process is informed by regional flood risk appraisals (RFRAs), which are based on the most up to date information on flood risk. RFRAs should be updated in line with future revisions of the regional spatial strategy. We will be taking careful note of the recommendations of Sir Michael Pitt's review of the lessons learned from the summer floods, and will be looking at whether any of the detail of PPS25 needs to be revised.

### Housing: Renewable Energy

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate the Valuation Office Agency has made of the number of domestic dwellings with *(a)* wind turbines and *(b)* solar panels. [173296]

**John Healey:** No such estimate has been made.

### Local Government Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the changes in local authority expenditure on adult social services expected to result from demographic change over the next three years. [171629]

**Mr. Ivan Lewis:** I have been asked to reply.

The local government settlement and the scope to deliver efficiency gains is sufficient to cover increases in demand on social care. The settlement is informed by an analysis of all cost pressures, including modelling of demographic changes within the age group 18-65 years and people over 65 years.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) what proportion of the £5 billion reduction in ring-fenced and specific grants by 2010-11 will be re-allocated to *(a)* revenue support grant and *(b)* area-based grant; [173314]

(2) what proportion of the reduction in ring-fencing by 2010-11 will be achieved by transferring specific grants to *(a)* revenue support grant and *(b)* area based grant tied into Local Area Agreements. [173331]

**John Healey:** By 2010-11, £5.6 billion of former specific grant funding will be moving to either formula grant or area based grant. The £5.6 billion is comprised of £0.9 billion re-allocated to formula grant and £4.7 billion being provided as area based grant.

### Local Government Finance: Herefordshire

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government when she plans to announce the local government funding settlement for Herefordshire council; and if she will make a statement. [170872]

**John Healey:** I announced to the House the provisional settlement for English local authorities, including Herefordshire, on 6 December, *Official Report*, column 981.

### Non-Domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate the Government has made of the expected yearly increase in business rate receipts if a supplementary business rate were introduced. [173318]

**John Healey:** Revenue from business rate supplements would be retained by the individual local authorities who levy them so will not increase business rate receipts to the national non-domestic rating pool.

### Ordnance Survey

**Mr. Prisk:** To ask the Secretary of State for Communities and Local Government for what reason her Department paid £2,260,000 to Ordnance Survey in 2006-07. [172476]

**Mr. Iain Wright:** The Department did not pay Ordnance Survey such a sum in 2006-07. The Department did receive a similar sum from Ordnance Survey in 2007-08 by way of an additional receipt, as part of the Department's agreed dividend policy with Ordnance Survey.

### Planning Permission: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether her Department is providing guidance to local authorities following the ruling of the Information Tribunal upholding the complaint by Mr. David Markinson on unreasonable costs for photocopying building control and planning application information. [173342]

**Mr. Iain Wright:** The Government issued guidance in November 2003 "General Power for Best Value Authorities to Charge for Discretionary Services — Guidance on the Power in the Local Government Act 2003" which sets out discretionary charges which local authorities can charge for some of their services. However, the specific issue of photocopying charges is not covered in this guidance.

The Government have no plans to issue new guidance as a result of the ruling of the Information Tribunal.

### Planning: Parking

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the Government's recommended maximum limit is on the number of parking spaces for new residential developments, following the publication of Planning Policy Statement 3. [173315]

**Mr. Iain Wright:** The Government do not prescribe car parking standards or maximum limits for new residential development. Rather, Planning Policy Statement 3 "Housing" introduced a more flexible approach to the local provision of car parking by giving local planning authorities the ability to set their own residential parking policies, taking account of expected levels of car ownership, the importance of promoting good design and the need to use land efficiently.

### Preventing Violent Extremism Pathfinder Fund: Grants

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government how many grants have been made from the Preventing Violent Extremism Pathfinder Fund to each local authority since the fund was established; and what the average size of grant was. [173983]

**Mr. Dhanda:** My right hon. Friend the Secretary of State shall be writing shortly to the hon. Member with a list of projects funded under the Preventing Violent Extremism Pathfinder fund. This will also provide an overview of financial allocations. A copy of this document will be placed in the Library of the House.

### Regeneration: Finance

**Jim Cousins:** To ask the Secretary of State for Communities and Local Government what sums the Bridging Newcastle Gateshead Pathfinder have requested to support regeneration in the west of Newcastle. [172612]

**Mr. Iain Wright:** Bridging Newcastle Gateshead has submitted its Business Plan for 2008 to 2011 to the Department and the Plan is now being considered. The Plan does not provide details of how funding will be allocated to specific localities within the Pathfinder area.

### Sleeping Rough: Immigrants

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the increase in rough sleeping in London arising from changes in the immigration from east European nations following EU enlargement. [171604]

**Mr. Iain Wright:** Local authorities who conduct rough sleeper counts collect information on any individuals sleeping rough who do not have recourse to public funds and are therefore unable to be moved off the streets. These will include those from EU accession states.

In 2007, four London boroughs reported eastern European rough sleepers as part of their street count:

Westminster: 112 rough sleepers including 20 eastern Europeans;

City of London: 45 rough sleepers including five eastern Europeans;

Lambeth: 15 rough sleepers including three eastern Europeans;

Redbridge: five rough sleepers including two eastern Europeans.

There has been major progress in tackling the worst form of homelessness, that of people sleeping on the streets. Since 1998 we have reduced rough sleeping by 73 per cent. Councils will receive at least £150 million over the next three years to help them prevent and tackle homelessness including rough sleeping. This is the biggest ever cash injection for homelessness services.

We are funding Homeless Link to take forward targeted work to address homelessness among eastern Europeans. This involves both work with voluntary organisations, particularly in London, and organisations in the source countries to facilitate returns.

### Small Businesses: Tax Allowances

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the estimated take-up rate is of small business rate relief in England. [171708]

**John Healey:** The information requested is not held centrally and could be provided only at disproportionate cost.

### Social Rented Housing: Finance

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what the total financial contribution from the public purse to registered social landlords was in each year since 1997; and how much of this was spent on *(a)* building new social homes and *(b)* meeting the decent homes standard for homes on their stock. [164963]

**Mr. Iain Wright:** The following table shows public expenditure through the Housing Corporation's programmes between 1997-98 to 2006-07 broken down by that provided for social rented homes (both new build and acquisition and refurbishment) and works to RSL stock.

*£ million*

| | *Total public expenditure via Housing Corporation by RSLs* | *Of which Provision of social housing* | *Major repairs and works to RSL stock* |
|---|---|---|---|
| 1997-98 | 727 | 519 | 66 |
| 1998-99 | 732 | 580 | 40 |
| 1999-2000 | 815 | 706 | 34 |
| 2000-01 | 830 | 680 | 60 |
| 2001-02 | 823 | 668 | 63 |
| 2002-03 | 1,030 | 800 | 43 |
| 2003-04 | 1,805 | 1,258 | 54 |
| 2004-05 | 1,624 | 1,078 | 47 |
| 2005-06 | 1,598 | 933 | 35 |
| 2006-07 | 1,923 | 1,433 | 38 |

RSLs are registered with and regulated by the Housing Corporation. The regulatory code, requires them to meet the Decent Homes Standard by 2010. RSLs are expected to meet the cost of decent homes from within their own resources.

### Stakeholder

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what her Department's definition is of a stakeholder. [171569]

**Mr. Dhanda:** I refer the hon. Member to the Oxford English Dictionary, a copy of which is available in the Library of the House. It says

"a person with an interest or concern in something".

### Tamworth Borough Council: Finance

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government (1) how much was spent by Tamworth borough council in each of the last four financial years; [165760]

(2) what revenue Tamworth borough council received from *(a)* Government grants, *(b)* (i) domestic and (ii) non-domestic council tax, *(c)* the sale of assets and *(d)* other sources in each of the last four financial years. [165772]

**John Healey:** The gross expenditure, comprising capital and cost of services revenue (the latter excluding appropriations, interest and other accounting adjustments) of Tamworth borough council was:

| | *£ million* |
|---|---|
| 2003-04 | 56.08 |
| 2004-05 | 58.317 |
| 2005-06 | 64.88 |
| 2007-08 | 59.311 |

Tamworth borough council's revenue from Government grants was:

| | *£ million* |
|---|---|
| 2003-04 | 10.468 |
| 2004-05 | 18.361 |
| 2005-06 | 20.2 |
| 2006-07 | 19.38 |

Tamworth borough council's revenue from domestic council tax was:

| | *£ million* |
|---|---|
| 2003-04 | 2.383 |
| 2004-05 | 2.57 |
| 2005-06 | 2.726 |
| 2006-07 | 2.865 |

Tamworth borough council's revenue from National non-domestic rates redistribution was:

| | *£ million* |
|---|---|
| 2003-04 | 2.603 |
| 2004-05 | 2.031 |
| 2005-06 | 2.141 |
| 2006-07 | 5.227 |

Tamworth borough council's revenue from sale of assets was:

| | *£ million* |
|---|---|
| 2003-04 | 9.18 |
| 2004-05 | 8.351 |
| 2005-06 | 6.066 |
| 2006-07 | 5.849 |

Tamworth borough council's revenue from 'any other source' (comprising rents, fees and charges) was:

| | *£ million* |
|---|---|
| 2003-04 | 31.446 |
| 2004-05 | 27.004 |
| 2005-06 | 33.747 |
| 2006-07 | 25.99 |

### Temporary Accommodation: Standards

**Paul Holmes:** To ask the Secretary of State for Communities and Local Government (1) whether her Department has published a summary of responses to its May 2003 consultation paper, Improving Standards of Accommodation for Homeless Households Placed in Temporary Accommodation; [172991]

(2) which organisations responded to her Department's consultation paper, Improving Standards of Accommodation for Homeless Households Placed in Temporary Accommodation in May 2003; [172992]

(3) what the reasons were for deciding against publishing guidance on the minimum standards in temporary accommodation for homeless households proposed in her Department's consultation paper from May 2003. [172993]

**Mr. Iain Wright:** The consultation paper, Improving Standards of Accommodation for Homeless Households Placed in Temporary Accommodation was published by the Office of the Deputy Prime Minister in May 2003.

I have deposited in the Library of the House a summary of the responses to the consultation which includes the full list of respondents at Annex A.

The consultation paper, included the following proposal:

> "The Secretary of State intends to issue guidance re-stating and specifying the minimum standards of accommodation that housing authorities should have regard to when considering whether temporary accommodation is suitable for homeless person they seek to place in such accommodation."

This proposal was implemented through the inclusion of guidance in the revised Homelessness Code of Guidance for Local Authorities, issued in July 2006. Chapter 17 of the Code, Suitability of Accommodation, provides guidance on the factors to be taken into account when determining the suitability of temporary accommodation secured under the homelessness legislation, including fitness for habitation, housing healthy and safety, overcrowding and houses in multiple occupation. Also in chapter 17, the Secretary of State recommends minimum standards that should be taken into account by local authorities when assessing whether bed and breakfast accommodation is suitable. The recommended minimum standards are set out in detail in annex 17 of the Code. Annex 16 of the Code sets out the statutory definition of overcrowding.

The Homelessness Code of Guidance for Local Authorities is available on the Department for Communities and Local Government's website at:

http://www.communities.gov.uk/housing/homelessness/publicationsabouthomelessness/informationlocal/homelessnesscode/

### Thames Gateway Forum: Official Hospitality

**Andrew Mackinlay:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the cost to the public purse of the dinner at the Thames Gateway Forum on 28 November at Excel, London; from what budget funding will be drawn; and if she will make a statement. [165129]

**Yvette Cooper** *[holding answer 20 November 2007]:* Communities and Local Government has not contributed any money to the cost of the Thames Gateway Forum dinner. The Thames Gateway Forum dinner is a private sector endeavour run by CMPi, the organisation that manages the whole Thames Gateway Forum event.

## JUSTICE

### Courts: Gwent

**Jessica Morden:** To ask the Secretary of State for Justice what plans he has to provide new court buildings in Gwent. [173619]

**Maria Eagle:** The provision of new court facilities in Newport, Gwent is a priority for Her Majesty's Courts Service (HMCS). HMCS are developing proposals on how best to deliver these facilities to ensure they are both affordable and represent value for money.

### Divorce Courts: Children

**Mr. Jim Cunningham:** To ask the Secretary of State for Justice what steps the Government has taken to minimise the burden of court proceedings relating to divorce for children affected. [172936]

**Bridget Prentice:** The welfare of any child is of paramount importance where children are the subject in family proceedings. Irrespective of parents' marital status, children are most often the subject of proceedings about contact and residence arrangements following parental separation.

The Government believe that court is not always the best place to resolve these disputes. Court proceedings can prolong parental conflict which is damaging for children. Unless there are safety issues, it is generally better for the children concerned that parents reach agreement themselves. In "Parental Separation: Children's Needs and Parents' Responsibilities" (January 2005) the Government announced a range of measures to support this aim, including promoting family mediation which can offer advantages over going to court, especially where children are involved.

Children can find the court process frustrating and stressful if they feel that their wishes and feelings are being ignored. Where parents cannot agree, the Children and Family Court Advisory and Support Service (CAFCASS) has a key role in ascertaining the wishes and feelings of the child involved, dependent on their age and understanding. In the most difficult cases, the court can request that the child is separately represented to ensure that their views are properly heard.

When parents do come to court, there is still the opportunity for them to reach agreement themselves and avoid the stress, for them and their children, of a contested hearing. In-court conciliation is a service available in most family courts which aims to facilitate agreement between the parents when they first attend court. The Government commissioned Dr. Liz Trinder of the university of East Anglia to evaluate the effectiveness of various models of in-court conciliation and to look at longer-term outcomes.

The latest report, published on 21 November, found that two years following conciliation, the great majority (79 per cent.) of cases had an agreement about contact and were closed. More children were having overnight contact and the overall amount of contact per child had increased since the initial conciliation intervention. However, during the two years following the intervention, the majority of parents had required further professional intervention and 40 per cent. had been involved in further litigation. Around 60 per cent. of agreements made at the 'original' conciliation meeting had been changed or had broken down by the two-year follow-up.

The well-being of parents had improved significantly and was at a similar level to those who had not come to court. However, this improvement was not apparent in children. After two years, 35-43 per cent. of these children still had borderline or abnormal well-being scores.

The report recommends the development of more relationship-based or therapeutically-orientated interventions as additional family justice systems or as referral-based services. The Government recognise that more needs to be done to support these parents and have already legislated to provide the courts with powers to refer parents to more therapeutic activities designed to help them overcome some of the underlying issues they face. These issues can often act as barriers that prevent parents from making arrangements that work for their children. The Government will shortly announce the timetable for implementing these provisions.

### Electronic Tagging

**Mrs. Gillan:** To ask the Secretary of State for Justice how many individuals are electronically tagged in *(a)* England and *(b)* Wales, broken down by the companies carrying out the monitoring. [173987]

**Mr. Hanson:** On 30 November 2007, 16,519 individuals in England and 698 individuals in Wales were subject to electronic monitoring of a curfew. In England, 11,226 were monitored by Group4Securicor (G4S) and 5,293 by Serco. In Wales, all 698 were monitored by Serco, which holds the contract for the West Midlands and Wales Area

### Fatal Accident Inquiry System

**Mr. Ingram:** To ask the Secretary of State for Justice what discussions he has had with the Scottish Executive on its plans to reform the Fatal Accident Inquiry system in order to allow inquiries into the deaths overseas of armed forces personnel who are based in Scotland; and if he will make a statement. [173068]

**Bridget Prentice:** My right hon. Friend, the Secretary of State for Justice and the Lord Chancellor (Mr. Straw) had the opportunity to raise this issue with Kenny MacAskill when he spoke to him recently. It was agreed that our officials should meet to explore possible ways forward on this issue.

The Government are committed to helping bereaved families by holding inquests as close to home as possible and is pleased that the Scottish Executive is now addressing this issue.

### Identity Cards

**Mr. Hoban:** To ask the Secretary of State for Justice pursuant to the answer of 19 November 2007, *Official Report*, column 513W, on national identity cards, what budget has been allocated for the consultation referred to. [173149]

**Mr. Wills:** We are still finalising the budget for the process of engagement to develop a British statement of values. Parliament and the public can be assured that the Government will look for value for money in carrying out this programme.

### Legal Services Commission: Information and Communications Technology

**David T.C. Davies:** To ask the Secretary of State for Justice how many people are registered to use the Legal Services Commission's new IT system for online reporting of case outcomes and solicitors' claims for costs. [173462]

**Maria Eagle:** The Legal Services Commission issued 8,882 LSC online passwords to all legal aid contract holders. Some providers have more than one office and would therefore require more than one password.

**David T.C. Davies:** To ask the Secretary of State for Justice (1) what the reason was for the delay in the launching of the Legal Services Commission's new IT system for online reporting of case outcomes and solicitors' claims for costs; and if he will make a statement; [173463]

(2) what funding his Department has provided for the Legal Services Commission's new IT system for online reporting of case outcomes and solicitors' claims for costs; and if he will make a statement; [173465]

(3) what assessment has been made of the effectiveness of the Legal Services Commission's new IT system for online reporting of case outcomes and solicitors claims for costs; and if he will make a statement. [173466]

**Maria Eagle:** I refer the hon. Member to the replies I gave to the hon. Member for North-West Norfolk (Mr. Bellingham) on 5 December 2007, *Official Report*, column 1260W.

### Ministerial Duties: Public Sector

**Mr. Pickles:** To ask the Secretary of State for Justice which Minister has responsibility for public sector information. [173477]

**Mr. Wills:** I am the Minister responsible for the Office of Public Sector Information. The Department for Constitutional Affairs, the predecessor to the Ministry of Justice, took over responsibility for public sector information from the Cabinet Office on 31 October 2006.

### Offenders: Unemployment

**Mr. Todd:** To ask the Secretary of State for Justice how the piloting of withdrawal of benefits from unemployed offenders who do not comply with the terms of a community order made under section 177 of the Criminal Justice Act 2003 is being monitored; and if he will make a statement. [172808]

**Mr. Hanson:** The piloting of the withdrawal of benefits from unemployed offenders was thoroughly monitored and evaluated between 2001-05 and the results of this process contributed to the formal assessment of the pilots. Advice about the future of the pilots, which includes the findings of that assessment, is currently under consideration. Monitoring is therefore suspended until a decision has been made.

### Prisoners

**Mr. Hollobone:** To ask the Secretary of State for Justice what estimate he has made of the likely change in the number of people who will be sent to prison in the first 12 months after the abolition of suspended sentences. [172708]

**Mr. Hanson:** Suspended sentences are not being abolished. Suspended sentence orders for summary-only offences are being abolished. We expect this will mean 400 offenders being given alternative non-custodial penalties over the next two years.

### Prisoners: Illegal Immigrants

**Mr. Baron:** To ask the Secretary of State for Justice (1) how many *(a)* illegal immigrants and *(b)* failed asylum seekers were serving custodial sentences in UK prisons in each of the last 10 years; and what proportion of the prison population these figures represented; [173773]

(2) how many and what proportion of offenders convicted for *(a)* violent offences and *(b)* all offences were (i) illegal immigrants and (ii) failed asylum seekers in each of the last 10 years. [173774]

**Mr. Hanson:** Information on the number of illegal immigrants who are held in custody is not held centrally and would involve detailed cross referencing of BIA case files with Prison Service records to ensure accuracy. As a result, the information required to answer this question cannot be obtained without incurring disproportionate cost.

Regarding failed asylum seekers serving custodial sentences, I refer the hon. Gentleman to the answer given to the hon. Member for South Holland and the Deepings (Mr. Hayes) on 27 November 2007, *Official Report*, column 300W.

### Prisoners: Sexual Offences

**Dr. Vis:** To ask the Secretary of State for Justice how many allegations of prisoners being *(a)* raped and *(b)* sexually assaulted have been received by the Prison Service in each of the last five years. [173436]

**Maria Eagle:** Rape is a legal term dependent on conviction and this information is not held centrally.

The Prison Service Incident Reporting System (IRS) collects information supplied by prisons on the reported numbers of sexual assaults. At any one time the system will include some proven and unproven allegations; some of the latter are removed/reclassified at a later date. The system provides a useful indicator, but the numbers should not be treated as absolute. It is not possible to separate incidents of sexual assault from allegations.

The numbers of sexual assaults reported through IRS are shown in the following table.

| | *Prisoner on prisoner sexual assaults* |
|---|---|
| 2002 | 112 |
| 2003 | 92 |
| 2004 | 102 |
| 2005 | 87 |
| 2006 | 93 |

### Prisons

**Dr. Vis:** To ask the Secretary of State for Justice how many sentenced receptions in prisons in England and Wales were for *(a)* less than one month, *(b)* between one and three months, *(c)* between three and six months and *(d)* between six and 12 months in each of the last five years. [173445]

**Mr. Hanson:** The following table shows the number of sentenced receptions into prisons in England and Wales by sentence length band from 2002 to 2006.

| | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|
| Less than or equal to 1 month | 7,367 | 7,227 | 8,307 | 8,056 | 7,398 |
| Greater than 1 month and less than or equal to 3 months | 18,576 | 17,901 | 17,968 | 17,720 | 16,779 |
| Greater than 3 months and less than or equal to 6 months | 26,743 | 27,730 | 27,401 | 26,042 | 24,747 |
| Greater than 6 months and less than 12 months | 8,075 | 7,954 | 7,993 | 7,983 | 8,370 |

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

**Mr. Hurd:** To ask the Secretary of State for Justice what evaluation he has made of the effectiveness of prison based cognitive behavioural treatment programmes on reconviction rates. [173537]

**Mr. Hanson:** There is considerable international evidence to support the effectiveness of cognitive behavioural treatment programmes in reducing reoffending. These research findings are based on systematic reviews which draw together all the available, high quality evidence in the field. Two of the more recent reviews were published within the last two years (Wilson et al., 2005; Washington State Institute for Public Policy, 2006).

UK research examining the effectiveness of cognitive behavioural programmes in prisons is limited and has produced mixed results (Friendship et al, 2002; Falshaw et al, 2003; Cann et al, 2003). These findings may be due to implementation failure or the research designs used which makes it difficult to attribute the outcomes directly to the impact of the intervention (Debidin, M. and Lovbakke, J, 2004). However, a qualitative study conducted in the UK in 2004 examined the programme experience of prisoners completing cognitive skills training (Clarke et al, 2004). Both prisoners and staff reported short-term benefits for prisoners such as improved prisoner behaviour; increased self-confidence; enhanced literacy skills and better interpersonal skills. Completion of cognitive skills also helped to prepare prisoners for other offending behaviour programmes.

The current RDS NOMS programme also includes further research on the effectiveness of other cognitive behavioural programmes based on rigorous research designs.

## Secure Training Centre: Restraint Techniques

**Dr. Vis:** To ask the Secretary of State for Justice how many times handcuffs have been used on *(a)* boys and *(b)* girls in each secure training centre since January 2006. [173444]

**Mr. Hanson:** The following table shows the use of handcuffs in secure training centres during the period January 2006 to October 2007 (the latest month for which figures are available). The figures were provided by the Youth Justice Board.

| | *Male* | *Female* |
|---|---|---|
| Hassockfield | 30 | 15 |
| Oakhill | 4 | 5 |
| Rainsbrook[1] | 0 | 0 |
| Medway[1] | 0 | 0 |

[1] Rainsbrook and Medway do not use handcuffs.

## Young Offender Institutions

**Dr. Vis:** To ask the Secretary of State for Justice whether food served in young offender institutions and secure training centres complies with the nutritional standards delivered in schools; and what arrangements are in place to monitor compliance with such standards. [173435]

**Mr. Hanson:** The Department for Children, Schools and Families does not treat educational facilities in secure establishments as schools and as such school standards do not apply within either young offender institutions or secure training centres.

However, secure training centres and young offender institutions are contractually required by the Youth Justice Board and the Prison Service to provide a varied and healthy menu which complies with relevant food safety legislation. Standards are assessed through regular independent inspections. They are also assessed internally on a daily basis by senior management in young offender institutions and qualified catering staff in secure training centres. The Youth Justice Board monitors meal plans in secure training centres over a period of time to assess nutritional standards and can request that reasonable changes are made to the meals provided.

## Young Offender Institutions: Injuries

**Dr. Vis:** To ask the Secretary of State for Justice what injuries were incurred by boys held in *(a)* Parc, *(b)* Lancaster Farms, *(c)* Warren Hill, *(d)* Thorn Cross and *(e)* Stoke Heath Young Offender Institutions during control and restraint in each month in (i) 2006 and (ii) 2007. [173479]

**Mr. Hanson:** The information for Lancaster Farms, Warren Hill, Stoke Heath and Par is set out in the following table. No young people were injured during control and restraint at Thorn Cross during this period.

| | *Lancaster Farms* | *Warren Hill* | *Stoke Heath* | *Parc* |
|---|---|---|---|---|
| January 2006 | 0 | 0 | Redness to bridge of nose<br>Slightly reddened right wrist<br>Reddened wrists, several red areas over back and chest<br>Cut to inner mouth<br>Redness to both wrists<br>General redness to both wrists | Redness to both wrists<br>Redness to left wrist |

| September 2007 | 0 | 0 | Cuts to left elbow, painful right wrist<br>Cut to fourth right finger<br>Cut to forehead, cut to palm of left hand<br>Graze to lower lip, redness to right shoulder, redness to back of neck | 0 |
| October 2007 | 0 | 0 | Sore wrist<br>Bruising to right clavicle, pain in right wrist | Redness to left wrist, red mark to left side of forehead |
| November 2007 | Two bumps to head | 0 | No data available | Redness to both arms<br>Graze to right knuckle |

## Young Offenders: Learning Disability

**Mr. Hurd:** To ask the Secretary of State for Justice what estimate he has made of the proportion of young offenders who have significant communication difficulties which prevent them from engaging in educational programmes. [172959]

**Mr. Ivan Lewis:** I have been asked to reply.

This information is not available centrally.

Research conducted by Professor Karen Bryan in partnership with HM Prison Service (University of Surrey 2004) found that 60 per cent. of young offenders screened on entering custody were identified as having difficulties with speech, language and communication.

All young offenders receive health screening on reception into prison and in addition will be screened for their educational needs. A general learning needs induction and assessment process is used to help identify learning difficulties and disabilities. As part of this process, education staff are expected to identify concerns about a prisoner's speech and language capability. Where such problems are identified, either as a result of the health screen or the education screen, a referral to an appropriate health professional would be expected.

All young people in custody are required by the Youth Justice Board to participate in education and training. Teaching professionals work with young offenders in small classes to help ensure they receive education which meets their personal needs. Special educational needs coordinators are employed in each young offender institution to assist in meeting the personal needs of young people and to help them get the most from their education in custody.

# Written Answers to Questions

*Monday 17 December 2007*

## NORTHERN IRELAND

### Causeway Consultants

**Lembit Öpik:** To ask the Secretary of State for Northern Ireland what contracts his Department *(a)* has and *(b)* has had with (i) Causeway Consultants and (ii) White Rock Research and Consultancy; what the *(a)* nature and *(b)* value was of work undertaken; when each piece of work was (i) started and (ii) completed; and if he will make a statement. [172547]

**Mr. Woodward:** The Northern Ireland Office has not undertaken any contracts with Causeway Consultants or White Rock Research and Consultancy.

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Northern Ireland how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171444]

**Mr. Woodward:** The following table shows the amount spent by the NIO and its agencies on Christmas cards, receptions and decorations in the last five full financial years.

£

| *Financial year* | *Cards* | *Receptions* | *Decorations* |
|---|---|---|---|
| 2002-03 | 5,342 | 426 | 0 |
| 2003-04 | 6,610 | 445 | 1,311 |
| 2004-05 | 6,104 | 5,640 | 574 |
| 2005-06 | 8,149 | 19,161 | 586 |
| 2006-07 | 2,630 | 37,578 | 2,573 |
| Total | 28,835 | 63,250 | 5,044 |

### Departmental Carbon Emissions

**Chris Huhne:** To ask the Secretary of State for Northern Ireland what estimate he has made of the total amount of carbon emissions produced by his Department in each year since 1997. [172347]

**Mr. Woodward:** My Department contributes data on energy consumption to the Northern Ireland Public Sector Energy Committee annual report. The most up-to-date figures on carbon emissions from energy consumption are contained in the 2005-06 PSEC report and show estimated emissions as being 1,434,000 kg $CO_2$; this is a reduction of 11 per cent. from 2004-05 figures. During this period 17 per cent. of our electricity came from renewable sources; overall, 9 per cent. of our energy came from renewable sources. We have recently invested in biomass heating and solar energy generation at Hillsborough Castle. No figures are available prior to 2004-05.

Since April 2006 emissions from central Government ministerial and official air travel has been offset through the Government carbon offsetting fund. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to the fund. The fund purchases certified emissions reduction credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

The DEFRA website provides a comprehensive list of Government carbon offsetting fund members, their emission figures and what activities they have offset through the fund, available at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm.

### Departmental Manpower

**Norman Baker:** To ask the Secretary of State for Northern Ireland how many reports have been made to his Department's nominated officers under paragraph 16 of the revised Civil Service Code since its publication on 6 June 2006. [162425]

**Mr. Woodward:** I refer the hon. Member to the answer provided by the Minister for the Cabinet Office (Gillian Merron) on 19 November 2007, *Official Report*, columns 596-97W. No reports have been made to the Northern Ireland Office's nominated officers in relation to Northern Ireland civil servants employed within the Department.

**Norman Baker:** To ask the Secretary of State for Northern Ireland how many allegations of victimisation for whistleblowing have been reported to his Department by departmental staff since 6th June 2006. [162426]

**Mr. Woodward:** I refer the hon. Member to the answer provided by the Minister for the Cabinet Office (Gillian Merron) on 19 November 2007, *Official Report*, columns 596-97W. No allegations of victimisation for whistleblowing have been reported to the Northern Ireland Office by Northern Ireland civil servant staff since 6 June 2006.

**Norman Baker:** To ask the Secretary of State for Northern Ireland when his Department's whistleblowing procedures were reviewed to reflect the provisions in the revised Civil Service Code. [162427]

**Mr. Woodward:** I refer the hon. Member to the answer provided by the Minister for the Cabinet Office (Gillian Merron) on 19 November 2007, *Official Report*, columns 596-97W. The Northern Ireland Office Guidance on Public Interest Disclosure (whistleblowing) was last revised on 8 April 2005.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Northern Ireland how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171326]

**Mr. Woodward:** From 1 January 2007 to date, the amount spent on overseas hotel accommodation for Northern Ireland Office Ministers is estimated at US$7,608 and €2,692. At current exchange rates this adds up to approximately £5,640.

There were 10 visits in total where overnight overseas accommodation was required. The destinations were Dublin, Boston, New York, Washington DC, Ypres and the Holy See. The Ministers requiring the accommodation were myself, my predecessor the right hon. Member for Neath (Mr. Hain), the right hon. Member for Delyn (Mr. Hanson), and the hon. Member for Liverpool Garston (Maria Eagle).

## OLYMPICS

### Look of London

**Hugh Robertson:** To ask the Minister for the Olympics who will be responsible for allocating the £32 million of funding for Look of London; which organisations form Look of London; what the objectives of Look of London are; and what activities it will undertake. [174023]

**Tessa Jowell** *[holding answer 13 December 2007]:* The purpose of this budget is to help improve the look of streets en route to the Olympic Park and off-Park Olympic venues by assisting with street cleaning and dressing measures such as removing graffiti, repainting street furniture and providing decorative planting. The responsibility for allocation of these funds will be determined nearer the time of the games.

### Olympic Delivery Authority: Finance

**Hugh Robertson:** To ask the Minister for the Olympics what projects the £500 million contingency funding allocated to the Olympic Delivery Authority will be allocated to; and how much will be allocated to each project. [174020]

**Tessa Jowell** *[holding answer 13 December 2007]:* As set out in my written statement to Parliament on 10 December 2007, the distribution of the £500 million allocated programme contingency, by category, is as follows:

| | *Released contingency included in cost (£ million)* |
|---|---|
| Site preparation and Infrastructure | 177 |
| Venues | 100 |
| Transport | 21 |
| Other Parkwide projects | 208 |
| IBC/MPC, Olympic Village, Programme Delivery and Taxation | (6) |
| | 500 |

I am not able to provide further detail at this stage, as this could compromise the Olympic Delivery Authority's commercial negotiating position and lead to an increase in cost.

### Olympic Games 2012: Finance

**Hugh Robertson:** To ask the Minister for the Olympics when she intends to provide further information about the likely cost of the Olympic village. [174022]

**Tessa Jowell** *[holding answer 13 December 2007]:* Commercially confidential negotiations are currently taking place relating to the construction of the Olympic Village. Further information about the development of the Olympic Village will be made available at the appropriate time.

## HOUSE OF COMMONS COMMISSION

### Departmental Data Protection

**Tom Brake:** To ask the hon. Member for North Devon, representing the House of Commons Commission, what plans the Commission has to review its practices involved in transporting personal data; and whether the Commission uses TNT to transport such data. [172286]

**Nick Harvey:** The Clerk of the House has commissioned a review of data and information security which is being led by the Parliamentary Security Co-ordinator. The review is being carried out as a matter of priority. TNT have been used to courier information such as Committee and Delegation papers, artwork and images but only rarely have they been used to transport personal data such as passports and then only in cases of urgency.

### Proof of Identity

**Mr. Stephen O'Brien:** To ask the hon. Member for North Devon, representing the House of Commons Commission pursuant to the answer of 19 November 2007, *Official Report*, column 452W, on proof of identity, who proof-checked the text for the passes. [172922]

**Nick Harvey:** The text was the responsibility of the project team. The punctuation error in the text will be corrected when the current stock of passes is used up.

## WOMEN AND EQUALITY

### Departmental Manpower

**Mrs. May:** To ask the Minister for Women and Equality how many *(a)* men and *(b)* women of each Civil Service grade are employed by the Government Equalities Office. [172735]

**Barbara Follett:** The information is supplied in the following table.

The table contains the number of permanent staff employed in their substantive grades as of 12 December 2007. It excludes temporary staff.

| *GEO* | *Permanent staff* | | |
|---|---|---|---|
| *Grade* | *Male* | *Female* | *Total permanent* |
| Senior Civil Service Pay Band 2 | 1 | 1 | 2 |
| Senior Civil Service Pay Band 1 | 1 | 2 | 3 |
| Grade 6 | 2 | 4 | 6 |
| Grade 7 | 5 | 9 | 14 |
| Senior Executive Officer | 4 | 9 | 13 |
| Higher Executive Officer (Fast Stream Development Programme) | 3 | 2 | 5 |
| Higher Executive Officer | 3 | 7 | 10 |
| Executive Officer | 2 | 3 | 5 |
| Administrative Officer | 3 | 0 | 3 |
| Total | 24 | 37 | 61 |

### Politics: Discrimination

**Jo Swinson:** To ask the Minister for Women and Equality whether the Government plans to bring forward legislative proposals to protect people from discrimination on the grounds of political belief. [171357]

**Barbara Follett:** The responses to the consultation on proposals for a new Equality Bill are currently being considered. A formal Government response to the consultation will be published in due course.

## SOLICITOR-GENERAL

### Prosecutions: Racial Violence

**John Mann:** To ask the Solicitor-General when she expects the conclusions of the Crown Prosecution Service's internal review into the anti-Semitic incidents not resulting in prosecution, and incitement to racial hatred prosecutions to be published. [174164]

**The Solicitor-General:** The Crown Prosecution Service (CPS) is producing a report setting out its detailed response to the recommendations following the All Party Parliamentary Group's Inquiry into Anti-Semitism. The CPS had initially intended to publish its response this autumn, but the analysis of the additional data from police files took longer than anticipated, and the CPS now intends to publish the report early in the new year.

## ELECTORAL COMMISSION COMMITTEE

### Investigatory Powers

**Mr. Kidney:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what investigatory powers the Electoral Commission has; and what further powers the Commission has requested. [173659]

**Peter Viggers:** The Electoral Commission informs me that it can require registered political parties, recognised third parties, permitted participants at a referendum, regulated donees and candidates to provide information relating to their financial affairs. A person authorised by the Commission may enter the premises of a registered party, recognised third party or permitted participant to inspect and copy their financial records.

The Commission has called for wider investigative powers to enable it to obtain information from any source that has relevant information.

### Electoral Register: Fraud

**Andrew Rosindell:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what processes are in place for liaison between the police and the Electoral Commission when dealing with serious breaches of electoral law. [173649]

**Peter Viggers:** The Electoral Commission informs me that arrangements are in place with the Association of Chief Police Officers, individual police forces and prosecution authorities in regard to electoral malpractice. This includes a single point of contact on election issues in each police force in England, Wales and Scotland to deal with such matters.

### Political Parties: Finance

**Mr. Tyrie:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what guidance the Electoral Commission has given to political parties on making donations via intermediaries and declaring the original donor. [173759]

**Peter Viggers:** The Electoral Commission informs me that it publishes "Donations and loans: guidance for political parties in Great Britain", which is available on its website, www.electoralcommission.org.uk. This details the reporting requirements on donations to political parties, including those made on behalf of others.

Similar guidance has been given to political parties in Northern Ireland.

**Mr. Tyrie:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission, what guidance on compliance with legislation is provided by the Commission to registered treasurers of political parties. [173760]

**Peter Viggers:** The Electoral Commission informs me that it provides a range of guidance for registered treasurers of political parties, covering donations, loans, campaign expenditure, policy development grants and statements of accounts. These publications are available on the Commission's website at www.electoralcommission.org.uk

## CULTURE, MEDIA AND SPORT

### Christmas

**Malcolm Bruce:** To ask the Secretary of State for Culture, Media and Sport what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173531]

**Mr. Sutcliffe:** The Department's policy is to use real Christmas trees. The trees are recycled.

### Cinemas

**Norman Baker:** To ask the Secretary of State for Culture, Media and Sport if he will take action to encourage cinemas to show greater numbers of UK films. [172485]

**Margaret Hodge** *[holding answer 10 December 2007]*: The UK Film Council provides funding aimed at bringing a wider choice of films to cinemas with a specific emphasis on British films.

For example, they have rolled out the digital screen network, providing 240 screens nationwide with state of the art digital projection equipment in return for a commitment to screen more British films. The success of the first Summer of British Film season this year, with seven classic British films digitally restored and shown in cinemas, is a direct result of this initiative.

The UK Film Council has invested a further £2.5 million to assist the distribution of 53 British films and co-productions. They have given £45 million from the national lottery to British film production, resulting in worldwide revenues of £410 million since.

The UK Film Council also gives £7.9 million a year to regional film bodies across England (e.g. Film London), all working to create a clear film strategy for each English region and provide cash support for production.

Government have also established a new tax relief framework which directly targets filmmakers producing cultural British films. As of September this year more than 100 films were certified as British for the new tax relief, more than 30 claims had been received by HMRC and around £35 million of tax credit had been paid out.

### Departmental Buildings

**Andrew Stunell:** To ask the Secretary of State for Culture, Media and Sport what percentage of new buildings approved by his Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172282]

**Margaret Hodge:** DCMS has not constructed any new buildings within the last five years.

### Departmental Data Protection

**Mr. Evans:** To ask the Secretary of State for Culture, Media and Sport how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [169896]

**Mr. Sutcliffe:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review.

### Departmental Equality

**Philip Davies:** To ask the Secretary of State for Culture, Media and Sport how much was spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173847]

**Mr. Sutcliffe:** The Department for Culture, Media and Sport employs three members of staff, one part-time grade B, one full-time grade C and one full-time grade D, to promote equality and diversity in the Department.

Staff costs are as follows:

*Diversity costs*

| | *FTE* | *2004-05* | *2005-06* | *2006-07* | £<br>*Total* |
|---|---|---|---|---|---|
| Grade B | 0.8 | 28,301 | 30,667 | 31,218 | 90,186 |
| Grade C | 1 | 25,386 | 27,653 | 28,600 | 81,639 |
| Grade D | 1 | 20,537 | 22,793 | 23,037 | 66,367 |
| Total | | | | | 238,192 |

Information about the total cost of promoting equality and diversity in the Department could be provided only at disproportionate cost.

### Departmental Ministerial Policy Advisors

**Mr. Hoban:** To ask the Secretary of State for Culture, Media and Sport what the office costs for his Department's special advisers for 2007-08 are expected to be, including costs of support staff; and how many full-time equivalent civil servants work in support of such special advisers. [164930]

**Margaret Hodge:** One civil servant supports the special advisers in my office. This civil servant provides administrative support of a non-political nature in accordance with the Code of Conduct for Special Advisers and the Civil Service Code.

Individual civil servants' salary details are not disclosed in order to protect the privacy of the individual concerned.

### Departmental Redundancies

**Mr. Hoban:** To ask the Secretary of State for Culture, Media and Sport what the cost was of redundancies in his Department in the 12 months preceding *(a)* 30 June 2004, *(b)* 30 June 2005 and *(c)* 30 June 2006. [175334]

**Mr. Sutcliffe:** There have been no redundancies in the Department for Culture, Media and Sport in the period from 30 June 2003 to 30 June 2006.

### Departmental Statistics

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport if he will list the statistical information which his Department has responsibility to collect; and in each case whether that information is collected on a *(a)* national or *(b)* regional basis. [173935]

**Margaret Hodge:** The Department has responsibility to supply tourism statistics for the UK to the statistical office of the European Commission (Eurostat) in line with the tourism statistics directive. This requires information at both a national and regional level on a monthly, quarterly and annual basis. The data are collected by the Office for National Statistics and by the National Tourist Boards and are supplied to Eurostat by DCMS.

The Department also collects and publishes a series of regular and ongoing statistical products under the professional management of the Head of Profession for statistics. Statistical information collected and produced outside the professional management of the Head of Profession for statistics, including by the Department's non-departmental public bodies, is not listed.

The Department currently publishes two products classed as 'National Statistics':

Taking Part: The National Survey of Culture, Leisure and Sport; and

Alcohol, Entertainment and Late Night Refreshment Licensing Statistics.

Information for Taking Part is collected from private households in England and results are primarily published at a national level, though some information has also been published by Government office region where possible.

Alcohol, Entertainment and Late Night Refreshment statistics are collected from licensing authorities in England and Wales and are published at both the aggregate England and Wales level and on an individual authority basis.

The Department has also previously published a third National Statistics product—Betting Licence Statistics. However, this publication is being reviewed in light of changes in gambling laws.

The Department also annually publishes two non-National Statistics products:

Creative Industries Economic Estimates; and

Television Exports Statistics.

Creative Industries economic estimates are published at a UK level only, and are based on business information collected by the Office for National Statistics. The television exports survey collects information directly from members of the Producers Alliance for Cinema and Television (PACT). Published results therefore relate to the total exports across PACT members only.

Statistical information on the number of venues in England and Wales staging live music has also been collected on an infrequent basis. This information was last published in 2004, with an update to be released later this month.

## Digital Broadcasting: Television

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the review commissioned from the National Audit Office by the BBC Trust on the BBC's preparedness for digital switchover, with particular reference to the effect of the timing of future procurement on the BBC's ability to apply all the lessons of the Copeland experience. [173951]

**James Purnell:** The NAO report is part of a programme of value for money work agreed with the BBC Trust by the Comptroller and Auditor General, under the new Charter and Agreement arrangements, and responsibility for considering audit reports and deciding on any follow-up action rests with the Trust.

I have seen the NAO report and the BBC response and note that the Trust will ensure that where possible the Copeland lessons are taken account of in the contract for the help scheme.

## Film Industry

**Mr. Jim Cunningham:** To ask the Secretary of State for Culture, Media and Sport what steps the Government has taken to raise the profile of British film. [172186]

**Margaret Hodge:** Last year, the UK Film Council's Distribution and Exhibition Fund provided £527,405 to enable British films reach a wider audience.

In addition, the Film Council has rolled out the digital screen network (DSN). This has provided 240 screens nationwide with state-of-the-art digital projection equipment in return for a commitment to screening more British and specialised films. A total of 1,305 different British/specialised films have played across the network to date with 94,277 film showings.

The Film Council also operates an annual £2 million Prints and Advertising Fund to assist the wider distribution and better marketing of British films. Last year they also paid out £4.1 million with the New Cinema Fund and £5.9 million with the Premiere Fund, both for production.

Film festivals in the UK are often a showcase for British film. The recently announced Film Festival Fund will allocate £4.5 million over three years to UK festivals.

## Gambling

**Sandra Osborne:** To ask the Secretary of State for Culture, Media and Sport what steps he is planning to take in response to changes in the level of activity in the *(a)* gaming industry and *(b)* seaside arcades and bingo halls since the introduction of the Gambling Act 2005. [174463]

**Mr. Sutcliffe:** My Department is engaging in a constructive dialogue with the British Amusement Catering Trade Association, the main trade body which represents the gaming machines sector, the Bingo Association and other trade bodies with an interest in the sector. I have made it clear to these organisations that I will be happy to consider any evidence they can provide, in relation to the difficult trading conditions that some operators say they are currently experiencing, and any proposals for remedial action.

However, the Government's principal priority remains to protect the public. We will need to be satisfied that any proposals put forward for remedial action by the industry do not have an adverse impact in terms of the licensing objectives of the Act.

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport (1) what assessment his Department has made of the effects of the Gambling Act 2005 on the *(a)* revenue and *(b)* employment levels of (i) adult gaming centres, (ii) family entertainment centres, (iii) gaming machine manufacturers, (iv) gaming machine suppliers and operators, (v) bingo halls and (vi) licensed betting offices since its implementation; [174464]

(2) what plans his Department has to review *(a)* gaming machine stake and prize levels and *(b)* numbers of gaming machines permitted in different types of gambling premises following the publication of the British Gaming Prevalence Survey 2007. [174560]

**Mr. Sutcliffe:** My Department is engaging in a constructive dialogue with the British Amusement Catering Trade Association, the main trade body which represents the gaming machines sector, and other trade bodies with an interest in the sector. I have made it clear to these organisations that I will be happy to consider any evidence they can provide, in relation to the difficult trading conditions that some operators say they are currently experiencing, and any proposals for remedial action.

However, the Government's principal priority remains to protect the public. We will need to be satisfied that any proposals put forward for remedial action by the industry do not have an adverse impact in terms of the licensing objectives of the Act.

**Miss Kirkbride:** To ask the Secretary of State for Culture, Media and Sport (1) what the evidential basis was for the determination of the stake and prize levels for category B2 and B3 gaming machines; [174496]

(2) what the evidential basis was for the decision to restrict the number of B3 machines permitted in adult gaming centres and bingo halls of any size to four under the Gambling Act 2005; [174497]

(3) if he will bring forward proposals to amend the existing B3 machine entitlement in adult gaming centres and bingo halls to allow larger premises an increase in the number of B3 machines in proportion to the total number of gaming machines. [174498]

**Mr. Sutcliffe:** The number of category B gaming machines permitted in different types of premises is provided for in section 172 of the Gambling Act 2005. The Act was approved by Parliament following extensive consultation with industry, and many other interested parties, and lengthy pre-legislative scrutiny.

The stakes and prizes applying to category B gaming machines, and all other categories of gaming machine, and the different sub-categories of category B gaming machines that can be made available in different types of gambling premises, are set by the Categories of Gaming Machine Regulations 2007. The regulations were made following extensive public consultation and were subject to the affirmative resolution procedure requiring debates in, and approval by, both Houses of Parliament.

Under the Act, adult gaming centres are, for the first time, permitted to make up to four B3 gaming machines available, and can continue to make available an unlimited number of category C and D gaming machines. Bingo halls have retained their entitlement of up to four category B3 gaming machines, and to an unlimited number of category C and D gaming machines.

The maximum stake and prize levels for, what became under the Act, category C gaming machines were increased to 50p and £35 in October 2006. The maximum stake for what became category B3 machines was doubled to £1 at the same time.

My Department is engaging in a constructive dialogue with the British Amusement Catering Trade Association, the main trade body which represents the gaming machines sector, and other trade bodies with an interest in the sector. I have made it clear to these organisations that I will be happy to consider any evidence they can provide, in relation to the difficult trading conditions that some operators say they are currently experiencing, and any proposals for remedial action.

However, the Government's principal priority remains to protect the public. We will need to be satisfied that any proposals put forward for remedial action by the industry do not have an adverse impact in terms of the licensing objectives of the Act.

**Mr. Bellingham:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of whether the introduction of the Gambling Act 2005 has caused migration from soft to hard forms of gambling. [175197]

**Mr. Sutcliffe:** The Gambling Act 2005 came into force on 1 September 2007. The new Act introduces, for the first time, appropriate safeguards for the different forms of gambling permitted by the Act to ensure that children and vulnerable people are protected. It is too early to assess the impact of the Act, since it has only been in effect for a little over three months.

### Licensing

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport what representations his Department has received from police representatives on the effects of the Licensing Act 2003. [174830]

**Mr. Sutcliffe:** We frequently receive views from bodies representing the police, such as the Association of Chief Police Officers (ACPO), and from individual police forces on how the Licensing Act 2003 (the 2003 Act) is working. Recent feedback has included examples of how the new powers are being used to make a positive impact and how flexible closing times have helped spread dispersal and reduce peaks of alcohol-related disorder.

I value the input of the police in identifying where the 2003 Act could do better, which is why we actively seek their views when considering adjustments to the regime.

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport whether he plans to review the Licensing Act 2003; and if he will make a statement. [174831]

**Mr. Sutcliffe:** As the Prime Minister reiterated in July, we are monitoring and reviewing the impact of the Act and have been since it came into force. We expect to complete an evaluation of the impact of the Act in the new year.

### Lifeguards: Qualifications

**Mrs. James:** To ask the Secretary of State for Culture, Media and Sport how many lifeguards have *(a)* trained for and *(b)* passed their National Pool Lifeguard Qualification in England (i) since 1997 and (ii) in the latest 12 month period for which figures are available. [173792]

**Mr. Sutcliffe:** The National Pool Lifeguard Qualification in England is the responsibility of the Institute of Qualified Lifeguards (IQL), which is affiliated to the Royal Life Saving Society UK, the recognised national governing body for Life Saving. The IQL has advised that:

(i) since 1999, 301,000 people were awarded the National Pool Lifeguard Qualification in the United Kingdom (pre-1999 figures were unavailable);

(ii) between January and the end of November this year, 31,000 people were awarded the National Pool Lifeguard Qualification in the United Kingdom.

These figures include both newly qualified lifeguards and lifeguards renewing their qualification.

The numbers of people training for the qualification and England-only figures were not available from the IQL.

### Olympic Games 2012

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport how much public funding has been allocated to promoting Britain as a tourist destination through the 2012 Olympics. [173034]

**Margaret Hodge** *[holding answer 11 December 2007]:* VisitBritain's strategic review of tourism, announced by my Department on 24 October 2007, will look at priorities for British tourism including the 2012 Olympic Games and Paralympic Games. Better coordination of resources and focusing on priorities will help us deliver the tourism legacy of the 2012 Games.

Funding to promote Britain as a tourist destination in 2012 comes from many sources, of which VisitBritain is just one.

### Olympic Games 2012: Voluntary Work

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the likely effect the London 2012 Olympic Games will have on levels of participation in voluntary work. [172082]

**Tessa Jowell:** I have been asked to reply as Minister for the Olympics.

The London Organising Committee for the Olympic Games and Paralympic Games estimate that they are likely to require up to 70,000 volunteers for the 2012 Games. Since the bid 160,000 people have registered an interest in volunteering on the London 2012 database. The Personal Best Programme, which has just completed its pilot phase, aims to encourage participants from deprived backgrounds with low level qualifications into training and volunteering using the power of the Games.

In addition, the Government are currently examining other ways to promote volunteering more widely using the excitement and enthusiasm generated by the Games as part of the preparations for the launch of the Legacy Action Plan in the new year.

### Reviews

**Chris Huhne:** To ask the Secretary of State for Culture, Media and Sport what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department is (i) responsible for and (ii) scheduled to initiate; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [169938]

**Margaret Hodge:** I refer the hon. Member to the answer I gave to the hon. Member for Bath (Mr. Foster) on 10 December 2007, *Official Report*, columns 106-10W.

### Sports Direct: Finance

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 20 November 2007, *Official Report*, column 661W, on Sports Direct: finance, if he will place in the Library a copy of the feasibility study. [174134]

**Mr. Sutcliffe:** I will place a copy of the Sport Direct feasibility study (from 2005) in the House Library.

Since the study was completed, alternative options were considered to fulfil the Sport Direct manifesto commitment, one of which has now been implemented.

From 19 November 2007, information on accessing sports facilities has been made available on the NHS Choices website www.nhs.uk. This option was considered the most effective and efficient way of meeting the manifesto commitment.

### Sports: Coventry

**Mr. Jim Cunningham:** To ask the Secretary of State for Culture, Media and Sport how much the Government have spent on sports facilities in Coventry since 1997. [170305]

**Mr. Sutcliffe:** Since 1997 sports facilities in Coventry have benefited from £8,454,030 from DCMS Exchequer and Sport England lottery funding.

### Sportsgrounds

**Mr. Jim Cunningham:** To ask the Secretary of State for Culture, Media and Sport what steps the Government have taken to improve safety at football stadiums since 1997. [170303]

**Mr. Sutcliffe:** Safety at football grounds is the responsibility of the clubs. The Government, through the Football Licensing Authority, licenses spectator accommodation, keeps under review safety certification by local authorities and provides guidance on good practice relating to the management both of the grounds and of spectator safety.

The main improvements in England and Wales since 1997 in which the FLA has played a key role have been as follows:

the increase in the number of all-seated Premier League, Championship and international football grounds from 47 to 69;

the upgrading of all remaining standing accommodation to ensure that it has continuous crush barriers of the appropriate design, strength and spacing between radial gangways;

the development and promulgation of national steward training qualifications at NVQ level 2 or equivalent;

the revision of the 1997 edition of the Guide to Safety at Sports Grounds (to be published early in the new year); and

the issue of detailed guidance on accessible stadia, control rooms, concourses, safety certification, contingency planning, exercise planning and briefing/debriefing.

These improvements have been introduced alongside a range of measures that have been taken to control disorder which have also contributed significantly to improving public safety in grounds.

### Swimming

**Mrs. James:** To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to encourage people to participate in swimming. [173790]

**Mr. Sutcliffe:** Swimming is the country's largest participation sport and, since 1995, over £251 million of National Lottery funding has been invested in capital and revenue community projects.

Sport England supports Everyday Swim, a national initiative run by the Amateur Swimming Association (ASA) aimed at breaking down barriers to swimming and getting more people into the swimming pool. Sport England is contributing £3 million of Lottery funding to the programme, with the ASA providing an equal amount of partnership funding.

Sport England also provides £1.7 million per annum of National Lottery funding to the ASA to support the delivery of its One Stop Plan. This funding is used to improve the sport's infrastructure by focusing on clubs, coaches and volunteers.

Swimming is part of the Community Club Development Programme and, since 2003, more than £1.9 million of Exchequer funding has been provided to support capital improvements in 15 swimming clubs.

### Video Games: Children

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport with reference to his answer of 29 October 2007, *Official Report*, column 643W, on video games: children, who expressed concerns over the relationship between video games and behaviour; and when and to whom such concerns were expressed. [173784]

**Margaret Hodge:** Our consideration of this issue reflects wider public concern expressed in a range of forums. In addition to this, we have received correspondence from a range of individuals and groups of school children—often through their constituency MP—who express concern about a possible link between playing video games that feature violence and violent behaviour in real life.

### Young People: Lifeguards

**Mrs. James:** To ask the Secretary of State for Culture, Media and Sport what steps his Department is taking to encourage young people to train as lifeguards. [173791]

**Mr. Sutcliffe:** Sport England currently recognises Life Saving and Surf Life Saving, but neither governing body—the Royal Life Saving Society UK and the Surf Life Saving Association of Great Britain—receives funding from Sport England.

The Surf Life Saving Association of Great Britain was awarded £8,000 in 2006-07 to support the employment of a sports development officer in the south-west to coordinate events aimed at increasing participation in Surf Life Saving. This award was made from the 'Impact and Improvement Fund', which is operated by the Central Council for Physical Recreation and funded by Sport England.

Since 2005, one award of £210,723 has been made by Sport England to Hayle Surf Life Saving Club in Cornwall for the construction of new premises.

## WORK AND PENSIONS

### Children: Poverty

**Mr. Laws:** To ask the Secretary of State for Work and Pensions what steps his Department is taking to meet the *(a)* 2010 and *(b)* 2020 child poverty targets. [172088]

**Caroline Flint:** The Department is committed to helping to achieve the ambitious targets set by the Government to halve child poverty by 2010 on the way to eradicating it by 2020. Significant progress has been made with 600,000 children lifted out of relative poverty since 1998-99 but there remains much more to be done.

Work, for those who can, remains the best and most sustainable route out of poverty and this sits at the heart of the Department's child poverty strategy. In March 2007 the Department published its refreshed child poverty strategy "Working for Children" which focuses around three broad themes. These are: increasing support for lone parents through increased rights and responsibilities; helping people to stay in work and make progress in their jobs; and increasing the family focus of employment programmes. In "Ready for Work: Full employment in our generation", published on 13 December as a result of the responses to our Green Paper "In Work, Better Off: next steps to full employment", we have announced increased support and obligations for lone parents who are claiming income support solely based on being a lone parent. They will have to move onto a more appropriate benefit when their youngest child is aged 12 and over from October 2008; 10 and over from October 2009; and seven and over from October 2010.

We will increase the support for lone parents to return to and stay in work by: increasing the work trials period from three to up to six weeks; group seminars; job interview guarantee; work focused pre-work training; extension and expansion of New Deal Plus for Lone Parents pilots; quarterly work focused interviews; national extension and retention of in-work credit; in-work advisory support from Jobcentre Plus advisers; national rollout of the in-work emergency discretion fund; piloting the provision of up-front child care costs in London; and a new credit to help them be better off in work. Lone parents on JSA will also be supported by our integrated employment and skills service and the flexible New Deal.

We have also recently announced the formation of a Joint Child Poverty Unit bringing together the expertise of officials in both the DWP and the Department for Children, Schools and Families. The unit will also be working closely with HM Treasury and other Government departments to ensure that there is a coherent cross-Government approach to tackling child poverty.

### Debts

**John Battle:** To ask the Secretary of State for Work and Pensions in how many cases his Department has issued a debt recovery waiver with regard to the money owed to his Department where there are very special circumstances under medical grounds. [173129]

**Mr. Plaskitt:** In 2006, 37 cases received a full or partial waiver of an outstanding benefit overpayment on medical grounds. Between January and November 2007, that figure was 63. Prior to 2006, the reason for the waiver was not recorded.

### Departmental Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Work and Pensions how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171430]

**Mrs. McGuire:** The Department does not have any account codes or categories specifically identifying spend on Christmas cards, decorations or parties; to try to identify any such expenditure would incur a disproportionate amount of time and cost.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how much has been *(a)* made available to and *(b)* taken up by his Department's agencies for the purchase of Christmas decorations. [171847]

**Mrs. McGuire** *[holding answer 10 December 2007]:* The Department does not have any account codes or categories specifically identifying spend on Christmas decorations and to try and identify any such expenditure would involve a disproportionate amount of time and cost.

### Financial Assistance Scheme

**Mr. Waterson:** To ask the Secretary of State for Work and Pensions when he expects to publish Andrew Young's final report on the financial assistance scheme. [175069]

**Mr. Mike O'Brien:** Today.

### Financial Assistance Scheme: Expenditure

**Jenny Willott:** To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* administration and *(b)* legal fees for the financial assistance scheme in each month since March; and if he will make a statement. [171550]

**Mr. Mike O'Brien** *[holding answer 4 December 2007]:* The information is as follows.

£

| *Current financial year 2007-08* | *Expenditure* | *Legal fees* | *Total in month spend* |
|---|---|---|---|
| April 2007 | 126,436 | 0 | 126,436 |
| May 2007 | 124,408 | 0 | 124,408 |
| June 2007 | 137,749 | 0 | 137,749 |
| July 2007[1] | 544,794 | 0 | 544,794 |
| August 2007 | 153,413 | 0 | 153,413 |
| September 2007[2] | 279,951 | 0 | 279,951 |
| October 2007 | 163,836 | 0 | 163,836 |
| Total April 2007 to October 2007 (Actual) | 1,530,587 | 0 | 1,530,587 |
| Overall total to October 2007-08 | | 1,530,587 | |

[1] July costs include an element for IT (maintenance) annual costs circa £451,434.

[2] September costs include an element for IT (licence and change requests) annual costs circa £159,000.

### Jobcentre Plus: Stroud

**Mr. Drew:** To ask the Secretary of State for Work and Pensions (1) how many telephone calls have been made to the St. Austell call centre by benefit recipients *(a)* through the Job Centre Plus office in Stroud and *(b)* using outside lines but registered through the Stroud office in each week since it opened; [171006]

(2) when he plans to make an evaluation of the effectiveness of the call centre at St. Austell. [171007]

**Caroline Flint:** The administration of Jobcentre Plus is a matter for the chief executive of Jobcentre Plus, Lesley Strathie. I have asked her to provide my hon. Friend with the information requested.

*Letter from Mel Groves, dated 14 December 2007:*

The Secretary of State has asked Lesley Strathie to reply to your questions asking how many telephone calls have been made to the St Austell call centre by benefit recipients through the Job Centre Plus office in Stroud. Specifically, how many are using outside lines but registered through the Stroud office in each week since it opened, and when he plans to make an evaluation of the effectiveness of the call centre at St Austell. This is something which falls within the responsibilities delegated to Ms Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

The centre in St Austell is not a call centre but a Benefit Delivery Centre (BDC), dealing with the assessment of customers' claims to benefit. Although BDCs do have records of call volumes by benefit, the telephony system in place does not record where the customer is calling from. I am therefore unable to answer your question about the number of calls made by our Stroud customers.

In line with every Benefit Delivery Centre, St Austell reviews its performance on a regular basis. St Austell is currently meeting Actual Average Clearance Time targets for Jobseeker's Allowance, Income Support and Incapacity Benefit claims.

I hope this is helpful.

### Jobseeker's Allowance

**Ms Buck:** To ask the Secretary of State for Work and Pensions whether it is his policy that parents of disabled children who are not claiming disability living allowance should be encouraged to claim jobseeker's allowance. [170679]

**Mrs. McGuire:** Parents of disabled children can claim jobseeker's allowance. For jobseeker's allowance to be paid, customers must meet conditions of entitlement, which includes being available for and actively seeking work. However, customers with caring responsibilities, such as parents of disabled children, can limit their availability for work to a minimum of 16 hours per week and do not have to be immediately available for work, providing they are willing and able to start work if given one week's notice and attend an interview if given 48 hours' notice.

In the recently published Green Paper, 'In Work, Better Off: Next Steps to Full Employment', we have outlined proposals for lone parents who are able to work. Lone parents who also have other reasons for claiming income support, e.g. if they have children for whom the middle or highest rate care component of disability living allowance (DLA) is payable, or they claim carer's allowance (CA), or are fostering will continue to be eligible to claim income support.

Details of our proposals are currently being finalised following the consultation and we will publish our response soon.

### Jobseeker's Allowance: Lone Parents

**Ms Buck:** To ask the Secretary of State for Work and Pensions what assessment his Department has made of the resources which would be required to implement a more flexible jobseeker's allowance regime for lone parents whose youngest child has reached 12, including resources *(a)* for training for advisers and *(b)* for decision makers. [170678]

**Caroline Flint:** Initial estimates around the resource requirements of our proposals for lone parents were presented in the Impact Assessment accompanying the Green Paper 'In work, Better Off: Next Steps to Full Employment'. They were based on a number of assumptions, pending completion of the consultation exercise.

Details of our proposals are currently being finalised following the consultation. We will publish our response, together with an updated Impact Assessment soon. More detailed costs and implementation plans will be worked up over the coming months.

### National Insurance: Foreign Workers

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many national insurance numbers have been issued to EU A8 nationals in *(a)* each year and *(b)* each quarter since 1 January 2004, broken down by nationality; and what the percentage change was in each period, broken down by nationality. [162689]

**Mr. Plaskitt** *[holding answer 12 November 2007]*: The available information from National Statistics is in the following table.

*EU A8 nationals entering the UK registrations*

| *Year of registration date* | *Republic of Estonia* | *Republic of Latvia* | *Republic of Lithuania* | *Hungary* | *Poland* | *Republic of Slovenia* | *Czech Republic* | *Slovak Republic* |
|---|---|---|---|---|---|---|---|---|
| *Number* | | | | | | | | |
| 2003-04 | 230 | 720 | 3,860 | 980 | 11,200 | 240 | 1,190 | 1,400 |
| 2004-05 | 1,730 | 6,520 | 15,790 | 3,880 | 62,550 | 770 | 7,420 | 11,470 |
| 2005-06 | 3,030 | 14,320 | 30,880 | 8,600 | 171,360 | 490 | 13,190 | 27,430 |
| 2006-07 | 2,060 | 11,090 | 24,110 | 10,880 | 222,760 | 530 | 11,750 | 28,840 |
| *Percentage change from previous year* | | | | | | | | |
| 2003-04 | 35.3 | 71.4 | 109.8 | 34.2 | 87.3 | 0.0 | 2.6 | 42.9 |
| 2004-05 | 652.2 | 805.6 | 309.1 | 295.9 | 458.5 | 220.8 | 523.5 | 719.3 |
| 2005-06 | 75.1 | 119.6 | 95.6 | 121.6 | 174.0 | -36.4 | 77.8 | 139.1 |
| 2006-07 | -32.0 | -22.6 | -21.9 | 26.5 | 30.0 | 8.2 | -10.9 | 5.1 |

*Notes:*

1. Figures are rounded to the nearest ten. Some additional disclosure control has been applied.
2. Percentages are rounded to one decimal place.
3. Years referred to are financial years. Reliable quarterly estimates from National Statistics are not currently available.

*Source:*

100 per cent. extract from National Insurance Recording System at 14 May 2007.

### New Deal for Musicians

**Chris Grayling:** To ask the Secretary of State for Work and Pensions how much the new deal for musicians has cost in each of the last 10 years. [166608]

**Caroline Flint:** New deal for musicians (NDfM) started in 1999. Information on the cost of NDfM in each year since then is in the following table.

*New deal for musicians*

| | *£ million* |
|---|---|
| 1999-2000 | 2.3 |

*New deal for musicians*

| | £ million |
|---|---|

Department for Work and Pensions and Jobcentre Plus Finance Directorates

**Chris Grayling:** To ask the Secretary of State for Work and Pensions (1) how many people have entered the new deal for musicians in each of the last 10 years; [166609]

(2) how many people have left the new deal for musicians and *(a)* gone into sustained employment, *(b)* gone into employment, *(c)* returned to or continued receiving benefit payments immediately on leaving, *(d)* returned to benefit payments within six months and *(e)* returned to benefit payments within one year. [166610]

**Caroline Flint:** New deal for musicians (NDfM) aims to help aspiring unemployed musicians into a sustainable career in the music industry, either as artists under contract or unsupported self-employed artists within the music industry.

New deal for musicians is delivered as part of the mainstream new deal for young people and new deal 25 plus programmes; participant numbers and job outcomes for new deal for musicians are now incorporated into statistics for these mainstream programmes.

The available information on the number of people who have entered new deal for musicians in each year is in the following table.

*Number of participants in new deal for musicians*

| | Total in year (£) |
|---|---|
| 1999 | 1,515 |
| 2000 | 3,484 |
| 2001 | 4,015 |
| 2002 | 2,859 |
| 2003 (Up to 28 August 2003) | 1,590 |
| Total | 13,463 |

*Source:*
New deal for musicians database.

Separate information on the number of people who have left new deal for musicians for employment is only available up to November 2005 and only available for those leaving for sustained jobs. Up to the end of November 2005, 3,880[1] people had left the programme for sustained employment.

The remaining requested information is not available.

[1] *Source:*

New deal evaluation database, DWP information directorate

**Chris Grayling:** To ask the Secretary of State for Work and Pensions how much it cost to establish the new deal for musicians' website www.ndfmlearning.com; and how much it cost to operate it in the last 12 months. [166611]

**Caroline Flint:** The new deal for musicians' website at www.ndfmlearning.com provides access to open learning materials relevant to the new deal for musicians programme and employment in the music industry.

The website cost £17,860 to establish and £5,550 to operate in the last 12 months.

**Chris Grayling:** To ask the Secretary of State for Work and Pensions how much it cost to develop and produce the wordbooks for the new deal for musicians. [166612]

**Caroline Flint:** New deal for musicians (NDfM) aims to help aspiring unemployed musicians into a sustainable career in the music industry, either as artists under contract or unsupported self-employed artists within the music industry.

There are nine new deal for musicians workbooks covering subjects such as: jobs in the music industry; recording and production; copyright, and performing. They are available as paper copies and as downloads from the website www.ndfm.learning.com.

The total cost up to November 2007 of developing and producing the workbooks is £269,059.

## New Deal Schemes: Music

**Chris Grayling:** To ask the Secretary of State for Work and Pensions how many hits the ndfmlearning.com website received in each of the last 10 years for which data are available. [166728]

**Caroline Flint:** The new deal for musicians website www.ndfmlearning.com was launched on the 21 July 2005 and was fully accessible from the 23 February 2006. Full data on the number of visits to the website is only available from that date.

In the period 23 February 2006 to 31 December 2006 there were 8,583 visitors to the site and they viewed 24,841 web pages; in the period 1 January 2007 to 31 October 2007[1] there were 8,375 visitors and they viewed 25,187 web pages.

[1] Latest available data.

## New Deal for Young People: Employment

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions how many of the entrants to the new deal for young people found sustained employment during *(a)* the four month Gateway period and *(b)* the period of activity on mandatory options in each year since the inception of the programme; and what percentage of those engaged in each of the four options found sustained employment. [162678]

**Caroline Flint:** New deal for young people (NDYP) is mandatory for people aged 18 to 24 who have been claiming jobseeker's allowance (JSA) for six months.

Participants enter a Gateway lasting up to 16 weeks during which personal advisers provide intensive support to improve the job prospects of participants. Those who have not found work at the end of the Gateway period are referred onto one of four options:

The employment option;

Full-time education and training option;

Voluntary sector option; and

Environment task force option.

People who have not found work through the options are referred to the follow-through period of NDYP.

The available information has been placed in the Library.

### New Deal Schemes

**Mr. Clappison:** To ask the Secretary of State for Work and Pensions what percentage of those leaving *(a)* the new deal for young people and *(b)* New Deal 25 plus recommenced claiming benefits within (i) six months and (ii) 12 months of leaving the scheme in each year since the schemes began. [162359]

**Caroline Flint:** People who have been on the new deal programme who subsequently return to benefits may be in receipt of out of work or inactive benefits and may not, due to changes in personal circumstances, necessarily return to the benefit they were claiming before they participated in the new deal.

Information on the percentage of leavers from new deal for young people and new deal 25 plus who recommenced claiming benefits within six and 12 months is in the following table.

*Percentage of leavers from new deal for young people and new deal 25 plus who recommenced claiming benefits within six and 12 months of leaving the programmes*

| | *New deal for young people* | | *New deal 25 plus* | |
|---|---|---|---|---|
| | *6 months* | *12 months* | *6 months* | *12 months* |
| 1998 | 14 | 36 | 14 | 31 |
| 1999 | 29 | 50 | 17 | 33 |
| 2000 | 31 | 52 | 18 | 35 |
| 2001 | 32 | 53 | 19 | 35 |
| 2002 | 32 | 53 | 21 | 37 |
| 2003 | 31 | 51 | 21 | 37 |
| 2004 | 30 | 50 | 22 | 38 |
| 2005 | 28 | 48 | 21 | 36 |
| 2006 | 27 | 47 | 21 | 36 |

*Notes:*

1. Latest data is to May 2007, therefore, allowing for a 12 month gap, only new deal leavers to May 2006 are included within the 12 month column; allowing for a 6 month gap, only new deal leavers to November 2006 are included within the 6 month column.
2. People claiming within 6 months will also be included as claiming within 12 months.
3. The benefits included are: incapacity benefits, invalid care allowance, income support, jobseeker's allowance, severe disablement allowance and widows/bereavement benefits.
4. A benefit claim has only been included if it is a new claim after leaving new deal. People can leave new deal and continue a benefit claim; these people are not included as returning to benefit.

Information Directorate, Department for Work and Pensions

### Pensioners

**Mr. Kemp:** To ask the Secretary of State for Work and Pensions how many pensioners took up pension credits in each of the last five years. [173560]

**Mr. Mike O'Brien:** The answer is in the following table.

The numbers of households receiving, and individual beneficiaries of pension credit in each of the last five years are shown in the following table.

| | *Number of households receiving pension credit* | *Number of individual beneficiaries of pension credit* |
|---|---|---|
| November 2003 | 2.08 | 2.50 |
| May 2004 | 2.49 | 3.02 |
| May 2005 | 2.68 | 3.26 |
| May 2006 | 2.72 | 3.32 |
| May 2007 | 2.73 | 3.34 |

*Notes:*

1. The number of households in receipt are rounded to the nearest ten thousand.
2. Pension credit was introduced in October 2003 so data for 2003 is as at November.
3. Household recipients are those people who claim pension credit either for themselves only or on behalf of a household.
4. The number of individual beneficiaries includes both claimants and their partners, some of whom may be under 60 years of age.
5. Time series data includes minimum income guarantee (MIG) cases: households on income support where the claimant and/or partner are aged 60 or over. About 1.8 million MIG cases transferred to pension credit on 6 October 2003.

DWP Work and Pensions Longitudinal Study 100 per cent. data

### Pensions

**Paul Rowen:** To ask the Secretary of State for Work and Pensions what contingency plans he has put in place should pension and benefits claimants be unable to access their payments before Christmas 2007. [175077]

**Mr. Plaskitt:** Our contingency plans, which are flexible and proven, include prioritising our resources to ensure that our customers receive their payments on time. Every departmental business area has business continuity plans in place to support this top priority. Emergency payments can be made using our out of hours service where required.

### Poverty: Children

**Julia Goldsworthy:** To ask the Secretary of State for Work and Pensions on what date the first meeting of the Joint Child Poverty Unit was held. [175090]

**Caroline Flint:** The formation of the Child Poverty Unit was announced at the Barnados 'Paying the Price of Child Poverty' conference on 29 October and the unit formally came into being on 12 November. It brings together officials from the Department for Work and Pensions and the Department for Children, Schools and Families who now work side by side.

### Social Fund: Administration

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how much has been spent on average per year on the administration of the Social Fund in the last five years; and what proportion of this has been spent on the delivery of frontline services. [172630]

**Mr. Plaskitt:** The administration of Jobcentre Plus is a matter for the Chief Executive, Lesley Strathie. I have asked her to reply to the hon. Member.

*Letter from Mel Groves, dated 14 December 2007:*

The Secretary of State has asked me to reply to your question concerning how much has been spent on average per year on the administration of the Social Fund in the last five years; and what proportion of this has been spent on the delivery of front line services. This is something which falls within the responsibilities delegated to Ms Strathie as Chief Executive of Jobcentre Plus. I am replying in her absence as Acting Chief Executive.

Our unit cost information only goes back to 2003/4. The average expenditure per year on the administration of Social Fund over the last four years is £74m. In 2006/7, 86% of the total expenditure was on the delivery of customer facing services.

I hope this is helpful.

### Social Security Benefits

**Andrew Selous:** To ask the Secretary of State for Work and Pensions how many *(a)* people and *(b)* lone parents lost all of their benefit as a result of not attending repeat work-focused interviews at Jobcentre Plus offices in each of the last three years for which figures are available. [172710]

**Caroline Flint** *[holding answer 10 December 2007]:* Primary claimants of inactive benefits i.e. sick and disabled people, lone parents, carers and widow/ers are required to attend repeat Work Focused Interviews (WFIs).

Sanctions are applied as a last resort following failure to attend a mandatory WFI without good reason. The sanction ends when the claimant complies with their obligation to attend the WFI, or when the requirement to attend is waived.

Most repeat WFIs are carried out with disabled people, under the Pathways regime, and lone parents. The number of people in these categories that have lost all, rather than some of their benefit, due to failing to attend repeat WFIs is less than 10 in each of the last three years. Under Data Protection rules, a more specific number cannot be provided.

The requested information for carers, widow(er)s and disabled people not under the Pathways regime could be obtained only at disproportionate cost. People in these groups have very few repeat WFIs and it is very unlikely that any will have lost their benefits due to failing to attend such interviews.

### Translation Services

**Mrs. Gillan:** To ask the Secretary of State for Work and Pensions what the reasons were for the decision to terminate the contracts of suppliers of translation services to his Department and change the procurement process for these services. [169435]

**Mrs. McGuire:** There are no contracts which have been cancelled for the provision of translation services since the current DWP framework for translation services was awarded in December 2005.

**Mrs. Gillan:** To ask the Secretary of State for Work and Pensions (1) what rate per 1,000 words is charged by the companies employed to translate documents for his Department; [169436]

(2) what rate was paid to translators per 1,000 words providing direct services to his Department in the last 12 months; [169437]

(3) which companies have been awarded a formal contract for providing translation services to his Department; [169438]

(4) which translators carried out work for his Department in each of the last three years; and how much was paid to those translators. [169439]

**Mrs. McGuire:** The Department is currently conducting a procurement exercise for the provision of translation services and as such, under the commercial and restricted information rules (sections 41 and 43 of the Freedom of Information Act 2000 and section 43 of the Public Contracts Regulations 2006), I regret that the information requested, in particular current pricing rates, cannot be released as this may be seen as a breach of competition rules.

### Welfare Tax Credits: EC Action

**Andrew Selous:** To ask the Secretary of State for Work and Pensions pursuant to the oral answer of 29 November 2007, *Official Report*, column 426, on tax credits, whether the Government held discussions during the UK presidency of the EU on reform of EC Regulations 1408/71 and 574/72; and whether it has done so since then. [174672]

**Mr. Plaskitt:** No discussions on reform of EC Regulations 1408/71 or 574/72 were held during the UK presidency of the EU in the second half of 2005.

Early in 2004, under the Irish presidency, the Council of Ministers and the European Parliament had reached agreement on all but the Annexes to Regulation 883/2004, which updates Regulation 1408/71. This will start to apply when its implementing Regulation comes into force. Discussions on the details of an implementing Regulation to replace Regulation 574/72 began, under the Austrian presidency, in February 2006 and are continuing.

Proposals for the Annexes to Regulation 883/2004 have also been under discussion since early in 2006. Minor miscellaneous amendments to the Regulations are also made approximately annually.

Parliament is kept informed of these proposals and of the progress of negotiations through the scrutiny process.

## PRIME MINISTER

### Conrad Black

**Andrew Mackinlay:** To ask the Prime Minister what communications there were between the Government and the Government of Canada on the proposal to appoint Conrad Black to the United Kingdom peerage relating to his Canadian citizenship at that time. [173096]

**The Prime Minister:** I refer my hon. Friend to the answer given to him by my predecessor (right hon. Tony Blair) on 26 June 2007, *Official Report*, column 618W.

### Pensions

**Paul Rowen:** To ask the Prime Minister what representations he has received on the timetable for pension and benefits payments in the period before Christmas 2007. [174867]

**The Prime Minister:** Since 27 June 2007 my Office has received approximately 2,170 letters about pensions and benefits. Given the volume of correspondence I receive, thousands of letters each week covering a broad spectrum of issues, my office records letters by subject rather than by view expressed.

### Regional Government: Public Participation

**Mrs. May:** To ask the Prime Minister (1) who was invited to take part in the consultation on the Government's draft legislative programme by the Ministers for *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and the Humber, *(d)* London, *(e)* the South East, *(f)* the South West, *(g)* the East Midlands, *(h)* the West Midlands and *(i)* the East of England; [169595]

(2) what representations he has received on central government policy relevant to economic growth and sustainable development from the ministers for *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and the Humber, *(d)* London, *(e)* the South East, *(f)* the South West, *(g)* the East Midlands, *(h)* the West Midlands and *(i)* the East of England; [169597]

(3) which high level events have been attended by the Ministers for *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and the Humber, *(d)* London, *(e)* the South East, *(f)* the South West, *(g)* the East Midlands, *(h)* the West Midlands and *(i)* the East of England. [169599]

**Hazel Blears:** I have been asked to reply.

Ministers in their Regional Ministers' role do not make policy decisions for their regions; they are Central Government's advocates in the regions.

All Regional Ministers consulted with stakeholders on the Government draft legislative programme in September and October. In addition a number wrote to interested parties inviting their views. Among those consulted were representatives from local authorities, business, public institutions, voluntary and community sectors, Members of Parliament and Peers, and environmental groups.

Regional Ministers have contributed to the development of Government policy across a range of areas, including economic growth and sustainable development, since their establishment in June.

All Regional Ministers have taken part in a number of high level engagements within their regions, including meetings with local authorities and other organisations, attendance at stakeholder events and visits to local projects and communities.

## HOME DEPARTMENT

### 101 Calls

**Jim Cousins:** To ask the Secretary of State for the Home Department what sum she has allocated to the 101 helpline service in the Northumbria police authority area; and how many calls have been received. [172480]

**Mr. McNulty** *[holding answer 10 December 2007]:* From 31 December 2005 to 31 December 2007, £4,280,756 has been allocated to fund the implementation and operation of the 101 service in the Northumbria police authority area. The service has received approximately 250,000 calls from the public since being launched on 3 July 2006.

### Alcoholic Drinks: Crime Prevention

**James Brokenshire:** To ask the Secretary of State for the Home Department how many local authorities have contacted her Department expressing an interest in establishing an alcohol disorder zone since the detailed guidance on the scheme was published. [173834]

**Mr. Coaker:** None. The consultation with stakeholders regarding alcohol disorder zones (ADZ), following the receipt of Royal Assent to the enabling provisions of the Violent Crime Reduction Act 2006, included the Local Government Association and focused on the detail of the policy rather than seeking to determine the likely take-up of the statutory power by local areas. The guidance outlines that an ADZ can only be designated jointly with the police force, and we would not expect therefore to receive representations from local authorities until final ratification of the statutory instrument in Parliament.

### Alcoholic Drinks: Sales

**James Brokenshire:** To ask the Secretary of State for the Home Department which police basic command units are participating in the Responsible Alcohol Sales Campaign; and how much funding for this purpose each will receive from her Department. [173832]

**Mr. Coaker:** 93 police basic command units nationally are currently participating in the Responsible Alcohol Sales Campaign. Listing the units taking part in the live campaign at this time may undermine the influence and impact of the campaign.

The Home Office is providing £250,000 funding for the campaign.

**James Brokenshire:** To ask the Secretary of State for the Home Department what criteria will be used to assess the effectiveness of the Responsible Alcohol Sales Campaign. [173833]

**Mr. Coaker:** Evaluation of the campaign will be conducted using the data returns from each participating BCU and assessing performance against the criteria for participation in the campaign compared to those areas that did not participate in the campaign.

### Alcoholic Drinks: Young People

**Mr. Hancock:** To ask the Secretary of State for the Home Department what estimate she has made of the number and proportion of retailers who have sold *(a)* tobacco and *(b)* alcohol products to underage customers in each local authority area in Hampshire since 2005. [172818]

**Mr. Coaker:** Information on the number of defendants proceeded against for offences relating to the sale of *(a)* tobacco, and *(b)* alcohol to underage persons can be found in Table 1.

In addition, information on the number of penalty notices for disorder (PNDs) issued to persons aged 16 and over for offences relating to the sale of *(b)* alcohol to underage persons can be found in Table 2.

Court proceedings and PND data for 2007 will be available in the autumn of 2008.

The Home Office does not routinely record or hold information in relation to the proportion of tobacco sales at the national or local level.

Following the Tackling Underage Sales of Alcohol Campaign (TUSAC) 2007 the proportion of underage alcohol sales in Hampshire through the test purchase failure rate of targeted perceived problem premises was 15 per cent.

*Number of defendants proceeded against at magistrates courts for offences of selling alcohol, or tobacco to underage persons in Hampshire police force area for the years 2005 to 2006*[1, 2, 3]

| *Statute* | *Offence description* | *2005* | *2006* |
|---|---|---|---|
| Licensing Act 1964 S.169 A and B as added by Licensing (Young Persons) Act 2001 S.1 | Selling etc intoxicating liquor to person under 18 for consumption on the premises | 11 | 2 |
| Licensing Act 1964 S. 181 A(1) as added by Licensing Act 1988 S. 17 | Wholesaler selling intoxicating liquor to a person under 18 | | |
| Licensing Act 2003 S.146 | Sale of alcohol to person under 18 | | |
| Licensing Act 2003 S.147 | [3]Allowing sale of alcohol to person under 18 | | |
| Children and Young Persons Act 1933 S.7 | Sale of tobacco etc to persons under 16 years | | |
| Total | | 11 | 2 |

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] The Licensing Act 2003 came into force on 24 November 2005.

*Source:*

Court proceedings database held by RDS OCJR (Office for Criminal Justice Reform) - Ministry of Justice

*Number of Penalty Notices for Disorder issued to all persons aged 16 and over, for the offence of sale of alcohol to a person under 18 in Hampshire police force area for the years 2005 and 2006*[1]

| | | *£80 ticket offences* |
|---|---|---|
| *Sale of alcohol to person under 18* | | |
| 2005 | DA07 | 67 |
| 2006 | DA18 | 109 |

[1] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court proceedings database held by RDS OCJR (Office for Criminal Justice Reform) - Ministry of Justice

## Asylum

**Mr. Baron:** To ask the Secretary of State for the Home Department (1) what estimate she has made of the number of failed asylum seekers in the UK in each of the last 10 years; [170369]

(2) what estimate she has made of the number of illegal immigrants living in the UK in each of the last 10 years; [170371]

(3) what estimate she has made of the proportion of immigration which was illegal in each of the last 10 years. [170372]

**Mr. Byrne** *[holding answer 3 December 2007]:* No Government have ever been able to produce an accurate figure for the number of people who remain in the country illegally. Some will go to considerable lengths to remain undetected, others leave without informing the authorities, and it is therefore impossible to quantify accurately.

## Asylum: Free School Meals

**Mr. Frank Field:** To ask the Secretary of State for the Home Department how many recipients of support under Part VI of the Immigration and Asylum Act 1999 were *(a)* eligible for and *(b)* claiming free school meals in the latest period for which figures are available. [172403]

**Mr. Byrne** *[holding answer 10 December 2007]:* All pupils whose parents are being supported under Part VI of the Immigration and Asylum Act 1999 are eligible for free school meals. The Border and Immigration Agency does not have access to data on how many of those eligible are claiming school meals.

## Asylum: Young People

**Mr. Malins:** To ask the Secretary of State for the Home Department how many asylum applications have been made by persons aged under 18 years old in each of the last four years; how many have been *(a)* granted and *(b)* refused; and how many such persons have been granted leave to remain. [166168]

**Mr. Byrne:** The following table shows asylum applications received in the United Kingdom by persons aged under 18 years old at time of application in each of the last four years.

Information on the number of initial decisions made on these applications would be available only by examination of individual case records at disproportionate cost.

Information on asylum applications by age of applicant is published annually. Copies of these publications are available from the Library of the House and from the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

*Applications*[1, 2] *received for asylum in the United Kingdom, excluding dependants, by persons aged under 18 at time of application*

| | *Number* |
|---|---|
| 2003 | 7,865 |
| 2004 | 6,205 |

*Applications[1] [2] received for asylum in the United Kingdom, excluding dependants, by persons aged under 18 at time of application*

| | *Number* |
|---|---|
| 2005 | 5,165 |
| 2006[3] | 4,580 |

[1] Figures rounded to the nearest 5.

[2] This figure may overstate because some applicants aged 18 or over may claim to be younger on leaving their country of origin.

[3] Provisional figures.

### BAE Systems

**Norman Lamb:** To ask the Secretary of State for the Home Department (1) on what date her Department received the original mutual legal assistance request from the US Department of Justice on BAE Systems; what representations her Department has received from *(a)* the US Administration, *(b)* BAE Systems, *(c)* other Government Departments and *(d)* other persons about the progress of the mutual legal assistance request; and on what dates these representations were made; [163521]

(2) whether her Department has forwarded a copy of the US Department of Justice's mutual legal assistance request on BAE Systems to *(a)* the Serious Fraud Office and *(b)* another law enforcement agency. [163522]

**Meg Hillier:** I refer the hon. Member to previous answers provided on this matter. I can confirm that the Home Office received a request for assistance from the USA in respect of corruption allegations concerning BAE Systems on 23 June 2007. The request is being dealt with in accordance with the bi-lateral treaty on mutual legal assistance between the UK and the USA. It would be inappropriate to comment further.

**Norman Lamb:** To ask the Secretary of State for the Home Department with reference to the answer of 19 July 2007, *Official Report*, column 504W, on BAE Systems inquiry, what protocols are encompassed by the phrase considered in the usual way. [163523]

**Meg Hillier:** Requests for mutual legal assistance are received by the UK central authority within the Home Office. They are considered under the relevant UK legislation, namely the Crime (International Co-operation) Act 2003, in conjunction with international convention or treaty obligations that may be pertinent. The central authority receives approximately 5,000 such requests from other states per annum.

Requests are checked to ensure that they come from a competent judicial authority and that they relate to criminal investigations or proceedings being conducted by the requesting state. Checks are also conducted on the requests to ensure there are no issues relating to double jeopardy or human rights considerations such as the death penalty.

While the majority of these cases are straightforward and can be processed relatively quickly, some of the more complex cases require more consideration.

### Bail

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many street bails there were in each police force area in each year since 2003. [172855]

**Mr. McNulty:** The information requested is not collected centrally.

### Bicester Accommodation Centre

**Damian Green:** To ask the Secretary of State for the Home Department what plans her Department has to act upon the recommendations made by the National Audit Office in its report, The cancellation of Bicester Accommodation Centre; and if she will make a statement. [163776]

**Mr. Byrne:** I welcome the NAO's report into the Bicester Accommodation Centre. The report made six recommendations about the project management approach to major projects. The report also acknowledges both the dynamic context of the project and the system and process improvements that have been made since the Accommodation Centre Project began. In particular:

the Home Office has a senior board to scrutinise all major investment decisions which is now firmly embedded as part of the Home Office operating model. This has developed alongside the wider project management capability with the Department;

the Border and Immigration Agency has a senior Approvals Committee which acts as an initial scrutiny chamber, approving all BIA projects over £1 million. Costs and benefits are challenged as part of this process;

new processes have been introduced to ensure that business cases are assessed for their strategic fit, with existing operations and future business change programmes; and

the agency now routinely identifies and monitors dependencies, risks and issues, both at individual project and programme level and across business change programmes, and flags concerns as necessary in monthly reporting to its board and Ministers.

### Border and Immigration Agency

**Damian Green:** To ask the Secretary of State for the Home Department when she plans to publish the Border and Immigration Agency's strategy on mitigating risk from the common travel area; and if she will make a statement. [172951]

**Mr. Byrne:** We are currently reviewing the rules and operation of the common travel area as set out in the 'Securing the UK Border' strategy (March 2007). We will consult common travel area interests as this review is taken forward. The results of the review will be announced in due course.

### Border Police Force

**Mr. Hoban:** To ask the Secretary of State for the Home Department what the budget is for the Border Police Force in *(a)* 2007-08 and *(b)* 2008-09. [173190]

**Mr. McNulty:** Policing at the border is provided by local police forces.

The cost of police at ports is met by police authorities as part of their forces' overall policing duties, but in some cases, such as where an airport is 'designated' under the terms of the Aviation Security Act 1982, contributions are provided by airport operators. No central record is kept of these costs.

A contribution to the cost of special branch officers at ports is made by the Home Office through dedicated security post grants. A total of £212.5 million is being paid to police forces for these and other posts under this mechanism in 2007-08. For security reasons, we do not disclose the breakdown of this grant between different security functions.

The allocations for 2008-09 have not yet been made.

### Case Resolution Directorate

**Kate Hoey:** To ask the Secretary of State for the Home Department how many cases the Case Resolution Directorate is dealing with; and how many of these have been brought by residents in Vauxhall constituency. [173577]

**Mr. Byrne:** In his statement on 19 July 2006, my right hon. Friend the previous Home Secretary advised that the Border and Immigration Agency would resolve its backlog of electronic and paper records relating to unresolved asylum cases in five years or less. The chief executive of the Border and Immigration Agency has given an undertaking to update the Home Affairs Committee before the end of December and this will include information on the progress of this work up to the present time.

### Commissioner of Police of the Metropolis

**Mr. Evans:** To ask the Secretary of State for the Home Department what discussions she has had with the Metropolitan Police Commissioner on the duration of his appointment. [173384]

**Mr. McNulty** *[holding answer 11 December 2007]:* My right hon. Friend the Home Secretary and I have regular meetings with the Commissioner of the Metropolitan Police and they discuss a variety of topics.

### Computer Misuse Act 1990

**James Brokenshire:** To ask the Secretary of State for the Home Department when she expects the amendments to the Computer Misuse Act 1990 made by the Police and Justice Act 2006 to become effective; and what guidance has been published in relation to the new offences created thereby. [172390]

**Mr. McNulty:** The amendments to the Computer Misuse Act 1990 will come into effect after April 2008. We expect to publish the guidance shortly, and an exact date is being determined.

### Crime Prevention

**Mr. Jim Cunningham:** To ask the Secretary of State for the Home Department what steps the Government has taken to involve local communities in crime reduction since 1997. [172937]

**Mr. McNulty** *[holding answer 13 December 2007]:* Section 96 of the Police Act 1996 placed a statutory duty on police authorities to make arrangements for obtaining the views of people in the force area about matters concerning the policing of the area. It is for police authorities to determine locally the methods they adopt to consult with the community. The Crime and Disorder Act 1998 established partnerships between police, local authorities, fire and rescue authorities, Primary Care Trusts in England and Local Health Boards in Wales and police authorities. Under new regulations that came into effect in August 2007, partnerships are required to consult and engage with their communities to identify local crime and disorder priorities, as part of a new set of minimum standards. Partnerships are also required to identify ways in which their communities can support the delivery of those priorities. These new requirements will ensure that local communities are able to influence, and be involved in, crime reduction work at the local level.

### Crimes of Violence

**James Brokenshire:** To ask the Secretary of State for the Home Department pursuant to the answer of 5 December 2007, *Official Report*, column 1218W, on crimes of violence, when she expects the operating model informing proposals to deal with gang membership will be completed. [173826]

**Mr. Coaker:** As stated in the previous reply, the Metropolitan police may be looking to develop this model as part of their work to tackle gangs through the five boroughs alliance. In Boston the model took some 18 months to put together, and it is considered critical that all the relevant elements are fully in place before the London model is launched, in order to ensure its effectiveness.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for the Home Department how much her Department recycled in terms of *(a)* volume of total waste and *(b)* percentage of total waste in each of the last five years. [172479]

**Mr. Byrne:** The following table provides departmental data from 2002-03 until 2005-06, the latest year for which figures have been published. The figures include data from some office properties on the Borders and Immigration Agency and Identity and Passport Service estates. It also includes figures from the public sector prison estate which was part of the Home Office estate until May 2007. The table shows an increase in the amount of waste arisings year on year, which reflects an increase in the total number of properties reported on.

*metric tonnes*

| | *Total waste arisings* | *Percentage of total waste recycled* |
|---|---|---|
| 2002-03 | 985 | 25 |
| 2003-04 | 4,521 | 31 |
| 2004-05 | 10,879 | 35.4 |
| 2005-06 | 17,679 | 35.5 |
| 2006-07 | [1]— | [1]— |

[1] Not yet published

The Home Office continues to explore opportunities to increase further the amount of waste recycled and to identify opportunities for waste minimisation. These initiatives will be supported by more reliable data systems that will be realised through our new shared service operations, as well as by procurement initiatives.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for the Home Department how much her Department spent on overnight accommodation for Ministers overseas in the last year. [171333]

**Mr. Byrne:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006-31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the ministerial code.

### Deportation

**Mr. Clappison:** To ask the Secretary of State for the Home Department how many asylum claimants whose claims have failed have been deported or otherwise removed from the UK since 1 April 2003. [172683]

**Mr. Byrne** *[holding answer 10 December 2007]:* Between April 2003 and September 2007, inclusive, a total of 72,550 asylum applicants have been removed from the UK; 62,020 of these had claimed asylum at some stage as principal applicants and 10,530 were dependants of asylum applicants. These figures have been rounded to the nearest five and are provisional.

These figures include enforced removals, persons refused entry at port and subsequently removed (including cases dealt with at juxtaposed controls), persons leaving voluntarily after enforcement action had been initiated against them and persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration. Removals since January 2005 also include those who it is established have left the UK without informing the immigration authorities.

Persons departing voluntarily can leave the UK at any time without informing the authorities. The Border and Immigration Agency often learns of such people departing after they have left the UK, and hence, it is not always possible to say when they left. Since voluntary departures are included in figures on removals it is therefore not possible to say at what stage in the asylum process people are removed.

National statistics on immigration and asylum are available from the House of Commons Library.

### Deportation: Sudan

**Mr. Swire:** To ask the Secretary of State for the Home Department how many Sudanese *(a)* migrants and *(b)* asylum seekers have been deported to Sudan in each of the last five years. [162163]

**Mr. Byrne:** The following table shows the total number of Sudanese nationals removed to Sudan between January 2004 and June 2007, broken down into asylum applicants and non-asylum cases. Information on the total number of persons (including non-asylum cases) removed from the UK in 2007 is not currently available. Information on the destination of persons removed from the UK has been recorded only since the start of 2004.

Published statistics on immigration and asylum are available from the Library of the House.

*Removals, voluntary departures and assisted returns[1], nationals of Sudan, to Sudan, January 2004 to June 2007[2, 3]*

| | | | | *Number of removals* |
|---|---|---|---|---|
| *Period* | *2004* | *2005* | *2006[3]* | *January to June 2007[3]* |
| Total removals of Sudanese nationals to Sudan[1] | 35 | 55 | 85 | n/a |
| *Of which* | | | | |
| Asylum applicants[4] | 30 | 45 | 75 | 45 |
| Non-asylum cases | 5 | 10 | 10 | n/a |

n/a = Figures are not available.

[1] Includes enforced removals, persons refused entry at port and subsequently removed (including cases dealt with at juxtaposed controls), persons departing voluntarily after enforcement action had been initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organization for Migration and since January 2005 those who it is established have left the UK without informing the immigration authorities.

[2] Figures rounded to the nearest five and may not sum to the totals shown because of independent rounding.

[3] Provisional figures.

[4] Persons who had sought asylum at some stage, including dependants.

### Driving Under Influence

**Lady Hermon:** To ask the Secretary of State for the Home Department whether she plans to lower the permitted alcohol levels in relation to drink driving offences; and what recent research has been commissioned on this subject. [170471]

**Jim Fitzpatrick:** I have been asked to reply.

The most recent assessment of the possible effect of a change in the legal limit was included in the 1998 consultation paper "Combating Drink Driving: Next Steps", a copy of which is in the Library of the House. The Government keeps this issue under review.

### Dungavel Immigration Reception Centre

**Mr. Ingram:** To ask the Secretary of State for the Home Department when the last ministerial visit was to Dungavel Immigration Reception Centre; and when *(a)* she and *(b)* her ministerial team next plans to visit the centre. [173067]

**Mr. Byrne:** The last ministerial visit to Dungavel Immigration Removal Centre was made by Tony McNulty in his capacity as Minister for Immigration in June 2005.

As the current Minister of State for Borders and Immigration I intend to visit the centre in 2008.

### Emergency Calls

**John Cummings:** To ask the Secretary of State for the Home Department how many 999 calls were made in the Durham police authority area in each year since 2000. [172764]

**Mr. McNulty** *[holding answer 10 December 2007]*: The information requested is published in the Annual Reports of Her Majesty's Inspectorate of Constabulary (HMIC). The latest available data refers to the 2004-05 financial year, and are given in the table.

*Emergency calls received in Durham police force area from 1999-2000 to 2004-05*[1]

| | *Number of calls* |
|---|---|
| 1999-2000 | 61,657 |
| 2000-01 | 57,548 |
| 2001-02 | 59,926 |
| 2002-03 | 67,072 |
| 2003-04 | 59,327 |
| 2004-05 | 82,346 |

[1] HMIC have advised that emergency call handling data will no longer be published in their Annual Report and that the data for 2004-05 is the last series to be published.

### Entry Clearances: Foreign Workers

**Mr. Clappison:** To ask the Secretary of State for the Home Department what research she has *(a)* commissioned and *(b)* evaluated into the likely change in the number of non-EU workers given leave to enter the UK as a result of the introduction of (i) the points-based system, (ii) the measures contained in Her Majesty's Gracious Speech and (iii) the introduction of further language requirements; and if she will publish such research. [166979]

**Mr. Byrne:** The Migration Advisory Committee (MAC) and the Migration Impact forum (MIF) have been set up to help inform the development of immigration policy.

### Entry Clearances: Iran

**Mr. Willetts:** To ask the Secretary of State for the Home Department whether membership of or attachment to certain Iranian higher education institutions leads to a ban on an individual's entry into the UK. [172369]

**Mr. Byrne:** Membership of, or attachment to, an Iranian higher education institution does not lead to an automatic ban on an individual's entry to the UK. All applications are considered on their individual merits.

**Mr. Willetts:** To ask the Secretary of State for the Home Department whether Fereydoon Abbasi, Mohammad Tavalaei, Mohsen Fakhrizadeh, Mansour Asgari or Mohamad Amin Bassam of the Imam Hossein University in Tehran have been allowed admittance to the UK in the last 10 years; and whether they would currently be allowed into the UK. [172396]

**Mr. Byrne:** It is not the policy of the Home Office to comment on individual cases.

### Essex Police Authority: Finance

**Mr. Amess:** To ask the Secretary of State for the Home Department what the *(a)* overspend or *(b)* underspend was for Essex Police Authority in each year since 1990-91. [174085]

**Mr. McNulty:** Police authorities are legally required to set balanced budgets taking into account any use of reserves. Decisions on the distribution of resources are matters for the Chief Officer and the Police Authority.

### Essex Police: Sick Leave

**Mr. Amess:** To ask the Secretary of State for the Home Department (1) what the average annual rate of sickness absence was in *(a)* Southend and *(b)* Essex police in each year since 1997; [174064]

(2) how many and what proportion of working days were lost due to *(a)* sickness and *(b)* stress, anxiety or depression in (i) Southend and (ii) Essex police in each year since 1997. [174065]

**Mr. McNulty:** The available data are for the amount of police officer working time lost to sickness, breakdowns for the type of sickness are not collected centrally. Data are available for 2002-03 onwards at the police force level only.

Police officer sickness absence data for 2002-03 onwards are available on the Home Office website, located at:

http://www.police.homeoffice.gov.uk/performance-and-measurement/performance-assessment/

For 2002-03 and 2003-04, the data are given in the 2003-04 police performance monitoring report, in the form of police officer days lost per person per year.

For 2004-05 onwards, the data are given in the annual police performance assessment reports, in the form of average number of police officer hours lost per person per year.

### Essex Police: Standards

**Mr. Amess:** To ask the Secretary of State for the Home Department what steps the Government is taking to improve the quality of local policing in *(a)* Southend and *(b)* Essex; and if she will make a statement. [174077]

**Mr. McNulty:** The Government are committed to ensuring every community in England and Wales has a neighbourhood policing team by April 2008. Neighbourhood policing teams, including those in Southend and Essex, are primarily concerned with engaging and working with communities in agreeing and tackling local policing priorities.

There are 16 dedicated neighbourhood policing teams in the south eastern division which covers Southend, and 145 teams in total in Essex. In 2008-09, Essex will receive £6.84 million in funding to be used primarily for police community support officers (PCSOs), but also to contribute to wider neighbourhood policing.

Furthermore, Essex police received a 'good' grading in their assessment of local priorities as part of the 2006-07 joint HMIC and Home Office police performance assessments. This reflects very positively on the force's performance in dealing with locally selected indicators set by the force and police authority—those issues that are of particular concern to local citizens.

## Extradition

**Mr. Hancock:** To ask the Secretary of State for the Home Department how many extradition requests were made by the UK to *(a)* the USA, *(b)* each EU member state and *(c)* other countries in each of the last five years; and how many of those were (i) successful and (ii) refused. [164090]

**Meg Hillier:** For the purposes of this reply, the answer gives details of requests made by England and Wales; requests from Scotland and Northern Ireland are matters for the Scotland Office and Northern Ireland Office respectively. Extradition requests in England and Wales originate with the prosecuting authorities.

Since 1 January 2004, extradition between the UK and European Union has been conducted under the Framework Decision on the European Arrest Warrant (EAW), which was given effect in the UK by Part 1 of the Extradition Act 2003. The other EU member states have been designated under Part 1 of the Extradition Act 2003 at regular intervals. A separate table sets out the statistics for the EAW.

If an extradition request was sent to a member state before that state began operating the EAW, the request will continue to be dealt with under the arrangements in place with that state when the request was made.

It should be emphasised that a person is not always returned in the same year that an extradition request has been made.

*Table 1: Extradition requests made by England and Wales 2003-07*

## Firearms

**Sarah Teather:** To ask the Secretary of State for the Home Department what estimate she has made of the number of illegal firearms held in England and Wales; and if she will make a statement. [171991]

**Mr. Coaker:** There is no reliable method of assessing how many illegal firearms are held. Any estimate is unverifiable and likely to be misleading.

## Fraud: Finance

**Dr. Iddon:** To ask the Secretary of State for the Home Department how the Government plan to divide the allocation of funding of £28 million to tackle fraud between the National Fraud Strategic Authority and the National Fraud Reporting Centre. [173693]

**Mr. Coaker:** The comprehensive spending review (CSR) allocated over £28 million in new money for 2008 to 2011 for the implementation of the Fraud review recommendations to establish a National Fraud Strategic Authority (including a National Fraud Loss Measurement Unit), a National Fraud Reporting Centre and a National Lead Force for fraud. Specific funding earmarked for each of these remains confidential under the terms of HM Treasury's settlement letter and due to the commercially sensitive nature of the current development work.

## Fraud: Insurance

**Dr. Iddon:** To ask the Secretary of State for the Home Department if she will ensure that those activities identified as high risk by the National Fraud Strategic Authority receive additional police resources to tackle the risk of insurance fraud. [173694]

**Mr. Coaker:** The Government recently announced additional funding of over £28 million to implement the recommendations of the Fraud review. This includes funding to establish a national lead force for fraud which will provide a centre of expertise and resources to support fraud investigations. This is in addition to the £9.2 billion which chief officers will allocate according to national and local priorities. The police, along with other stakeholders, will be involved in developing the national fraud strategy, including the identification of high risk activities and the development of investigative capacity against fraud.

### Frontiers: Personal Records

**Damian Green:** To ask the Secretary of State for the Home Department if she will make a statement on the inclusion of passenger name record information in the e-borders programme. [163787]

**Mr. Byrne:** Legislation will shortly be introduced to require carriers to provide Travel Document Information (TDI) together with Passenger Name Record data (PNR) (otherwise known as Other Passenger Information (OPI) to e-Borders to the extent that it is known to the carrier.

From March 2008 those carriers which provide OPI data under existing arrangements to Project Semaphore, the e-Borders pilot project, will be expected to continue to do so. The Government have funded transmission and transaction costs together with some systems change costs of participation in this pilot. Analysis of both OPI and TDI data has delivered significant operational benefits to border agencies, contributing to the arrest of individuals wanted for offences including murder, drug smuggling, rape and assault: and has led to the seizure of counterfeit travel documents, drugs and contraband. This arrangement however, was always with the understanding that the funding would cease in March 2008 and we will continue to fulfil our undertaking to industry to meet these costs until then.

The e-Borders Programme will cover 95 per cent. of passenger movements by 2010 and is committed to using all reasonable efforts to achieve a fair roll out. This will be implemented progressively, in a consultative and collaborative manner with carriers and port operators.

### Genetics: Databases

**Mr. Spring:** To ask the Secretary of State for the Home Department how many children in *(a)* the East of England and *(b)* Suffolk have their DNA stored on a database; and how many of those have been charged with committing a criminal offence. [162595]

**Meg Hillier:** The number of individuals on the national DNA database aged under 16 as at 25 October 2007, whose records were added by forces in the East of England including Suffolk, is as follows:

| | *Number* |
|---|---|
| Bedfordshire | 1,144 |
| Cambridgeshire | 1,666 |
| Essex | 4,565 |
| Hertfordshire | 2,267 |
| Norfolk | 1,636 |
| Suffolk | 1,593 |
| Total | 12,873 |

Information on the NDNAD is recorded on the basis of the police force which took the DNA sample. The address of the person sampled is not recorded. Thus the figure for Suffolk (for example) includes people from outside Suffolk whose DNA was sampled by Suffolk police, and excludes people from Suffolk whose DNA was sampled by forces elsewhere.

The individuals shown are those who were under 16 on 25 October 2007. Individuals who were under 16 at the time a DNA sample was taken from them, but were over 16 on this date, are not included in the figures.

A certain number of profiles held on the NDNAD are replicates, i.e. a profile for a person has been loaded on more than one occasion (one reason for this is that the person gave different names, or different versions of their name, on separate arrests). At present, the replication rate is 13.7 per cent. i.e. the number of people whose details are loaded is 13.7 per cent. less than the number of profiles. The number of individuals shown is calculated on this basis.

The national DNA database records the DNA profile for a particular individual. It does not hold data on whether people have been charged with an offence. This information is held on the police national computer. Obtaining information on the number of under-16s whose DNA was sampled by Suffolk police, who have been charged with a criminal offence, would require cross searching of records held on the PNC against the NDNAD, which could be done only at disproportionate cost.

### Human Trafficking

**Dr. Palmer:** To ask the Secretary of State for the Home Department when the Government will ratify the Council of Europe Convention on Action Against Trafficking in Human Beings. [172592]

**Mr. Coaker:** The Government are committed to ratifying the Council of Europe Convention on Action Against Trafficking in Human Beings as soon as possible as part of our ongoing anti-trafficking strategy, set out in the comprehensive UK Action Plan on tackling human trafficking. We will not ratify the Convention until it is certain that we have implemented it in full because our legal system, unlike in some other signatory countries, requires full compliance with a Convention before ratification.

### Identity Cards

**Mr. Hoban:** To ask the Secretary of State for the Home Department (1) for what reasons her Department revised its estimate of the portion of the total cost of the identity card and biometric passport scheme that would be incurred in order to introduce the second biometric passport in June 2007; [164765]

(2) what assumptions formed the basis of her Department's estimate in June 2007 that biometric passports accounted for 70 per cent. of the total cost of the biometric passport and ID card scheme; [164967]

(3) what assumptions underlay her Department's estimate of the apportionment of costs between passports and identity cards in the Identity Cards Scheme Cost Report published in November 2007. [164968]

**Meg Hillier:** the latest six monthly Identity Cards Scheme Cost Report, published on 8 November 2007, sets out those elements of the cost estimates that relate specifically to passports, those specific to identity cards and those that are common to both. The cost of registering individuals for passports and ID cards is included in common costs because the same technology infrastructure and business processes will be used. In many cases, the same application will result in the issue of both a passport and an ID card.

The latest cost report may be found at:

http://www/ips.gov.uk/identity/publications-legislative.asp

I would refer the hon. Member to that report.

A similar analysis of cost assumptions was undertaken previously in June 2007 to derive the proportion of costs that would be required under the scheme for biometric passport purposes. The June 2007 cost estimates, and the November 2007 cost report figures, are not comparable as they cover different time periods, as required under the ID Cards Act.

The details assumptions that underpin the Business Case and Cost Report of the National Identity Scheme are commercially sensitive. Release of this detailed information could jeopardise the recently commenced procurement dialogue with potential suppliers of services under the scheme.

### Illegal Immigrants: Employment

**Keith Vaz:** To ask the Secretary of State for the Home Department (1) how many employers were fined in *(a)* 2005, *(b)* 2006 and *(c)* 2007 for knowingly employing an illegal immigrant; [169703]

(2) how many cases there were where an employer has been found to knowingly employ an illegal immigrant but was not fined in *(a)* 2005, *(b)* 2006 and *(c)* 2007. [169707]

**Mr. Byrne:** Statistics showing the number of defendants proceeded against and found guilty under section 8 of the Asylum and Immigration Act 1996, in 2005 and 2006, in England and Wales, are shown in the following table. All defendants found guilty of this offence were given a fine, with the exception of one defendant in 2005 who was given a conditional discharge.

Information on persons proceeded against for offences under Immigration Acts 1971 to 2004 during 2007 will be available in the autumn of 2008.

Information on whether or not the defendants were aware of the immigration status of their employees is not available and would be available only by the examination of individual case files at disproportionate cost, because this has not been a specific offence.

Difficulties in securing prosecutions under the 1996 legislation led us to bring forward the Immigration, Asylum and Nationality Act 2006 to tackle illegal migrant working, which will provide the Border and Immigration Agency with a wider and more effective range of tools with which to tackle non-compliance. The 2006 Act introduces a system of civil penalties for employers who employ illegal migrants through less than diligent practices, alongside a tough new offence for those who knowingly employ illegal migrants, which will carry a maximum two year prison sentence and/or an unlimited fine. These new measures will come into force on 29 February 2008.

Published statistics on immigration and asylum are available from the Library of the House and from the Home Office's Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1 .html.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts under Section 8 of the Asylum and Immigration Act 1996 (Employing a person aged 16 and above subject to immigration control), 2005 to 2006[1, 2] England and Wales*

| | Number of persons | |
|---|---|---|
| | *2005* | *2006*[3] |
| Proceeded against | 23 | 11 |
| Found guilty | 13 | 7 |

[1] Principal immigration offence.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] Figures are provisional.

### Illegal Workers

**Damian Green:** To ask the Secretary of State for the Home Department whether *(a)* Government Departments and *(b)* executive agencies will be liable to pay the proposed £10,000 civil penalty for employing illegal workers. [172958]

**Mr. Byrne:** People employed to work on Government departmental and executive agency premises whether employed directly by the Government Department, the executive agency or provided by an independent employer are required to satisfy requirements on identity, nationality and immigration status.

Independent employers, such as contractors, with staff working in Government Department and executive agency buildings will not enjoy this immunity.

The Border and Immigration Agency has the prime responsibility for identifying employees working illegally and taking action in such circumstances. This could include the removal of the employee from the United Kingdom and, subject to Crown immunity, the conviction of the employer under current legislation and the liability to a civil penalty and conviction under the proposed legislation which is due to be implemented on 29 February 2008.

### Immigration Controls

**Damian Green:** To ask the Secretary of State for the Home Department how many staff in her Department will be assigned to process *(a)* requests for a licence to sponsor foreign migrants and *(b)* migrant sponsor certificates. [172963]

**Mr. Byrne:** Further planning and analysis in advance of the implementation of the points based system will refine and finalise staff numbers.

**Damian Green:** To ask the Secretary of State for the Home Department (1) what estimate she has made of the likely cost to local authorities of *(a)* becoming licensed to sponsor migrants and *(b)* issuing certificates of sponsorship to migrants; [172964]

(2) what estimates she has made of the likely cost to the national health service of it *(a)* becoming licensed to sponsor migrants and *(b)* issuing certificates of sponsorship to migrants. [172967]

**Mr. Byrne:** The proposed fee levels for sponsorship registration and for issuing a certificate of sponsorship to migrants will be set out in regulations before Parliament in the new year, including appropriate impact assessments to support our proposals.

**Damian Green:** To ask the Secretary of State for the Home Department how many staff in *(a)* her Department and *(b)* its agencies will be responsible for checking that licensed immigration sponsors are compliant with procedures when her Department begins to license organisations for the sponsorship of migrant workers. [172971]

**Mr. Byrne:** Further planning and analysis in advance of the implementation of the Points Based System will refine and finalise staff numbers.

### Immigration: Children

**Ms Abbott:** To ask the Secretary of State for the Home Department what steps her Department is taking to help children in immigration removal centres who are suffering from *(a)* post-traumatic stress disorder, *(b)* self-harming, *(c)* suicide attempts, *(d)* depression and *(e)* psychological trauma as a result of torture; and if she will make a statement. [172614]

**Mr. Byrne:** All those held in immigration removal centres must have available to them the same range and quality of service as the general public receives from the national health service. Where necessary, removal centre healthcare teams will refer detainees to specialists, including counsellors.

Detainees are medically screened within two hours of their arrival at a removal centre and this includes an assessment for risk of self-harm or suicidal behaviour. Where there is concern that a person presents such a risk, measures are triggered to ensure that the person concerned receives appropriate care. Part of that care will involve the need to monitor and engage with the person concerned. This applies to both adults and children.

**Ms Abbott:** To ask the Secretary of State for the Home Department what consultations her Department *(a)* has had and *(b)* is planning to have with charities and other NGOs working with children in immigration removal centres; and if she will make a statement. [172633]

**Mr. Byrne:** The Border and Immigration Agency consults with various stakeholders. With regard to immigration detention, matters are able to be raised in the Detention User Group, which meets quarterly. A variety of NGOs are represented at these meetings; members of the group are also able to raise any issue outside of the meetings and have direct access to officials should they have a particular concern.

Moreover, the Border and Immigration Agency's Office of the Children's Champion (OCC) has established strong links with the Children's Commissioner for England, Sir Al Aynsley-Green. In agreement with the Children's Commissioners for Northern Ireland, Scotland and Wales, Sir Al Aynsley Green also represents them in immigration matters.

The OCC has also attended events regarding the detention of children at which child welfare agencies from the voluntary and statutory sector were represented. It has also hosted a conference for health professionals to discuss services for children at Yarl's Wood Removal Centre, the main centre for holding families with children. Attendees included medical researchers and national campaigners for immigrant children.

### Immigration: Detention Centres

**Ms Abbott:** To ask the Secretary of State for the Home Department if her Department will introduce limits on the amount of time children may be held in immigration removal centres. [172747]

**Mr. Byrne:** Although Immigration Act powers of detention are not time limited, domestic and ECHR caselaw provides that detention must last for no longer than is reasonably necessary for the purpose for which it is authorised and must not be of excessive duration.

The detention of families with children is kept to the minimum period necessary and is subject to frequent and rigorous review, including ministerial authorisation in those cases where detention reaches 28 days. Where family detention is prolonged it is often because parents seek to frustrate the removal process. To introduce a time limit on detention would reward such behaviour and that would be unacceptable.

### Immigration: Hillingdon

**Mr. Randall:** To ask the Secretary of State for the Home Department what estimate she has made of the costs incurred by *(a)* Hillingdon police and *(b)* the London borough of Hillingdon as a result of (i) immigration, (ii) illegal immigration and (iii) the presence of asylum seekers who have exhausted all appeals in the latest period for which figures are available. [171112]

**Mr. McNulty:** Costs to the police are not separately identified. Decisions on the distribution of resources are a matter for the Commissioner and the Metropolitan police authority.

Costs to the London borough of Hillingdon are also not separately identified.

**Mr. Randall:** To ask the Secretary of State for the Home Department how many asylum seekers who had exhausted all appeals were resident in the London Borough of Hillingdon in each year since 1997, broken down by country of origin. [171117]

**Mr. Byrne:** The closest available information is the number of asylum seekers in receipt of support from BIA, broken down by Government office region and local authority. The figures do, however, cover all those on support, which is principally those whose asylum application has not yet had an initial decision or who have an outstanding right of appeal.

These and other statistics relating to asylum are published on a quarterly and annual basis and the latest publication, covering the third quarter of 2007, is available on the Home Office Research, Development and Statistics website at:

http://www.homeoffice.gov.uk/rds/immigration1.html

Further breakdowns of those in receipt of support from BIA, by parliamentary constituency, are also available from the Library of the House.

### Immigration: Kent

**Damian Green:** To ask the Secretary of State for the Home Department what estimate she has made of the costs incurred by Kent police as a result of immigration in *(a)* 2005 and *(b)* 2006. [168344]

**Mr. McNulty:** Kent police authority and force do not separately identify costs incurred as a result of immigration. Decisions on the distribution of resources are matters for the chief officer and the police authority.

### Immigration: Northern Ireland

**Mrs. Iris Robinson:** To ask the Secretary of State for the Home Department what responsibility her Department has to monitor the number of foreign nationals residing in Northern Ireland; and what measures her Department takes to combat illegal immigration in Northern Ireland. [166727]

**Mr. Byrne:** The Border and Immigration Agency has responsibility for immigration control matters throughout the UK, including Northern Ireland, and has a team of enforcement officers based in the Province who work closely with the Police Service of Northern Ireland.

The Agency does not disaggregate statistics for areas within the UK.

Records on migrants who are legally authorised to live and work in the UK are held but such migrants may move freely within the UK subject to their immigration conditions.

The Agency maintains records on asylum applications, including failed asylum seekers in the UK. The availability of the information on these cases is currently linked to the support that they receive.

The Agency, the PSNI and the Garda National Immigration Bureau work collaboratively and run regular intelligence-led operations to counter risks to the common travel area borders. These operations have successfully prevented foreign nationals attempting to enter Northern Ireland and the Republic illegally in both directions.

The Agency operates immigration controls at the international ports in Northern Ireland, refusing entry where appropriate, thereby preventing illegal migrants from entering by those routes.

In addition, the Agency works closely with the police service in Scotland in dealing with those who are in the UK illegally and who are identified when seeking to move between the Province and Great Britain.

In the last six months, account managers have been recruited in Northern Ireland to advise employers about their responsibilities when employing overseas nationals and the penalties and sanctions that will apply where they knowingly employ people who are here illegally.

Compliance officers will audit employers in the Province to ensure that the law is being complied with and will initiate enforcement action in appropriate cases.

### Immigration: Security Services

**Frank Dobson:** To ask the Secretary of State for the Home Department whether any companies providing security services to Government departments have been prosecuted for employing people not entitled to be employed in this country. [175021]

**Jacqui Smith:** To date there have been no prosecutions under section eight of the Asylum and Immigration Act 1996 of companies for providing illegal migrant workers to work as security guards in Government Departments.

Illegal working is an issue which we take seriously which is why we introduced new measures in the Immigration, Asylum and Nationality (IAN) Act 2006 to ensure employers meet their obligations. This will give us greater enforcement powers, which we will not hesitate to use.

As I told Parliament last week, the Border and Immigration Agency (BIA) has prioritised enforcement action with respect to the security industry. Cases are being analysed for evidence of employers who appear to have a track record of employing people who do not have a right to work. The BIA tells me that a third of its illegal working operation is deployed on that employment sector.

As a result of this action, problems were identified with one of the sub-contractors providing services to the Home Office. This led on Friday 14 December to the identification and arrest of one member of the sub-contractor's security staff who did not have the right to work and is now subject to deportation action. The Home Office is now working with the sub-contractor to recheck individually the right to work of all their security staff supplied to the Home Office.

Furthermore, the permanent secretary has taken immediate steps to tighten the procedures for checking the identity and immigration status of those working in the Home Office, whether as a civil servant, employed by a contractor, or in any other capacity.

### International Conference on Illicit Nuclear Trafficking

**Paul Flynn:** To ask the Secretary of State for the Home Department what contribution Ministers or officials from her Department made to the International Conference on Illicit Nuclear Trafficking: Collective Experience and the Way Forward, held in Edinburgh between 19 and 22 November. [172978]

**Mr. McNulty:** The conference was addressed by William Nye, Director for Law, Security and International in the Office for Security and Counter-terrorism, who provided a keynote speech on 19 November titled "The UK approach to combating nuclear terrorism".

### Muhammad Qazilbash Mumtaz

**Clare Short:** To ask the Secretary of State for the Home Department when she expects the Border and Immigration Agency to reply to the letter of 23 October from the right hon. Member for Birmingham, Ladywood on Muhammad Qazilbash Mumtaz (acknowledgement reference B31608/7). [173583]

**Mr. Byrne:** The Border and Immigration Agency wrote to my right hon. Friend on 4 December 2007.

### Neneh Famata Jalloh

**Clare Short:** To ask the Secretary of State for the Home Department when she expects the Border and Immigration Agency to reply to the letter of 29 October from the right hon. Member for Birmingham, Ladywood sent on behalf of Neneh Famata Jalloh (Home Office reference J112636, acknowledgement reference B30489/7). [173618]

**Mr. Byrne:** I wrote to my right hon. Friend on 4 December 2007.

### Offenders

**Mr. Garnier:** To ask the Secretary of State for the Home Department how many persons working for her Department have unspent criminal convictions. [163348]

**Mr. Byrne:** Information obtained on recruitment or reported by employees is retained on personnel files or by HR management units as appropriate and is not collated. It could be obtained only at disproportionate cost.

### Overseas Students: Vetting

**Mr. Willetts:** To ask the Secretary of State for the Home Department when the new immigration rules which will mean that students studying proliferation sensitive courses require ATAS clearance to enter the country are planned to come into force. [172368]

**Mr. Byrne:** The relevant changes to the immigration rules took effect on 30 November 2007.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for the Home Department how much *(a)* the UK Passport Service, *(b)* the Identity and Passport Service, *(c)* Her Majesty's Inspectorate of Constabulary, *(d)* the immigration and nationality directive and *(e)* the National Policing Improvement Agency recycled in terms of (i) volume of total waste and (ii) percentage of total waste in each of the last five years. [172420]

**Mr. Byrne:** The recycling data for the agencies and non-departmental public bodies requested is unavailable because comprehensive waste data collection and reporting systems are not currently in place in all of these organisations. The following table provides departmental data from 2002-03 until 2005-06, the latest year for which figures have been published. The figures include data from some office properties on the Borders and Immigration Agency and Identity and Passport Service estates. It also includes figures from the public sector prison estate which was part of the Home Office estate until May this year. The table shows an increase in the amount of waste arisings year on year, which reflects an increase in the total number of properties reported on.

| | *Total waste arisings (metric tonnes)* | *Percentage of total waste recycled* |
|---|---|---|
| 2002-03 | 985 | 25 |
| 2003-04 | 4,521 | 31 |
| 2004-05 | 10,879 | 35.4 |
| 2005-06 | 17,679 | 35.5 |
| 2006-07 | [1]— | [1]— |

[1] Not yet published

The Home Office continues to explore opportunities to increase further the amount of waste recycled and to identify opportunities for waste minimisation. These initiatives will be supported by more reliable data systems that will be realised through our new shared service operations, as well as by procurement initiatives.

**Mr. Hayes:** To ask the Secretary of State for the Home Department what the policy is of *(a)* the Identity and Passport Service, *(b)* Her Majesty's Inspectorate of Constabulary, *(c)* the Immigration and Nationality Directorate and *(d)* the National Policing Improvement Agency on recycling. [172421]

**Mr. Byrne:** None of the organisations cited has its own dedicated recycling policy. Rather they operate under the departmental waste policies which stem from our commitment to the Sustainable Operations on the Government Estate, published in June 2006 which require central Government Departments and their agencies to increase the amount of waste recycled to 40 per cent. of their waste arisings by 2010 and increase their recycling figures to 75 per cent. of their waste arisings by 2020.

### Police

**Mr. Boris Johnson:** To ask the Secretary of State for the Home Department how many full-time equivalent police officers there were per recorded incident of *(a)* rape, *(b)* homicide and *(c)* violence against the person in each London borough in each year since 1997. [171789]

**Mr. McNulty:** Figures are available centrally from 2002-03, and appear in the following tables. The police officer totals used in the ratios relate to all officers in post in each borough, and not just to those involved with investigating rapes, homicides and violence against the person which may involve officers from other boroughs and central services.

*Number of full-time equivalent (FTE) police officers per recorded offences of rape, homicide and violence against the person, by London borough 2003-07*

*Table A: Total number of police officers (FTE) in post[1] per 100 recorded rape offences in each London borough*

| | *2002-03[2]* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|
| **Barking and Dagenham** | 515 | 685 | 566 | 645 | 628 |
| **Barnet** | 870 | 644 | 668 | 792 | 823 |
| **Bexley** | 732 | 1,089 | 797 | 1,003 | 1,059 |
| **Brent** | 712 | 530 | 686 | 687 | 722 |
| **Bromley** | 595 | 976 | 858 | 897 | 1,072 |

*Number of full-time equivalent (FTE) police officers per recorded offences of rape, homicide and violence against the person, by London borough 2003-07*

*Table A: Total number of police officers (FTE) in post[1] per 100 recorded rape offences in each London borough*

[1] All figures for police officer numbers are full-time equivalents (FTE). The figures used in these ratios relate to total officers in post, regardless of function, and include staff on career breaks and maternity/paternity leave.

[2] The National Crime Recording Standard was introduced in April 2002. Figures that use recorded crime data before and after that date are not directly comparable, although homicide to have been relatively unaffected.

[3] In accordance with guidance from the Office for National Statistics, homicide values less than 3 have been suppressed in order to protect confidentiality. Where there were no homicides in the period, a ratio cannot be calculated.

**Mr. Meacher:** To ask the Secretary of State for the Home Department whether she plans to introduce secondary legislation to authorise the police and security services to access the travel details of individuals by road, train and air. [172481]

**Mr. McNulty** *[holding answer 10 December 2007]:* Provisions in the Immigration, Asylum and Nationality Act 2006 (IAN Act 2006) and Police and Justice Act 2006 introduced new police powers to capture passenger, crew and service information on international and domestic air and sea journeys. The IAN Act 2006 also introduced a power to allow the police, Border and Immigration Agency and Her Majesty's Revenue and Customs to disclose passenger, crew, service and other travel related data, held by them, to the security and intelligence agencies, where those data are likely to be of use for their statutory purposes. The intention is that these powers will be brought into force by order in 2008. An order made under the Channel Tunnel Act 1987 will also be made to extend the police data acquisition and sharing powers to cover international train journeys. There is no secondary legislation planned that relates to the capture of data about individuals travelling by road.

**Mr. Ruffley:** To ask the Secretary of State for the Home Department (1) how many police officers there were per head of population in *(a)* each police force and *(b)* total in each year since 1997; [172857]

(2) how many members of the special constabulary there were in each police force area, in each year since 1997; [172859]

(3) how many civilian staff were employed by each police force in each year since 1997; and how many of those civilians were employed to perform tasks previously performed by uniformed officers. [172862]

**Mr. McNulty:** The information requested is published annually in the Home Office Statistical Bulletin series 'Police Service Strength, England and Wales.' The bulletins are available in the Library of the House, and can be downloaded from the publications link within the Research Development and Statistics directorate website located at:

http://www.homeoffice.gov.uk/rds/index.html

Information for the number of civilian staff employed to perform tasks previously performed by uniformed officers is not collected centrally.

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what the police authority precept was for each authority in England and Wales in each financial year since 1997. [172866]

**Mr. McNulty:** The information requested is provided in the following table.

*Precept (Band D) increases by force 1997-98 to 2007-08*

English Police Authorities – DCLG
Welsh Police Authorities - WAG

**Mr. Amess:** To ask the Secretary of State for the Home Department what *(a)* discussions she has had with and *(b)* representations she has received from the Essex police authority on the report on sustainable policing produced by the Association of Chief Police Officers and the Association of Police Authorities since July 2007; and if she will make a statement. [174043]

**Mr. McNulty:** None. The case made in sustainable policing was taken into account in developing the provisional police grant settlement tabled by my right hon. Friend the Home Secretary on 6 December.

**Mr. Laws:** To ask the Secretary of State for the Home Department what information is collected by the police on the number of road accidents *(a)* caused by and *(b)* involving non-UK citizens; and if she will make a statement. [175255]

**Jim Fitzpatrick:** I have been asked to reply.

Information on the number of reported personal injury road accidents involving or caused by non-UK citizens is not collected centrally. However, the Department for Transport does collect information on whether vehicles involved in a personal injury road accident are foreign registered. This information is published in table 53 in 'Road casualties Great Britain: the annual report 2006'. Copies of the report have been deposited in the Libraries of the House. This table can also be found on the Department's website at the following address:

http://www.dft.gov.uk/172974/173025/221412/221549/227755/2[illegible]5672/WebTables4153.xls

## Police Authorities

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what plans she has to change the *(a)* membership and *(b)* responsibilities of police authorities. [172853]

**Mr. McNulty:** My right hon. Friend the Home Secretary intends to introduce regulations in respect of the Police and Justice Act 2006 to give police authorities a greater role in the selection of their members, and reduce her own role. These regulations will also introduce measures to monitor appointments to ensure they are fair and transparent. The Mayor of London will also have an increased role under the regulations.

We also intend to introduce regulations to make police authority planning processes more efficient and streamlined and to ensure that police authorities *(a)* monitor the compliance of their forces with the Human Rights Act 1998 and with the authority's policing plan, *(b)* put in place arrangements that secure collaboration between police forces where this would be in the interests of efficiency and effectiveness and *(c)* promote diversity and equality within forces and authorities.

### Police Cells

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what pilots have been undertaken on the use by police of short-term holding facilities as an alternative to detention in police cells; and if she will make a statement. [172873]

**Mr. McNulty:** No pilots have been carried out. This is being considered as part of the consultation process on the Review of PACE.

### Police National Computer

**Keith Vaz:** To ask the Secretary of State for the Home Department how much is being spent on ensuring that the Police National Computer is fully updated. [169844]

**Mr. McNulty:** This information is not held centrally. However, the Police National Computer (PNC) system is continuously updated by the police.

**Keith Vaz:** To ask the Secretary of State for the Home Department when the Police National Computer will be fully updated with court records. [170023]

**Mr. McNulty:** The Police National Computer (PNC) is continuously updated with court records information.

### Police: Accidents

**James Brokenshire:** To ask the Secretary of State for the Home Department how many people were *(a)* killed and *(b)* injured following police vehicle pursuits in each year since 1997, broken down by police force area. [170423]

**Mr. McNulty:** The available data are for 2002-03 onwards and relate to road traffic collisions on public roads during immediate/emergency responses and police pursuit, and are given in the following tables.

In responding effectively to emergency situations the police must have due regard to the safety of other road users. The IPCC Report on their two-year review of road traffic incidents involving police vehicles which resulted in a fatality or serious injury was recently published ("Police Road Traffic Incidents: A Study of Cases Involving Serious and Fatal Injuries" http://www.ipcc.gov.uk/rti_report_11_9_07.pdf).

There are 29 recommendations for police forces in the report about how practice could and should be changed.

[1] Headcount figures. Includes both police personnel and members of the public.

[2] Fatal and serious injuries are as defined in the Department of Transport Stats 20 instructions for the completion of road accident reports.

[3] An immediate/emergency response is when a police vehicle is en route to a reported incident.

[4] A police pursuit is where a police vehicle driver is pursuing a fleeing vehicle with the intention of causing it to stop.

[5] Data are not available.

## Police: False Alarms

**Jessica Morden:** To ask the Secretary of State for the Home Department what estimate her Department has made of the average cost per incident incurred by the police in attending false call-outs triggered by security alarms. [173621]

**Mr. McNulty:** No estimates have been made. The information for all police forces in England and Wales is not held centrally and could be obtained only at disproportionate cost.

## Police: Finance

**Mr. Hayes:** To ask the Secretary of State for the Home Department what the cost was in each of the last 10 years to police in each police force area on *(a)* detecting illegal immigrants, *(b)* removing or deporting people from the UK, *(c)* translation and interpretation for immigration-related work and *(d)* other immigration-related work. [167715]

**Mr. McNulty:** The information for all police forces in England and Wales is not held centrally and could be obtained only at disproportionate cost.

Decisions on the distribution of resources are matters for the chief officer and the police authority.

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what the *(a)* overspend and *(b)* underspend was for each police authority in England and Wales in each year since 1996-97. [172867]

**Mr. McNulty:** Police authorities are legally required to set balanced budgets taking into account any use of reserves. Decisions on the distribution of resources are matters for the chief officer and the police authority.

## Police: Hampshire

**Mr. Hancock:** To ask the Secretary of State for the Home Department how many *(a)* police constables, *(b)* police community support officers and *(c)* special constables were allocated to each local policing area in Hampshire in each year since 2005. [172312]

**Mr. McNulty:** Figures collected centrally relate to police officers (rather than police constables), police community support officers and special constables, and are shown in the following tables:

*Number of police officers, police community support officers and special constables in post in Hampshire Basic Command Units (BCUs), 2005-07*

*Table A: Police Officers (Full-Time Equivalent)*

| | *31 March 2005* | *31 March 2006* | *31 March 2007* |

| West Hants (after April 2006)[1] | n/a | n/a | 80 |

[1] Basic Command Unit affected by boundary change in April 2006.

[2] Figures taken from ad hoc collections for 30 June 2005 and 30 June 2006, which may not be consistent with the main National Statistics collections (in terms of definitions as well as the different dates).

*Note:*

Figures for Basic Command Units do not total to police force personnel totals, because Central Services (e.g. HQ staffing) are not included.

## Police: Manpower

**Lynne Featherstone:** To ask the Secretary of State for the Home Department whether numbers of officers employed by non-Home Office police constabularies are counted when calculating total police manpower levels; and how many such officers are employed in each force. [173125]

**Mr. McNulty:** The Home Office does not routinely collect data on non-Home Office police forces. However, information on officer, police staff and police community support officer numbers has been provided by the British Transport police on a voluntary basis since 2002-03 in view of that force's high public profile. Although the data is published in the Home Office

Statistical Bulletin, "Police Service Strength", the number of BTP officers is not included in the overall police officer numbers used by the Home Office. At the end of March 2007 BTP had 2,555 police officers.

### Police: Recruitment

**Mr. Ruffley:** To ask the Secretary of State for the Home Department what proportion of police officers recruited in each year since 1997 were graduates. [172856]

**Mr. McNulty:** The information requested is not collected centrally in the police personnel statistics series.

### Police: Video Conferencing

**Mr. Ruffley:** To ask the Secretary of State for the Home Department on how many occasions a custody officer in a designated police station has used video conferencing or similar facilities to carry out oversight functions of a person detained at a non-designated police station under section 45A of the Police and Criminal Evidence Act 1984; and if she will make a statement. [172854]

**Mr. McNulty:** The provisions of section 45A of the Police and Criminal Evidence Act 1984 have not been commenced. This is being considered as part of the consultation process on the Review of PACE.

### Prisoners: Deportation

**Mr. Garnier:** To ask the Secretary of State for the Home Department how many foreign national prisoners were deported or removed in each year from 2002 to 2006; and how many have been deported or removed in 2007. [163346]

**Mr. Byrne:** On 14 June the chief executive of the Border and Immigration Agency wrote to the Home Affairs Committee to provide the most recent provisional information available on the deportation of foreign national prisoners. In this letter the chief executive reported that 2,784 foreign national prisoners were deported or removed in the financial year 2006-07.

Statistics on the deportation of foreign nationals were last published in 2002. Copies of this are available in the Library of the House.

Published information on persons removed as a result of deportation action has not been available from 2003 onwards due to data quality issues. The Border and Immigration Agency is putting in place new systems to improve its data collection systems for the future in this area.

### Project Iris

**Damian Green:** To ask the Secretary of State for the Home Department whether she plans to extend Project Iris beyond the existing terminals at which it is installed; and if she will make a statement. [172953]

**Mr. Byrne:** The IRIS project was introduced to de-risk elements of the e-Borders Programme. Through this project we have been able to demonstrate that biometric technology can be used to securely permit the entry of low risk passengers to the UK via an automated barrier. IRIS is available at Heathrow, Gatwick, Birmingham and Manchester and there are currently no plans to roll out IRIS any further.

As a result of lessons learnt from the IRIS project, wider automated clearance systems are now under development.

### Terrorism

**Paul Flynn:** To ask the Secretary of State for the Home Department what steps have been taken to counter threats of nuclear terrorism against potential targets in the UK. [172976]

**Mr. McNulty:** Countering the threat posed by nuclear terrorism is part of the Government's wider counter-terrorism strategy (CONTEST). This involves a large number of wide ranging actions by the Security Services, the Police and Government; the exact details of which cannot be given for reasons of national security.

However, three examples of the type of steps taken by Government to counter this specific threat are:

1. The UK's Global Threat Reduction Programme which operates and extends a programme of collaboration and international assistance aimed at reducing the threat of proliferation of nuclear and radiological materials. The Programme enables a wide range of non-proliferation and threat reduction activities, ranging from making safe spent nuclear fuel assemblies to improving security at civilian nuclear sites.

2. Programme Cyclamen, which is the joint Home Office and HM Revenue and Customs programme to deploy radiation screening equipment at UK ports of entry. This aims to intercept the illicit movement of dangerous radiological and nuclear materials into the UK. Further details on this programme can be found at:

http://security.homeoffice.gov.uk/science-innovation/radiation-screening1/

3. The Home Office-led Chemical, Biological, Radiological and Nuclear (CBRN) Resilience Programme, established in 2002 to ensure that in the event of a CBRN terrorist incident the response from all concerned will be quick and effective, so that lives can be saved and the impact on property and the environment minimised. This programme has delivered significant improvements in the emergency response to radiological and nuclear incidents. Further details on the programme can be found at:

http://security.homeoffice.gov.uk/cbrn-resilience/

**Mr. Kidney:** To ask the Secretary of State for the Home Department what information she has taken into account on provisions for detaining terrorist suspects before charge in other jurisdictions when formulating her policy on the matter. [174138]

**Mr. McNulty:** We are aware of the policy on pre-charge detention in other countries. My right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs published a document entitled 'Counter-Terrorism Legislation and Practice: A Survey of Selected Countries' in October 2005. This can be found at:

www.fco.gov.uk/Files/kfile/QSpercent20Draftpercent2010percent20FINAL1.pdf.

We also published a document on 25 July 2007 entitled 'Terrorist Investigations and the French Examining Magistrates System' which can be found at:

www.security.homeoffice.gov.uk/news-publications/publication-search/counter-terrorism-bill-2007/.

### Terrorism: Evidence

**Stephen Hesford:** To ask the Secretary of State for the Home Department if her Department will reconsider the merits of the case for allowing intercept material into evidence in *(a)* criminal proceedings and *(b)* proceedings involving offences under anti-terrorism legislation. [173622]

**Mr. McNulty:** My hon. Friend will be aware of the independent Privy Counsellor Committee, chaired by Sir John Chilcot, which is currently reviewing this subject. The Committee will deliver their report in mid January and we will carefully consider their findings.

### Written Questions

**Mr. Clappison:** To ask the Secretary of State for the Home Department when she expects to answer Question 165425, tabled by the hon. Member for Hertsmere on 13 November, on the resident labour market test. [171165]

**Mr. Byrne:** I answered the hon. Member's previous question on 11 December 2007.

## FOREIGN AND COMMONWEALTH OFFICE

### Burma: Arms Trade

**Mr. Crabb:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the origin of military hardware being sold to Burma. [174820]

**Meg Munn:** We have considered the recent media reports about alleged arms sales to Burma. We continue to encourage all international partners not to sell arms to Burma and to observe responsible arms trade policies.

As my right hon. Friend the Prime Minister reiterated in his statement of 15 October, Burma is subject to an EU arms embargo.

**Mr. Crabb:** To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what reports he received on the suspension by India of sales of military hardware to Burma following the recent suppression of pro-democracy protests in Burma; [174825]

(2) what recent discussions he has had with Indian ministers on sales of military hardware to Burma. [174826]

**Meg Munn:** We are aware of reports regarding the sale of Advanced Light Helicopters by India to Burma. The EU made formal representations to the Indian Government on this issue in July. The Indian Government assured the EU that it had no plans to sell the Advanced Light Helicopter to Burma. We have continued to make clear to the Indian Government—at the most senior level—that we are concerned that EU manufactured military equipment should not reach Burma via third countries. In a statement on 15 October, my right hon. Friend the Prime Minister said that we would ask the EU to review the implementation of the embargo with our partners to address any risk that arms or their components might be diverted or re-exported to Burma.

My right hon. Friends the Prime Minister and Foreign Secretary, other Ministers and I continue to discuss the situation in Burma with our Indian counterparts. My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, also raised Burma during his recent visit to India. We hope India will use its contacts with the regime to press for urgent political reform and dialogue. Like all other partners in the region, they stand to gain from seeing the re-establishment of a prosperous and stable neighbour. We will hope they will join us in working towards that objective.

### China: Falun Gong

**David Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with EU counterparts on the human rights of Falun Gong followers in China; and if he will make a statement. [174168]

**Meg Munn:** We work closely with our EU partners to push for substantive improvements in the human rights situation in China, which includes raising concerns on the treatment of Falun Gong practitioners. We do not take a position on the nature of Falun Gong. However, we continue to support EU action to raise individual Falun Gong cases of concern with the Chinese Government. The EU did this at the most recent round of the EU-China Human Rights dialogue, which was held in Beijing in October. Foreign and Commonwealth Office officials also met a vice president of the European Parliament in September to discuss action on a range of human rights issues, including Falun Gong.

**David Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with representatives of the Chinese Government on the human rights of Falun Gong followers in China; and if he will make a statement. [174170]

**Meg Munn:** The Government do not take a position on the nature of Falun Gong. We do, however, remain concerned by reports of the mistreatment of Falun Gong adherents, particularly those detained in Re-education Through Labour (RTL) camps. We raise our concerns over individual practitioners and for the need to reform RTL with the Chinese Government at every appropriate opportunity. We discussed this at the last round of the UK-China Human Rights dialogue in London on 5 February 2007. More recently, the Director of Public Prosecutions urged the Chinese Government to reform the RTL system during his visit to Beijing in September 2007.

### European Gendarmerie Force

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 11 December 2007, *Official Report*, column 188, on the European Gendarmerie Force (EGF), under what circumstances the Government would give its consent to an EGF operation being held in the UK. [174590]

**Mr. Jim Murphy:** The primary purpose of the European Gendarmerie Force (EGF) is to assist in crisis management operations in post-conflict situations. The EGF will be available on request to any country facing a crisis situation. The Government can foresee no circumstances under which it would give consent to a EGF operation being held in the UK.

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs for what reasons the UK did not sign the Treaty of Velsen concluded on 18 October; what discussions he held with other EU Member States on the UK's participation in a European Gendarmerie Force; what representations he received on the matter before reaching a decision; and if he will make a statement. [174591]

**Mr. Jim Murphy:** The UK has not held any discussions with other EU member states regarding our participation in the European gendarmerie force, nor have we received any representations.

### Guinea Bissau: EU Defence Policy

**Dr. Fox:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the status is of the European Security and Defence Policy mission to Guinea Bissau. [173717]

**Mr. Jim Murphy:** EU Foreign Ministers agreed on Monday 10 December to a general concept for a civilian European security and defence policy mission to provide advice on security sector reform in Guinea-Bissau. After discussion, it was agreed that this mission would have a civilian command chain and be financed as a civilian mission. Planning for the mission will be taken forward within the General Secretariat of the European Council. Further decisions, including final agreement to launch the mission, will be taken in the new year.

### Iraq: Overseas Aid

**Dr. Fox:** To ask the Secretary of State for Foreign and Commonwealth Affairs with reference to the Answer of 9 October 2007, *Official Report*, columns 437-8W, on Iraq: overseas aid; how much of the £744 million the Government has allocated to Iraq came from his Department. [170807]

**Dr. Howells:** I refer the hon. Member to the answer given to him by my right hon. Friend the Secretary of State for International Development on 13 December 2007, *Official Report*, column 840W.

### Iraq: Resettlement

**Lynne Jones:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 6 December 2007, *Official Report*, column 1433W, on Iraq: resettlement, and with reference to the statements of 9 October 2007, *Official Report*, column 27WS, and 30 October 2007, *Official Report*, column 30WS, if he will make it his policy to allow local staff in Iraq who meet all criteria except completion of more than 12 months continuous service to apply for assistance; and if he will consider their eligibility on a case-by-case basis. [175150]

**Dr. Howells:** We have no immediate plans to change the criteria announced by my right hon. Friend the Foreign Secretary in his written ministerial statements on 9 October 2007, *Official Report*, columns 27-28WS and 30 October 2007, *Official Report*, columns 30-33WS. My right hon. Friend the Foreign Secretary stated on 30 October that we might review the criteria in the light of experience. We will, however, wish to gather more evidence of the operation of the scheme as originally announced before any such review.

### Ministers

**Keith Vaz:** To ask the Secretary of State for Foreign and Commonwealth Affairs what departmental guidelines his Department uses on the size of delegation that Ministers will meet in a private meeting; and how many meetings each Minister in his Department has had at the request of hon. Members in the last two years. [173449]

**David Miliband:** There is no formal departmental guidance on restrictions to the size of delegations that meet with Foreign and Commonwealth Office Ministers. However, common practice is to encourage them to be as small as possible. We do not maintain central records of meetings requested by hon. Members.

### Pakistan: Human Rights

**Mr. Mullin:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Government of Pakistan on the two recently-detained Baluchi nationalists; and if he will make a statement. [174584]

**Dr. Howells:** We have informed the Government of Pakistan of the arrests of two Pakistani nationals who were charged on 10 December with offences under the Terrorism Act 2000.

### Somalia: Peacekeeping Operations

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether discussions were held at the EU-Africa summit on the willingness of African countries to send troops to Somalia as agreed under UN Security Council Resolution 1744 of February 2007; and if he will make a statement. [174897]

**Meg Munn:** Discussions about the security situation in Somalia were held at the EU-Africa summit but did not directly relate to UN Security Council Resolution 1744 or troop contributions to the African Union Mission to Somalia.

Delegates noted that the EU's Africa Peace Facility is specifically intended to contribute to Africa's efforts to restore peace to key areas, including Somalia. Discussions highlighted the significant role of the African Union's Africa Peace and Security Architecture in developing an effective security system in Somalia.

### Somalia: United Nations

**Mr. Keith Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 22 November 2007, *Official Report*, column 1042W, on Somalia: United Nations, what contingency plans the UN Security Council has developed for the deployment of a peacekeeping force in Somalia; and how conditions that would require deployment to take place will be monitored and assessed. [173747]

**Meg Munn:** UN Security Council members met with UN agencies at expert level on 5 December 2007 to discuss a UN force for Somalia. The UN is planning to send a technical assessment mission to Somalia to assess conditions and inform further planning. The UN Special Representative of the Secretary-General for Somalia is due to brief the Security Council on 17 December 2007.

The UK, including in the Security Council, will continue to support the deployment of the African Union Mission to Somalia and the ongoing political reconciliation process.

### Sudan: Peace Negotiations

**Mr. Keith Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK is taking to achieve the participation of stakeholders in the Darfur peace talks; and if he will make a statement. [173672]

**Meg Munn:** Only an inclusive political process can provide a sustainable solution to the crisis in Darfur. The UK has committed £1 million to support the African Union and UN joint mediation support team, which is currently focused on encouraging the rebel movements to unify further and agree on common platforms ahead of negotiations with the Government of Sudan. We have made clear publicly and directly to the rebel movements that there will be consequences for any party that seeks to obstruct progress.

Civil society and Arab engagement in the political process will be essential for an inclusive process. The UK is filling five key posts in the Darfur-Darfur dialogue and consultation, which will be the main mechanism for civil society engagement in the political process and in longer-term reconciliation and rehabilitation in Darfur.

### Sudan: Peacekeeping Operations

**Mr. Andrew Mitchell:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with colleagues in *(a)* African countries and *(b)* non-African countries to encourage them to send transport and light support helicopters to the African Union-UN force in Darfur, Sudan. [169201]

**Mr. Jim Murphy** *[holding answer 29 November 2007]*: My noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, has pressed potential contributing countries on the need for helicopters for the UN-African Union hybrid force in Darfur. He has kept in close contact with the UN Department of Peacekeeping Operations, which is responsible for generating the force in consultation with the African Union, to complement their efforts.

**Mr. Keith Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what mandate the African Union-UN peacekeeper in Darfur will have to disarm groups which violate the UN Security Council's arms embargo in the region; and what assessment he has made of the effectiveness of the mandate. [173673]

**Meg Munn:** UN Security Council Resolution 1769 of 31 July 2007 mandates the UN-African Union hybrid peacekeeping force in Darfur (UNAMID) to prevent armed attacks, protect civilians, ensure the freedom of movement of humanitarian workers, and support the Darfur peace process. The resolution also mandates UNAMID to monitor whether arms or related material are present in Darfur in violation of UN Security Council Resolution 1556 of 30 July 2004, which placed an arms embargo on all non-government entities and individuals in the region.

Until UNAMID has assumed authority in Darfur, which takes place on 31 December, we cannot assess the effectiveness of its mandate. Meanwhile, we are working closely with the UN Department of Peacekeeping Operations and the African Union for the prompt deployment of an effective UNAMID force that will be able to fulfil its mandate.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture: Nitrates

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of farmers who will be affected by his Department's proposals for a revised action programme to control pollution caused by nitrogen from agricultural sources *(a)* within discrete nitrate vulnerable zones and *(b)* across all land in (i) Ribble Valley constituency, (ii) Lancashire and (iii) England. [173995]

**Mr. Woolas:** The consultation on implementation of the Nitrates Directive in England invites views on whether the proposed Action Programme measures should be applied either within discrete Nitrate Vulnerable Zones (NVZs), covering 70 per cent. of England, or across the whole of the country. Paper "G4—Assistance in the partial Regulatory Impact Assessment including extended Nitrate Vulnerable Zones", published in support of the consultation, provides details of my Department's assessment of the number of farmers impacted by the proposed Action Programme in either case.

If the decision is taken to apply the Action Programme within discrete NVZs, approximately 139,500 farmers will be affected. If the decision is taken to apply the Action Programme across the whole of England, approximately 195,500 farmers will be affected. No assessment has been made for the Ribble Valley or Lancashire.

### Agriculture: Subsidies

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs what financial corrections were imposed on the UK by the European

Commission as a result of non-respect of farm payment deadlines in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06 and *(d)* 2006-07. [169445]

**Jonathan Shaw:** The total financial corrections formally imposed on the UK by the European Commission in *(a)* 2003-04, *(b)* 2004-05, *(c)* 2005-06 and *(d)* 2006-07 as a result of non-respect of, or failure to meet, payment deadlines in respect of CAP direct aid schemes are as follows:

| | *Amount (£)* |
|---|---|
| *(a)* 2003-04[1] | 1,118,369.01 |
| *(b)* 2004-05[2] | 35,675,037.80 |
| *(c)* 2005-06[3] | 0 |
| *(d)*2006-07[4] | 35,391,104.99 |
| Total | 72,184,511.80 |

[1] Irregularity Decision 481/2003, and Ad Hoc Decisions No.15, 16 and 17.

[2] Ad Hoc Decisions No. 18, 19 and 20.

[3] Ad Hoc Decisions No. 21 and 22.

[4] Irregularity Decision 678/2006 and Ad Hoc Decisions 23 and 24.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs when he plans to respond to the proposals of the EU Agriculture Commissioner for capping support to larger recipients of the single farm payment. [170646]

**Jonathan Shaw:** The European Commission have not made formal proposals for limiting support to recipients of larger payments under the common agricultural policy (CAP). However, they have raised the possibility as part of their consultation on the forthcoming 'health check' reform of the CAP. The Government will respond to that consultation next spring.

**Mr. Drew:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the merits of a de minimis level to single farm payments. [170647]

**Jonathan Shaw:** In the interests of cost effective administration, the UK currently applies the highest possible minimum area size allowed under EU regulations i.e. 0.3 hectares, but has not adopted the permitted option of setting a €100 minimum payment level. The European Commission signalled in its recent communication that it would review both the minimum area size and minimum payment level as part of the CAP 'Health Check'. The Department welcomes this opportunity to review the administrative benefits of various minimum levels alongside the potential impact on affected claimants.

**Alan Simpson:** To ask the Secretary of State for Environment, Food and Rural Affairs from which part of his Department's budget the penalty for late payment of farm subsidies is to be met. [173582]

**Jonathan Shaw:** The penalty for late payment of the single payment scheme entitlements is made from a separate ring-fenced budget.

**Tim Farron:** To ask the Secretary of State for Environment, Food and Rural Affairs if the Government will make partial single farm payments for 2007 before Christmas 2007. [173858]

**Jonathan Shaw** *[holding answer 13 December 2007]:* RPA does not plan, at this stage, to make partial payments for the 2007 single payments scheme. It is working to meet its targets of making more full payments to more farmers earlier than last year, with a view to making 75 per cent. of full payments, by value, by the end of March 2008 and 90 per cent. by the end of May 2008.

### Animal Welfare: Sports

**Mr. Jim Cunningham:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps the Government has taken to improve the protection of the welfare of animals involved in sporting events. [170304]

**Jonathan Shaw:** The Government introduced the Animal Welfare Act 2006, which came into force earlier this year, to protect the welfare of all animals, including animals used in sporting events. Under the Act it is an offence either to cause any captive animal unnecessary suffering or fail to provide for its welfare needs.

The Act also provides powers to introduce new regulations to further promote the welfare of animals. The Government have made a commitment to introduce regulations to safeguard the welfare of racing greyhounds. There will be a public consultation on our proposals for greyhound racing before approval by Parliament. We intend to give this matter priority, although the timing of the consultation will be dependent on the response of the industry to the recommendations made in Lord Donoghue's recent independent review of greyhound racing.

Additionally, in January 2007 new EU-wide welfare in transport rules came into force. These provide increased welfare protection when animals are transported in connection with an economic activity such as horseracing. To ensure there is no lessening of welfare protection for animals transported in connection with sporting events undertaken purely for pleasure or competition, the national legislation implementing the EU rules (The Welfare of Animals (Transport) (England) Order 2006 and parallel legislation in Scotland, Wales and Northern Ireland) include a general duty of care provision.

### Avian Influenza: Pigeons

**Jessica Morden:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of whether pigeons can *(a)* catch and *(b)* carry the H5N1 virus. [173620]

**Jonathan Shaw:** DEFRA takes a science-based approach to all bird gatherings, including those that involve pigeons (both for showing and racing). A Veterinary Risk Assessment (VRA) using the best available scientific evidence is carried out to assess the risk of avian influenza (AI) specifically in relation to pigeons.

The VRA cites evidence available that pigeons can be susceptible to the disease and in particular a study by the European Food Safety Authority in 2006 concluded that pigeons may have the potential to act as a "bridging" species between waterfowl and poultry.

However, available evidence on the ability of pigeons to spread the AI viruses is limited and contradictory. It is likely that the susceptibility of pigeons (and other species of birds) to AI, and the clinical picture caused by infection, is strongly associated with genetic and biological variations between different strains of the virus.

There is research available which suggests that pigeons have limited susceptibility to some virus strains (mainly isolated some years ago), but other more recent publications suggest the contrary and demonstrate that recently isolated strains of HPAI H5N1 could infect pigeons. This later study indicates that pigeons may be asymptomatic carriers of the AI virus.

Pigeons could also spread AI mechanically through infective material on their feet and feathers, and there is potential, especially in long races, for pigeons to land and mingle with wild birds while still on the continent.

### Badgers

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the size of the badger population in *(a)* England and *(b)* Gloucestershire in each of the last 10 years for which figures are available; and if he will make a statement. [173990]

**Joan Ruddock:** Surveys of badger populations in Great Britain were undertaken in the mid-1980s and mid-1990s. In the mid-1980s the badger population was estimated to be 250,000 badgers and in the mid-1990s a survey estimated the population had increased by 77 per cent.

DEFRA is not aware of any other national surveys which have attempted to estimate badger numbers in England and Wales.

DEFRA does not have regional breakdowns of these figures.

### Biodiversity

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 3 December 2007, *Official Report*, column 738W, on convention on biological diversity, what assessment he has made of the effect on section III, paragraph 23, regarding a moratorium on the development of genetic use restriction technologies, of decision V/5 of the Convention on Biological Diversity on socio-economic and scientific assessments; and if he will make a statement. [173239]

**Mr. Woolas:** Section III, paragraph 23 of Decision V/5 of the Convention on Biological Diversity (CBD) recommends that products containing genetic use restriction technologies should not be approved for field-testing until justified by appropriate scientific data. Such products for commercial use should not be approved until appropriate scientific assessments (with regard to ecological and socio-economic impacts and any adverse effects for biological diversity, food security and human health) have been carried out. These assessments should be authorised, strictly controlled and carried out in a transparent manner, and only when the conditions for the products' safe and beneficial use have been validated should they be approved for field-testing. The UK Government have supported this decision at the CBD meetings. The views and case studies on the socio-economic considerations will be discussed at the next CBD meeting in May 2008.

### Biofuels: Imports

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs how much biodiesel was imported into the UK in the most recent year for which figures are available; what the primary sources of crops for that biodiesel were; and if he will make a statement. [173975]

**Jim Fitzpatrick:** I have been asked to reply.

The total quantities of biodiesel and other transport fuels released for consumption in the UK are available via the HM Revenue and Customs website at http://www.uktradeinfo.com/index.cfm?task=bulloil During the first 11 months of 2007, for example, over 300 million litres of biodiesel were put onto the UK market. These figures do not distinguish between imported fuels and domestically produced fuels, and the Government are unable to provide a detailed breakdown of this. We are aware, however, that the majority of the biodiesel on sale in the UK is currently being imported, much of it from the United States of America.

The Government do not have detailed information on the feedstocks from which the biodiesel was produced, because there is currently no requirement on transport fuel suppliers to provide this information. The primary feedstocks are likely to have been rapeseed oil, soya oil, palm oil, used cooking oil and tallow.

Once the Renewable Transport Fuel Obligation (RTFO) comes into effect in April 2008, transport fuel suppliers will be required to report on a monthly basis on matters such as the feedstock from which their biofuels were produced and its country of origin. The Renewable Fuels Agency will be required to report regularly to Parliament on these matters.

### Birds: Imports

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs how many seizures of wild birds imported illegally have been made since the import ban on wild birds has been put in place. [172695]

**Joan Ruddock:** From October 2005 to 30 June 2007 (the period covered by the temporary ban on wild bird imports), HM Revenue and Customs (HMRC) made four seizures of birds illegally imported into the UK. Officials from HMRC used their border enforcement powers under the Convention on Trade in Endangered Species (CITES). These seizures comprised a total of five wild birds.

HMRC have not made any seizures of wild birds under CITES since the latest EU Regulation for the captive wild bird ban came into force on 1 July 2007.

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will list imported birds by *(a)* wild caught and *(b)* captive bred categories imported into the EU in 2006. [172699]

**Joan Ruddock:** Throughout 2006 there was a ban on the commercial import of birds into the EU; there is still an import ban on wild-caught birds. Therefore, only pet birds and birds exempt from the ban for conservation purposes have been imported into the EU. The UK does not hold records for the whole of the EU, as these are held by the European Commission.

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* CITES and *(b)* non-CITES listed birds were imported into the UK from (i) inside and (ii) outside the EU in each year between 2000 and 2007. [172701]

**Joan Ruddock:** CITES listed birds can be moved freely within the Community and no statistics are available of specimens moving within the free trade area.

The number of CITES listed birds imported into the UK from outside the EU between 2000 and 2007 was as follows:

| | Number |
|---|---|
| 2000 | 6,044 |
| 2001 | 11,919 |
| 2002 | 54,499 |
| 2003 | 74,954 |
| 2004 | 18,295 |
| 2005 | 23,478 |
| 2006 | 113 |
| 2007 | [1]— |

[1] No figures currently available

There are no records kept of the numbers of non-CITES listed birds moved into the UK from within or outside the EU.

## Bovine Tuberculosis

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of levels of tuberculosis transmission from cattle to other animals; and if he will make a statement. [173991]

**Jonathan Shaw** *[holding answer 13 December 2007]*: We have not sought to assess the levels of transmission of tuberculosis (TB) from cattle to other animals for three reasons:

(i) While TB is primarily a respiratory disease in the majority of mammalian species including cattle, the relative importance of different routes of transmission among and between species is unknown;

(ii) Small numbers of many wild and domesticated mammalian species have been shown to be infected with bovine TB, however, most are spill-over end hosts and there is no evidence that they can transmit infection to other species: and,

(iii) Being infected with a disease does not mean that the individual is necessarily infectious to others. The reasons for this are usually immunological (the animal may contain the disease effectively) or behavioural (e.g. the species may be solitary). The current TB testing and slaughter regime applied to cattle ensures that in reality, the number of infected cattle which remain in herds long enough to become infections is extremely low and very few develop clinical signs of the disease.

The principle species affected by bovine TB in GB are cattle and badgers and research from the Independent Scientific Group on Cattle TB has provided evidence which confirms that there is a cycle of disease between the two. However, it has not been possible to quantify the relative contribution of cattle or badgers to the level of the disease and this will vary between areas.

## Bovine Tuberculosis: Compensation

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will ensure that compensation paid to farmers for cattle slaughtered as a result of contracting bovine tuberculosis reflects the market values of different types of cattle. [174132]

**Jonathan Shaw:** Since February 2006, cattle compensation for bovine tuberculosis-affected animals in England has been determined primarily using table values, based on contemporaneous livestock market sales prices, for 47 specified categories of cattle.

To support the system, significant amounts of sales data are continuously collected by an independent service provider from a large number and wide range of sources across Great Britain. Information from around 99 per cent. of open sales is captured, and details of about 100,000 individual transactions are collected each month. In 2006, nearly 8,000 cattle sales were included in the table valuations, comprising 1.23 million head of cattle.

## Climate Change

**Mr. Dai Davies:** To ask the Secretary of State for Environment, Food and Rural Affairs what meetings he has had with environmental non-governmental organisations (NGOs) to discuss the international meeting of the parties to the United Nations Framework Convention on Climate Change, being held in Bali; and whether the Government has provided financial support to assist such NGOs to attend the Bali meeting. [172802]

**Mr. Woolas:** On 3 December, the Secretary of State and I held a roundtable discussion on the United Nations Framework Convention on Climate Change (UNFCCC) meeting in Bali, with chief executive level representatives from the non-governmental organisation (NGO) and business community.

Financial assistance has been provided to a small number of individuals who are supporting the work of Her Majesty's Government in Bali. However, no funding has been provided to organisations in order for them to attend the Bali conference.

## Departmental Expenditure

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the written ministerial statement of 15 November 2007 on DEFRA Winter Supplementary Estimate, Departmental Expenditure Limit and Administration Budget Changes, if he will give a detailed breakdown of the *(a)* £80,000,000 in respect of professional services and *(b)* £10,000,000 in respect of the outsourced IT contract; and if he will make a statement. [166337]

**Jonathan Shaw:** Both transfers from Programme Budget to Administration Budget were required in response to HM Treasury's request for a tighter application of the existing classification rules across the whole of Government. The figure was supported by an analysis of the Programme spend in current and previous years with organisations that provide those services. That analysis is currently considered to be commercially sensitive.

Part II of the DEFRA winter supplementary estimate shows which business areas of the Department made the transfers.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170235]

**Jonathan Shaw:** My Department's corporate identity guidelines are not produced in hard copy. They are available to staff through the Department's intranet service. There are no ongoing costs for producing the guidelines. In 2006-07, the guidelines were refreshed for the first time since the Department was established in 2001. The cost of the refresh was £27,500. The refresh has provided a modernised and simplified approach to use of the corporate identity. The guidelines are used across the Department and by a range of stakeholders. It would not be possible to calculate the cost of complying with them.

A copy of the guidelines will be placed in the Library.

### Departmental Publicity

**Mr. Philip Hammond:** To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies spent on staff working on *(a)* marketing and *(b)* branding in the last 12 month period for which figures are available. [167307]

**Jonathan Shaw:** Within the Communications Directorate in core DEFRA, it is expected that the staff costs for branding and marketing in the current financial year 2007-08 including national insurance and pensions will be £1,075,000. This covers 17 full-time equivalent staff working on marketing communication activities for key areas such as climate change, waste, animal disease prevention, water saving, biodiversity and protecting the natural environment.

Individual records of spend for DEFRA's non-departmental public bodies, agencies and financially sponsored organisations are not held centrally and could be obtained only at disproportionate cost.

**Mr. Philip Hammond:** To ask the Secretary of State for Environment, Food and Rural Affairs how much his Department and its agencies spent on managing their corporate identities in the last 12 month period for which figures are available. [167347]

**Jonathan Shaw:** In 2006-07, the guidelines were refreshed for the first time since the Department was established in 2001. The cost of the refresh was £27,500. The refresh has provided a modernised and simplified approach to use of the corporate identity. The guidelines are used across the Department and by a range of stakeholders. It would not be possible to calculate the cost of complying with them.

### Farms: Public Footpaths

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs who is responsible for changing gates on footpaths across farmland in order to comply with the Disability Discrimination Act 2005; and if he will make a statement. [174272]

**Jonathan Shaw:** The Disability Discrimination Act now ensures that private or public landowners, who are 'service providers', will also be subject to the new provisions of the Act. They are required to take reasonable steps to remove, alter or provide a reasonable means of avoiding physical features, e.g. stiles, which act as barriers to disabled people accessing their services. However, the Act and its implications for rights of way are complicated and in many cases the full extent of its application will need to be established by case law.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what obligations there are on local authorities to display information on behaviour to be adopted when walking across farm land; and if he will make a statement. [174273]

**Jonathan Shaw:** There are no obligations on local councils to display signs on behaviour in the countryside when walking across farm land. However, the Countryside Code, which applies in England and Wales and has been widely publicised, makes it clear what the responsibilities are for both the public and the people who manage the land.

### Fisheries

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what research he has commissioned on the compliance with fisheries rules and regulations; and if he will make a statement; [170897]

(2) what steps he is taking to improve the level of compliance with fisheries regulations; and if he will make a statement; [170898]

(3) if he will make a statement on reforming the system of penalties for violations of fisheries rules and regulations; [170910]

(4) how many boat *(a)* owners and *(b)* skippers were convicted for a violation of fisheries rules in each year since 1997, broken down by violation; [170925]

(5) what sanctions were imposed on boat *(a)* owners and *(b)* skippers who were convicted for a violation of fisheries rules in each year since 1997, broken down by violation. [170926]

**Jonathan Shaw:** DEFRA has recently commissioned research locking into compliance with the reduced margins of tolerance set out in the cod recovery plan. We have forwarded the results of this work to the Commission in support of our request for an across-the-board review of the rules relating to margins of tolerance.

More generally, my officials keep the rules of the Common Fisheries Policy (CFP) under constant review to ensure that they achieve their enforcement objective in a way that imposes the minimum burden upon both fishermen and administrations. The first step in achieving compliance is to ensure that the rules in place are necessary, can be easily understood and can be effectively enforced. When enforcing the regulations resources are targeted using risk-based systems and sanctions are imposed at levels that act as a clear deterrent to others. We shall be using the forthcoming review of the Control Regulation as an opportunity to re-examine the whole body of CFP control rules to ensure that these objectives are met.

Following earlier discussion with the fishing industry, DEFRA is currently consulting stakeholders over the introduction of a system of administrative penalties for fisheries offences with effect from April 2008. We believe that such a system can deal more rapidly and effectively with fisheries offences, will increase transparency and reduce costs and uncertainty for fishermen and will offer a more appropriate non-court means of disposal for minor offending.

I have arranged for detailed information on the compliance with fisheries rules and regulations to be placed in the Library of the House.

### Fisheries Protection Squadron

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 26 November 2007, *Official Report*, column 41W, on the Fisheries Protection Squadron, whether consideration has been given to contracting the Fisheries Protection Squadron for up to 960 patrol days. [173033]

**Jonathan Shaw:** In preparation for the new Ministry of Defence (MOD) and Marine and Fisheries Agency (MFA) agreement 2008-13, it was not considered necessary to contract the Fisheries Protection Squadron (FPS) for 960 days.

The current agreement allows a range of 700-950 patrol days per year. The annual requirement for patrol days has been reduced annually to reflect, among other things, the improved capability and performance of the River class vessels since their introduction. The current year (2007-08) requires the provision of 800 days, which includes the use of Hunt class vessels.

### Fishing Vessels

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many times on-board observers have visited UK fishing vessels in the last 12 months; and if he will make a statement. [173016]

**Jonathan Shaw:** During 2007 UK vessels participated in a number of different schemes that required observers to be on board. Several observer-accompanied trips were undertaken by UK vessels in the cod recovery zone as part of a pilot scheme, both to test their effectiveness and confirm the extent to which the vessels were able to avoid cod.

In addition, scientific observers from the Centre for Environment, Fisheries and Aquatic Science (CEFAS) have participated in 405 sampling trips and a further 20 trips under the Fisheries Science Partnership. These research trips all took place on board UK fishing vessels.

This relates only to observers and not to Marine and Fisheries Agency and Royal Navy British Sea Fishery Officers who, as part of their duties, routinely board vessels operating in UK waters to ensure that they are complying with relevant regulations.

### Floods

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs which 20 areas are most at risk of flooding; and which region each is in. [172067]

**Mr. Woolas:** Risk is defined in flooding terms as a combination of probability and consequences. There is as yet no national assessment of risk on this basis which can be used to give a reliable ranking as requested. However, the local authority areas in England identified by the Environment Agency's 2006 National Flood Risk Assessment as having the most properties in areas considered to have a significant probability of flooding, (i.e. greater than one in 75 or 1.3 per cent. chance in any one year) are given in the following table.

The actual probabilities of flooding for these properties will vary within the one in 75 and higher probability band and the table should not be regarded as a reliably accurate ranking of areas' vulnerability to flooding. It must also be recognised that this estimation is a complex process and, although techniques are developing rapidly from research to operational methodology, it is subject to further improvement which may lead to changes in probability assessments in the future.

| *Local planning authority* | *Government region* |
|---|---|
| Boston District | East of England |
| Windsor and Maidenhead | South East Region |
| Enfield London Borough | London |
| King's Lynn and West Norfolk District | East of England |
| Spelthorne District | South East |
| Runnymede District | South East |
| Warrington | North West |
| East Lindsey District | East of England |
| City of Leicester | East Midlands |
| Shepway District | South East |
| Birmingham District | West Midlands |
| Reading | South East |
| North East Lincolnshire | Yorkshire and Humber |
| Elmbridge District | South East |
| Merton London Borough | London |

| *Local planning authority* | *Government region* |
|---|---|
| Kirklees District | Yorkshire and Humber |
| Calderdale District | Yorkshire and Humber |
| East Riding of Yorkshire | Yorkshire and Humber |
| Hillingdon London Borough | London |
| Waltham Forest London Borough | London |

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 12 November 2007, *Official Report*, column 14W, on the responsibility for surface water flooding, what additional tasks the Environment Agency will perform under its responsibilities for maintaining a strategic overview of all forms of flood risk; and what budget will be available for those additional tasks. [173085]

**Mr. Woolas:** Detailed proposals for the Environment Agency's strategic overview role for inland flood risk are still being considered and will then be subject to public consultation.

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs when he expects Sir Michael Pitt to publish the results of his review into the summer floods. [173086]

**Mr. Woolas:** The interim report of the review led by Sir Michael Pitt was published today. A final report will be published next year.

### Floods: Dams

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment he has made of the safety of dams in the event of flooding. [172070]

**Mr. Woolas:** The Reservoirs Act 1975 provides a safety regime for large raised reservoirs and their dams. It is the responsibility of the operators and owners of dams and reservoirs to maintain them in a safe condition in the event of flooding. DEFRA is not involved in making individual assessments of the safety of dams in the event of flooding.

### Floods: North Yorkshire

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs how many organisations are involved in the management of surface water flooding in North Yorkshire. [173084]

**Mr. Woolas:** In North Yorkshire, as elsewhere in the country, several organisations are responsible for different elements of the surface water drainage network:

(i) The Environment Agency has permissive powers to undertake works to manage flood risk from rivers legally designated as "main" and from the sea, and undertakes flood forecasting, warning and mapping.

(ii) Internal Drainage Boards exist in areas of special drainage need and have permissive powers to carry out works on watercourses not designated as main.

(iii) Local authorities have permissive powers for watercourses not designated as main and not within an internal drainage board area, and for land use planning.

(iv) Highways authorities (including local authorities) are responsible for the draining of areas within the highway boundary.

(v) Yorkshire Water is the water and sewerage undertaker in North Yorkshire and is responsible for the effectual drainage of foul and surface water arising from the drains of premises connected to its sewerage system.

(vi) Riparian Landowners have various responsibilities for the maintenance and effectiveness of drainage channels and watercourses within and along their property boundary, to maintain the integrity of the river banks and to ensure that water flows without obstruction through their land.

(vii) British Waterways is responsible for managing flood risk from its canals.

(viii) Reservoir undertakers have safety obligations.

### Floods: River Thames

**Tom Brake:** To ask the Secretary of State for Environment, Food and Rural Affairs what *(a)* advice and *(b)* guidance he has given to local authorities along the River Thames on flooding and the prevention of flooding; and if he will make a statement. [169270]

**Mr. Woolas:** Local planning authorities have a major role to play in ensuring flood risk is not increased as a result of inappropriate development. The Department for Communities and Local Government issued strengthened policy guidance on this for planning authorities in December 2006. An accompanying practice guide is being developed as a living draft to provide practical guidance on how to take full account of flood risk when making planning decisions.

The Environment Agency liaises with local authorities, including Thames and London councils, on planning policy and emergency planning including on flood incident contingency planning in local resilience forums.

### Game Birds

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs what research he has *(a)* initiated and *(b)* evaluated on the number of game birds (i) reared and (ii) shot by persons who are not members of registered field sport organisations. [172622]

**Joan Ruddock:** There has been no research conducted on the number of game birds reared and shot by persons who are not members of registered field sport organisations.

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 28 November 2007, *Official Report*, column 537W, on game birds, what steps he took to *(a)* verify and *(b)* audit the consultations undertaken by public and corporate economic consultants in relation to the 2006 report referred to. [172821]

**Joan Ruddock:** As my Department did not commission this report it has taken no steps to verify or audit it.

### Game: Non-Domestic Rates

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 3 December 2007, *Official Report*, column 740W, on game: non-domestic rates, what his timetable is for consulting the Information Commissioner; and if he will place a copy of the Commissioner's reply in the Library when it is received. [172639]

**Joan Ruddock:** The consultation referred to in my previous answer closes on 5 February 2008. A view will not be formed on whether the supply of personal data to the other Government Departments or non-departmental public bodies is tenable until the full set of consultation responses has been analysed. My previous answer referred to relevant guidance, such as that issued by the Information Commissioner. This is already in the public domain and is accessible from the Information Commissioner's website.

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to his answer of 3 December 2007, *Official Report*, column 740W, on game: non-domestic rates, what *(a)* statutory and *(b)* other obligations his Department is under to report relevant information on valuation and the recovery of taxation to the Valuation Office Agency; and if he will make a statement. [172823]

**Joan Ruddock:** DEFRA has identified no statutory or other requirement that compels it to report relevant information on valuation and the recovery of taxation to the Valuation Office Agency in respect of data held on the GB Poultry Register.

The personal data held on the GB Poultry Register is subject to the Data Protection Act 1998 and other relevant legislation. Further information about the legal considerations relevant to public authorities' ability to share data, such as that contained on the GB Poultry Register, can be found in the Ministry of Justice publication, "Public sector data sharing: Guidance on the law", which is available on the Department for Constitutional Affairs website.

### Government Departments: Carbon Emissions

**Mr. Dai Davies:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps he is taking to collect recent data on the carbon dioxide emissions from Departments; and if he will make a statement. [172801]

**Mr. Woolas:** Departments are required to report their carbon dioxide emissions data to the Sustainable Development Commission (SDC), who report annually. The 2006 'Sustainable Development in Government Report' is available on the SDC website at:

http://www.sd-commission.org.uk/sdig2006/.

The 2007 report will be published early in the new year.

### Housing: Carbon Emissions

**John Battle:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to raise the levels of grants available for the Low Carbon building programme; and if he will make a statement. [173130]

**Malcolm Wicks:** I have been asked to reply.

When the Low Carbon Buildings programme household funding stream was re- launched in May 2007, we introduced a grant cap of £2,500 per household and a number of other changes. This was to support a greater number of installations with the limited funds available and to reach a wider audience.

Although we have seen a fall in household applications since the re-launch, we are seeing a much better spread of applications across all technologies, which is a key objective of a demonstration programme such as this.

We will continue to monitor the impact of the £2,500 grant cap on application levels. The household stream will continue until funds run out or March 2009, whichever comes sooner. In the meantime, we are working with industry to promote the programme and encourage take-up.

**Mr. Hoban:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of *(a)* set-up and *(b)* annual running costs of the Green Homes initiative, broken down by main budget heading. [173151]

**Mr. Woolas:** The exact budget and breakdown of costs is not yet known and will be part of the Government's comprehensive spending review prioritisation process. We have committed to provide over £100 million in the next three years to the Energy Saving Trust to develop the proactive Green Homes Service, based on a regional network of one-stop shops. This will build on the £10 million already provided to trial the service.

**Mr. Hoban:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the number of households to be offered energy-saving advice from Government-funded initiatives in *(a)* 2007-08, *(b)* 2008-09 and *(c)* 2009-10. [173152]

**Mr. Woolas:** DEFRA funds the Energy Saving Trust (EST) to promote the sustainable and efficient use of energy in the domestic sector. In 2007-08 EST's target is to achieve 1.5 million customer contacts, through a local advice service and the internet. So far this year, the EST is running ahead of its target by around 18 per cent. The roll-out of EST's sustainable energy network of regional advice centres, covering all aspects of individual emissions, is expected to boost customer contacts to 2.25 million in 2008-09 and 2.5 million in 2009-10.

Since its launch in June 2007, there have also been over 600,000 visits to the Act on $CO_2$ calculator, which provides tailored advice to individuals or households on the size of their carbon footprint.

### Illegal Immigrants

**Damian Green:** To ask the Secretary of State for Environment, Food and Rural Affairs how many illegal immigrants have been discovered working for his Department and its agencies in the last year for which figures are available. [170503]

**Jonathan Shaw:** The Department's contractors and sub-contractors are expected to have robust internal processes for ensuring appropriate personnel are engaged. From information held centrally, the Department is not aware of any illegal immigrants having worked for the core Department. Similar information on DEFRA'S Executive agencies is not held centrally and the information could be provided only at disproportionate cost.

DEFRA came into being in June 2001. Employment in the civil service is in accordance with the civil service nationality rules, which are available at

www.civilservice.gov.uk/nationality

DEFRA expects to comply with the current legislation for the prevention of illegal migrant working (section 8 of the Asylum and Immigration Act 1996). As a Government Department DEFRA expects to comply with the legislation in this area following guidance set out in the Baseline Security Standard.

The hon. Member may wish to look at the Border and Immigration Agency (BIA) website which provides a good overview. The site is at:

http://www.bia.homeoffice.gov.uk/6353/18383/18469/fullguidance1.pdf

### Inland Waterways: Repairs and Maintenance

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent on maintaining waterways in England in each of the last five years. [170522]

**Jonathan Shaw:** DEFRA holds information only for the three major navigation authorities British Waterways, the Environment Agency and the Broads Authority. It is not possible to disaggregate the figures for Wales from the total for British Waterways and the Environment Agency.

The amount that has been spent on the waterways in the past five years in England and Wales is as follows:

| | £m |
|---|---|
| 2002-03 | 223.01 |
| 2003-04 | 210.24 |
| 2004-05 | 193.34 |
| 2005-06 | 204.98 |
| 2006-07 | 209.42 |

### Market Transformation Programme: Finance

**Chris Huhne:** To ask the Secretary of State for Environment, Food and Rural Affairs how much has been spent under his Department's Market Transformation Programme. [172137]

**Joan Ruddock:** Since DEFRA was formed in 2001, it has provided just over £13.5 million to its Market Transformation Programme over the seven years between 2001 and 2007. Annual expenditure levels are set out as follows:

| | £ |
|---|---|
| 2001-02 | 520,000 |
| 2002-03 | 812,000 |
| 2003-04 | 1,200,000 |
| 2004-05 | 2,139,000 |
| 2005-06 | 4,270,000 |
| 2006-07 | 4,600,000 |

### Meat: Waste Disposal

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the risk of disease transfer arising from the practice of composting meat waste on agricultural holdings where livestock are kept. [173674]

**Jonathan Shaw:** The composting of low-risk (so-called category 3) catering waste and animal by-products is permitted by Regulation (EC) 1774/2002 and the Animal By-Products Regulations 2005.

In 2002 DEFRA commissioned an independent risk assessment to look at the possible risks arising from the composting of this material. The aim of the risk assessment was to assess whether the EU composting standard offered sufficient pathogen destruction that the compost could safely be spread to land, and if so, to recommend alternative treatment standards that were at least as effective as the EU standard.

The risk assessment examined conventional pathogens such as E. coli and salmonella, as well as major exotic pathogens including foot and mouth disease and classical swine fever. It concluded that the standards for the composting of low-risk catering waste and animal by-products were sufficient subject to certain recommendations, for example, a grazing ban for a period of time after application to land. The risk assessment is available on the DEFRA website.

**Mr. Paice:** To ask the Secretary of State for Environment, Food and Rural Affairs what the minimum physical requirements are for separating a meat composting facility from a livestock facility on the same agricultural holding. [173675]

**Jonathan Shaw:** Under the Animal By-Products Regulations 2005, it is an offence to bring animal by-products or catering waste onto a premises where livestock are kept. If, therefore, a livestock farmer wishes to compost animal by-products or catering waste, he must ensure that the composting facility is operated as a separate premises. The precise requirements for separation will be established on a case-by-case basis by the inspecting animal health officer, but typical requirements may include complete fencing off of the composting premises and separate access to the public highway. The inspecting officer will need to be fully satisfied that livestock cannot gain access to the animal by-products or catering waste.

### Mining: Lead

**Mark Williams:** To ask the Secretary of State for Environment, Food and Rural Affairs what research the Government have *(a)* commissioned and *(b)* assessed on the release of lead into the environment from land excavation. [171242]

**Joan Ruddock** *[holding answer 6 December 2007]*: DEFRA has commissioned no recent research into the release of lead into the environment from land excavation.

### National Fallen Stock Collection and Disposal Scheme

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effectiveness of the fallen stock disposal scheme as it applies to large animals; and if he will make a statement. [174274]

**Jonathan Shaw:** The Government are satisfied with the effectiveness of the arrangements for collecting and disposing of animals, of whatever size, under the national fallen stock scheme.

Separate arrangements apply for fallen cattle aged over 24 months that must be tested post-mortem for BSE. The effectiveness of these arrangements is also kept under review. Most cattle are collected within 24 hours of notification to the TSE Surveillance Helpline.

### Nitrate Sensitive Areas

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the average cost to dairy farmers of implementation of the proposed changes to the action programme for nitrate vulnerable zones. [173994]

**Mr. Woolas:** Annex 2 of the Regulatory Impact Assessment (RIA), accompanying the consultation on the implementation of the Nitrates Directive in England, provides details of my Department's assessment of the likely impact of the average annual cost to dairy farmers of implementation of the possible changes to the Nitrates Action Programme.

The average annual cost to dairy farmers, depending on region and which of the options discussed in the RIA are taken forward, ranges from approximately £200 to £11,000 per farm.

### Nitrate Sensitive Areas: River Trent

**Mr. Kidney:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will give consideration to removing the River Trent catchment area from the nitrate vulnerable zone on grounds of the long-term downward trend in nitrate content in the river. [173251]

**Mr. Woolas:** My Department is considering under what circumstances removal of land from within a nitrate vulnerable zone may be possible in the future. The consultation on implementation of the Nitrates Directive in England, which closed on 13 December, invited stakeholder views on this issue.

### Nitrates Directive: Public Participation

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs how many responses there have been to his Department's consultation on the implementation of the Nitrates Directive in England. [173996]

**Mr. Woolas:** To date my Department has received approximately 470 responses to the consultation on implementation of the Nitrates Directive in England. The consultation closed on 13 December 2007.

### Office of Climate Change: Manpower

**Mr. Peter Ainsworth:** To ask the Secretary of State for Environment, Food and Rural Affairs how many staff are employed in the Office of Climate Change, broken down by civil service grade. [173405]

**Mr. Woolas** *[holding answer 11 December 2007]*: At 30 November 2007 the Office of Climate Change has a full-time equivalent of 48. It is our policy not to comment on staff grades where individuals could be identified.

### Packaging: EU Law

**Andrew George:** To ask the Secretary of State for Environment, Food and Rural Affairs how the Producer Responsibility Obligations (Packaging Waste) Regulations 2007 apply to companies who handle packaging in the UK for products which are sold in *(a)* other EU countries which have implemented the EC Directive on Packaging and Packaging Waste 94/62/EC and *(b)* non-EU countries. [164469]

**Joan Ruddock** *[holding answer 15 November 2007]*: The Producer Responsibility Obligations (Packaging Waste) Regulations 2007 require that producers recover and recycle a proportion of all packaging "handled".

When calculating an individual producer's obligation—the amount of packaging they are obliged to recover and recycle—packaging and packaging materials that are exported from the UK are not included in the final calculation. Imported packaging carries a 100 per cent. obligation.

Any packaging exported to other EU countries would be subject to the provisions of Packaging Waste Directive through the local transposing legislation.

Packaging waste exported to non-EU countries would be subject to the regulations of the import country.

### Pest Control: Rodents

**Mr. Oaten:** To ask the Secretary of State for Environment, Food and Rural Affairs if he will assess the merits of lifting the prohibitions on the use of certain rodenticides. [175111]

**Mr. Woolas:** As with other pesticides, approvals are only granted to rodenticides when there is evidence that the proposed use is safe for people and poses no unacceptable risk to the environment. Where necessary, restrictions are applied to ensure safe use. For example certain rodenticides are approved only for indoor use, because of an unacceptable risk to wildlife if they are placed outside. However, prohibitions and restrictions can be reviewed in response to an application, usually from the approval holder. In such cases it is the applicant's responsibility to provide evidence in support of the proposed amendment. In the case of rodenticides, application should be made to the Health and Safety Executive.

### Plastics: Recycling

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs what steps he has taken to encourage mixed plastic recycling; and if he will make a statement. [172949]

**Joan Ruddock:** Mixed plastics is a term used within the recycling sector to refer to plastic packaging other than plastic bottles, which are the simplest part of the plastics waste stream to recycle.

The Waste and Resources Action Programme (WRAP) is undertaking trials with a number of technologies with the aim of understanding the best ways to handle mixed plastics from an environmental, economical and technological perspective. The programme is investigating three main areas: collection, reprocessing, and end markets.

Different recycling and recovery options are being considered as part of this work, including reprocessing mixed plastics into new plastics, incineration, chemical treatment and even turning them into diesel.

WRAP'S focus on mixed plastics follows on from the successful uptake of plastic bottle recycling. Plastic bottle recycling has significantly increased in recent years, with around 132,000 tonnes of plastic bottles collected and recycled from UK households in 2006.

### Recycling: Greater London

**Sarah Teather:** To ask the Secretary of State for Environment, Food and Rural Affairs what the recycling rates were for each London borough in each year since 1997. [172950]

**Joan Ruddock:** Household recycling and composting rates achieved by each London borough for the period requested can be accessed at the Audit Commission's website at:

http://www.audit-commission.gov.uk/performance/dataprovision-previous.asp

### Reptiles: Imports

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* CITES and *(b)* non-CITES listed reptiles were imported into the EU in each year between 2000 and 2006. [172696]

**Joan Ruddock:** The number of CITES listed reptiles imported into the EU between 2000 and 2006 was as follows:

| | *Number* |
|---|---|
| 2000 | 221,196 |
| 2001 | 211,870 |
| 2002 | 252,924 |
| 2003 | 311,880 |
| 2004 | 277,760 |
| 2005 | 261,044 |
| 2006 | 409,941 |

The UK does not hold records on imports of non-CITES species into the EU.

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* CITES and *(b)* non-CITES listed reptiles were imported into the UK from (i) inside and (ii) outside the EU in each year between 2000 and 2007. [172700]

**Joan Ruddock:** CITES listed reptiles can be moved freely within the Community and no statistics are available of specimens moving within the free trade area.

The number of CITES listed reptiles imported into the UK from outside the EU between 2000 and 2007 was as follows:

| | *Number* |
|---|---|
| 2000 | 8,193 |
| 2001 | 13,454 |
| 2002 | 9,335 |
| 2003 | 13,258 |
| 2004 | 16,459 |
| 2005 | 12,120 |
| 2006 | 25,222 |
| 2007 | [1] |

[1] No figures currently available

*(b)* (i) and (ii) There are no records kept of the numbers of non-CITES listed reptiles moved into the UK from within or outside the EU.

### River Severn: Floods

**Mr. Harper:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 20 November 2007, *Official Report*, column 768W, on River Severn: floods, if the Secretary of State will place in the Library copies of the documents to which he referred. [173400]

**Mr. Woolas** *[holding answer 11 December 2007]*: I will arrange for copies of these documents to be placed in the House Libraries.

### Sea Fishery Officers: Manpower

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs how many qualified sea fisheries officers there were in each year since 1997; how many are planned for each of the next 10 years; and if he will make a statement. [170775]

**Jonathan Shaw:** The number of qualified British sea fishery officer posts in each year since 1997 is set out in the following table:

| | *Number* |
|---|---|
| 1997 | 76 |
| 1998 | 76 |
| 1999 | 68 |
| 2000 | 67 |

| | Number |
|---|---|
| 2001 | 67 |
| 2002 | 67 |
| 2003 | 72 |
| 2004 | 75 |
| 2005 | 74 |
| 2006 | 75 |
| 2007 | 75 |

Information on actual numbers of staff in post throughout the period is not readily available as vacancies will arise and be filled at various times during each year.

We have no information on planned numbers of British sea fishery officers over the next 10 years.

### Sewers: Floods

**Mr. Gray:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons were for not extending the powers of the Environment Agency to include flooding from drains and sewers by the end of 2006 as planned in 2004; and what progress is being made towards rationalising responsibilities for drains and sewers. [171021]

**Mr. Woolas:** In 2005 the first Government response to the consultation on 'Making Space for Water' we announced an intention to extend the role of the Environment Agency to include strategic overview of management of flood risk from all sources (rivers, the sea, sewer, surface water and groundwater) and of coastal erosion risk, and that these changes would be implemented progressively by 2009. We have announced the detailed form this new role will take on the coast, to take effect from next April, and are considering how it should be applied inland. As with the coastal overview role, the inland changes will be informed by public consultation.

As part of the upcoming 'Government Water Strategy, Future Water', due to be published early in 2008, we will review approaches to urban drainage, taking account of recommendations from the independent review of the summer flooding being undertaken by Sir Michael Pitt. To support this work, the Government, along with UK Water Industry Research (UKWIR) is spending £2 million on 15 integrated urban drainage pilot studies around the country to test new approaches to reduce the risk of urban drainage flooding. The pilots, to be completed in spring 2008, are intended to clarify responsibilities for urban drainage management.

### Waste Disposal: Leicester

**Ms Hewitt:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment his Department has made of the performance of Leicester city council on collection, recycling and disposal of household waste. [169940]

**Joan Ruddock:** Local authority household waste performance is measured by adding together their recycling and composting rates under Best Value Performance Indicators 82a (household waste the local authority sends for recycling) and 82b (waste sent by the authority to composting or anaerobic digestion).

Leicester city council achieved a 27.2 per cent. household recycling and composting rate in 2006-07. The national average is 31 per cent.

### Waste Management: Environment Protection

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the effect on the environment of *(a)* incinerating waste and *(b)* disposing of waste through landfill; and if he will make a statement. [174569]

**Joan Ruddock:** An independent review, peer-reviewed by the Royal Society, on the Environmental and Health Effects of Waste Management, was published by DEFRA in 2004. The review concluded that, based on the evidence from studies so far, the treatment of municipal solid waste—including by incineration and landfill—has, at most, a minor impact on human health and the environment. DEFRA has also published a study, "Impact of Energy from Waste and Recycling Policy on UK Greenhouse Gas Emissions", which is available on the DEFRA website.

Eleven per cent. of waste is currently incinerated in England, but an increase is likely to be needed to be able to meet Landfill Directive targets, despite big improvements in waste recycling and minimisation. Recovering energy from waste (including via incineration) offers a considerable climate change benefit compared to the alternative of landfill. This is primarily through avoided landfill methane emissions, with energy generated from the biodegradable fraction of waste also offsetting fossil fuel power generation.

The Environment Agency ensures that emissions and other outputs from waste management facilities are within the limits set by the EU and the UK Government to minimise any negative impact.

### Water: Nitrates

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Environment Agency on levels of nitrates in water; and if he will make a statement. [173988]

**Mr. Woolas** *[holding answer 13 December 2007]*: My Department worked closely with the Environment Agency (EA) during the recent review of Nitrate Vulnerable Zones in England. The EA regularly monitors nitrate concentrations in waters and this monitoring data played a fundamental role in informing the recent review.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the incidence of silting in rivers and waterways in connection with nitrates found in those waterways; and if he will make a statement. [173989]

**Mr. Woolas** *[holding answer 13 December 2007]*: My Department has not made an assessment of the incidence of silting in rivers and waterways in connection with nitrates found in those waterways.

### Wild Boars

**Mr. Harper:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent progress has been made in *(a)* finalising and *(b)* publishing his Department's strategy for wild boar management. [173884]

**Joan Ruddock** *[holding answer 13 December 2007]*: My Department has made significant progress in developing the strategy and is currently considering aspects of its delivery. We intend to publish it in the new year as soon as these aspects are resolved.

## INTERNATIONAL DEVELOPMENT

### ACP Countries: Economic Agreements

**Mr. Sharma:** To ask the Secretary of State for International Development what progress there has been on the economic partnership agreement negotiations; and what progress he expects before the 1 January 2008 deadline. [172997]

**Mr. Thomas:** As of 11 December, 17 countries have signed an interim goods agreement with the Commission. These are Kenya, Tanzania, Uganda, Rwanda, Burundi, the Seychelles, Mauritius, Zimbabwe, Madagascar, the Comoros, Botswana, Lesotho, Swaziland, Mozambique, Ivory Coast, Papua New Guinea and Fiji.

Commissioner Mandelson reported to the European Union General Affairs and External Relations Council on 10 December that there is a good possibility that Ghana, Namibia, Cameroon, Gabon and the Caribbean will also sign goods agreements before 1 January.

Thirty-two other Least Developed Countries in Africa and the Pacific are not expected to sign a goods agreement or economic partnership agreement before 1 January but will continue to have duty and quota-free access to the European Union after 1 January under the 2001 "Everything But Arms" initiative.

South Africa is not expected to sign a goods agreement or economic partnership agreement before 1 January and will continue to have access to the European Union under its existing trade agreement.

### Afghanistan: Overseas Aid

**Mr. Hague:** To ask the Secretary of State for International Development what proportion of UK aid to Afghanistan was allocated to security assistance in the latest period for which figures are available; and if he will make a statement. [168548]

**David Miliband:** I have been asked to reply.

Assistance to the Afghan security sector in financial year 2006-07, including the police was £17.5 million. This represented approximately 10 per cent. of UK aid spend in Afghanistan. This financial year (2007-08) £27.1 million has been committed representing approximately 16 per cent. of total UK aid to Afghanistan.

**Mr. Holloway:** To ask the Secretary of State for International Development (1) whether his Department's work in Afghanistan is primarily intended to support the development work undertaken by the Government of Afghanistan; [173284]

(2) whether his Department's work in Afghanistan is primarily intended to support the counter-insurgency role of UK armed forces in Helmand Province. [173285]

**Mr. Thomas:** DFID's programme is primarily intended to support the development work led by the Government of Afghanistan. The best way to do this is by supporting Afghans themselves—which is why over 80 per cent. of our aid goes directly to the Government of Afghanistan. This is helping to build the legitimacy and capacity of the Government of Afghanistan to manage their own finances and economy. DFID's programme focuses on: building effective state institutions and better governance; improving economic management; and improving livelihoods.

As a result of this support, Afghanistan has seen real progress since 2001, with life improving for many Afghans. Around 5.4 million children are now in school, over a third of them girls. This is up from an estimated 1 million children in school in 2001, of whom very few were girls and who were officially denied access to education under the Taliban. Afghan domestic revenues grew by over 300 per cent. between fiscal years 2002-03 and 2006-07 and over £166 million worth of small loans have been given to over 404,000 families, shopkeepers, tailors, farmers, builders and others to invest in legal businesses and increase their savings. DFID also provides support to the Afghan Government's National Solidarity Programme (NSP), which is helping over 18,000 community development councils identify development priorities, and has approved over 32,000 projects in villages across Afghanistan—including building health clinics and schools, and improving water supplies and electricity generation.

All elements of the DFID programme take account of and support the counter-insurgency rôle of UK armed forces in Helmand province, as well as other aspects of the UK's Comprehensive Approach in Afghanistan. DFID provides a development adviser to the Provincial Reconstruction Team in Helmand. Last year DFID provided £4 million of the total £6.2 million UK funding for Quick Impact Projects (QIPs), and this year will provide £6 million of the total £9 million of UK funding. By July 2007, over 180 QIPS were planned, on-going or complete, including training programmes for drug addicts, equipment and training for the Afghan police, improvements to the prison in Lashkar Gah, and construction of parks and children's playgrounds. DFID also works with the Government to improve service delivery in Helmand. In 2007-08 DFID provided £10 million of funding to help the Government of Afghanistan improve sanitation, build and maintain roads, and provide credit to support legal businesses, and we plan to provide the same amount next year.

**Miss McIntosh:** To ask the Secretary of State for International Development what humanitarian aid his Department has provided to Afghanistan in the last 12 months. [174279]

**Mr. Malik:** DFID bilateral aid to Afghanistan totalled £98.8 million in 2006-07. Of this, £1.6 million was delivered as humanitarian assistance. Figures for 2007-08 will be available in June 2008. Data are not available on a December to November basis.

### Afghanistan and Iraq: Reconstruction

**Dr. Fox:** To ask the Secretary of State for International Development what recent progress has been made on his Department's reconstruction projects in *(a)* Afghanistan and *(b)* Iraq. [174642]

**Mr. Douglas Alexander:** DFID provides its main support to physical reconstruction projects in Afghanistan through three Government of Afghanistan programmes: the National Solidarity Programme (NSP), which funds community-level projects chosen by these communities; the National Rural Access Programme (NRAP), which builds and rehabilitates rural roads and bridges; and the Helmand Agriculture and Rural Development Programme (HARDP), which funds a wide range of development activity in Helmand province, including wells.

As of 21 November, NSP had completed 15,111 projects in all 34 provinces of Afghanistan, an increase of 552 projects on the previous month. It had also rehabilitated 9,333 km of road and 101 bridges across the country, with a further 544 km of road and 16 bridges under construction. Meanwhile, under HARDP, 740 wells have been completed since the start of 2007, with 270 under construction. A further 1,000 wells and 6,030 latrines are planned for 2008. The Government also supports physical reconstruction projects in Helmand through its programme of Quick Impact Projects (QIPs). Over 230 QIPs have been implemented by the UK-led Provincial Reconstruction Team (PRT) in Helmand since July 2006, including 100 in 2007-08.

Since March 2003, DFID has committed over £100 million to infrastructure regeneration projects in Iraq. This has helped to create employment for several thousand Iraqis in repairing some of southern Iraq's key infrastructure. We have added or secured 415 MW of electricity to the Iraqi national grid, and will be adding or securing a further 60 MW over the next few months. This will be enough to provide 24 hours of power for around 1 million people. By early 2008 DFID will have improved access to water for 1 million people.

Our work with Basra Provincial Council (BPC) has helped it to deliver a Provincial Development Strategy (the first ever in Iraq), and establish increasingly transparent economic governance. The BPC was consequently able to access $195 million of central Government funds in 2007, after receiving nothing in 2005. We are also working with the Iraqi Government and the BPC to take forward a series of economic initiatives supported by my right hon. Friend the Prime Minister. They include a Basra Investment Promotion Agency (BIPA) and an overarching 'Basra Development Commission (BDC)', to be supported with advice from international business leaders, including from the UK.

**Dr. Fox:** To ask the Secretary of State for International Development (1) what assessment he has made of the likely effect the *(a)* Basra Investment Promotion Agency and *(b)* Basra Development Fund will have on promoting private investment and reconstruction in southern Iraq; and if he will make a statement; [170811]

(2) how much funding his Department has provided to the *(a)* Basra Investment Promotion Agency and *(b)* Basra Development Fund; and if he will make a statement. [170814]

**Mr. Douglas Alexander:** The Basra Investment Promotion Agency (BIPA) is being established to promote Basra as an investment destination and will advise on policies to improve the investment climate. The Basra Development Fund (BDF) will address the weakness of the banking system and lack of access to credit for businesses. It will focus on providing small and medium sized businesses with access to credit. The fund will be capitalised with US$ 30 million from the government of Iraq. Both institutions are expected to be running by March 2008.

In addition, we are helping central and provincial authorities to establish a Basra Development Commission (BDC). The BDC will provide advice on private sector development in Basra and will involve top UK, Iraqi and middle eastern business people.

DFID-funded consultants in the UK-led provincial reconstruction team in Basra are working closely with the authorities in Basra and Baghdad to establish these institutions, and UK funding will cover the initial set-up costs for all three. In total, the start-up costs of all three are estimated at around £1 million for this financial year. The government of Iraq has undertaken to provide funding for ongoing costs from 2008.

**Mr. Hague:** To ask the Secretary of State for International Development pursuant to the answer of 3 December 2007, *Official Report*, column 915W, on Iraq: reconstruction, (1) for what reasons the Government maintain that increased attention must be given to monitoring of the International Reconstruction Fund Facility for Iraq; and what shortcomings have been identified; [172374]

(2) what body will conduct the independent review of the International Reconstruction Fund Facility for Iraq; [172375]

(3) what the remit of the independent review of the International Reconstruction Fund Facility for Iraq will be; and what the deadline is for the review to report. [172376]

**Mr. Douglas Alexander:** The United Nations conducts its own internal monitoring systems as standard practice. These tend to focus more on factual outputs, such as number of schools refurbished or text books distributed. Furthermore, each project is assessed based on its own merit. This 'Multi-donor Stocktaking Review' will assess the impact and sustainability of projects funded by IRFFI rather than focusing on the outputs; it will also assess IRFFI funded programmes relative to programmes funded by bilateral donors.

The stocktaking review will be led by a review steering committee (RSC), which is made up of four parties—Canada, the Commission, Japan and the UK. They are appointing an international consultancy firm to conduct the review. This tendering process is close to completion and, when it is, the successful bidder will be announced by UNOPS, the administrating agent.

The stocktaking review will take a comprehensive look at the impact of IRFFI's projects in Iraq as a whole. It aims to provide an independent, results-based assessment of the appropriateness, efficiency and effectiveness of IRFFI-supported programmes. The review will be important for both the accountability of the Iraqi authorities to the Iraqi people, as well as donor agencies to their taxpayers. The review is expected to be completed in the second half of 2008.

**Mr. Hague:** To ask the Secretary of State for International Development what measures are in place to ensure the monitoring of UK-funded reconstruction projects in Basra in light of planned reductions in UK troop numbers; and if he will make a statement. [174791]

**Mr. Douglas Alexander:** DFID's reconstruction projects in Basra do not rely on military support for monitoring purposes. Projects are implemented by private contractors and supervised by Iraqi engineers employed by DFID's international contractors who are based in the military base at Basra airport. Planned reductions in troop numbers will not affect this arrangement.

### Africa: Politics and Government

**Mr. Mullin:** To ask the Secretary of State for International Development what steps his Department is taking to co-operate with African Parliaments in countries where the UK has a substantial aid programme. [174587]

**Mr. Thomas:** In Africa, countries in which DFID is assisting, or has recently assisted, Parliaments include the Democratic Republic of Congo, Ethiopia, Malawi, Mozambique, Nigeria, Tanzania, and Uganda. Additionally, programmes to improve public financial management can involve work with parliamentary public accounts committees, as in the case of Zambia.

DFID has committed support to the Pan-African Parliament and has also been funding a project to establish additional African chapters of the Parliamentary Network on the World Bank. This network mobilises parliamentarians in the fight against poverty, promotes transparency and accountability in international development and offers a platform for dialogue between the World Bank and parliamentarians.

In order to improve understanding of the issues, we are helping to fund the African Legislatures Project, a three-year comparative research project on the legislatures of 18 sub-Saharan African countries.

Other steps planned or in progress to improve the effectiveness of efforts to strengthen Parliaments include commissioning case studies on the relative strengths of different approaches to parliamentary strengthening; supporting the establishment of a contact group to harness UK-based enthusiasm for strengthening developing country Parliaments; and supporting the establishment of a donor consultative group on parliamentary strengthening.

### Aviation

**Chris Huhne:** To ask the Secretary of State for International Development (1) how many miles he and other Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights; [172568]

(2) how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result. [172241]

**Mr. Douglas Alexander:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

### Bangladesh: Overseas Aid

**Mr. Stewart Jackson:** To ask the Secretary of State for International Development what estimate he has made of the funding required to meet the immediate needs of the people affected by Cyclone Sidr in Bangladesh. [172879]

**Mr. Malik:** The Government of Bangladesh (GoB) have so far provided over £12 million to meet the immediate needs of the 8.9 million people affected by Cyclone Sidr. The GoB is also distributing water, food, water purification tablets, saline, blankets, tents, utensils and other relief items. The UK has provided £7 million through the United Nations and NGOs for immediate assistance in the form of food, clean and safe water, and the restoration of livelihoods. United Nations reports show that relief efforts have reached nearly all affected areas, with the water availability crisis having passed due to the high attention given to this by the GoB and others.

However, more will be required for the recovery operation. The GoB has appealed to raise a further $1 billion, of which over $213 million has so far been pledged by bilateral donors. The UK is committed to the long-term rehabilitation of the affected area and is considering further support.

### Christmas

**Malcolm Bruce:** To ask the Secretary of State for International Development whether it is his Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173498]

**Mr. Malik:** DFID uses neither incandescent nor LED lights for festive decorations on departmental premises.

**Malcolm Bruce:** To ask the Secretary of State for International Development what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173523]

**Mr. Malik:** DFID does not purchase real Christmas trees. One small artificial tree was purchased approximately five years ago and has been used ever since.

### Departmental Aviation

**Mr. Hayes:** To ask the Secretary of State for International Development how much has been spent by his Department on commercial international passenger flights in each year since 1997. [174356]

**Mr. Douglas Alexander:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code".

Information in respect of flights taken by officials could not be provided without incurring disproportionate cost.

### Departmental Equality

**Philip Davies:** To ask the Secretary of State for International Development how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173837]

**Mr. Malik:** DFID is fully committed to the Civil Service equality and diversity agenda. DFID's diversity strategy, together with its equality schemes (covering disability, race and gender), provide the broad framework under which our diversity and equality work is promoted and delivered across the organisation. DFID has developed a generic equality impact assessment toolkit to ensure that all its relevant UK policies and processes are assessed for any adverse impact on all six equality strands (disability, race, gender, age, sexual orientation and religion/belief).

In order to meet the specific challenges of this agenda, we have undertaken a comprehensive range of activities. Monetary values have been assigned to these key activities and are set out in the following table for each of the last three financial years.

*DFID spend on diversity activities*

*£000/number*

| | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|
| *(a)* Total (inc. staff costs) | 390 | 217 | 459 |
| *(b)* Staff costs[1] | [2]71 | 114 | 173 |
| Number of full-time equivalent (FTE) staff[3] | 2.2 | 3.1 | 4.5 |

---

[1] Staffing costs have been calculated using estimates of the staff time that has been allocated to the equality and diversity agendas in the core diversity team; using average staff cost data by grade

[2] Due to a redefinition of staffing costs, data for 2004-05 cannot be compared directly with that given for subsequent years.

[3] A number of staff outside the core diversity team have also allocated a proportion of their time to promoting equality and diversity issues across DFID. These details are not held centrally and could be provided only at disproportionate costs.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for International Development how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174955]

**Mr. Douglas Alexander:** Three members of staff work in DFID's parliamentary unit. Ministerial correspondence is dealt with by a separate team.

DFID does not keep a record of the proportion of staff time spent dealing with parliamentary questions or correspondence.

### EU-Africa Joint Strategy

**Chris McCafferty:** To ask the Secretary of State for International Development what discussions he has had with his Irish counterparts on Ireland's reservation to approve the text of the EU-Africa Joint Strategy on the grounds that the strategy supports universal access to reproductive health by 2015, as set out by the International Conference on Population and Development and the Maputo Plan of Action. [173217]

**Mr. Thomas** *[holding answer 11 December 2007]:* The UK fully supports universal access to reproductive health by 2015 and therefore DFID has regular contacts, at official level, with counterparts from Ireland about sexual and reproductive health issues.

Ireland's reservations on the reference to the Maputo Plan of Action within the Joint Africa-EU Strategy and Action Plan were raised and discussed in working level meetings with all EU member states. The UK supported the presidency and Commission's approach to agreeing the text of the documents and member states agreed the following progressive commitments:

*Strategy:*

> Sexual and reproductive health and rights (SRHR) will be promoted with the aim of achieving universal access to reproductive health by 2015 and to reduce newborn, infant and maternal morbidity and mortality, as set out by the International

Conference on Population and Development (ICPD) and the Maputo Plan of Action, in the context of the Action Plans of this Joint Strategy.

*Action Plan:*

Support the implementation of the Maputo Action Plan for the operationalisation of the continental policy framework for sexual and reproductive health and rights 2007 to 2010 within the context of established EU positions.

The UK worked to ensure that the Joint Africa-EU strategy specifically addresses the off-track health MDGs and is pleased with the final Strategy and Action Plan.

### Gaza: Politics and Government

**Norman Baker:** To ask the Secretary of State for International Development (1) what recent assessment he has made of the humanitarian situation in Gaza; and what steps he is taking to improve the position for the indigenous population; [172356]

(2) what steps he is taking to address the humanitarian situation in Gaza. [172355]

**Mr. Malik:** On his recent visit to the occupied Palestinian territories (OPTs), the Secretary of State discussed the humanitarian situation in Gaza with Israeli and Palestinian leaders businessmen, donors and humanitarian workers. These discussions confirmed the assessment provided by DFID's regular monitoring, much of which relies on information from the UN Office for the Coordination of Humanitarian Affairs (OCHA). OCHA's most recent reports indicate that although humanitarian aid is getting into Gaza, restrictions at crossings mean that only 41 per cent. of Gaza's food needs are being imported. Shortages in basic foodstuffs have led to price increases and less food being purchased. 80 per cent. of the population in Gaza now receives food aid. Following the fuel cuts imposed by Israel on 28 October, the public provider of water services is receiving only 50 per cent. of the fuel needed to operate its facilities. Combined with a lack of spare parts for generators, this has meant that some people are only receiving water for one to two hours a day.

The UK is deeply concerned about the situation and we are doing what we can to help. During his visit, the Secretary of State expressed concern to Defence Minister Barak about the humanitarian effect of the reduction in fuel supplies and other Israeli actions. He discussed plans to reopen Gaza's crossings with President Abbas and Prime Minister Fayyad.

The UK is also providing humanitarian assistance. In 2007, DFID has given £15.6 million to the United Nations Relief and Works Agency to provide essential services such as food, housing and education to Palestinian refugees in the occupied Palestinian territories and wider region. Refugees make up 70 per cent. of Gaza's population. We have provided £15 million to the Temporary International Mechanism (TIM) since 2006 for health services, allowances for government workers and water, sanitation and electricity services. We have also given £1 million this year to fund ICRC's emergency appeal for Gaza.

### Iraq: Overseas Aid

**Mr. Clifton-Brown:** To ask the Secretary of State for International Development with reference to the answer of 9 October 2007, *Official Report,* columns 437-38W, on Iraq: overseas aid, what lessons have been learnt from provincial reconstruction teams in Iraq that could apply to Afghanistan in terms of how and where aid is delivered. [170630]

**Mr. Thomas:** Provincial reconstruction teams (PRTs) were originally established in Afghanistan and adopted in Iraq as a successful model. The PRT model has proven itself as an effective means of improving the delivery and co-ordination of aid and other development activity in conflict environments.

DFID works closely with other Government Departments and international partners to ensure that key lessons from PRTs in both countries are captured. The cross-departmental Post Conflict Reconstruction Unit has a formal role in ensuring that lessons are recorded for wider application, including the co-ordination of civilian and military initiatives. The primary purpose of PRTs in Iraq is to build the capacity of the provincial government to deliver benefits for its citizens. Major differences in the focus of the Iraq and Afghanistan programmes mean that some lessons are not readily transferred, but some general principles are applicable. The importance of building the capacity of provincial government and good governance, and of supporting each country's own central and provincial government to lead on and deliver reconstruction initiatives are major examples.

### Offices

**Mr. Hague:** To ask the Secretary of State for International Development how many overseas offices his Department has; and if he will make a statement. [174790]

**Mr. Douglas Alexander:** DFID has 68 overseas offices.

### Sudan: Armed Conflict

**Mr. Drew:** To ask the Secretary of State for International Development what recent reports he has received on local level conflict between the Hadendowa and the Beni Amer in Eastern Sudan. [173250]

**Meg Munn:** I have been asked to reply.

Although we are aware of tensions between the Handendowa and the Beni Amer over resources and power sharing, we have not received any significant reports of violent conflict in Eastern Sudan since the signing of the East Sudan Peace Agreement in October 2007.

The UK welcomes the stability that the East Sudan Peace Agreement has brought to the region and urges the parties to implement it fully and fairly. The UK is funding a UN programme to develop a comprehensive risk and threat mapping tool to provide a better understanding of local conflict dynamics, including in the East of Sudan, and to inform future aid programmes.

### Sudan: Overseas Aid

**Mr. Drew:** To ask the Secretary of State for International Development what representations he is making to ensure that the moratorium on humanitarian access to Darfur is extended in 2008. [173682]

**Mr. Thomas:** During his recent visit to Sudan the UN's Emergency Relief Co-ordinator, John Holmes, was given assurances by the Sudanese authorities that the moratorium will be extended beyond its January 2008 expiry. The UK is working closely with the UN and other international partners to ensure this undertaking is implemented promptly and in full. The primary mechanism for this lobbying is through the UN-Government of Sudan High Level Committee (HLC). DFID is about to assume the donor representative position on the HLC and we are pressing for a meeting as swiftly as possible.

### Sudan: Peacekeeping Operations

**Mr. Andrew Mitchell:** To ask the Secretary of State for International Development what representations the Government have made to the UN Security Council to expedite the deployment of an effective UN-African Union force to Darfur, Sudan. [169113]

**Mr. Jim Murphy:** I have been asked to reply.

We have called for the early deployment of the UN-African Union force in Darfur (UNAMID) in the UN Security Council. We have been in close contact with the UN Department of Peacekeeping Operations (DPKO), which is responsible for generating the force in consultation with the African Union, on how we can speed up deployment: my noble Friend the Minister for Africa, Asia and the UN, the right hon. Lord Malloch-Brown, spoke to Under-Secretary-General Guehenno, Head of the DPKO, most recently on 6 December to discuss the issue. And my right hon. Friend the Foreign Secretary spoke about UNAMID with UN Secretary-General Ban Ki-moon on 7 December.

We are working closely with allies in the Security Council to co-ordinate efforts in support of the DPKO and continue to press all parties for the prompt deployment of an effective force to Darfur.

### UK Search and Rescue Advisory Group

**Mr. Harper:** To ask the Secretary of State for International Development when the UK Search and Rescue Advisory Group met in 2007; and if he will place minutes of the meetings in the Library. [170258]

**Mr. Malik** *[holding answer 6 December 2007]:* The United Kingdom International Search and Rescue Advisory Group (UKISARG) met five times in 2007 on the following dates:

19 March

16 April

15 June

1 October

24 October

Minutes of these meetings will be placed in the Library.

## DEFENCE

### Africa: EC Action

**Dr. Fox:** To ask the Secretary of State for Defence (1) when he expects the EU Special Committee ATHENA to approve an agreed budget for the EU mission to Chad/Central African Republic; [173729]

(2) when he expects the force generation for the EU military mission to Chad/Central African Republic to be completed. [173730]

**Mr. Bob Ainsworth:** A third force generation conference for the proposed ESDP mission to Chad took place on 21 November, but with critical gaps remaining in the assets offered, further force generation is underway. We continue to work with partners to ensure the process is completed as soon as possible.

Once force generation for the mission has been completed, a budget for the mission common costs will be presented for agreement by the EU Special Committee under the ATHENA arrangements.

### Africa: Military Aircraft

**Dr. Fox:** To ask the Secretary of State for Defence how many RAF *(a)* C-17 Globemaster, *(b)* C-130K Hercules, *(c)* C-130J Hercules, *(d)* Tristar and *(e)* VC-10 aircraft will be used for the upcoming EU mission to Chad/Central African Republic. [173718]

**Mr. Bob Ainsworth:** I refer the hon. Member to the answer I gave on 12 November 2007, *Official Report*, column 53W.

### Armed Forces: Children

**Dr. Fox:** To ask the Secretary of State for Defence what mechanisms his Department provides to help the families of service personnel with childcare while personnel are on deployment. [174474]

**Derek Twigg:** MOD has a very wide range of mechanisms available to support the families of Service personnel with their childcare needs, including while Service personnel are deployed on operations. In particular, we have recently introduced a childcare voucher scheme to assist personnel with the cost of childcare. In the UK, though local authorities and devolved administrations have the lead responsibility for facilitating access to appropriate childcare, many Service locations also have onsite childcare provision tailored for the Service community. This is particularly the case in many overseas locations where the MOD takes the lead in service provision. Service families seeking childcare can access information through the MOD HIVE Information Service and, in UK, through the normal childcare information services. All of these services continue to be available to families while Service personnel are deployed.

In addition, the armed forces have welfare and community support staffs that focus on providing additional support and guidance to the Service community, including childcare development. They and other support groups, such as the Families Federations, are available throughout periods of deployment.

Ultimately, the care of their children must remain the personal responsibility of all Service parents regardless of deployment. This includes a requirement to make plans in advance to cater for their families during any deployments. However, in exploring further ways in which they can be supported in this, the Department is completing a review of the provision of childcare across the armed forces and plans to publish a new MOD childcare policy in early 2008.

### Armed Forces: Coroners

**Mr. Jenkin:** To ask the Secretary of State for Defence what the cost was of providing legal representation for *(a)* the families of servicemen and women killed on operations which were paid for by his Department and *(b)* his Department at coroners' inquests in the last 12 months for which figures are available. [174665]

**Mr. Bob Ainsworth:** I will write to the hon. Member and place a copy of my letter in the Library of the House.

**Mr. Jenkin:** To ask the Secretary of State for Defence how many departmental personnel on average attended coroners' inquests into the deaths of a serviceman or woman in the last 12 months for which figures are available. [174666]

**Mr. Bob Ainsworth:** The information requested is not held centrally and could be provided only at disproportionate cost.

The Ministry of Defence (MOD) is keen to support coroners in the conduct of their statutory duty to inquire into certain deaths. The level of MOD attendance at the inquests into the deaths of service personnel will vary depending on the circumstances of the death, and the roles of those attending are varied.

The Ministry of Defence provides the family of a deceased service person with a dedicated visiting officer to support them through their bereavement and it is usual for visiting officers to attend inquests as part of their duties. On occasion, other welfare support staff will also attend to assist the families; each case varies and is largely dependent on the wishes of the families.

An inquest into a road traffic accident on public roads in the UK may have only one or two MOD personnel attending, made up of the family's visiting officer and, as needed, an officer to report on the proceedings and findings. For more complex inquests, there is a greater level of attendance; this may include MOD service and civilian personnel who have been called as witnesses, as well as MOD subject matter experts provided to assist the coroner to establish the facts around more complex areas such as operational or technical issues. The MOD may also have support staff for witnesses and a press officer in attendance on some occasions.

### Armed Forces: Deployment

**Dr. Fox:** To ask the Secretary of State for Defence what the expected tour length is of Apache crews; and whether there are any plans to change the length of operational tours. [174468]

**Mr. Bob Ainsworth:** The Apache was first deployed to Afghanistan in April 2006. The current operational tour length for Apache crews is six months, which is generally split into two three-month deployments separated by a three month gap. As of May 2008, operational tours for Apache crews will last for four uninterrupted months.

### Armed Forces: Divorce

**Patrick Mercer:** To ask the Secretary of State for Defence what estimate he has made of the number of armed forces marriages that broke down in each year since 2001; and what support his Department provides for armed forces marriages in circumstances where services personnel are absent for long periods of time on training activities or deployment. [172561]

**Derek Twigg:** I refer the hon. Member to the answer I gave on 19 February 2007, *Official Report*, column 202W, to the hon. Member for Forest of Dean (Mr. Harper).

The MOD places a very high priority on the welfare of its service personnel and their families. There are a range of measures in place designed to support marriages for all service personnel and their families including the provision of service family accommodation, and a range of pastoral and welfare services where service families can go for advice and support at all times. This includes close links with organisations such as RELATE.

Support to armed forces personnel deployed away from their home base is primarily through the Chain of Command, supported by service religious leaders and medical staff where appropriate. Service welfare staff remain available in home base locations to support families during deployments of service personnel.

Additional support for those on operational deployments and certain overseas exercises include briefings before and during deployment, free telephone calls, 'e-blueys' and internet access to facilitate communication, extra travel allowances available to dependants and close family members and welfare grants to assist parent units to fund group welfare activities and facilities. Local commanders retain discretion to return service personnel from theatre for welfare reasons. When service personnel return from operations they receive post operational leave (20 days for a six-month tour); which enables them to spend quality time with their families and friends.

### Armed Forces: Health Services

**Sir Paul Beresford:** To ask the Secretary of State for Defence what contribution the Government have made to the appeal to build a new gym and fitness pool for injured military personnel at the Headley Court Defence Medical Rehabilitation Centre in Mole Valley. [172709]

**Derek Twigg:** A new charity, Help for Heroes, with the support of a local business Arkenis, advised us in the summer of their plans to launch an appeal for funds to build a new rehabilitation complex, including a gym and swimming pool, at the Defence Medical Rehabilitation Centre, Headley Court. The project would provide a very welcome enhancement of existing facilities, which currently include five gyms and a hydrotherapy pool. We are working closely with the charity to establish how we can best blend their generous offer of assistance with existing plans for improving facilities at Headley Court, a site which is itself owned by a charitable trust. This is yet another example of the third sector compliementing the work of the public sector in providing support to our people by working together.

### Armed Forces: Hospitals

**Philip Davies:** To ask the Secretary of State for Defence how many and what percentage of UK-based military hospitals have been closed since 2001. [173849]

**Derek Twigg:** A review of the UK's military hospitals as part of the 1994 Defence costs study confirmed that they were no longer able to provide the volume and range of cases essential to train our medical personnel in the advancing medical skills needed for their essential operational roles. The majority of the hospitals were closed during the 1990s, with the training needs of Defence Medical Services personnel being managed through Ministry of Defence hospital units (MDHUs) established within NHS hospitals at Derriford, Frimley Park, Peterborough, Portsmouth, Northallerton, and at the Royal Centre for Defence Medicine (RCDM) at University Hospital Birmingham Foundation Trust (UHBFT).

It was originally intended to retain the Royal Hospital Haslar, Gosport, as the tri-service core hospital, primarily to train military medical personnel for their operational role. But the volume and range of cases did not occur, and in December 1998 the Government announced their decision to phase out Haslar and consolidate training within the NHS, building on the establishment of the MDHUs.

Clinical management of Haslar passed to the Portsmouth Hospitals NHS Trust in 2001, and it has not been a military hospital as such since that time. We continued to be responsible for the management of the site until March 2007, when this responsibility also passed to the trust. It is still owned by the MOD and will continue to function, under a partnership arrangement with the NHS Portsmouth Hospitals Trust, until late 2009 when clinical services, along with NHS and some military staff, will transfer to the redeveloped Queen Alexandra Hospital in Cosham, Portsmouth.

The Duchess of Kent's Psychiatric Hospital at Catterick, closed in December 2003, with subsequent inpatient mental health care for service personnel being provided by a contract with the Priory Group.

While not a full-scale military hospital, the Duke of Connaught Unit, located in the grounds of Musgrave Park Hospital, Belfast, provides a restricted range of inpatient secondary care to military patients, and Defence Medical Services nurses and health care assistants work at the unit.

### Armed Forces: Housing

**Nick Harvey:** To ask the Secretary of State for Defence how many properties are rented as substitute service family accommodation and substitute single living accommodation in each region; and at what cost. [168872]

**Derek Twigg:** MOD is required to accommodate entitled personnel within 10 miles of their duty station (or 20 miles with permission of their service commander). Where no suitable service family accommodation (SFA) can be found, substitute SFA is offered within the appropriate distance from a duty station.

Substitute single service accommodation (SSSA) is granted to entitled personnel requiring single accommodation when single living accommodation (SLA) is not available at or close to an individual's place of work.

The following tables list all Substitute SFA and SSSA together with the monthly rent payable.

*SSFA*

| *Location* | *Count* | *Sum of rent (£ pcm)* |
|---|---|---|
| Aberdeen | 4 | 4,900 |
| Birmingham | 113 | 109,162 |
| Bath | 15 | 20,954 |
| Blackburn | 3 | 2,725 |

**Patrick Mercer:** To ask the Secretary of State for Defence what assistance is available to non-forces spouses to find suitable alternative accommodation following the breakdown of armed forces marriages. [172557]

**Derek Twigg:** Every effort is made by the services to effect a reconciliation, with the local service commander able to authorise a 'cooling off' period of up to three months. During this time, it is usual for the service person to move into single living accommodation, leaving the other party in the services family accommodation (SFA).

After the 'cooling off' period or when it becomes clear that no reconciliation is possible, the local service authorities are required to inform the Housing Information Centre (HIC) of the change in circumstance. The HIC will then issue a 93-day Notice to Vacate for the party who remains in the property, and also a 'Certificate of Cessation of Entitlement to Occupy Service Families Accommodation' that will assist the family to seek social housing from their local authority on expiry of the 'notice to vacate' their SFA. However, no one will be evicted from SFA until alternative accommodation has been found.

Within the armed forces, further advice for both partners with regards to finding new accommodation is available from the Joint Services Housing Advice Office (JSHAO). In addition to providing advice, the JSHAO operates a nomination scheme with a number of housing associations in England and Wales that allow applicants to apply for social housing in areas in which they wish to reside.

**Dr. Fox:** To ask the Secretary of State for Defence with reference to the answer of 16 October 2007, *Official Report*, column 937W, on armed forces housing, what plans he has for accommodation disposal in each of the next three years; and how much will be generated from each such disposal. [173733]

**Derek Twigg:** The majority of service families accommodation (SFA) in England and Wales is leased from Annington Homes Ltd. and properties no longer required for defence purposes are returned to the company. Although no receipt accrues to the Ministry of Defence (MOD) in respect of properties returned, there are savings in rent, contributions in lieu of council tax and maintenance.

In Scotland and Northern Ireland, surplus SFA are sold on the open market. We currently have plans to dispose of 600 properties in Scotland and 800 in Northern Ireland over the next three years.

Overseas, the majority of SFA are returned to the host government when no longer needed, but SFA on permanent joint operations bases are owned by the MOD. When they are no longer required, the future of these properties is determined by the MOD.

In respect of single living (barrack) accommodation (SLA), this is usually within the wire of a service establishment and the disposal normally forms part of the disposal of the wider site. Receipts cannot, therefore, be estimated specifically for SLA.

As part of the 2007 comprehensive spending review, the Department agreed overall defence estate disposal targets (including accommodation) as follows:

| | *£ million* |
|---|---|
| 2007-08 | 403 |
| 2008-09 | 176 |
| 2009-10 | 310 |
| 2010-11 | 296 |

It is not possible to separate out the accommodation element of these targets. Receipts from house sales will depend on market conditions at the time of sale, the area and the type of property. To release any valuations we may have carried out ahead of the sale would, in any case, be likely to influence the market and these are thus regarded as commercially confidential until the sale is complete.

### Armed Forces: Manpower

**Dr. Fox:** To ask the Secretary of State for Defence what percentage of each pinch point trade is exceeding the harmony guidelines. [173728]

**Derek Twigg:** I refer the hon. Member to my answer of 29 October 2007, *Official Report*, column 942W. There are no updated statistics since that answer was given.

### Armed Forces: Recruitment and Retention

**Mr. Drew:** To ask the Secretary of State for Defence what steps he is taking to improve recruitment and retention in the armed forces. [167887]

**Derek Twigg:** All three Services undertake numerous and varied initiatives, both at national and local level, aimed at sustaining and increasing the level of recruitment to the armed forces. Included among the many current initiatives are:

The use of multi-media advertising campaigns, including digital media;

Services' presentation teams' attendance at schools, careers fairs and graduate recruitment seminars, road shows, exhibitions, youth clubs and organisations;

Specialist teams to attract doctors, dentists, nurses, lawyers and padres by promoting Service careers within specialist recruitment shows and through professional bodies.

Work experience placements within Service establishments.

Personal development courses and Look at Life Courses for young people who express an interest in the armed forces.

Taster day visits to HM ships and service establishments.

A dedicated careers website for each of the Services complete with a dedicated information support call centre.

An Army 'on-line' recruiting office, with plans for this to be replicated by the other Services;

Specialist ethnic minority recruiting and diversity action teams aimed at promoting armed forces careers among the UK's ethnic minority and faith communities;

A partnership with Jobcentre Plus, making use of its network (totalling in excess of 1,100) of local outlets;

Financial incentives, for example: Golden Hellos, for those who have studied specific vocational subjects to a set level; and re-joining bounties to certain trades.

Turning to retention; in the armed forces as a whole, retention rates are broadly stable and we have seen no sudden outflow of personnel. However, there are areas where exit rates remain too high. These areas are continuously monitored closely and focused action taken to continue to improve recruitment and retention. We continue to restructure our forces so that they can best meet operational demands. Retention measures such as commitment bonuses, re-engagement packages, financial retention initiatives and initiatives to improve work/life balance and working conditions at the front line, continue to be used with the aim of discouraging outflow. There are a number of specific initiatives currently being undertaken such as the strategic remuneration review and the defence living accommodation strategy which will contribute towards this effort. In addition, we have made improvements to travel allowances to permit personnel to get home more easily and we continue to add to the deployment welfare package, that provides additional support to people deployed on operations and their families. We have also introduced a council tax rebate for serving personnel deployed on designated operations while also promoting measures such as work/life balance and career breaks to improve the day-to-day lives of Service personnel and their families.

The Services are also currently examining further non-financial retention measures including, in the near term, continuance of service, restructuring of trades to relieve pinch points, and being more flexible on what rank is required for a given post. Longer term work is also being carried out into the potential for easier movement between regular and reserve service, more flexible employment generally, assistance with house purchase, and any opportunities for stability a more regionalised Service might offer.

### Armed Forces: Training

**Dr. Fox:** To ask the Secretary of State for Defence how many training areas in the United Kingdom place restrictions on training due to environmental concerns. [174490]

**Derek Twigg:** The MOD has both self imposed as well as legal restrictions placed upon training on all its training areas. Dependent upon the size, location and type of training area these restrictions may be simply to meet basic legal requirements and good practice standards, or they could be significant limitations imposed as a result of conservation designations or planning permissions. This ensures the long term sustainability of the estate.

### Armed Services Capacity

**Dr. Fox:** To ask the Secretary of State for Defence pursuant to the answer of 3 December 2007, *Official Report*, column 568, on armed services capacity, if he will place in the Library a copy of the assumptions and methodology used to estimate the cost of three infantry battalions at £700 million; and if he will make a statement. [173734]

**Mr. Bob Ainsworth:** While the costs of an infantry battalion are not generally held centrally (as these figures are extensive and spread over a wide variety of budgets), a set of general assumptions on which to base an illustrative costing of adding three infantry battalions has been developed.

These costings are dependent on the inter-relationship of a range of complex factors. Each of the assumptions that have been made is regarded as the most reasonable for indicative costing. Costs would break down broadly into two categories: the initial start-up and capital investment costs, and the annual running costs.

Changes to these assumptions (particularly on the unit role or accommodation requirements) could result in significant changes to the overall total.

The following assumptions informed the costing:

Three light role infantry battalions, based in the UK, not held at high readiness and consisting of 625 personnel per battalion;

Three new barracks (furnished and equipped to standard). It is assumed that there are no existing empty barracks that are fit for purpose in which to accommodate the battalions, and co-location on a single site is unlikely;

The requirement for new single living accommodation (furnished and equipped to standard) (400 SLAs per battalion);

*The requirement for new service family accommodation* (furnished and equipped to standard) (225 SFAs per battalion);

Build is on land currently owned by MOD (therefore, there is no cost assumed for any requirement to purchase land);

There are no appreciable costs to gain planning permission or prepare the sites and access to them;

That over the period of implementation, this will not materially change the totality of Defences demand for personal clothing and equipment;

There is no impact on the Equipment Customer Capability Programme in that existing and programmed equipments, vehicles and communication items are whole fleet managed;

Initial recruitment costs are based on a total of 2,802 enlistments required to generate a throughput of 1,875;

Basic and collective training costs[1];

Annual barrack running costs estimated at 10 per cent. of cost of new build;

Annual salary costs (pay, national insurance and pensions) based on salaries within a rank structure of a light role infantry battalion;

No additional cost is assumed for allowances such as operational, separation and education allowances;

No other running cost is assumed (e.g. annual recruitment and retention and other costs);

No depreciation and cost of capital charges are assumed;

Figures quoted are at 2007-08 prices.

Based on these assumptions, the following costs were derived:

| | £ million |
|---|---|
| *Initial start-up costs (estimated)* | |
| Cost of new barracks (furnished and equipped to standard, including approximately 400 SLA per battalion) (£150 million x 3) | 450 |
| Cost of building additional 225 (x 3) SFA (estimated at £200,000 per SFA) | 135 |
| Recruitment costs (given a recruit pass rate of only 67 per cent., a total of 2,802 enlistments are required to generate a throughput of 1,875 (625 personnel per battalion) at a cost of £12,000[2] per enlistment | 34 |
| Basic training costs (£29,000 per person) | 54 |
| Total | 673 |
| | |
| *Annual costs (estimated)* | |
| Annual barrack running costs (estimated at 10 per cent. of cost x 3) | 45 |
| Collective training costs (£1 million per battalion) | 3 |
| Annual salary costs (£19 million x 3) | 57 |
| Total | 105 |
| | |
| Overall total | 778 |

---

[1] The battalions will conduct the following collective training (CT): CT levels 1 and 2—individual and sub unit training; CT level 3—unit level training—in this context it is assumed that the battalions will conduct exercises Druids Dance and Wessex Warrior. For the purposes of this exercise CT 4/5 training has been excluded (the all arms overseas training exercise in Kenya) on the assumption that there would be no increase in the incident of currently funded exercises; the key cost drivers are ammunition costs. T and S costs have been estimated as have clothing and textile costs based on usage for units in 1 (UK) Division. No account has been taken of longer separation allowance costs for training activities.

[2] Costs are calculated on a full cost basis and therefore contain an element of overhead as well as fixed and variable costs.

## Army: Deployment

**Dr. Fox:** To ask the Secretary of State for Defence whether there are plans to change the length of operational tours for the Army. [174476]

**Mr. Bob Ainsworth:** There are no plans to change the standard six-month tour of duty for Army units. A small number of individuals (reviewed on a case by case basis) undertake longer tours for purposes of continuity and relationship building.

## Army: Recruitment

**Dr. Fox:** To ask the Secretary of State for Defence what the target number was of recruits to the Army in each month in 2007, broken down by corps; and how many were recruited in each month. [169348]

**Derek Twigg:** Recruiting targets are set against an annual, not monthly, requirement across financial years. Officers are not recruited against Arm or Corps targets but against a whole Army requirement. The annual enlistment targets for soldiers only are shown as follows, together with the figures actually achieved.

| | *Financial year* | | | |
|---|---|---|---|---|
| | *2006-07* | | *2007-08* | |
| *Arm or Corps* | *Enlistment achievement* | *Annual target* | *Enlistment achievement to 31 October* | *Annual target* |
| Household Cavalry | 170 | 170 | 80 | 170 |
| Royal Armoured Corps | 630 | 630 | 360 | 680 |
| Royal Artillery | 970 | 1,030 | 690 | 1,020 |
| Royal Engineers | 1,340 | 1,370 | 760 | 1,480 |
| Royal Signals | 750 | 870 | 320 | 880 |
| Army Air Corps | 210 | 190 | 150 | 200 |
| Royal Logistics Corps | 2,100 | 2,410 | 930 | 2,080 |
| Army Medical Services | 430 | 450 | 250 | 460 |
| Royal Electrical and Mechanical Engineers | 1,290 | 1,060 | 710 | 1,340 |
| Adjutant-General's Corps | 260 | 400 | 190 | 370 |
| Intelligence Corps | 160 | 160 | 50 | 110 |
| Corps of Army Music | 40 | 70 | 30 | 70 |
| Infantry | 4,310 | 4,260 | 2,570 | 4,940 |

Statistics have been rounded to the nearest 10, numbers ending in five have been rounded to the nearest multiple of 20 to prevent systematic bias.

### AWE Burghfield

**Mr. Hancock:** To ask the Secretary of State for Defence when the current risk assessment at AWE Burghfield was adopted; and what plans there are to revise it. [172495]

**Mr. Bob Ainsworth:** AWE plc implemented a revised risk assessment for operations at Burghfield in September 2007. This replaced the previous risk assessment, which had been adopted in 2002. Any further reviews will be undertaken in consultation with the Nuclear Installations Inspectorate.

### Cumbria

**Tim Farron:** To ask the Secretary of State for Defence whether his Department plans to move any of its offices to Westmorland and Lonsdale constituency. [166571]

**Derek Twigg:** There are no such plans.

### Defence Equipment and Support Organisation: Manpower

**Annette Brooke:** To ask the Secretary of State for Defence how many people were employed by the Ministry of Defence in acquisition roles with the Defence Equipment and Support Organisation in each of the last three years. [173410]

**Mr. Bob Ainsworth** *[holding answer 11 December 2007]:* Defence Equipment and Support (DE and S) was formed on 2 April 2007 as a result of the merger of the Defence Procurement Agency and the Defence Logistics Organisation. At the time of the merger, the total staff employed in the new organisation was 27,512 all of whom were directly or indirectly contributing to the defence acquisition process.

### Defence Medical Services: Manpower

**Nick Harvey:** To ask the Secretary of State for Defence (1) what the *(a)* operational requirement and *(b)* strength is of medical personnel treating head injuries in Operation Herrick and Operation Telic; [168883]

(2) how many neurosurgeons are currently deployed in British forward field hospitals in *(a)* Iraq and *(b)* Afghanistan; [168889]

(3) what the Defence Medical Services policy is on medical manning and capabilities required for the treatment of head injured patients. [168893]

**Derek Twigg:** All Defence Medical Services (DMS) personnel engaged in the treatment of head injured patients, both on operations and in NHS hospitals when not deployed, are trained to NHS clinical standards, with the addition of specific training in military surgical skills.

In my written ministerial statement of 27 March 2007, *Official Report*, columns 74-75WS, I announced that the MOD had endorsed a new DMS manpower requirement specifying the number of uniformed regular DMS personnel required to support operations, provide peacetime health care and allow for continued training and the provision of headquarter staff during deployment.

The UK field hospital deployed on Operation Herrick has its full complement of UK specialist medical personnel required for treating serious head injuries, namely one neurosurgeon, one anaesthetist and two intensive treatment unit nurses.

Medical support for UK casualties suffering serious head injuries on Operation Telic is provided by a multinational team based in a US facility at Balad. Further specialised medical treatment is available in the region.

For both operational theatres, once the condition of the patient has been stabilised, they will be airlifted back to the UK.

### Defence: Planning

**Dr. Julian Lewis:** To ask the Secretary of State for Defence whether he intends to review the Defence Planning Assumptions; and if he will make a statement. [137885]

**Des Browne:** The Defence Planning Assumptions are routinely reviewed as part of the Department's strategic planning cycle. This work is under way and will be completed in 2008.

### Defence: Procurement

**Mr. Carswell:** To ask the Secretary of State for Defence how many *(a)* contract amendments and *(b)* post design services contracts were awarded by his Department post main gate for each equipment acquisition programme worth over £100 million audited by the National Audit Office and reported on in major projects reports published since 2001; and what their value was expressed as a percentage of the contract price agreed at main gate. [171829]

**Mr. Bob Ainsworth:** The information requested is not held centrally and could be provided only at disproportionate cost.

**Dr. Julian Lewis:** To ask the Secretary of State for Defence what the average rate of inflation was for major defence procurement projects in each of the last five years. [172744]

**Mr. Bob Ainsworth** *[holding answer 10 December 2007]:* The Ministry of Defence does not produce measures of inflation by major procurement project.

Work is under way to develop an index which will help to provide an aggregate measure of defence equipment inflation.

### Departmental Expenditure

**Dr. Fox:** To ask the Secretary of State for Defence what his Department's total expenditure was on fees for professional services, as listed in his Department's resource account code hierarchy, in near cash terms, in each financial year since 2000-01. [169350]

**Mr. Bob Ainsworth:** The total resource costs of the expenditure item are set out in the following table:

| | *£ million* |
|---|---|
| 2000-01 | 453.2 |
| 2001-02 | 556.4 |
| 2002-03 | 508.5 |
| 2003-04 | 581.7 |
| 2004-05 | 532.2 |
| 2005-06 | 527.1 |
| 2006-07 | 459.0 |

Near cash expenditure is not separately identified in the final resource accounts or the centrally held supporting records. Total resource costs have therefore been provided; however it is unlikely that there are any non cash costs attributed to the expenditure item which would result in the near cash expenditure being different from the resource expenditure.

### Departmental Foreign Workers

**David Simpson:** To ask the Secretary of State for Defence how many *(a)* EU foreign nationals and *(b)* non EU foreign nationals are employed by his Department. [168110]

**Derek Twigg:** The following table shows the number of UK regular armed forces personnel in each service who are British, EU foreign nationals, non EU foreign nationals and the number of personnel whose nationality is not centrally recorded.

MOD civilian foreign nationals cannot be broken down into EU/non EU nationalities, as all foreign nationalities are recorded as 'Other' in personnel administration systems.

| *Nationality* | *Naval Service*[1] | *Army*[2] | *RAF*[1] |
|---|---|---|---|
| British | 37,540 | 99,230 | 44,930 |
| EU foreign nationals | 60 | 220 | 30 |
| Non-EU foreign nationals | 540 | 6,750 | 50 |
| Not centrally recorded | 710 | 0 | 370 |

[1] As at 1 April 2007.

[2] Due to ongoing data validation from a new personnel administration system, Army figures are not available at 1 April 2007. Figures are therefore shown as at 1 March 2007.

*Note:*

All figures have been rounded to the nearest 10. Numbers ending in five have been rounded to the nearest 20 to prevent systematic bias.

### Departmental Internet

**Mr. Hoban:** To ask the Secretary of State for Defence what the cost was of maintaining his Department's daily blog for each of the last six months. [173186]

**Derek Twigg:** The internet hosting cost of the Defence News blog (www.blogs.mod.uk) has been £49.95 per month for each of the last six months. There have been no additional staff costs.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for Defence if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170236]

**Derek Twigg:** Disks containing the corporate identity guidelines for the Royal Navy and the Royal Air Force will be placed in the Library of the House; those for the Department of State and the British Army are under development, and will be added in early 2008.

From 29 November 2006 to 28 November 2007 the Ministry of Defence Directorate of Public Relations spent £46,680 on producing corporate identity guidelines for the Army. The estimated annual cost of complying with these guidelines is nil.

Accurate information on how much Defence Agencies, Top Level Budget areas, Trading Funds, Joint Headquarters, single Service Commands and military units may have spent on producing and complying with corporate identity guidelines is not held centrally, and could be provided only at a disproportionate cost.

**Dr. Fox:** To ask the Secretary of State for Defence what his Department's total expenditure was on public relations as listed in his Department's resource account code hierarchy, in near cash terms, in each financial year since 2000-01. [173735]

**Mr. Bob Ainsworth:** The total resource costs against this resource account code are set out in the following table:

| *Financial year* | *Publicity relations (£ million)* |
|---|---|
| 2000-01 | 17.8 |
| 2001-02 | 19.4 |
| 2002-03 | 16.6 |
| 2003-04 | 23.5 |
| 2004-05 | 28.5 |
| 2005-06 | 21.8 |
| 2006-07 | 22.5 |

Near cash expenditure is not separately identified in the final resource accounts or the centrally held supporting records. Total resource costs have therefore been provided; however it is unlikely that there are any non cash costs attributed to the expenditure items which would result in the near cash expenditure being different from the resource expenditure.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for Defence how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* parliamentary questions and *(b)* correspondence from hon. Members and Peers. [174961]

**Derek Twigg:** A total of 19 people work in the MOD parliamentary branch. 17 people's primary responsibility is to work on parliamentary questions or ministerial correspondence. Some posts include other duties such as assisting Ministers with their other responsibilities to Parliament.

The main role of the parliamentary branch is to process the Department's parliamentary business. Advice to Ministers on responding to parliamentary business is prepared by the relevant subject matter experts across the Ministry of Defence, both Service personnel and civilians, who number several hundreds.

## Departmental Pay

**Dr. Fox:** To ask the Secretary of State for Defence what the change in his Department's civilian salaries was measured against retail price index inflation in each financial year since 2001-02. [169473]

**Mr. Bob Ainsworth:** The percentage change year on year and the change in the Retail Prices Index year on year were as follows:

| | *Change in the average salary* | *Percentage Change in RPI* |
|---|---|---|
| 2002-03 | 3.8 | 2.1 |
| 2003-04 | 5.8 | 2.8 |
| 2004-05 | 1.5 | 3.1 |
| 2005-06 | 3.7 | 2.6 |
| 2006-07 | 5.1 | 3.7 |

*Note:*
The data include permanent and casual personnel employed by the Department excluding personnel in trading funds.

The percentage changes are reported to one decimal place.

The average salary per financial year from 2001-02 for civilian employees has been calculated using (i) the number of full time equivalent civilian employees and (ii) the expenditure recorded in the Department's accounts for civilian "salaries and wages". These figures include some allowances, such as overseas allowances and London weighting, which are included with pay.

## Departmental Property

**Dr. Fox:** To ask the Secretary of State for Defence what his Department's accommodation budget allocation is for *(a)* 2007-08, *(b)* 2008-09, *(c)* 2009-10 and *(d)* 2010-11. [162574]

**Derek Twigg:** The MOD does not have a central budget for housing and other living accommodation. Expenditure is spread over the Department's top level budget (TLB) infrastructure, although a significant proportion is administered by the Defence Estates TLB. The MOD is forecasting to spend over £800 million on housing and other living accommodation for 2007-08. This sum includes investment, maintenance and other running costs, such as rental payments and contributions in lieu of council tax.

Budgets for future years have not yet been set following the conclusion of the comprehensive spending review.

## Departmental Responsibilities

**Alan Duncan:** To ask the Secretary of State for Defence how many regulations his Department has *(a)* made and *(b)* revoked in the last 12 months. [167084]

**Derek Twigg:** The Department has made 35 statutory instruments since 1 October 2006. The information requested about the number of instruments which have been revoked in the period could be provided only at disproportionate cost.

## Departmental Training

**Mr. Hoban:** To ask the Secretary of State for Defence what the *(a)* dates, *(b)* locations and *(c)* costs were of the last four awaydays of his Department's Departmental Board. [173187]

**Derek Twigg:** The Defence Management Board normally holds awayday meetings twice a year at Defence locations, to review in an informal setting strategic issues facing the Department. The locations and net additional costs of the last four awaydays are set out in the following table:

| | *Location* | *Cost (£)* |
|---|---|---|
| 6 April 2006 | RAF Museum, Hendon | 734 |
| 4 to 5 October 2006 | Joint Services Command and Staff College (JSCSC), Shrivenham, Wiltshire | 1,555 |
| 28 to 29 March 2007 | Officers Mess, Worthy Down Station, Winchester | 651 |
| 10 to 11 October 2007 | HMS ALBION (Greenwich) and MOD Main Building | 366 |
| Total | | 3,306 |

## Duke of Connaught Medical Unit

**Mr. Donaldson:** To ask the Secretary of State for Defence whether he plans to upgrade the role of the Duke of Connaught Medical Unit in Belfast; and if he will make a statement. [174701]

**Derek Twigg:** There are no current plans to upgrade the role of the Duke of Connaught Medical Unit in Belfast.

## Ex-servicemen: Chelmsford

**Mr. Burns:** To ask the Secretary of State for Defence how many people in *(a)* West Chelmsford constituency and *(b)* Chelmsford local authority area have received veteran's badges. [172187]

**Derek Twigg** *[holding answer 11 December 2007]:* The information is not held in the format requested and could be provided only at disproportionate cost.

However, 612 veterans badges have been issued to individuals who have included Chelmsford in their address.

## Ex-servicemen: Military Decorations

**Steve Webb:** To ask the Secretary of State for Defence how many Veterans' Badges have been issued by the Veterans Agency; what estimate he has made of the number of people who are entitled to receive such badges; what plans he has for further publicity relating to the badges; and if he will make a statement. [174325]

**Derek Twigg:** The Veterans Policy Unit administered HM armed forces veterans badges from May 2004 until 17 April 2005. During this period 82,000 badges were issued. Since 18 April 2005 the Service Personnel and Veterans Agency have been responsible for the badge administration and have issued 461,212.

Every HM armed forces veteran, approximately 4.8 million, is entitled to the HM armed forces badge. The eligibility to apply for the HM armed forces veteran's badge and UK merchant seafarers veteran's badge is advertised on the service personnel and Veterans Agency website:

www.veteransagency.mod.uk

It has also been publicised through Government and ex-service organisation publications, local and national press articles and through badge-presentation ceremonies. Opportunities to provide further publicity for the scheme are continually sought. Currently badge applications have been invited from personnel who served prior to 31 December 1994 and an announcement of the next extension of eligibility to apply for the badges will be made in the near future, which will bring future publicity.

### Firing Ranges: Dartmoor National Park

**Dr. Fox:** To ask the Secretary of State for Defence what the status is of the licence his Department has applied for to the Dartmoor National Park Authority to use Dartmoor for military training from 2012; and if he will make a statement. [174491]

**Derek Twigg:** The Ministry of Defence (MOD) does not require a licence from Dartmoor National Park Authority in order to use Dartmoor for military training. However, the MOD does hold licences to train on privately owned land within the Dartmoor national park, this includes a licence granted by the Duchy of Cornwall which expires in 2012. We are currently undertaking an environmental appraisal in order to inform prospective renegotiation.

### Fisheries: Navy

**Bill Wiggin:** To ask the Secretary of State for Defence pursuant to the answers of 26 November 2007, *Official Report*, columns 39-41W, on fisheries: Navy, (1) for what reasons the recall of the river class offshore patrol vessels between 15 and 19 June 2007 due to a davit failure was not classified as lost patrol days; and if he will make a statement; [171722]

(2) what the circumstances were of the davit failure that resulted in the three river class offshore patrol vessels being recalled; and if he will make a statement. [171723]

**Mr. Bob Ainsworth:** Structural deformation of HMS Mersey's davit occurred during routine safety testing during a planned maintenance period in June 2007. In consultation with all the regulatory authorities it was concluded that a structural modification was required to ensure continued safe operation of the davits on all three vessels. The modification was completed and all three vessels were able to resume their operational duty within seven days. No further problems have been experienced.

The programmed fishery patrol days not undertaken as a result of this maintenance period were rescheduled and the number of patrol days agreed in the contract between the MOD and DEFRA will be achieved.

### Frigates

**Dr. Julian Lewis:** To ask the Secretary of State for Defence if he will make a statement on the future of the remaining Type 22 frigates. [137887]

**Mr. Bob Ainsworth:** On present plans, which are routinely reviewed, the Type 22 frigates will begin to leave service around the middle of the next decade. HMS Cornwall will be withdrawn in 2015, followed by HMS Campbeltown and HMS Cumberland in 2017, then finally HMS Chatham in 2018.

### Iraq: Overseas Aid

**Dr. Fox:** To ask the Secretary of State for Defence with reference to the answer of 9 October 2007, *Official Report*, columns 437-8W, on Iraq: overseas aid; how much of the £744 million the Government have allocated to Iraq came from his Department. [170809]

**Des Browne:** I refer the hon. Member to the answer given to him by my hon. Friend the Secretary of State for International Development (Mr. Malik) on 13 December 2007, *Official Report*, column 840W.

### Iraq: Peacekeeping Operations

**Nick Harvey:** To ask the Secretary of State for Defence what the average length of time to evacuate soldiers with brain injuries to neurosurgical facilities is in *(a)* Iraq and *(b)* Afghanistan. [168891]

**Derek Twigg:** In both Iraq and Afghanistan, for all serious operational injuries that require treatment in a field hospital, our doctrine is to provide emergency battlefield care within the first hour after wounding, and—for those requiring further treatment—within two hours to have transported every casualty to a UK or coalition field hospital.

In Iraq, we routinely adhere to this 'two-hour to surgery' limit, although in Afghanistan, where the distances can be significantly greater, we may, if appropriate, deploy a medical emergency response team (MERT) directly to the casualty, enabling advanced medical care to be provided at the point of wounding. An analysis of MERT timelines in Afghanistan over a 13-month period from May 2006 to June 2007 showed that the median time from injury to handover at the field hospital emergency department for all UK military casualties requiring emergency care and life-saving surgery was one hour 39 minutes.

On arrival at the field hospital, the clinical condition of the casualty will be assessed by the surgical team, and a decision made as to the most appropriate course of action. This could include provision of immediate surgery in the field hospital; aeromedical evacuation casualty to the UK following stabilisation of their condition; or transfer to another coalition field hospital facility.

In Iraq, the nearest specialist neurosurgical facilities are available at the US medical facilities at the Balad airbase. If it is assessed that this is the most appropriate course of action, UK casualties may be transferred there from the UK field hospital at Basrah. The average transfer time to Balad is one hour 20 minutes by fixed-wing aircraft or three hours by helicopter.

In Afghanistan, neurosurgical facilities are currently available in the UK role 2 (enhanced) field hospital at Camp Bastion, consisting of one neurosurgeon, one anaesthetist and two intensive treatment unit nurses.

For both operational theatres, once the condition of the patient has been stabilised, they will be airlifted back to the UK.

**Nick Harvey:** To ask the Secretary of State for Defence what capability there is for direct communication between military medical units and field hospitals in *(a)* Iraq and *(b)* Afghanistan. [168892]

**Derek Twigg:** In Iraq, direct voice communication is available between all fixed medical treatment facilities (MTFs) and the UK's role 2 (enhanced) field hospital, located at the contingency operating base, Basrah. Electronic text communication is also available through MOD's defence information infrastructure (DII).

In Afghanistan, all MTFs have direct voice communications with the role 2 (enhanced) field hospital at Camp Bastion (the UK military base in Helmand Province) through either fixed or satellite communication systems. Electronic text communications facilities are available at principal operating bases.

**Dr. Fox:** To ask the Secretary of State for Defence what reports his Department has produced since 2003 on the effects combat operations in Iraq and Afghanistan have had on equipment readiness; and if he will place in the Library a copy of each report. [171895]

**Mr. Bob Ainsworth:** With regard to Iraq, I refer the hon. Member to the answer I gave on 19 November 2007, *Official Report*, column 480W. With regard to Afghanistan, the Directorate of Operational Capability has to date produced two volumes of its Lessons Report on Operation Herrick. I am withholding these reports as their release would, or would be likely to, prejudice the capability, effectiveness or security of our armed forces.

## Kuwait: Armed Forces

**Dr. Fox:** To ask the Secretary of State for Defence how many British troops are based at Camp Arifjan in Kuwait. [173731]

**Mr. Bob Ainsworth:** There are currently eight UK personnel based in Camp Arifjan in Kuwait. One liaison officer is stationed with the headquarters at the Coalition Forces Land Component Command, with the remaining seven staff located at either the operational stand-down facility or the local resources section. These figures do not include those temporarily deployed in connection with roulements or other temporary support activities.

## Military Bases: Security

**Nick Harvey:** To ask the Secretary of State for Defence how many breaches of security were reported at his Department's bases and headquarters in each of the last five years; how many *(a)* arrests and *(b)* prosecutions resulted; and if he will make a statement. [165653]

**Mr. Bob Ainsworth:** This information will take time to be collated as the data will have to be obtained from different areas of the Department. I will write to the hon. Member when the information has been compiled and place a copy of my reply in the Library of the House.

*Substantive answer from Mr. Bob Ainsworth to Nick Harvey:*

I undertook to write to you in response to your Parliamentary Question on 21 November 2007, (Official Report, column 899W) about the number of breaches of security at MOD establishments for the last five years and the resulting arrests and prosecutions.

I have taken your question as relating to reported physical incursions onto the Defence estate in the UK. The figures in the table below therefore cover a range of sites from the main Departmental and Service establishments to storage and maintenance depots. An incursion can involve an individual or a group of individuals and can arise from a breach of the security fence, trespass on MOD property, unauthorised entry and infiltration onto a site and will typically include protester, criminal and vandal activity.

| | *Incursions* |
|---|---|
| 2002-03 | 23 |
| 2003-04 | 29 |
| 2004-05 | 34 |
| 2005-06 | 47 |
| 2006-07 | 37 |
| 2007 | 31 |

Figures on arrests and prosecutions relate to "Aggravated Trespass" and "Criminal Trespass" are detailed in the following table. The great majority of the arrests related to anti-nuclear and anti-Iraq war protests, 2003 being the end of a period of several years of a high level of protest activity. Information on arrests and prosecutions dealt with by local constabularies could be provided only at disproportionate cost.

| | *Arrests* | *Prosecutions* |
|---|---|---|
| 2003 | 96 | 36 |
| 2004 | 8 | 2 |
| 2005 | 9 | 1 |
| 2006 | 12 | 10 |
| 2007[1] | 14 | 12 |

[1] Until 22 November

The degree of protection required at MOD sites will vary from site to site and area to area according to the threat, location and the nature of the establishment and it would therefore be inappropriate to give all establishments equal protection. Security measures are informed by threat assessments, derived from available intelligence. They involve risk management decisions, taking into account the effectiveness and proportionality of available countermeasures. We have to accept that guaranteed security against all forms of incursion is not achievable. It would not, for instance, be realistic to attempt to secure the outer perimeters of any MOD site to a level that would guarantee that it could never be penetrated, or to exclude the possibility of material damage in a non-sensitive area. We rely on defence in depth, with priority being given to the protection of life and those assets critical to the delivery of defence capability.

I can assure you that we continue to strive to adapt and improve the security measures already in place so that they meet the evolving threat. As part of this continuous review of security 13 MOD sites and three MOD licensed nuclear sites were designated for protection by a new offence of criminal trespass, under the Serious Organised Crime and Police Act 2005 on 1 April 2006. The number of incursions at these sites has reduced significantly, and the number of prosecutions has increased as a result of this added protection.

I am placing a copy of my letter in the Library of the House.

### Military Equipment: Procurement

**Mr. Carswell:** To ask the Secretary of State for Defence under what circumstances his Department does not give any indication to suppliers of the amount it is willing to spend on a procurement programme when issuing invitations to tender. [172559]

**Mr. Bob Ainsworth:** It is not normal departmental practice to provide programme budget details when issuing invitations to tender. However, the Defence Contracts Bulletin, which is issued in advance of tendering activity, routinely includes value banding information to indicate the approximate value of individual requirements to be advertised as a guide to suppliers who may be considering whether to respond.

### Royal Military Academy: Army Benevolent Fund

**Ann Winterton:** To ask the Secretary of State for Defence how much his Department charged the Army Benevolent Fund for hosting its Music on Fire event at the Royal Military Academy Sandhurst in September 2006. [171350]

**Derek Twigg:** Each application for the use of Ministry of Defence land for fund raising or other purposes is considered on its individual merits and an appropriate system of charges is applied. A charge of £7,041.01 was raised against the Army Benevolent Fund for the use of the Royal Military Academy Sandhurst, for the Music on Fire event held in September 2006. However, using Treasury Government Accounting Rules this figure represents an abated amount of the full costs that could have been charged.

### United Kingdom Hydrographic Office

**Mr. Todd:** To ask the Secretary of State for Defence who the members of the team conducting the review of the United Kingdom Hydrographic Office are. [171663]

**Derek Twigg:** The UK Hydrographic Office structural and ownership options study team was led by officials from the MOD Directorate of Business Delivery, supported by staff on loan from the UK Hydrographic Office, the Shareholder Executive and with external assistance from consultants KPMG.

**Linda Gilroy:** To ask the Secretary of State for Defence on how many occasions the MOD review team has met the UK Hydrographic Office. [172830]

**Derek Twigg:** The study team met frequently with the UK Hydrographic Office both formally and informally over the 10-month period when the review took place.

**Dr. Fox:** To ask the Secretary of State for Defence who decided the terms of reference of his Department's review of the United Kingdom Hydrographic Office; and whether these terms of reference were delivered to private sector stakeholders when they were published. [169450]

**Derek Twigg:** The UK Hydrographic Office (UKHO) is a Trading Fund within the Ministry of Defence. Departments routinely carry out reviews of Trading Funds from time to time as part of the Ownership role. In February 2007, I announced that we would carry out a review of the structural and ownership options for the United Kingdom Hydrographic Office (UKHO). This is due to report at the end of the year.

I decided the terms of reference (TORs) for the UKHO study. A draft of the TORs was sent to the trades unions representing UKHO employees, giving them the opportunity to provide comments.

During the course of the study, the study team met with a number of private sector stakeholders, none of whom requested to see a copy of the TORs.

### War Pensions

**Dr. Fox:** To ask the Secretary of State for Defence how many applications under the *(a)* War Pensions Scheme and *(b)* Armed Forces Compensation Scheme have been turned down because of failure to comply with the burden of proof in each financial year since 2002-03. [162660]

**Derek Twigg:** Information is not held centrally as to the particular reason for rejection of a claim under each scheme and could be provided only at disproportionate cost. No claim under either the War Pensions Scheme (WPS) or the Armed Forces Compensation Scheme (AFCS) will fail where the evidence shows that service is the predominant cause of the injury or illness in question.

## CHILDREN, SCHOOLS AND FAMILIES

### School Discipline

13. **Norman Baker:** To ask the Secretary of State for Children, Schools and Families what new powers he plans to give teachers to improve discipline in classrooms. [174117]

**Jim Knight:** The Education and Inspections Act 2006 gives school staff clear statutory powers to impose disciplinary penalties on pupils for misbehaviour on and off school premises. This legislation complements head teachers' right to exclude and gives schools the powers they need to maintain discipline. We shall continue to give heads, teachers and other school staff our full support in using these powers.

### Home Start

14. **Mr. Hoyle:** To ask the Secretary of State for Children, Schools and Families what recent discussions he has had with Chorley and South Ribble Home Start on assistance for families with young children; and if he will make a statement. [174118]

**Kevin Brennan:** My Department has supported Home-Start UK since 2001; and currently provides an annual strategic grant of £2.73 million. The grant is to support the infrastructure of Home-Start UK across England. The grant covers Home-Start UK's training and support to its local home visiting services, such as the one in Chorley and South Ribble. Services in local areas are commissioned and funded at the local level, where the need has been identified.

### Academy: Colchester

15. **Bob Russell:** To ask the Secretary of State for Children, Schools and Families if he will make a statement on the programme to establish an academy in Colchester constituency. [174119]

**Jim Knight:** The Essex local authority is currently consulting on proposals to close Alderman Blaxhill school and to establish an academy on the site of the Thomas Lord Audley school. Officials from my Department have been consulted as the authority has drawn up its proposals. We believe that this may be the most appropriate way forward because we recognise that there is a need to raise standards in the area. But ultimately, the decision to close this school and to implement the proposals are matters for the local authority.

### Special Educational Needs

16. **Mr. Holloway:** To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to help local authorities assess children with special educational needs more accurately and rapidly. [174120]

**Kevin Brennan:** The Special Educational Needs (SEN) Code of Practice gives statutory guidance to local authorities on assessing children's SEN and sets out the timescale for doing so. We are including an indicator in the National Indicator Set on what percentage of statements local authorities finalise within the 26 week time limit. The national strategies' SEN adviser team provides support and challenge to authorities in meeting their duties in this area.

### Sports Facilities

17. **John Mann:** To ask the Secretary of State for Children, Schools and Families what assessment his Department has made of the merits of using outdoor recreational centres to meet the requirement for five hours of sport per pupil per week. [174121]

**Kevin Brennan:** We are working with the Youth Sport Trust and Sport England to develop plans on what activities could be available locally and I would see outdoor recreation centres having an important role to play in supporting the five hours of sport for all children and young people offer.

### International Comparisons

18. **Mr. Stewart Jackson:** To ask the Secretary of State for Children, Schools and Families what information he holds on the performance of English schools against international benchmarks; and if he will make a statement. [174122]

20. **Mr. Evennett:** To ask the Secretary of State for Children, Schools and Families, what recent research he has evaluated on educational standards in English schools against international benchmarks. [174124]

**Jim Knight:** I refer the hon. Members to the answer I gave earlier to the hon. Member for the Forest of Dean (Mr. Harper).

### Science Curriculum

19. **Mr. Heathcoat-Amory:** To ask the Secretary of State for Children, Schools and Families if he will consult on changes to the science curriculum. [174123]

**Jim Knight:** The Qualifications and Curriculum Authority has consulted widely on the key stage 3 science curriculum that will be introduced into schools for first teaching from September 2008.

### Funding

21. **Mr. Dunne:** To ask the Secretary of State for Children, Schools and Families what steps his Department is taking to ensure equity of funding between pupils in England. [174125]

**Kevin Brennan:** The school funding arrangements recognise that pupils from disadvantaged backgrounds are likely to need extra support if they are to have an equal chance to succeed, and that some schools cost more to run than others. An equitable system balances the different needs of each area with basic funding per pupil. The Department will launch a major review of the distribution of core school funding in January to ensure that we have the right balance for the next decade.

### Positive Activities

22. **Joan Ryan:** To ask the Secretary of State for Children, Schools and Families what steps the Government are taking to promote positive activities for young people. [174126]

**Beverley Hughes:** The Education and Inspections Act 2006 placed a new duty on local authorities to publicise accurate information about positive activities. The Government have already provided £9 million to local authorities to help them do this.

The Government announced in 'Aiming High for young people', published July 2007, continued funding to help local authorities publicise opportunities to young people over the next three years and committed to publish further guidance in this area to support local authorities.

### Classical Music, Ballet and Opera

23. **Andrew Mackinlay:** To ask the Secretary of State for Children, Schools and Families if he will take steps to ensure that each child in primary and secondary education attends at least one performance each of classical music, ballet and opera. [174127]

**Kevin Brennan:** As we stated in the Children's Plan, we will work towards a position where no matter where they live, or what their background, all children and young people are able to get involved in top quality cultural opportunities in and out of school. We intend to run a series of pilots looking at different approaches in different parts of the country, and to establish a Youth Culture Trust to run these and promote cultural activities more widely. Further details will be announced in the new year.

### International Baccalaureate

**Dr. Palmer:** To ask the Secretary of State for Children, Schools and Families what his policy is on the use of the International Baccalaureate; and if he will make a statement. [174109]

**Jim Knight:** Every young person should be able to choose rigorous, challenging qualifications that are suited to their interests and enable them to progress. This is the principle that underpins our 14 to 19 reforms. It is for schools and colleges to decide which qualifications to offer their students from the range which are approved for public funding, including the International Baccalaureate. We are currently funding start-up costs for 29 maintained institutions in areas where there is no IB provision at present.

### Academies: Manchester

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 29 November 2007, *Official Report*, columns 919-20W, on academies: Manchester, how many of the *(a)* lead sponsors and *(b)* co sponsors of the seven academies in Manchester are publicly funded organisations; and if he will make a statement. [172133]

**Jim Knight:** The following Manchester Academy Programme sponsors and co-sponsors are public bodies; Manchester College of Arts and Technology, Central Manchester and Manchester Children's University Hospital NHS Trust, City College Manchester, the BBC and Manchester city council.

### Departmental ICT

**Gordon Banks:** To ask the Secretary of State for Children, Schools and Families which manufacturers' software is used in his Department. [167216]

**Jim Knight:** The following lists the names of manufacturers supplying significant software that is used by the Department for Children, Schools and Families:

1E
ActiveState Software Inc
ActiveXperts Software BV
Acuity Risk Management LLP
Acuma Software Limited
Adobe Systems
Agresso Limited
Art Technology Group Inc
Aventail
BEA Systems Inc
Business Objects
CASE Technologies
Check Point Software Technologies Limited
Cisco Systems Inc
Citrix Systems Inc
Clearswift Limited
CommVault
CA
Dell Inc
Diskeeper Corporation
Double-Take Software
EMC Corporation
Environmental Systems Research Institute Inc
EVault
Ixia
INPHASE Software Limited
Intel Corporation Intercede Limited
Internet Security Systems Inc
JAM Software
JZero Solutions
Kainos Software Limited
Mantix Systems Limited

SafeNet Inc
Semio
Sherpa Software
Softerra Limited
Sophos Plc
Source Code Technology Holdings Inc
SPSS Inc
Sun Microsystems Inc
Symantec Corporation
TANDBERG
Telelogic AB
Trend Micro
VMWare Inc
Websense Inc
WinZip International LLC

### Head Teachers: Pay

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families who the highest paid head teacher in a maintained school in England was at the most recent date for which figures are available. [172087]

**Jim Knight:** Some information on the salary of individual teachers is held by the Department for pensions administration purposes. It is not possible however to verify that any particular salary found in these data is the highest paid to a head teacher and to identify the individual concerned.

### Higher Education: Academies

**Mr. Hayes:** To ask the Secretary of State for Children, Schools and Families which universities have applied to establish academy schools. [172272]

**Jim Knight:** There are currently 16 universities which are sponsoring an Academy or at various stages of developing formal academy proposals. These are listed as follows. The Department is also in early discussions with a number of other universities about developing academy proposals. The number of universities which are sponsoring academies is steadily increasing and a number of others are engaged in this initiative through partnership arrangements.

*Universities developing formal proposals*

Brunel University

Birmingham City University (formerly University of Central England UCE)

Coventry University

Liverpool Hope University

London City University

Oxford Brookes University

Queen Mary College

Sheffield Hallam University

University of Bristol

University of Chester

University College London

University of Lincoln

University of Liverpool

University of Manchester

University of Nottingham

University of West of England

### Literacy: Standards

**Graham Stringer:** To ask the Secretary of State for Children, Schools and Families what research he has *(a)* commissioned and *(b)* evaluated on international comparisons of literacy at age 11 years. [169791]

**Jim Knight:** The Progress in International Reading Literacy Study (PIRLS) 2006 was published on 28 November 2007. PIRLS is a comparative study of the reading attainment of 10-year-olds, run by the International Association for the Evaluation of Educational Achievement (IEA). The average age of pupils tested ranged from 9.7 years in Italy to 11.9 in Morocco. The average age of pupils tested in England was 10.3 years (Year 5 equivalent).

The study is conducted in England by the National Foundation for Educational Research (NFER), under contract to the Department for Children, Schools and Families. NFER published the national report for England on their website www.nfer.ac.uk/pirls on 28 November 2007. Print versions of the report are being prepared and hard copies will be made available in both Houses of Parliament.

The main conclusions from the national report for England were:

On average, pupils in England achieved significantly above the international mean in PIRLS 2006 but the mean score for England has fallen since 2001.

Children in England read for pleasure less often than their peers in other countries. There is a strong link between the amount of reading for pleasure and their achievement in PIRLS tests.

37 per cent. of 10-year-olds in England play computer games for more than three hours a day. This is one of the highest proportions internationally and there is a link between high use of computer games and lower attainment in PIRLS.

75 per cent. have access to desk or quiet space to study at home—a much lower number than Western Europe.

Of the five countries testing in English, Singapore scored significantly higher than the others. There was no significant difference between the scores of England and the United States, which both scored significantly higher than New Zealand, Scotland, and Trinidad and Tobago.

In almost all countries, including England, girls achieved significantly higher than boys overall.

I have also recently commissioned a benchmarking study that will compare our curriculum to that of other countries. This independent review will focus on literacy, mathematics and science and cover the seven-11 age range. It will look at curriculum content, learning styles and educational outcomes and will report in 2008.

### Official Engagements

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many official engagements he has rescheduled with less than *(a)* one day's, *(b)* two days', *(c)* one week's and *(d)* two weeks' notice since taking up his appointment; and if he will make a statement. [172177]

**Ed Balls** *[holding answer 10 December 2007]:* The information is not held. Conflicting diary pressures mean that it is sometimes necessary to reschedule official engagements at short notice but I endeavour to keep this to a minimum.

### Primary Education: Literacy

**Ann Winterton:** To ask the Secretary of State for Children, Schools and Families what his most recent assessment is of literacy standards in primary schools; and if he will make a statement. [174104]

**Jim Knight:** Standards of literacy in our primary schools are at their highest levels ever. 100,000 more pupils a year are reaching the expected standard for their age compared with 1997.

The renewed primary literacy strategy, with a stronger emphasis on phonics, and the national roll-out of Every Child a Reader will help to ensure that we maintain and extend the improvements we have already achieved.

### Pupils: Education

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many students aged 16 years in 2006-07 who were offered a place in continuing education under the September guarantee took up that place; and how many were still in education after *(a)* six months and *(b)* one year. [169166]

**Jim Knight:** Information is not available in the format requested.

DCSF publishes estimates of the number of young people of academic age 16, 17 and 18 who are in education and training at the end of each calendar year. An estimate of the number of young people who were aged 16 on 31 August 2007, and who remained in education and training at the end of 2007, is due to be published in June 2008. This is the first year group to be entitled to an offer of post-16 learning under the September guarantee.

The latest information available on the participation of young people at age 17 relates to the cohort that would have reached the statutory school leaving age in summer 2005, but the figures will be affected by subsequent increases in the size of the cohort. At the end of 2005, 582,000 16-year-olds were in education and training at the end of that year, representing 88.7 per cent. of the cohort. At the end of 2006, there were 538,000 17-year-olds in education and training, representing 81.5 per cent. of the cohort.

### School Leaving

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families whether the duty on people aged 16 to 18 years to be in education and training under the Education and Skills Bill if enacted will apply to those who are *(a)* in prison, *(b)* in the armed forces, *(c)* parents, *(d)* in treatment for drug dependency, *(e)* severely disabled, *(f)* caring for a relative and *(g)* preparing to be professional sportsmen or women; and if he will make a statement. [171928]

**Jim Knight:** The intention of the policy to raise the participation age is that all 16 and 17-year-olds resident in England will be required to participate in some form of education or training. Ensuring that all young people have the support they need to overcome barriers to learning, stay in their chosen route and succeed in it is one of the fundamental building blocks for making this policy a success. This includes having appropriate support for young people with special educational needs; having the right level of financial support in place; and being able to provide advice, help and support with specific problems or when things go wrong. And where there are significant barriers to young people's engagement, such as homelessness or drug or alcohol problems, support services will focus on overcoming these first and taking steps towards re-engagement in education and training. No young person will enter the enforcement system if they have a reasonable justification for why they are not participating in learning and they are taking the right steps for them towards participation. The armed forces provide opportunities to continue with constructive training and education for all recruits from every level of ability and achievement. The new duty to participate will apply for young people in custody. Education and training for young people in custody is currently provided through a mix of arrangements, including through the LSC and contracted learning providers. Young people preparing to be professional sportsmen and sportswomen will also be subject to the requirement.

### Secondary Education: Admissions

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families how many surplus places there have been in secondary schools in each local authority area for each year from 2001-02 to 2007-08. [173233]

**Jim Knight:** The Department collects information from each local authority on the number of surplus school places through an annual survey. The most recent data available are for 2006. The 2007 surplus places data will be available in January 2008 on:

http://www.teachernet.gov.uk/management/fallingschoolrolls/context/stats/.

The number of surplus school places was not collected in 2002 to allow for a change in the method of assessing school capacity. Currently the number of school places is calculated using the net capacity method of assessment which was introduced in 2003. Prior to 2003 the capacity of a school was calculated using the MOE (more open enrolment) method.

The following table shows the number of surplus places in maintained secondary schools calculated by the net capacity method of assessment between 2003 and 2006 and the MOE method in 2001.

*Secondary surplus school places*

## Students: Loans

**Andrew Rosindell:** To ask the Secretary of State for Children, Schools and Families how many students from Romford entering higher education have required loans from the Student Loans Company in each year since 1997. [168424]

**Bill Rammell:** I have been asked to reply.

Available data are shown in the table.

*Borrowers taking out student loans from the London borough of Havering[1], academic year loan taken out*

| *Academic year* | *Borrowers[2]* |
|---|---|
| 1997/98 | 730 |
| 1998/99 | 1,560 |
| 1999/2000 | 1,750 |
| 2000/01 | 1,900 |
| 2001/02 | 2,060 |
| 2002/03 | 2,150 |
| 2003/04 | 2,270 |
| 2004/05 | 2,420 |
| 2005/06 | 2,620 |
| 2006/07[3] | 2,760 |

[1] Borrowers whose local authority was Havering at the time of their loan application. Includes new entrants and those continuing in higher education.
[2] Figures are rounded to the nearest 10.
[3] Includes fee loans from their introduction in 2006/07.

Student Loans Company.

This information is not available at constituency level.

## Young People: Antisocial Behaviour

**James Brokenshire:** To ask the Secretary of State for Children, Schools and Families what recent assessment he has made of the extent to which youth provision under the Respect Action Plan *(a)* meets demand from and *(b)* affects levels of antisocial behaviour among young people. [173852]

**Beverley Hughes:** The Respect Action Plan set out measures to expand and develop constructive and purposeful activities for all young people including those who are disadvantaged and at risk of antisocial behaviour. Commitments set out in the Action Plan have been implemented including the establishment of Youth Opportunity and Youth Capital Funds which have been made available to all local authorities in England since April 2006.

The Respect Action Plan was only one element of our response for young people. Aiming High set out a ten year strategy to ensure that positive activities are available for all young people.

The Youth Taskforce was created from the Respect Taskforce in October 2007 to build on the Respect programme and support local delivery of our vision for young people.

The Taskforce are currently developing analysis and proposals and will publish an Action Plan in spring 2008 giving more detail on the areas where it will work with local partners to deliver for young people.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Broadband: Scotland

**Mr. Moore:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of people without access to broadband services in Scotland, broken down by constituency; and if he will make a statement. [172849]

**Mr. Timms:** The Department has not compiled such estimates.

The Scottish Executive's research on broadband reach in Scotland, published in December 2006, estimates that between 7,000 and 25,000 homes cannot access DSL bandwidths in excess of 512 kilobytes. These are scattered throughout Scotland, but where local conditions affect a number of premises in the same way, there is some evidence of "clustering", and the Scottish Executive are aware of around 50 such "clusters" (of 10 or more people).

### Coal-Fired Power Stations

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the likely effect of the introduction of new coal power stations on achievement of the target of 20 per cent. of energy from renewable sources by 2020. [174686]

**Malcolm Wicks:** The Government intend to hold a consultation next year on options for a UK Renewable Energy Strategy to deliver our share of the EU 2020 renewables target, and then publish the strategy in spring 2009.

Our assessment of the various factors which will influence the deployment of renewable energy generation will be included in the consultation document.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many proposed coal-burning power plants are under consideration for approval by his Department; what account his Department takes of likely levels of carbon dioxide emissions from such plants in the approval process; and what estimate he has made of the likely percentage of UK carbon dioxide emissions which will come from such plants in 2020. [174692]

**Malcolm Wicks:** One. The Environmental Impact Assessment which accompanies any such application includes an assessment of atmospheric emissions and this is taken into account before any decision is taken.

### Coal-Fired Power Stations: Kingsnorth

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number of permanent new local jobs which would be created by the new coal power station at Kingsnorth. [174683]

**Malcolm Wicks:** E.ON currently employs over 160 staff with approximately another 90 on a contract basis at the existing Kingsnorth power station. E.ON estimates that a similar number of staff will be required for the proposed new coal-fired station.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what is the expected date for installation of carbon capture and storage at the proposed new coal power station at Kingsnorth. [174687]

**Malcolm Wicks:** My right hon. Friend the Secretary of State has yet to make a decision on whether to grant consent to construct a new coal-fired station at Kingsnorth. It would therefore be wrong for me to indicate a timing for the installation of carbon capture plant as that could be seen as pre-empting his decision.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the likely level of carbon dioxide emissions from the proposed coal power plant at Kingsnorth; and of the likely proportion of UK carbon dioxide emissions which will come from the plant in 2020. [174688]

**Malcolm Wicks:** It is estimated by the developer that, working at maximum output, the proposed station would produce 8.06 megatonnes of $CO_2$, compared with 10.9 MTe $CO_2$ from the existing coal-fired station. I have made no estimate of the likely proportion of emissions in 2020, nor has the Secretary of State taken a decision on the planning application.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he plans to order a public inquiry into the proposed new coal power station at Kingsnorth. [174689]

**Malcolm Wicks:** My right hon. Friend the Secretary of State has yet to take a decision on the application, including whether to hold a public inquiry.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether the existing plant at Kingsnorth will operate alongside the proposed new coal power station at Kingsnorth between 2012 and 2015. [174697]

**Malcolm Wicks:** No. The developer intends that the existing coal fired station will be decommissioned if the new station is consented to and built.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment his Department made of alternative sources of energy which could be used in place of new coal build at Kingsnorth power station. [174698]

**Malcolm Wicks:** None. The energy sector is market led and companies decide what development applications to bring forward in the context of the Government's energy policy framework.

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will order a public inquiry on the proposal for a new, unabated coal plant at Kingsnorth in Kent. [175426]

**Malcolm Wicks:** My right hon. Friend the Secretary of State has yet to take a decision on the application, including whether to hold a public inquiry.

## Corporate Hospitality

**John Mann:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many dinners were provided for his Department's Ministers and officials by external solicitors in each of the last seven years. [170554]

**Malcolm Wicks:** The records of formal business meetings between solicitors and officials from the Department are not held centrally.

With respect to the coal health compensation schemes, we are not aware of any Ministers for whom dinners were provided. Officials have had formal business with solicitors conducted through normal business meetings. I understand that there were occasions when officials involved in such meetings had dinner with some solicitors. However, we do not have comprehensive records of those occasions.

## Electricity Generation: Finance

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much funding his Department has allocated to electricity generation projects using *(a)* tidal power, *(b)* wave power, *(c)* wind, *(d)* biomass, *(e)* hydro power, *(f)* gas and *(g)* coal. [173264]

**Malcolm Wicks:** The information requested is as follows.

*Renewables*

Department expenditure on R and D on renewable energy technologies from 1996 is set out at table 1.

In addition, renewable electricity generation projects receive support under the Renewables Obligation (RO). However, this is not direct Government funding; instead, the RO places an obligation on licensed electricity suppliers to source a specific and annually increasing proportion of their sales from renewable sources.

The RO, along with exemption from the climate change levy, will be worth around £1 billion per year in support for the renewables industry by 2010.

*Coal*

The Government are launching a competition to support the first commercial-scale Carbon Capture and Storage (CCS) project using post-combustion capture on a coal-fired power station in the world.

Key objectives of the demonstration competition in the UK are to deliver a successful demonstration of the full chain of CCS technologies on a power plant at a commercial scale and to demonstrate technology that is relevant and transferable to key global markets,particularly in emerging economies.

Funding outlines for this project will be available in due course.

*Gas*

There is no Government funding allocated to electricity generation projects using gas.

*Table 1 DTI renewable energy R and D expenditure*

| Wind | 1,427,651 | 1,394,696 | 1,459,598 | 1,136,774 | 844,752 |

## Electricity Generation: Wastes

**Mr. Laurence Robertson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effectiveness of incinerating waste for the purpose of producing electricity; and if he will make a statement. [174567]

**Malcolm Wicks:** The Energy White Paper recognised the energy and waste policy benefits of generating energy from waste that cannot be prevented, reused or recycled. Recovering energy from waste by incineration or other methods has benefits for security of fuel supply, with the biomass fraction of waste also being a renewable energy source.

According to the latest available statistics, in 2006 1,083 GWh of electricity were generated from the biodegradable fraction of municipal solid waste and a further 651 GWh from the non-biodegradable fraction most of which was of fossil fuel origin. These together accounted for 0.4 per cent. of the UK's electricity generation in 2006.

### Energy Supply

**Steve Webb:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what methodology his Department uses to calculate a cash equivalent in cost-benefit analyses for enhanced security of supply obtained from UK capital projects in energy generation. [174089]

**Malcolm Wicks:** Since the Government do not invest in energy generation projects, there is no reason for Government to undertake cost-benefit analysis for such projects. This is a matter for investors.

There is, however, discussion about the quantification and valuation of security of energy supply in chapter 3 of the joint Government-Ofgem Energy Markets Outlook. This is at:

http://www.berr.gov.uk/energy/energymarketsoutlook/security-supply/page41854.html.

More in-depth analysis is annexed at:

http://www.berr.gov.uk/files/file41822.pdf.

### Export Credit Guarantees: Sakhalin Island

**Mr. Todd:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what representations he has received on the environmental sustainability of the Sakhalin II project; what factors will be taken into account in the decision on whether to provide an export credits guarantee for the project; and if he will make a statement. [174131]

**Malcolm Wicks:** The ECGD has received submissions from a number of interested parties about the environmental impacts of the Sakhalin II project. These will be taken into account in accordance with the ECGD's published Case Impact Analysis Process:

www.ecgd.gov.uk

In considering support for the project the ECGD will apply its normal underwriting policy and its business principles. Relevant factors include financial, technical and environmental aspects of the project.

The ECGD has not yet completed its assessment. A note of decision will be published in due course.

### Franco-British Nuclear Forum

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what is the status of the Franco-British Nuclear Forum. [173174]

**Malcolm Wicks:** The Franco-British Nuclear Forum was announced following the then Prime Minister's meeting with the then President of the French Republic in June 2006. The announcement said:

> "We have agreed to explore and further develop the opportunities of working together in the civil nuclear field. To that end we have agreed to establish a regular Franco-British Nuclear Forum, involving representatives from government, industry and technical experts. The Forum will provide a vehicle to discuss Franco-British nuclear cooperation, including research, skills, decommissioning and waste management".

The work of the forum is ongoing.

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the *(a)* budget and *(b)* cost to his Department of the Franco-British Nuclear Forum was in 2006-07. [173175]

**Malcolm Wicks:** The budget for the forum was met from the Department's existing budget for nuclear liabilities. The costs of the 29 March event held in London were £9,500 for conference facilities, lunch and translation and interpretation facilities, plus staff costs of approximately £14,000.

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many meetings of the Franco-British Nuclear Forum have been held during 2007; and when he expects it next to meet. [173176]

**Malcolm Wicks:** One meeting of the Forum was held in March 2007 and, subject to the French Government's decision on dates, we expect the next meeting to take place in the spring. Working groups continue to meet regularly to progress their work individually.

### Fuels: Excise Duties

**Stephen Hesford:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he has had any recent discussions with ministerial colleagues on freezing or reducing fuel duty to assist businesses. [172579]

**Malcolm Wicks:** Fuel duty rates are set by my right hon. Friend the Chancellor of the Exchequer. The 2007 Budget announced fuel duty rates for the next three years—for environmental reasons, to fund public services and to provide certainty alongside the other tax reforms in this Budget.

The Government recognise businesses' concerns over fuel duty rates and continue to support the industry with other measures:

From 1 October 2007, the Reduced Pollution Certificate scheme has been extended so that hauliers buying a Euro V compliant vehicle up to 31 September 2009 can claim a discount of up to £500 a year on vehicle excise duty (VED).

VED rates for heavy goods vehicles (HGVs) have been frozen since 2001 and the Government have now announced that they will continue to be frozen in 2008-09.

### Fuels: Prices

**Mr. MacNeil:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the effect on remote and island communities of the recent increases in road fuel prices. [172844]

**Malcolm Wicks:** The Department has not specifically undertaken an assessment of the impact of recent increases in road fuel prices on remote and island communities.

A range of factors such as crude oil prices, exchange rate, seasonal factors, level of stocks, refinery capacity, distribution costs and degree of retail competition determine retail petrol and diesel prices.

Prices in rural and remote areas, where distribution costs are higher, will typically be higher than the UK average.

### Furniture: Finance

**Mrs. Moon:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding was provided to the furniture industry by regional development agencies in each of the last three years. [167770]

**Mr. Timms:** The following table shows funding to the furniture industry from the RDA's single pot budgets (i.e. excluding Selective Finance for Investment in Enterprise).

| | | | *£000* |
|---|---|---|---|
| | *2004-05* | *2005-06* | *2006-07* |
| AWM | 45 | 95 | 129 |
| EEDA | 0 | 14 | 26.37 |

### Industrial Diseases: Compensation

**John Mann:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps his Department takes when Vendside refuses to transfer files to a solicitor as requested by a claimant for miner's compensation. [174657]

**Malcolm Wicks:** It is not within the Department's remit to require Vendside to transfer files to a claimant's legal representatives. The claimants' legal representatives are best placed to advise their clients of their options.

The Claims Management Regulation regime established by the Compensation Act 2006 provides the statutory framework for the regulation of claims management activities. Further information can be found on the Claims Management Regulations website on http://www.claimsregulation.gov.uk/index.aspx. Complaints about the ongoing behaviour of claims handlers such as Vendside could be referred to the Claims Management Regulator.

Alternatively, complaints about Vendside's refusal to disclose data could be made to the Information Commissioner.

### Insolvency: Fees and Charges

**Stephen Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to bring forward proposals to reform legislation governing insolvencies and the fees levied by liquidators in the administration thereof. [171180]

**Mr. McFadden** *[holding answer 6 December 2007]:* We are seeking to introduce a new individual insolvency procedure, the debt relief order (DRO) from April 2009, the framework for which is set out in the Tribunals, Courts and Enforcement Act 2007. DROs are aimed at people who owe relatively little, have very low incomes and few, if any, assets and have no way to pay their debts because they are financially excluded from existing remedies. In order to obtain a DRO the debtor will need to pay one up-front fee that will be set at a level to cover the official receiver's costs of administering the case and no more. The precise level is yet to be determined but it will be significantly less than the deposit required on presentation of a bankruptcy petition and no further fees will be payable in such cases.

We have also been consulting extensively on proposals to augment the existing individual voluntary arrangement regime (IVA) with a simplified version of the IVA for those with undisputed debts of less than £75,000. The necessary legislative changes to give effect to this are planned to come into force from October 2008.

Work is also being undertaken to consolidate and modernise the insolvency secondary legislation including the insolvency rules themselves, which set out the detailed procedures for the various insolvency processes. The changes proposed include changes to the mechanism by which insolvency office-holders have their remuneration and expenses agreed by creditors. These changes are intended to increase transparency and accountability by requiring insolvency office-holders to have their remuneration and expenses agreed by creditors. These changes are intended to increase transparency and accountability by requiring insolvency office-holders to provide information on remuneration taken, on a regular basis. Creditors will be given new powers to request further and better particulars in respect of remuneration charged and expenses incurred, together with clearer rights to challenge those amounts in court where they consider them to be excessive.

### Lifeguards: Minimum Wage

**Mrs. James:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the number and proportion of swimming pool lifeguards who receive the minimum wage at the *(a)* adult and *(b)* 16 to 17-year-old rate. [173793]

**Mr. McFadden:** Estimates of the number of jobs paid at the national minimum wage are derived from the ONS's Annual Survey of Hours and Earnings (ASHE). It does not contain the occupational detail needed to identify "swimming pool lifeguards" and so an estimate is not available.

### Microgeneration: North East Region

**Mr. Kemp:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of the UK's electricity was supplied from sources in the North East using microgeneration technologies in the last period for which figures are available; and if he will make a statement. [173559]

**Malcolm Wicks:** Specific figures for the amount of electricity generated by microgeneration at regional level are not available; however, we estimate that there are approximately 100,000 microgeneration installations in the United Kingdom.

### Nuclear Installations Inspectorate: Recruitment

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many additional specialist personnel the nuclear installations inspectorate intends to recruit to undertake the work to approve four alternative designs of nuclear reactors within three years. [173869]

**Malcolm Wicks** *[holding answer 13 December 2007]*: The nuclear regulators, which include the nuclear installations inspectorate (NII) of the Health and Safety Executive, will apply their resources to ensure that a rigorous approach is taken to the generic design assessment (GDA) process. If the outcome of the consultation on the Future of Nuclear Power is that private sector companies should be allowed to invest in new nuclear power stations, the NII will need to take on additional staff as the assessment process progresses. The number of specialist personnel the NII will require to undertake the process is a matter for them.

Although four designs are currently being assessed in the initial stage of GDA, we set out in the consultation document that if more than three designs remain viable following this stage, then a prioritisation process will need to be run to select no more than three designs to proceed to the detailed stage of the assessments. Depending on the outcome of the nuclear consultation, we will announce the detail of how this prioritisation process would operate in due course.

### Nuclear Power

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his policy is on the future use of fast breeder reactors in the UK. [173863]

**Malcolm Wicks:** We have not yet reached a decision on the future of nuclear power following our nuclear consultation which ended on 10 October.

In the event that, following the consultation, the Government decide to allow private sector energy companies to build new nuclear power stations, it will be for the private sector to bring forward proposals for new reactors and for the regulators to be assured of the safety, security and environmental emissions of a design before it can be licensed.

Fast breeder reactors are currently a long way off in terms of being able to be deployed on a commercial scale and thus none are going through the first steps of the generic design assessment process.

### Nuclear Power Stations: Public Participation

**Mr. Hancock:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many UK citizens had their views directly solicited in respect of plans for an increased number of nuclear power stations; and if he will make a statement. [174639]

**Malcolm Wicks:** We intended our public consultation on whether it is in the public interest to give private sector energy companies the option of investing in new nuclear power stations to hear from a wide range of different people across the UK. To that end, as well as publishing a consultation document, we advertised the consultation in the press; held meetings for interested organisations, which were attended by a total of about 400 representatives; held meetings near existing nuclear facilities attended by a total of about 200 people; and held nine day-long events attended by about 1,000 members of the general public. We also sent direct mail to over 5,000 community organisations, and placed copies of the document together with a poster in public libraries. In addition to the views expressed at the meetings, we received over 2,700 written responses from individuals and organisations. Following consideration of these responses we will announce our decision in the new year.

### Nuclear Power: Radioactive Wastes

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what projections he has made of annual volumes of *(a)* high, *(b)* intermediate and *(c)* low-level nuclear waste that may arise from the introduction of a new generation of nuclear power stations. [173864]

**Malcolm Wicks:** It is the Government's position that, if we conclude private sector energy companies should be allowed to invest in nuclear power, it will be for private sector energy companies to bring forward plans to build any new nuclear power stations. This means that we cannot be sure of the number or design of stations that might be proposed, or of the volumes of waste that could arise.

In the consultation document "The Future of Nuclear Power", we considered an example scenario that had been referenced in the Committee on Radioactive Waste Management's (CoRWM) Inventory Report which would rather more than replace existing nuclear capacity. For this estimated scenario, the CoRWM Inventory Report summary information document shows that it would, over the lifetime of the new stations, add 8 per cent. to the UK's existing volume of radioactive waste.

In the event that the Government conclude in favour of allowing private sector energy companies to invest in new nuclear power stations, we will continue to explore these issues as part of our programme of facilitative actions.

## Nuclear Reactors

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether it is his policy to require the nuclear installations inspectorate to establish commercial demand from utility companies for each of the nuclear reactor types they are assessing. [173870]

**Malcolm Wicks** *[holding answer 13 December 2007]*: The approach of the regulators (which includes the nuclear installations inspectorate) to generic design assessment (GDA) of new nuclear reactor designs is to provide a rigorous and structured examination of the safety, security and environmental aspects of possible new nuclear reactor designs. Before GDA began, we carried out a prioritisation process to ensure that the regulators could focus their resources on those designs that have the greatest chance of being built. This process required all applicants for GDA to have the support of a credible nuclear power operator. The result of this process was that four designs are being assessed in the initial stage of GDA.

As we set out in the consultation document, if more than three designs remain viable following this stage, a prioritisation process will be needed to select no more than three designs to proceed to the detailed stage of the assessments. This second stage of prioritisation would also take account of the designs' likelihood of being deployed in the UK by 2016-22. We will announce the detail of how this prioritisation process would operate in due course. This prioritisation will only be necessary if the outcome of the consultation on the future of nuclear power is that private-sector companies should be allowed to invest in new nuclear power stations.

## Oil

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what studies have been *(a)* commissioned and *(b)* evaluated by his Department on the peak oil phenomenon; and if he will make a statement. [173881]

**Malcolm Wicks:** The Department is aware of a wide range of academic and industry studies which look at future world oil supplies, including the peak oil phenomenon, and meets experts regularly to discuss this and other oil market issues.

The Government's assessment is that the world's oil resources are sufficient to prevent total global oil production peaking before 2030. This is consistent with the assessment made by the International Energy Agency (IEA) in its 2007 World Energy Outlook (WEO).

## Oil: North Sea

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the proportion of the UK's energy needs which will be met by UK North Sea reserves in *(a)* 2008, *(b)* 2012, *(c)* 2015, *(d)* 2020 and *(e)* 2030. [173861]

**Malcolm Wicks:** Estimates of the proportion of UK primary energy demand met by UK oil and gas production can be derived from "Updated Energy and Carbon Emissions Projections", published alongside the May 2007 Energy White Paper at http://www.berr.gov.uk/files/file39580.pdf, but only for the years 2005, 2010 and 2020.

On the basis of the central production projections, central fossil fuel price assumptions and central estimates of the impact on demand of policy measures in the Energy White Paper included in that paper, the proportion of the UK's energy needs which were or would be met by UK North sea reserves in (a) 2005, (b) 2010 and (c) 2020 are (a) 70 per cent., (b) 58 per cent. and (c) 24 per cent.

## Political Levy

**Mr. Tyrie:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many and what proportion of members of each trade union with a political fund have exercised their right to opt out of the political levy, according to records held by *(a)* his Department and *(b)* the Certification Officer. [173711]

**Mr. McFadden** *[holding answer 13 December 2007]*: The Department does not hold records of its own regarding the numbers who opt out of paying the political levy.

The Certification Officer has provided the following figures. These are based on the latest returns made to the Certification Officer by the relevant trade unions. The proportion of members who have exercised their right to opt out of the political levy is calculated against members contributing to the union rather than the total number of members.

| *Name* | *Total number of union members contributing to General Fund* | *Number of members who have completed an exemption notice and therefore do not contribute to the Political Fund* | *Number of members who have completed an exemption notice and therefore do not contribute to the Political Fund as a percentage* |
|---|---|---|---|
| Amicus | 807,200 | 158,331 | 19.6 |
| Aspect | 3,969 | 68 | 1.7 |
| Associated Society of Locomotive Engineers and Firemen | 17,944 | 319 | 1.8 |
| Association of Revenue and Customs | 2,594 | 83 | 3.2 |
| Bakers Food and Allied Workers Union | 24,564 | 0 | 0.0 |

| *Name* | *Total number of union members contributing to General Fund* | *Number of members who have completed an exemption notice and therefore do not contribute to the Political Fund* | *Number of members who have completed an exemption notice and therefore do not contribute to the Political Fund as a percentage* |
|---|---|---|---|
| Broadcasting Entertainment Cinematograph and Theatre Union | 26,543 | 155 | 0.6 |
| Communication Workers Union | 238,817 | 25,883 | 10.8 |
| Community | 29,117 | 2,977 | 10.2 |
| Connect; The Union for Professionals in Communications | 19,473 | 5,154 | 26.5 |
| Educational Institute of Scotland | 58,829 | 1,245 | 2.1 |
| Fire Brigades Union | 45,839 | 9,016 | 19.7 |
| GMB | 575,892 | 26,141 | 4.5 |
| Musicians Union | 32,641 | 644 | 2.0 |
| National Association of Colliery Deputies and Shotfirers | 336 | 0 | 0.0 |
| National Association of Schoolmasters Union of Woman Teachers | 251,763 | 9 | 0.0 |
| National Association of Teachers in Further and Higher Education | 62,023 | 2,507 | 4.0 |
| National Union of Mineworkers | 7,418 | 112 | 1.5 |
| National Union of Mineworkers North Western Cheshire and Cumbria Miners Association | 17 | 0 | 0.0 |
| National Union of Rail Maritime and Transport Workers | 65,399 | 433 | 0.7 |
| POA | 35,772 | 4 | 0.0 |
| Prospect | 90,456 | 230 | 0.3 |
| Transport and General Workers Union | 670,430 | 28,985 | 4.3 |
| Transport Salaried Staffs' Association | 30,570 | 2,019 | 6.6 |
| Union of Construction Allied Trades and Technicians | 124,217 | 16,942 | 13.6 |
| Union of Democratic Mineworkers | 2,268 | 0 | 0.0 |
| Union of Shop Distributive and Allied Workers | 341,291 | 17,742 | 5.2 |
| UNISON: The Public Services Union | 1,343,000 | 20,389 | 1.5 |
| Unity | 7,239 | 130 | 1.8 |
| Total | 4,915,621 | 319,518 | 6.5 |

**Mr. Tyrie:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform which trade unions with political funds offer discounted membership or a rebate to union members who opt out of the political levy. [173712]

**Mr. McFadden** *[holding answer 13 December 2007]:* When trade union members opt out of contributing to their union's political fund, the union must ensure that they do not make payments to the political fund and their payments to the union must be set or adjusted accordingly. There are no grounds to believe that trade unions with political funds are failing to comply with these legal requirements.

### Power Stations: Repairs and Maintenance

**Mr. Weir:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) for how long each power station in the United Kingdom has been shut down for *(a)* safety concerns and *(b)* essential maintenance in each of the last 10 years; [174526]

(2) how many temporary shutdowns there were of *(a)* nuclear, *(b)* coal, *(c)* hydro-electric, *(d)* gas and *(e)* oil-fired power stations in each of the last 10 years. [174527]

**Malcolm Wicks:** Planned or unplanned closures of this nature are commercial and/or technical decisions for the companies that own and operate the power stations to take in conjunction with the relevant health and safety authorities. My Department therefore does not keep records of the operating decisions of individual power stations.

### Radioactive Materials: Transport

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what arrangements his Department uses to *(a)* monitor and *(b)* track nuclear waste materials; and if he will make a statement. [169395]

**Jim Fitzpatrick:** I have been asked to reply.

For the purposes of this question "nuclear waste materials" will be taken to mean irradiated nuclear fuel (INF) which is transported by rail from nuclear power stations to Sellafield in Cumbria.

The transport of all radioactive material, including INF, is governed by the stringent internationally agreed standards recommended by the International Atomic Energy Agency (IAEA), an agency appointed by the United Nations to oversee all aspects of the peaceful uses of atomic energy worldwide.

Packages ("flasks") used to transport INF are designed to withstand a very severe impact followed by severe fire. The safety of INF shipments is therefore secured by the design and build quality of the packages used and not by the particular mode of transport used or route travelled. The Department for Transport (DfT) is required to ensure that the design of INF flasks meets the IAEA standards and issues approval certificates to this effect.

*(a)* In addition to approving the design of flasks, monitoring activities regarding the transport of INF carried out by the DfT consist of

(i) The commissioning of reports on the radiological impact of the transport of radioactive material under normal and abnormal conditions. The latest report looking at the rail transport of INF under normal conditions is "Survey into the Radiological Impact of the Normal Transport of Radioactive Material in the UK by Road and Rail, NRPB-W66". Reports detailing abnormal events involving the transport of radioactive material in the UK have been published annually since 1989 the latest being "Radiological Consequences Resulting from Accidents and Incidents Involving the Transport of Radioactive Materials in the UK—2005 Review, HPA-RPD-021". Copies of these and similar reports have been placed in the House Libraries and recent ones are available via the DfT website at the following address:

http://www.dft.gov.uk/pgr/freight/dgt1/guidance/guidance7class/theradiologicalimpactofthetr1178

The conclusion of these reports is that the radiological impact of INF transport is low.

(ii) Periodic radiological surveys of the extent of radioactive contamination on the external surfaces of INF flasks. These surveys are carried out by suitable qualified and experienced personnel working under contract to the DfT and are an independent check to those routinely carried out by the industry. These surveys confirm that incidences of external contamination in excess of the regulatory limits are low and their radiological impact is minimal. Events where the industry has reported contamination in excess of the regulatory limits are detailed in the reports referred to in (i) above.

(iii) Compliance assurance audits of organisations and their Quality management systems involved in the transport of INF.

*(b)* A condition of being approved by the Office for Civil Nuclear Security (OCNS), part of the Health and Safety Executive, is that all carriers must meet regulatory or defined requirements which require all such movements to be notified to the OCNS at least seven days in advance of the proposed date of transport and to be tracked throughout the course of the transport.

In the case of INF transported by train, such tracking is carried out by one or more of the following methods:

(i) Train Operations Processing System (TOPS). TOPS is a UK rail network-wide computerised system managed by Network Rail which records the expected and actual passing time of all trains. TOPS monitors trains along their preset routes and, in this case, alerts whenever a train is delayed by more than 60 seconds or deviates from its set route.

(ii) Global Positioning System (GPS) satellite tracking, monitored by the carrier in accordance with parameters set by OCNS.

(iii) Mobile phone communications, again monitored by the carrier in accordance with parameters set by OCNS.

### Regional Development Agencies: Finance

**Mr. Prisk:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the budget is of each regional development agency for 2007-08; how much each has spent in each year since 1999; and how much was spent on *(a)* staffing and *(b)* administration by each in each year. [171911]

**Mr. Timms:** The Regional Development Agencies' grant in aid budgets from 1999 to 2007 are set out in the following tables.

The tables also show how much RDAs spent on staffing and administration from

1999 to 2007.

*Grant in aid budgets*

*£ million*

| *RDA*[1] | *1999-2000* | *2000-01* | *2001-02* | *2002-03* | *2003-04* |

[1] Costs include salaries, national insurance, pensions, staff and board members.

[2] Administration costs are those costs incurred in the running of the organisation, excluding salaries.

## Severn Barrage

**Jenny Willott:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what feasibility studies have been commissioned by his Department on the possibility of *(a)* a tidal barrage and *(b)* tidal lagoons in the Severn Estuary since the Sustainable Development Commission published its report "Turning the Tide: Tidal Power in the UK"; and if he will make a statement. [172603]

**Malcolm Wicks** *[holding answer 10 December 2007]:* On 21 September my right hon. Friend the Secretary of State announced a new feasibility study that will look at the potential for tidal power in the Severn Estuary.

The detailed remit of the feasibility study is now being scoped and a statement on this will be made early in the new year.

## Small Businesses: Greater London

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many small businesses in London applied for small business tax relief in each of the last five years; and if he will make a statement. [169274]

**John Healey:** I have been asked to reply as Minister responsible for business rates.

The information requested is not available. However, as at 31 December 2006, 43,100 businesses in London were in receipt of small business rate relief.

## Tidal Power: Finance

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what funding his Department has allocated to the development of tidal power for the production of energy in the last five years. [173265]

**Malcolm Wicks:** The following table gives the amount of funding committed to the development of tidal power technologies by the Department for each of the last five years.

| | *Total committed (£)* |
|---|---|
| 2003-04 | 6,733,304 |
| 2004-05 | 5,957,407 |
| 2005-06 | 2,106,788 |
| 2006-07 | 4,384,485 |
| 2007-08 | 4,059,995 |

### Tidal Power: River Severn

**Steve Webb:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what progress has been made in his Department's review of the options for Severn tidal power; when he expects the review to be completed; and what estimate he has made of the likely effects on *(a)* the capital cost of a tidal power scheme and *(b)* levels of UK carbon dioxide emissions of each year which passes before a scheme comes into effect. [174091]

**Malcolm Wicks** *[holding answer 13 December 2007]*: I refer the hon. Member to the answer I gave the hon. Member for Tewkesbury (Mr. Robertson) on 3 December 2007, *Official Report*, column 908W.

### Tidal Power: Swansea

**Jenny Willott:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what measures are being considered by the Department to support the proposed tidal lagoon demonstration project in Swansea; and if he will make a statement. [172604]

**Malcolm Wicks** *[holding answer 10 December 2007]*: On 19 November my right hon. Friend the Prime Minister announced that Tidal Lagoons (below 1 gigawatt capacity) such as that proposed for Swansea Bay will be included within the scope of the Renewables Obligation.

The detail of any changes to the Renewables Obligation will be published early next year.

## DUCHY OF LANCASTER

### Admiralty House

**Mr. Pickles:** To ask the Chancellor of the Duchy of Lancaster whether the provision of official ministerial residences in Admiralty House includes the supply of *(a)* linen and laundry services, *(b)* porters, *(c)* internal plants, *(d)* catering services, *(e)* telephones, *(f)* cable or satellite TV and *(g)* internet access. [166199]

**Edward Miliband:** The provision of services to ministerial residences is a matter for occupying departments in accordance with the ministerial code.

The charge paid to Cabinet Office by occupying departments covers a share of the capital charge, utilities, security guards as well as a facilities management charge which includes cleaning of the buildings' common parts.

### Admiralty House: Empty Property

**Mr. Pickles:** To ask the Chancellor of the Duchy of Lancaster for how long the official ministerial residences in Admiralty House previously occupied by the *(a)* right hon. Member for Ashfield (Mr. Hoon) and *(b)* the right hon. Member for Derby, South (Margaret Beckett) have been empty. [173474]

**Gillian Merron:** I refer the hon. Member to the answers given by my right hon. Friend the Member for North-West Durham (Hilary Armstrong) to the hon. Member for North-East Hertfordshire (Mr. Heaid) 6 November 2006, *Official Report*, column 860W and to the hon. Member for Meriden (Mrs. Spelman) on 23 October 2006, *Official Report*, column 1631W. Further to these answers, my right hon. Friend, the former Lord Chancellor's use of the flat for official entertaining and other engagements ceased on his departure from ministerial office.

### Charity Commission: Finance

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster what the budget of the Charity Commission was in *(a)* each of the last five years and *(b)* each year of the 2007 comprehensive spending review period. [173156]

**Phil Hope:** This is a matter for the Charity Commission as the Non-Ministerial Government Department responsible for the regulation of charities in England and Wales. The Chief Executive of the Charity Commission will write to the hon. Member and a copy of his reply will be placed in the Library for the reference of Members.

### Christmas

**Malcolm Bruce:** To ask the Chancellor of the Duchy of Lancaster what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for his Department's festive decorations; and how real trees are disposed of. [173521]

**Gillian Merron:** A mixture of real and artificial Christmas trees are situated at certain points throughout the Cabinet Office Estate. Real Christmas trees are disposed of in an environmentally friendly manner.

### Complaints

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster how many complaints from civil servants against *(a)* special advisers and *(b)* Ministers were formally recorded in his Department since 27 June. [173363]

**Gillian Merron:** I refer the hon. Member to my reply of Monday 19 November 2007, *Official Report*, column 596-7W to the hon. Member for Lewes (Norman Baker).

## Data Protection

**Mr. Pickles:** To ask the Chancellor of the Duchy of Lancaster what the terms of reference are of the review data sharing in the public sector. [173476]

**Gillian Merron:** The terms of reference for the review Sir Gus O'Donnell is leading on data handling procedures in Government are:

> "To examine:
>
> the procedures in Departments and agencies for the protection of data
>
> their consistency with current Government-wide policies and standards;
>
> the arrangements for ensuring that procedures are being fully and properly implemented;
>
> and to make recommendations on improvements that should be made"

## Departmental Correspondence

**Mr. Horam:** To ask the Chancellor of the Duchy of Lancaster what guidelines he has provided to Government Departments on responding to letters and e-mails from *(a)* members of the public and *(b)* right hon. and hon. Members (i) acknowledging receipt of the correspondence and (ii) giving the time allowed for a substantive answer to be sent. [174167]

**Edward Miliband:** I refer the hon. Member to the answer provided to the hon. Member for Castle Point (Bob Spink) on 22 October 2007, *Official Report*, column 45W.

## Departmental ICT

**James Brokenshire:** To ask the Chancellor of the Duchy of Lancaster how many attempted hacking or suspected cyber attacks or other malicious computer security breaches were committed against the computer systems at No. 10 Downing street in each of the last three years for which information is available; and if he will make a statement. [167974]

**Mr. Hague:** To ask the Chancellor of the Duchy of Lancaster how many attempted breaches of *(a)* Government and *(b)* private systems as a result of cyber-based espionage were recorded in the UK in each of the last five years; and if he will make a statement. [172531]

**Edward Miliband:** It is not in the interests of the UK's national security for Departments to confirm whether they hold information about attacks against their IT systems. This would enable individuals to deduce how successful the UK is in detecting these attacks and so assist such persons in testing the effectiveness of the UK's IT defences.

## Departmental Manpower

**Mr. Walker:** To ask the Chancellor of the Duchy of Lancaster what the full-time equivalent headcount in his Department is; what the forecast full-time equivalent headcount for his Department is for *(a)* 2008-09 and *(b)* 2009-10; and if he will make a statement. [163987]

**Edward Miliband:** Full-time equivalent headcounts for every Department, including the Cabinet Office, are published on a quarterly basis by the Office for National Statistics as part of its reporting on civil service statistics. At the end of the third quarter of 2007 the Office for National Statistics reported that the Cabinet Office (excluding agencies) employed 1270 full-time equivalents.

The Cabinet Office expects to deliver sufficient efficiencies to reach the full-time equivalent headcount target set for the Department in Spending Review 2004.

No formal forecast of full-time equivalent headcount has been made for the 2008-09 and 2009-10 financial years. For planning purposes the Department has assumed that there is likely to be a slight decline in full-time equivalent headcount numbers after 31 March 2008, reflecting the outcome of the comprehensive spending review of 2007.

**Tom Brake:** To ask the Chancellor of the Duchy of Lancaster how many and what proportion of posts in *(a)* his Department, *(b)* No. 10 Downing street and *(c)* the Office of the Leader of the House were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172246]

**Gillian Merron:** No. 10 Downing street and the Office of the Leader of the House are part of the Cabinet Office. The majority of the posts in the Cabinet Office are posts that are categorised as Policy, Funding and Regulation posts under the definitions used by the 2004 Gershon Independent Review of Public Sector Efficiency. Neither the Gershon Review nor the Government response to that review set any target on the move of back office posts into frontline delivery for the Cabinet Office or the Office of the Leader of the House, and no posts have been categorised or re-categorised as either back office or frontline posts since 2004.

## Departmental Ministerial Policy Advisors

**Mr. Maude:** To ask the Chancellor of the Duchy of Lancaster (1) how many full-time equivalent civil servants work in support of *(a)* the Cabinet Office and *(b)* the Prime Minister's special advisers; and how many did so in April; [171449]

(2) what the office costs of the special advisers in *(a)* the Cabinet Office and *(b)* No. 10 Downing Street were in (i) 2005-06 and (ii) 2006-07, including the costs of support staff. [171459]

**Edward Miliband:** I refer the right hon. Member to my answer to the hon. Member for Fareham (Mr. Hoban) on 22 November 2007, *Official Report*, columns 1095-96w. One civil servant supported the special advisers in my predecessor's office in April 2007.

In relation to No. 10, support staff assist a range of individuals, so it is not possible to provide information on how many full-time equivalent civil servants work in support of the Prime Minister's special advisers. All support given to special advisers is in accordance with the Civil Service Management Code and the Code of Conduct for Special Advisers.

Information on the office costs for special advisers cannot be disaggregated from overall office administration costs. Administration costs are accounted for in the relevant Cabinet Office annual resource accounts.

### Departmental Training

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster what the *(a)* dates, *(b)* locations and *(c)* costs were of the last four awaydays of his Department's departmental board. [173185]

**Gillian Merron:** Since taking post as Cabinet Secretary and Head of the Home Civil Service in August 2005, Sir Gus O'Donnell reformulated the Cabinet Office Board. There have since been two Board awaydays:

*2006*

Date: 23-24 February
Location: Down Hall Country House Hotel, Hertfordshire
Total cost (inc. VAT): £3,183.65

*2007*

Date: 19-20 April
Location: Sunningdale Park
Total cost (inc. VAT): £4,303.70

### Freedom of Information: Databases

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster what fields of data there are in the Cabinet Office Freedom of Information database. [173179]

**Gillian Merron:** The Cabinet Office has a case management system to assist in the processing of correspondence received, including Freedom of Information requests. The fields of data include the type of correspondence, the date received and the date on which a response is due.

### Illegal Immigrants

**Damian Green:** To ask the Chancellor of the Duchy of Lancaster how many illegal immigrants have been discovered working for *(a)* the Cabinet Office and *(b)* the Office of the Leader of the House of Commons in the last year for which figures are available. [170484]

**Gillian Merron:** In the 12-month period 1 December 2006 to 30 November 2007, the Department discovered that one individual engaged through a work permit on a fee paid basis was an overstayer and the individual's contract was terminated with immediate effect.

### Legislation: Public Participation

**Mr. Vara:** To ask the Chancellor of the Duchy of Lancaster how much has been spent on *(a)* advertising and *(b)* conducting the Government's consultation on its draft legislative programme. [169359]

**Edward Miliband:** The Cabinet Office has spent £85,070 on the production of the Green Paper 'The Governance of Britain—The Government's Draft Legislative Programme' and the day-long deliberative forum on the draft legislative programme.

### Manpower: Prime Minister

**Norman Lamb:** To ask the Chancellor of the Duchy of Lancaster when a response will be sent to the letter of 19 September from the hon. Member for North Norfolk on Downing Street staff and requesting an internal review of a response to a Freedom of Information Act request. [173396]

**Edward Miliband:** The internal review requested by the hon. Member for North Norfolk of his freedom of information request is under way and a response will be issued shortly.

### Members' Correspondence

**Mr. Harper:** To ask the Chancellor of the Duchy of Lancaster how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174937]

**Edward Miliband:** The Cabinet Office, on an annual basis, publishes a report to Parliament on the performance of Departments in replying to Members' and peers correspondence. Information relating to 2007 will be published as soon as it has been collated. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. Reports for earlier years are available in the Library of the House.

### Office of the Third Sector: Finance

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster what the budget of the Office of the Third Sector was in *(a)* each of the last five years and *(b)* each year of the 2007 comprehensive spending review period. [173157]

**Phil Hope:** The Office of the Third Sector was established in May 2006. The budget of the Office of the Third Sector since its inception is as follows:

| | *Budget (£ million)* |
|---|---|
| 2006-07 | 135.1 |
| 2007-08 | 135.8 |

The budgets for each year of the spending review is as follows:

| | *Budget (£ million)* |
|---|---|
| 2008-09 | 168.7 |
| 2009-10 | 172.3 |
| 2010-11 | 176.0 |

### Repairs and Maintenance: Greater London

**Mr. Pickles:** To ask the Chancellor of the Duchy of Lancaster how many planning applications the Cabinet Office has submitted for permission for work on its properties in London in the last 12 months; to what building the applications pertained; and what the purpose was of the applications. [173475]

**Edward Miliband:** Information on how many planning applications the Cabinet Office has submitted for permission for work on its properties in London in the last 12 months; to what building the applications pertained; and what the purpose was of the applications, can be found at the Westminster city council website

http://www.westminster.gov.uk/environment/planning/applications/search/

### Strategy Unit

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster pursuant to the answer of 15 November 2007, *Official Report*, column 396W, on the Strategy Unit, what time-limited projects are being undertaken by the unit; and what the *(a)* start date and *(b)* expected end date of each such project is. [173188]

**Gillian Merron:** The Strategy Unit has been working on two time-limited projects since July 2007: joint work with the Department for Children, Schools and Families on childhood wellbeing in support of the Children's Plan, published on 11 December; and work with the Department for Environment, Food and Rural Affairs, the Department of Health, the Food Standards Agency and other Departments on a study of food and food policy in the UK, due to conclude in spring 2008.

## JUSTICE

### Asylum: Children

**Mr. Kidney:** To ask the Secretary of State for Justice what procedures he *(a)* has put in place and *(b)* plans to put in place to expedite (i) trials and (ii) asylum hearings involving children. [174155]

**Maria Eagle:** The listing of cases in the criminal courts is a judicial function. The Lord Chief Justice issued guidance in July 2005 outlining the practices to be adopted when listing cases in the magistrates courts and Crown court. It says priority should be accorded to the trial of young defendants and specific account taken of whether they are remanded on bail or in custody.

The persistent young offenders (PYO) pledge was established in 1998 to halve the average time from arrest to sentence for persistent young offenders from 142 days to 71 days. Under this pledge the Government remain committed to prioritising the prosecution of persistent young offenders.

The Government are also committed to ensuring that cases dealt with in the youth court are dealt with as swiftly and effectively as possible and are considering implementing the principles of the Criminal Justice Simple, Speedy, Summary (CJSSS) programme to speed up the youth court. A recent test at Balham youth court suggested that CJSSS could help achieve significant improvements in the time taken from charge to disposal of a case. I am placing a copy of the evaluation in the Library of the House.

The Asylum and Immigration Tribunal aims to process and hear all appeals quickly and efficiently. The current target for asylum appeals is six weeks from receipt of the appeal to determination by an immigration judge. There is therefore no need for special arrangements to expedite asylum appeals involving children, although there is guidance on the conduct of hearings involving unaccompanied minors.

### Cambridgeshire Probation Service

**Mr. Stewart Jackson:** To ask the Secretary of State for Justice what the staff establishment of the Cambridgeshire Probation Service was in each year since 1997. [175178]

**Maria Eagle:** Information is not available for the full period requested. Data collected prior to April 2003 were collated by a different source and were incomplete in some categories and therefore are not directly comparable with the figures collected since that time.

The following table shows the staff in post in Cambridgeshire Probation Area from 2003 onwards.

*Staff in post*

| | *Cambridgeshire* | *NPS* |
|---|---|---|
| 2003 | 225.30 | 19,164.00 |
| 2004 | 223.12 | 19,563.00 |
| 2005 | 242.18 | 20,584.00 |
| 2006 | 251.03 | 21,371.00 |
| 2007 | 247.66 | 21,268.00 |

**Mr. Stewart Jackson:** To ask the Secretary of State for Justice what estimate he has made of the likely effect on *(a)* staff numbers in and *(b)* recruitment to the Cambridgeshire Probation Service of his Department's recent budget settlement in the period 2008-09 to 2011-12; and if he will make a statement. [175179]

**Maria Eagle:** The information supplied by the Cambridgeshire Probation Service shows that it has not yet completed detailed business planning for 2008-09 and beyond. However, early indications are that, in the light of the improved settlement from the 'flat cash' budget that was originally proposed, there will be no reductions in staffing establishment apart from those achieved through efficiency measures.

**Mr. Stewart Jackson:** To ask the Secretary of State for Justice what his estimate is of the budgets for the Cambridgeshire Probation Service for *(a)* 2008-09, *(b)* 2009-10 and *(c)* 2010-11; and if he will make a statement. [175180]

**Maria Eagle:** The main resource grant planning figures, which comprise the vast majority of the probation budget, have recently been issued to regional offender managers and probation boards to enable service level agreements (SLA) discussions to commence. Other smaller components of the probation budgets are in the process of being worked through pending updated information. The current planning assumption for Cambridgeshire is an increase of 3.41 per cent. for 2008-09 over 2007-08 on the main resource grant, which will be subject to confirmation when SLA negotiations are completed. Budgets for 2009-10 and 2010-11 have not yet been set.

**Mr. Stewart Jackson:** To ask the Secretary of State for Justice how many *(a)* compulsory and *(b)* voluntary redundancies of staff he estimates the Cambridgeshire Probation Service will make in 2008-09; and if he will make a statement. [175181]

**Maria Eagle:** The Information supplied by Cambridgeshire Probation Service shows that it is not expecting to make any voluntary or compulsory redundancies in 2008-09.

### Chelmsford Crown Court: Parking

**Mr. Amess:** To ask the Secretary of State for Justice (1) how many car parking places are reserved for *(a)* judges, *(b)* prosecution barristers, *(c)* defence barristers, *(d)* members of the public and *(e)* staff at Chelmsford Crown court; what the total cost is of providing such spaces; what criteria are used for allocating car parking spaces to (i) judges, (ii) prosecution barristers, (iii) defence barristers, (iv) members of the public and (v) staff; what recent representations he has received about car parking in courts; and if he will make a statement; [174068]

(2) what parking facilities are available at Chelmsford Crown court for victims of crime; what recent representations he has received about this issue; and if he will make a statement. [174069]

**Maria Eagle:** There are 46 car park spaces at Chelmsford Crown court. There are up to six parking spaces available for judges and four for magistrates. There are eight parking spaces for court users with disabilities who are blue badge holders. Otherwise no spaces are provided specifically for *(b)* prosecution barristers, *(c)* defence barristers, *(d)* members of the public. *(e)* There are approximately 32 members of staff from the court and other Criminal Justice Agencies for whom car parking spaces are available. There are no costs attached to providing parking spaces as they form part of the overall court complex.

The criteria used for allocating car parking spaces are that people are (i) either judges or magistrates, (v) staff who work permanently on site at Chelmsford Crown court and who drive to work; or they can be allocated, on request by Court users who are disabled blue badge holders; including barristers for the (ii) prosecution, (iii) defence and (iv) members of the public.

There have been no recorded complaints concerning car parking.

There are no car parking spaces specifically allocated to victims of crime at Chelmsford Crown Court, except for those that have a disability. Departmental guidance on car parking is to provide parking for sensitive witnesses where space is available.

No recent representations have been received on this issue.

### Chelmsford Crown Court: Witnesses

**Mr. Amess:** To ask the Secretary of State for Justice what the average waiting time is at Chelmsford Crown court for persons giving evidence; and what the average time taken was in *(a)* 1996, *(b)* 1998, *(c)* 2001, *(d)* 2005 and *(e)* 2006. [174071]

**Maria Eagle:** The latest and historical figures, since records have been available, from Her Majesty's Courts Service witness survey are shown as follows:

| | *Estimated waiting time* | |
|---|---|---|
| *Survey date* | *Chelmsford* | *England and Wales* |
| November 1998 | 2 hours 56 minutes | 2 hours 53 minutes |
| June 2001 | 2 hours 33 minutes | 2 hours 34 minutes |
| June 2005 | 3 hours 33 minutes | 2 hours 22 minutes |
| June 2006 | 2 hours 37 minutes | 2 hours 25 minutes |
| June 2007 | 2 hours 49 minutes | 2 hours 18 minutes |

Data for the average waiting time for persons giving evidence is obtained from the biannual witness survey which is carried out over two weeks in June and November every year. It covers all witnesses who attended the Crown court, whether or not they were actually called to give evidence. We do not currently hold figures for the time taken to give evidence centrally.

Witness waiting times are affected by several factors, for example the times that witnesses are asked to attend, how many witnesses there are in a trial and what happens in the courtroom. There could be unexpected lengthy legal argument or other delays on the day, perhaps caused by the defendant not attending. These estimates should all be used with caution as the number of witnesses surveyed was less than 100 for each survey at Chelmsford Crown court, meaning that margins of error will be wide.

### Communications Act 2003

**James Brokenshire:** To ask the Secretary of State for Justice how many *(a)* prosecutions have been brought and *(b)* convictions obtained for offences under section 127(1) of the Communications Act 2003 in the last three years for which figures are available. [174426]

**Maria Eagle:** Information on the number of defendants proceeded against at magistrates courts and found guilty at all courts for offences under section 127 of the Communications Act 2003 are provided in the following table which covers the years 2004-2006.

It is not possible to separate offences under section 127(1) of the Communications Act 2003 from other offences under section 127 of the same act.

*Number of defendants proceeded against at magistrates courts and found guilty at all courts for improper use of public electronic communications network under the Communications Act 2003 England and Wales 2002-2004*[1, 2]

| | *Proceeded against* | *Found guilty* |
|---|---|---|
| 2004 | 214 | 143 |
| 2005 | 355 | 260 |
| 2006 | 550 | 377 |

[1] These data are provided on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

Court Proceedings Database—Office for Criminal Justice Reform

### Contact Orders

**Mr. Kidney:** To ask the Secretary of State for Justice (1) what assessment he has made of the durability of agreements on child contact reached through in-court conciliation; and what steps he is taking to reduce the number of such cases returning to court shortly after a child contact agreement has been reached; [173787]

(2) what assessment he has made of the effectiveness of the in-court conciliation pilots in diverting child contact cases from contested court proceedings; [173788]

(3) what effect agreements reached through in-court conciliation have had on the welfare of children in child contact cases. [173789]

**Bridget Prentice:** In March 2006 the Government published research by Dr. Liz Trinder of the university of East Anglia on in-court conciliation in three courts in England. This looked at the process and overall effectiveness of conciliation and examined the relative effectiveness of three contrasting models: 125 cases were examined immediately following the conciliation meeting and again six months later. A further study examined 117 of these cases to assess the position two years on. The Government published the findings of this further study on 21 November.

At the two-year follow-up, 79 per cent. of parents had an agreement about contact. More children were having overnight contact and the overall amount of contact per child had increased since the initial conciliation meeting. However, 60 per cent. of agreements made at the original conciliation meeting had been changed or broken down. Analysis suggests that this was due to one or more of the adults or children not supporting the agreement rather than a change in circumstances. In 40 per cent. of cases there had been further litigation; 9.4 per cent. of parents reported that their case was currently active, a reduction from 25.6 per cent. at the six-month follow-up.

To provide ongoing support to parents and help prevent a return to court, the courts can make Family Assistance Orders (FAOs). On 1 October 2007 the Government implemented section 6 of the Children and Adoption Act 2006. FAOs may now be made for 12 months rather than six, and are not restricted to exceptional cases.

The 2006 Act also contains provisions to enable the courts to direct parties to take part in contact activities during the court stage and before contact is formally agreed. These activities will provide parents with access to more therapeutic services designed to help them overcome some of the underlying issues they face, which can act as barriers to co-parenting and to making contact work. We will announce shortly the timetable for implementing these and other provisions in the Act.

The research found that 76 per cent. of parents in the study reached a full or partial agreement immediately following conciliation. In most of these cases the court will have made an order for contact with the consent of the parties, avoiding a contested final hearing. The Children and Family Court Advisory Support Service reports that in 2006-07 its dispute resolution work in these cases (focused mainly on the delivery of in-conciliation) achieved a full or partial agreement in 59.4 per cent. of cases going through the courts.

The research concludes that child wellbeing is related to the quality of the relationship between the parents. While parental relationships had improved a little for some, this improvement was modest and the majority of parents continued to report a negative relationship that had not improved since the original conciliation meeting. Contact activities will help to equip these parents with the skills and understanding they need to be more effective co-parents.

### Death: Mental Health

**Jeremy Corbyn:** To ask the Secretary of State for Justice how many inquests have been held in each of the last five years into deaths of people detained under the Mental Health Act in NHS mental health accommodation; and in how many of those inquests there was a jury. [173874]

**Bridget Prentice:** The Secretary of State for Health in his answer on 11 December reported that information provided by the Mental Health Act Commission indicated that 377 unnatural deaths of in-patients in NHS mental health accommodation took place between 2002 and 2006. Information on the number of inquests held on these deaths is not held centrally.

The Ministry of Justice does not ask coroners to make statistical returns on inquests resulting from deaths of patients detained under the Mental Health Act 1983.

**Jeremy Corbyn:** To ask the Secretary of State for Justice for what reasons there is no requirement for a coroner to summon a jury for inquests into the deaths of people detained in NHS mental health accommodation under the Mental Health Act; and if he will make a statement. [173875]

**Bridget Prentice:** Section 8(3) of the Coroners Act 1988 requires the coroner to hold a jury inquest where he has jurisdiction and the person has died in prison, in police custody or in circumstances requiring an inquest under any other Act. Deaths of people detained under the Mental Health Act 1983 are not specified in the Coroners Act 1988 Section 8(3), and are not regarded as automatically requiring an inquest to be held. In the Coroners Bill, which will be brought before Parliament as soon as time allows, it is intended that the death of any person in lawful detention, including those detained under the Mental Health Act, will be investigated by a coroner.

### Departmental Equality

**Philip Davies:** To ask the Secretary of State for Justice how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173813]

**Maria Eagle:** The Ministry of Justice, which was created on 9 May 2007, is committed to embedding equality and diversity in all our policies and practices as we recognise and value the diversity of our staff and customers.

The information requested is not recorded centrally and to supply the information would involve contacting each division across the Department at disproportionate cost. I am, however, able to provide information on dedicated equality and diversity teams within the Ministry of Justice.

The Equality, Diversity and Human Rights Division, which covers staff in the former Department for Constitutional Affairs (DCA), has a budget for 2007-08 of £2,029,256. The projected staff cost is 1,505,010. The Division, which runs six staff networks and provides advice on equality and diversity issues, has a staff complement of 36.

Three Equality and Diversity Teams, transferred from the Home Office on 9 May 2007, are responsible for staff employed in the Prison Service and for equality and diversity policy in the Prison Service and National Offender Management Service. The teams have a combined budget for 2007-08 of 3,647,000 of which 1,925,652 is for staff costs. The teams employ a total of 40 staff.

In 2006-07 the budget for the Corporate Diversity Unit of the former DCA was £2,183,116 of which 1,053,869 was spent on staff costs. For 2005-06 the respective figures were £2,239,629 and £875,806.

## Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Justice how many *(a)* men and *(b)* women of each civil service grade are employed by his Department. [172739]

**Maria Eagle:** The latest figures for *(a)* men and *(b)* women within each civil service grade is reflected in Table A (Ministry of Justice' Headquarters) and Table B (Ministry of Justice' Agencies) as follows.

Table A: The table reflects the figures within the Ministry of Justice' Headquarters as at reference date 30 September 2007.

*Ministry of Justice Headquarters*

| *Civil Service Grade* | *M* | *F* |
|---|---|---|
| AA | 17 | 19 |

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Justice (1) how much and what proportion of its waste his Department recycled in each of the last five years; [174420]

(2) what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172516]

**Maria Eagle:** As the Ministry of Justice was created in May 2007 this answer refers to the performance of the delivery bodies previously belonging to the Home Office and Department for Constitutional Affairs (DCA).

HM Prison Service is implementing a structured waste management programme across the public sector managed prisons estate. Waste management and processing within prisons, in the main, includes setting in place waste management units employing prisoners in the separation and processing of materials from the waste stream for recycling.

1. Financial year 2002-03 the total waste arising reported was 2,837 tonnes, the total waste processed for recycling was 1,081 tonnes providing an average percent of waste arising recycled to be 38 per cent. (Hazardous waste not included)
2. Financial year 2003-04 the total waste arising reported was 4,800 tonnes, the total waste processed for recycling was 1,396 tonnes providing an average percent of waste arising recycled to be 29 per cent.
3. Financial year 2004-05 the total waste arising reported was 9,229 tonnes, the total waste processed for recycling was 3,851 tonnes providing an average percent of waste arising recycled to be 42 per cent.
4. Financial year 2005-06 the total waste arising reported was 12,868 tonnes, the total waste processed for recycling was 5 569 tonnes providing an average percent of waste arising recycled to be 43 per cent.
5. Financial year 2006-07 the total waste arising reported was 15,960 tonnes, the total waste processed for recycling was 7,022 tonnes providing an average percent of waste arising recycled to be 44 per cent.

The former DCA had a policy of recycling but did not collect any historical data on the amount of waste recycled. As part of the establishment of the Ministry of Justice, and to help measure progress towards the sustainable operations on the Government estate targets, a waste management strategy has been developed and is currently being implemented across the estate. The waste management strategy will enable the Department to increase the quantities of waste recycled and report on progress to the Sustainable Development Commission.

### Departmental Responsibilities

**Mr. Heath:** To ask the Secretary of State for Justice what *(a)* reviews, *(b)* consultations and *(c)* taskforces his Department is (i) responsible for and (ii) scheduled to undertake; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [172548]

**Maria Eagle:** A list of ad hoc reviews, groups and taskforces that have commenced and those that have been announced by the Ministry of Justice (MoJ) but are yet to commence is set out in the following table. Consultations being conducted by the MoJ are published on the departmental website at:

http://www.justice.gov.uk/publications/consultations.htm

The purpose of each consultation is provided at the beginning of each paper.

| *Operated by Directorate/Agency* | *Provide name/details of review or taskforce* | *What is the purpose of the review or taskforce?* | *When is it planned to start and when is it due to finish?* | *Has a ministerial statement been made and when?* |
|---|---|---|---|---|
| An independent joint review of restraint commissioned by the Ministry of Justice (MoJ) and Department for Children, Schools and Families. | The review is led by Peter Smallridge CBE and Andrew Williamson CBE. | The review will consider policy and practice across all secure juvenile settings, taking account of the use of restraint in young offender institutions, secure training centres and secure children's homes. | Ministers appointed the joint Chairs on 8 October. The chairs have been asked to report their recommendations by 4 April 2008. | David Hanson made an announcement on 28 July 2007. |

| *Operated by Directorate/Agency* | *Provide name/details of review or taskforce* | *What is the purpose of the review or taskforce?* | *When is it planned to start and when is it due to finish?* | *Has a ministerial statement been made and when?* |
|---|---|---|---|---|
| Review commissioned by the Prime Minister and not the Ministry of Justice. The staff and funding are provided by this Department. | Goldsmith Review of Citizenship. | To articulate more clearly the significance of citizenship, and develop recommendations to ensure that our approach to citizenship is appropriate for modern issues of migration, identity and civic participation. | Started on 5 October, expected to report in spring 2008. | Announced in Green Paper on Governance of Britain. |
| National Offender Management Service. | Lord Carter's Review of the Prison System in England and Wales—independent third party review. | To consider options for improving the balance between the supply of prison places and demand for them, and to make recommendations on how this could be achieved. | Started in June 2007 and has just finished, on 5 December 2007. | Ministerial oral statement made by Justice Secretary on 5 December, repeated by Lord Hunt in the Lords. |
| Cabinet Office led. Strategy Group leading in MoJ. | Data handling in Government. | To ensure that all Departments and all agencies check their procedures for the storage and use of data. | Started on 21 November 2007. No closing date announced. | Prime Minister announced on 21 November at PMQs. |
| Office for Criminal Justice Reform—Race, Confidence and Justice Unit. | Race For Justice. | The Race for Justice programme of work aims to improve the service offered to victims of hate crime by CJS agencies. | Started summer 2006—expected to be completed by summer 2009. | Launched by the Attorney-General and Gerry Sutcliffe via ministerial statements June 2006. |
| Office for Criminal Justice Reform—Better Trials Unit. | Tackling Gangs Action Programme. | We are inputting on the witness protection side. | Ends 31 March 2008. | Home Secretary made statement on 9 September. |
| Office for Criminal Justice Reform—Better Trials Unit. | Anonymity in sex offence cases. | To see if the Court of Appeal should be given the power to displace complainant anonymity where they consider that the allegation was false and malicious. | The review was commenced following the Court of Appeal's decision on 12 September 2006 to quash the conviction in the case of Blackwell. It is expected to conclude early in 2008. | Review announced in reply to PQ 29 November 2006. |
| Office for Criminal Justice Reform—Better Trials Unit. | Third party disclosure review. | To set up arrangements for the disclosure of material by third parties to criminal investigations, proceedings, and reviews of possible miscarriages of justice which enable practitioners to carry out the duties imposed on them more satisfactorily, and so make for a more modern and efficient criminal justice process. | The review commenced in October 2005. | No. |
| National Offender Management Service. | A working group to be established to examine the advantages, disadvantages and feasibility of a structured sentencing framework and permanent sentencing commission. To be chaired by a senior member of the judiciary. | As recommended by Lord Carter's Review of the Prison System—to examine the advantages, disadvantages and feasibility of a structured sentencing framework and permanent sentencing commission. | Government announced intention to set up working group on 5 December, in response to Lord Carter's Review of the Prison System. Intention is that it should report to the Lord Chancellor and Lord Chief Justice by summer 2008. | Working group announced in Justice Secretary oral statement on 5 December. |
| Ministry of Justice Constitution Directorate. | Review of voting systems. | Its purpose is to review the experience of the new voting systems introduced in the United Kingdom to inform the debate about whether changes should be made to the electoral system for the House of Commons. | This review commenced in May 2005 following the general election. | Secretary of State for Justice is due to issue a written ministerial statement on 11 December announcing that the review is complete and that it will be made ready for publication in January 2008. |

| *Operated by Directorate/Agency* | *Provide name/details of review or taskforce* | *What is the purpose of the review or taskforce?* | *When is it planned to start and when is it due to finish?* | *Has a ministerial statement been made and when?* |
|---|---|---|---|---|
| National Offender Management Service. | Prison Population Taskforce. A small ad hoc team of officials, largely drawn from within NOMS, led at SCS level. | To support the Department and Ministers in managing a very tight prison population in the period prior to the publication of Lord Carter's review of prisons. | Started in August 2007. The taskforce requirement will be reviewed as part of the Department's consideration of its response to Lord Carter's review. | No. |
| National Offender Management Service. | Review of Childcare Resettlement Licence: (Release on Temporary Licence). | The purpose of the review is to ensure that the new Childcare Resettlement Licence, which enables prisoners who are sole carers to be temporarily released to visit their children, is working as intended. | A review of Prison Service Order 6300 Release on Temporary Licence focusing on Childcare Resettlement Licence was planned to be completed in 2007. The review began in the spring of 2007 but a planned completion date cannot be provided at present. | No. |
| Office for Criminal Justice Reform. | Failure to Appear warrant withdrawal practice. | To identify FTA warrant withdrawal practice and amend current guidance if required. | Started on 29 November. Aiming to conclude by end of January 2008. | Announced by Secretary of State in written ministerial statement on 29 November. |
| Independent review commissioned by the Prime Minister and Jack Straw. The staff and funding to support the review are provided by this Department. | Data Sharing Review. Led in independent capacity by Richard Thomas, the Information Commissioner, and Dr Mark Walport, the Director of the Wellcome Trust. | The review will consider whether there should be any changes to the way the Data Protection Act 1998 operates in the UK and the options for implementing any such changes. It will include recommendations on the powers and sanctions available to the regulator and courts in the legislation governing data sharing and data protection. It will also make recommendations on how data sharing policy should be developed in a way that ensures proper transparency, scrutiny and accountability. | The review was announced on 25 October and is due to report in the first half of 2008. | No. |
| Paul Dacre, Editor-in-Chief of Associated Newspapers and member of the Press Complaints Commission—working with Sir Joe Pilling, former Permanent Secretary of the Northern Ireland Office, and the eminent historian David Cannadine, secretariat support from TNA. | '30 year rule' review. | To undertake a review of the '30 year rule' that governs the transfer of historical records to the National Archives. | The review was announced by the Prime Minister in his Liberty speech on 25 October—the review is due to report back in the first half of 2008. | Review was announced on 25 October 2007 in the Prime Minister's Liberty Speech. |
| National Offender Management Service and Department of Health. | Lord Bradley Review. | To examine the extent to which offenders with mental health problems or learning disabilities could, in appropriate cases: be diverted from prison to other services; the barriers to such diversion; and, to make recommendations to Government, in particular on the organisation of effective court liaison and diversion arrangements and the services needed to support them. | Announced 5 December as part of Carter Review announcement. The review would aim to complete its work by June 2008, having consulted widely, including, in particular, professional bodies and service providers. | Ministerial oral statement made by Justice Secretary on 5 December, repeated by Lord Hunt in the Lords. |
| Ministry of Justice | Ministry of Justice Third Sector Strategy forthcoming consultation. | To enable the Ministry to finalise its Third Sector Strategy, underpinning how relationships will be taken forward to improve policies and partnerships between the Department and the third sector. | Due to start shortly and last for a minimum of 12 weeks in keeping with the Government code of practice on consultation. | No. |

### Domestic Violence

**Mr. Jim Cunningham:** To ask the Secretary of State for Justice what steps the Government have taken to reduce re-offending rates of domestic violence offenders. [173716]

**Mr. Coaker** *[holding answer 13 December 2007]:* I have been asked to reply.

The Government's national delivery plan for domestic violence includes an objective relating to the management of perpetrators to reduce the risk of reoffending. The following steps have been taken to achieve this objective.

Specialist domestic violence courts (SDVCs) place victims at the heart of the criminal justice system through a multi-agency response to domestic violence that affords greater victim safety while bringing perpetrators to account for their offences. We are planning to expand the number of specialist courts from 64 to around 100 SDVCs by April 2008.

The development of three accredited treatment programmes for convicted domestic violence perpetrators: the Integrated Domestic Abuse programme (IDAP) and Community Domestic Violence programme (CDVP) have been rolled out across all probation areas in England and Wales. The Healthy Relationships Programme (HRP) is run by HM Prison Service. These programmes are based on evidence of what is most likely to work in reducing re-offending.

The establishment of multi-agency risk assessment conferences which aim to increase the safety of identified high risk victims through a safety planning approach and to determine whether perpetrators pose a significant future risk.

The continuing support of multi-agency public protection arrangements under which police, probation and prison services in each of the 42 areas in England and Wales work together with social care, health, housing and education services to assess and manage the most serious sexual and violent offenders. Some perpetrators of domestic abuse will be managed under these arrangements.

### Head of the Management Selection and Succession Unit

**Mr. Bellingham:** To ask the Secretary of State for Justice what the role of the head of management selection and succession unit (MSSU) within HM Prison Service is; what responsibility the head of the MSSU has for making decisions on managed moves within the Service; and if he will make a statement. [173676]

**Maria Eagle:** The role of head of the MSSU in the Prison Service no longer exists. The MSSU, which is based in Wakefield, West Yorkshire, has responsibility for the design and delivery of assessment centres for the recruitment or internal promotion of prison staff. Under changes introduced in September this year, the former head of the MSSU became responsible only for the design of assessments and not for delivery. He plays no part in managed moves within the service, in either his current or his former role.

However, the head of the MSSU reports to the head of resourcing within the HR directorate. The head of resourcing has responsibility for assisting both the operations and HR directors in the career management of senior operational managers. All appointments at this level are made on the direction of the deputy director general.

### Highpoint Prison: Prisoners Escape

**Mr. Spring:** To ask the Secretary of State for Justice how many prisoners absconded from Highpoint prison in each of the last six years. [173569]

**Maria Eagle:** Two prisoners have absconded from Highpoint prison during the past six years, in July 2002 and October 2006. Both prisoners were subsequently returned to custody.

### Hollesley Bay Prison: Prisoners Escape

**Mr. Gummer:** To ask the Secretary of State for Justice how long each of those prisoners who have absconded from HM Prison Hollesley Bay in the last six years had left to serve of their sentences at the point at which they absconded. [169092]

**Maria Eagle:** The information provided is that held by the establishment and sets out the number of days left to serve at point of abscondence for each of the prisoners who absconded in that year. However the information relates to automatic release dates and a number of those included would have had possible earlier release dates on parole.

Statistics are not available for the year 2002-03. Two prisoners held on immigration warrants and one life-sentenced prisoner also absconded during the period in question but had no fixed release date.

[1] Figures recorded for 2007-08 are provisional and subject to change.

## Informers

**Mr. Bellingham:** To ask the Secretary of State for Justice what training is required for the management of informants; what assessment he has made of the effectiveness of training provided by HM Prison Service for such management; what legislation governs the provision of such training; and if he will make a statement. [173678]

**Mr. Hanson:** HM Prison Service provides training for staff involved in the management of informants. This is role specific for a handler, controller or authorising officer. The legislation does not require staff to be trained. I have not evaluated the training but HM Prison Service is considering the possibility of obtaining an independent assessment of informant management training.

## Law: Wales

**Mrs. Gillan:** To ask the Secretary of State for Justice whether he is considering the merits of establishing a separate legal system for Wales; and if he will make a statement. [174216]

**Mr. Wills:** The Government are committed to enhancing the legislative competence of the National Assembly for Wales by transferring powers through either framework powers in Westminster Bills or Orders in Council as provided for in the Government of Wales Act 2006. But there is a single legal jurisdiction in England and Wales, and the Government have no plans to change that.

## Legal Services Commission: Information and Communications Technology

**David T.C. Davies:** To ask the Secretary of State for Justice what representations his Department has received from legal service practitioners on the effectiveness of the Legal Services Commission's new IT system for online reporting of case outcomes and solicitors' claims for costs; and if he will make a statement. [173464]

**Maria Eagle:** My Department has not received any direct representation from legal aid practitioners on this issue since the Legal Services Commission took the decision to close LSC online until further notice. However, the hon. Member for North-West Norfolk (Mr. Bellingham) has asked three parliamentary questions which were answered on 3 December 2007, *Official Report*, column 1260W, and two hon. Members have written on behalf of legal aid solicitors in their constituencies.

## Non-Departmental Public Bodies: Archives

**Graham Stringer:** To ask the Secretary of State for Justice what his policy is on the archiving of papers of quangos that have been wound up. [174385]

**Mr. Wills:** I am replying as the Minister responsible for The National Archives. The Government's policy on the archiving of records of quangos and other short-lived public record bodies when their work is finished is set out in The National Archives' guidance document, "Discontinued and Transferred Functions". A copy of this is available on the National Archives website:

http://www.nationalarchives.gov.uk/documents/stan_discontinued.pdf.

### Offender Assessment System: Expenditure

**Mrs. Gillan:** To ask the Secretary of State for Justice how much was spent on the offender assessment system for the Probation Service in England and Wales in each financial year since 2003-04. [173801]

**Maria Eagle:** The expenditure on the offender assessment system OASys) for the National Probation Service for the period April 2001 to March 2004 was £19.6 million. The total spend for both National Probation Service and Her Majesty's Prison Service in each financial year since 2001-02 is shown as follows:

| | *£ million* |
|---|---|
| 2001-02 to 2003-04 | 34.1 |
| 2004-05 | 7.1 |
| 2005-06 | 6.9 |
| 2006-07 | 6.1 |
| 2007-08 | 5.6 |

We cannot separate out prison and probation costs after 2004-05.

### Offenders: Crimes of Violence

**Nick Herbert:** To ask the Secretary of State for Justice how many offenders are awaiting trial for offences of *(a)* murder, *(b)* attempted murder and *(c)* sexual offences allegedly committed while on end of custody licence. [175082]

**Mr. Hanson:** For the period 29 June to 31 October 2007, NOMS has been notified of one offender who is currently awaiting trial for a sexual offence, allegedly committed while on end of custody licence.

### Personal Injury Claims

**Mr. Djanogly:** To ask the Secretary of State for Justice when he intends to publish the results of the consultation on case track limits and the claims process for personal injury claims. [174588]

**Bridget Prentice:** We intend to publish the response to consultation early in the new year. We have received a large number of detailed responses which are currently being analysed. In addition, meetings have been taking place between officials and stakeholders to discuss in more detail some of the issues arising from the consultation.

### Prevention of Corruption Act 1906

**Mr. Amess:** To ask the Secretary of State for Justice how many *(a)* males and *(b)* females have been (i) prosecuted and (ii) convicted of an offence under the Prevention of Corruption Act 1906 in each year since 1997. [172524]

**Maria Eagle:** Data showing the number of males and females proceeded against and found guilty under the Prevention of Corruption Act 1906, in England and Wales, from 1997 to 2006 are in the following table.

*Number of males and females proceeded against at magistrates courts and found guilty at all courts, under the Prevention of Corruption Act 1906[1], England and Wales, 1997 to 2006[2, 3, 4]*

| | *1997* | | *1998* | | *1999* | | *2000* | | *2001* | |
|---|---|---|---|---|---|---|---|---|---|---|
| *Sex* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* |
| Male | 11 | 19 | 12 | 11 | 7 | 8 | 14 | 18 | 8 | 19 |
| Female | 0 | 1 | 0 | 0 | 0 | 0 | 2 | 1 | 0 | 1 |
| Total | 11 | 20 | 12 | 11 | 7 | 8 | 16 | 19 | 8 | 20 |

| | *2002* | | *2003* | | *2004* | | *2005* | | *2006* | |
|---|---|---|---|---|---|---|---|---|---|---|
| *Sex* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* | *Proceeded against* | *Found guilty* |
| Male | 10 | 9 | 12 | 6 | 2 | 4 | 1 | 1 | 5 | 10 |
| Female | 0 | 1 | 0 | 0 | 1 | 0 | 0 | 0 | 1 | 0 |
| Total | 10 | 10 | 12 | 6 | 3 | 4 | 1 | 1 | 6 | 10 |

[1] The offence represented in the table is "Corrupt transactions with agents", Section 1 of the 1906 Prevention of Corruption Act.

[2] These data are on the principal offence basis.

[3] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[4] The found guilty column may exceed those proceeded against, as it may be the case that the proceedings in the magistrates court took place in the preceding year and they were found guilty at the Crown Court in the following year, or the defendants were found guilty for a different offence to the original offence proceeded against; some of the defendants found guilty of the above offence were originally proceeded against under the offence of "Conspiracy to Defraud", Section 12 of the Common Law and Criminal Justice Act 1987.

### Prison Accommodation

**Mr. Bellingham:** To ask the Secretary of State for Justice how much time is allocated to prison officers to conduct a cell search; and if he will make a statement. [175200]

**Maria Eagle:** The Prison Service national security framework requires prisons to develop local searching strategies, agreed by the governor and area manager. These define the frequency of cell searches conducted in a particular prison based on an assessment of local needs and considerations. The amount of time allocated to cell searches will therefore vary across the prison estate and this information could be collated centrally only at disproportionate cost.

### Prison Service

**Mr. Bellingham:** To ask the Secretary of State for Justice pursuant to the answer of 14 May 2007, *Official Report*, column 434W, on the Prison Service, whether Paul Baker is the assistant investigator on the investigation being run by Ron Tasker; and if he will make a statement. [173762]

**Maria Eagle:** Paul Baker was the assistant investigator working to Ron Tasker on his investigation.

### Prison Service: Termination of Employment

**Mr. Bellingham:** To ask the Secretary of State for Justice with reference to the answer of 14 May 2007, *Official Report*, column 554W, on Prison Service: termination of employment, how many of the appeals upheld in *(a)* 2005-06 and *(b)* 2006-07 were in the London area. [173727]

**Mr. Hanson:** The information previously provided was obtained from the Civil Service Appeal Board to ensure it was accurate. The board has been asked to confirm the location of the successful appeals and I will write to the hon. Gentleman on receipt of its response.

**Mr. Bellingham:** To ask the Secretary of State for Justice with reference to the answer of 14 May 2007, *Official Report*, column 552W, on Prison Service: termination of employment; what assessment he has made of the cost of collating this information at HM Prison Service area office level; whether information on the number of HM Prison Service employees dismissed for criminal activity in the last three years is collated in any form within HM Prison Service; and if he will make a statement. [173761]

**Mr. Hanson:** In order to provide this information, the HR Directorate would need to ask each area office to contact each of its establishments requesting a manual search of personnel records for each of the last three years. The figures would then need to be checked at area office level and collated centrally. No detailed assessment has been made of the cost of collating this information other than to confirm that it would exceed the current threshold set by the Cabinet Office.

The public-sector Prison Service maintains a central database of disciplinary outcomes, including those in which criminal activity has been found proven. This database is maintained from records provided to the HR Directorate at the conclusion of the internal disciplinary process.

### Prisoners

**Nick Herbert:** To ask the Secretary of State for Justice for what proven or alleged offences offenders were recalled to prison from end of custody licence for reoffending between 29 June 2007 and 31 October 2007. [175081]

**Mr. Hanson:** During the period 29 June to 31 October 2007, 11,132 offenders were released, of whom 119 were recalled from the end of custody licence scheme on allegation of reoffending. This represents 1.07 per cent. being notified to NOMS as having been recalled for allegedly committing a further offence while on the scheme. They were alleged to have committed a total of 170 offences. A breakdown of these alleged offences is in the following table.

| *Alleged offence type* | *Number of alleged offences* |
|---|---|
| Violence against the person | 30 |
| Sexual offences | 1 |
| Burglary | 17 |
| Robbery | 1 |
| Theft and handling | 43 |
| Drug offences | 7 |
| Motoring offences | 13 |
| Other | 58 |

### Prisoner Release: Electronic Tagging

**Mrs. Gillan:** To ask the Secretary of State for Justice how much was spent on the pilot project using satellite tracking for prisoners released on licence carried out by Group 4 Securicor; and for what reasons the pilot project was not put into operation more widely. [173966]

**Maria Eagle:** The project using satellite tracking for certain prisoners released on licence and offenders who received exclusion orders from the courts was piloted in three areas between 2004 and 2006, during which 517 offenders were tracked. The satellite tracking service was provided by three suppliers up to March 2005, after which it was provided by Group 4 Securicor (G4S) and Serco Monitoring under new electronic monitoring contracts.

The total cost of the project was £4.75 million. This included the cost of the service provision from G4S, which amounted to £2.39 million.

The pilot project was subject to an independent evaluation by Birmingham university, whose final report was published in August 2007. After consideration of the evaluation report, and the recommendations of a National Offender Management Service working group, there are no current plans to implement the scheme more widely until the technology has been developed further to provide assurance of its capabilities and cost-effectiveness. This issue will be kept under review.

### Prisoners: Employment

**Mr. Hurd:** To ask the Secretary of State for Justice what plans the Prison Service has to make the development of structured work a central part of the national prisons strategy. [173941]

**Maria Eagle:** Providing an appropriate range of purposeful activity for prisoners, including work, is part of the Prison Service's strategy and will continue to be so in future developments. Work for prisoners in prison can be broadly divided into four categories: producing goods for the internal market; undertaking work for external contractors; providing essential services such as catering and laundry; and land-based activities.

### Prisoners: Foreigners

**Nick Herbert:** To ask the Secretary of State for Justice how many foreign national prisoners are serving sentences of *(a)* less than 12 months and *(b)* 12 months or more. [174906]

**Mr. Hanson:** At the end of October 2007 there were 7,510 foreign national prisoners serving immediate custodial sentences in all prison establishments in England and Wales, of whom 1,000 were serving sentences of less than 12 months, and 6,510 serving sentences of 12 months and over. These figures were rounded to the nearest 10.

The figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors in data entry and processing.

### Prisoners: Police Custody

**Mr. Kemp:** To ask the Secretary of State for Justice how many prisoners have been accommodated in police custody suites in *(a)* the north-east and *(b)* Northumbria police area in 2007. [173563]

**Mr. Hanson:** The following table shows the total number of occasions on which prisoners have been held in police cells in each police force in the north-east in 2007. This does not correspond directly to the number of prisoners; one occasion is one prisoner night held in a police cell.

| *Police force area* | *Occasions*[1] |
|---|---|
| Cleveland | 12 |
| Durham | 1,083 |
| Northumbria | 1,113 |

[1] To 10 December.

### Prisoners: Self-Mutilation

**Mrs. Gillan:** To ask the Secretary of State for Justice what criteria are applied by the Prison Service when deciding whether an event is to be reported as a self-harming incident. [173965]

**Maria Eagle:** The Prison Service defines self-harm as any incident in which a prisoner deliberately harms himself irrespective of method, intent or severity of any injury.

Prison Service Order 2700: Suicide Prevention and Self-Harm Management instructs that all incidents of self-harm must be reported on incident report forms and an F213SH self-harm form must be completed. Noose/ligature making must also be reported on the F213SH even if no injury has occurred. Information from the F213SH is logged at establishments on the Incident Reporting System (IRS). All incidents in which resuscitation and or transfer to outside hospital as the result of self-harm have been required must also be reported to HMPS National Operations Unit by telephone.

### Prisons

**Mrs. Gillan:** To ask the Secretary of State for Justice how many on-site monitors there are in each prison in England and Wales. [173964]

**Mr. Hanson:** The 11 establishments within the contracted estate have a controller, who is a Crown servant. Controllers are responsible for monitoring the contract and carry out a number of statutory duties as representatives of the Secretary of State. The three public-sector establishments with which NOMS has a service level agreement, HMP Blakenhurst, HMP Buckley Hall and HMP Manchester, have monitors. They are responsible for monitoring the contract but do not carry out operational duties. However it is not a requirement for controllers, monitors or their teams, to be on-site.

Details of the current number of on-site controllers and monitors, and their staff, are outlined in the following table.

*Controllers'/monitors' teams currently on-site in contracted prison establishments and those with whom NOMS has a service level agreement*

| *Establishment* | *Controller's team* |
|---|---|
| HMP Altcourse | 1 Controller<br>1 Deputy Controller<br>2 Assistants |
| HMP Bronzefield | 1 Controller<br>1 Deputy Controller<br>1 Assistant |
| HMP/YOI Doncaster | 1 Controller<br>2 Assistants |
| HMP Dovegate | 1 Controller<br>1 Deputy Controller<br>2 Assistants |
| HMP Wolds | 1 Controller<br>1 Assistant |
| YOI Ashfield | 1 Controller<br>1 Assistant |
| HMP Forest Bank | 1 Controller<br>1 Deputy Controller |
| HMP Lowdham Grange | 1 Controller<br>1 Deputy Controller<br>1 Assistant |
| HMP/YOI Parc | 1 Controller<br>1 Deputy Controller<br>1 Assistant |
| HMP Peterborough | 1 Controller<br>1 Deputy Controller |
| HMP Rye Hill | 1 Controller<br>1 Deputy Controller |
| HMP Buckley Hall | 1 Monitor<br>1 Assistant |

*Controllers'/monitors' teams currently on-site in contracted prison establishments and those with whom NOMS has a service level agreement*

| *Establishment* | *Controller's team* |
|---|---|
| HMP Blakenhurst | 1 Monitor<br>1 Deputy Monitor |
| HMP Manchester | 1 Monitor<br>2 part-time assistants |

### Probation Officers: Training

**Mrs. Gillan:** To ask the Secretary of State for Justice how much was spent on probation officer training in England and Wales in each financial year since 1997-98. [173805]

**Maria Eagle:** Reliable figures are only available from 2003-04, when the Home Office took over the funding arrangements for the universities. The figures for these years are as follows.

| | *Amount (£)* |
|---|---|
| 2003-04 | 51,579,000 |
| 2004-05 | 56,531,000 |
| 2005-06 | 50,819,000 |
| 2006-07 | 38,273,000 |

In addition to these sums, probation areas will identify training needs within their individual areas and fund these from their allocated budgets.

### Probation Service: Expenditure

**Mrs. Gillan:** To ask the Secretary of State for Justice how much was spent on electronic monitors for the probation service in England and Wales in each financial year since 1997-98. [173804]

**Maria Eagle:** Since the start of the electronic monitoring service in England and Wales in January 1999 the cost of the electronic monitoring (EM) of offenders has been met centrally, and is not devolved to the probation service.

Prior to April 2007, data on the breakdown of the cost of the EM service by the agencies using the service were not recorded. However, data have been collected since April 2007 which identify costs of monitoring court-ordered curfew requirements with a probation supervision requirement, and curfew requirements recommended by the probation service for offenders who were sentenced to a single curfew requirement without a probation supervision requirement. In the period from 1 April 2007 to 31 October 2007 this amounted to £20,162,610.

### R v Roland P Wright

**Mrs. Gillan:** To ask the Secretary of State for Justice if he will make a statement on the case of R *v.* Roland P Wright, Case No. T2003/0089 in Aylesbury Crown Court. [174210]

**Maria Eagle:** On 6 May 2003 Roland Peter Wright was committed to Aylesbury Crown Court from Wycombe and Beaconsfield magistrates court. He was indicted on 13 counts of indecent assault on a male person and three counts of indecency with a child. The offences were alleged to have taken place between August 1964 and May 1970. On 25 September 2003 the case was listed for an Abuse of Process hearing. On 26 September the judge determined that the application made on behalf of the defendant should succeed and ordered that the indictment be stayed.

### Witnesses: Children

**Mr. Jim Cunningham:** To ask the Secretary of State for Justice what steps the Government have taken to ease the burden of criminal court proceedings on children who are called as witnesses. [173095]

**Maria Eagle:** The Government have already done much to assist child witnesses in criminal proceedings. We have

introduced special measures such as live links, video-recorded evidence-in-chief, screens around the witness box, giving evidence in private and intermediaries. An independent evaluation in 2004 found that 76 per cent. of child witnesses were satisfied with special measures;

reformed the law on competence to provide a presumption that all witnesses are deemed to be competent;

given £30 million annually to Victim Support, who provide the Witness Service in every court;

introduced a statutory Code of Practice to give victims, including children, legal rights for the first time;

spent £2.75 million on new court live link systems to help witnesses give evidence since 2006;

met the target of having separate waiting facilities for prosecution witnesses in 90 per cent. of magistrates courts ahead of schedule;

on 31 October, issued updated practitioner guidance on interviewing vulnerable and intimidated witnesses, including children.

In June the Government issued a Consultation Paper, "Improving the Criminal Trial Process for Young Witnesses", which looked at further ways of helping young witnesses give evidence, including more choice regarding special measures. We intend to publish a response to this consultation next year.

### Witnesses: Protection

**Mr. Evans:** To ask the Secretary of State for Justice (1) what the cost of running the witness protection programme was in the last 12 months; [172834]

(2) how many UK citizens are in witness protection programmes; and how many have been in programmes in each of the last 10 years. [172835]

**Maria Eagle:** Witness protection programmes are one of a number of measures taken by police forces to support witnesses. A review of national provision in 2004 estimated that such programmes cost in the region of £22 million per annum. However, because of the operational sensitivity of this area of work, details of the programmes and witnesses assisted cannot be disclosed.

## Young Offenders: Sentencing

**James Brokenshire:** To ask the Secretary of State for Justice what assessment he has made of the extent to which issues of parenting have been considered in pre-sentence reviews used in youth courts, as referred to in the Respect Action Plan. [173854]

**Mr. Hanson:** The Respect Action Plan called for the inclusion of parenting assessment in all pre-sentence reports submitted to the magistrates youth court. In the majority of cases, youth offending teams will include an assessment of parenting within a pre-sentence report as standard practice.

The Youth Justice Board will be reinforcing the importance of parenting assessment through current work that will update 'National Standards'. The revised 'National Standards', due to come on stream in 2009, will ensure that all pre-sentence reports include an assessment of the need for parenting support.

I am confident that these measures will ensure that we meet the expectations contained in the Respect Action Plan.

# Written Answers to Questions

*Monday 17 December 2007*

## TREASURY

### Banking

**Mr. Laws:** To ask the Chancellor of the Exchequer what representations were made to his Department by the Bank of England on *(a)* changing the system of bank deposit insurance and *(b)* strengthening the procedure for pre-emptive intervention in failing financial institutions between January 2005 and October 2007; and if he will make a statement. [171924]

**Kitty Ussher:** The Treasury, FSA and Bank of England have held regular discussions about issues relating to financial stability, including bank deposit insurance and procedures for pre-emptive interventions in failing financial institutions throughout this period.

Work on this contributed to the discussion paper "Banking Reform—Protecting Depositors: a Discussion Paper" published in October 2007.

### Child Benefit: Personal Records

**Danny Alexander:** To ask the Chancellor of the Exchequer whether staff authorised to access the full child benefit database are subject to criminal record checks. [167676]

**Jane Kennedy** *[holding answer 26 November 2007]*: On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

**Miss McIntosh:** To ask the Chancellor of the Exchequer what representations he has received on the computer discs which went missing from the Newcastle HM Revenue and Customs (HMRC) office; what steps his Department has taken to advise the public on the loss of the discs and their personal details being compromised; and what steps he is taking to ensure that personal data is held securely by HMRC. [167970]

**Jane Kennedy:** My right hon. Friend the Chancellor of the Exchequer has received a number of representations on the computer discs which went missing from the Newcastle HM Revenue and Customs (HMRC) office.

The acting chairman of HM Revenue and Customs has written to all customers affected by the loss of child benefit data and a copy of the letter is available on the HMRC internet at:

> http://www.hmrc.gov.uk/childbenefit/customer-update-letter.htm

On 13 November HMRC initiated immediate increased security with a new process:

> transfers will now only take place if they are absolutely necessary;
>
> written authorisation for the transfer has to be given by senior HMRC manager; and,
>
> a clear instruction has been given regarding the appropriate standard of protection for the transfer.

Where directors decide that a data transfer by disc is unavoidable such media must, in every case, be securely encrypted at the appropriate level.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

I also refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on the completion of the review.

**Mr. Gauke:** To ask the Chancellor of the Exchequer what estimate he has made of the *(a)* number and *(b)* value of tax credit payments erroneously made to a perpetrator of identity theft in the last 12 months. [168055]

**Jane Kennedy** *[holding answer 26 November 2007]*: I refer the hon. Member to paragraph 2.26 of HM Revenue and Customs Standard Report for 2006-07.

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer what technical protections have been in place in HM Revenue and Customs child benefit office in 2007 to date to prevent unauthorised personnel downloading confidential information to disc. [168246]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

> <http://www.hm-treasury.gov.uk/newsroom and speeches/press/2007/press 133 07.cfm>

and a copy has been placed in the Library of the House.

**Mrs. Gillan:** To ask the Chancellor of the Exchequer (1) how many fields there are in the HM Revenue and Customs child benefit database; and how many of these contain data which were recently requested by the National Audit Office; [169001]

(2) what estimate he has made of the cost of extracting the information requested by the National Audit Office from the HM Revenue and Customs child benefit database. [169003]

**Jane Kennedy** *[holding answer 28 November 2007]*: I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Daniel Kawczynski:** To ask the Chancellor of the Exchequer for what purposes the National Audit Office (NAO) required a complete list of child benefit recipients; and what categories of data were *(a)* on the database and *(b)* requested by the NAO. [169104]

**Jane Kennedy:** The National Audit Office requested data as part of its preparations for its 2007-08 audit of HM Revenue and Customs' Resource Account, which records the annual expenditure on child benefit.

I refer the hon. Member to the statement given in the House by my right hon. Friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Tom Brake:** To ask the Chancellor of the Exchequer whether a reward has *(a)* been offered and *(b)* been proposed for the finder of the two compact discs containing confidential child benefit information; and if he will make a statement. [169314]

**Jane Kennedy** *[holding answer 29 November 2007]*: A reward of £20,000 has been offered by HMRC for information leading to the return of the missing data.

**Mr. Amess:** To ask the Chancellor of the Exchequer what steps *(a)* he has taken and *(b)* he plans to take to alleviate the concerns of child benefit recipients resident in Southend West constituency whose data was lost by HM Revenue and Customs on possible (i) identity fraud and (ii) criminal use of bank or building society account details; what recent representations he has received from members of the public about the loss; and if he will make a statement. [169423]

**Jane Kennedy:** I refer the hon. Member to the statement given in the House by my right hon. friend the Chancellor of the Exchequer on 20 November 2007, *Official Report*, columns 1101-04.

**Mr. Amess:** To ask the Chancellor of the Exchequer whether the password to access the child benefit information was contained in the same package as the discs containing the data provided by HM Revenue and Customs (HMRC) to the National Audit Office on each of the occasions that discs were sent; what the policy is of *(a)* his Department and *(b)* HMRC on the sending of such passwords in the post; and if he will make a statement. [169428]

**Jane Kennedy:** It would be inappropriate to disclose the information requested as there is an on-going police investigation.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers.

**Mr. Hoban:** To ask the Chancellor of the Exchequer further to his statement of 20 November 2007, *Official Report*, column 1101, on HM Revenue and Customs, when *(a)* Ministers and *(b)* senior civil servants were first informed of the breach of security procedures that took place in March. [168786]

**Jane Kennedy** *[holding answer 17 November 2007]*: It would be inappropriate to comment at this time as there is an ongoing police investigation. On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

**Malcolm Bruce:** To ask the Chancellor of the Exchequer in how many of the individuals' records missing in the transfer of information from HM Revenues and Customs national insurance numbers were recorded. [168458]

**Jane Kennedy** *[holding answer 29 November 2007]*: The missing information contains details of child benefit records for 25 million individuals including 9.5 million adult claimants. The records of these claimants include national insurance records.

## Children: Poverty

**Mr. Laws:** To ask the Chancellor of the Exchequer what steps his Department is taking to meet the *(a)* 2010 and *(b)* 2020 child poverty targets; and if he will make a statement. [172089]

**Jane Kennedy:** The Treasury contributes to the strategy for halving and eradicating child poverty as set out in the Child Poverty Review, published alongside the 2004 Spending Review White Paper (Cm 6237). Across the UK, these measures have helped lift 600,000 children out of poverty since 1998-99.

The Government have reaffirmed their commitment to the PSA goal of halving child poverty by 2010 on the way to eradicating child poverty by 2020. Alongside the CSR, the Government published a Delivery Agreement, which outlines how central Government will work with delivery partners to meet these ambitious targets.

The Treasury will continue to review financial support for families with children at future Budgets and pre-Budget reports, in the usual way. As a result of financial support measures announced in this year's Budget and pre-Budget report, 300,000 children will be lifted out of poverty.

The Treasury will continue to work closely with other Government Departments to deliver public services to help improve the lives and life chances of all children.

### Council of Economic Advisers

**Mr. Hoban:** To ask the Chancellor of the Exchequer how many members of the Council of Economic Advisers there were in each month since January; and if he will make a statement. [173180]

**Angela Eagle:** There were five members of the Council of Economic Advisers in January 2007 as set out in the answer given on (0509W 2006-07). An additional member was appointed in February 2007 as set out in the answer given on (2386W 2006-07). From June 2007 the Council had one member as set out in the answer given on (4448W 2006-07) and the written statement made by the Prime Minister on 22 November 2007. Since the end of November the Council has had two members as set out in the Treasury Press Notice of 30 November.

### Customs Officers: Manpower

**Justine Greening:** To ask the Chancellor of the Exchequer how many (*a*) full- and (*b*) part-time customs officers HM Revenue and Customs employed in each year since 2000; and if he will make a statement. [174525]

**Jane Kennedy:** The numbers of (*a*) full and (*b*) part-time staff employed by HM Customs and Excise at 1 April 2000 to 1 April 2005 are shown in the following table, as are those employed by HM Revenue and Customs since 1 April 2006. After 1 April 2005, no statistics are available for HM Customs and Excise as a separate Department.

| *As at 1 April each year* | *Full-time* | *Part-time* |
|---|---|---|
| 2000 | 21,000 | 2,050 |
| 2001 | 20,960 | 2,160 |
| 2002 | 20,640 | 2,250 |
| 2003 | 20,940 | 2,370 |
| 2004 | 21,336 | 2,523 |
| 2005 | 21,508 | 2,776 |
| 2006 | 76,533 | 24,205 |
| 2007 | 72,880 | 23,631 |

**Justine Greening:** To ask the Chancellor of the Exchequer how many (*a*) permanent and (*b*) temporary customs officers HM Revenue and Customs employed in each year since 2000; and if he will make a statement. [174564]

**Jane Kennedy:** The numbers of (*a*) permanent and (*b*) temporary staff employed by HM Customs and Excise at 1 April 2000 to 1 April 2005 are shown in the following table, as are those employed by HM Revenue and Customs since 1 April 2006. After 1 April 2005, no statistics are available for HM Customs and Excise as a separate Department.

| *As at 1 April each year* | *Permanent* | *Temporary* |
|---|---|---|
| 2000 | 22,640 | 410 |
| 2001 | 22,440 | 680 |
| 2002 | 22,560 | 330 |
| 2003 | 22,950 | 360 |
| 2004 | 23,491 | 368 |
| 2005 | 23,790 | 494 |
| 2006 | 99,508 | 1,230 |
| 2007 | 95,412 | 1,099 |

### Customs Officers: Recruitment

**Justine Greening:** To ask the Chancellor of the Exchequer how much HM Revenue and Customs spent on employing customs officers in each year since 2000; and if he will make a statement. [174523]

**Jane Kennedy:** There is no separate group of staff identified as "customs officers". The staff costs for the former Customs and Excise are shown in the following table for 2000-01 to 2004-05.

| | *£000* |
|---|---|
| 2000-01 | 599,744 |
| 2001-02 | 623,678 |
| 2002-03 | 651,160 |
| 2003-04 | 688,440 |
| 2004-05 | 728,444 |

Following the merger with the former Inland Revenue, the total staff costs for HM Revenue and Customs (but excluding the Valuation Office Agency) for 2005-06 and 2006-07 were as follows:

| | *£000* |
|---|---|
| 2005-06 | 2,655,374 |
| 2006-07 | 2,701,800 |

**Justine Greening:** To ask the Chancellor of the Exchequer how many customs officers were recruited by HM Revenue and Customs in each year since 2000; and if he will make a statement. [174524]

**Jane Kennedy:** The numbers of staff recruited by HM Customs and Excise yearly between 1 April 2000 and 31 March 2005 are shown in the following table, as are the numbers of staff recruited by HM Revenue and Customs since 1 April 2005. After 1 April 2005, no statistics are available for HM Customs and Excise as a separate Department.

| | *Entrants* |
|---|---|
| 2000-01 | 1,272 |
| 2001-02 | 995 |
| 2002-03 | 1,394 |
| 2003-04 | 1,344 |

| | Entrants |
|---|---|
| 2004-05 | 1,341 |
| 2005-06 | 6,586 |
| 2006-07 | 5,725 |

### Data Protection: Complaints

**Mr. Gauke:** To ask the Chancellor of the Exchequer how many complaints HM Revenue and Customs have received in the last 12 months from tax credit claimants claiming they have been victims of identity theft. [168052]

**Jane Kennedy** *[holding answer 26 November 2007]:* I refer the hon. Member to the reply given to my right hon. Friend the Member for Birkenhead (Mr. Field) on 27 March 2007, *Official Report*, column 1516W.

### Departmental Data Protection

**Mr. Hoban:** To ask the Chancellor of the Exchequer what estimate his Department has made of the number of disks containing data protected by the Data Protection Act 1998 that have been sent to other agencies of his Department in the last two years, broken down by *(a)* mode and classification of delivery and *(b)* carrier. [168789]

**Jane Kennedy** *[holding answer 27 November 2007]:* This information is not available and could be collated only at a disproportionate cost.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

and a copy has been placed in the Library of the House.

### Employment

**Chris Grayling:** To ask the Chancellor of the Exchequer what estimate he has made of the number and proportion of *(a)* UK and *(b)* non-UK nationals in (i) full-time and (ii) part-time work in the UK in each year since 1997. [173916]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl, dated 17 December 2007:*

The National Statistician has been asked to reply to your Parliamentary Question about the number and proportion of UK and non-UK nationals in full-time and part-time work in each year since 1997. I am replying in her absence. (173916)

The data for analysing migrant workers comes from the Labour Force Survey (LFS). The National Statistics method for estimating the number of migrant workers employed in the UK is routinely based on the number of people at a given time who were born abroad, are of working age (16-64 for men, 16-59 for women), and in employment. This question has been answered on this basis.

The attached table gives the number and proportion of UK and non-UK born people of working age in full-time and part-time employment for the three month period ending June each year, from 1998 to 2007. Comparable estimates are not available for 1998 and 2000.

The data for analysing migrant workers comes from the Labour Force Survey. The National Statistics method for estimating the number of migrant workers employed in the UK is based on the number of people at a given time who were born abroad, are of working age (16-64 for men, 16-59 for women), and in employment. This question has been answered on this basis.

When interpreting the figures in the table, it is important to bear in mind that the Labour Force Survey (LFS) is not designed to cover everyone who is present in the UK. The survey may undercount the numbers of people who were born overseas. The reasons are set out in the table footnote.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

*Working age population[1], in full-time and part-time employment and in employment rate[2], by country of birth—United Kingdom, not seasonally adjusted, April-June 1997 to 2007*

*Thousand, except where indicated*

[1] Men aged 16-64 and women aged 16-59

[2] Number of people in employment of working age as a percentage of all persons of working age

[3] Includes those who did not state their country of birth

[4] Includes those who did not state whether they were full-time or part-time it should be noted that the above estimates:
exclude certain people who have been resident in the UK for less than 6 months
exclude students in halls of residence who do not have a UK resident parent
exclude people in most types of communal establishment (eg hotels, boarding houses, hostels, mobile home sites etc)
are grossed to population estimates that only include migrants staying 12 months or more
are grossed to population estimates consistent with those published in spring 2003 which are significantly lower than the latest population estimates as used in the Labour Market Statistics monthly First Release.

*Source:*
ONS Labour Force Survey (LFS)

### Excise Duties: Alcoholic Drinks

**Mr. Ellwood:** To ask the Chancellor of the Exchequer whether he plans to introduce duty increases on alcohol prior to the next Budget statement. [174828]

**Angela Eagle:** Decisions on increases in alcohol duty rates are made by the Chancellor as part of the Budget process.

### Freight: Roads

**Mr. Kidney:** To ask the Chancellor of the Exchequer whether he plans to introduce a cabotage scheme for UK road use by overseas freight operators. [174136]

**Jim Fitzpatrick:** I have been asked to reply.

Cabotage by EU hauliers in the UK is currently allowed under EU law provided operations are conducted on a temporary basis. The Department for Transport published a statement on its website in August 2006 which provides further details.

The Department is currently consulting on a package of three proposed EU road transport Regulations published by the European Commission in May 2007, one of which proposes a new definition of cabotage. The consultation period closes on 29 February 2008. The Consultation Document is available at:

http://www.dft.gov.uk/consultations/open/euroadtransportproposals/.

### Fuel Poverty: Eastern Region

**Mr. Spring:** To ask the Chancellor of the Exchequer how many households in *(a)* Suffolk and *(b)* the East of England region were classified as living in fuel poverty in each of the last five years. [173456]

**Malcolm Wicks:** I have been asked to reply.

Regional estimates of fuel poverty are available only for 2003 and are taken from the Fuel Poverty Indicator dataset, available online at:

http://www.fuelpovertyindicator.org.uk/

This shows that there were approximately 18,000 fuel poor households in Suffolk and 124,000 fuel poor household in the East of England.

### Gift Aid

**Mr. Fabian Hamilton:** To ask the Chancellor of the Exchequer what estimate he has made of the likely effect on levels of revenue from Gift Aid for UK charities arising from changes in the basic rate of income tax. [174505]

**Jane Kennedy:** The precise impact on charities income will depend on the behavioural changes to the recent tax changes of both donors and charities. The strong upward trend in Gift Aid is however expected to result in consistent year-on-year growth in charities' income from Gift Aid, including in the year 2008-09.

### Health in Pregnancy Grant

**Mr. Stephen O'Brien:** To ask the Chancellor of the Exchequer for what reasons benefits in pregnancy are to be provided through the Health in Pregnancy Grant; and if he will make a statement. [174328]

**Jane Kennedy:** The Government are introducing the Health in Pregnancy Grant from April 2009 as a one-off payment to expectant mothers to help them during the important last weeks of pregnancy. It will provide flexible financial support as a one-off payment, and will be payable per pregnancy. This recognizes the additional costs involved during pregnancy and in the run up to birth.

### Job Creation

**Mr. Hayes:** To ask the Chancellor of the Exchequer how many new jobs have been created in the UK since 1997. [174394]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl, dated 17 December 2007:*

The National Statistician has been asked to reply to your Parliamentary Question regarding the number of new jobs created since 1997. I am replying in her absence. (174394)

While statistics of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in employment from year to year.

According to the Labour Force Survey (LFS), employment in the UK, among all those aged 16 and over, has increased by 2.8 million between the second quarter of 1997 and the period August-October 2007, the latest for which figures are available.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

### Life Expectancy

**John Mann:** To ask the Chancellor of the Exchequer what the average UK life expectancy is; and what the average life expectancy is for residents of mining communities. [174654]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician who has been asked to reply.

*Letter from Colin Mowl, dated 17 December 2007:*

The National Statistician has been asked to reply to your recent question asking what the average UK life expectancy is; and what the average life expectancy is on residents of mining communities. I am replying in her absence. (174654)

Period life expectancy at birth[1] in the United Kingdom, for 2004-06[2] (the latest period available), was 77 years for males, and 81 years for females.

Life expectancy figures for residents of mining communities specifically are not available. Period life expectancies at birth for local authorities in England and Wales are published annually by ONS, and are available on the National Statistics website at:

http://www.statistics.gov.uk/statbase/Product.asp?vlnk=8841

[1] Period life expectancy at birth is an estimate of the average number of years a newborn baby would survive if he or she experienced the area's age-specific mortality rates for that time period throughout his or her life. The figure reflects mortality among those living in the area in each time period, rather than mortality among those born in each area. It is not therefore the number of years a baby born in the area in each time period could actually expect to live, both because the death rates of the area are likely to change in the future and because many of those born in the area will live elsewhere for at least some part of their lives.

[2] Three year rolling averages, based on deaths registered in each year and mid-year population estimates.

### Members: Correspondence

**John Penrose:** To ask the Chancellor of the Exchequer when he expects to reply to the letter of 21 August from the hon. Member for Weston-Super-Mare. [171875]

**Jane Kennedy:** I have done so and apologise for the delay in replying to the hon. Member.

**Mr. Salmond:** To ask the Chancellor of the Exchequer when he expects to reply to the letter of 28 August from the right hon. Member for Banff and Buchan on Mrs. Leslie of Peterhead. [174453]

**Kitty Ussher:** My right hon. Friend the Chancellor of the Exchequer has now replied to the hon. Member.

### Mortgages: Repossession Orders

**Mr. Evans:** To ask the Chancellor of the Exchequer (1) how many home repossessions there were in *(a)* Ribble Valley, *(b)* Lancashire and *(c)* England in each of the last five years; [174446]

(2) what discussions he has had with banks on preparation of a safety net to prevent home repossessions. [174447]

**Angela Eagle:** The Government do not hold these figures. The Ministry of Justice publishes figures for the numbers of possession orders made by county courts, which are presented in the following table.

*Number of mortgage possession orders: 2002-2005*

| | 2002 | 2003 | 2004 | 2005 | 2006 |
|---|---|---|---|---|---|
| England and Wales | 41,759 | 41,038 | 46,683 | 70,964 | 90,660 |
| Lancashire | 1,932 | 1,490 | 1,337 | 1,865 | 2,612 |

*Number of landlord possession orders: 2002-2005*

| | 2002 | 2003 | 2004 | 2005 | 2006 |
|---|---|---|---|---|---|
| England and Wales | 1,2155 | 12,0694 | 11,7786 | 11,869 | 10,6968 |
| Lancashire | 3,324 | 2,741 | 2,504 | 2,292 | 1,976 |

The Council of Mortgage Lenders (CML) publishes the total numbers of properties taken into possession, available at:

http://www.cml.org.uk/cml/statistics.

The Government provide assistance for homeowners facing financial difficulties through the provision of face-to-face debt advice. In addition, the Thoresen review is also considering options aimed at giving consumers greater access to generic financial advice, and will publish its final report next year.

The Government also provide targeted financial support available through DWP's Support for Mortgage Interest (SMI).

The Government meet with a wide range of stakeholders, including the mortgage industry, and is in discussion with industry to identify how they can assist those experiencing difficulty.

### Public Expenditure

**Mr. David Hamilton:** To ask the Chancellor of the Exchequer what percentage of economic activity was accounted for by public sector spending in *(a)* the UK, *(b)* Scotland, *(c)* Wales, *(d)* Northern Ireland, *(e)* England and *(f)* each English region in each of the last 10 years for which figures are available. [174148]

**Andy Burnham:** Estimates of gross value added by country and region are published by the ONS. Data are available in the ONS Regional Trends publication. Data on identifiable public spending by country and region are available in the Treasury's Public Expenditure Statistical Analyses (Cm 7091) published in April 2007.

### Public Sector: Manpower

**Mr. David Hamilton:** To ask the Chancellor of the Exchequer what proportion of the population were employed by the public sector in *(a)* the UK, *(b)* Scotland, *(c)* Wales, *(d)* Northern Ireland, *(e)* England and *(f)* each English region in each of the last 10 years for which figures are available. [174146]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 17 December 2007:*

The National Statistician has been asked to reply to your Parliamentary Question about the proportion of the population employed in the public sector in countries and regions of the UK. I am replying in her absence. (174146)

The latest analysis of UK public sector employment by region and country of workplace was included in an article in 'Economic and Labour Market Review' Vol 1 No. 3 March 2007 (pages 17 to 23), a copy of which is available in the House of Commons Library. This is also available via the following link.

http://www.statistics.gov.uk/elmr/03_07/downloads/ELMR_Mar07.pdf

The second part of table 1 on page 22 includes proportions in the form requested from 1999 (the earliest available) to 2006.

### Revenue and Customs: Data Protection

**Daniel Kawczynski:** To ask the Chancellor of the Exchequer on how many occasions HM Revenue and Customs have packaged personal data on disc along with the access passwords for transportation in 2007. [169101]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, chair of PricewaterhouseCoopers.

The full terms of reference for that review are available on the HM Treasury website at:

http://www.hm-treasury.gov.uk/newsroom_and_speeches/press/2007/press_133_07.cfm

### Tax Allowances: Electric Vehicles

**Mr. Oaten:** To ask the Chancellor of the Exchequer if he will allow electronic vehicles transporting goods to be given the same tax relief that businesses are given for electronic cars. [173775]

**Angela Eagle** *[holding answer 13 December 2007]:* All vehicles with zero tail pipe carbon emissions are exempt from VED.

Expenditure on plant and machinery, including electric vehicles for transporting goods, will be eligible for the new annual investment allowance of £50,000 from April 2008. This new allowance will be available to all businesses, but will be of particular benefit to smaller businesses.

Cars, including electric cars, are also plant and machinery, but are subject to special rules. For example, expenditure on cars with low carbon dioxide emissions (below 120 grams per kilometre) currently qualify for a 100 per cent. first year allowance. The Government announced at the PBR that they are currently considering options for the taxation of business cars and there will be further announcements on cars at Budget 2008.

The Government keep all taxes under review.

### Tax Credits: Overpayments

**Danny Alexander:** To ask the Chancellor of the Exchequer whether HM Revenue and Customs repays overpaid money that is recovered from tax credit claimants whose initial complaint was rejected but who later had their case upheld by HM Revenue and Customs, the Adjudicator or the Parliamentary Ombudsman. [173586]

**Jane Kennedy:** If a customer has paid back any part of a tax credits overpayment that is later written off, HM Revenue and Customs will refund that amount or off set it against any other recoverable tax credits debt for the same claim in another year.

**Danny Alexander:** To ask the Chancellor of the Exchequer (1) what the value of tax credit overpayments recovered has been from claimants whose initial complaint was rejected but who have had their case upheld by HM Revenue and Customs, the Adjudicator or the Parliamentary Ombudsman in the last three years; [173587]

(2) how many tax credit claimants from whom overpayments have been recovered after an initial complaint was rejected have later had their case upheld by HM Revenue and Customs, the Adjudicator or the Parliamentary Ombudsman in the last three years. [173588]

**Jane Kennedy:** The information is not available in the format requested.

The independent Adjudicator's annual report for 2007 is available at:

http://www.adjudicatorsoffice.gov.uk/pdf/report2007.pdf

and the Parliamentary Ombudsman published her special report on tax credits on 8 October 2007. It is available at:

http://www.ombudsman.org.uk/pdfs/tax_credits_07.pdf

## Temporary Employment

**Chris Grayling:** To ask the Chancellor of the Exchequer what estimate he has made of the number of *(a)* UK and *(b)* non-UK nationals in temporary work in the UK in each year since 1997. [173917]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Colin Mowl, dated 17 December 2007:*

The National Statistician has been asked to reply to your Parliamentary Question about the number of people of (a) UK and (b) non-UK nationals in temporary work in the UK each year since 1997. I am replying in her absence. (173917)

The data for analysing migrant workers comes from the Labour Force Survey (LFS). The National Statistics method for estimating the number of migrant workers employed in the UK is routinely based on the number of people at a given time who were born abroad, are of working age (16-64 for men, 16-59 for women), and in employment. This question has been answered on this basis.

The attached table gives the number of working age temporary employees for the categories requested for the three month period ending June each year, from 1997 to 2007. Comparable estimates are not available for 1998 and 2000.

The data for analysing migrant workers comes from the Labour Force Survey. The National Statistics method for estimating the number of migrant workers employed in the UK is based on the number of people at a given time who were born abroad, are of working age (16-64 for men, 16-59 for women), and in employment. This question has been answered on this basis.

When interpreting the figures in the table, it is important to bear in mind that the Labour Force Survey (LFS) is not designed to cover everyone who is present in the UK. The survey may undercount the numbers of people who were born overseas. The reasons are set out in the table footnote.

As with any sample survey, estimates from the LFS are subject to a margin of uncertainty.

*People of working age[1] in temporary employment by country of birth, three months ending June, 1997-2007, United Kingdom, not seasonally adjusted*

*Thousand*

| *Temporary employees* | *Total[2]* | *Foreign-born* | *UK-born* |
|---|---|---|---|
| 1997 | 1,664 | 182 | 1,482 |
| 1999 | 1,534 | 182 | 1,352 |
| 2001 | 1,571 | 237 | 1,334 |

ONS Labour Force Survey (LFS)

## Welfare Tax Credits: Yorkshire and Humber

**Mr. Graham Stuart:** To ask the Chancellor of the Exchequer how many and what proportion of working-age adults in each parliamentary constituency in Yorkshire and the Humber were in receipt of tax credits in each of the last five years; and if he will make a statement. [174299]

**Jane Kennedy:** Estimates of the numbers of families with tax credits awards, by constituency, based on final family circumstances and incomes, are available in the HMRC publication "Child and Working Tax Credits. Finalised Awards. Geographical Analysis" for the years 2003-04, 2004-05 and 2005-06. These publications and provisional estimates for the number of families, by constituency, with tax credit awards as at selected dates in 2006-07 are available on the HMRC website at:

http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-geog-stats.htm.

Estimates of child and working tax credit take-up rates for 2003-04 and 2004-05 are available on the HMRC website at http://www.hmrc.gov.uk/stats/personal-tax-credits/cwtc-take-up.htm. Take-up rates for working families with children at country and regional level are shown in table 9. Take-up rate estimates are not available at parliamentary constituency level.

# COMMUNITIES AND LOCAL GOVERNMENT

## Infrastructure Commission: Public Appointments

**Mr. Dai Davies:** To ask the Secretary of State for Communities and Local Government whether she plans to consult her counterpart in the Welsh Assembly Government when appointing the chair and deputy chairs of the Infrastructure Commission as detailed in Schedule 1 of the Planning Bill 2007. [172996]

**John Healey:** The Secretary of State will appoint the chair and deputy chairs of the Infrastructure Planning Commission through an open and transparent appointment process. As we said in the White Paper "Planning for a Sustainable Future" (CM 7120) the Secretary of State will appoint two or three commissioners on the advice of the Welsh Assembly Government, reflecting the role of the commission in determining nationally significant energy infrastructure projects in Wales.

### Casinos

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what external advisers have been contracted to assist the review of super-casinos. [171651]

**John Healey:** I refer the hon. Member to the answer given to the hon. Member for South-West Surrey (Mr. Hunt) on 11 December 2007, *Official Report*, columns 554-55W.

### Coalfields Regeneration Trust: Finance

**John Mann:** To ask the Secretary of State for Communities and Local Government what plans she has to fund the Coalfields Regeneration Trust beyond April 2008. [174650]

**Mr. Iain Wright:** The Coalfields Regeneration Trust's current funding agreement for England continues until March 2008. A recent independent evaluation of the CLG coalfield programmes provided strong evidence of the trust's positive impact on our former coalfield communities. In view of the trust's continued good performance, provision has been made for the continuation of the trust's funding. £52.95 million has been allocated for the three years to March 2011.

### Cohesion Guidance for Funders

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government when she plans to publish the new Cohesion Guidance for Funders referred to in her letter of 6 October 2007 to the Chair of the Commission on Integration and Cohesion. [173928]

**Mr. Dhanda:** The Government will publish Cohesion Guidance for Funders in the new year. We will continue to keep Parliament informed.

### Community Development

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government when her Department plans to provide the new teams to support local areas experiencing particularly rapid change mentioned in her letter of 6 October 2007 to the Chairman of the Commission on Cohesion and Integration; what support these new teams will offer; how many people they will comprise; and what new funding will be provided to these teams. [173943]

**Mr. Dhanda:** The detailed proposals for these teams are currently under development. Following my right hon. Friend's response of 6 October to the Commission on Integration and Commission report, we plan to make a more detailed response in January.

### Council Housing: Debts

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what allowance was made for debt service charges in the housing revenue account subsidy system for each local authority which has incurred council housing debt in each year since 2000. [165545]

**Yvette Cooper:** A table showing the Housing Revenue Account (HRA) subsidy debt service charges element of HRA subsidy for each authority recording debt in its HRA for each year from 2000-01 to 2005-06 (the last year for which we have audited data) has been deposited in the Library of the House.

### Council Tax

**Sarah Teather:** To ask the Secretary of State for Communities and Local Government how many local authorities have been subject to capping since 2000; and what the percentage changes in council tax were that brought in capping measures. [172952]

**John Healey:** No capping action was undertaken between 1999-2000 and 2003-04 inclusive. Since 2004-05, 25 authorities have been subjected to capping action.

For details I refer the hon. Member to the following statements made by previous local government Ministers:

29 April 2004, *Official Report*, columns 1019-21;

23 March 2005, *Official Report*, columns 883-4; and

27 March 2006, *Official Report*, columns 567-9.

### Council Tax: Empty Properties

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether she plans to review or amend the council tax discount on empty homes. [173223]

**John Healey:** The Government announced in their pre-Budget report that they will work with local authorities and other interested parties to assess the effect that the discretionary power to vary the council tax discount on long-term empty properties has had since its introduction in 2004, with the aim of identifying further options for reform in this area if there is evidence that it will improve access to housing.

### Council Tax: Greater London

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what precepts were levied on London council tax bills in 1997-98, other than the London Borough precept, the London Fire precept and the Metropolitan Police/City of London Police precept. [171717]

**John Healey:** I refer the hon. Member to the answer I gave him on 12 December 2007, *Official Report*, columns 539-40W.

**Sarah Teather:** To ask the Secretary of State for Communities and Local Government whether her Department has the power to cap the council tax precept of the Mayor of London; and if she will make a statement. [172954]

**John Healey:** Capping legislation covers the Greater London Authority as well as local authorities, fire authorities and police authorities.

## Domestic Wastes: Waste Disposal

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the level of public satisfaction was with local authority waste collection services in *(a)* England and *(b)* each local waste collection authority in each year for which Best Value Performance Indicator data on these measures have been collated by the Audit Commission. [171578]

**Joan Ruddock:** I have been asked to reply.

DEFRA does not carry out monitoring on public satisfaction with waste services. Under the present local government performance framework, it is the responsibility of local authorities to carry out a satisfaction survey every three years as part of the best value performance indicators. Further information about these indicators is available from the local government performance website at www.bvpi.gov.uk

## Greenbelt

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government which local planning authorities have land in their area with green belt status; and what the average area of green belt land is per local authority. [171572]

**Mr. Iain Wright:** The following table lists local planning authorities in England with green belt status and the extent of green belt land in their area in 2006, the latest year for which data are available.

*Local authority area and extent of green belt land: 2006*

| | | *Extent of green belt land* | |
|---|---|---|---|
| *Local authority* | *Mean high water (Hectares)* | *Hectares* | *Percentage* |
| Amber Valley | 26,538 | 8,620 | 32.48 |
| Ashfield | 10,956 | 4,520 | 41.26 |

*Source:*

Area of LA—2006 Ordinance Survey Boundary line at mean high water. Extent of Green Belt Land—Communities and Local Government Statistical Releases: Green Belt Statistics, England 2006.

### *Mean High Water (MHW)*

Mean high water (MHW) is the average elevation of all high waters recorded at a particular point or station over a considerable period of time, usually 19 years. For shorter periods of observation, corrections are applied to eliminate known variations and reduce the result to the equivalent of a mean 19-year value.

## Home Information Packs

**Mr. Pickles:** To ask the Secretary of State for ~~Communities and Local Government~~ what assessment she has made of the impact of the introduction of home information packs on the residential housing market in the six areas trial. [171582]

**Yvette Cooper:** I refer the hon. Member to my answer of 29 October 2007, *Official Report*, column 655W.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the effect of the introduction of home information packs on the number of properties being placed on the market. [171627]

**Yvette Cooper:** I refer the hon. Member to the written ministerial statement 'Home Information Packs' made on 22 November 2007, *Official Report*, column 140-42WS.

**Lynne Jones:** To ask the Secretary of State for Communities and Local Government pursuant to the written ministerial statement of 22 November 2007, *Official Report*, columns 140-2WS, on home information packs, which 85 local authorities have reduced their charges for average property searches by £30 on average as a result of the introduction of home information packs. [172073]

**Yvette Cooper:** The list of local authorities is as follows:

*LAs that have reduced their property search charges:*

Arun
Ashfield
Ashford
Babergh
Barnsley
Bassetlaw
Birmingham
Bolsover
Brentwood
Brighton
Broadland

**Grant Shapps:** To ask the Secretary of State for Communities and Local Government how many *(a)* domestic energy assessors and *(b)* home information pack inspectors have had their licences revoked. [165775]

**Yvette Cooper:** Domestic energy assessor (DBA) accreditation schemes and home inspector (HI) certification schemes have not reported that they have revoked (permanently withdrawn) the accreditation or certification of any HIs or DEAs.

**Grant Shapps:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the number of home information pack companies which have closed in the last 12 months; and if she will make a statement. [165778]

**Yvette Cooper:** The Department is not aware of any home information pack providers which have closed in the last 12 months.

## Home Information Packs: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government when Europe Economics completed its economic analysis of home information packs; and if she will place in the Library a copy of the final report. [173337]

**Yvette Cooper:** I refer the hon. Member to the written ministerial statement 'Home Information Packs' made on 22 November 2007, *Official Report*, columns 140-42WS.

## Housing

**Mr. Dai Davies:** To ask the Secretary of State for Communities and Local Government what arrangement she plans to put in place to ensure liaison with the *(a)* Welsh Assembly Government and *(b)* Scottish Executive respectively, in cases where housing development on brownfield land acquired by the New English Homes and Communities Agency that immediately adjoins the national borders with Wales or Scotland will have a consequent environmental or planning impact on land in Wales or Scotland. [172995]

**Yvette Cooper:** Should such a situation arise, we would expect the Homes and Communities Agency to consider fully the wider impact of any work it was undertaking and to liaise with the appropriate authorities. We are developing a tasking framework, which will set out our expectations of how the agency will work in practice.

We expect to liaise with colleagues in the Welsh Assembly and Scottish Executive on the arrangements for cases in border areas.

## Housing: Applications

**Dr. Gibson:** To ask the Secretary of State for Communities and Local Government (1) if she will commission research into the quality of assessments of the vulnerability of homeless applicants, housing medical assessments and assessments on disabled facilities grant applications which have been made by private companies; [169433]

(2) if she will issue guidance on the methodology to be adopted by private medical assessors providing homelessness vulnerability assessments, housing medical assessments and assessments for disabled facilities grant applications. [169434]

**Mr. Iain Wright:** It is for individual local authorities to determine how best to make assessments which may require specialist medical advice, and from whom to seek appropriate advice, while ensuring that they meet their statutory obligations. The Government have no current plans to commission research into such assessments or issue guidance on methodology to be adopted.

### Housing: Finance

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government how much the Government spent on housing in each financial year since 1997-98; and of these sums how much was *(a)* spent on council owned housing stock, *(b)* spent through registered social landlords and *(c)* used to support home ownership schemes in each year. [164961]

**Mr. Iain Wright:** The following table shows the overall capital sums invested in housing; investment in council owned housing stock; through registered social landlords and by registered social landlords to support home ownership schemes from 1997-98 to 2006-07. The total is greater than the component parts set out as it includes, for the most part, local authority investment in private sector housing. The balance between the total investment figures provided and the sum of the council and registered social landlords figures relate to grants provided to the private sector such as housing market renewal and disabled facilities grant.

*£ million*

| | *Total CLG capital investment in housing* | *(a) council owned stock* | *(b) registered social landlords* | *(c) Home ownership schemes (included in (b))* |
|---|---|---|---|---|
| 1997-98 | 1,894 | 909 | 727 | 160 |
| 1998-99 | 2,098 | 1,135 | 732 | 115 |
| 1999-2000 | 2,173 | 1,126 | 815 | 79 |
| 2000-01 | 2,866 | 1,959 | 836 | 97 |
| 2001-02 | 3,312 | 2,378 | 823 | 90 |
| 2002-03 | 3,598 | 2,459 | 1,030 | 187 |
| 2003-04 | 4,685 | 2,683 | 1,805 | 498 |
| 2004-05 | 4,767 | 2,772 | 1,626 | 469 |
| 2005-06 | 5,106 | 3,055 | 1,609 | 581 |
| 2006-07 | 5,194 | 2,442 | 1,953 | 443 |

Government investment in council owned housing stock has primarily been provided through the housing revenue account (HRA) subsidy system in the form of local authorities supported capital expenditure (SCE), ALMOs supported borrowing allocations and major repairs allowance (MRA). Other funding also included in the figures are funding through Estate Action and Housing Action Trusts.

Prior to 2006-07, local authorities were provided with SCE for the renewal of private sector housing combined with that for their own stock. In the table therefore the SCE for private sector renewal is included in the council housing column as it cannot be disaggregated until 2006-07.

For registered social landlords the table includes capital expenditure via Housing Corporation which is for new supply and gap funding for stock transfers. Home ownership schemes are a subset of Housing Corporation capital investment.

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government where surpluses accruing nationally from housing revenue accounts have been allocated in each year since 1997; and from which of the departmental budgets national housing revenue accounts have been financed in the same years. [165555]

**Yvette Cooper:** Until 2004-05, the housing revenue account subsidy system contained two distinct elements: the 'bricks and mortar' element where assumed spend and income on local authority housing was used to calculate the authority's entitlement to this element of subsidy and the rent rebate element.

Prior to 1 April 2004, if the bricks and mortar element of HRA subsidy was in surplus, that surplus was applied to the housing benefit bill of the local authority. This practice was discontinued in 2004-05. Any surplus still remaining was transferred to the authority's general fund.

The bricks and mortar element of the HRA subsidy system has been in deficit nationally since 2001-02, when this Government was first able to change the local authority housing spending plans it had inherited from the previous administration.

HRA subsidy expenditure is scored in Communities and Local Government against the 'HRA subsidy programme' budget, which is classified as annually managed expenditure, reflecting the demand led, volatile nature of HRA subsidy entitlement at a national level.

### Housing: Low Incomes

**Dr. Gibson:** To ask the Secretary of State for Communities and Local Government (1) if she will commission research into the accuracy of decisions being made by private companies providing paper-based assessments of the vulnerability of homeless applicants, housing medical assessments and decisions on disabled facilities grant applications; [173763]

(2) if she will issue guidance on the methodology to be adopted by private medical assessors providing paper-based homelessness vulnerability assessments, housing medical assessments and decisions on disabled facilities grant applications. [173765]

**Mr. Iain Wright:** I refer my hon. Friend to the answer I gave today to Questions 169433 and 169434.

### Housing: Solar Power

**Mr. Lancaster:** To ask the Secretary of State for Communities and Local Government when she plans to publish the new planning guidance for the installation of domestic solar panels. [167565]

**Yvette Cooper:** We published on 30 November the Government response to the consultation on permitted development rights for householder microgeneration. The Government have decided that the main types of microgeneration technology, including solar, will be permitted development subject to certain conditions and limits to reduce impacts on neighbours. Our aim is to deliver these changes through amendments to secondary legislation in April of next year.

## Housing: Standards

**Grant Shapps:** To ask the Secretary of State for Communities and Local Government what targets the Government set for house building in each of the last 10 years; how many houses were built in each of the last 10 years; and if she will make a statement. [165777]

**Mr. Iain Wright:** Detailed housing targets are not directly set by government, but are set out in regional and local plans which are developed through regional and local planning processes.

However, Government do set the overall strategy for housing supply in England, and have announced several targets for supply in recent years. For example, the Government's response to the 2005 Barker Review of Housing Supply announced an ambition to increase housing supply from around 150,000 to 200,000 per annum by 2016.

Most recently, the Housing Green Paper, published in July, set out a target to increase housing supply to 240,000 additional homes per annum by 2016.

The number of new homes built in each of the last 10 years is set out in the following table. The information is also published on the Communities and Local Government website:

http://www.communities.gov.uk/documents/housing/xls/323495.

The Housing Green Paper commitment is measured against net additional dwellings (new build plus gains and losses from conversions, change of use and demolitions). The latest figures for 2005-06 show 185,000 net addition dwellings delivered in England.

*Table 209 House building: Permanent dwellings completed, by tenure[1] and country*

## Housing: Valuation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the joint Royal Institute of Chartered Surveyors/Valuation Office Agency guidance note on contractor's basis valuations. [173317]

**John Healey:** The Joint Professional Institutions' Rating Valuation Forum produced the guidance note on the Contractor's Basis. This consisted of the Royal Institution of Chartered Surveyors (RICS), the Institute of Revenues Rating and Valuation, the Rating Surveyors Association, the Scottish Assessors Association, the Valuation and Lands Agency (Northern Ireland) and the Valuation Office Agency. It is published by RICS Business Services Limited, to provide assistance to surveyors in undertaking methods of rating valuation. As such, the hon. Member and the Library of the House should seek to obtain a copy through the RICS.

## Infrastructure Planning Commission: Finance

**Mr. Dai Davies:** To ask the Secretary of State for Communities and Local Government with reference to paragraph (iv) on page 32 of the Impact Assessment of the Planning Bill, what *(a)* factors and *(b)* methodologies were taken into account in calculating the one-off start-up costs of the Infrastructure Planning Commission. [172804]

**John Healey:** The Planning Bill Impact Assessment was compiled using standard cost-benefit methodology. Page 32 of the Impact Assessment states that the one-off start-up costs of the Infrastructure Planning Commission are estimated at £5 million. The factors taken into account include the cost of communications start-up activities, recruitment, organisation-specific IT software, and contingencies.

## Internet: Protection

**James Brokenshire:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effectiveness of the Get Safe On Line campaign. [167120]

**Gillian Merron:** I have been asked to reply.

The Get Safe Online campaign, a joint Government and industry initiative, has had a significant impact on awareness of internet safety. Following the first phase of the campaign in 2005, research of a representative sample of broadband users in the UK revealed that 22 per cent. were aware of the campaign. Of those, 40 per cent. said they would change their behaviour and 75 per cent. of those said they would back-up their files. At the end of 2006, the tracking study was repeated and 25 per cent. had heard of the campaign with 52 per cent. saying they would change their behaviour as a result.

The third Get Safe Online week has just been completed this November and further research will be conducted on the campaigns impact at the end of this year. The Internet Safety Week has achieved over 250 items of media coverage including national television and radio as well as giving internet safety advice directly to people through roadshows in six cities across the UK.

## Licensed Premises

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government which of *(a)* her Department's and *(b)* her Department's agencies' buildings have premises licences under the Licensing Act 2003. [174457]

**Mr. Dhanda:** In relation to Communities and Local Government's premises, a licence is held by the Eland Darts Club which is located in Eland House, Victoria, London. This forms part of the Department's sports and recreation association (SPARTA).

In relation to Communities and Local Government's agencies' premises, a licence is held by Operon for the Fire Service College at Moreton in Marsh, for the provision of bar facilities for delegates attending residential courses. A licence is also held by the Queen Elizabeth II Conference Centre.

## Local Authorities: Publications

**Mr. Stewart Jackson:** To ask the Secretary of State for Communities and Local Government (1) what the total cost was of producing the pamphlet pack entitled Combating Misinformation - Fact Cards for Local Authorities; [172791]

(2) what the distribution list was of the pamphlet pack entitled Combating Misinformation - Fact Cards for Local Authorities; [172788]

(3) how many copies were produced of the pamphlet pack entitled Combating Misinformation - Fact Cards for Local Authorities. [172790]

**John Healey:** The cost of producing 9,000 "Combating Misinformation—Fact Cards for Local Authorities" packs was £4,110. The packs were distributed to: local authorities in England; the Local Government Association; and Government Offices for the English Regions.

## Local Government

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government pursuant to the written statement of 5 December 2007, *Official Report*, column 65WS, on local government, what assessment she has made of the likely effect of restructured councils that cross shire county boundaries on local identities; and of the likely levels of popular support for such councils. [173093]

**John Healey** *[holding answer 11 December 2007]*: It will be for the Boundary Committee to consider these matters to the extent that the Committee judges them to be relevant to their providing the advice requested by the Secretary of State.

## Local Government Finance

**Mr. Sanders:** To ask the Secretary of State for Communities and Local Government how much each unitary local authority received per head in each of the last seven years for which figures are available, in ascending order. [167164]

**John Healey:** I have deposited in the Library of the House tables showing the information on central Government funding per head for each unitary local authority from 2000-01 to 2006-07.

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what the average grant per capita allocated to each unitary authority was in each year since 1997; and if she will make a statement. [170873]

**John Healey:** Information on central Government funding per head allocated to each unitary authority from 1997-98 to 2006-07 is in the following table.

*Central Government funding per head by unitary authority from 1997-98 to 2006-07*

£ per head

| | 1997-98 | 1998-99 | 1999-2000 | 2000-01 | 2001-02 | 2002-03 | 2003-04 | 2004-05 | 2005-06 | 2006-07 |

*Central Government funding per head by unitary authority from 1997-98 to 2006-07*

*£ per head*

| | *1997-98* | *1998-99* | *1999-2000* | *2000-01* | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|---|---|---|---|---|
| Stoke-on-Trent UA | 604 | 661 | 723[1] | 806 | 832 | 933 | 1,061 | 1,111 | 1,195 | 1,249 |
| Swindon UA | 516 | 546 | 579 | 650 | 687 | 713 | 826 | 860 | 932 | 960 |

[1] Not relevant.

*Notes:*

1. Central Government funding is defined here as the sum of formula grant (Revenue support grant and redistributed non-domestic rates) and specific grants inside aggregate external finance (AEF), i.e. revenue grants paid for council's core services. In past years, where applicable the standard spending assessment reduction grant and central support protection grants have also been included.
2. Figures exclude grants outside AEF (i.e. where funding is not for authorities' core services, but is passed to a third party, for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.
3. Population figures used in the calculation are the Office for National Statistics (ONS) mid-year population estimates for respective year.
4. Comparisons across years may not be valid due to changing local authority responsibilities.

Communities and Local Government Revenue Outturn (RO) returns

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what *(a)* resource DEL and *(b)* net aggregate external finance was allocated to local authorities in England in each year from 1997-98; and how much has been budgeted for each year to 2010-11. [173330]

**John Healey:** The following table provides the information requested on net aggregate external finance (AEF); and figures for total AEF. The figures up to 2007-08 are those announced at the time of the annual local government finance settlement. The figures for 2008-09 onwards are those I announced to the House on 6 December 2007 in the provisional local government finance settlement 2008-09. These totals are not adjusted for changes in finance or function and cannot be compared between years.

Total AEF is the total of Government revenue support for local authorities' core services and includes the total of general grant support and specific grants. Net AEF is the amount set aside for revenue support grant and national non-domestic rates.

*£ billion*

| | *Net AEF* | *Total AEF* |
|---|---|---|
| 1997-98 | 30.702 | 35.767 |
| 1998-99 | 32.030 | 37.521 |
| 1999-2000 | 33.514 | 39.545 |
| 2000-01 | 34.836 | 41.771 |
| 2001-02 | 36.259 | 44.661 |
| 2002-03 | 36.557 | 47.393 |
| 2003-04 | 39.874 | 51.551 |
| 2004-05 | 42.010 | 54.860 |
| 2005-06 | 44.726 | 60.144 |
| 2006-07 | 20.943 | 62.127 |
| 2007-08 | 21.663 | 65.794 |
| 2008-09 | 23.409 | 70.408 |
| 2009-10 | 24.051 | 73.484 |
| 2010-11 | 24.672 | 76.671 |

The Department does not keep historical records over time of the amount allocated through resource DEL to local authorities, which will come from a range of departmental expenditure limits. Total AEF is the best measure of the overall amount of revenue grant provided by Government for core local authority services.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what level of local government revenue expenditure was financed by specific grants, in absolute cash terms, in each year since 1997-98. [173335]

**John Healey:** The level of local government revenue expenditure financed by specific grants, in cash terms, in each year since 1997-98 is shown in the following table.

*£ million*

| | *Specific grants* |
|---|---|
| 1997-98 | 1,826 |
| 1998-99 | 2,335 |
| 1999-2000 | 2,921 |
| 2000-01 | 4,671 |
| 2001-02 | 6,552 |
| 2002-03 | 8,901 |
| 2003-04 | 13,447 |
| 2004-05 | 14,090 |
| 2005-06 | 14,785 |
| 2006-07 | 41,771 |

*Notes:*

1. The large change in specific grant in 2006-07 is largely due to changes in the way the expenditure on schools is funded. Local authorities now receive dedicated schools grant, included in specific grants, replacing funding previously included in formula grant.
2. Specific grants are defined as the specific grants inside aggregate external finance (AEF), i.e. revenue grants paid for council's core services.
3. Figures exclude grants outside AEF (i.e. where funding is not for authorities' core services, but is passed to a third party, for example, rent allowances and rebates), capital grants, funding for the local authorities' housing management responsibilities and those grant programmes (such as European funding) where authorities are simply one of the recipients of funding paid towards an area.
4. Comparisons across years may not be valid due to changing local authority responsibilities.

Communities and Local Government Revenue Outturn (RO) returns

### Local Government Finance: Elderly

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government what consideration she gave to the percentage of the population aged over 65 years in *(a)* Staffordshire and *(b)* Tamworth constituency when determining local authority grant allocation; and if she will make a statement. [173075]

**John Healey:** The sub-national population projections of people aged 65 and over are used in the Social Services for Older People Relative Need Formula (RNF) to determine the number of projected household and supported residents aged 65 years and over. A Social Services for Older People RNF is calculated for Staffordshire county council since it is the authority with responsibility for social services within its area.

### Local Government Finance: Immigrants

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government what considerations she gave to the number of immigrants in *(a)* Staffordshire and *(b)* Tamworth constituency when determining local authority grant allocation; and if she will make a statement. [173076]

**John Healey:** For the majority of the Relative Needs Formulae used in the calculation of the Relative Needs Amount, the client group is based on the sub-national population projections for the appropriate age group. The sub-national population projections estimate the number of people who are resident in the area for over a year, including immigrants.

When calculating formula grant allocations, we use the best data that are available, that treat all authorities on a consistent basis and that are available at the time. In the case of the population projections, these are the revised 2004-based sub-national population projections produced by the Office for National Statistics (ONS).

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) what assessment her Department has made of the effect of changes in net immigration on *(a)* council tax and *(b)* local authority funding; [171559]

(2) what estimate she has made of the effect of the change in net migration not accounted for in the Government's initial estimates on council tax bills. [171574]

**John Healey:** The Government worked closely with local authorities during the comprehensive spending review 2007 to identify all pressures over the next three years, and the ways to manage them. The provisional local government finance settlement I announced recently provides local authorities with a total increase in Government grant of £2.7 billion, £3.1 billion and £3.2 billion over the next three years (increases of 4 per cent., 4.4 per cent. and 4.3 per cent. respectively). An additional £4.9 billion is potentially available by 2010-11 through the delivery of 3 per cent. efficiency gains each year. We believe that authorities are able to meet the pressures on their services while keeping average council tax increases substantially below 5 per cent. a year.

Many migrants are, of course, self-sufficient, employed and contribute to the local economy and do not put any significant pressure on public services. However, we recognise that other types of migrants such as unaccompanied minors do create real pressures, as can large movements of people into an area in a short space of time. So we recognise that some individual local authorities are experiencing more challenges than others.

We have therefore already announced a £50 million investment over the next three years to promote community cohesion and support local authorities in preventing and managing community tensions. This money will help local authorities respond to their own particular challenges, including for example issues relating to new migration.

### Local Government Finance: Public Participation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government by whom the decision would be taken to hold a ballot, under her proposals to introduce powers to ballot on local spending decisions. [173228]

**John Healey:** "The Governance of Britain" Green Paper, issued in July, said the Government will consult on introducing powers, for example to local authorities, to ballot a local community on spending decisions. We will consult in the new year on a strategy for Participatory Budgeting, which will cover the use of ballots.

### Local Government Finance: Staffordshire

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government what the local authority grant settlement per capita was in *(a)* Staffordshire and *(b)* Tamworth constituency in each year since 1997; and if she will make a statement. [173077]

**John Healey:** The following table shows the average formula grant per head for *(a)* Staffordshire and *(b)* Tamworth for each year since 1997. Formula grant comprises revenue support grant and redistributed business rates. In order to compare grant on a like-for-like basis we calculate a notional adjusted formula grant for the previous year which reflects the changes to funding and function. From 2006-07 support for schools was financed through the dedicated schools grant; prior to 2006-07 support for schools was included within formula grant.

| | *Staffordshire county council* | | | | *Tamworth borough council* | | | |
|---|---|---|---|---|---|---|---|---|

| Amended 2004-05 | 545.59 | 579.78 | 34.20 | 6.3 | 66.85 | 70.89 | 4.05 | 6.1 |
| Amended 2005-06 | 584.22 | 614.06 | 29.84 | 5.1 | 71.15 | 74.55 | 3.40 | 4.8 |
| 2006-07 | 141.59 | 144.77 | 3.18 | 2.2 | 80.98 | 83.81 | 2.83 | 3.5 |
| 2007-08 | 143.61 | 148.61 | 5.00 | 3.5 | 83.57 | 86.83 | 3.26 | 3.9 |

I announced the provisional settlement for local government for the years 2008-09 to 2010-11 to the House on Thursday 6 December 2007.

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government what consideration she gave to the average household income in *(a)* Staffordshire and *(b)* Tamworth when determining the local authorities' grants allocation; and if she will make a statement. [173516]

**John Healey:** Household income is not a factor that has been shown to influence the relative costs to local authorities of delivering any particular service. However, various measures of deprivation are included within the Relative Needs Formulae, for example the number of income support claimants and the number of people receiving unemployment-related benefits.

## Members: Correspondence

**Sir Michael Spicer:** To ask the Secretary of State for Communities and Local Government pursuant to the letter of 18 September from the Parliamentary Under-Secretary of State (Ref: YC/WR/025283/07), when she expects to reply to the letter from the hon. Member for West Worcestershire of 19 October. [174326]

**Mr. Iain Wright:** I replied to the hon. Member's correspondence on 7 December.

## Non-Domestic Rates: Combined Heat and Power

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether a combined heat and power (CHP) certificate issued by the Secretary of State provides a discount or exemption on the business rates liability of the CHP system. [173333]

**John Healey:** Where, in the case of a combined heat and power station, the Secretary of State has provided a certificate of either full or partial exemption in accordance with paragraph 148(2) or, as the case may be, paragraph 148(3) of schedule 6 to the Finance Act 2000, then certain items of plant and machinery will be disregarded in whole or in part when valuing the station for non-domestic rates.

## Non-Domestic Rates: Valuation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) which property attributes will form part of the Valuation Office Agency's multiple regression analysis in its proposed automated valuation model for business rates; [173224]

(2) how much has been spent by the Valuation Office Agency on an automated valuation model for business rate valuations. [173328]

**John Healey:** The VOA is investigating the use of outputs from the use of multiple regression analysis techniques as a tool to assist valuers when making judgments about appropriate value levels for the next revaluation of non-domestic property in 2010.

The investigation covers office and industrial property and the attributes used within the analysis are location, age of property and floor area. In the course of this investigation the VOA has spent in the region of £155,000 to include the full pay costs of relevant VOA staff.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the rateable value of a business premise changes between statutory revaluations if there is a material change to the property. [173292]

**John Healey:** The rateable value of a business premises, known as a hereditament, may be altered between statutory revaluations if there has been a material change of circumstances. Rate payers may make a proposal to the Valuation Office to alter the rateable value, or Valuation Officers may alter the rateable value of the hereditament as part of their duty to maintain the rating list.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether Ordnance Survey plans to use an automated valuation model for the 2010 business rates revaluation. [173320]

**John Healey:** The Valuation Office Agency (VOA), not Ordnance Survey, is responsible for the 2010 revaluation of non-domestic property.

An AVM is a tool that could support valuers in the valuation process, through the use of multiple regression analysis techniques. The VOA are investigating the use of such a tool.

### Office for Tenants and Social Landlords

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what powers the proposed Office for Tenants and Social Landlords will have over land and properties held by *(a)* local authorities and *(b)* housing associations. [171526]

**Yvette Cooper:** The Housing and Regeneration Bill proposes that the new social housing regulator, the Office for Tenants and Social Landlords, (OFTENANT) should retain the Housing Corporation's current powers to secure land and properties owned by housing associations which are registered providers of social housing under the Bill. These include:

> Clauses 135-149 provide for a moratorium on the disposal of land by a housing association which is a registered provider subject to conditions and exemptions, where the housing association's creditors take steps to enforce their security over the association's land. During the moratorium the regulator can make proposals about the future ownership and management of the housing association's land. The regulator may appoint a manager to implement the proposals.
>
> Clauses 157-159 permit the regulator to transfer land held by a housing association which is a registered provider and which is dissolved or wound-up, to another registered provider or to the regulator.
>
> Clauses 160 to 165 of the Bill provide that any disposal of land by a registered housing association require the regulator's consent unless they fall within an exception. They list those exceptions, and outline the procedure for consent.
>
> Clauses 168-169 give the regulator the Housing Corporation's powers of consent over disposals of grant-aided land held by unregistered housing associations.
>
> Clauses 229-230 allow the regulator to direct a housing association which is a registered provider to transfer its land to another registered provider, or to the regulator, if satisfied following a statutory inquiry that there has been a breach of standards set by the regulator or mismanagement or that management would of the land is likely to be improved by a transfer.

The Housing and Regeneration Bill does not give the regulator any powers over land and properties held by local authorities. We intend that local authorities will be brought within the scope of the new regulator within two years of housing associations being regulated by it, through further primary legislation.

### Regional European Offices: Expenditure

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much funding the Government provides to the North West Brussels Office. [173483]

**Mr. Timms:** I have been asked to reply.

The North West Development Agency provided funds of £61,231 to the North West Brussels Office in 2006-07.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government (1) how much was spent by the North East of England Brussels Office in the last year for which figures are available; [173290]

(2) how much was spent by the South West UK Brussels Office in the last year for which figures are available; [173291]

(3) how much was spent by the East Midlands European Office in the last year for which figures are available; [173294]

(4) how much was spent on the North West Brussels Office in the last year for which figures are available; [173305]

(5) what the expenditure was of the West Midlands in Europe office in the last year for which figures are available. [173310]

**Mr. Timms:** I have been asked to reply.

The following table shows the expenditure of UK regional European offices in the last year (2006-07).

| *UK regional European office* | *Expenditure 2006-07 (£000)* | *Notes* |
|---|---|---|
| West Midlands in Europe Brussels Office | 757 | The income for this office came from a large number of public and private sector subscribers in the West Midlands region |
| East Midlands European Office | 335 | This is not an overseas office focused only in inward investment, but a regional representation office (with wider partnerships, including local government, universities and other public and private sector partners) |
| North East of England Brussels Office | 132 | The office is primarily funded by One North East, The Regional Assembly and Local Learning and Skills Council with a number of associate partners making small subscriptions |
| North West Brussels Office | 113 | This office is jointly staffed and funded by the NW Regional Assembly and Northwest Regional Development Agency |
| South West UK Brussels Office | 385 | This office is a partnership office supported by all first tier local authorities in the South West, the South West RDA, the South West Regional Assembly and HERDA (South West Universities). |

| *UK regional European office* | *Expenditure 2006-07 (£000)* | *Notes* |
|---|---|---|
| Yorkshire Europe | 340 | Yorkshire Europe is the region's representation in Brussels, providing information and intelligence about Europe for Yorkshire and Humber as well as promoting the region within Europe. Yorkshire Europe is solely funded by Yorkshire Forward |

### Regional Government: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the *(a)* function and *(b)* purpose is of the English Regions Network; and whether the Government plans to change its funding to the network following the Sub-National Review. [173312]

**John Healey:** The function and purpose of the English Regions Network is to represent the collective views of regional assemblies, share best practice and facilitate inter-regional networking and to commission work of mutual interest.

My Department is considering future funding of the regional assemblies and the English Regions Network following the recent Comprehensive Spending Review settlement for the Department.

### Regional Government: Ministers

**Mrs. May:** To ask the Secretary of State for Communities and Local Government whether Ministers for *(a)* the North East, *(b)* the North West, *(c)* Yorkshire and the Humber, *(d)* London, *(e)* the South East, *(f)* the South West, *(g)* the East Midlands, *(h)* the West Midlands and *(i)* the East of England have taken decisions relevant to Government policy in relation to their regions [169120]

**Hazel Blears:** Ministers in their Regional Ministers role do not make policy decisions for their regions; they are central Government's advocates in the regions.

All Regional Ministers consulted with stakeholders on the Government draft legislative programme in September and October. In addition a number wrote to interested parties inviting their views. Among those consulted were representatives from local authorities, business, public institutions, voluntary and community sectors, Members of Parliament and Peers, and environmental groups.

Regional Ministers have contributed to the development of Government policy across a range of areas, including economic growth and sustainable development, since their establishment in June.

All Regional Ministers have taken part in a number of high level engagements within their regions, including meetings with local authorities and other organisations, attendance at stakeholder events and visits to local projects and communities.

### Regional Planning and Development

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what requirements there are for a local area agreement to be signed off by *(a)* the Secretary of State and *(b)* the Government Office for the Region; and whether either has a power of veto over a proposed agreement. [173334]

**John Healey:** The statutory requirements for the sign off of local area agreements are to be found at sections 106 and 107 of the Local Government and Public Involvement in Health Act (2007). These provisions require that the responsible local authority must submit the draft LAA to the Secretary of State by the date given in any direction. The Secretary of State may then either approve the draft—from which point it will have effect—or the Secretary of State may require that it be modified.

The Government offices for the regions have no formal role in the submission and sign off process for LAAs, but in practice they will perform an important function during the negotiations. The operational roles for the Secretary of State and Government offices, including those for the sign-off process for the next round of LAAs, were outlined in the operational guidance: Development of the new LAA framework, published on 20 November 2007, a copy of which is on the Communities and Local Government website.

### Regional Planning and Development: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much funding has been provided to each of the regional centres of excellence and regional improvement partnerships. [173377]

**John Healey:** Funding allocations are set out in the following two tables.

*£ million*

| *Regional Centre of Excellence* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|
| East of England | 1.28 | 2.02 | 1.51 |
| East Midlands | 1.15 | 1.60 | 1.00 |
| London | 1.25 | 2.03 | 1.08 |
| North East | 0.94 | 1.55 | 0.81 |
| North West | 1.32 | 1.77 | 1.14 |
| South East | 1.58 | 2.03 | 1.36 |
| South West | 1.24 | 1.69 | 1.07 |
| West Midlands | 1.18 | 1.81 | 1.02 |
| Yorkshire and Humber | 1.06 | 1.79 | 0.91 |

*£ million*

| *Improvement Partnership* | *2005-06* | *2006-07* |
|---|---|---|
| East of England | 2.25 | 1.96 |
| East Midlands | 0 | 2.97 |
| London | 1.75 | 3.52 |
| North East | 1.00 | 2.01 |
| North West | 2.90 | 2.88 |
| South East | 0 | 4.05 |
| South West | 0 | 1.92 |
| West Midlands | 3.95 | 1.03 |
| Yorkshire and Humber | 1.60 | 2.92 |

### Regional Planning and Development: Flood Control

**Mr. Clifton-Brown:** To ask the Secretary of State for Communities and Local Government what consideration has been given to amending *(a)* planning statements, *(b)* local development frameworks and *(c)* regional spatial strategies to prevent houses being built on a flood plain. [172066]

**Mr. Iain Wright:** Planning Policy Statement (PPS)25 was published in December 2006 to provide stronger planning policy on development and flood risk. It aims to locate development away from flood risk whenever possible and avoid inappropriate development in areas at risk of flooding. The PPS requires regional planning bodies and local planning authorities to prepare and implement planning strategies in their regional spatial strategies and local development frameworks that reflect the approach to avoiding and managing flood risk set out in PPS25.

### Second Homes: Gloucestershire

**Mr. Drew:** To ask the Secretary of State for Communities and Local Government how many *(a)* second homes and *(b)* holiday lets in each local authority in Gloucestershire there were in the latest year for which figures are available. [163265]

**Mr. Iain Wright:** The following table shows the number of properties designated as second homes in each local authority in Gloucestershire as at October 2006.

| *Authority* | *Number* |
|---|---|
| Cheltenham | 697 |
| Cotswold | 1,302 |
| Forest of Dean | 346 |
| Gloucester | 128 |
| Stroud | 367 |
| Tewkesbury | 200 |
| Gloucestershire | 3,040 |

The data are from a snapshot taken each year and are as recorded, in council tax base returns submitted annually, by each local authority for formula grant purposes. The information regarding holiday lets is not held centrally and could be collected only at disproportionate cost.

### Sleeping Rough

**Stephen Hesford:** To ask the Secretary of State for Communities and Local Government what recent estimate she has made of the number of people sleeping rough in England; and what steps her Department is taking to get people off the streets and into secure accommodation. [173624]

**Mr. Iain Wright:** The 2007 national rough sleeping estimate shows there are currently 498 people sleeping rough on the streets of England on any one night. This figure represents a 73 per cent. reduction in rough sleeping since 1998.

Communities and Local Government (CLG) is working closely with local authorities and voluntary sector organisations to tackle all forms of homelessness. Local authorities will receive at least £150 million over the next three years to help them prevent and tackle homelessness, including rough sleeping. This is the biggest ever cash injection for homelessness services.

The £70 million Places of Change programme announced by my right hon. Friend the Minister for Housing on 13 November is a new round of funding which has been allocated through the recent Comprehensive Spending Review process. This funding will enable the continuation of our work with the £90 million Hostels Capital Improvement Programme (which runs until March 2008) and will build upon its success in helping rough sleepers move away from the streets permanently through the use of training and skills provision and supported accommodation.

### Social Rented Housing: Rents

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what estimate she has made of the difference between actual housing rents charged and notional rents assumed by each local authority in each year since 1990; and what assessment she has made of the areas of expenditure in which any additional income has been spent. [164716]

**Yvette Cooper:** A table showing the difference between actual rents charged and notional rents assumed by local authority between 2004-05 and 2007-08 has been deposited in the Library of the House. Consistent estimates prior to 2004-05 can be obtained only at disproportionate cost. The figures on actual rents charged are based on unaudited information provided by local authorities.

We do not hold data in a form that would allow us to identify specifically what any additional rental income is spent on by local authorities. However, any extra income will necessarily be spent on the housing revenue account.

### Temporary Accommodation

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government how many households with dependent children are housed in temporary accommodation by their local authority in *(a)* England and *(b)* each region of England. [173883]

**Mr. Iain Wright:** Information reported each quarter by local authorities about their activities under homelessness legislation includes the number of households in temporary accommodation on the last day of the quarter, and of those, the number which contain dependent children and/or an expectant mother. This figure includes those households who have been accepted as owed the main homelessness duty, those for whom inquiries are pending, and those found to be intentionally homeless but who are being accommodated for a reasonable period by the authority.

The total number of households with dependent children and/or an expectant mother in temporary accommodation is available in our quarterly statistical release on Statutory Homelessness (table 6, for the national figure broken down by type of temporary accommodation). This is published on our website and placed in the Library each quarter. The latest release was published on 10 December 2007 and contains data for the period July to September 2007 at:

http://www.communities.gov.uk/housing/housingresearch/housingstatistics/housingstatisticsby/homelessnessstatistics/publicationshomelessness/

Snapshot figures as at 30 September 2007 are shown in the following table, for England, broken down by regions.

*Households with dependent children and/or an expectant mother in temporary accommodation under homelessness provisions of the 1996 Housing Act, snapshot as at 30 September 2007*

| | *Number* |
|---|---|
| England | 62,830 |
| North East | 250 |
| North West | 1,560 |
| Yorkshire and the Humber | 1,190 |
| East Midlands | 1,150 |
| West Midlands | 1,200 |
| East | 3,260 |
| London | 45,140 |
| South East | 5,500 |
| South West | 3,590 |

At the end of September 2007, 92 per cent. of families with dependent children and/or an expectant mother in temporary accommodation were living in self-contained properties with their own front door.

In January 2005, the Government set a target of halving the total number of households in all forms of temporary accommodation used by local authorities to discharge their main duty under the homelessness legislation. The number of families with children in temporary accommodation has fallen by 15 per cent. since September 2005.

### Thames Gateway

**Bob Spink:** To ask the Secretary of State for Communities and Local Government with reference to the answer of 29 October 2007, *Official Report*, column 662W, on Thames Gateway, what proportion of the planned 160,000 homes will not be built on previously developed land in existing urban areas already protected by flood defences of a high standard. [165939]

**Yvette Cooper:** It is planned that at least 80 per cent. of all new homes built in the Thames Gateway will be built on previously developed land. All new developments must be in line with Planning Policy Statement 25, and be supported where necessary by flood risk assessments to ensure that the development is designed and laid out to reduce the consequences of river and surface water flooding.

### Urban Areas: Sustainable Development

**Tony Baldry:** To ask the Secretary of State for Communities and Local Government what account she will take of eco-town submissions in the approval process for the South East Plan; and if she will make a statement. [171215]

**Yvette Cooper:** The Secretary of State is considering the recommendations contained in the report into the regional spatial strategy (RSS) for the south-east (published on 29 August) and expects to publish any proposed changes to the draft regional spatial strategy for consultation in the new year.

### Valuation Office Agency: Consultants

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether there is a *(a)* termination date and *(b)* option to terminate in the contract between Cole Layer Trumble and Capgemini, in relation to the consultancy services that it provides to assist the ongoing work of the Valuation Office Agency. [173287]

**John Healey:** I refer the hon. Member to the answers I gave him on 22 October 2007, *Official Report*, column 74W and to the hon. Member for Beckenham (Mrs. Lait) on 25 July 2007, *Official Report*, column 1156W. The Valuation Office Agency has no direct contractual relationship with Cole Layer Trumble (CLT) and therefore has no obligation to use CLT's consultancy services for any defined period.

### Waste Management: Hampshire

**Mr. Hancock:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the ability of waste authorities in Hampshire to meet the requirements of the European Land Directive on waste facilities. [172135]

**Joan Ruddock:** I have been asked to reply.

I assume the hon. Member is referring to the European Landfill Directive (1999/31/EC) in his question.

No specific assessment has been made by my Department of the ability of the waste authorities in Hampshire to meet requirements on waste facilities in line with the Landfill Directive. Local authorities have no specific requirements in this respect.

Article 5(2) of the directive places requirements on the UK to divert biodegradable municipal waste (BMW) from landfill by target years. In England, the Government have introduced the Landfill Allowances Trading Scheme (LATS) to ensure that our share of these targets are met cost-effectively. LATS places an obligation on waste disposal authorities to landfill only BMW for which allowances are held. Scotland, Wales and Northern Ireland have similar schemes.

Article 5(3) of the directive bans the landfilling of certain classes of waste, (for example liquids and most tyres), while article 6 requires that only waste that has undergone treatment (which includes sorting) may be landfilled.

The remaining provisions of the directive apply principally to the operators of landfill sites and include measures to prevent or reduce potential adverse effects on the environment and risks to human health and for the aftercare and closure of landfill sites. These provisions and others are subject to the need for a permit and are monitored by the Environment Agency, as the regulator for England and Wales.

DEFRA's Waste Implementation Delivery Programme (WIDP) is maintaining a national overview of existing and planned residual treatment capacity to ensure that resources are applied in the most effective manner.

### Yorkshireurope: Expenditure

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much was spent by Yorkshireurope in the last year for which figures are available. [173327]

**Mr. Timms:** I have been asked to reply.

The following table shows the expenditure of UK Regional European Offices in the last year (2006-07).

| *UK regional European offices* | *Expenditure 2006-07 (£000)* | *Notes* |
|---|---|---|
| West Midlands in Europe Brussels Office | 757 | The income for this office came from a large number of public and private sector subscribers in the West Midlands region |
| East Midlands European Office | 335 | This is not an overseas office focused only in inward investment, but a regional representation office (with wider partnerships, including local government, universities and other public and private sector partners). |
| North East of England Brussels Office | 132 | The office is primarily funded by One North East, The Regional Assembly and Local Learning and Skills Council with a number of associate partners making small subscriptions. |
| North West Brussels Office | 113 | This office is jointly staffed and funded by the NW Regional Assembly and Northwest Regional Development Agency. |
| South West UK Brussels Office | 385 | This office is a partnership office supported by all first tier local authorities in the South West, the South West RDA, the South West Regional Assembly and HERDA (South West Universities). |
| Yorkshireurope | 340 | Yorkshireurope is the region's representation in Brussels, providing information and intelligence about Europe for Yorkshire and Humber as well as promoting the region within Europe. Yorkshireurope is solely funded by Yorkshire Forward. |

## TRANSPORT

### A303

**Mr. Laws:** To ask the Secretary of State for Transport what plans she has to upgrade and dual stretches of the A303. [174268]

**Mr. Tom Harris:** Following the recent decision not to proceed with the A303 Improvements Scheme at Stonehenge, the Department for Transport will shortly be discussing with the South West Region the implications of the decision for the wider strategy for improving the A303/A358 corridor to the M5 at Taunton.

**Mrs. Villiers:** To ask the Secretary of State for Transport what her policy is on the improvement of the A303 at Stonehenge; and if she will make a statement. [171861]

**Mr. Tom Harris:** Our policy on the improvement to the A303 at Stonehenge was announced in my oral statement to the House on 6 December 2007, *Official Report*, column 959.

### Aircraft: Noise

**Mr. Boris Johnson:** To ask the Secretary of State for Transport (1) how many people in London live in an area of more than *(a)* 50, *(b)* 52, *(c)* 54, *(d)* 56, *(e)* 58, *(f)* 60, *(g)* 62, *(h)* 63, *(i)* 66, *(j)* 69, *(k)* 70 and *(l)* 72 dBA arising from aircraft noise; [171805]

(2) what estimate she has made of the number of people in London who would live in an area with more than *(a)* 50, *(b)* 52, *(c)* 54, *(d)* 56, *(e)* 58, *(f)* 60, *(g)* 62, *(h)* 63, *(i)* 66, *(j)* 69, *(k)* 70 and *(l)* 72 dBA as a consequence of aircraft noise under each of the Heathrow runway options in (i) 2015, (ii) 2020 and (iii) 2030. [171806]

**Jim Fitzpatrick:** Annual aircraft noise contours are produced for the Department by the Environmental Research and Consultancy Department (ERCD) of the Civil Aviation Authority. These show noise contours from 57dBA to 72dBA in steps of 3dB and provide information on the population within each contour. The latest report is 'Noise Exposure Contours for Heathrow Airport 2006' (ERCD Report 0701). ERCD have confirmed that, for 2006, the population within the 54dBA contour and above, is 609,700.

ERCD have also produced a supporting technical report 'Revised Future Aircraft Noise Exposure Estimates for Heathrow Airport', (ERCD Report 0705), as part of our current consultation 'Adding Capacity at Heathrow Airport'. This predicts future populations within the noise contours (including the 54dBA contour level) for various operating and development scenarios in 2015, 2020 and 2030. All these documents are available on the Department's website at:

www.dft.gov.uk.

**Mrs. Villiers:** To ask the Secretary of State for Transport whether she plans to retain the current cap on night flights past 2012. [170695]

**Jim Fitzpatrick:** The current night flights regime was introduced in October 2006 and lasts to 2012. Decisions on the night regime to apply from 2012 will be subject to a future consultation, however, there is not necessarily a relationship between the capacity of Heathrow airport and the number of night flights.

**Mrs. Villiers:** To ask the Secretary of State for Transport whether she is considering strengthening the system of fines for exceeding aircraft noise quotas. [170696]

**Jim Fitzpatrick:** The Civil Aviation Act 2006 strengthened airport operators' powers to control noise at airports. These powers enable airports to introduce noise control schemes or impose financial penalties on aircraft operators straying from agreed flight paths or exceeding noise limits on departure. We plan to consult airport consultative committees next year as to the extent to which airports have begun to make use of these new powers and keep this issue under review. A number of airport operators have also introduced noise related charging schemes to encourage the use of quieter aircraft.

## Airports: Greater London

**Mrs. Villiers:** To ask the Secretary of State for Transport what assessment she has made of Ferrovial's ability to meet the combined cost of new runways at both Stansted and Heathrow. [170709]

**Jim Fitzpatrick:** At acquisition, BAA's new owners Ferrovial Airport Development and Investment Ltd. (ADI) stated their commitment to deliver the airport capacity proposed in the 2003 Future of Air Transport White Paper, and Ferrovial provided us with assurances of their support for the investment programme.

## Airports: Security

**Mr. Gregory Campbell:** To ask the Secretary of State for Transport if she will make representations to BAA to ensure that security procedures at London's main airports for passengers going to Belfast are identical to those in place for passengers bound for other airports in the UK. [174597]

**Jim Fitzpatrick:** The aviation security measures in place in the UK apply equally to all airports within the National Aviation Security Programme.

## Aviation: Security

**Jo Swinson:** To ask the Secretary of State for Transport if she will take steps to ensure that flights into the UK are compliant with the same security standards as flights from the UK. [173416]

**Jim Fitzpatrick** *[holding answer 11 December 2007]*: International civil aviation operates under the principle of host state responsibility, whereby each state is responsible for the security of air services operated from its territory. States are required as a minimum to deliver the security standards laid down by the International Civil Aviation Organisation and, within the European Union, those mandated by EU aviation security legislation. The Department for Transport engages both multilaterally and, bilaterally to help reinforce aviation security performance in other countries, including in particular those from which there are flights to the UK.

## Bus Services: Concessions

**Mr. Steen:** To ask the Secretary of State for Transport (1) if she will ensure that the Government grant to Torbay Unitary Authority covers the authority's costs arising from the nationwide concessionary bus fare scheme, taking into account the anticipated increase in bus usage during the summer months; [175019]

(2) what the estimated cost to the Torbay Unitary Authority will be of the nationwide concessionary bus fare scheme in 2008-09; what proportion of this will be funded by her Department; and if she will make a statement. [175020]

**Ms Rosie Winterton:** On 6 December the Government announced the provisional allocations for the special grant to fund the costs of the new all-England bus concession commencing in April 2008. The grant allocation distributes £212 million to authorities using a formula based on data about bus patronage, retail floor space, visitors and eligible population.

Torbay's allocation for 2008-09 is £0.982 million. This represents a significant increase on its existing budget for concessionary travel. We are confident that the total being distributed to local authorities is sufficient in aggregate to cover all the costs of the new concession.

The special grant funding is only to meet the additional costs of the new concession. Existing funding for concessionary travel will continue to be distributed through the formula grant system (RSG). This is consistent with the wishes of local government to have freedom and flexibility in how they use their funding. Authorities are free to add local enhancements to the statutory minimum concession at their own discretion. However these enhancements must be funded locally.

## Bus Services: Tickets

**Stephen Hammond:** To ask the Secretary of State for Transport how many local authorities she expects to introduce smart cards or smart card technology for concessionary bus travel on 1 April 2008. [173890]

**Ms Rosie Winterton:** From 1 April 2008 all 291 local authorities outside London who are responsible for administering concessionary travel schemes will be required to issue their passes in smartcard format. We are not requiring smart readers to be installed on all buses in England for April. In areas where there are no smart readers, the passes will simply be shown to the bus drivers as they are now.

The Government are committed to supporting local authorities in delivering the new smartcard pass. We have paid a grant of around £31 million pounds to pay for reasonable new cost burdens associated with issuing passes. We have also put in place a network of mentor authorities to provide additional advice and guidance to transport concessionary authorities (TCAs) and have a dedicated and experienced team within the Department to provide support to TCAs and to monitor their progress.

In addition we have put in place a framework agreement which TCAs can use to produce their smartcards, though they are free to other ITSO compliant smartcard producers if they wish. We have also put in place a number of other framework agreements offering related services, such as smartcard database management and the provision of equipment to allow TCAs to produce passes in-house.

### Buses: Antisocial Behaviour

**Mrs. Villiers:** To ask the Secretary of State for Transport what recent discussions she has had with the Home Secretary on tackling anti-social behaviour on buses. [168686]

**Ms Rosie Winterton:** The Secretary of State has had no recent discussions with the Home Secretary on antisocial behaviour on buses, but work is being taken forward by officials. This is an issue we take seriously. My officials liaise with Home Office officials, among other stakeholders, through the Safer Travel on Buses Panel (STOP) which looks to disseminate good practice to the industry and relevant parties on tackling crime and antisocial behaviour in bus travel.

**Mrs. Villiers:** To ask the Secretary of State for Transport what discussions she has had with *(a)* the Chairman of the Metropolitan Police Authority and *(b)* the Commissioner of the Metropolitan Police about anti-social behaviour on buses. [168687]

**Ms Rosie Winterton:** The Secretary of State has not had recent discussions with either the Chairman of the Metropolitan Police Authority or the Commissioner of the Metropolitan Police about antisocial behaviour on buses. My officials liaise with Metropolitan police, Transport for London, and Home Office officials, among other stakeholders, through the Safer Travel on Buses Panel (STOP) which looks to disseminate good practice to the industry and relevant parties on tackling crime and antisocial behaviour in bus travel.

### Departmental Computers

**Mr. Gauke:** To ask the Secretary of State for Transport how many of her Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168592]

**Jim Fitzpatrick:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published today by the Cabinet Office through a written ministerial statement. I also refer the hon. Member to the statement of 17 December by my right hon. Friend the Secretary of State on measures to improve the security of personal data.

### Departmental Correspondence

**Mr. Hayes:** To ask the Secretary of State for Transport how many items of post sent by her Department and its predecessors were reported missing by the intended recipient in each year since 1997. [171293]

**Jim Fitzpatrick:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review. An interim progress report on the review was published today by the Cabinet Office through a written ministerial statement. I also refer the hon. Member to the statement of 17 December by my right hon. Friend the Secretary of State on measures to improve the security of personal data.

### Departmental Data Protection

**Mrs. Gillan:** To ask the Secretary of State for Transport what categories of information her Department and its agencies hold on individuals; who has access to that information in each case; and how the individuals concerned can ascertain *(a)* by whom and *(b)* for what purposes data held on them has been accessed. [168999]

**Jim Fitzpatrick** *[holding answer 28 November 2007]*: I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review. An interim progress report on the review was published today by the Cabinet Office through a written ministerial statement. I also refer the hon. Member to the statement of 17 December by my right hon. Friend the Secretary of State on measures to improve the security of personal data.

**Mr. Philip Hammond:** To ask the Secretary of State for Transport (1) what reviews have been undertaken of her Department's rules on data protection in the last two years; if she will place in the Library a copy of the report of the last review of her Department's compliance with data protection laws; and if *(a)* her Department and *(b)* her Department's agencies will undertake a review of their compliance with data protection laws; [168074]

(2) on how many occasions in *(a)* her Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures her Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by her Department being sent outside the Department; what changes have been made to her Department's rules and procedures on data protection in the last two years; on how many occasions her Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures her Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in her Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if she will place in the Library a copy of each of her Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168248]

(3) how many employees of each grade in her Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disk; how many of her Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) her Department and (ii) her Department's agencies has spent on data protection training; how many investigations of employees of her Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168283]

**Keith Vaz:** To ask the Secretary of State for Transport what procedures are in place in her Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168462]

**Mr. Walker:** To ask the Secretary of State for Transport whether her Department's information technology and data management systems are BS7799 compliant. [168739]

**Susan Kramer:** To ask the Secretary of State for Transport (1) what mechanisms her Department has in place to ensure that databases containing personal information on members of the general public are not accessed *(a)* by unauthorised staff and *(b)* by authorised staff for unauthorised purposes; [169010]

To ask the Secretary of State for Transport (2) how many requests her Department received in each year since 1997 from the National Audit Office for access to databases containing personal information on members of the general public; [169011]

(3) how many times databases containing personal information on members of the general public held by her Department were accessed in each month in the last five years; [169012]

(4) how many staff have access to electronic databases which contain personal information on members of the general public in her Department, broken down by grade; [169013]

(5) how many security breaches regarding access to personal data there were within her Department in each year since 1997; [169014]

(6) for how many electronic databases containing *(a)* names, *(b)* addresses, *(c)* bank details and *(d)* other personal information of members of the general public her Department is responsible; and in what year each database was set up. [169015]

**Tom Brake:** To ask the Secretary of State for Transport whether she proposes to review how her Department transports data; and whether her Department uses TNT to transport data. [169384]

**Mr. Evans:** To ask the Secretary of State for Transport how many confirmed data security breaches there have been in her Department in the last 36 months; and what action was taken after each occurrence. [170245]

**Mr. Hayes:** To ask the Secretary of State for Transport what steps her Department has taken to protect the personal data on members of the public which it holds. [171423]

**Mr. Vara:** To ask the Secretary of State for Transport (1) on how many occasions the Information Commissioner was contacted by her Department to report breaches of data protection security in each of the last five years; [168825]

(2) how many breaches of data protection security there were in *(a)* her Department and *(b)* her Department's Agencies in each of the last five years; and if she will provide details of each breach. [168842]

**Jim Fitzpatrick:** I refer the right hon. and hon. Members to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published today by the Cabinet Office through a written ministerial statement. I also refer the hon. Members to the statement of 17 December by my right hon. Friend the Secretary of State on measures to improve the security of personal data.

## Departmental Equality

**Philip Davies:** To ask the Secretary of State for Transport how much has been spent by her Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by her Department for this purpose. [173816]

**Jim Fitzpatrick:** The central Department and its agencies have in place equality and diversity teams to ensure compliance with all equality legislation. These teams actively promote equality and diversity in the development of policy and in the treatment of their staff. However, the work of these teams is only a small part of the Department's diversity related activities.

Diversity activity is incorporated within all relevant functions of the Department. These activities meet the joint aims of promoting diversity and seeking to eliminate unlawful discriminatory activity. It is not possible to identify a total spend for promotional activity.

### Departmental ICT

**James Brokenshire:** To ask the Secretary of State for Transport how many attempted hacking or suspected cyber attacks or other malicious computer security breaches were committed against the computer systems of *(a)* her Department and *(b)* the Driver and Vehicle Licensing Agency in each of the last three years for which information is available; and if she will make a statement. [167976]

**Jim Fitzpatrick:** It is not in the interests of the UK's national security for Departments to confirm whether they hold information about attacks against their IT systems. This would enable individuals to deduce how successful the UK is in detecting these attacks and so assist such persons in testing the effectiveness of the UK's IT defences.

### Departmental Manpower

**Mr. Philip Hammond:** To ask the Secretary of State for Transport what the percentage turnover of staff was in *(a)* her Department and *(b)* her Department's agencies in (i) the last 12-month period and (ii) the last 24-month period for which figures are available. [169042]

**Jim Fitzpatrick:** The percentage turnover of staff in the Department for Transport during the last two years for which data are available is as follows:

*Percentage staff turnover in the DFT*

| | Year ending 31 March | |
|---|---|---|
| | 2006 | 2007 |
| Highways Agency | 6.1 | 8.2 |
| Maritime and Coastguard Agency | 11.6 | 10.6 |
| Vehicle and Operator Services Agency | 10.0 | 10.6 |
| Government Car and Despatch Agency | 6.0 | 16.0 |
| Vehicle Certification Agency | 12.0 | 10.0 |
| Driver and Vehicle Licensing Agency | 20.0 | 14.0 |
| Department for Transport (Centre) | 16.0 | 14.0 |

Turnover rates in the Driving Standards Agency (DSA) can be provided only at disproportionate cost.

**Mrs. May:** To ask the Secretary of State for Transport how many *(a)* men and *(b)* women of each civil service grade are employed by her Department. [172732]

**Jim Fitzpatrick:** The current staffing figures for the Department are:

| *Level* | *Male* | *Female* | *Total* |
|---|---|---|---|
| SCS level | 148 | 49 | 197 |
| Grades 6/7 | 905 | 297 | 1202 |
| All other levels | 10,125 | 7,579 | 17,704 |
| Totals | 11,178 | 7,925 | 19,103 |

### Departmental Pay

**David T.C. Davies:** To ask the Secretary of State for Transport how many Departmental employees were paid *(a)* over £60,000 and *(b)* over £100,000 per annum, inclusive of bonuses, in the most recent financial year for which figures are available. [173107]

**Jim Fitzpatrick:** The number of departmental employees and its agencies earning over £60,000 a year is 337. The number of departmental employees and its agencies earning over £100,000 is 44. These results are from the last financial year.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Transport what *(a)* volume and *(b)* percentage of its waste her Department recycled in each of the last five years. [172419]

**Jim Fitzpatrick:** The information requested is in the following table.

| | *Volume recycled (tonnes)* | *Recycled (percentage)* |
|---|---|---|
| 2002-03 | 2,077 | 53.0 |
| 2003-04 | 633 | 35.0 |
| 2004-05 | 3,123 | 69.7 |
| 2005-06 | 3,014 | 70.1 |
| 2006-07 | 2,214 | 57.1 |

**Mr. Hayes:** To ask the Secretary of State for Transport how much and what proportion of its waste her Department recycled in each of the last five years. [174433]

**Jim Fitzpatrick:** I refer the hon. Member to the answer I have given today (UIN 172419).

### Driving Under Influence: Accidents

**Susan Kramer:** To ask the Secretary of State for Transport (1) how many road traffic accidents were caused by *(a)* drink-driving and *(b)* drug-driving in each year since 1997, broken down by police force area; [173984]

(2) how many road accident fatalities was driving under the influence of drugs recorded as a causal or a contributory factor in each of the last five years. [173986]

**Jim Fitzpatrick** *[holding answer 13 December 2007]*: Drink drive estimates are calculated on a national basis. Police force area estimates are not available.

Information on whether or not drivers involved in accidents failed a drugs test is not available. However information is collected on whether or not "impairment by drugs (illicit or medicinal)" was a contributory factor. The contributory factors reflect the reporting officer's opinion at the time of reporting and in the case of "impairment by drugs (illicit or medicinal)" may not necessarily be the result of a drugs test. This information is not available broken down by police force area. This information for Great Britain is shown in the table.

*Reported personal injury road accidents in which "impairment by drugs (illicit or medicinal)" was reported as a contributory factor and the number of resulting fatalities: Great Britain 2005-06*

| | Accidents | Fatalities |
|---|---|---|
| 2005 | 673 | 62 |
| 2006 | 635 | 64 |

This information is not available for years prior to 2005.

**Angus Robertson:** To ask the Secretary of State for Transport how many serious road injuries and fatalities were related to drink-driving in the *(a)* last 12 months and *(b)* each of the last five years. [175044]

**Jim Fitzpatrick:** The information requested is available from table 3a of the 'Drinking and driving' article of 'Road Casualties Great Britain: 2006 annual report'. Copies of the report have been deposited in the Libraries of the House. This table can also be found on the Department's website at the following address:

http://www.dft.gov.uk/172974/173025/221412/221549/227755/285672/Article3DrinkDrivetab1.xls

## DVLA: Data Protection

**Philip Davies:** To ask the Secretary of State for Transport how much was spent by the Driver and Vehicle Licensing Agency on sending out letters of apology to people whose details have been lost in the most recent period for which figures are available. [174345]

**Jim Fitzpatrick:** This information is not routinely kept.

In the most recent exercise, on 7 December, letters of apology were despatched to 1,215 customers who had been part of an accuracy survey within which a mistake had been made by DVLA. The cost of this exercise was £405 in postage and £72 in printing and materials.

## Fisheries: Death

**Bill Wiggin:** To ask the Secretary of State for Transport how many UK fishermen have died at sea in the last 12 months. [171685]

**Jim Fitzpatrick:** The accidental deaths of nine UK fishermen at sea from 1 December 2006 to 30 November 2007 have been reported to the Marine Accident Investigation Branch.

## Heathrow Airport

**Mrs. Villiers:** To ask the Secretary of State for Transport (1) when she expects the *(a)* start and *(b)* completion of the planning process on a third runway at Heathrow; [170710]

(2) what flight caps she would expect to place on the use of a third runway at Heathrow in the period up to 2030. [170715]

**Jim Fitzpatrick:** The Government's current consultation on proposals for the future development of Heathrow airport closes on 27 February. If, following the consultation, policy approval is given for a third runway at Heathrow, it would be for the airport operator to take this forward in the planning system. It would not be appropriate for me to comment on the timing or outcome of the planning process.

**Mrs. Villiers:** To ask the Secretary of State for Transport which data contained in the consultation document Adding Capacity at Heathrow were provided by BAA. [170711]

**Jim Fitzpatrick:** As indicated in the 2003 "Future of Air Transport" White Paper, the Government have worked with BAA and other relevant bodies to examine how local limits on the development of a third runway could be met. The conclusions of this work are presented in the consultation "Adding Capacity at Heathrow" airport which the Government published on 22 November.

As well as the main consultation document, there are 14 supporting documents. The airport operator provided one of these relating to analysis of surface access impacts.

**Susan Kramer:** To ask the Secretary of State for Transport how many households will receive a paper copy of the Heathrow consultation summary in each borough. [170732]

**Jim Fitzpatrick:** Over 200,000 households around the airport were sent a copy of the Heathrow consultation summary and response form. By local authority area the break down is as follows:

| | Number |
|---|---|
| Bracknell Forest | 400 |
| Ealing | 4,600 |
| Hammersmith and Fulham | 22,700 |
| Hillingdon | 10,100 |
| Hounslow | 71,400 |
| Kensington and Chelsea | 300 |
| Richmond upon Thames | 36,900 |
| Runnymede | 8,000 |
| Slough | 17,700 |
| South Bucks | 1,900 |
| Spelthorne | 3,500 |
| Wandsworth | 19,100 |
| Windsor and Maidenhead | 20,500 |

## Heathrow Airport: Air Pollution

**Mrs. Villiers:** To ask the Secretary of State for Transport what steps she plans to take to ensure that NOx emissions from an expanded Heathrow airport are below the limits set by EU law. [170703]

**Jim Fitzpatrick:** Our consultation document "Adding Capacity at Heathrow Airport" sets out our analysis of the local air quality impacts of an expanded airport and indicates how we believe the EU limits could be met. As we say in that document (paragraph 3.186), if any proposals are taken forward to a planning application, it would be for the airport operator to demonstrate that appropriate mechanisms are in place to monitor the situation and regulate activity on the airport in the event of approaching the environmental limits. In the light of legal obligations to meet the air quality limit values, the airport operator, Government and other agencies would need to work together in devising and implementing any necessary mitigation measures.

## Heathrow Airport: Carbon Emissions

**Mr. Boris Johnson:** To ask the Secretary of State for Transport (1) what assessment she has made of the likely effect on *(a)* emissions of all major pollutants and *(b)* noise of (i) the realignment of the M4 spur to the east, (ii) the proposed reconfiguration of local roads and (iii) the A4 passing in a tunnel under the taxiways linking the existing airport to the new runway and terminal as suggested in the consultation on Heathrow expansion; [171795]

(2) what estimate she has made of the number of people who would experience an increase in *(a)* emissions of all major pollutants and *(b)* noise due to (i) the realignment of the M4 spur to the east, (ii) the proposed reconfiguration of local roads and (iii) the A4 passing in a tunnel under the taxiways linking the existing airport to the new runway and terminal as suggested in the consultation on Heathrow expansion. [171796]

**Jim Fitzpatrick:** Estimated emissions and noise effects of future development at Heathrow are set out in the consultation 'Adding Capacity at Heathrow Airport' and the supporting technical reports. Emissions effects are attributed to sources—aircraft, roads and other—and do not separately identify those arising from potential changes in road layouts around the airport. Chapter 7 of the accompanying technical report on 'Surface Access' includes some assessment of noise impacts on surrounding roads under certain options.

## Heathrow Airport: Noise

**Mrs. Villiers:** To ask the Secretary of State for Transport whether she has carried out studies comparing noise insulation schemes at Heathrow with other airports *(a)* in the UK and *(b)* elsewhere in the world. [170699]

**Jim Fitzpatrick:** No studies have been carried out. However the 'Future of Air Transport' White Paper introduced an improved benchmark for providing insulation at all the larger airports including Heathrow. This means that since 2003 airport operators have been expected to:

> Offer households subject to high levels of noise (69dBALeq or more) assistance with the costs of relocating; and
>
> Offer acoustic insulation (as applied to residential properties) to other noise-sensitive buildings, such as schools and hospitals, exposed to medium to high levels of noise (63dBA Leq or more).

In addition, as part of the consultation on the night flying restrictions at Heathrow, Gatwick and Stansted in 2006, the Secretary of State outlined possible criteria for a noise insulation scheme to mitigate for night noise. Following consultation, the Secretary of State decided that the boundary of the scheme should be based on the noise footprint of the noisiest aircraft regularly operating at the airports and the policy should be implemented on a voluntary basis initially.

**Mrs. Villiers:** To ask the Secretary of State for Transport if she will strengthen the obligations on BAA to insulate buildings under Heathrow's flightpaths. [170700]

**Jim Fitzpatrick:** In the White Paper "The Future of Air Transport", we asked UK airport operators to consult on details of voluntary schemes to address 'generalised blight', to offer acoustic insulation to noise sensitive buildings such as schools and hospitals that are exposed to medium-to-high levels of aircraft noise, and to offer home relocation assistance to households subject to high levels of aircraft noise.

BAA has put in place two schemes to mitigate the impacts of blight arising from a proposed third runway at Heathrow, and two schemes to mitigate the impacts of current aircraft noise. The two blight compensation schemes would be triggered at the point BAA decided to apply for planning permission to build a third runway. The two noise compensation schemes are currently active and eligible properties and community buildings have been contacted directly about how the schemes affect them. There are no plans to change these existing voluntary arrangements.

Early next year BAA will go out to public consultation on airport noise action plans, and as part of this process, they will engage with local communities to seek their views on how the effectiveness of existing noise mitigation and compensation schemes can be improved.

## Heathrow Airport: Public Transport

**Mrs. Villiers:** To ask the Secretary of State for Transport (1) what targets she plans to set for the proportion of people using public transport to travel to and from Heathrow airport; [170704]

(2) what sanctions she plans to apply should BAA fail to meet targets set for the proportion of people using public transport to travel to and from Heathrow airport; [170705]

(3) what estimate she has made of the proportion of people travelling to and from Heathrow airport who used public transport to do so in each of the last 10 years. [170706]

**Jim Fitzpatrick:** The Department does not collect annual statistics on the proportion of people accessing Heathrow airport by public transport. However, our recent discussion document "Improving the Air

Passenger Experience" shows that the public transport share of journeys for 1996 and 2006 was around 35 per cent., while the proportion of trips by private car fell from 38 per cent. to 34 per cent. over the period. The same document goes on to describe improvements planned or under consideration, including Crossrail, the AirTrack scheme and enhancements to the Piccadilly line services.

### Heathrow Airport: Roads

**Mrs. Villiers:** To ask the Secretary of State for Transport (1) what decision she has made on road demand management measures *(a)* on the M4 and M25 in relation to Heathrow access and *(b)* in relation to local roads around Heathrow; [170707]

(2) whether she has plans to implement congestion charging along road access routes to Heathrow. [170708]

**Jim Fitzpatrick:** Our consultation "Adding Capacity at Heathrow Airport" and the supporting "Surface Access" technical report describe a range of possible demand management measures, including congestion charging, which were examined in the course of assessing the options for further Heathrow development. No such measures are thought necessary in order to ensure that local air quality limits are met in the vicinity of an expanded airport, if, after consultation, policy approval for airport expansion is confirmed, it would be for the airport operator, as part of a comprehensive transport assessment, to work with the Highways Agency and local authorities to identify the extent of any action to be taken.

### Heathrow Airport: Trade Unions

**Justine Greening:** To ask the Secretary of State for Transport what meetings her Department has had with trade unions in the past three years in relation to expansion of Heathrow, broken down by *(a)* trade union and *(b)* date of meeting; and if she will make a statement. [173210]

**Jim Fitzpatrick** *[holding answer 11 December 2007]*: Ministers and DfT officials have had a number of meetings with unions—on an individual basis or as part of a wider group—in the last three years to discuss a range of issues. I met TUC, T and G, GMB, Amicus, Balpa and Unite on the 22 November 2007 as part of a series of stakeholder briefings that day to launch the Heathrow consultation.

### Heavy Goods Vehicles

**Helen Southworth:** To ask the Secretary of State for Transport what assessment she has made of the safety of longer heavier vehicles (LHVs) on *(a)* motorways and *(b)* other roads in relation to road traffic incidents involving other road users; and what assessment she has made of the effect on safety of left-hand drive LHVs using British roads. [169511]

**Jim Fitzpatrick** *[holding answer 29 November 2007]*: The safety of such vehicles is currently being assessed in a study commissioned in December 2005 by the then Minister of State for Transport, the hon. Member for South Thanet (Dr. Ladyman). The study is due to report shortly, but the Secretary of State has previously made clear that it would take a great deal of persuasion for the Government to allow longer, heavier vehicles in the UK.

### Highways Agency

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what assessment she has made of the compliance of Highways Agency traffic officers with regulations on working time. [173603]

**Mr. Tom Harris:** To date, a centralised method has not been available to monitor the compliance of Highways Agency traffic officers with working time regulations. However, the agency recognises the need to implement a method of assessment which facilitates both local and central monitoring.

As it moves towards implementation of Shared Services with Department for Transport and its other agencies, it is exploring in more detail how an electronic solution might best assist in the management and monitoring of working time. To that end, the agency is to implement a "standard" timesheet across the Traffic Officer Service by February 2008. By implementing the new timesheet the agency will be able to monitor working time in more detail.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what pay comparability studies have been undertaken in respect of traffic officers in the Highways Agency; and what the results have been. [173604]

**Mr. Tom Harris:** In late 2005 the Highways Agency (HA) undertook a pay comparability review of the Traffic Officer Service roles.

The results of the review were largely inconclusive in that, at the time, the roles within the HA were relatively new and many regions were still developing towards full service. As such, it was difficult to identify valid external comparators.

As a result, the HA has recently commissioned a benchmark review against Traffic Officer Service roles, as part of an overall review of reward across the agency.

The results of this work will inform the reward strategy we aim to develop for the period 2008 to 2011.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what plans she has for terms and conditions for new Highways Agency traffic officers. [173605]

**Mr. Tom Harris:** Terms and conditions of employment for Traffic Officers have been subject to on-going development in full consultation with the trade unions since the implementation of the service in 2004.

A dedicated team continues to work closely with the trade unions to ensure terms and conditions of employment remain compliant with best practice.

A comprehensive review of all terms and conditions of employment is in progress and scheduled to conclude in autumn 2008.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what representations the Prospect Union made on behalf of its traffic officer members in this year's pay talks; and what the Highways Agency's response was to each such representation. [173606]

**Mr. Tom Harris:** Representations by Prospect at this year's pay talks have focused on their aim to achieve an award for their members that at least matches RPI inflation, the level of shift allowances, the methodology used to determine pay levels at the inception of the Traffic Officer Service and the pay differential between control room operators (mainly represented by the PCS Union) and on-road Traffic Officers, represented by Prospect.

The Highways Agency has responded that is it obliged to comply with Government policy on civil service pay and has to work within the pay remit approved by HM Treasury. It believes the offer for Prospect members in the Traffic Officer Service is the best that can be achieved within that policy and the approved remit. Higher shift allowances are not achievable except at the expense of the pay award for other Highways Agency employees. The Agency is undertaking a strategic review of its reward package and aims to review the pay and allowances for Traffic Officers as part of that work.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the average overtime in hours worked per month per Highways Agency traffic officer was in the last 12 months. [173607]

**Mr. Tom Harris:** In the last 12 months a total of 48,289 hours overtime has been worked by 1,011 control room operators and on-road Traffic Officers. This equates to around four hours per person per month.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the health and safety arrangements are in respect of traffic officers within the Highways Agency; and what recent assessment she has made of the effectiveness of those arrangements. [173608]

**Mr. Tom Harris:** The design of the Health and Safety arrangements in respect of Traffic Officers is compliant with the requirements of the Health and Safety at Work etc Act 1974, its subordinate legislation, guidance and codes of practice, and the Highways Agency's own Health and Safety Policy. The Traffic Operations Director has recently written to senior managers in the Traffic Officer Service to remind them of their responsibilities in relation to health and safety.

Assessment of adherence is maintained through an internal audit programme which reports to Agency Senior Management.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the average pay increase given to traffic officers in the Highways Agency in each annual pay round since the formation of their grade was; and what the retail price index inflation rate at the end of those pay years was. [173609]

**Mr. Tom Harris:** The information requested is given in the following table for Traffic Officers within the control room (TM1A) and on road Traffic Officers (TM1B):

| | *Percentage* | | *RPI* | |
|---|---|---|---|---|
| *As at August each year* | *TM1A* | *TM1B* | *Month/year* | *Percentage* |
| 2004 | 4.5 | 4.9 | July 2005 | 2.9 |
| 2005 | 3 | 3 | July 2006 | 3.3 |
| 2006 | 3 | 3 | July 2007 | 3.8 |

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the turnover rate of traffic officers in the Highways Agency in each year since the grade was established. [173611]

**Mr. Tom Harris:** The information requested for all traffic officer service posts is given in the table as follows:

| *Grade* | *Staff in post* | *Leavers* | *Turnover rate* |
|---|---|---|---|
| *2004* | | | |
| TM1 A—Traffic Officer Control Room | 21 | 10 | 47.62 |
| TM1 B—Traffic Officer On Road | 80 | 14 | 17.50 |
| TM2—Team Manager | 21 | 0 | 0.00 |
| TM3—Network Operation Manager | 6 | 0 | 0.00 |
| 8N—Operation Manager | 0 | 0 | n/a |
| *2005* | | | |
| TM1A | 147 | 17 | 11.56 |
| TM1B | 515 | 28 | 5.44 |
| TM2 | 161 | 4 | 2.48 |
| TM3 | 28 | 0 | 0.00 |
| 8N | 8 | 0 | 0.00 |
| *2006* | | | |
| TM1A | 231 | 31 | 13.42 |
| TM1B | 925 | 52 | 5.62 |
| TM2 | 215 | 9 | 4.19 |
| TM3 | 34 | 2 | 5.88 |
| 8N | 7 | 0 | 0.00 |
| *2007* | | | |
| TM1A | 313 | 59 | 18.85 |
| TM1B | 927 | 71 | 7.66 |
| TM2 | 220 | 8 | 3.64 |
| TM3 | 35 | 1 | 2.86 |
| 8N | 8 | 2 | 25.00 |

**Mrs. Dunwoody:** To ask the Secretary of State for Transport whether traffic officers within the Highways Agency are asked to give reasons as to why they leave Crown employment. [173612]

**Mr. Tom Harris:** Exit interviews are undertaken for all staff who leave the Agency, including those working in the Traffic Officer Service. These are completed by line managers in a standard format and are submitted to Human Resource Customer Services Division, who check to see if there is any action to be taken on an individual case-by-case basis before filing the form on the individual's file.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the pay *(a)* minimum and *(b)* maximum for the Highway Agency's traffic officers was in each pay year since that grade was established; and what range is proposed for traffic officers in the 2007 pay round. [173615]

**Mr. Tom Harris:** The minimum and maximum for the relevant years are shown in the table. TM1A staff are control room operators and TM1B staff are on-road Traffic Officers. These rates do not include shift allowances, which are paid at 12.5 per cent. or 20 per cent. according to shift pattern.

| | *Grade* | *Minimum* | *Maximum* |
|---|---|---|---|
| 2003-04 | TM1A | 14,000 | 16,842 |
| | TM1B | 15,800 | 20,000 |
| 2004-05 | TM1A | 14,280 | 16,842 |
| | TM1B | 16,171 | 20,000 |
| 2005-06 | TM1A | 15,079 | 17,928 |
| | TM1B | 16,659 | 20,302 |
| 2006-07 | TM1A | 15,923 | 18,466 |
| | TM1B | 17,162 | 20,912 |
| 2007-08 (Proposed) | TM1A | 16,719 | 18,466 |
| | TM1B | 17,248 | 20,912 |

## HM Coastguard: Scotland

**Mr. Moore:** To ask the Secretary of State for Transport for how many hours the east coast of Scotland was without HM Coastguard search and rescue helicopter support in 2007; and if she will make a statement. [173683]

**Jim Fitzpatrick:** The Maritime and Coastguard Agency is not aware of any instances when Coastguard Search and Rescue Helicopter support was unavailable on the east coast of Scotland during 2007.

**Mr. Moore:** To ask the Secretary of State for Transport how many search and rescue helicopters are available to HM Coastguard in Scotland; how many such helicopters would be needed to provide full-time helicopter cover for coastguard services in Scotland; and if she will make a statement. [173684]

**Jim Fitzpatrick:** There are currently a total of eight search and rescue helicopters available to HM Coastguard in Scotland providing full-time coverage for maritime search and rescue.

## Milton Keynes Central Station: Repairs and Maintenance

**Mr. Lancaster:** To ask the Secretary of State for Transport what assessment she has made of the likely effects work being undertaken at Milton Keynes Central train station will have on Milton Keynes commuters when the work is completed. [174580]

**Mr. Tom Harris:** The enlarged Milton Keynes Central station was justified on the basis that the town could be served by an increased frequency of inter city trains linking Milton Keynes with the north and that the commuter services would be able to operate more resiliency on the slow lines. It is also making provision for a possible new service towards Bedford or Oxford. It was not practicable, because of intense line and train occupation to change the decision in the 2003 Strategy for the route to provide new capacity so that peak hour commuter traffic, between Milton Keynes and London, will be handled by the Silverlink (now London Midland) services.

## Motor Vehicles: Testing

**Mr. Roger Williams:** To ask the Secretary of State for Transport what assessment she has made of proposals to move frequency of MOT testing for road vehicles to the EU minimum frequency. [174292]

**Jim Fitzpatrick:** We have made an initial assessment which will be issued for consultation in the new year.

## Motorway Service Areas: Competition

**Mr. Drew:** To ask the Secretary of State for Transport what plans she has to introduce more competition into the operation of motorway service areas. [173800]

**Mr. Tom Harris:** The Highways Agency has recently carried out a public consultation on a proposed new policy for roadside facilities in England.

The proposed policy would allow the private sector, which is responsible for providing services, to bring forward proposals for motorway rest areas as an alternative to the standard motorway service area. A rest area would have some but not all of the facilities normally provided at a service area.

The revised policy should encourage the private sector to think of innovative ways to improve services and increase competition.

Responses to the consultation are now being considered before the new policy is published next year.

## Motorways: Accidents

**Mr. Drew:** To ask the Secretary of State for Transport what estimate she has made of the cost to the public purse of motorway accidents in 2006. [173799]

**Mr. Tom Harris:** The exchequer cost of motorway accidents in Great Britain 2006 is estimated to be £23.9 million in 2006 prices. This estimate is based on the number of injury and non-injury motorway accidents in 2006 and the accident prevention unit values that are used in transport appraisals.

In 2006 there were 164 fatal accidents, 789 serious accidents and 7,426 slight accidents reported on motorways in Great Britain. In addition, there were an estimated 63,680 damage-only accidents on motorways. The exchequer costs include medical, ambulance and police costs.

The accident prevention values are taken from the Department's 'Highways Economic Note No. 1 (HEN1) 2005 Valuation of the Benefits of Prevention of Road Accidents and Casualties' and have been uprated for 2006.

Using the accident values in HEN1, the total cost to society of all motorway accidents in Great Britain in 2006 is estimated to have been £815 million (2006 prices). In addition to the Exchequer costs, this figure also includes estimates of the human costs, based on values that people are willing to pay to reduce pain, grief and suffering, the administrative costs of insurance, damage to vehicles and property and the value of lost output, including non-wage payments.

### National Identity Register

**Mr. Philip Hammond:** To ask the Secretary of State for Transport what plans her Department has to make use of data on the National Identity Register when it is established; and what the estimated cost to her Department of that use is. [174036]

**Jim Fitzpatrick:** The only part of the Department that has plans to use the National Identity Register (NIR), when established, is the Driver and Vehicle Licensing Agency (DVLA).

DVLA has been working for some time with Home Office and Immigration and Passport Service (IPS) to ensure that the new Driver Register system it is currently developing can make best use of the National Identity Register (NIR) when this is established. The new DVLA systems already interact with IPS Passport systems and as the NIR is established the intention would be for DVLA to rely more on the ID verification provided by the new register and avoid the duplication in activities that currently have to take place as DVLA are required to carry out their own verification. This has been reported publicly in the ID scheme business case as the major benefit expected for DVLA. Having designed its new systems with this in mind, changing the interaction from IPS systems into the newer and more robust systems expected for NIR would have only marginal cost for DVLA.

### Passports: Lost Property

**Stewart Hosie:** To ask the Secretary of State for Transport how many passports sent to the Driver and Vehicle Licensing Authority (DVLA) were subsequently reported missing in the last 12 months; and how many owners of passports lost by the DVLA have claimed compensation. [171190]

**Jim Fitzpatrick:** DVLA does not hold information on the number of passports sent but not subsequently received at the agency. In the past year DVLA has paid compensation for the replacement of 217 passports where there have been claims that the agency has lost them and 756 where the Royal Mail has accepted responsibility for their loss. DVLA handles and returns more than 1.5 million identity documents belonging to its customers each year.

### Railways

**Stephen Hesford:** To ask the Secretary of State for Transport what discussions she has had with *(a)* her officials and *(b)* business representatives on the construction of further high-speed rail lines in the UK. [173617]

**Mr. Tom Harris:** The Secretary of State has regular discussions with officials on all aspects of rail policy, including high-speed lines, in the normal course of business. The Secretary of State also has regular discussions with business representatives to discuss a range of transport issues.

### Railways: Electrification

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the likely effect on carbon dioxide emissions of the full electrification of *(a)* the Great Western railway line and *(b)* the Midland mainline; and what estimate she has made of the cost of each. [170751]

**Mr. Tom Harris:** The Railway Safety and Standards Board has published a report which considers the impact of future electrification. The report sets out the discounted costs and the 60 year value of carbon reduction in monetised form related to a number of options for electrification of the Great Western and Midland main lines. The costs are for the construction of the Electrification Infrastructure, excluding the cost of new rolling stock.

*£ million*

| *Line* | *Carbon benefit* | *Cost of electrification* |
|---|---|---|
| Great Western mainline | 66 | 649 |
| Midland mainline | 38 | 301 |

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the likely effect on reliability of the full electrification of *(a)* the Great Western railway line and *(b)* the Midlands Mainline. [170752]

**Mr. Tom Harris:** The Railway Safety and Standards Board has published a report which considers the impact of future electrification. The expected effect on reliability of inter-city routes such as Great Western and Midlands Main line is broadly neutral. The enhanced reliability of electric trains compared with diesels is offset by dependence on the integrity of the catenary system which distributes electricity to the trains.

### Railways: Fares

**Mrs. Villiers:** To ask the Secretary of State for Transport (1) if she will make a statement about rises in rail fares; [163298]

(2) what discussions her officials have had with train operating companies on the effect on fares of increases in franchise premia payments. [163476]

**Mr. Tom Harris:** The Department has had no discussions with train operating companies on the effect on fares of increases in franchise premia payments.

The Government protect commuters by limiting most operators to average increases in regulated fares of no more than 1 per cent. above inflation each year over the life of the franchise. Most saver return tickets (long distance, off-peak fares) are also regulated at the same levels. We have pledged to keep this cap in place for at least the next seven years.

More than half of rail journeys are made on a regulated ticket, and around 80 per cent. of passengers buy either a regulated or discounted ticket. Regulated fares are no higher now in real terms than they were at privatisation.

Unregulated fares are a matter for the train operators, but increases are kept under review by Government.

The Department continues to listen to the representations of train users and has invited Passenger Focus to take a greater role in commenting on the specification of future franchises.

### Railways: Northern Region

**Dr. Pugh:** To ask the Secretary of State for Transport what discussions have taken place with Northern franchise in 2007 on new rolling stock on lines out of Manchester. [173576]

**Mr. Tom Harris:** The Department has held various discussions with Northern Rail during 2007 about the provision of rolling stock new to the franchise. These discussions have centred, firstly, around the procurement by Northern Rail of additional class 158 rolling stock, replacing a number of class 142 units and, secondly, around the publication of the High Level Output Specification and provision of new rolling stock in the period between 2009 and 2014.

In the first instance, deployment of additional rolling stock procured commercially by Northern Rail is a matter for the company and no specific discussions have been held regarding services on lines out of Manchester. In the second instance, discussions have been held at a high level and no decisions have yet been made on deployment of new vehicles between 2009 and 2014.

### Railways: Portsmouth

**Mr. Hancock:** To ask the Secretary of State for Transport what the evidential basis is of the stated need to increase the capacity on the Portsmouth mainline and use high density suburban rolling stock; and if she will make a statement. [172817]

**Mr. Tom Harris:** Network Rail has undertaken a route utilisation strategy for the South West Main Line (March 2006), and this confirmed that there was no capacity for running additional trains in the morning peak period of 07.30 to 09.30.

Stagecoach South Western has therefore addressed the need to accommodate passenger demand within the infrastructure available. While recognising that this may not be met with universal approval, the fact that a 12-car Class 450 ("blue") train can offer an additional 140 seats compared to a 10-car Class 444 ("white") train should mean that fewer passengers need to stand on the Portsmouth line trains particularly for stations closer to London.

### Railways: South East Region

**Mr. Holloway:** To ask the Secretary of State for Transport what assessment she has made of the likely effect on rates of passenger car usage in the region served by the South Eastern rail franchise in 2008 as a result of recent changes to fares under the franchise. [173232]

**Mr. Tom Harris:** An assessment was made prior to the re-letting of the South Eastern franchise. This incorporated value for money testing of each franchise specification option, which included the proposal for inflation plus 3 per cent. on regulated fares. This proposal showed passenger growth in excess of that forecast for the country as a whole in the present White Paper and these estimates formed the basis of what was contractualised in the South Eastern franchise.

So far, South Eastern passenger journeys have increased by 5 per cent. in 2007, the first year of the RPI+3 regime for regulated fares.

The Department continues to listen to the representations of train operators and has invited Passenger Focus to take a greater role in commenting on the specification of future franchises.

### Roads: Accidents

**Mr. Evans:** To ask the Secretary of State for Transport how many road accidents which caused *(a)* injury and *(b)* death there were on roads in (i) Ribble Valley and (ii) Lancashire in each of the last five years, broken down by age and sex of the victims. [174444]

**Jim Fitzpatrick:** The number of reported personal injury road accidents which caused *(a)* injury (serious or slight) and *(b)* death in (i) Ribble Valley and (ii) Lancashire in each of the last five years, broken down by age and gender of the casualty is shown in the tables.

*Ribble Valley*[1]

*Number of accidents*

| | | *2002* | | *2003* | | *2004* | | *2005* | | *2006* | |

[1] Ribble Valley constituency, based on 2004 parliamentary constituency boundaries.

[2] May be less than the sum of the age bands as an accident may involve casualties from more than one age band. Also includes cases where age is missing.

[3] Includes Lancashire county council, Blackburn and Blackpool.

**Mr. Evans:** To ask the Secretary of State for Transport what steps her Department has taken in the last 10 years to reduce road casualties. [174445]

**Jim Fitzpatrick:** In 2000, we published 'Tomorrow's Roads: Safer for Everyone', our road safety strategy to 2010. This contained a wealth of actions to educate road users, improve the road environment and enforce road safety offences. The strategy also contained a commitment to achieve by 2010:

a 40 per cent. reduction in the number of people killed or seriously injured in road accidents;

a 50 per cent. reduction in the number of children killed or seriously injured; and

a 10 per cent. reduction in the slight casualty rate.

A review of the strategy earlier this year found that, while there was a need to improve further in a number of respects, progress against the targets was good:

the number of people killed or seriously injured was 33 per cent. down;

the number of children killed or seriously injured was 52 per cent. down; and

the slight casualty rate was 28 per cent. down.

We expect to consult next year on a strategy for the period from 2010.

**Mr. Evans:** To ask the Secretary of State for Transport how many road accidents there were which resulted in *(a)* injury and *(b)* death on the (i) A59 and (ii) M6 within the borders of Lancashire County Council area in each of the last 10 years; and what the ratio of these figures was to total traffic volume in each year. [174448]

**Jim Fitzpatrick:** The information requested is given in the tables.

*Reported personal injury road accidents which resulted in injury (serious or slight) or death on the A59 and M6 in Lancashire county council, 1997 to 2006*

*Number of accidents*

| | A59 | | M6 | |
|---|---|---|---|---|
| | *Non-fatal injury accidents* | *Fatal accidents* | *Non-fatal injury accidents* | *Fatal accidents* |
| 1997 | 185 | 7 | 245 | 4 |
| 1998 | 163 | 3 | 214 | 6 |
| 1999 | 181 | 4 | 197 | 5 |
| 2000 | 170 | 2 | 165 | 3 |
| 2001 | 185 | 3 | 139 | 4 |
| 2002 | 168 | 2 | 165 | 1 |
| 2003 | 134 | 0 | 155 | 5 |
| 2004 | 162 | 2 | 194 | 3 |
| 2005 | 182 | 7 | 145 | 7 |
| 2006 | 159 | 5 | 154 | 2 |

*Reported personal injury road accidents per 100 million vehicle kilometres which resulted in injury (serious or slight) and death on the A59 or M6 in Lancashire county council, 1997 to 2006*

*Number of accidents per 100 million vehicle kilometres*

| | A59 | | M6 | |
|---|---|---|---|---|
| | *Non-fatal injury accidents* | *Fatal accidents* | *Non-fatal injury accidents* | *Fatal accidents* |
| 1997 | 41.29 | 1.56 | 14.55 | 0.24 |
| 1998 | 36.12 | 0.66 | 12.09 | 0.34 |
| 1999 | 39.81 | 0.88 | 10.23 | 0.26 |
| 2000 | 39.72 | 0.46 | 9.30 | 0.17 |
| 2001 | 42.01 | 0.68 | 7.67 | 0.22 |
| 2002 | 39.15 | 0.47 | 8.59 | 0.05 |
| 2003 | 30.02 | 0.00 | 8.29 | 0.27 |
| 2004 | 34.90 | 0.43 | 9.47 | 0.15 |
| 2005 | 39.02 | 1.50 | 7.08 | 0.34 |
| 2006 | 33.76 | 1.06 | 7.44 | 0.10 |

## Roads: Repairs and Maintenance

**Mrs. Villiers:** To ask the Secretary of State for Transport how many road projects were *(a)* listed, *(b)* completed on time and *(c)* completed on budget in each of the last five Highways Agency business plans. [163228]

**Mr. Tom Harris:** The number of road projects *(a)* listed, *(b)* completed on time and *(c)* completed on budget in each of the last five Highways Agency Business Plans is listed in the following table. This information was previously supplied to the NAO and was used in their report on "Estimating and monitoring the costs of building roads in England" published in March 2007.

| | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|
| *(a)* Number of projects listed in the business plan | 57 | 68 | 91 | 89 | 79 |
| Number of projects planned to complete in year of business plan | 6 | 9 | 7 | 6 | 10 |
| *(b)* Number of projects completed on time | 6 | 8 | 7 | 6 | 10 |
| *(c)* Number of projects completed within ministerially approved budgets | 0 | 3 | 3 | 2 | 3 |
| Number of projects completed within ministerially approved budgets +5 per cent. | 0 | 6 | 4 | 2 | 4 |
| Number of projects completed within ministerially approved budgets +10 per cent. | 0 | 7 | 4 | 2 | 5 |

## Roads: Tolls

**Mr. Drew:** To ask the Secretary of State for Transport what steps she will take to monitor and incentivise local authorities' compliance with the Disability Equality Duty when they develop and implement road user charging schemes. [175416]

**Jim Fitzpatrick:** The Department has published guidance that reminds local authorities of legislation to be taken into account when preparing road pricing schemes. This includes the Disability Discrimination Act 1995 and the Disability Discrimination Act 2005. The Equality and Human Rights Commission has responsibility for enforcing the Disability Equality Duty and they can take legal action against public sector organisations that have not done as they are required.

### Roads: Weymouth

**Mrs. Villiers:** To ask the Secretary of State for Transport what the Government's plans are for the proposed Weymouth relief road; and if she will make a statement. [174381]

**Ms Rosie Winterton:** Dorset county council recently informed the Department that there has been an increase in the cost of the scheme. As a result, it will be necessary to undertake a re-appraisal of the scheme at the higher cost against the Department's value for money criteria. The council is now in the process of preparing an updated business case.

### Rolling Stock

**Mr. Hancock:** To ask the Secretary of State for Transport what the acceptable tolerances are for *(a)* the seat back angle and *(b)* amount of legroom of a railway carriage seat; and what the figures for each are for a seat on a Desiro 450 carriage. [175145]

**Mr. Tom Harris:** There is no specified acceptable tolerances for seat back angle or amount of legroom.

The Department does not hold the specific measurements for different rolling stock.

The seats on a Desiro 450 meet ATOC vehicle standard for vehicle interior crashworthiness (AV/ST 9001).

### Severn Bridge: Tolls

**Mr. Harper:** To ask the Secretary of State for Transport pursuant to the answer of 29 November 2007, *Official Report*, column 605W, on Severn Bridge: Tolls, what the total revenue was from tolls on the Severn Bridges in each year since 1992. [173551]

**Ms Rosie Winterton:** The total revenue received from the Severn Bridges tolls, net of value added tax (VAT), is set out in the following table.

| | *£ million* |
|---|---|
| 1992[1] | [1]21.991 |
| 1993 | 34.366 |
| 1994 | 39.197 |
| 1995 | 43.774 |
| 1996 | 47.155 |
| 1997 | 51.112 |
| 1998 | 55.241 |
| 1999 | 59.832 |
| 2000 | 60.996 |
| 2001 | 66.514 |
| 2002 | 70.544 |
| 2003 | 64.413 |
| 2004 | 66.371 |
| 2005 | 69.499 |
| 2006 | 72.008 |

[1] The amount for 1992 is from the commencement of the Severn Bridges Concession on 26 April 1992.

VAT was applied to the Severn Bridges tolls from the 1 February 2003.

The figure for 2007 is not yet available.

### South West Trains: Rolling Stock

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 3 December 2007, *Official Report*, column 857W, on ports, if she will place in the Library a full copy of the ergonomic study on the Desiro Class 450s rolling stock. [173240]

**Mr. Tom Harris:** South West Trains commissioned an independent ergonomic assessment of the seating design and layout of the Class 450 units.

The report findings are available on the South West Trains website.

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 11 December 2007, *Official Report*, column 431W, who *(a)* commissioned and *(b)* financed the ergonomic study; whether (i) her Department and (ii) passengers were consulted as part of the study; and if she will make a statement. [175144]

**Mr. Tom Harris:** The ergonomic report was commissioned and financed by South West Trains in response to customer feedback with regard to Class 450 seating.

The Department and Passenger Focus were advised that the study was going to be undertaken.

South West Trains advise that no passengers were consulted as part of the ergonomic study.

### Stansted Airport

**Harry Cohen:** To ask the Secretary of State for Transport what the Government's policy is on the proposed development of Stansted airport. [171393]

**Jim Fitzpatrick:** The 2003 "Future of Air Transport" White Paper supported two new runways in the south east by 2030, the first at Stansted. The Government's current consultation "Adding Capacity at Heathrow Airport" is consistent with that policy. The operator of Stansted airport expects to be in a position to submit a planning application around the turn of the year.

### Sustainable Operations

**John McDonnell:** To ask the Secretary of State for Transport whether her Department met the target in the Sustainable Operations on the Government Estate document to reverse the then upward trend in carbon emissions by April 2007. [171979]

**Jim Fitzpatrick:** The Department for Transport reduced its actual energy consumption in 2006-07 by 2,240,528 kWh. However, after the application of the weather correction factor the Department is showing an increase of 1.87 per cent. in terms of carbon emissions.

### Taxis: Disabled

**Jeremy Wright:** To ask the Secretary of State for Transport when she intends to issue guidance on the accessibility of taxis for disabled people. [175076]

**Jim Fitzpatrick:** The Government recognise the vital role that taxis play in the transportation of disabled people and we are committed to delivering more accessible taxis. We need to choose the best way in which to deliver an increased number of taxis that are accessible to people with all types of disability.

Under the Disability Discrimination Act 1995, the Government have powers to regulate in this area. There are, however, advantages and disadvantages associated with regulation and, in light of the Government's better regulation agenda, we are currently re-evaluating all the options, both regulatory and non-regulatory. We will announce our proposals shortly.

In the meantime, we are encouraging taxi licensing authorities to ensure that local policies take account of the needs of all taxi users. The Department issued best practice guidance to local authorities in 2006. Part 3 of the Disability Discrimination Act also now applies to both hackney cabs and private hire vehicles and it gives disabled people a "right of access" to goods, services and facilities.

Taxi drivers now have to take reasonable steps to ensure that disabled people are able to use their vehicles, but they do not have to modify the vehicle itself. The Disability Rights Commission (now superseded by the Equality and Human Rights Commission) issued guidance in 2007 on what may be considered reasonable in relation to disabled people and access to taxis.

### Taxis: Exhaust Emissions

**Mr. Goodwill:** To ask the Secretary of State for Transport what assessment she has made of the durability in service of emission control systems retro-fitted to London licensed Hackney Carriages. [174893]

**Jim Fitzpatrick:** The Energy Saving Trust (EST) carried out durability trials on behalf of the Department for Transport in 2005 and 2006 for taxis retro-fitted with emissions abatement systems. The taxis were subject to a 10,000 mile durability trial followed by a final emissions test. The results of the trial will be made available in the House of Commons Library shortly.

Currently companies can apply to EST to carry out emissions testing on their behalf which are then passed to the Public Carriage Office for approval of the systems. To date 17 such durability trials have taken place.

### Trains: Standards

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 3 December 2007, *Official Report*, column 856W, on trains: standards, what opportunities her Department has given passengers on Desiro Class 450 trains to submit their views on the level of comfort afforded by such rolling stock. [172822]

**Mr. Tom Harris:** Stagecoach South Western has carried out an ergonomic study in response to questions and feedback from a number of customers who remain discontent with the comfort of the new Class 450 rolling stock. The findings of this report have been independently reviewed by Passenger Focus, the passenger representation body and have been made public by SSWT on their website.

### Transport for London

**Mr. Boris Johnson:** To ask the Secretary of State for Transport what the gross *(a)* assets and *(b)* liabilities of Transport for London are; and what they were before Metronet entered into administration. [171787]

**Ms Rosie Winterton:** TfL's audited accounts, including its balance sheet, can be found on the TfL website. TfL provide quarterly financial and operational updates, which can also be found on their website.

**Mr. Boris Johnson:** To ask the Secretary of State for Transport what Transport for London's liabilities net of assets are; what they are expected to be in each year to 2015; and how much of the liability in each year is expected to arise from the administration of Metronet. [171970]

**Ms. Rosie Winterton:** TfL's audited accounts, including its balance sheet, can be found on the TfL website. TfL provide quarterly financial and operational updates, which can also be found on their website.

Future estimates of net liabilities or liabilities associated with Metronet are currently unknown.

## HEALTH

### Ambulance Services: Lancashire

**Mr. Evans:** To ask the Secretary of State for Health (1) what the *(a)* maximum, *(b)* minimum and *(c)* average response time by ambulance crews to emergency call-outs in (i) Ribble Valley constituency and (ii) Lancashire was in each of the last 60 months; [175084]

(2) what his Department's plans are for the future *(a)* numbers and *(b)* mix of (i) solo responder (ii) double crew and (iii) other ambulance crews in the North West Strategic Health Authority area; [175085]

(3) how many ambulance crews have been operated by ambulance trusts within the North West Strategic Health Authority area in each of the last 10 years; [175086]

(4) what the cost was of providing *(a)* solo responder, *(b)* double crew and *(c)* other ambulance services in each of the ambulance trusts within the North West Strategic Health Authority area in each of the last 10 years; [175087]

(5) how many *(a)* solo responder, *(b)* double crew and *(c)* other ambulance services have been operated by ambulance trusts within the North West Strategic Health Authority area in each of the last 10 years. [175088]

**Mr. Bradshaw:** The information is not available in the format requested.

The ambulance response-time data that are collected, and which include the number of emergency calls received by ambulance trusts across England and their performance against the targets set, are published annually. The latest statistical bulletin, "Ambulance Services, England, 2006-07" was published in June 2007, a copy is available in the Library and includes data for the North West Ambulance Service Trust. The data are not collected or reported on below ambulance trust level.

Changing the way we measure response times to emergency calls will save lives. Implementing call connect, where the clock start time is taken from the moment an emergency call is connected to the local ambulance control room, will result in shorter waits for 999 calls to be answered and ambulances dispatched more quickly. The aim is to save lives and improve patient experience as well as ensuring that resources are being used efficiently combined with the necessary investment in technology. One key change is around vehicle deployment, with ambulance trusts implementing a front-loaded model. This is where ambulance trusts may send a single responder rather than double-crewed ambulance to some calls, based on the needs of the patient. This will free up resources for other calls and help to optimise performance.

Fast response vehicles can often get to the scene faster than traditional ambulances. For heart attack patients where every minute counts, this can mean the difference between life and death.

### Ambulance Services: Shropshire

**Daniel Kawczynski:** To ask the Secretary of State for Health what representations he has received from Mr. Anthony Marsh of Shropshire Ambulance Trust on the future of the Shrewsbury Ambulance Control Centre. [165843]

**Mr. Bradshaw:** The Department has not received any representations from Mr. Anthony Marsh, chief executive of the West Midlands Ambulance Service NHS Trust, on the future of the Shrewsbury Ambulance Control Centre.

### Autism: Children

**Mr. Harper:** To ask the Secretary of State for Health what estimate he has made of the number of *(a)* children under 16, *(b)* young people aged 16 to 24 and *(c)* people over 24 with autism. [173545]

**Mr. Ivan Lewis:** According to the Office for National Statistics Publication, 'Mental Health of Children and Young People in Great Britain, 2004' the percentage of children with Autistic Spectrum Disorder aged between five and 10 years old in 2004 in Great Britain was 1 per cent., and for 11 to 16-year-olds was 0.8 per cent. A copy of this is available in the Library.

Corresponding information for people over 16 years old is not available.

### Breast and Ovarian Cancer: Screening

**Miss McIntosh:** To ask the Secretary of State for Health what assessment he has made of regional variations in waiting periods for screening for *(a)* breast cancer and *(b)* ovarian cancer. [171701]

**Ann Keen:** There is no screening programme for ovarian cancer. For variations in breast screening waiting periods I refer the hon. Member to the answer given on 22 May 2007, *Official Report*, column 1229W.

**Miss McIntosh:** To ask the Secretary of State for Health how many hospital trusts *(a)* met and *(b)* did not meet the screening targets for (i) breast cancer and (ii) ovarian cancer in the latest period for which figures are available; and what assessment he has made of the factors impeding those trusts which did not meet the target. [171702]

**Ann Keen:** Information has been placed in the Library, which lists coverage rates for all local breast screening services in England. Coverage is the proportion of women resident and eligible with a recorded screening result at least once in the previous three years. The national aspirational standard for breast screening coverage is 75 per cent.

There are many factors that can affect coverage. These include population mobility in London and other large inner city areas, deprivation, affluence (private health care) and ethnicity. It is for strategic health authorities working in partnership with their primary care trusts, local breast screening services and stakeholders to provide appropriate breast screening services for their local populations.

There is no national screening programme for ovarian cancer.

### Brent Teaching Primary Care Trust: Finance

**Sarah Teather:** To ask the Secretary of State for Health if he will make a statement on the financial position of Brent teaching primary care trust. [169301]

**Mr. Bradshaw:** At the end of quarter two of 2007-08, Brent teaching primary care trust is forecasting a financial year-end deficit of £4 million.

### Broadmoor Hospital: Death

**Mr. Lidington:** To ask the Secretary of State for Health how many deaths in custody have occurred at Broadmoor hospital in each year since 1997. [170344]

**Mr. Ivan Lewis:** This information is not held centrally. However, to improve consistency in reporting incidents by the high secure hospitals, a new national reporting policy which includes information on assaults was introduced in January 2007, and this information is reviewed regularly by a dedicated performance manager for each hospital.

### Cancer: Finance

**Mr. Jamie Reed:** To ask the Secretary of State for Health if he will use the £370 million planned expenditure under the NHS Cancer Reform Strategy to provide additional funding to those primary care trusts where incidences of cancer are highest. [171908]

**Ann Keen:** The revenue component of the £370 million will be included in primary care trust allocations. The allocation formula takes account of the variation in need for hospital services across the country.

The capital funding for improvements to cancer services is included within the total capital funding available to the national health service. The detail of how this investment will be delivered will be agreed as part of the NHS capital planning process.

### Care Homes: Dementia

**Mr. Hancock:** To ask the Secretary of State for Health (1) what recent assessment he has made of the level of *(a)* training available and *(b)* skills required of care home staff dealing with people with dementia; [172308]

(2) if he will make it mandatory for care home staff to receive training in dementia care. [172309]

**Mr. Ivan Lewis:** The National Dementia Strategy will focus on three key themes: improving awareness and understanding, early diagnosis and intervention and improving the quality of care.

The third theme, improving the quality of care, will ensure that people with dementia receive good quality care from diagnosis to end of life, whether that care is provided in the community, in general hospitals or in care homes. Under this theme, training issues will be addressed and the Department will work with the royal colleges and professional bodies to ensure there is appropriate training on dementia in undergraduate and postgraduate training in both health and social care courses.

National occupational standards set out the skills, knowledge and values required by social care workers and are used to benchmark national vocational qualifications. Joint health and social care national occupational standards contain specific standards on providing individualised care, appropriate communication, activities, medication management, supporting family and other carers and gaining specialist support from other services, this includes people with dementia. The standards are set out on the Skills for Care and Skills for Health websites.

www.skillsforcare.org.uk

www.skillsforhealth.org.uk

It is the responsibility of social care service providers to ensure that their care home staff have the relevant National Vocation Qualifications (NVQs) and are adequately trained to carry out the duties they are employed to do. The knowledge set for NVQs is job specific and care home workers who are working with dementia on a regular basis should be taught the dementia knowledge set as part of their dementia training.

### Care Homes: Inspections

**Mr. Willis:** To ask the Secretary of State for Health if he will make it his policy to introduce routine inspections of care homes by pharmacists, with particular reference to levels of sedation of elderly patients; and if he will make a statement. [173200]

**Mr. Ivan Lewis** *[holding answer 11 December 2007]*: It is the policy of the Commission for Social Care Inspection (CSCI) to take a proportionate approach to inspection. CSCI's professional guidance for inspectors, 'Referring medication issues to a CSCI pharmacist inspector', sets out a targeted referral pathway whereby CSCI's generic inspectors will consult with regionally-based lead pharmacist inspectors wherever there is a concern about inappropriate handling of medication.

In those cases where there would appear to be misuse of medication for sedation, an inspector would consult with the regional pharmacist inspection teams. Where there are serious concerns, a targeted inspection of a service could then be carried out by a pharmacist inspector. Pharmacist inspectors are also made available to generic inspectors to give advice and guidance on medication issues and are copied into regulation 37 (of the Care Homes Regulations 2001) cases, which relate to serious medication issues.

CSCI is aware of the dangers around misuse of medication and pharmacist inspectors routinely inspect controlled drugs in all of the services they visit. Pharmacist inspectors refer relevant information about controlled drugs to accountable officers in primary care trusts, who are part of the local intelligence networks set up following the Government's response to the Shipman inquiry. CSCI is also piloting a project in its south-west region for random inspections of services that stated on their annual quality assurance assessments that they have looked after schedule 2 controlled drugs in the past 12 months.

### Carers

**Mr. Harper:** To ask the Secretary of State for Health pursuant to the answer of 21 November 2007, *Official Report*, column 665W, what information regarding *(a)* providers and *(b)* receivers of unpaid care is collected (i) centrally and (ii) by local authorities. [173554]

**Mr. Ivan Lewis:** Data on carers are collected centrally through the census. In 2001 the census showed that in England and Wales, there were 5.2 million carers, one in 10 of the population. Data on the number of people being cared for are not held centrally.

It is for local authorities to collect data on the number of carers and those needing care in order to inform service provision. It is the responsibility of local health and social care organisations to prioritise and allocate funding for support and services for carers based and disabled people on their assessment of the needs of their local populations.

### Compulsorily Detained Mental Patients: Death

**Jeremy Corbyn:** To ask the Secretary of State for Health how many people detained under the Mental Health Act have died in NHS mental health accommodation from *(a)* natural and *(b)* non-natural causes in each of the last five years. [173876]

**Mr. Ivan Lewis:** The Mental Health Act Commission asks trusts to supply information on those cases where someone dies who is detained under the Mental Health

Act. Their information on the total number of in-patient deaths, broken down into natural and unnatural, in national health service mental health accommodation in England from 2002 to 2006 is shown in the following table.

| | *Unnatural* | *Natural* | *Total* |
|---|---|---|---|
| 2002[1] | 72 | 291 | 363 |
| 2003[1] | 74 | 222 | 296 |
| 2004 | 69 | 226 | 296 |
| 2005 | [illegible] | 245 | 321 |
| 2006 | 81 | 295 | 374 |

[1] Includes Wales.

The Mental Health Act Commission

## Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Health on how many occasions he has accepted corporate hospitality in the last 12 months. [171299]

**Mr. Bradshaw:** Chapter 7 of the "Ministerial Code" sets out the rules on the registration of hospitality.

## Dental Health

**Sir Paul Beresford:** To ask the Secretary of State for Health what assessment his Department has made of the effectiveness of the information provided by the adult dental health survey in assessing dental health. [174212]

**Ann Keen:** The adult dental health survey provides a picture of the nation's dental health. Successive surveys provide important information on changes in the oral health of the adult population over time. A number of areas also carry out more detailed local oral health assessments to inform their service provision. All primary care trusts are encouraged under the new dental system to include a local oral health needs assessment as part of their overall commissioning plans.

## Dental Services

**Sir Paul Beresford:** To ask the Secretary of State for Health what assessment his Department has made of the effect of the new general dental services contract upon *(a)* access to care, *(b)* quality of care, *(c)* the level of oral health and *(d)* the quality of the patient experience. [173780]

**Ann Keen** *[holding answer 13 December 2007]:* The Department has assessed the impact of the first year of the dental reforms in the report "NHS Dental Reforms: One year on". This report, published on 7 August 2007, is available in the Library. It is also available online at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_077238

The report set out how the first year of the dental reforms helped lay much more secure foundations for dental services. The report also set out how primary care trusts are already using their new responsibilities for commissioning dental services to improve access, quality, patient experience, oral health outcomes and value for money and how the Department is working with the national health service and other stakeholders to support further progress in all these areas.

**Sir Paul Beresford:** To ask the Secretary of State for Health what assessment he has made of the effect of the abolition of patient registration on *(a)* access to NHS dental services and *(b)* continuity of dental care. [174211]

**Ann Keen:** The measure used by the Department to monitor access to national health service dental services is the number of people who receive care or treatment from NHS primary dental care services at least once in a two year period. Information for the latest 24 month period for which figures are available, 1 July 2005—30 June 2007, show access within 99 per cent. of the level seen in the last 24 month period before the reforms, the period ending 31 March 2006. Given 3.6 per cent. of existing activity had to be re-commissioned at the start of the new system, with a resulting temporary loss of access for some 900,000 patients these figures suggest the abolition of registration has, as expected, had no adverse effect on access to services.

The latest information for the 24 months ending 30 June 2007 can be found in table Cl, Annex 3 of the "NHS Dental Statistics for England Quarter 1:30 June 2007" report.

A copy is available in the Library, and can also be found at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-statistics-ql-2007-08

We have had no reports of an adverse effect of the abolition of registration as part of the national remuneration system and we have no reason to expect this. Registration as a central requirement was only introduced in 1990. Before then dentists held their own patient lists and there is no reason not to expect them to continue to do so.

**Sir Paul Beresford:** To ask the Secretary of State for Health how his Department defines access to NHS dental services. [174214]

**Ann Keen:** The measure used by the Department to monitor access to national health service dental services is the number of people who receive care or treatment from NHS primary dental care services at least once in a two year period. The National Institute for Health and Clinical Excellence (NICE) recommends that adults attend the dentist at least once every two years. It is for primary care trusts (PCTs) in England to assess local needs for NHS dental services and to commission or provide services in ways that meet these needs.

The number of patients seen in the most recent 24 month period is published regularly by the Information Centre for health and social care. The latest information for the 24 months ending 30 June 2007 can be found in table Cl, Annex 3 of the "NHS Dental Statistics for England Quarter 1: 30 June 2007" report.

A copy is available in the Library, and can also be found at:

www.ic.nhs.uk/statistics-and-data-collections/primary-care/dentistry/nhs-dental-statistics-q1-2007-08

**Sir Paul Beresford:** To ask the Secretary of State for Health what indicators his Department recommends primary care trusts use, in addition to units of dental activity, to assess *(a)* levels of (i) access, (ii) oral health and (iii) quality of service and *(b)* the patient experience provided. [174215]

**Ann Keen:** The Department expects primary care trusts (PCTs) to assess level of access to local dental services on the number of patients receiving care or treatment from a national health service dentist in the previous 24 month period as set out in the NHS Operating Framework. PCTs have responsibility for commissioning dental services to meet local need. This includes ensuring services are of robust quality and address local oral health needs. Guidance has been issued to PCTs setting out the additional range of indicators they may wish to include when looking at provision of local dental services.

## Dental Services: Children

**Sir Paul Beresford:** To ask the Secretary of State for Health how many five-year-olds were given a general anaesthetic for dental treatment in England in each of the last five years. [173778]

**Ann Keen** *[holding answer 13 December 2007]:* This information is not held centrally. Dental treatment under general anaesthesia may only take place in a hospital setting that has a critical-care facility. Hospital Episode Statistics show the dental procedure carried out but not whether a general anaesthetic was administered.

**Sir Paul Beresford:** To ask the Secretary of State for Health how many children aged *(a)* 12 and *(b)* five years had decayed, missing and filled teeth in England in each of the last five years. [173779]

**Ann Keen** *[holding answer 13 December 2007]:* National health service dental health surveys of five-year-old and 12-year-old children are normally conducted every other year and the information available centrally is provided in the following table.

| | *Percentage* |
|---|---|
| | *Decayed, missing and filled teeth (dmft)* |
| *Five years* | |
| 2005-06 | 38 |
| 2003-04 | 38.7 |
| 2001-02 | 38.8 |
| 1999-2000 | 38.3 |
| *12 years* | |
| 2004-05 | 30.4 |
| 2000-01 | 37 |
| 1996-97 | 40.76 |

*Source:*
The figures are taken from the British Association for the Study of Community Dentistry Survey Reports.

## Departmental Board

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, if he will place in the Library a copy of the report referred to in paragraph 6.1 of the minutes of the meeting held in January 2007. [172440]

**Mr. Bradshaw:** The report "Explaining NHS Deficits, 2003/04-2005/06" was published on 20 February and is available in the Library.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, if he will place in the Library all papers, including the agenda and minutes, for the meeting referred to in paragraph 1.4 of the minutes of the meeting of his Departmental Board in January 2007. [172441]

**Mr. Bradshaw:** No papers were prepared for this meeting, which was an oral briefing event for staff in the Department.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, what the outcomes of the leak inquiries referred to in paragraph 1.3 of the minutes of the meeting held in January 2007 were. [172442]

**Mr. Bradshaw:** It has been the practice of successive governments not to comment on the subject or outcome of leak inquiries as there is a continued necessity to safeguard security and investigative arrangements.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, what issues were put to Ministers as areas where his Department might increase its focus, following the discussion referred to in paragraph 3.1 of the minutes of the meeting held in June 2007. [172444]

**Mr. Bradshaw:** This work was subsumed into wider briefing covering the full range of issues facing the new ministerial team at the end of June 2007.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W on the Departmental Board, what the outcome of the work programme to assess the fitness for purpose of his Department's capital regime was; and what reports or other papers were produced as part of this work programme. [172446]

**Mr. Bradshaw:** This work is being taken forward as part of the national health service next stage review.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 29 November 2007, *Official Report*, column 711W, on the Departmental Board, what communications were issued to NHS staff in response to the decision noted in paragraph 2.2 of the meeting held in February. [172447]

**Mr. Bradshaw:** This message was incorporated into a range of regular communications and speeches, including the national health service chief executive's regular bulletins.

### Departmental Computers

**Mr. Gauke:** To ask the Secretary of State for Health how many of his Department's *(a)* computers and *(b)* laptops have been stolen in 2007; and what the value of those items was. [168590]

**Mr. Bradshaw:** The Department does not differentiate between lost or stolen equipment therefore the figures quoted include both categories.

The number of computers lost or stolen between 1 January 2007 and 23 November 2007 is none.

The number of laptops lost or stolen between 1 January 2007 and 23 November 2007 is 15. The value of the lost or stolen laptops is estimated to be £15,175.44 with individual laptops ranging in value from £1,003.09 to £1,088.84.

### Departmental Consultants

**Mr. Lansley:** To ask the Secretary of State for Health if he will break down the £141 million his Department spent on consultants in 2006-07, by consultancy company. [167835]

**Mr. Bradshaw:** The Department does not collect information in the format requested. To do so would attract disproportionate cost.

A new system will be introduced in April 2008 called SHOWA, which will be able to gather such information for the Department.

**Mike Penning:** To ask the Secretary of State for Health how many management and other consultants are employed by his Department. [170616]

**Mr. Bradshaw:** As at the end of September 2007, there were 165 consultants funded within the Department's administrative budget.

Outside the Department's administrative budget, programme or Vote 1 funding was used to pay for consultants and contractors. As at end of September 2007 we had some 427 consultants and contractors on such funding working on implementation of front line service delivery.

| *Title* | *Budget* | *Number* |
|---|---|---|
| Consultants / contractors | Administrative | 165 |
| Consultants / contractors | Programme | 427 |
| Total | — | 592 |

### Departmental Data Protection

**Mr. Evans:** To ask the Secretary of State for Health how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [170252]

**Mr. Bradshaw:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Information Officers

**Mike Penning:** To ask the Secretary of State for Health how many press officers are employed by *(a)* his Department and *(b)* the NHS. [170858]

**Mr. Bradshaw:** The number of press officers employed by the Department at the end of the financial year 2006-07 was 34.

The Department does not hold information on the number of press officers employed by the 361 individual organisations that together make up the national health service.

### Departmental Labour Turnover

**Mr. Philip Hammond:** To ask the Secretary of State for Health what the percentage turnover of staff was in *(a)* his Department and *(b)* his Department's agencies in (i) the last 12-month period and (ii) the last 24-month period for which figures are available. [169036]

**Mr. Bradshaw:** For the 12 months to 30 September 2007, turnover in the Department was 12 per cent. For the 12 months to 30 September 2006, the corresponding figure was 16 per cent. These figures cover all turnover categories, and in particular civil servants whose temporary contracts finished, those whose work transferred to other organisations and those who left under voluntary retirement and severance schemes.

For the 12 months to 30 September 2007, turnover in Medicines and Healthcare products Regulatory Agency was 13 per cent. For the 12 months to 30 September 2006, the corresponding figure was 11 per cent. These figures also cover all turnover categories.

For the 12 months to 30 March 2007, turnover in NHS Purchasing and Supply Agency was 11 per cent. For the six months to 30 September 2007, the corresponding figure was 4 per cent. (suggesting an annual equivalent of 8 per cent.). These figures also cover all turnover categories.

### Departmental Manpower

**Tom Brake:** To ask the Secretary of State for Health how many and what proportion of posts in his Department were recategorised from back office to frontline posts as classified by the Gershon efficiency review in each year since 2004. [172254]

**Mr. Bradshaw:** The Department is committed to achieving workforce reductions of 720 by the end of 2007-08. This target is net of any transfers of staff to national health service agencies or other arms length bodies. These transfers do not constitute 'front line' posts under Gershon. The Department has not re-categorised any of its posts in this way in any year since 2004.

### Departmental Ministerial Policy Advisers

**Mr. Hoban:** To ask the Secretary of State for Health what the office costs for his Department's special advisers for 2007-08 are expected to be, including costs of support staff; and how many full-time equivalent civil servants work in support of such special advisers. [164926]

**Mr. Bradshaw:** There are two civil servants supporting the special advisers in the Secretary of State's office. Both provide administrative support of a non-political nature in accordance with the Code of Conduct for Special Advisers.

Individual civil servants' salary details are not disclosed in order to protect the privacy of the individual concerned.

The office costs will be accounted for in the 2007-08 departmental annual report and accounts.

### Departmental Procurement

**Mr. Philip Hammond:** To ask the Secretary of State for Health whether the standard terms and conditions of purchase used by his Department in procurement of goods and services from the private sector prohibit the assignment of debt. [172318]

**Mr. Bradshaw:** There is no express provision in the Department's standard contract prohibiting the assignment of debt. However, there is a provision which says that the contractor shall not assign, sub-contract or in any other way dispose of the contract or any part of it without the contracting authority's prior approval. On the basis that a prohibition on 'assignment of debt' is a prohibition on a supplier from assigning money owed to it under a contract, the Department takes this provision to mean that a contractor may not assign its debts, without approval from the contracting authority.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Health what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172513]

**Mr. Bradshaw:** On 12 June 2006, the Prime Minister and the former Secretary of State for Environment, Food and Rural Affairs (David Miliband) announced revised sustainable operations targets for the Government Estate. They focus on key areas such as carbon neutrality and emissions, energy efficiency, waste and water consumption.

The 2006 Estate targets include:

Recycling:

Departments to increase their recycling figures to 40 per cent. of their waste arisings by 2010 and to 75 per cent. of their waste by 2020.

These targets will apply for the reporting period April 2006 to March 2007 onwards.

Previous Government targets that applied to the Government Estate were launched in March 2004 but have since been superseded by the new targets.

The Department has consistently exceeded the targets. Our performance over the past five years is as follows:

| | *Waste arisings (tonnes)* | *Proportion recycled (percentage)* |
|---|---|---|
| 2001-02 | n/a | n/a |
| 2002-03 | 908.69 | 78 |
| 2003-04 | 918.95 | 65 |
| 2004-05 | 1152.76 | 68 |
| 2005-06 | 635.48 | 85 |

All figures exclude information technology (some is refurbished and resold; the rest is dismantled and disposed of in accordance with legislation).

Figures are not directly comparable from one year to another. Staff have moved from buildings where waste collected by departmental contractors to buildings managed by other Government Departments (who include our staff in their returns). In addition, in some buildings waste streams have been added to what was previously collected under the Department's contract.

Figures include the Department's main London estate, and departmental agencies.

The 2006 report is available at:

www.sd-commission.org.uk/sdig2006/

and the sixth annual report is due to be published early in the new year.

### Departmental Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Health (1) which telephone contact centres are the responsibility of his Department; what mechanisms are in place to monitor their effectiveness; and how many people have been employed in each of those centres in each year since they were established; [166538]

(2) what information his Department collects and monitors in relation to the telephone contact centres for which his Department is responsible; [166539]

(3) how much each telephone contact centre for which his Department is responsible has *(a)* cost and *(b)* generated in income in each financial year since their establishment. [166540]

**Mr. Bradshaw:** The Department itself has a single public facing telephone enquiry service taking approximately 140,000 telephone calls a year. Statistical information and quality checks are in place to ensure its effectiveness. The contact centre is part of the wider Customer Service Centre which has employed 80 people since it was established in 2004. It is funded through the Department's running costs.

The Department funds a wide range of voluntary and charitable organisations to provide services relating to health and healthy living. Some of these organisations include telephone helplines as part of their services. We also fund under contract organisations such as NHS Direct and the Healthy Start Helpline.

### Dermatology Services

**Mr. Burstow:** To ask the Secretary of State for Health pursuant to the answer of 10 December 2007, to Question 170029, on practice-based commissioning for dermatology services, how he expects practice-based commissioning to affect the delivery of dermatology services. [174182]

**Mr. Bradshaw:** Practice-based commissioning will improve the design and delivery of dermatology services. In particular, practice-based commissioners in partnership with primary care trusts (PCTs) draw up the detailed specification for services such as dermatology in order that these are tailored to best meet local needs. Practice-based commissioning can facilitate, where clinically appropriate, the provision of services such as dermatology in settings that are closer to home or more convenient for patients.

For example in Huntingdonshire, practice-based commissioners have worked in partnership with the PCT to establish both general practitioner and consultant led clinics delivered in community settings for dermatology, anti-coagulation testing, ear nose and throat, community echocardiography testing and gynaecology services.

### Doctors: Career Structure

**Mr. Lansley:** To ask the Secretary of State for Health what he expects the competition ratio for training posts for registrar group doctors in each *(a)* region and *(b)* specialty to be in 2008. [171929]

**Ann Keen:** We are working with the Deaneries on the final details of the numbers of training posts for 2008 and expect to have this information later this month.

### Drugs: Consultants

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how much *(a)* has been spent and *(b)* he expects to be spent in consultancy fees in relation to the review of Part IX of the Drug Tariff. [170575]

**Mr. Bradshaw:** The costs incurred to date to carry out both phases of the arrangements under Part IX of the Drug Tariff review, Phase 1 dressings and reagents and Phase 2 arrangements for the provision for stoma and incontinence appliances and related services is £1.9 million.

Depending on the outcome to this consultation the forecast total fees in relation to the Part IX review of the Drug Tariff is likely to be in the region of £2.47 million.

### Fibromyalgia

**Mr. Hepburn:** To ask the Secretary of State for Health how many people were diagnosed with fibromyalgia in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* England in each year since 1997. [172968]

**Ann Keen:** Information on the number of people diagnosed with fibromyalgia is not collected.

### Food: Labelling

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what assessment he has made of the effectiveness of food labelling schemes; and if he will make a statement. [174450]

**Dawn Primarolo:** When the Agency made its recommendations for colour coded front of pack signpost labelling in March 2006 it made a commitment to independently review the impact that front of pack nutrition labelling schemes in use in the United Kingdom market had on consumer behaviour and understanding in the shopping environment.

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what percentage of a product must be made in the UK for it to carry a Made in Britain label; and if he will make a statement. [174451]

**Dawn Primarolo:** The origin of a food is deemed to be where the food was produced or processed, rather than the origin of the individual ingredients. Therefore, a processed food labelled as 'Made in Britain' could be either produced or processed in the United Kingdom.

### Gambling: Rehabilitation

**Mr. Bellingham:** To ask the Secretary of State for Health what provision the NHS makes for treatment of problem gamblers. [175196]

**Mr. Ivan Lewis:** Problem gamblers can access services in primary care and secondary care including specialised mental health and addiction services. There are currently no central plans to provide dedicated services. However, we will continue to monitor the situation and work with local healthcare communities who are responsible for assessing and commissioning services to meet the needs of the populations that they serve.

### Health Education: Pharmacy

**Sandra Gidley:** To ask the Secretary of State for Health what assessment he has made of the level of self care information being provided to the public through pharmacies. [174013]

**Mr. Bradshaw:** Support for self care is an essential service within the community pharmacy contractual framework which all pharmacies are required to provide. It is for primary care trusts to monitor the provision of services under the contractual framework. The Department has not assessed the level of self care information being provided to the public through pharmacies.

### Health Services

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government have taken to encourage local healthcare services to open practices outside the hours of 9 a.m. to 5 p.m. since 1997. [173425]

**Mr. Bradshaw** *[holding answer 13 December 2007]:* We expect general practitioner (GP) practices and primary care trusts (PCTs) to work together locally to ensure patient preferences are taken into account when setting surgery opening hours. Our aim, as set out in 'Our NHS Our Future' is for 50 per cent. of existing GP practices, the 100 new GP practices in the 25 per cent. of PCTs with the poorest provision, and the 150 new GP led health centres, to be offering their patients extended opening.

### Health Services: Foreigners

**Mike Penning:** To ask the Secretary of State for Health what safeguards are *(a)* in place and *(b)* planned to prevent visits to the UK for the primary purpose of using the NHS; and if he will make a statement. [170654]

**Mr. Byrne:** I have been asked to reply.

The immigration rules provide for overseas nationals to come to the UK for private medical treatment but not for the purpose of using the NHS. Overseas visitors who are not exempt from charge under the NHS (Charges to Overseas Visitors) Regulations 1989, as amended, are not entitled to free NHS treatment.

Only certain specified treatments which are free to all, including that received in an Accident and Emergency Department or for certain specified infectious diseases which are a threat to public health, can be provided free of charge. These rules do not cover primary healthcare at GP surgeries.

Entry clearance officers at British visa-issuing posts abroad and immigration officers at ports of entry to the UK have powers to refuse entry if they have reason to believe that a visa applicant or passenger applying for entry as a visitor has the intention of seeking NHS medical treatment, since this would not meet the requirements of the immigration rules for visitors. Overseas Visitor Managers in UK hospitals are also required to check a patient's eligibility for free treatment and apply charges if appropriate.

The Home Office enforcement strategy Enforcing the Rules: a strategy to ensure and enforce compliance with our immigration laws published on 7 March 2007 includes an undertaking to review the rules governing access to the NHS by foreign nationals. The review is currently under way and will report in the new year, followed by a public consultation.

### Health Services: Standards

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health whether he intends the Care Quality Commission to have powers to impose administrative fines on those health care providers which do not meet the current Healthcare Commission's requirements for core standards *(a)* C15a and *(b)* C15b. [170057]

**Mr. Bradshaw:** The Care Quality Commission will be able to take a range of enforcement action against providers that fail to meet registration requirements, including the power to offer a penalty notice in lieu of prosecution. The Department will be consulting during 2008 on the registration requirements that service providers will be required to meet.

### Health: Children

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what Child Health Application systems primary care trusts are using in the *(a)* North, *(b)* Midlands, *(c)* East and *(d)* Southern local service provider area. [171814]

**Mr. Bradshaw:** Primary care trusts (PCT) in the North, Midlands and East programme for information technology in the main use one or other of the following systems: The Phoenix Partnership SystmOne; Health Solutions Wales Community Child Health 2000 System, Comwise, and various McKesson-based systems. However, one PCT uses an in-house bespoke system. Those in the Southern programme for IT use either the McKesson Swift or CarePlus systems, or the Health Solutions Wales Community Child Health 2000 System.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what the cost to *(a)* central Government and *(b)* primary care trusts was of (i) the child health interim application system and (ii) RiO in the last 12 months. [171815]

**Mr. Bradshaw:** All deployments made by the London local service provider (LSP) under the national programme for information technology (NPfIT), including the child interim health application (CHIA) and RiO, are part of the overall £1.016 billion contract between the Department and the LSP, BT. Work done to deliver and support the CHIA and RiO systems in the last 12 months has not resulted in any additional cost to that contract.

Information about costs incurred locally by primary care trusts and other national health service organisations in implementing NPfIT systems and services delivered by LSPs is not collected centrally.

### Heart Diseases: Health Services

**Mr. Jim Cunningham:** To ask the Secretary of State for Health (1) what action the Government have taken to improve cardiac services in the NHS since 1997; [173702]

(2) what discussions the Government have had with the British Heart Foundation on the efficiency and effectiveness of NHS cardiac services. [173704]

**Ann Keen** *[holding answer 13 December 2007]:* The National Service Framework (NSF) for Coronary Heart Disease (CHD) published in March 2000 sets a 10-year framework for action to prevent disease, tackle inequalities, save more lives, and improve the quality of life for people with heart disease.

The implementation of this NSF has led to a reduction of premature mortality, improved diagnostic and treatment facilities, faster care and better prevention of heart disease.

This progress is set out in detail in the progress report for 2006, 'Shaping the future', copies of which are available in the Library. A progress report for 2007 will be published in early 2008.

The British Heart Foundation (BHF) played a significant role in the development and implementation of the NSF for CHD. This was supported by the Department's CHD Taskforce, which included representation from the BHF. The Department has, and will continue to work closely with the BHF on a variety of projects and they are represented on the Department's CHD Programme Board.

### Hip Replacements

**Mr. Waterson:** To ask the Secretary of State for Health how many people aged over 65 years with hip injuries were discharged from hospital to a nursing home in each year since 1997. [175058]

**Mr. Ivan Lewis:** Information on the number of people aged over 65 with hip injuries who were discharged from hospital to a nursing home is not collected centrally.

### Hospital Beds

**Steve Webb:** To ask the Secretary of State for Health which acute hospitals trusts have had red alert status for bed capacity in the last four weeks; and if he will make a statement. [173772]

**Mr. Bradshaw** *[holding answer 13 December 2007]*: The Department is aware that some national health service trusts and ambulance trusts operate local bed capacity management systems which incorporate coloured alerts. However, these are local arrangements and there is no national definition of particular colour alerts or national data collection measuring alert status.

### Hospitals

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health if he will publish lists of hospitals recommended for top-ups above the national tariff provided to him by each strategic health authority in the last three months. [171772]

**Mr. Bradshaw:** The list of providers eligible for specialist top-ups in 2008-09 will be published in December 2007 as part of the tariff package, and alongside the National Health Service Operating Framework for 2008-09.

### Hospitals: Admissions

**Mike Penning:** To ask the Secretary of State for Health how many emergency re-admissions there were in each year since 1997; and how many were of people aged *(a)* 0 to 10, *(b)* 11 to 18, *(c)* 19 to 65, *(d)* 66 to 75 and *(e)* over 75 in each year. [166083]

**Mr. Burstow:** To ask the Secretary of State for Health how many emergency readmissions faced delayed discharge for each quarter since 2002 for which figures are available; and how many emergency readmissions there were in each quarter since 2002, broken down by age. [169941]

**Mr. Bradshaw:** Currently, the best estimates of re-admission rates are those released by the National Centre for Health Outcomes Development (NCHOD). These estimates are derived from Hospital Episode Statistics (HES) data and are published in full on the NCHOD website at www.nchod.nhs.uk; a relevant extract is given in the table, which has been placed in the Library. There are eight years data from 1998-99 to 2005-06 at primary care trust (PCT) level and trust level, for the age groups 0-15, 16-74 and 75 and over. The data is presented both in raw form and also standardised for changes in age, sex, method of admission and case type and exclude discharges for those coded as death, day cases, maternity spells, mental health specialties and those with a mention of cancer or chemotherapy for cancer anywhere in the spell. Full definitions are on the NCHOD website.

Other analyses from this source, including quarterly data, could be produced only at disproportionate cost. We regret that data linking emergency readmissions to delayed discharge, are not available.

### Hospitals: Construction

**Norman Lamb:** To ask the Secretary of State for Health what hospital building projects were approved in each of the last three years; what the *(a)* projected costs when approved were, *(b)* costs to date are and *(c)* projected completion costs are of each project; and what the (i) expected completion dates were on approval and (ii) actual expected completion dates are. [171688]

**Mr. Bradshaw:** Information on hospital building schemes approved (full business case (FBC) approved and financial close or tender awarded for both private finance initiative (PFI) and public capital schemes) in the last three years is in the following table.

For PFI schemes expected completion dates ('Operational' in the table) are collected centrally at the point of financial close but whether these are precisely achieved is not logged. Capital costs are recorded at the point of financial close but not on completion as the risk of any cost overruns lie with the private sector under a PFI contract. Information on cost increases and the reasons for them from approval of the first business case in the procurement process (the strategic outline case (SOC) or outline business case (OBC)) to FBC for each scheme in the table are submitted annually as part of the Department's evidence for the Health Select Committee's Public Expenditure Inquiry. I refer the hon. Member to the reports of the House of Commons Health Committee 'Public Expenditure on Health and Personal Social Services, HC26-i'. Indicative timetables are set for all schemes as part of this first business case as part of approved project management practice but are revised as necessary to reflect changed circumstances and are not collected centrally.

For public capital hospital building schemes expected completion dates ('Operational' in the table) are collected centrally at the point of tender award after FBC approval; cost increases and time overruns from then until completion are submitted annually to the Health Select Committee and can also be found in 'Public Expenditure on Health and Personal Social Services, HC26-i' (this shows all projects over £10 million—new hospital building schemes are now considered by the Department as projects over £25 million with a clear, frontline clinical purpose). The capital values provided in the table in this answer are taken at a point near to completion. Cost increases from approval of the first business case in the procurement process (the SOC or OBC) are not collected centrally nor requested by the Health Select Committee as part of the evidence. The information is not held centrally and could be obtained only at disproportionate cost.

| *National health service trust* | *Capital value (£ million)* | *Financial close/ tender award date* | *Operational/ expected operational date* |

## Medical Equipment: Incontinence

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what account was taken of tax revenues paid by appliance manufacturers in estimating the effect of price reductions for incontinence and stoma appliances proposed by his Department. [170552]

**Mr. Bradshaw:** The Department is not privy to company tax information. No account has been taken of manufacturers' tax revenues, and it is unclear as to where they may be domiciled for tax purposes.

**Dr. Richard Taylor:** To ask the Secretary of State for Health what discussions he has had with ministerial colleagues on the possible effect on UK manufacturing jobs of the price reductions for incontinence and stoma appliances proposed by his Department. [171200]

**Mr. Bradshaw:** One of the stated aims of consultation on the "Arrangements under Part IX of the Drug tariff for the provision of stoma and incontinence appliances—and related services to primary care" is to work in partnership to deliver fair prices for the national health service and reasonable returns for suppliers and contractors.

Departmental officials have had constructive dialogue with trade associations, individual companies, and patient and user groups in relation to what is proposed and is carefully listening to what they have to say.

To date no specific representations have been made to my officials with detailed consequences on United Kingdom manufacturing activities including jobs.

### Medical Professions: Surveys

**Mr. Hoban:** To ask the Secretary of State for Health whether his Department conducts *(a)* focus groups and *(b)* other qualitative or quantitative opinion research of (i) doctors and (ii) nurses. [173366]

**Mr. Bradshaw:** The Department is committed to consulting and involving the public, national health service staff and our stakeholders to help inform both policy formulation and the delivery of better quality public services. Responsive public services are an important part of the Modernising Government initiative.

The Department regularly commissions research among NHS staff.

### Medical Records: Databases

**Jeremy Wright:** To ask the Secretary of State for Health if he will introduce legislation to provide that he shall not be a data controller in relation to personal data processed on a detailed care record. [169024]

**Mr. Bradshaw:** The Government have no current plans to do so in relation to patient records within the National Health Service Care Records Service, but will keep the position under review as the new service is implemented. Some key data controller responsibilities such as overall network and technical system security are managed through the Department's contracts and it would not be appropriate for the Secretary of State to avoid these responsibilities. This does not, however, permit the Department's staff to access confidential patient information unless expressly authorised by the patient concerned.

### Medical Services: Finance

**Mr. Lansley:** To ask the Secretary of State for Health what plans he has to extend the scope of practice-based commissioning to include real budgets for *(a)* elective acute care, *(b)* unscheduled care and *(c)* other types of care; and what plans he has to phase out the use of indicative budgets in relation to practice-based commissioning. [166390]

**Mr. Bradshaw:** There are no plans to introduce real budgets for practice-based commissioning or phase out the existing indicative budget arrangements. The Department considers that such an approach would not offer additional flexibility or benefits for practice-based commissioners.

### Mental Health Services

**Anne Milton:** To ask the Secretary of State for Health with reference to the answer of 29 October 2007, *Official Report*, column 1037W, on mental health services, what estimate he has made of the average cost to the NHS of a course of cognitive behavioural therapy (CBT); what representations he has received on the availability and future use of CBT in the last 12 months; and what discussions *(a)* he, *(b)* his Ministers and *(c)* his Departmental officials have had with those who have made such representations. [174041]

**Mr. Ivan Lewis:** While National Institute for Health and Clinical Excellence have calculated that the average cost of delivering a course of cognitive behavioural therapy (CBT) is £750, the cost calculation for delivering CBT and other evidence-based psychological therapies, used in implementing the Improving Access to Psychological Therapies (IAPT) programme, is lower. This is because the IAPT model of care includes a range of evidence-based therapeutic approaches and delivery methods.

Over the last year a significant number of representations have been made about the availability and future use of CBT, and discussions have taken place with a wide range of interests which include third sector organisations, senior academics, providers of CBT training courses and other forms of therapy and the private sector, in particular manufacturers of computerised CBT products.

### Milton Keynes Hospital: Midwives

**Mr. Lancaster:** To ask the Secretary of State for Health how many midwives should be employed at Milton Keynes hospital to deal with the number of births there each year. [174579]

**Mr. Ivan Lewis:** This is a matter for the Chair of Milton Keynes Hospital NHS Foundation Trust, as it is the Foundation Trust's responsibility to ensure that staffing levels are sufficient to ensure that patient safety is not compromised.

### NHS Foundation Trusts: Infectious Diseases

**Patrick Mercer:** To ask the Secretary of State for Health how many hospitals with above average levels of infection of *(a)* MRSA and *(b)* *clostridium difficile* have (i) gained and (ii) retained foundation status. [171913]

**Ann Keen:** We only support applications for national health service foundation trust status if we are satisfied that the NHS trust is a high performing organisation both in terms of service quality and financial rigour. Once NHS trusts become NHS foundation trusts they must continue to deliver high quality services and should they fall short of national standards then they will be subject to intervention by Monitor, the independent regulator of NHS foundation trusts. Monitor has a range of interventions available, from increased reporting through to direct managerial change.

All acute NHS trusts are obliged to report all methicillin-resistant *Staphylococcus aureus* (MRSA) blood stream infections and *clostridium difficile* infection (CDI) diagnosed in their laboratory.

In 2006-07, 69 trusts had MRSA rates above the national rate of 1.67 cases per 10,000 bed-days, and of these 15 were NHS foundation trusts.

However, it is misleading to compare trusts on their reported CDI surveillance data. This is because the calculation used attributes all cases of CDI to the trust whose laboratory detects and reports the infection. This is inappropriate for those trusts that test samples from other hospitals, general practitioner practices etc. because the rate produced is higher than the actual infection rate in trust patients.

### NHS Trusts: Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health which trusts are in the financially challenged trust regime; and if he will publish the reports relating to them. [172903]

**Mr. Bradshaw:** The following list shows the 17 financially challenged national health service trusts. These trusts have been subject to a rigorous review of their financial and operational positions, to identify long-term solutions that best deliver value for money, while maintaining standards of patient care to the community they serve. The results of the review process for these trusts are currently under discussion with the strategic health authorities and solutions are being prepared in the context of the Department's operating framework for 2008-09.

Barking, Havering and Redbridge Hospital NHS Trust
Bromley Hospitals NHS Trust
Hinchingbrooke Healthcare NHS Trust
Mid Yorkshire Hospitals NHS Trust
North Bristol NHS Trust
Queen Elizabeth Hospital NHS Trust
Queen Mary's Sidcup NHS Trust
Royal Cornwall Hospital NHS Trust
Royal United Hospital Bath NHS Trust
Royal Wolverhampton Hospital NHS Trust
Surrey and Sussex Healthcare NHS Trust
The Lewisham Hospital NHS Trust
The Royal West Sussex NHS Trust
University Hospitals Coventry and Warwickshire NHS Trust
West Middlesex University Hospital NHS Trust
Weston Area Health NHS Trust
Whipps Cross University Hospital NHS Trust

### NHS: Billing

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health which primary care trusts *(a)* paid and *(b)* did not pay 95 per cent. of undisputed invoices within (i) contract terms or (ii) 30 days in cases where no terms were agreed, in (A) 2005-06 and (B) 2006-07; and what the total value was of those invoices in each case. [164602]

**Mr. Bradshaw:** This information has been placed in the Library.

### NHS: Bureaucracy

**Mr. Lansley:** To ask the Secretary of State for Health what estimate his Department has made of the number of hours per week spent on paperwork by *(a)* nurses, *(b)* midwives, *(c)* consultants and *(d)* general practitioners in the latest period for which figures are available. [167876]

**Mr. Bradshaw:** No estimates have been made centrally.

Some paperwork is essential to safe and effective patient care. The Department is committed to reducing the unnecessary burden placed on staff in the national health service wherever it can and to ensure frontline staff are able to spend more time doing what they do best treat patients.

### NHS: Complaints

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government has taken to improve the NHS complaints procedure since 1997. [172938]

**Ann Keen:** The national health service complaints procedure is continually being reviewed in the light of changes to the way the NHS works and how patients receive their treatment. In addition, there are other external drivers for change, such as the White Paper "Our health, our care, our say", setting the strategic direction for a new NHS through world class commissioning and a new regulatory regime.

A number of changes have been introduced since 1997 aimed at improving complaints procedures and overall responsiveness to complaints. While the detail to processes have been changed the objectives have consistently aimed to deliver a system which:

is easy and accessible;

requires providers to extract lessons on quality for complaints to improve services for patients;

is fair to staff and complainants alike;

deals with complaints as swiftly, openly and efficiently as possible; and

is robust, honest and thorough, with the prime aim of resolving the problems and satisfying the concerns of the complainant.

Information has been placed in the Library which sets out in detail the specific changes that have been introduced to NHS complaints arrangements from 1997, and the key elements of the current proposals in the consultation "Making Experiences Count", which ran from June to October this year.

### NHS: Data Protection

**Mr. Lansley:** To ask the Secretary of State for Health how many staff in the NHS have been subject to disciplinary proceedings for mishandling patient data in each of the past five years. [170179]

**Mr. Bradshaw:** Information relating to the information governance responsibilities of individual national health service trusts, primary care trusts and general practitioner practices is not held centrally, and could be obtained only at disproportionate cost.

For the future, tools are provided by NHS Connecting for Health to enable NHS organisations to control access to patient data held in the new systems and services deployed under the national programme for information technology. System audit trails will enable organisations to monitor access, and the Department has made it clear that misuse must not be tolerated. The Department will monitor how well NHS organisations adhere to standards rather than the details of access.

## NHS: DHL

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health by what means the DHL contract for supply and delivery of medical supplies and equipment to the NHS is being evaluated; and if he will make a statement. [172919]

**Mr. Bradshaw:** DHL is contracted to run the business operation now known as NHS Supply Chain and has committed to key performance indicators (KPIs), including service delivery and financial targets.

While the contractual high level KPIs are used for performance and penalty reporting, lower level KPIs are used predicatively and diagnostically to forecast and understand performance.

KPI information is produced for the lifetime of the contract in the form of standard reports, which are monitored and evaluated by the supply chain management division (SCMD) of the NHS Business Services Authority which has been set up to manage DHL performance.

Along with KPI measurement, rigorous process evaluation and Gateway reviews, the SCMD are audited to ensure processes and procedures for managing the contract are robust.

## NHS: Expenditure

**Mr. Lansley:** To ask the Secretary of State for Health what net NHS expenditure was on *(a)* the unintended consequences of treatment, *(b)* health care arising from violent incidents, *(c)* coronary heart disease, *(d)* diabetes and *(e)* cerebrovascular disease (i) for England and (ii) in each primary care trust area, expressed (A) as a total, (B) as a percentage of total net NHS expenditure and (C) per head of population in the same format as that provided in table 8b of his Department's memorandum to the Health Select Committee on Public Expenditure on Health and Personal Social Services 2006, HC(2006-07)-26-i [174881]

**Mr. Bradshaw:** This information has been placed in the Library.

## NHS: Finance

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what rating is used when assessing *(a)* the creditworthiness of organisations receiving (i) public dividend capital and (ii) loans and *(b)* the risk of default by organisations on the repayment of (i) public dividend capital and (ii) loans; and pursuant to the answer of 5 December 2007, *Official Report*, column 1320W, to the hon. Member for South Cambridgeshire (Mr. Lansley), on NHS finance, what rating is applied to each (A) organisation, (B) public dividend capital sum and (C) loan. [174389]

**Mr. Bradshaw:** Loans are issued to national health service trusts where there is a reasonable expectation that they will be serviced and repaid on the agreed schedule. This is in line with rules on public sector loans set out by HM Treasury. This was assessed through an assurance process carried out on a case-by-case basis by strategic health authorities and the Department.

Public Dividend Capital is a different form of financing provided to NHS trusts. Unlike loans, it is not serviced at a constant rate. However, NHS trusts in receipt of public dividend capital are expected to deliver the required rate of return.

## NHS: Manpower

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 15 November 2007, *Official Report*, column 381W, on NHS: manpower, what estimate his Department has made of the number of staff that will be employed in the NHS in each year from 2007-08 to 2010-11, broken down by *(a)* region and *(b)* position. [167742]

**Ann Keen:** Workforce planning is a matter for local determination, as local workforce planners are best placed to asses the healthcare needs of their local population. The Department continues to ensure the frameworks and financial support are in place to support this.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to the answer of 15 November 2007, *Official Report*, column 382W, on NHS: manpower, what documents his Department requires strategic health authorities to submit on their workforce plans; how frequently these submissions are required; and for what future time period strategic health authorities are required to make such plans. [167796]

**Ann Keen:** Within the national health service, planning is from the bottom up to ensure local health economy's requirements are met, plans are then aggregated to ensure wider coherence.

The Financial Information Management System (FIMS) is used by the Department to collect and report on finance and workforce data submitted by the NHS. As part of the FIMS process, strategic health authorities (SHAs) are required to submit an annual plan to the Department for the current financial year setting out financial and workforce profiles. The requirement to collect workforce plans and data is ongoing.

SHAs were required to submit their annual workforce investment plans, based on local long-term workforce planning, to the Department by 30 June 2007 in accordance with the multi professional education and training service level agreement between the two parties. Submission of these plans will be reviewed annually.

**Mr. Lansley:** To ask the Secretary of State for Health pursuant to Table 100 in his Department's memorandum to the Health Select Committee on Public Expenditure on Health and Personal Social Services 2006, to how many staff each figure in the table refers. [167834]

**Ann Keen:** This was a financial collection only so it does not contain information about numbers of staff which relate to the collected data on costs of redundancy.

Numbers of redundancies have been collected in a separate exercise by the Department. The latest published information shows that in Quarter 1 of 2007-08 there have been 766 compulsory redundancies in the trusts and strategic health authorities by 30 June 2007. In total 87 per cent. of those redundancies were of non-clinical staff.

### Opinion Leader Research

**Mrs. May:** To ask the Secretary of State for Health how many contracts were awarded by his Department to Opinion Leader Research in each year since 1997; and what was *(a)* the title and purpose, *(b)* the cost to the public purse and *(c)* the dates of (i) tender, (ii) award, (iii) operation and (iv) completion and report to the Department in each case. [165270]

**Mr. Bradshaw:** The Department does not collect information in the format requested. To do so would attract disproportionate cost.

A new system will be introduced in April 2008 called SHOWA, which will be able to gather such information for the Department.

### Palliative Care

**Mr. Lansley:** To ask the Secretary of State for Health what matters were covered in the 2007-08 baseline review of end-of-life care services, as described in paragraph 7.51 of his Department's Cancer Reform Strategy; how many primary care trusts conducted the review; whether his Department has the results of the review; and if he will make a statement. [175101]

**Mr. Ivan Lewis:** The NHS Operating Framework 2007-08 highlighted the importance of primary care trusts (PCTs), working with local authorities (LAs), undertaking baseline reviews of their end-of-life care services in preparation for the publication of the End-of-Life Care Strategy. Guidance on what these reviews should cover was issued in April 2007. The guidance is available at:

www.dh.gov.uk/en/Publicationsandstatistics/Publications/PublicationsPolicyAndGuidance/DH_[illegible]108

and a copy has been placed in the Library.

The Department is not formally collecting or reviewing the baseline reviews. The baseline reviews will enable PCTs and LAs to assess current services, identify gaps or duplication and put in place arrangements to deliver comprehensive end of life care services that will provide choice, quality, equity and value for money.

### Paramedical Staff: Qualifications

**Mike Penning:** To ask the Secretary of State for Health what his policy is on mutual recognition for military and civilian paramedic qualifications; and if he will make a statement. [170547]

**Mr. Bradshaw:** Responsibility for recognising civilian qualifications lies with the Health Professions Council.

### Patients: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health in what ways his Department will *(a)* support and *(b)* widely promote the Council of Europe Alliance (UK)'s 10 key characteristics of good nutritional care in hospitals, as stated on page 26 of his Department's document, Improving Nutritional Care. [170061]

**Mr. Ivan Lewis:** The Nutrition Action Plan Delivery Board, chaired by Gordon Lishman, director general of Age Concern, will consider the most effective means of support and promotion of the Council of Europe Alliance (UK)'s 10 key characteristics.

### Peterborough District Hospital: Cleaning Services

**Mr. Stewart Jackson:** To ask the Secretary of State for Health pursuant to the answer of 5 December 2007, *Official Report*, column 1323W, on Peterborough district hospital: cleaning services, whether additional funds will be made available to *(a)* strategic health authorities and *(b)* acute trusts, to facilitate deep cleans of hospitals; and if he will make a statement. [174386]

**Ann Keen:** I refer the hon. Member to the written ministerial statement by my right hon. Friend the Secretary of State, on 21 November 2007. In addition, copies of letters of 1 and 29 November 2007 from the Department to strategic health authorities giving further details on plans for deep cleaning are available in the Library.

### Pregnancy

**Adam Afriyie:** To ask the Secretary of State for Health what data his Department collects on pregnancies in England. [171935]

**Ann Keen:** The Information Centre for health and social care (part of the Government Statistical Service) publishes an annual statistical bulletin on 'NHS Maternity Statistics, England' using data from the maternity Hospital Episode Statistics. The latest edition 2005-06, published earlier this year, provides data on a range of topics, including place of delivery, duration of antenatal and postnatal stay, birth weight and conditions affecting newborn babies. Copies of the bulletins are available in the Library.

The National Perinatal Epidemiology Unit at Oxford University and the Health Care Commission have also undertaken surveys into maternity services with a special focus on patient satisfaction.

### Pregnancy: Health Services

**Mike Penning:** To ask the Secretary of State for Health if he will estimate the cost to the NHS of treating an entopic pregnancy in the latest year for which figures are available. [174015]

**Ann Keen** *[holding answer 13 December 2007]:* Costs of entopic pregnancies are not collected centrally.

### Pregnant Women: Grants

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what assessment he has made of the economic implications of the Health in Pregnancy Grant; if he will publish research *(a)* commissioned and *(b)* evaluated by his Department on the grant; what the approval process with HM Treasury was in relation to the grant; and if he will make a statement. [174521]

**Jane Kennedy:** I have been asked to reply.

The Government are introducing from April 2009 a one-off payment to expectant mothers, known as the Health in Pregnancy Grant, to help them during the important last weeks of pregnancy. The grant will help women meet the additional costs involved in pregnancy and in the run up to birth.

HM Treasury received a wide number of representations before the 2006 pre-Budget report on tax and benefits issues, which formed part of the process of policy development for the 2006 pre-Budget report. The decision to make a payment to all women during pregnancy was announced in the 2006 pre-Budget report.

### Prescriptions: Low Incomes

**Dr. Kumar:** To ask the Secretary of State for Health how many people on low incomes are eligible for free prescriptions in *(a)* Teesside and *(b)* Middlesbrough South and East Cleveland; and whether he plans to increase uptake. [171778]

**Ann Keen:** The information is not available in the format requested.

The areas named most closely correspond to the North Tees, Middlesbrough and Redcar and Cleveland Primary Care Trusts (PCTs). The estimated number of items dispensed in these PCTs for the 12 months October 2006 to September 2007 are shown by low income category in the following table.

| *PCT name* | *Income support* | *Job seeker* | *Disabled persons tax credit/ DWA* | *Working tax credit* | *Low income scheme (HC2)* | *Minimum income guarantee* |
|---|---|---|---|---|---|---|
| North Tees | 294,067 | 65,920 | 221 | 99,516 | 25,587 | 5,879 |
| Middlesbrough | 322,649 | 57,430 | 159 | 86,[illegible]4 | 23,461 | 4,749 |
| Redcar and Cleveland | 233,367 | 37,867 | 200 | 76,696 | 19,524 | 4,971 |

### Prosthetics

**Richard Younger-Ross:** To ask the Secretary of State for Health what types of prosthetic limbs are available on the NHS. [172889]

**Mr. Bradshaw:** The national health service has available to it, via national framework agreements virtually all types of prosthetic limbs that are available on the international market. Additionally, local healthcare professionals have the ability to obtain products from outside of the current agreement if it is deemed appropriate for the specific needs of a particular patient.

The selection of the most appropriate prosthetic limb product depends on a combination of factors that are best explored with their local prosthetist or multidisciplinary team.

### Tinnitus

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what guidance is issued to GPs on treating people with tinnitus; and if he will make a statement. [174700]

**Mr. Ivan Lewis:** The Department has issued no recent guidance to general practitioners on treating people with tinnitus.

### Departmental Staff

**Mr. Hayes:** To ask the Secretary of State for Health how many staff aged between 16 and 18 were employed by his Department *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by his Department. [171273]

**Mr. Bradshaw:** The Department records information on the ages of its employees on its human resources information system. Currently it does not employ any people aged between 16 and 18.

The Department analyses its age profile each month using a lowest category of 'under 20'. We therefore cannot provide information for the required age range.

Decisions about time off for training and funding for training are taken locally, and are not recorded by age, so we are unable to provide this information.

# Written Answers to Questions

*Tuesday 18 December 2007*

## LEADER OF THE HOUSE

### Business Questions

**Mr. Baron:** To ask the Leader of the House what subjects for topical debates have been proposed to her in each week of the current session; how many proposals she received for each subject; and what criteria she used to choose the subjects upon which topical debates have been held. [175275]

**Ms Harman:** I do not intend to publicise the proposed subjects or the number of requests for topical debates.

On 25 October 2007 the House agreed with the recommendations in the Government Response to the First Report of the Select Committee on Modernisation of the House of Commons on Revitalising the Chamber: the role of the back bench Member (CM7231). The recommendation set out stated:

> "The selection of debate—not least to ensure that the subject is genuinely "regional, national or international" which could not be guaranteed under a ballot system—would be announced by the Leader of the House following discussions in the usual channels and following the representations from opposition parties and backbenchers".

The criteria I have used have been announced to the House on several occasions including at business questions on 6 December 2007, *Official Report*, column 974:

> "The subject should be topical; the House has not had an opportunity to debate it; it is a matter of public policy; it is a matter of public concern, and it is of international, national or regional importance".

### Communications Allowance

**Mr. Maude:** To ask the Leader of the House what plans she has to bring forward proposals to increase the Communications Allowance; and what increase she intends to propose. [175173]

**Helen Goodman:** In accordance with the resolution of the House of 28 March, the Communications Allowance is increased on 1 April each year by the percentage increase in the retail price index as at 31 December the preceding year.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Leader of the House how many staff work in her Office's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174949]

**Ms Harman:** My private office effectively manages both parliamentary questions and correspondence from hon. Members and Peers.

Last session my office answered 100 per cent. of named day questions on the specified day and 99 per cent. of ordinary written questions within five working days.

To date, 94 per cent. of correspondence from MPs and Peers has been responded to within 15 working days.

No analysis has been undertaken on the amount of time spent dealing with both these issues. There are no plans to do so.

### Development of Policy

**Mr. Hancock:** To ask the Leader of the House what steps the Government has *(a)* taken and *(b)* facilitated to improve the means available to (i) hon. Members and (ii) this House to hold the Government to account and influence the development of policy. [174633]

**Ms Harman:** The Government have taken a number of steps to promote the ability of Members and of the House to hold the Government to account and to influence the development of policy, though these are not all recorded centrally (some for example will have been the responsibility of individual departments) and it is not possible to break them down in the way proposed.

Major reforms promoted or facilitated by the Government since 1997 have included:

increased the number of bills published in draft for pre-legislative scrutiny

publication of a draft legislative programme

publication of Explanatory Notes with bills, and other developments in supporting material published with bills

improved impact assessment and consultation processes

establishment of the UK National Parliament Office in Brussels

establishment of oral and written evidence-taking powers for public bill committees

introduction of Westminster Hall as a parallel debating chamber

increased resources for select committees

increased staffing and other resources for individual Members

regular appearances of the Prime Minister before the Liaison Committee

reduced notice for oral questions and the introduction of topical oral questions

introduction of a weekly topical debate

introduction of a system of written questions in September

greater certainty for Members in parliamentary business and the annual parliamentary calendar

updated Ministerial Code and new Code of Conduct for Special Advisers.

I refer the hon. Member also to the statement by the Prime Minister of 3 July and the "Governance of Britain Green Paper (Cm 7170) published that day, which contains a range of further measures and proposals designed to promote the role and powers of the House.

### Inquiries: Ministerial Statements

**Justine Greening:** To ask the Leader of the House what departmental *(a)* reviews and *(b)* inquiries have been announced in Ministerial oral statements since 27 June; and if she will make a statement. [173575]

**Ms Harman:** Between 27 June and 13 December 2007 there were 48 oral statements made to the House. The content of these statements is available as a matter of public record.

### Members' Correspondence

**Mr. Harper:** To ask the Leader of the House how many letters her office received from hon. Members and Peers in each session of Parliament since 1997. [174928]

**Helen Goodman:** The information requested is not available in the form requested. Information is available for the calendar years 2005-07 as follows:

| | *Number of MPs' and Peers' letters received* | *Percentage of MPs' and Peers' correspondence answered within target* | *Percentage of Peers' correspondence answered within target* |
|---|---|---|---|
| 2004 | 493 | 95 | 100 |
| 2005 | 302 | 97 | 100 |
| 2006 | 371 | 95 | 97 |
| 2007[1] | 426 | 97 | 100 |

[1] Up to 1 November

### Office Facilities

**John Mann:** To ask the Leader of the House how many hon. Members own the property in which the office facilities for which they claim office accommodation costs are situated; and how many hon. Members have such office facilities situated in property owned by the political party of which they are a member. [175214]

**Helen Goodman:** The Green Book (Parliamentary Salaries, Allowances and Pensions) does not allow Members to lease office accommodation from themselves. However, Members may use part of their home as an office for their Parliamentary duties, or any other building which they lease or own. They may claim for any additional costs incurred, but not leasing or mortgage costs. Figures are not readily available for the number of Members who do so.

Approximately 180 Members currently have office facilities situated in property owned by a political party.

### Parliamentary Scrutiny: EC Action

**Mrs. May:** To ask the Leader of the House what the terms of reference are for the Deputy Leader of the House's review of the system of scrutiny for European matters; when she expects recommendations arising from that review to be made; and what the timetable is for publication of those recommendations. [174513]

**Helen Goodman:** On behalf of the Leader of the House, I am considering issues relating to the operation and reform of the system for scrutiny of European Union documents in this House. This follows from the recommendations made in the report from the Modernisation Select Committee in its Second Report of Session 2004-05 (HC 465) and from the debate on 25 October relating to the composition of European Standing Committees. I hope to bring forward proposals before the current temporary resolution governing the composition of European Standing Committees, agreed following that debate, expires in February 2008.

### Parliamentary Scrutiny: Legislation

**Mr. Hancock:** To ask the Leader of the House in respect of what legislation she plans to provide for post-legislative scrutiny. [174634]

**Helen Goodman:** Departmental and other select committees in the Commons may already conduct post-legislative scrutiny exercises on any Acts falling within their area of activity, either as a separate inquiry or as part of other inquiries. Many committee inquiries contain elements of post-legislative scrutiny. In respect of certain Acts, specific provision for post-legislative scrutiny is included within the terms of the Act (for example the Pensions Act 2007). The Government expects to be responding shortly to the recommendations of the Law Commission, in its 2006 Report on "Post-Legislative Scrutiny" (Cm 6945), relating to a more systematic approach to post-legislative scrutiny.

### Street Trading: Regulation

**Dr. Iddon:** To ask the Leader of the House which local authorities have promoted private Bills to regulate the street trading activities of pedlars in each year since 1997; and what private bills including such regulation have been enacted since 1997. [174141]

**Helen Goodman:** The following is a list of private Acts which have been considered by Parliament since 1997. This includes two local authority Bills currently before Parliament and a further four new private Bills which have been deposited.

*Private Acts*

- City of Westminster Act 1999 c.i
- City of Newcastle upon Tyne Act 2000 c.viii
- Medway Council Act 2004 c.v
- London Local Authorities Act 2004 c.i
- Leicester City Council Act 2006 c.ii
- Liverpool City Council Act 2006 c.iii
- Maidstone Borough Council Act 2006 c.iv

*New Bills deposited on 27 November 2007*

- Canterbury City Council Bill
- Leeds City Council Bill
- Nottingham City Council Bill
- Reading Borough Council Bill

*Bills currently before Parliament*

- Bournemouth Borough Council Bill (First Reading 22.1.2007)
- Manchester City Council Bill (First Reading 22.1.2007)

*Note:*

Equivalent public legislation applies to Northern Ireland: Street Trading Act (Northern Ireland) Act 2001 c.8

## WALES

### Departmental Equality

**Philip Davies:** To ask the Secretary of State for Wales how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173818]

**Mr. Hain:** Nil.

The Wales Office has one diversity and equality co-ordinator and a diversity and equality champion on our management board. Being a small office this role is covered on a voluntary basis in addition to a full-time Wales Office post. Wales Office staff and managers are also able to access help and support on diversity matters from the Ministry of Justice.

## PRIME MINISTER

### Combat Stress

**Mr. Hoban:** To ask the Prime Minister whether he has visited the Combat Stress centres at *(a)* Tyrwhitt House, *(b)* Hollybush House and *(c)* Audley Court in the last six months. [173189]

**The Prime Minister:** A list of my public visits made within the UK will be published in the usual way after the end of the financial year.

### Departmental Correspondence

**Mr. Harper:** To ask the Prime Minister how many letters his Office received from hon. Members and Peers in each session of Parliament since 1997. [174941]

**The Prime Minister:** My Office received approximately 500,000 items of post during the 2006-07 parliamentary session, including a number of campaign cards and letters, and over 3,100 items of correspondence from MPs and peers.

For information for the parliamentary sessions 2004-05 and 2005-06 I refer the hon. Member to the answers given by my predecessor (right hon. Tony Blair) on 21 July 2005, *Official Report*, columns 1935-36W and 15 January 2007, *Official Report*, columns 785-86W. Information for previous sessions is not available in the format requested.

### Departmental Email

**Mr. Maude:** To ask the Prime Minister whether he personally uses an email account in the course of his duties. [174824]

**The Prime Minister:** Members of the public can email me via the No. 10 website:

http://www.number-10.gov.uk/output/Page821.asp

A copy of this webpage has been placed in the Library of the House.

### Departmental Manpower

**Mr. Laws:** To ask the Prime Minister how many officials worked for him outside No. 10 Downing Street in *(a)* May 2007 and *(b)* December 2007, broken down by area; and if he will make a statement. [174259]

**The Prime Minister:** I refer the hon. Member to the answer I gave him on 10 December 2007, *Official Report*, column 48W.

### Ministerial Policy Advisors: Pay

**Mr. Hoban:** To ask the Prime Minister what estimate he has made of the cost of severance pay for special advisers who left the Government between April and November 2007 or the nearest period for which figures are available. [173191]

**The Prime Minister:** I refer the hon. Member to the answer given by my right hon. Friend the then Minister for the Cabinet Office (Hilary Armstrong) on 7 March 2007, *Official Report*, column 2051W.

### Plastics: Packaging

**Mr. Hoban:** To ask the Prime Minister what supermarkets he has held meetings with to discuss throw-away plastic carrier bags. [173150]

**The Prime Minister:** My officials and I have meetings with a wide range of organisations and individuals on a range of subjects. In addition my right hon. Friend the Secretary of State for Environment Food and Rural Affairs and his ministerial team regularly meet with representatives from supermarkets to discuss a wide range of issues, including those related to carrier bags and waste.

### Trade Unions

**Mr. Vara:** To ask the Prime Minister pursuant to the answer of 29 November 2007, *Official Report*, column 592W, on trade unions, if he will make it his policy to place in the Library at regular intervals a list giving details of all meetings held with trade union leaders. [173065]

**The Prime Minister:** I have nothing further to add to the answer I gave the hon. Member on 29 November 2007, *Official Report*, column 592W.

## INTERNATIONAL DEVELOPMENT

### Afghanistan

**Dr. Fox:** To ask the Secretary of State for International Development pursuant to the Statement by the Prime Minister of 12 December 2007, *Official Report*, column 304, on Afghanistan, how many of his Department's personnel serve in the collocated headquarters. [175464]

**Mr. Douglas Alexander:** On security grounds, we do not reveal the location of DFID personnel in Afghanistan.

### ApTibet: Finance

**Mr. Drew:** To ask the Secretary of State for International Development if he will make representations to the EU on the *(a)* provision and *(b)* potential clawback of funding in relation to ApTibet; and if he will make a statement. [175217]

**Mr. Malik:** No representations have been made by DFID to the EU in relation to ApTibet.

### China: Bears

**Mr. Hancock:** To ask the Secretary of State for International Development pursuant to the answer of 4 December 2007, *Official Report*, column 1084W, on China: bears, if he will make it his policy to offer assistance to the Chinese government to end bear bile farming in China; and if he will make a statement. [175493]

**Mr. Malik:** We do not intend to make any representations to the Chinese government on this matter.

**Mr. Hancock:** To ask the Secretary of State for International Development if he will meet representatives of Animals Asia to discuss bile extraction from bears in China. [175495]

**Mr. Malik:** DFID officials in China would be happy to meet with Animals Asia for a briefing.

### Departmental Data Protection

**Jo Swinson:** To ask the Secretary of State for International Development how many confirmed security breaches of databases controlled by his Department occurred in each of the last five years; whether the breach resulted from internal or external sources in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [173691]

**Mr. Thomas:** Except in exceptional cases, when it is in the public interest, it has been the policy of successive Governments not to comment on breaches of security.

### HIV Infection: Children

**Mr. Hancock:** To ask the Secretary of State for International Development what his policy is on the development of infant diagnostics for HIV in resource-limited settings; and what projects he has to achieve this. [175204]

**Mr. Malik:** Infant diagnostics for HIV continue to be a challenge in resource-limited settings. The most common way to test for HIV is to identify antibodies to the virus, but antibody tests are not reliable in very young children. A new approach to HIV diagnosis in infants was therefore introduced in some African countries in late 2006. This involves testing 'dry blood spots' collected in a way that does not need specialist equipment at the point of care. This technology offers a vital opportunity for timely access to lifesaving treatment and care services for children who are infected with HIV. However, these services are just getting started in many countries and therefore relatively few infants have been able to receive such tests to date.

The UK announced support of €20 million for UNITAID in September 2006, as part of a 20 year commitment, increasing to €60 million per year by 2010 subject to performance. This month, UNITAID, together with UNICEF, launched a joint initiative that will include support to early paediatric diagnosis to improve early access to paediatric HIV treatment for HIV-infected infants.

### Kenya: Ebola Virus

**Mr. Sarwar:** To ask the Secretary of State for International Development what assistance his Department has offered to the government of Kenya to help deal with the recent Ebola outbreak in the Bundibugyo district. [175514]

**Mr. Thomas:** There are no confirmed Ebola cases in Kenya. However, Kenya is rightly on alert and preparation measures are being put into place. The management of outbreaks is led by the Epidemic Task Force at national level and the measures taken include communication to the public, limited screening of passengers from at-risk areas, preparation of case management guidelines, provision of personal protective gear to health workers and heightened surveillance.

The World Health Organisation (WHO) is leading the support from development partners. DFID is contributing to WHO's technical assistance. The Center for Disease Control (US Government) is also providing support.

### Members: Correspondence

**Mr. Harper:** To ask the Secretary of State for International Development how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174932]

**Mr. Malik:** I refer the hon. Member to the answer given by my right hon. Friend the Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster on 17 December 2007, *Official Report*, column 1084W.

### Policy and Research Unit

**Mr. Bailey:** To ask the Secretary of State for International Development what progress has been made in respect of the proposed Policy and Research Unit envisaged in his Department's strategic grant agreement with the UK Co-operative Movement. [175365]

**Mr. Malik:** Between 2003 and early 2007, a total of £460,000 was provided under a Strategic Grant Agreement between this Department and the UK Co-operative College. Since then, we have been in discussion with the college over a proposal to establish a programme of policy research that would analyse and highlight the value and effectiveness of co-operatives and other forms of social enterprise. DFID no longer runs a Strategic Grant scheme, so we are exploring various alternative channels for funding this proposed programme and hope to conclude an agreement in early 2008.

### Somalia: International Assistance

**Mr. Keith Simpson:** To ask the Secretary of State for International Development pursuant to the answer on 22 November 2007, *Official Report*, column 1042W, on Somalia: international assistance, whether the Government will provide *(a)* financial and *(b)* logistical support for the French initiative to protect humanitarian supply ships sailing to Somalia from incidents of piracy. [169908]

**Mr. Thomas:** We commend the French initiative to provide protection to ships delivering aid to Somalia for the World Food Programme. The UK is not currently providing any financial or logistical support to France for this initiative. We will continue to monitor progress with the initiative and consider any future assistance as necessary. The UK continues to attach great importance to the need to ease the critical humanitarian situation in Somalia. We have contributed £8.6 million in additional funds since January this year to help those worst affected by the conflict and malnutrition.

### Uganda: Overseas Aid

**Annette Brooke:** To ask the Secretary of State for International Development if he will provide an update on the financial sector deepening project in Uganda. [175257]

**Mr. Thomas:** We have provided £7 million over the past six years to deepen the capacity of Uganda's financial sector to meet the financial needs of poor rural and urban households. Our support has contributed towards Uganda being recognised internationally as a success story in microfinance. We are working closely with other donors and government to agree how our support should be continued. Our current phase of support finishes this January.

Our support has helped the implementation of a major survey to develop comprehensive national data on financial access in Uganda for the first time. Ugandans are now better informed when designing policies to support the sector. In addition our programme has supported a financial consumer education campaign to better inform microfinance consumers of their rights and responsibilities. The programme also helped a range of financial institutions improve services to better meet the needs of over 750,000 clients and establish over 4,000 self-managed village savings and loan associations. This has helped provide financial services to those who miss out on services from formal financial institutions.

**Annette Brooke:** To ask the Secretary of State for International Development if he will implement in other countries a financial sector deepening project such as that under way in Uganda. [175258]

**Mr. Thomas:** The Department for International Development is engaged in a range of financial deepening projects in a number of countries. For example, we are implementing programmes in Ghana, Kenya, Nigeria and Tanzania and in Bangladesh and Pakistan. We are committed to supporting the development of strong and inclusive financial sectors that contribute to growth and poverty reduction, and to working in partnership with other donors, partner governments and financial sector institutions.

In Uganda, we have provided £7 million over the past six years to deepen the capacity of the financial sector to meet the financial needs of poor rural and urban households. Our support has contributed towards Uganda being recognised internationally as a success story in microfinance.

### Zimbabwe: Asylum

**Mr. Clifton-Brown:** To ask the Secretary of State for International Development what his most recent estimate is of the number of Zimbabwean refugees in countries neighbouring Zimbabwe. [174898]

**Mr. Thomas:** It is estimated that between 1.1 million and 3 million Zimbabweans are living in countries neighbouring Zimbabwe. Reliable figures are hard to obtain as many Zimbabweans have crossed borders illegally. The UN and governments in host countries consider most of those who have left Zimbabwe to be economic migrants. As economic migrants they are not recognised as refugees nor protected under various international conventions governing the treatment of refugees. Over 160,000 Zimbabweans were deported from South Africa up to the end of October 2007, already a significant increase on the numbers deported in the whole of 2006.

DFID is supporting the International Organisation for Migration (IOM) to provide humanitarian assistance to Zimbabweans deported from South Africa through the Beitbridge Reception Centre. IOM provides information on how to migrate legally and safely through its nationwide 'Safe Migration' campaign. We have recently approved a programme to support and protect Zimbabwean children in Limpopo Province in South Africa. The UK Government are also providing humanitarian assistance to Zimbabweans in Johannesburg through the British High Commission in Pretoria.

## ELECTORAL COMMISSION COMMITTEE

### Political Levy

**Mr. Tyrie:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what information the Speaker's Committee has on guidance or instruction given by the Commission to *(a)* board members and *(b)* staff who join the Public and Commercial Services Union on whether they should opt out of the political levy; and if he will make a statement. [174708]

**Peter Viggers:** The Electoral Commission informs me that it has given no such guidance or instruction.

### Political Parties: Finance

**Mr. Tyrie:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission seeks to gather information on the validity of the numbers of members affiliated by a trade union to the Labour Party by reference to the number of members in that union paying the political levy. [174707]

**Peter Viggers:** The Electoral Commission informs me that it does not.

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what guidance the Electoral Commission has produced for Members of the Scottish Parliament (MSPs) on accepting and declaring donations and loans; on what date that guidance was published; and whether it was sent to each MSP. [175170]

**Peter Viggers:** The Electoral Commission informs me that the most recent version of its guidance on donations and loans for regulated donees, including MSPs, was published on its website www.electoralcommission.org.uk, on 3 November 2006.

The Commission wrote to all political parties with MSPs on 21 November 2006 regarding the new loans provisions introduced by the Electoral Administration Act 2006 and the implications for regulated donees. The letter provided a link to the Commission's guidance on its website.

**Mr. Maude:** To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission whether the Electoral Commission has produced guidance for regulated donees who are hon. Members on whether subsidising of their websites by trade unions must be declared as a donation or donation in kind. [175171]

**Peter Viggers:** The Electoral Commission informs me it publishes Donations and loans: guidance for Members of Parliament. This provides guidance on the treatment of cash and non cash donations, and is available in the Library or on the Commission's website:

www.electoralcommission.org.uk

## NORTHERN IRELAND

### Departmental Foreign Workers

**David Simpson:** To ask the Secretary of State for Northern Ireland how many *(a)* EU foreign nationals and *(b)* non-EU foreign nationals are employed by his Department. [168101]

**Mr. Woodward:** The Northern Ireland Office has no central record of EU and non-EU foreign nationals in our employment. The Northern Ireland civil service is currently examining monitoring of nationality and will be discussing with the Equality Commission how to take this forward. Whatever procedures are agreed will also apply to the Northern Ireland Office.

### Prisons

**Mr. Gregory Campbell:** To ask the Secretary of State for Northern Ireland what additional personnel will be required to service the proposed new prison for adult males in Northern Ireland; and what estimate he has made of the number of construction jobs created in building the new facility. [174528]

**Paul Goggins:** Magilligan prison currently employs 441 staff. It is not possible at this stage to determine the final staffing levels for the proposed new prison.

It is anticipated that construction of the new prison will start in 2011-12 on a phased basis. While it is not possible to determine the number of construction jobs required to build the new facility, it will provide additional employment opportunities.

## HOME DEPARTMENT

### Animal Experiments

**Norman Baker:** To ask the Secretary of State for the Home Department what progress her Department has made in the replacement of animals in scientific procedures; and how many animals she estimates would have been used in excess of the figure actually used, in the absence of Government action to promote such replacement in the most recent year for which figures are available. [165595]

**Meg Hillier:** The licensing system under the Animals (Scientific Procedures) Act 1986 is demand-led and the Home Office has no control over the number of project licence applications received. Our objective is to minimise the number of animals used in particular programmes of work. We cannot influence the overall amount of animal research which takes place as this is determined by a number of factors, including the economic climate and global trends in scientific endeavour.

We are, however, fully committed to encouraging the development of alternatives to animal experimentation where this is possible and under the 1986 Act, the use of animals in scientific procedures will not be licensed if alternative non-animal techniques are available. The establishment of the National Centre for the Replacement, Reduction and Refinement of Animals in Research (NC3Rs) by Government in May 2004 and continued contributions to its funding by the Home Office demonstrates our ongoing commitment in this area.

Assessing the overall impact of the adoption of non-animal methods is not easy, however some insights can be drawn from the Statistics of Scientific Procedures on Living Animals published each year. For example, the use of such methods has reduced the number of mice used each year for monoclonal antibody production from several thousand to zero. Also, between 1996 and 2005 the introduction of the Limulus Assay for some classes of pyrogen testing reduced rabbit use for this purpose from 16,457 to 8,769.

### Drugs: Rehabilitation

**Jon Trickett:** To ask the Secretary of State for the Home Department how many places are available in residential drug treatment and rehabilitation centres in *(a)* the Wakefield area, *(b)* Hemsworth constituency and *(c)* England; and if she will make a statement. [168009]

**Dawn Primarolo:** I have been asked to reply.

According to Bedvacs, the on-line database of residential rehabilitation services, there are no residential rehabilitation facilities physically located in the Wakefield area.

To make best use of available capacity across the country, clients are regularly placed into residential rehabilitation facilities outside the area of residence of the client. Residential rehabilitation services usually have national catchment areas and clients will access them from across the country. The area of the client's residence has the responsibility for providing funding for residential rehabilitation services based on individual need.

The Wakefield drug action team covers all localities within the area, including Hemsworth.

There were 2,222 beds available for drug dependent clients in England listed on Bedvacs, as of 7 December 2007.

## Genetics: Databases

**Mr. Ruffley:** To ask the Secretary of State for the Home Department how many individuals have records on the DNA database, broken down by police force area. [167014]

**Meg Hillier:** The information requested is shown in the following table. The figures given show the number of subject sample profiles retained on the National DNA Database at 25 October 2007 which were taken by forces in England and Wales, and the number of individuals that these profiles represent. They include over 26,000 subject sample profiles taken from volunteers.

It is currently estimated that 13.7 per cent. of profiles held on the NDNAD are replicates, i.e. that a profile for a person has been loaded on more than one occasion (one reason for this is that the person gave different names, or different versions of their name, on separate arrests). Thus the number of individuals on the database is approximately 13.7 per cent. fewer than the number of subject profiles. The presence of these replicate profiles on the NDNAD does not impact on the effectiveness and integrity of the database. Nonetheless, a long-term exercise is under way to identify issues associated with the removal of all such redundant replicate profiles.

Information on the NDNAD is recorded on the basis of the police force which took the DNA sample. The address of the person sampled is not recorded. Thus the figure for Suffolk (for example) includes people from outside Suffolk whose DNA was sampled by Suffolk police, and excludes people from Suffolk whose DNA was sampled by forces elsewhere.

| *Force* | *Total profiles on 25 October 2007* | *Total individuals on 25 October 2007* |
|---|---|---|
| Avon and Somerset | 95,577 | 82,483 |
| Beds | 43,081 | 37,179 |
| British Transport | 42,566 | 36,734 |
| Cambridgeshire | 51,250 | 44,229 |
| Cheshire | 75,867 | 65,473 |
| City of London | 22,148 | 19,114 |
| Cleveland | 49,098 | 42,372 |
| Cumbria | 42,488 | 36,667 |

| West Midlands | 279,511 | 241,218 |
| West Yorkshire | 206,221 | 177,969 |
| Wiltshire | 47,147 | 40,688 |
| Total | 4,523,154 | 3,903,482 |

## Illegal Immigrants: Northern Ireland

**Mrs. Iris Robinson:** To ask the Secretary of State for the Home Department what monitoring her Department conducts of the number of foreign nationals residing in Northern Ireland; and what steps she is taking to tackle illegal immigration in Northern Ireland. [171786]

**Mr. Byrne:** As with the previous parliamentary question answered 17 December 2007, *Official Report*, columns 965-66W, the Border and Immigration Agency (the Agency) does not disaggregate statistics for areas within the UK. Migrants who are legally authorized to live and work in the UK may move freely within the UK and are subject to the legal constraints of their immigration status.

The Agency maintains records on Managed Migration, Asylum (Including Failed Asylum Seekers), and Foreign National Prisoners on a UK wide basis. The Agency works closely with the Police Service of Northern Ireland to combat illegal migration within Northern Ireland. The agency have immigration staff based in Belfast responsible for identifying illegal migrants in Northern Ireland. Activity is targeted according to intelligence received. The police prosecute on our behalf in appropriate cases, while the Agency is responsible for the administrative removal of those found in Northern Ireland unlawfully.

There is also a Managed Migration Compliance Team in Northern Ireland who work with employers and educational establishments to assist them to become a sponsor under the Points Based System. Should the compliance team uncover any illegal working it is passed to the relevant Intelligence unit for further investigation and action as specified above.

The Agency operates borders controls on international flights into Northern Ireland. We also work with the Garda National Immigration Bureau in Dublin to deal with migrants who cross the land border into Northern Ireland.

### Young Offenders: Essex

**Mr. Amess:** To ask the Secretary of State for the Home Department (1) how many cautions were issued to those under 16 years of age in *(a)* Southend and *(b)* each police force area in Essex in each of the last five years; [165741]

(2) how many cautions were issued in Southend in each of the last five years; for what categories of offences cautions were issued; whether cautions may be repeated in respect of one individual for the same offence; and if she will make a statement. [165742]

**Mr. Coaker:** Information on the number of offenders aged 10 to 15 who were given final warning and reprimands for all offences in Essex police force area for the years 2001 to 2005 are given in the table. From June 2000, cautions for offenders under 18 years old were replaced by reprimands and final warnings. Data for 2006 will be available in late November of 2007.

Cautions data are only collected by the Ministry of Justice by police force area. Information held centrally does not allow a breakdown of cases by individual police services area within Essex nor can data be provided for the number of cautions issued in Southend.

If a caution has been received previously for any offence then a further simple caution should not be considered unless the current offence is trivial or unrelated to previous offences, or at least two years have passed indicating that the previous caution has had a significant deterrent effect. To help police officers exercise their discretion, guidance from the Home Office requires the police to check nationally and locally held records before administering a simple caution.

A simple caution is a non-statutory disposal which allows the police to deal quickly and simply with less serious offences, to divert offenders where appropriate from appearing in criminal courts and to reduce the likelihood of re-offending. Whether to caution an offender for a criminal offence is an operational matter for the police, and, in the case of indictable-only offences, the police and the Crown Prosecution Service (CPS). The police must consider whether a simple caution is appropriate to the offence and the offender, and whether it is likely to be effective in the circumstances.

*The number of offenders aged 10 to 15 years-old who were given final warnings or reprimands for all offences in Essex police force area for the years 2001 to 2005*[1, 2, 3]

| | Age | | | | | | |
|---|---|---|---|---|---|---|---|
| | *10* | *11* | *12* | *13* | *14* | *15* | *Total* |
| 2001 | 42 | 85 | 178 | 325 | 456 | 496 | 1,582 |
| 2002 | 31 | 62 | 154 | 321 | 374 | 393 | 1,335 |
| 2003 | 30 | 60 | 152 | 259 | 383 | 384 | 1,268 |
| 2004 | 35 | 77 | 185 | 312 | 423 | 504 | 1,536 |
| 2005 | 87 | 133 | 273 | 511 | 772 | 722 | 2,498 |

[1] These data are on the principal offence basis.

[2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by police forces. As a consequence, care should be taken to ensure data collection processes and their inevitable limitations are taken into account when those data are used.

[3] From 1 June 2000 the Crime and Disorder Act 1998 came into force nationally and removed the use of cautions for persons under 18 and replaced them with reprimands and final warnings. These figures have been included in the totals.

Court proceedings database held by RDS - OCJR, Ministry of Justice

## INNOVATION, UNIVERSITIES AND SKILLS

### Animal Experiments

**Mr. Jim Cunningham:** To ask the Secretary of State for Innovation, Universities and Skills what steps the Government have taken to reduce the numbers of animals used for research purposes. [174575]

**Ian Pearson:** In 2004 Government established the National Centre for the Replacement Refinement and Reduction of Animals in Research (NCSRs) to advance and promote the replacement, refinement and reduction of the use of animals in research. This is the first such centre to be established in the world and it receives funding from the Department for Innovation, Universities and Skills (DIUS) via the Medical Research Council (MRC) and the Biotechnology and Biological Sciences Research Council (BBSRC). In September this year, I announced NCSRs would receive £2.4 million, an increase of £1 million, for 11 new 3Rs projects. The CSR period will see further increased funding rising from £2.3 million in 2007-08 to just over £5 million in 2010-11. The centre also received £250,000 funding from the Home Office in 2007-08. Home Office funding after 2007-08 will be confirmed in due course.

The Animals (Scientific Procedures) Act 1986 (ASPA) regulates the use of animals in scientific procedures in the UK. The principles of the 3Rs are implicit in the ASPA; all UK scientists are therefore legally obliged to use alternative approaches to the use of animals where possible, to use the minimum number of animals, and to use protocols which cause the least pain, suffering or distress.

## Apprentices

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* apprenticeships and *(b)* advanced apprenticeship places were (i) provided, (ii) filled and (iii) completed in England for those years for which data is available. [171988]

**Mr. Lammy:** Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). The ILR is a census of activity capturing provision that learners enrol on and not the number of places that are available to learners. The standard measure of success used is the success rate, which refers to the proportion of those who both complete and achieve the full apprenticeship framework in a given year. The following table shows the number of apprenticeship starts in each year and success rates from August to July each year.

| | *Advanced Apprenticeship*[1] | | *Apprenticeship*[1] | |
|---|---|---|---|---|
| | *Starts*[2] *(thousand)* | *Success rate*[2] *(percentage)* | *Starts*[2] *(thousand)* | *Success rate*[2] *(percentage)* |
| 2002-03 | 51,661 | 26 | 129,006 | 22 |
| 2003-04 | 56,959 | 32 | 136,606 | 30 |
| 2004-05 | 53,893 | 38 | 134,503 | 40 |
| 2005-06 | 50,628 | 53 | 120,682 | 53 |
| 2006-07 | 54,845 | 64 | 125,266 | 62 |

[1] Figures for 2002/-3 and 2003-04 are for advanced modern apprenticeships and foundation modern apprenticeships.

[2] The success rates shown in the table cannot be directly related to the number of starts in the same year because the 'starts' in any year are a different cohort of learners to those completing in that year.

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills how many *(a)* apprenticeships, *(b)* level 2 apprenticeships and *(c)* advanced apprenticeships there are, broken down by age group (i) 16 to 18, (ii) 19 to 25 and (iii) over 25 year olds. [173557]

**Mr. Lammy:** Figures for those participating in apprenticeships can be derived from the Learning and Skills Council's (LSC) Individualised Learner Record (ILR). The following table shows the number of apprenticeship starts from August 2006 to July 2007. Apprenticeships are at level 2 and advanced apprenticeships are at level 3. (A further breakdown by adult ages is not readily available.)

| | *Advanced apprenticeship* | | | *Apprenticeship* | | |
|---|---|---|---|---|---|---|
| | *16 to 18* | *19+* | *Total* | *16 to 18* | *19+* | *Total* |
| Starts | 23,741 | 31,104 | 54,845 | 79,054 | 46,212 | 125,266 |

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills which apprenticeships are only available at level 2, broken down by framework. [174362]

**Mr. Lammy:** All Apprenticeships at level 2 have progression opportunities to advanced apprenticeships at level 3 in the same occupational area. The following are apprenticeship titles which are available only at level 2 and which lead to progression on to related advanced apprenticeships at the next level:

Animal Technology
Carry and Deliver goods
Dry Stone Walling
Fencing
Fire Detection and Alarm Systems
Fitted Interiors
Industrial Applications
Mail Services
Manufacturing (Engineering)
Munitions Clearance and Search Occupations
Optical Apprenticeship
Passenger Carrying Vehicles Driving—Bus and Coach
Polymers/Sign making
Ports Industry
Public Services
Rail Transport Operations
Saddlery
Safety, Security and Loss Prevention and Retail and Leisure Security
Security Systems
Support Services in Health Care
Team Leading
Textile Industry
Trees and Timber.

## Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Innovation, Universities and Skills how much and what proportion of its waste his Department recycled in each of the last five years. [174437]

**Mr. Lammy:** As the Department was formed this year we do not have five years of waste recycling to report on.

The Department's accommodation is currently located within buildings managed by DCSF and DBERR and as such would normally be reported within their estates performance on sustainable operations on the Government estate.

## Higher Education: Iran

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills how many students subject to Foreign and Commonwealth Office visa requirements before entering the UK to study at university have studied at the Imam Hossein University in Tehran. [172371]

**Mr. Jim Murphy:** I have been asked to reply.

The Foreign and Commonwealth Office does not keep records of which overseas universities student applicants have studied at. This information could only be provided by examination of individual visa application forms and therefore at disproportionate cost.

## Science: North West Region

**Mrs. Ellman:** To ask the Secretary of State for Innovation, Universities and Skills what assessment he has made of the likely effect of the comprehensive spending review on *(a)* major science research projects in the North West and *(b)* physics departments in North Western universities. [173088]

**Ian Pearson:** *[holding answer 11 December 2007]:* Funding for science over the three years of the comprehensive spending review will increase in real terms by 2.7 per cent. per annum in line with the Government's commitment given in the 10 Year Science and Innovation Framework 2004-14 to increase funding in line with GDP growth. The Government have commissioned two reviews of particular relevance to the future of major science research projects and physics departments in the North West. It has asked Sir Tom McKillop to advise on the best way to implement the Government's vision for the Daresbury Science and Innovation Campus as part of his independent review into the future of the Manchester City Region and the North West economy. The Government have also asked Research Councils UK to conduct a number of further reviews of the health of disciplines in the UK. Bill Wakeham, Vice Chancellor of Southampton University, will lead the first of these reviews, which will address the health of physics in the UK.

## UK Centre for Medical Research and Innovation

**Mrs. Villiers:** To ask the Secretary of State for Innovation, Universities and Skills if he will place in the Library a copy of the estimate of *(a)* running costs and *(b)* other costs for the proposed UK Centre for Medical Research and Innovation. [174373]

**Ian Pearson:** Detailed proposals for the scheme, which will include an estimate of the financial costs, will be developed in 2008. The annual running costs of the centre will be determined as the final scientific plan is developed.

**Mrs. Villiers:** To ask the Secretary of State for Innovation, Universities and Skills (1) what estimate he has made of the cost of moving the National Institute for Medical Research to become part of the proposed new UK Centre for Medical Research and Innovation; [174374]

(2) what contribution the Medical Research Council will make to the costs of the proposed UK Centre for Medical Research and Innovation; [174417]

(3) if he will break down the £500 million allocation announced by the Prime Minister for the establishment of the UK Centre for Medical Research and Innovation (UKCMRI) by main budget heading; what estimate he has made of annual staffing costs of the UKCMRI; and whether the £500 million figure is an indicative budget. [174418]

**Ian Pearson:** Detailed proposals for the scheme, which will include the proposed financial contribution of the current, and any future partners, will be developed in 2008. The cost of moving the NIMR to its new site has therefore yet to be determined and will in part rely upon the detailed analysis of the scientific advisory team and the yet to be appointed project director and his/her team. While the project cost has been broadly estimated by the consortium at around £500 million, this figure is indicative only and has yet to be finalised for future programme evaluation purposes, as has the total cost to the MRC. The annual cost of the centre will therefore be determined as the final scientific plan is developed.

**Mrs. Villiers:** To ask the Secretary of State for Innovation, Universities and Skills how many scientists have been consulted about the proposal to move the National Institute for Medical Research from its current site. [174375]

**Ian Pearson:** The MRC is working closely with staff at the NIMR to discuss progress and develop the proposals for the UKCMRI. Representatives from each partner organisation will contribute directly to the development of the scientific vision through the Scientific Advisory Committee.

Previous consultation on the renewal of the NIMR have involved the MRC Council, whose members are predominantly scientists, and specialist groups such as the Forward Investment Strategy Group and the Task Force whose membership comprised leading UK and international scientists. More generally, the proposed relocation of the NIMR was included in the Research Council's Roadmap 2007 which still is the subject of a public consultation.

**Mrs. Villiers:** To ask the Secretary of State for Innovation, Universities and Skills (1) what the full terms of reference are of the Scientific Advisory Committee announced by the Prime Minister on 5 December to oversee the establishment of the proposed UK Centre for Medical Research and Innovation; [174414]

(2) by what process appointments will be made to the Scientific Advisory Committee announced by the Prime Minister on 5 December to oversee the establishment of the proposed UK Centre for Medical Research and Innovation. [174415]

**Ian Pearson:** The remit of the Scientific Advisory Committee to be chaired by Sir Paul Nurse will be to advise the consortium on: scientific direction, supporting facilities, high level design principles to maximise scientific synergy and the scale and scope of space for translational activities. They will also consider the potential for collaboration with other organisations.

The membership of the Scientific Planning Committee will bring together representatives from the partner organisations with additional independent members identified in consultation between Sir Paul Nurse and consortium partners.

**Mrs. Villiers:** To ask the Secretary of State for Innovation, Universities and Skills how much his Department spent developing the proposal to move the National Institute for Medical Research to the site formerly occupied by the National Temperance Hospital. [174416]

**Ian Pearson:** Prior to June 2006, when plans for the UKCMRI began to develop, the MRC had spent £0.8 million on development costs in relation to the National Temperance Hospital site. Detailed proposals for the UKCMRI will be developed in 2008. However, a significant proportion of this earlier expenditure has directly informed the MRC's contribution to its development of an outline business case for UKCMRI.

### Vocational Education: Finance

**Mr. Willetts:** To ask the Secretary of State for Innovation, Universities and Skills how much was spent on average per skills for life course place in each year since 2003; and what the equivalent figure is expected to be in each year to 2011. [171989]

**Mr. Lammy:** The following table outlines the cost for each Skills for Life enrolment through the Learning and Skills Council's (LSC) further education funding budget in 2005-06 and the estimated cost per enrolment from 2006-07 onwards.

| | *Cost per enrolment FE only (£)* |
|---|---|
| 2005-06 | 439 |
| 2006-07 | 620 |
| 2007-08 | 637 |
| 2008-09 | 652 |
| 2009-10 | 672 |
| 2010-11 | 688 |

This information is based on the LSC's 2005-06 data return which provides the most complete set of enrolment data returns in 2005-06 and is the earliest dataset available to model this information. Further education funding also accounts for 75 to 80 per cent. of total Skills for Life funding each year.

## HOUSE OF COMMONS COMMISSION

### Christmas

**Malcolm Bruce:** To ask the hon. Member for North Devon, representing the House of Commons Commission whether it is the House's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for the festive decorations on the Commons part of the Parliamentary Estate. [173480]

**Nick Harvey:** The House's energy policy requires that energy efficiency is considered in relation to carrying out works around the estate. In relation to festive lighting the larger Christmas trees provided by the House in New Palace Yard and Westminster Hall, are fitted with LED bulbs. The remaining trees are provided with incandescent bulbs.

It is not House policy to stipulate that all festive decorations brought on to the parliamentary estate must contain LED rather than incandescent lights. Some of the festive lights have been used for several years.

**Malcolm Bruce:** To ask the hon. Member for North Devon, representing the House of Commons Commission what his Department's policy is on the selection of *(a)* real and *(b)* artificial Christmas trees for festive decorations on the Commons part of the Parliamentary estate; and how real trees are disposed of. [173525]

**Nick Harvey:** Real Christmas trees are provided by the House for general areas such as New Palace Yard and Westminster Hall and for catering areas. They are disposed of in an environmentally friendly way being turned into mulch. Artificial trees in some staff areas, for example at reception desks and in offices, are purchased by staff themselves and used from year to year.

### Management and Services of the House of Commons Review

**Mr. Doran:** To ask the hon. Member for North Devon, representing the House of Commons Commission what response the Commission has made to the review by Sir Kevin Tebbit of the management and services of the House. [175300]

**Nick Harvey:** The Commission has considered comments made on the Tebbit review in the debate in Westminster Hall on 18 October and taken into account the views of the Administration, Audit and Finance and Services Committees. A response to the 56 recommendations has been agreed by the Commission and will be published on 19 December as HC 193. Copies will be available on the website at:

www.parliament.uk/about_commons/house_of_commons_commission_/workinfo.cfm

The process of implementing the review has already started and will continue throughout 2008.

### Visitor Reception Building

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission when he expects the Visitor Reception Building to open; what the expected cost of the new building was *(a)* at the commencement of building, *(b)* on 1 January 2006, *(c)* on 1 January 2007 and *(d)* on 1 November 2007; and what the final cost is expected to be. [174078]

**Nick Harvey:** The works were originally planned to be completed on 8 September 2006 and we now expect the site to be handed over to the Houses before Christmas 2007. The building is expected to open in early 2008. An exact date will be announced in the new year.

The original cost for the visitor reception building (which was part of a wider project of works in the Westminster Hall area) stated in the business case was £8,687,500. Work started on 9 January 2006. On 1 January 2007 the estimated cost was £8,727,500. Taking into account the delay and remedial work, by 1 November 2007 the cost was estimated at £11,200,000. While this is now expected to be the total cost of the building, some additional equipment will cost up to £250,000. Professional fees for completing the project and reviewing the lessons learned may add about £1 million more to the total cost. All the costs are shared between the Commons and Lords in the proportions of 60:40.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission which company won the contract to build the Visitor Reception Building; whether the contract was advertised; how many companies applied for the contract; how many were short listed; what criteria were used for choosing a company; what recent discussions the House of Commons Commission has with the successful company about completing the contract; and if he will make a statement. [174079]

**Nick Harvey:** The company which won the competition to construct the visitor reception building is William Verry Ltd. The contract was advertised under EU rules: in all 14 expressions of interest were received and six companies short-listed. Evaluation criteria used for choosing a company were:

Financial: The liquidity and/or stability of the company.

Resources: Staff with relevant experience of the roles proposed and of projects of similar extent and nature, plus reserve capacity for the company.

Experience: The company having relevant experience of similar projects in terms of content, the duties undertaken and value.

Discussions with the contractor have continued throughout. Following the appointment of a recovery project manager in the summer of 2007, the Commission approved a supplemental agreement with the contractor providing for completion of the building by 31 January 2008.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission what research has been *(a)* commissioned and *(b)* evaluated by the House of Commons Commission on the maximum number of persons permitted to stand on the ramp leading to the Visitor Reception Building; who the House of Commons Commission consulted about (i) the design and (ii) construction of the ramp; why the ramp is not covered; and if he will make a statement. [174080]

**Nick Harvey:** The design of the entrance ramp was included within the general scope of work performed by the consultant structural engineer, Messrs TPS Consult Ltd., who carried out an evaluation of the loading capacity of the ramp based on the current loading-capacity design guidelines for footbridges: the number of persons who may be permitted to stand on it are only limited by the available space to do so.

The design of the visitor reception building was considered in detail by the local authority and English Heritage, who were insistent the new building should not detract from the architecture of the Palace of Westminster Hall. Accordingly the ramp was not covered as to do so would have impact the view of Westminster Hall as seen from St. Margaret's Street.

Handling of visitors in the new entrance will be managed by the visitor assistants stationed at the kiosk by St. Stephen's. They will control access to the fast-track and normal channels, to achieve a regular flow of visitors along the ramp, and into the visitor reception building. These plans have been evaluated by the Metropolitan police and the Central Tours Office. The design and construction of the ramp are part of the original design.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission who the House of Commons Commission consulted about the location of the Visitor Reception Building; what consideration the House of Commons Commission has given to alternative entry to the Palace of Westminster when Westminster Hall is in use; and if he will make a statement. [174081]

**Nick Harvey:** The location of the visitor reception building is based on the first report from the then Accommodation and Works and Administration Committees in 2003-04 (HC 324) which was approved by the House on 12 May 2004.

With the advent of the new security search arrangements in the Visitor reception building, all visitors will enter the Palace via the North Door of Westminster Hall and exit the same way. When events occur in Westminster Hall, visitors will be received through the best available search facility. The VRB will continue to be used, and visitors will if necessary be escorted via Star Chamber Court to their destination. Alternative entry points at Portcullis House and Black Rod's Garden will also be used.

**Mr. Amess:** To ask the hon. Member for North Devon, representing the House of Commons Commission what discussions the House of Commons Commission has had with the Metropolitan Police on the *(a)* design, *(b)* location and *(c)* construction of the Visitor Reception Building since the project was initiated; and if he will make a statement. [174082]

**Nick Harvey:** The Metropolitan police have been involved at every stage of the project.

## ENVIRONMENT, FOOD AND RURAL AFFAIRS

### Agriculture: Nitrates

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs how many farmers did not comply with the action programme under the Nitrates Directive in each year since 1991; and how much total funding was deducted in each year from subsidy payments as a result. [173992]

**Mr. Woolas** *[holding answer 17 December 2007]*: The Environment Agency is responsible for enforcing compliance in England, with the Action Programme under the nitrates directive. Inspections are undertaken either as part of the cross-compliance enforcement regime (the Action Programme is a statutory management requirement) or as part of the standalone enforcement regime under the nitrates directive. Available enforcement statistics are summarised in the following table:

| | *Number of farmers non-compliant* | | |
|---|---|---|---|
| | *2005* | *2006* | *2007*[1] |
| Cross compliance | 15 | 55 | 29 |
| Standalone | 25 | 43 | 41 |
| Total | 40 | 98 | 70 |

[1] 12 December 2007.

The cases of non-compliance tabled have, to date, led to 162 producers in England having their subsidy reduced since cross compliance was introduced in 2005. Calculating the total amount of funding deducted in each year from subsidy payments would require intensive interrogation of the single payment scheme database. Therefore it is not possible to provide these figures within the time available.

### Agriculture: Non-Domestic Rates

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessment he has made of the likely effect on farming incomes of the removal of agriculture building relief; and if he will make a statement. [173980]

**Jane Kennedy:** I have been asked to reply.

The withdrawal of the agricultural buildings allowance (ABA) is part of a package of measures which also saw the reduction of the main rate of corporation tax and the introduction of a £50,000 annual investment allowance, allowing 95 per cent. of businesses to write off all their expenditure on plant and machinery in the year in which it is made. The effect of this package will vary according to the particular circumstances of a business.

### Animal Welfare: Birds of Prey

**Andrew Rosindell:** To ask the Secretary of State for Environment, Food and Rural Affairs how many offences were committed against birds of prey in the United Kingdom in the last five years. [169544]

**Joan Ruddock:** No records of offences against birds of prey are kept. Data showing the number of defendants found guilty of bird related offences under Part 1 of the Wildlife and Countryside Act 1981 from 2002 to 2006 in England and Wales are set out in the following table. It is not possible to distinguish between bird species.

*Number of defendants found guilty at all courts of selected offences under the Wildlife and Countryside Act 1981, England and Wales, 2002 to 2006*[1] [2]

| *Offence* | *Statute* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|
| Protection of captive birds | Wildlife and Countryside Act 1981 Sec 8 | 2 | — | 1 | 2 | — |
| Wildlife and Countryside Act 1981 Sec1 | Protection of wild birds | 11 | 20 | 52 | 24 | 87 |
| Wildlife and Countryside Act 1981 Sec 1 | Protection of nests and eggs of wild birds | 7 | 7 | 8 | 9 | 11 |
| Wildlife and Countryside Act 1981 Sec 3 | Protection of wild birds in sanctuaries | — | 1 | — | | — |
| Wildlife and Countryside Act 1981 Sec 3 | Protection of the nests and eggs of wild birds in sanctuaries | — | | — | | — |
| Wildlife and Countryside Act 1981 Sec 3 | Illegal entry into bird sanctuaries | | — | — | | — |
| Wildlife and Countryside Act 1981 Sec 5 | Prohibition of certain methods of killing or taking wild birds | 4 | 3 | 1 | 3 | 4 |
| Wildlife and Countryside Act 1981 Sec 6 | Sale etc. of live or dead wild birds, eggs etc. | — | — | 1 | | 1 |
| Wildlife and Countryside Act 1981 Sec 7 | Registration etc. of certain captive birds | 2 | 2 | 1 | | — |
| Total | | 26 | 33 | 64 | 38 | 103 |

[1] These data are on the principal offence basis. [2] Every effort is made to ensure that the figures presented are accurate and complete. However, it is important to note that these data have been extracted from large administrative data systems generated by the courts and police forces.

### Bellwin Scheme

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs whether he plans to extend funding under the Bellwin Scheme for areas affected by the flooding in Summer 2007 beyond 25 December. [172019]

**John Healey:** I have been asked to reply.

The time limit for eligible spending for Bellwin grant in respect of local authority costs incurred in dealing with the June floods is 14 December 2007. For the July floods, it is 2 January 2008. That represents a considerable extension of the normal two-month period and there are no plans to extend the periods of eligibility further.

### Birds: Imports

**Mr. Morley:** To ask the Secretary of State for Environment, Food and Rural Affairs how many *(a)* CITES—Convention on International Trade in Endangered Species of Wild Fauna and Flora—and *(b)* non-CITES listed birds were imported into the EU each year between 2000 and 2006. [172697]

**Joan Ruddock:** The number of CITES listed birds imported into the EU between 2000 and 2006 was as follows:

| | *Number* |
|---|---|
| 2000 | 1,185,362 |
| 2001 | 877,028 |
| 2002 | 512,354 |

| | *Number* |
|---|---|
| 2003 | 605,915 |
| 2004 | 665,672 |
| 2005 | 612,672 |
| 2006 | 1,121 |

The UK does not hold records on imports of non-CITES species into the EU.

### Cross Departmental Committee for Inland Waterways

**Charlotte Atkins:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what *(a)* staff, *(b)* research support and *(c)* funding has been allocated to the Cross Departmental Committee for Inland Waterways; [174975]

(2) whether the Cross Departmental Committee for Inland Waterways is a permanent committee or time limited; [174976]

(3) who sits on the Cross Departmental Committee for Inland Waterways; [174977]

(4) what departments are represented on the Cross Departmental Committee for Inland Waterways; [174978]

(5) what the terms of reference are of the Cross Departmental Committee for Inland Waterways. [174979]

**Jonathan Shaw:** The Inter-Departmental Working Group on Inland Waterways is supported by the Departments for Transport, Communities and Local Government, Culture, Media and Sport, Health and Business, Enterprise and Regulatory Reform. It will also be attended by British Waterways, the Inland Waterways Advisory Council and the Association of Navigation Authorities to inform the discussions and to help develop policy through bringing a delivery and stakeholder focus.

The first meeting took place on 17 December at which its role and future work were discussed. Terms of reference will now be worked-up for agreement at the next meeting. It is expected that the Group will meet three times a year. The Group itself will decide how long it continues. No specific resources have been allocated to the Group as it will make use of existing departmental resources as appropriate.

### Environment Agency: Finance

**David Davis:** To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent changes have there been in the allocation of funding for medium-term plans submitted to the Environment Agency; [172717]

(2) what score on the Environment Agency's predetermined scale is necessary for an application for medium-term plan funding to be classed as favourable for approval; and what score was needed to reach this rating for each of the last five years. [172718]

**Mr. Woolas:** From April 2008 and for the three-year comprehensive spending review (CSR) period, the Environment Agency and other operating authorities (i.e. local authorities and internal drainage boards) will deliver a number of outcome measures agreed with DEFRA. Targets will be set in the next few months.

During the CSR period, the current prioritisation method will migrate to a new system based around these outcome measures. While the new method is being developed and tested, the Environment Agency will use the existing system, moderated to take account of the outcome measures, urgent works or those required to fulfil legal requirements.

The achievement of these measures is an integral part of the prioritisation of the capital investment programmes for all operating authorities. As a result, all flood management and coastal erosion management schemes will be prioritised on a common basis.

As part of its strategic overview role for inland flooding and forthcoming strategic overview for matters associated with coastal flooding and erosion, the Environment Agency will administer the grant-in-aid arrangements, including extending its national programme management role to the prioritisation of schemes proposed by other operating authorities.

The priority score thresholds for the period from 2002-03 to 2005-06 were set by DEFRA as follows:

| | *Priority Score Thresholds* |
|---|---|
| 2005-06 | 19 |
| 2004-05 | 20 |
| 2003-04 | 22 |
| 2002-03 | 20 |

DEFRA did not set a threshold score in 2006-07 when the Department's programme was fully committed. However, the priority score system has still been used to inform the allocation process for capital investment, moderated for urgent works or those required to fulfil legal requirements.

### Floods: House Insurance

**Mr. Ian Taylor:** To ask the Secretary of State for Environment, Food and Rural Affairs what the reasons are for the Environment Agency's policy that insurers should refuse cover for homes which local authorities have allowed to be built on flood plains; and if he will make a statement. [174245]

**Mr. Woolas:** The decision whether to provide cover to properties on a flood plain is a matter for individual insurance companies. Insurance companies will take their own views on the risks that they are prepared to bear and at what cost; potential purchasers would be well advised to satisfy themselves that insurance will be available in the long term.

### Floods: Yorkshire and Humberside

**Miss McIntosh:** To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons he has reduced the budget for the north-east of England for the construction of flood defences, with particular reference to the budget for Yorkshire and the Humber. [170421]

**Mr. Woolas:** The Secretary of State has not reduced the budget for the construction of flood defences in the north of England this year; funding for the Yorkshire Regional Flood Defence Committee is a matter for the Environment Agency.

### Game Birds

**Mr. Hancock:** To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 28 November 2007, *Official Report*, column 537W, on game birds, what the *(a)* evidential basis and *(b)* methodology was for the estimate the report referred to that 99 per cent. of game birds shot for sport were destined for the food chain; and if he will make a statement. [172820]

**Joan Ruddock:** The report was not commissioned by my Department. Any questions relating to the evidential basis and methodology of it should be referred to the commissioners of the report: the British Association for Shooting and Conservation, the Countryside Alliance, the Game Conservancy Trust or the Country Land and Business Association.

### Nitrate Sensitive Areas

**Mr. Evans:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the annual reduction in nitrates that will be achieved by the proposed extension of the closed period in nitrate vulnerable zones. [173993]

**Mr. Woolas** *[holding answer 17 December 2007]*: The Regulatory Impact Assessment and paper "D5—Impact of the proposed Nitrate Vulnerable Zone Action Programme measures", published in support of the consultation on implementation of the nitrates directive in England, provide details of my Department's assessment of the likely impact of the proposed measures on losses of nitrate from agriculture.

It is estimated that the closed period for organic manure will reduce nitrate losses from agriculture by 0.5 per cent. to 1 per cent., and the closed period for manufactured nitrogen fertiliser will reduce losses by a further 0 per cent. to 1 per cent.

The Regulatory Impact Assessment and paper "D5—Impact of the proposed NVZ Action Programme measures" are available through DEFRA'S website.

### Renew Defra Programme

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what targets he has set for the Renew DEFRA programme; and if he will make a statement. [170930]

**Jonathan Shaw:** The Renew DEFRA programme is an internal reform programme led by the Permanent Secretary which is due to complete in August 2008.

Work is being completed on the benefits realisation plan including work on baselining and setting appropriate targets and measures, and this will continue during and beyond the lifetime of the programme.

### Water: Nitrates

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what the level of nitrates in water was *(a)* in England and *(b)* in Gloucestershire in each of the last five years for which figures are available; and if he will make a statement. [173977]

**Mr. Woolas:** It is not possible to provide the information requested, as this would require extensive research to be undertaken at a disproportionate cost.

Approximately 7,000 surface water and 3,000 groundwater monitoring points in England and Wales were used to assess whether waters should be identified as polluted waters, in the recent review under the nitrates directive.

**Mr. Laurence Robertson:** To ask the Secretary of State for Environment, Food and Rural Affairs what estimate he has made of the potential cost to water companies of removing polluting nitrates from water; and if he will make a statement. [173979]

**Mr. Woolas:** The regulatory impact assessment accompanying the consultation on the implementation of the nitrates directive in England, provides details of my Department's assessment of the potential cost to water companies of removing polluting nitrates from water.

The cost to the water industry to reduce high nitrate levels caused by diffuse pollution in drinking water supplies has been estimated at £288 million (capital expenditure) and £6 million per annum (operating expenditure) for the 2005-10 period.

### Wind Power: Department for Business, Enterprise and Regulatory Reform

**Bill Wiggin:** To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions he has had with the Secretary of State for Business, Enterprise and Regulatory Reform on wind farms; and if he will make a statement. [174151]

**Mr. Woolas:** The Secretary of State for Environment, Food and Rural Affairs, regularly meets with the Secretary of State for Business, Enterprise and Regulatory Reform to discuss issues relating to renewable and low carbon energy, including wind farms.

## CHILDREN, SCHOOLS AND FAMILIES

### Capita

**Mr. Gibb:** To ask the Secretary of State for Children, Schools and Families pursuant to the answer of 21 November 2007, *Official Report*, column 951W, on Capita, what services Capita and its subsidiaries provide to his Department. [168899]

**Kevin Brennan:** The Department does not maintain a record of contracts that have been awarded and a complete and accurate answer to the question could be supplied only at disproportionate cost. I can tell the hon. Member, however, from information held centrally that Capita provide the following services to the Department:

Teachers' Pensions Administration;

National Strategies;

Consultancy support for the Children's Services Improvement Framework;

Project management and construction project management services for academies;

Management consultancy services to the Department;

A Criminal Records Bureau checking service for day care providers and

The supply of interim personnel and consultants for the Office of the Schools Commissioner and Academies.

### Children: Autism

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what steps the Government have taken to assist parents whose children are autistic since 1997. [172642]

**Jim Knight** *[holding answer 13 December 2007]:* The Government have taken a range of steps to assist parents of children with Autistic Spectrum Disorders (ASDs).

The Early Years Support programme has produced a Family Pack, including a booklet containing information for the parents of children with ASDs, who are going through the process of getting a diagnosis or have been recently diagnosed. It was produced in association with the National Autistic Society and Parents' Autism Campaign for Education. Over 50,000 copies have been distributed.

Under the Children, Young People and Families Grant Programme, the then Department for Education and Skills provided a grant of £220,000 over a three-year period to the TreeHouse Trust in 2006-07. This grant is to carry out work with parents' groups and local authority professionals on collaborative working towards better autism services and making information on ASDs more readily available. This year under this grant programme the Department for Children Schools and Families has awarded The National Autistic Society £200,000 over the next three years. This money will expand provision of courses to provide parents with an overview of autistic spectrum disorders; strategies on improving communication; guidance on educational rights and access to services and benefits.

The 'Aiming High for Disabled Children' report (May 2007) announced £280 million over 2008-11 to improve provision of short breaks for families of disabled children. Children with ASDs and their parents will benefit from this funding.

**Mr. Jim Cunningham:** To ask the Secretary of State for Children, Schools and Families what resources have been provided for schools to assist with the education of children with autism since 1997. [172643]

**Jim Knight** *[holding answer 13 December 2007]:* In 2002, the autism working group of the former Department for Education and Skills, published good practice guidance on autistic spectrum disorders (ASDs). The guidance is for schools, local authorities and others who provide for children with autism. Part one gives general guidance on autistic spectrum disorders and part two gives pointers to good practice which can be used to audit and develop provision. The online version contains examples to illustrate the pointers. Over 32,000 copies of the guidance have been distributed on demand.

The Department-funded regional partnerships have also provided resources for schools. For example guidance on delivering the curriculum for children with ASDs in secondary schools (north-west) and a video illustrating effective practice for children with ASDs (south-west). South-central has developed guidance for learning support assistants and Merseyside a transition toolkit for children with ASDs moving from primary to secondary school.

In 2007-08 six of the nine regional partnerships are being funded for autism related innovation projects. For example the south-east partnership has been awarded a grant of £50,000 to support secondary inclusion for young people with Asperger's syndrome.

In October this year the Government launched the Inclusion Development Programme (IDP). This £2 million project will improve the skills of teachers by advising them on how to develop teaching strategies for children with SEN and providing guidance on dealing with common classroom challenges. Phase two of the programme, which includes the production of training materials, will focus on support for children with ASDs.

This year the Government also provided funding for a group of voluntary organisations, The National Autistic Society, the TreeHouse Trust and the Council for Disabled Children, to set up the Autism Education Trust. The trust was launched on 12 November. The aim of the trust is to bring together voluntary and independent providers to plan and develop further improvements in education provision for children with autism.

In addition to these specific resources, children with ASDs will benefit from the sustained increases in funding for children with all types of special educational need (SEN). Local authorities' planned spending on SEN stood at almost £4.9 billion in 2007-08, up from almost £2.8 billion in 2000-01. Indicative SEN funding in mainstream schools rose by 52 per cent. from almost £1.3 billion in 2003-04 to over £2.0 billion in 2007-08 and school budgets for special schools rose by 31 per cent. from almost £1.1 billion to over £1.4 billion over the same period.

### Children: Databases

**Annette Brooke:** To ask the Secretary of State for Children, Schools and Families what steps he is taking to include independent schools in the operation of ContactPoint. [173982]

**Kevin Brennan** *[holding answer 13 December 2007]:* The Children Act 2004 Information Database (England) Regulations 2007 require independent schools to supply data for inclusion on ContactPoint. The regulations also provide for authorised staff in independent schools to be granted access to the database.

The Department is currently undertaking a study to assess the options, cost and feasibility of establishing a regular, departmental collection of pupil level data from independent schools.

Local authorities have been encouraged to approach independent schools in their area, to raise awareness of ContactPoint and to begin to identify which staff in independent schools should have access to ContactPoint.

The Independent Schools Council has participated in ContactPoint consultations on draft regulations and draft guidance. Officials have met with the Independent Schools Council on a number of occasions and hope to continue to engage them as we finalise the guidance and move towards the implementation of ContactPoint

### Children: Day Care

**Danny Alexander:** To ask the Secretary of State for Children, Schools and Families how many people in each *(a)* income decile, *(b)* region and *(c)* income decile in each region took up formal childcare in the last 12 months. [174728]

**Beverley Hughes:** The 2004 Parents' Childcare Survey[1] estimated that 3.42 million families in England used formal childcare in the last year. The proportion of families who used childcare over the last year by income and region is shown in the following table; income deciles cannot be calculated as the income data is collected in bands rather than actual amounts.

[1] Childcare and Early Years Provision: A Study of Report 723; DfES. Bryson, C., Kazimirski, A. and Southwood, H (2006). This report is available at:

http://www.dfes.gov.uk/research/data/uploadfiles/RR723.pdf

*Table: Use of formal childcare in the last year by region and annual household income*

*Percentage of families*

| | *Under £10,000* | *£10,000 to £19,999* | *£20,000 to £31,999* | *£32,000+* | *Total* |
|---|---|---|---|---|---|
| North East | 51 | 49 | 50 | 63 | 51 |
| North West | 47 | 46 | 56 | 67 | 53 |
| Yorkshire and Humber | 49 | 46 | 57 | 69 | 55 |
| East Midlands | 44 | 55 | 58 | 73 | 59 |
| West Midlands | 46 | 48 | 61 | 61 | 55 |
| East | 45 | 54 | 56 | 66 | 58 |
| London | 46 | 49 | 59 | 75 | 56 |
| South East | 47 | 57 | 64 | 69 | 62 |
| South West | 47 | 51 | 67 | 74 | 59 |
| Total | 47 | 50 | 59 | 69 | 57 |

Higher income families were more likely to have used childcare in the last year than lower income families; 69 per cent. of families with a yearly income over £32,000 had used formal childcare in the last year, compared with 47 per cent. of families with a yearly income of under £10,000.

Use of childcare varied by region; 51 per cent. of families in the North East had used formal childcare in the last year compared with 62 per cent. of families in the South East.

The results from the next Parents' Childcare Survey will be published in February 2008.

### Children: Hearing Impaired

**Mr. Harper:** To ask the Secretary of State for Children, Schools and Families (1) what guidance is issued to local education authorities on the provision of signing assistance in schools for children with hearing impairments; [173548]

(2) what assessment he has made of the educational achievement of *(a)* deaf and *(b)* hearing impaired children in each of the last five years. [173549]

**Jim Knight:** There is no specific guidance issued to local authorities on the provision of signing assistance in schools for children with hearing impairments, however the SEN statutory framework and the SEN code of practice should ensure that all children with special needs have those needs identified and assessed and receive appropriate support.

It is for local authorities to determine what provision they make for children with special educational needs, including children with hearing impairment, taking into account the needs of the individual child, parental preference and local circumstances.

Parents of deaf and hearing impaired children with a statement of special educational needs, are able to express a preference for the maintained school they would like their children to attend based on the communication approaches offered by different schools auditory-oral, total communication and sign bilingualism.

We do not routinely make a separate assessment of the educational achievement of children with hearing impairment. All pupils both with and without SEN are assessed at the end of key stages of learning and pupils with a statement of SEN have their needs reviewed annually. We are currently in discussion with deaf and hearing impairment organisations about improving the availability of school attainment data for this group of pupils.

### Children: Poverty

**Mr. Hayes:** To ask the Secretary of State for Children, Schools and Families whether his Department is on course to meet the child poverty target set for 2010. [174338]

**Beverley Hughes:** We remain committed to meeting our poverty targets to halve child poverty by 2010-11, on the way to eradicating it by 2020.

The publication of a new public service agreement reaffirms our commitment to halving child poverty and we have published a delivery agreement outlining how Government will work together to achieve this.

Between 1998-99 and 2005-06 the UK saw the biggest child poverty reduction in Europe and 600,000 children have been lifted out of relative poverty. Together, PBR and Budget 2007 will lift up to a further 300,000 children out of poverty. Decisions on financial support will continue to be taken at PBRs and Budgets in the usual way.

### Children's Centres: Internet

**Mr. Hancock:** To ask the Secretary of State for Children, Schools and Families what the Government's policy is on virtual children's centres. [174234]

**Beverley Hughes:** We expect all Sure Start children's centres to have a building as a focal point that is clearly identifiable as the Sure Start children's centre. A centre may comprise several neighbouring buildings each hosting some of the core services, although only one of these should be clearly identified as the reception and act as the centre's postal address. Ideally, we want to see services collocated, and under one roof, but accept that this will not always be achievable. In rural areas for example, where a centre serves families living across a wide geographical area, there will often be a main centre and a number of 'outreach' sites which support the delivery of services close to where families live. We are aware that some local authorities do use the term 'virtual children's centre' where they already have a range of services up and running, serving children and families, but the new building that will be the Sure Start children's centre is still under construction.

### Children's Centres: Midwives

**Mr. Hancock:** To ask the Secretary of State for Children, Schools and Families how many children's centres make facilities available to midwives working in the community. [174233]

**Beverley Hughes:** All Sure Start children's centres should link to maternity services. The Government's Practice Guidance (2006) for local authorities and the health service says that in the most disadvantaged areas we expect to see midwives working from Sure Start children's centres, or having strong links with centres.

We do not collect information at national level on the nature and extent of services provided in every Sure Start children's centre. We have, however, asked our delivery contractors, Together for Children (TfC), to ensure that local authorities and local health partners are working together to plan and deliver children's centre services. TfC are also collecting evidence of good practice to share and disseminate with local authorities and the health service.

### Children's Centres: Standards

**James Brokenshire:** To ask the Secretary of State for Children, Schools and Families what progress has been made towards the target for a children's centre in each community by 2010. [174432]

**Beverley Hughes:** As of 13 December there are 1,789 designated Sure Start Children's Centres. The Government are on track to meet its commitment to deliver a Sure Start Children's Centre for every community in England by 2010, offering integrated services that will improve outcomes for young children, and reduce inequalities between the most disadvantaged and the rest.

### Children's Review: Public Participation

**Mr. Hoban:** To ask the Secretary of State for Children, Schools and Families how many submissions have been made online to the Children's Review. [173192]

**Kevin Brennan:** Details of responses received on line to the 'Time to talk' consultation can be found in the 'Time to Talk Consultation Report Summary'. The full report is available on the DCSF website. The relevant extract from the report shows:

*Response rates*

| *Method* | *Number of responses from adults* | *Number of responses from children/young people* |
|---|---|---|
| Online survey—adults (including adult toolkit response) | 1,960 | — |
| Online survey—young people | | 103 |

### Climate Change

**Rob Marris:** To ask the Secretary of State for Children, Schools and Families what steps his Department *(a)* has taken and *(b)* intends to take by (i) 2012 and (ii) 2020 in relation to adaptation to the effects of climate change as they affect his departmental responsibilities; and if he will make a statement. [166422]

**Kevin Brennan** *[holding answer 6 December 2007]*: The steps the Department has taken and intends to take are set out in the Sustainable Development Action Plan (SDAP), 'Learning for the Future', covering 2006-08. We recently submitted a progress report on this to the Sustainable Development Commission (SDC), the Government's independent watch dog on Sustainable development.

SDC will be shortly be publishing their analysis of the progress of Government Departments.

We are currently working on the content of a new SDAP that will cover 2008-10. This will incorporate the Government's overall intentions as laid out in the recent Climate Change Bill and the cross-Government Adaptation Policy Framework to be published in the spring.

Subsequent SDAPs are likely to continue to reflect the work of the Department in addressing the effects of climate change on children, schools and families.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Secretary of State for Children, Schools and Families if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identities; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170239]

**Kevin Brennan:** We do not produce hard copies of our brand guidelines, but will have one copy printed for the Library, as requested.

*(a)* This year we spent £4,876 on revising existing brand guidelines when the Department for Children, Schools and Families was created.

*(b)* Complying with our brand guidelines incurs no additional cost. They have been designed to minimise costs, as we require no special inks, papers or formats.

We do not hold information centrally on agencies' costs.

### Departmental Publicity

**Mr. Philip Hammond:** To ask the Secretary of State for Children, Schools and Families how much his Department, its predecessors and its agencies spent on managing their corporate identities in the last 12 month period for which figures are available. [167353]

**Kevin Brennan:** The costs for producing branded material when the Department for Children, Schools and Families (DCSF) was created were:

£14,215 for the design, production and installation of signs (to date).

£900 to recycle out-of-date stationery stock; electronic headed paper, at no cost, was used until the next scheduled production run of printed stationery.

A further £3472 of expenditure was incurred recently to replace the Department's signage at our Moorfoot site in Sheffield. However, these costs were primarily related to replacement of dilapidated signage.

This year we spent £4,876 on revising existing Department for Education and Skills brand guidelines when DCSF was created.

We do not hold information centrally on agencies' costs.

### Departmental Standards

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families for what targets his Department has sole or joint responsibility; what assessment he has made in each case of whether the target is being met; and if he will make a statement. [172096]

**Kevin Brennan:** The Department published its autumn performance report on 7 December 2007 and copies are available in the House Library (Cm 7279). The autumn performance report assesses progress against my Department's Spending Review 2004 public service agreement (PSA) targets, including our efficiency target and any PSA targets outstanding from earlier Spending Reviews. The 2007 comprehensive spending review announced new PSAs for my Department to lead on, details of which are available on the HM Treasury website at:

www.hm-treasury.gov.uk/pbr_csr/psa/pbr_csr07_psaindex.cfm

**Julia Goldsworthy:** To ask the Secretary of State for Children, Schools and Families what information is collected against the performance management indicators published by the Citizen and Business Contact Centre. [173390]

**Kevin Brennan** *[holding answer 11 December 2007]:* The Department's Public Communications Unit, which responds to public inquiries made by phone, letter and email, has submitted a response to the dry run Citizen and Business Contact Centre Council performance report for July-September 2007. The response is based on those indicators which are relevant to the contact services the Department provides.

### National Identity Register

**Mr. Philip Hammond:** To ask the Secretary of State for Children, Schools and Families what plans his Department has to make use of data on the National Identity Register when it is established; and what the estimated annual cost to his Department of that use is. [174028]

**Jim Knight:** The Department for Children, Schools and Families has no current plans to make use of data on the National Identity Register when it is established.

### Pupil Exclusions

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families how many permanent exclusions in *(a)* primary and *(b)* secondary schools there were in each of the last three years, broken down by school term. [171040]

**Kevin Brennan:** Information on the number of permanent exclusions broken down by school term is not available. Information is collected retrospectively via school census (SC) returns. Prior to 2005/06, school census returns were made on an annual basis. Since 2005/06, data for secondary schools have been collected termly, primary schools began making termly returns in 2006/07. As this is a new collection, data on numbers of permanent exclusions are subject to checking by local authorities. This is done on an annual basis; data broken down by school term are therefore not yet available

The readily available information on the number of permanent exclusions is given in the table.

*Maintained primary, secondary and special schools[1] [2], number of permanent exclusions by type of school, England, 1997/98 to 2005/06*

| | *1997/98* | *1998/99* | *1999/2000* | *2000/01*[3] | *2001/02* | *2002/03* | *2003/04* | *2004/05* | *2005/06* |
|---|---|---|---|---|---|---|---|---|---|
| *Primary schools* | | | | | | | | | |
| Number of permanent exclusions | 1,540 | 1,370 | 1,230 | 1,440 | 1,450 | 1,300 | 1,270 | 1,090 | 970 |
| Percentage of permanent exclusions[4] | 13 | 13 | 15 | 16 | 15 | 14 | 13 | 12 | 11 |
| Percentage of school population[5] | 0.03 | 0.03 | 0.03 | 0.03 | 0.03 | 0.03 | 0.03 | 0.03 | 0.02 |
| *Secondary schools* | | | | | | | | | |
| Number of permanent exclusions | 10,190 | 8,640 | 6,710 | 7,310 | 7,740 | 7,690 | 8,320 | 8,070 | 7,990 |

*Maintained primary, secondary and special schools[1] [2], number of permanent exclusions by type of school, England, 1997/98 to 2005/06*

| | *1997/98* | *1998/99* | *1999/2000* | *2000/01*[3] | *2001/02* | *2002/03* | *2003/04* | *2004/05* | *2005/06* |
|---|---|---|---|---|---|---|---|---|---|
| Percentage of permanent exclusions[4] | 83 | 83 | 81 | 80 | 81 | 83 | 84 | 85 | 87 |
| Percentage of school population[5] | 0.33 | 0.28 | 0.21 | 0.23 | 0.24 | 0.23 | 0.25 | 0.24 | 0.24 |
| *Special schools* | | | | | | | | | |
| Number of permanent exclusions | 570 | 440 | 380 | 390 | 340 | 300 | 300 | 280 | 210 |
| Percentage of permanent exclusions[4] | 5 | 4 | 5 | 4 | 4 | 3 | 3 | 3 | 2 |
| Percentage of school population[5] | 0.58 | 0.45 | 0.40 | 0.41 | 0.36 | 032 | 0.33 | 0.31 | 0.23 |
| *All schools* | | | | | | | | | |
| Number of permanent exclusions | 12,300 | 10,440 | 8,320 | 9,140 | 9,540 | 9,290 | 9,880 | 9,440 | 9,170 |
| Percentage of permanent exclusions[4] | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 | 100 |
| Percentage of school population[5] | 0.16 | 0.14 | 0.11 | 0.12 | 0.12 | 0.12 | 0.13 | 0.12 | 0.12 |

[1] Includes middle schools as deemed.

[2] Includes both maintained and non-maintained special schools.

[3] Permanent exclusions for 2000/01 are estimated as a number of local authorities have not confirmed the data for their schools.

[4] The number of permanent exclusions expressed as a percentage of the total number.

[5] The number of permanent exclusions expressed as a percentage of the number (headcount) of all pupils (excluding dually registered pupils in special schools) in January each year.

*Note:*

Totals may not appear to equal the sum of component parts because numbers have been rounded to the nearest 10.

*Source:*

School Census.

## Pupil Exclusions: Appeals

**Mr. Laws:** To ask the Secretary of State for Children, Schools and Families what rights a parent has to appeal against permanent exclusion from *(a)* a maintained school and *(b)* an academy; and if he will make a statement. [173243]

**Kevin Brennan:** All permanent exclusions from a maintained school or an academy must be reviewed by the governing body. Parents have the right to make representations, in person or in writing, to the governing body's review meeting.

Where a maintained school's governing body upholds the decision to permanently exclude, the parent may appeal to an independent exclusion appeal panel. Academies, by virtue of the funding agreement, are required to have arrangements consistent with those for maintained schools: this requires them to make arrangements for an independent panel to consider parents' appeals against permanent exclusion.

## Pupils: Absenteeism

**Michael Gove:** To ask the Secretary of State for Children, Schools and Families (1) in how many schools more than *(a)* 20 per cent., *(b)* 30 per cent., *(c)* 40 per cent., *(d)* 50 per cent., *(e)* 60 per cent., *(f)* 70 per cent., *(g)* 80 per cent., and *(h)* 90 per cent. of pupils took an unauthorised absence in the last school year for which figures are available, broken down by (i) region and (ii) local education authority; [169133]

(2) how many pupils recorded at least *(a)* one, *(b)* 10 and *(c)* 40 unauthorised absences in each year since 1997, broken down by (i) region and (ii) local education authority. [169123]

**Kevin Brennan:** The information requested can be provided only at disproportionate cost.

School level absence rates have previously been published as part of the Achievement and Attainments tables. These can be found at:

http://www.dcsf.gov.uk/performancetables/

## Pupils: Per Capita Costs

**Mr. Jenkins:** To ask the Secretary of State for Children, Schools and Families what the average spending per secondary school pupil in *(a)* Staffordshire and *(b)* England was in each of the last 10 years. [173074]

**Jim Knight:** The information requested is contained within the following table:

*Secondary[1] school based expenditure[2] per pupil[3] 1997-98 to 2006-07[4,5,6]*

| | *Staffordshire* | *England* |
|---|---|---|
| 1997-98 | 2,110 | 2,360 |
| 1998-99 | 2,200 | 2,450 |
| 1999-2000[4,6] | 2,400 | 2,610 |
| 2000-01 | 2,620 | 2,830 |
| 2001-02 | 2,900 | 3,150 |
| 2002-03[4,5] | 2,850 | 3,230 |
| 2003-04 | 3,120 | 3,550 |
| 2004-05 | 3,400 | 3,800 |
| 2005-06 | 3,700 | 4,070 |

*Secondary[1] school based expenditure[2] per pupil[3]: 1997-98 to 2006-07[4,5,6]*

| | *Staffordshire* | *England* |
|---|---|---|
| 2006-07[7] | 3,950 | 4,320 |

[1] Figures for secondary schools include all expenditure incurred directly by local authority maintained secondary schools. This also includes any expenditure on 6th form pupils attending maintained secondary schools.

[2] School-based expenditure includes only expenditure incurred directly by the schools. This includes the pay of teachers and school-based support staff, school premises costs, books and equipment, and certain other supplies and services, less any capital items funded from recurrent spending and income from sales, fees and charges and rents and rates. This excludes the central cost of support services such as home to school transport, local authority administration and the financing of capital expenditure.

[3] Pupil numbers include only those pupils attending maintained secondary schools and are drawn from the DCSF Schools Census adjusted to be on a financial year basis.

[4] 1999-2000 saw a change in data source when the data collection moved from the RO1 form collected by the DCLG (formerly ODPM) to the Section 52 form from the DCSF. 2002-03 saw a further break in the time series following the introduction of Consistent Financial Reporting (CFR) to schools and the associated restructuring of the outturn tables. The change in sources is shown by the blank rows.

[5] The calculation for 2002-03 onwards is broadly similar to the calculation in previous years. However, 2001-02 and earlier years includes all premature retirement compensation (PRC) and Crombie payments, mandatory PRC payments and other indirect employee expenses. In 2001-02 this accounted for approximately £70 per pupil of the England total. From 2002-03 onwards only the schools element of these categories is included and this accounted for approximately £50 per pupil of the 2002-03 England total. Also, for some LAs, expenditure that had previously been attributed to the school sectors was reported within the LA part of the form from 2002-03, though this is not quantifiable from existing sources.

[6] The 1999-2000 figures reflect the return of GM schools to local authority maintenance.

[7] Figures are as reported by local authorities as at 7 December 2007 and are rounded to the nearest 10. 2006-07 data is subject to change by the local authority.

*Note:*

Cash terms figures are provided here.

**David Davis:** To ask the Secretary of State for Children, Schools and Families how much per pupil will be received in each local authority area in England for the 2008-09 school year. [173440]

**Jim Knight:** The guaranteed per pupil unit of funding for 2008-09 for all local authorities are provided in the following table. This covers all funded pupils aged 3-15.

| *Local authority* | *2008-09 guaranteed per pupil unit of funding (£)* |

| Warwickshire | 3,789 |
| West Berkshire | 3,984 |
| West Sussex | 3,877 |
| Westminster | 5,439 |
| Wigan | 3,948 |
| Wiltshire | 3,713 |
| Windsor and Maidenhead | 4,040 |
| Wirral | 3,937 |
| Wokingham | 3,844 |
| Wolverhampton | 4,145 |
| Worcestershire | 3,729 |
| York | 3,801 |

*Notes:*

1. This covers funding through the dedicated schools grants (DSG).
2. This figure does not represent the totality of "education" funding allocated in that year. There are other grants that support the schools budget whose allocations have not yet been finalised—these are not included in the provided DSG figure.
3. Figures are in cash terms.

**David Davis:** To ask the Secretary of State for Children, Schools and Families how much per capita *(a)* the East Riding of Yorkshire council, *(b)* Hull city council, *(c)* North Lincolnshire council, *(d)* North East Lincolnshire council and *(e)* local authorities in England will receive in central government funding in 2007-08. [173568]

**Jim Knight:** The revenue per pupil figures shown in the following table are taken from the dedicated schools grant (DSG) which was introduced in April 2006 and other grants. The figures are for all funded pupils aged three to 19.

| *Local authority* | *DSG plus grants 2007-08 (£)* |
|---|---|
| East Riding of Yorkshire | 4,104 |
| Kingston Upon Hull | 4,705 |
| North Lincolnshire | 4,279 |
| North East Lincolnshire | 4,661 |
| | |
| England average | 4,525 |

*Notes:*

1. This covers funding through the dedicated schools grant, school standards grant, school standards grant (personalisation) and standards fund as well as funding from the Learning and Skills Council; it excludes grants which are not allocated at LEA level.
2. Some of the grant allocations have not been finalised. If these do change, the effect on the funding figures is expected to be minimal.
3. Figures are in cash terms.

## Religion: Education

**Mrs. May:** To ask the Secretary of State for Children, Schools and Families which religious education (RE) local syllabuses include the study of the book Islam: Beliefs and Teachings by Gulam Sarwar; and which schools use the book in teaching RE. [173082]

**Jim Knight:** Locally agreed syllabuses do not contain references to specific texts, nor do the Government specify which texts should be used in schools. In 2004 we published a non-statutory framework for religious education, on which we encourage Agreed Syllabus Conferences to base their syllabuses. The framework places inclusion, tolerance, diversity and interfaith dialogue at the heart of children's learning. These principles are shared both by the Department and faith communities. It is up to schools and teachers to use their professional judgment as to how best to deliver religious education within the locally agreed syllabus and in the spirit of the framework.

### Schools: Admissions

**Bob Russell:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the impact of the Schools Admission Code 2007 on families with twins, triplets or higher multiples; and if he will make a statement. [173123]

**Jim Knight:** Local authorities and admission authorities must act in accordance with the school admissions code. In relation to siblings at primary schools, it says that admission authorities should make sure in their oversubscription criteria that, as far as possible, siblings (including twins, triplets or children from other multiple births) can attend the same primary school, as long as they comply with the infant class size regulations. The code goes on to say that children at secondary school age are usually more independent, but does provide guidance for admission authorities on how to help meet parents' wishes where they wish siblings to continue to attend the same school.

The code makes schools' admission arrangements fairer and more transparent for parents. The code applies to admissions to schools from September 2008. We are therefore planning to look at what impact the code has had from 2008.

### Schools: Finance

**Mr. Jenkins:** To ask the Secretary of State for Children, Schools and Families when he decided the school funding settlement for 2008-09 to 2010-11; what consideration he gave to small pockets of deprivation in determining the settlement; and if he will make a statement. [173443]

**Jim Knight:** On 12 November 2007, I announced to Parliament the three-year school funding settlement for 2008-09 to 2010-11. My statement can be found on the teachernet website at:

http://www.teachernet.gov.uk/docbank/index.cfm?id=12219.

A new deprivation indicator is being used to fund the pockets of deprivation ministerial priority included in the 2008-11 dedicated schools grant allocations. Further information on the new indicator and the local authority allocations for pockets of deprivation is on teachernet at:

www.teachernet.gov.uk/dsg200811/

### Science: GCE A-Level

**Mr. Spring:** To ask the Secretary of State for Children, Schools and Families how many and what percentage of pupils in Suffolk have studied *(a)* chemistry, *(b)* biology and *(c)* physics A-Level in each of the last five years. [173452]

**Jim Knight:** The number of GCE A level entries by 16 to 18-year-olds in chemistry, biology and physics in Suffolk are provided in the following table. These numbers, as a proportion of all GCE A level entries in Suffolk, are also provided.

| | *2003* | *2004* | *2005* | *2006* | *2007*[1] |
|---|---|---|---|---|---|
| *Number of entries* | | | | | |
| Biology | 609 | 557 | 598 | 606 | 683 |
| Chemistry | 428 | 439 | 444 | 483 | 470 |
| Physics | 416 | 378 | 391 | 361 | 402 |
| *Proportion of all entries (percentage)* | | | | | |
| Biology | 7.2 | 6.5 | 6.8 | 6.6 | 7.2 |
| Chemistry | 5.1 | 5.1 | 5.1 | 5.3 | 5.0 |
| Physics | 4.9 | 4.4 | 4.5 | 3.9 | 4.3 |

[1] Figures for 2007 are provisional and subject to change.

### Special Educational Needs: Expenditure

**Mr. Liddell-Grainger:** To ask the Secretary of State for Children, Schools and Families how much was spent on special educational needs in each English local education authority in each year since 2000. [173071]

**Jim Knight:** The information is in the following tables:

*Budgeted net expenditure on the provision of education for children with special educational needs by local authorities in England since 2000-01*

£

| | *Budgeted net expenditure on the education of children with special educational needs*[1] [2] | | | |

£

| *Local authority name* | *Budgeted net expenditure on the education of children with special educational needs*[1, 2] *2004-05* | *2005-06* | *2006-07* | *2007-08*[3] |
|---|---|---|---|---|
| Wokingham | 9,460,000 | 11,927,000 | 11,336,000 | 12,113,000 |
| Wolverhampton | 19,566,000 | 21,135,000 | 22,164,000 | 24,712,000 |
| Worcestershire | 28,741,000 | 32,292,000 | 41,723,000 | 46,703,000 |
| York | 11,091 000 | 12,288,000 | 13,122,000 | 13,729,000 |

[1] Includes planned expenditure on the provision for pupils with statements and the provision for non-statemented pupils with SEN, support for inclusion, inter-authority recoupment, fees for pupils at independent special schools and abroad, educational psychology service, local authority functions in relation to child protection, therapies and other health related services, parent partnership, guidance and information, the monitoring of SEN provision and inclusion administration, assessment and co-ordination. Also included is the funding delegated to nursery, primary and secondary schools identified as "notional SEN" and the individual schools budget (ISB) for special schools.

[2] The ISB for special schools will include some general education costs for pupils with SEN in addition to those costs specifically for SEN while the figures recorded against "notional SEN" are only indicative of the amount that might by spent by schools on SEN and, from 2004-05 onwards, "notional SEN" delegated to nursery schools was reported on Section 52 for the first time (nursery schools "notional SEN" accounts for £7.8 million, £9.5 million, £10.4 million and £11.3 million of the respective 2004-05, 2005-06, 2006-07 and 2007-08 England totals). In 2005-06, 2006-07 and 2007-08 local authorities in England also budgeted £499.6 million, £528.5 million and £554.9 million for SEN transport expenditure but this is not included in the table as figures are not available prior to 2005-06.

[3] 2007-08 data are subject to change by the local authority.

*Notes:*

1. Figures are rounded to the nearest thousand pounds and may not sum due to rounding.
2. The data are drawn from local authorities Section 52 Budget Statements (Tables 1 and 2) submitted to the DCSF (formally the DfES).
3. Cash terms figures as reported by local authorities as at 7 December 2007.

## Sports: Females

**Mr. Jenkins:** To ask the Secretary of State for Children, Schools and Families which sport has the highest rate of participation for females in schools in *(a)* Staffordshire and *(b)* England. [173255]

**Kevin Brennan:** These data have not been collected centrally. The annual School Sport Survey collects data relating to PE and School Sport at a school, rather than pupil level. The 2006-07 survey found that dance was the most widely offered activity in single-sex girls' schools. No such maintained schools exist in Staffordshire.

## Teachers: Public Opinion

**Mr. Hoban:** To ask the Secretary of State for Children, Schools and Families whether his Department conducted *(a)* focus groups and *(b)* other qualitative or quantitative opinion research of teachers. [173367]

**Jim Knight:** The Department often commissions research which involves both quantitative and qualitative research methods. Qualitative research may involve collecting data from the school work force using discussion groups, but other methods can be also used such as face to face interviews and lesson observation. Quantitative methods my involve commissioning a survey of teachers or the secondary analysis of existing survey data.

The choice of an appropriate data collection method is dependent on the research aims and the time and budget available to carry out the research project.

## Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Children, Schools and Families what assessment he has made of the suitability of his Department's call centre automated response systems in meeting the needs of customers; and if he will make a statement. [173100]

**Kevin Brennan:** The Department's telephone inquiry line does not operate an automated response system. All callers are put through to an available operator. An answer machine is in operation outside the hours of 9 am to 5 pm.

**Julia Goldsworthy:** To ask the Secretary of State for Children, Schools and Families what measures are in place to ensure his Department's customer contact centres are helpful to people who need to deal with a variety of queries in one call. [173101]

**Kevin Brennan:** The Department's telephone inquiry line does not operate an automated response system. Customers are put straight through to available operators who are able to deal with a variety of inquiries. Our target is to answer 80 per cent. of the calls without transferring and our performance to date is 88 per cent. Customer satisfaction is monitored by way of an annual survey.

## Unemployment

**Danny Alexander:** To ask the Secretary of State for Children, Schools and Families what proportion of children were living in workless households in each region in each quarter since January 1997, broken down by ethnicity. [174725]

**Beverley Hughes:** It has not proved possible to provide a break-down of the proportion of children of each ethnicity who were living in workless households in each region in each quarter since January 1997. Data from the Labour Force Survey provide very small sample sizes when the data are broken down by both region and ethnicity, leading to figures that may be misleading. Officials are currently investigating ways of overcoming this problem, and I will write to the hon. Member in the near future, if the analysis is feasible.

Historical data at a national level is however readily available. The proportion of children living in workless households stood at 18.4 per cent. in 1997. Since then the overall trend has been falling; in 2006, the proportion of children living in workless households stood at 15.3 per cent. In 2007 the Labour Force Survey moved from spring to calendar quarters (Q2), consequently the 2007 figure of 16 per cent. is not directly comparable with previous years.

*Children living in workless households (Great Britain)*[1]

| | Percentage |
|---|---|
| 1992 | 18.7 |
| 1993 | 19.1 |
| 1994 | 19.8 |
| 1995 | 19.3 |
| 1996 | 19.3 |
| 1997 | 18.4 |
| 1998 | 18.5 |
| 1999 | 18.0 |
| 2000 | 16.4 |
| 2001 | 16.1 |
| 2002 | 16.7 |
| 2003 | 16.1 |
| 2004 | 15.9 |
| 2005 | 15.7 |
| 2006 | 15.3 |
| 2007 | 16.0 |

The break-down by ethnicity at a national level in 2006 is as follows (the last complete calendar year for which these data are available).

*Proportion of children living in working age workless households in GB*

| *Ethnic group* | *Percentage* |
|---|---|
| White | 13.8 |
| Mixed: White and Black Caribbean | 34.2 |
| Mixed: White and Black African | 15.6 |
| Mixed: White and Asian | 13.8 |
| Mixed: Other | 20.4 |
| Indian | 6.8 |
| Pakistani | 25.4 |
| Bangladeshi | 42.1 |
| Other Asian | 15.8 |
| Black Caribbean | 34.9 |
| Black African | 26.4 |
| Other Black | 12.8 |
| Chinese | 4.1 |
| Other | 39.5 |
| GB | 15.5 |

[1] Percentage of children aged under 16 in a working-age household where no adult works. A working-age household is a household that includes at least one person of working age (a woman aged between 16 and 59 or a man aged between 16 and 64). Workless individuals are those who are either unemployed (International Labour Organisation definition) or economically inactive (that is, not in employment).

In line with the 2006 Eurostat directive, the Labour Force Survey has shifted away from the use of seasonal data (spring) and instead refers to second quarter (Q2) figures, in order to assess the progress of the Children in Workless Households target. The Q2 data covers the months April to June whereas the previous spring datasets covered the months March to May. Due to the slight difference in the time periods covered by the new datasets there are marginal differences between the seasonal and calendar data. Accordingly, the Labour Force Survey figures quoted may differ from previous versions.

*Note:*

Figures not adjusted for households with unknown economic activity.

*Source:*

Labour Force Survey, Spring 2006

### Voluntary Schools

**Mr. Andrew Smith:** To ask the Secretary of State for Children, Schools and Families (1) how many schools in England secured voluntary aided status for the first time within the last five years; [173596]

(2) what criteria he uses to assess applications for new voluntary aided schools. [173597]

**Jim Knight** *[holding answer 13 December 2007]:* Since January 2003, 85 new voluntary aided schools have been established. During the same period, 49 maintained schools changed category to become voluntary aided schools.

Proposals to establish new schools, or change category to become voluntary aided, are decided under local decision-making arrangements. Prior to 25 May this year, decisions were taken by the local School Organisation Committee or schools adjudicator. Under the current arrangements, the local authority is the decision maker in most cases, except for proposals for a new school where the local authority is the proposer or has a role in the trust of a proposed trust school. An appeal to the schools adjudicator can be made in specific cases. Decision makers must have regard to guidance issued by the Secretary of State, which sets out the factors that must be considered when deciding proposals. For proposals to establish a new school this includes: the impact of standards and levels of diversity; the need for school places; the demand for the particular type of education the new school will offer; the contribution to community cohesion and a range of other factors.

### Voluntary Schools: Religion

**Mr. Andrew Smith:** To ask the Secretary of State for Children, Schools and Families how many voluntary aided schools there are whose trustees are faith groups, broken down by faith. [173595]

**Jim Knight** *[holding answer 13 December 2007]:* The available information is shown in the table.

The table shows the religious character of voluntary aided schools. The religious character of the trust is the same as that of the school.

*Maintained primary and secondary schools*[1]*: number of voluntary aided schools by their religious character—January 2007 England*

| | *Maintained primary schools* | *Maintained secondary schools* |
|---|---|---|
| No Religious Character | 15 | 40 |
| Church of England | 1,956 | 137 |
| Roman Catholic | 1,696 | 341 |
| Methodist | 2 | 0 |
| Other Christian Faith[2] | 28 | 22 |
| Jewish | 28 | 9 |
| Muslim | 4 | 3 |
| Sikh | 1 | 1 |
| Other | 1 | 1 |
| Total | 3,731 | 554 |

[1] Includes middle schools as deemed.

[2] Includes schools of mixed denomination or other Christian beliefs.

School Census and Edubase

## DUCHY OF LANCASTER

### Deborah Mattinson

**Mrs. May:** To ask the Chancellor of the Duchy of Lancaster whether Deborah Mattinson has *(a)* a desk, *(b)* a telephone, *(c)* office facilities and *(d)* administrative support provided in the Cabinet Office. [172750]

**Edward Miliband:** I refer the right hon. Member to the answer given to the hon. Member for Fareham (Mr. Hoban) today.

### Departmental Marketing

**Mr. Philip Hammond:** To ask the Chancellor of the Duchy of Lancaster if he will place in the Library a copy of the guidelines issued to staff maintaining *(a)* the Cabinet Office's and its agencies' corporate identity and *(b)* the Office of the Prime Minister's corporate identity; and what the estimated annual cost is of (i) producing and (ii) complying with such guidelines. [170240]

**Gillian Merron:** I have placed in the Library copies of the corporate guidelines for the Cabinet Office, the Office of the Third Sector and the Social Exclusion Task Force. There are no corporate identity guidelines for the Office of Prime Minister.

### Departmental Ministerial Policy Advisers

**Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster whether Government facilities have been provided to *(a)* Bob Shrum, *(b)* Stan Greenberg and *(c)* Deborah Mattinson since 27 June. [164726]

**Edward Miliband:** I refer the hon. Member to my answer to the right hon. Member for Horsham (Mr. Maude) on 30 October 2007, *Official Report*, columns 1075-76W. I can also confirm that Mr. Stan Greenberg and Ms Deborah Mattinson have not been provided with the use of Government facilities in the Cabinet Office or No. 10 Downing street.

### Voluntary Organisations: Community Development

**Miss McIntosh:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the progress of implementation of the conclusions of the 2004 voluntary and community sector in service delivery. [173030]

**Phil Hope:** The Third Sector Review report was published on 24 July 2007. It sets out the Government's vision for the next 10 years and how it will invest over £515 million over 2008 to 2011 in supporting an environment for the third sector to thrive.

It was informed by the largest consultation the Government has held with the sector, including over 90 consultation events, designed to reach the diversity of third sector organisations across the country.

The investment of £515 million includes developing a sector skills strategy; investing £117 million in youth volunteering through the youth-led charity v, including £75 million for vinvolved, the national youth volunteering programme; and creating a grass root grants programme that will allow front-line community organisations to access funding they need.

As part of the development of the sector skills strategy, my right hon. Friend, the Secretary of State for Innovation, Universities and Skills announced the extension of the Train to Gain skills programme to volunteers.

Other key investments include

£88 million for Capacitybuilders,

£65 million for Futurebuilders,

£10 million for community anchors,

£5 million for a new research centre.

## JUSTICE

### Departmental Aviation

**Mr. Hayes:** To ask the Secretary of State for Justice how much has been spent by his Department on international flights since it was established. [174361]

**Mr. Hanson:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

Information in respect of flights taken by officials could be provided only at disproportionate cost.

### Departmental Cost Effectiveness

**John McDonnell:** To ask the Secretary of State for Justice (1) what the anticipated efficiency saving in his Department is for each of the next three financial years; [174329]

(2) what steps he plans to take to ensure that his Department makes three per cent. value for money savings in each of the next three financial years; [174330]

(3) on what basis it is anticipated that his Department can make efficiency savings in the next three financial years. [174333]

**Mr. Hanson:** In line with the comprehensive spending review settlement announced on 9 October, the Ministry of Justice will deliver value for money cash releasing savings of at least 3 per cent. per annum over the next three years.

The Ministry of Justice value for money delivery agreement for comprehensive spending review 2007 (CSR07) to be published shortly will provide details of how these savings will be delivered.

### Departmental Members' Interest

**Nick Herbert:** To ask the Secretary of State for Justice if he will place in the Library a copy of the declaration of interest made to the Permanent Secretary by the former Minister of State on 13 September 2007. [170277]

**Mr. Straw:** Information was provided to the Permanent Secretary in confidence solely for the purpose that he could advise my right hon. and learned Friend the Member for Camberwell and Peckham (Ms Harman) on any potential conflicts of interest arising from donations made to her deputy leadership campaign in relation to her role as Minister of State at the Department for Constitutional Affairs.

A list of donations can be found on the Electoral Commission website at:

http://www.electoralcommission.org.uk.

### Departmental Visits Abroad

**David Simpson:** To ask the Secretary of State for Justice how much his Department spent on overnight accommodation for Ministers overseas in the last year. [171325]

**Maria Eagle:** Details of the cost of overseas travel, including the cost of travel and accommodation are contained in the Overseas Travel by Cabinet Ministers list. The latest list for the period 1 April 2006 to 31 March 2007 was published on 25 July 2007. Details for the 2007-08 financial year will be published as soon as possible after the end of the financial year. All travel is made in accordance with the Ministerial Code.

The costs incurred by the Ministry of Justice since its creation on 9 May 2007 have been £193.40.

### Detention Centres: Children

**Mr. Kidney:** To ask the Secretary of State for Justice how many children under 16 are being detained in *(a)* prison awaiting trial and *(b)* an immigration detention centre awaiting a decision on their asylum status. [174157]

**Mr. Hanson:** At the end of October 2007, there were 35 under 16-year-olds held on untried remand in prison establishments in England and Wales.

Information on the number of people under the age of 16 being detained in an immigration detention centre awaiting a decision on their asylum status is not available. It is not possible to say which stage of the asylum process people are at when they are detained. The decision to detain is made on a case-by-case basis and may be appropriate in one or more of the following circumstances: to effect removal; to establish a person's identity and claim; where a person presents a risk of abscond or where the application is capable of being considered quickly.

The aforementioned figure was drawn from administrative IT systems, which, as with any large-scale recording system, can be subject to possible errors with data entry and processing.

### Fixed Penalty Notices

**Mr. Ruffley:** To ask the Secretary of State for Justice how many of each category of fixed penalty notices have been *(a)* issued and *(b)* paid in each month since their introduction in each police force area. [172865]

**Maria Eagle:** Of the categories of fixed penalty notices collected by my Department, information is available for the following:

Data on the number of penalty notices for disorder (PNDs) issued and paid by police force area for each month from 2004 to 2006 are provided in tables, which have been placed in the Libraries of the House. The PND Scheme began in all 43 police forces in England and Wales in 2004.

Motoring offences fixed penalty notices data are submitted to my Department on a calendar year basis from police forces. The data does not contain a month by month breakdown.

Available annual information on motoring fixed penalty notices can be found in the Ministry of Justice Statistical publication "Offences relating to motor vehicles, England and Wales, Supplementary tables"—tables 20(a) to 20(c) refer. Copies of the publication are available in the Libraries of the House. The publication going back to 1980 can be accessed from the Ministry of Justice website at:

http://www.justice.gov.uk/publications/motoringoffences.htm

Data are collected on the disposal (i.e. paid, fine registration certificate issued etc.) and published in the following year's annual volume covering motoring offences.

### Legal Aid Fund

**John McDonnell:** To ask the Secretary of State for Justice what the anticipated change in budget to 2010-11 is for the Legal Aid Fund. [174332]

**Maria Eagle:** The annual cost of legal aid is expected to be approximately £2 billion in each of the years until 2010-11, broadly its current level.

### Prison Service

**Mr. Bellingham:** To ask the Secretary of State for Justice what assessment he has made of the performance of each *(a)* area office within HM Prison Service and *(b)* division within HM Prison Service headquarters in meeting correspondence management targets for the year ended March 2007; and if he will make a statement. [175198]

**Maria Eagle:** This information is not available for individual HQ groups and area offices. In 2006-07, reported data shows that 98 per cent. of public correspondence received by HM Prison Service area offices and HQ groups was responded to within the deadline of 20 working days.

### Prison Service: Pay

**Mr. Bellingham:** To ask the Secretary of State for Justice what payment scale is used to determine the remuneration of the previous Area Manager for London in his role of supporting the completion of the investigation by Ron Tasker; and if he will make a statement. [175194]

**Maria Eagle:** Mr. Keith Munns, the previous area manager for London, was asked to undertake a number of continuing duties following his retirement in March this year. These included some further work on the Tasker investigation. Rates of remuneration in such circumstances are negotiated individually and reflect the level of the work involved. As Mr. Munns was undertaking the same work that he would previously have been completing as an area manager his daily rate of pay was based on senior civil service pay.

### Prisoners: Drugs

**Nia Griffith:** To ask the Secretary of State for Justice how many people sentenced for drug related offences who were placed on a treatment programme *(a)* successfully completed the course, *(b)* remained drugs free for 12 months after completing the course and *(c)* went on to commit further offences in the latest period for which figures are available. [174735]

**Mr. Hanson:** This information is not available in the form requested. The total numbers completing drug treatment are given in the following table. Research suggests that those completing a drug treatment and testing order (now the drug rehabilitation requirement) have significantly lower reconviction rates (33 per cent.) than those who do not (91 per cent.). Research also suggests that prison drug treatment can reduce re-offending by around 10 per cent.

| *2006-07* | | *Number*[1] |
|---|---|---|
| Probation[2] | Drug rehabilitation requirement | 5,940 |
| Prisons[2] | Intensive rehabilitation programmes | 8,350 |

[1] Rounded to the nearest 10

[2] Treatment options for which completion figures are available.

**Nia Griffith:** To ask the Secretary of State for Justice how many people sentenced for drug related offences were subsequently placed on a treatment programme for their *(a)* physical needs and *(b)* psychological needs in the latest period for which figures are available. [174736]

**Mr. Hanson:** This is the only format for the information requested. The total numbers engaged in drug treatment are given in the following table.

| *2006-07* | | *Number* |
|---|---|---|
| Probation | Drug rehabilitation requirement | 15,798 |
| Prison[1] | Clinical interventions | 51,520 |
| | CARATs[2, 3] assessments | 77,855 |
| | Intensive rehabilitation programme entrants | 11,150 |

[1] Individuals engage in more than one type of treatment.

[2] Counselling, assessment, referral, advice and throughcare.

[3] Including juvenile substance misuse services.

### Prisoners: Education

**Mr. Hurd:** To ask the Secretary of State for Justice what statutory requirement exists for the prison service to offer throughcare programmes, including education and training for prisoners on short-term sentences. [175470]

**Maria Eagle:** Rule 32 of the Prison Rules 1999 and rules 37 to 42 inclusive of the Young Offender Institution Rules 2000 place requirements on prisons to provide education and training opportunities for prisoners. These are general duties which apply to all prisoners, and there are no specific statutory requirements for prisoners serving short sentences. The rules are available in the Library of the House.

### Prisoners: Employment

**Mr. Hurd:** To ask the Secretary of State for Justice how many prisoners were employed in prison workshops in 2006-07. [175471]

**Maria Eagle:** The Prison Service does not keep central records of the cumulative number of prisoners employed in prison workshops but instead records the average weekly number of prisoners involved in workshops. Prison industry workshops, including industrial laundries, account for approximately 10,000 work places. There are also a number of prison workshops employing some 800 prisoners engaged in tasks such as repairing wheelchairs and bicycles and delivering Braille services.

### Prisoners: Females

**Lynne Jones:** To ask the Secretary of State for Justice (1) what percentage of women prisoners were serving sentences for *(a)* serious, *(b)* violent and *(c)* drug-related offences in each of the last five years; and what percentage of those in prison for drug-related offences have a drug addiction in each year; [174257]

(2) what percentage of women prisoners convicted of serious offences were in prison for drugs-related offences in each of the last five years; and of these what percentage had a drug addiction. [174258]

**Mr. Hanson:** The following table shows the total number of sentenced women prisoners and the proportion of these for (a) serious and violent and (b) drug offences, in prison establishments in England and Wales as at 30 June 2002-06. Serious and violent offences are defined as violence against the person, sexual offences and robbery.

| | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|
| Total sentenced population | 3,336 | 3,474 | 3,449 | 3,476 | 3,506 |
| Violence against the person (Percentage) | 16 | 15 | 17 | 18 | 19 |
| Sexual offences (Percentage) | 1 | 1 | 1 | 1 | 1 |
| Robbery (Percentage) | 9 | 12 | 11 | 10 | 9 |
| Total serious and violent offences (Percentage) | 26 | 27 | 30 | 29 | 29 |
| Drug offences (Percentage) | 39 | 39 | 36 | 36 | 33 |

These figures are taken from table 8.2 of Offender Management Caseload Statistics 2006, which has recently been published at http://www.justice.gov.uk/publications/prisonandprobation.htm These numbers relate to specific drug offences only (including the possession and supply of drugs) and not to other offences (such as those involving acquisitive crime) which may be related to drug issues of the offender.

Data are not held centrally on the number of prisoners with a drug addiction and are not routinely collected in the format requested.

These figures have been drawn from administrative IT systems, which, as with any large-scale recording system, are subject to possible errors with data entry and processing.

### Prisoners: Pay

**Mr. Hurd:** To ask the Secretary of State for Justice what the average pay was for prisoners in *(a)* education and *(b)* work programmes in 2006-07. [175469]

**Mr. Hanson:** A survey on prisoners' pay which was carried out during April/May 2007 indicated that the average pay for prisoners was approximately.

| | *£ per week* |
|---|---|
| *(a)* Education | 9.08 |
| *(b)* Work | 9.60 |

### Prisons

**Mr. Hurd:** To ask the Secretary of State for Justice what plans he has to improve the level and consistency of provision of purposeful activity in prisons. [174514]

**Mr. Hanson:** The standard core day to be introduced from April 2008 will provide a greater level of consistency and certainty to the time prisoners spend undertaking purposeful activity.

**Mr. Hurd:** To ask the Secretary of State for Justice how many prisons pay the same wages for participation in education and in work programmes. [175468]

**Mr. Hanson:** This information is not collated centrally however to establish pay rates in prisons a survey was carried out during April/May 2007 and this indicated that 19 establishments pay equal wages for participation in education and work.

### Probation Service

**Mr. Jim Cunningham:** To ask the Secretary of State for Justice what steps the Government has taken to assist with the demand on the work of probation services caused by prisoners being released early. [175270]

**Mr. Hanson:** Probation boards have received £300,000 in 2007-08 for the additional work arising from the End of Custody Licence scheme. The level of resources needed will be kept under review.

**Mr. Gerrard:** To ask the Secretary of State for Justice what was spent on local management for the Probation Service in England and Wales for each financial year since 1997-98. [175379]

**Mr. Hanson:** Expenditure on local management is not separately reported by probation boards and it would be a disproportionate cost to collect this back to 1997-98.

**Mr. Gerrard:** To ask the Secretary of State for Justice what was spent on approved premises for the Probation Service in England and Wales for each financial year since 1997-98. [175382]

**Maria Eagle:** The following data set out what has been spent in total on the Approved Premises estate in each of the last five years.

| | £ |
|---|---|
| 2002-03 | 52,219,391 |
| 2003-04 | 61,998,242 |
| 2004-05 | 63,567,929 |
| 2005-06 | 73,358,001 |
| 2006-07 | 84,599,882 |
| Total | 335,743,445 |

Data prior to this period are not held by the Ministry of Justice or the National Offender Management Service.

**Mr. Gerrard:** To ask the Secretary of State for Justice what was spent on public protection for the Probation Service in England and Wales for each financial year since 1997-98. [175383]

**Mr. Hanson:** Expenditure on public protection is not identified as a separate component of Probation Boards' financial reports and it would be a disproportionate cost to separately identify it back to 1997-98.

Public protection is intrinsic to many aspects of probation work and as such the cost cannot be separately identified.

### Probation Service: Staff

**Mr. Drew:** To ask the Secretary of State for Justice what proportion of staff employed by the Probation Service in England and Wales were in daily direct contact with offenders in each of the last 10 years. [173769]

**Maria Eagle:** All probation staff in the NPS are employed by the relevant probation board who are responsible for managing work load allocation. It is therefore not possible to provide information at this level. Information is however collected on the number of staff employed in offender management roles.

The following table shows the number of staff working in an offender management role from 2003 onwards. Data prior to 2003 were collated by a different source and was incomplete in some categories. It is therefore not directly comparable with the figures collected since that time.

| *Role* | *2003* | *2004* | *2005* | *2006* | *2007* |
|---|---|---|---|---|---|
| Offender management role | 17,551.20 | 17,771.71 | 18,6[illegible]0.41 | 19,155.90 | 18,706.47 |
| Percentage | 91.79 | 91.03 | [illegible]0.69 | 89.81 | 89.82 |

| *Role* | *2003* | *2004* | *2005* | *2006* | *2007* |
|---|---|---|---|---|---|
| Other roles | 1,570.60 | 1,751.27 | 1,911.65 | 2,173.08 | 2,120.86 |
| Percentage | 8.21 | 8.97 | 9.31 | 10.19 | 10.18 |
| | | | | | |
| Total | 19,121.80 | 19,522.98 | 20,542.06 | 21,328.98 | 20,827.33 |
| Percentage | 100 | 100 | 100 | 100 | 100 |

## Probation Service: West Midlands

**Mr. Jim Cunningham:** To ask the Secretary of State for Justice what steps the Government have taken to improve the Probation Service in the West Midlands. [175269]

**Maria Eagle:** West Midlands probation area is receiving additional oversight from the National Offender Management Service (NOMS) Performance Improvement Unit and this will continue until there is evidence of a sustained improvement.

With guidance from NOMS, the management of West Midlands probation area have designed a comprehensive 'Solutions Programme' focused on lifting performance. The aim of the strategy is for West Midlands probation area to achieve the required standards of performance and organisational capability.

The most recent performance data give an early indication of improvement.

## Young Offender Institutions

**Dr. Vis:** To ask the Secretary of State for Justice (1) what injuries were sustained by boys held in Werrington Young Offender Institution during physical control and restraint in each month in *(a)* 2006 and *(b)* 2007; [175253]

(2) what injuries were sustained by boys held in Wetherby Young Offender Institution during control and restraint in each month in (a) 2006 and (b) 2007. [175254]

**Maria Eagle:** The information for Werrington and Wetherby is set out in the following table. It should be noted that the injuries set out in the table were subsequent to fights between young people, and that it is likely that a number of the injuries were sustained in the fights rather than during restraint. The incidents are recorded nonetheless.

| | *Werrington* | *Wetherby* |
|---|---|---|
| *2006* | | |
| January | Nose bleed | Sprained wrist, reddening to wrists x4, grazing to arms x3 |
| February | Split lip, grazes, bruising | Reddening to wrists x4, grazing to arms x3 |
| March | Minor bruising x3, nose bleed, cut to forehead | Fractured wrist, sprained wrist, reddening to wrists x2, grazing to arms grazing to face x2 |
| April | Marks to face and neck | Reddening to wrists x6, grazing to arms |
| May | Swelling to jaw | Reddening to wrists x5, grazing to arms, grazing to legs, grazing to face |
| June | Swelling to hand x2, nose bleed, graze to knee | Reddening to wrists x3 |
| July | Pain in wrist | Sprained wrist, reddening to wrists x6, grazing to legs |
| August | Sore wrist x2, superficial cuts | Reddening to wrists x4, grazing to arms x3 |
| September | 0 | Sprained wrist, reddening to wrists x9, grazing to arms, grazing to legs, grazing to face |
| October | Tender thumb | Fractured wrist, reddening to wrists x5 |
| November | Abrasions, swelling to ear | Sprained wrist, reddening to wrists x4, bruised finger |
| December | Grazes to side of face | Reddening to wrists, grazing to arms, grazing to legs, grazing to face |
| *2007* | | |
| January | Broken arm | Reddening to wrists x4 |
| February | Pain in hand, injury to little finger | Sprained wrist, reddening to wrists x2 |
| March | 0 | Fractured wrist, reddening to wrists, grazing to face x2, grazing to arms, grazing to legs |
| April | Grazed knuckles, injury to middle finger | Reddening to wrists x3 |
| May | Carpet burn | Reddening to wrists |
| June | Carpet burn | Reddening to wrists x3, grazing to face |
| July | Graze to elbow | Reddening to wrists x4 |
| August | Scratches to face, loss of consciousness, fractured scaphoid | Reddening to wrists x4, grazing to face, grazing to arms |
| September | 0 | Reddening to wrists x6 |
| October | Scratch to cheek | Head injury, reddening to wrists x4, graze to head, grazing to arms |
| November | Small laceration to inner lip, slight scratch to hand | Reddening to wrists x2 |

## SCOTLAND

### Carbon Trust's Carbon Management Programme

**Ms Katy Clark:** To ask the Secretary of State for Scotland whether his Department has adopted the Carbon Trust's Carbon Management programme. [173083]

**David Cairns:** The Scotland Office is included in the Ministry of Justice's environmental management programme which includes implementing the Government's UK Sustainable Action Plan, published on 5 March 2007.

### Council Tax

**Mr. Pickles:** To ask the Secretary of State for Scotland whether the equivalent cash funding paid by the UK Government to Scotland for council tax benefit will continue to be paid to the Scottish Executive in the event of a local income tax replacing council tax in Scotland. [173478]

**David Cairns:** Council tax benefit is a reserved matter for the UK Government. The Scottish Executive has yet to be set out any plans for any local income tax in Scotland, and as such, we cannot comment on any hypothetical situation.

### Departmental Carbon Emissions

**Chris Huhne:** To ask the Secretary of State for Scotland (1) how many air miles were travelled by Ministers in his office in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result; [172233]

(2) how many miles he and other Ministers in his Office travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon emissions produced as a result of these flights. [172572]

**David Cairns:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government carbon offsetting fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechantge/uk/carbonoffset/government.htm

### Departmental Correspondence

**Sarah Teather:** To ask the Secretary of State for Scotland what percentage of inquiries received by his Office from the public were responded to within *(a)* one week, *(b)* 14 days, *(c)* 28 days, *(d)* two months and *(e)* three months in the last period for which figures are available; and in what percentage of cases it took (i) over three months and (ii) over one year to respond. [167373]

**David Cairns:** I refer the hon. Member to the annual report on Departments' and agencies' handling of correspondence from MPs and Peers which was published by written ministerial statement on 28 March 2007, *Official Report*, column 101WS.

Information for 2007 will be published as soon as it is ready after the end of the calendar year.

Information on performance on handling correspondence from the public is not held in the format requested.

### Departmental Equality

**Philip Davies:** To ask the Secretary of State for Scotland how much has been spent by his Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by his Department for this purpose. [173815]

**David Cairns:** The Scotland Office, with a complement of 55, is part of the Ministry of Justice for these purposes. The Office has no staff dedicated to these functions.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for Scotland how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174959]

**David Cairns:** One member of staff in the parliamentary branch covers all aspects of Scotland Office parliamentary activity, as well as assisting with private office duties, but does not, in the main, deal with correspondence.

### Departmental Public Expenditure

**Mr. Philip Hammond:** To ask the Secretary of State for Scotland whether the standard terms and conditions of purchase used by his Department in the procurement of goods and services from the private sector prohibit the assignment of debt. [172433]

**David Cairns:** The Scotland Office endeavours to purchase goods and services under contracts held by larger Departments, such as the Scottish Executive and the Ministry of Justice. Where this is not possible, the office seeks to follow the model terms provided by the Office of Government Commerce which says that the contractor shall not assign, sub-contract or in any other way dispose of the contract or any part of it without the contracting authority's prior approval.

### Ministerial Policy Advisers

**Mr. Hancock:** To ask the Secretary of State for Scotland if he will place a copy of the job descriptions of his special advisers in the Library. [172306]

**David Cairns:** I refer the hon. Member to the written statement given by my right hon. Friend the Prime Minister on 22 November, *Official Report*, column 147WS.

### Sustainable Development

**Ms Katy Clark:** To ask the Secretary of State for Scotland whether his Department is working towards an accredited certified environmental management system for *(a)* its whole estate or *(b)* some of its buildings. [172770]

**David Cairns:** The Scotland Office is included in the Ministry of Justice's environmental management programme which includes implementing the Government's UK Sustainable Action Plan, published on 5 March 2007.

**Ms. Katy Clark:** To ask the Secretary of State for Scotland (1) whether his Department met the Sustainable Operations on the Government Estate target to reverse the then upward trend in carbon emissions by April 2007; [172771]

(2) whether his Department is on course to meet the commitment in the Sustainable Operations on the Government Estate targets *(a)* to source at least 10 per cent. of its electricity from renewables by 31 March 2008 and *(b)* to increase recycling figures to 40 per cent. of waste by 2010. [172772]

**David Cairns:** The Scotland Office is included in the Ministry of Justice's environmental management programme.

# Written Answers to Questions

*Tuesday 18 December 2007*

## COMMUNITIES AND LOCAL GOVERNMENT

### Audit Commission: Fees and Charges

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans the Audit Commission has to change audit fees charged to local authorities. [174545]

**John Healey:** This is an operational matter for the Audit Commission. I will ask the Chief Executive of the Audit Commission to write to the hon. Member and arrange for the letter to be published in the *Official Report*.

*Letter from Steve Bundred, dated 18 December 2007:*

Your parliamentary question on what plans the Audit Commission has to change audit fees charged to local authorities has been passed to me for reply.

We issued consultation documents setting out the Commission's proposed scales of audit and inspection fees for 2008-09 and the indicative fee proposals for 2009-10 and 2010-11 to all audited bodies and other stakeholders on 30 November 2007. A copy of the consultation document for local authorities is attached. The consultation will close on 11 January 2008, and the Audit Commission Board will be asked to approve the 2008-09 work programme and fee scales at its meeting in March 2008.

In summary, audit fees will increase from 2008-09 onwards, reflecting a number of changes that will directly increase the amount of work that auditors will need to do, and therefore the costs of the audit. Some of these are externally driven, such as the Government's requirement that the public sector adopts International Financial Reporting Standards (IFRS), and the international accountancy profession's tightening of audit standards.

However, we have also expanded the scope of auditors' use of resources assessments, which will form a key part of the new Comprehensive Area Assessment (CAA) framework, to include commissioning and sustainable procurement, and strengthened the focus on efficiency, in line with the Government's expectations. The extra work is likely to increase audit fees. But auditors will look to substitute this additional work for existing audit work wherever possible. Any increases in audit fees will be more than offset by an overall reduction in the total costs of regulation over the next three years, as CAA replaces the current Comprehensive Performance Assessment

We are also able to reduce the impact by a rigorous programme of efficiency savings, which will release 3 per cent. savings annually over the next three years. The Commission will continue to look for other opportunities to reduce the cost of our work to local authorities.

I trust that this information is helpful.

A copy of this letter will be placed in the House of Commons Library.

### Bellwin Scheme

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what information local authorities are required to submit to her Department to claim compensation for flooding under the Bellwin scheme; and if she will place in the Library copies of *(a)* the application form for and *(b)* guidance on such claims. [174543]

**John Healey:** As with the established arrangements for the Bellwin scheme, authorities must submit a list of the items on which they have incurred expenditure eligible for grant. When submitting their final claim, they must also provide evidence of spending on those items.

I have placed copies of the application forms and guidance notes in the Library of the House.

### Buildings: Energy

**John Mann:** To ask the Secretary of State for Communities and Local Government when the UK will meet the requirements of the Energy Performance of Buildings Directive in full. [166817]

**Mr. Iain Wright:** The Energy Performance of Buildings Directive requires member states to bring into force national laws, regulations and administrative provisions to comply with the directive by 4 January 2006.

There is a three-year derogation period within the directive to apply fully the provisions for energy certificates and plant inspections commensurate with the availability of accredited and suitably qualified assessors.

In England and Wales, changes made to the building regulations in April 2006 implemented the technical parts of the directive.

Energy performance certificates (EPCs) on the marketed sales of dwellings have already been introduced as part of home information packs.

We want to ensure a smooth implementation of EPCs for other types of buildings. Lessons learnt from the introduction of EPCs already show that a phased approach has worked well for industry and consumers. That is why we think it is right that the same approach should be adopted for the roll-out to other sectors, starting from April.

EPCs on construction of new dwellings will start on 6 April 2008

EPCs on construction, sale or rent of buildings other than dwellings over 10,000m$^2$ from 6 April 2008

EPCs on construction, sale or rent of buildings other than dwellings over 2,500m$^2$ from 1 July 2008

EPCs on construction, sale or rent of all other non-dwellings from 1 October 2008

EPCs on all other sales and new rentals of dwellings from 1 October 2008

Display energy certificates on larger public buildings will be required by 1 October 2008.

Ministers in Scotland and Northern Ireland are responsible for implementation of the directive in their regions.

### Business: Non-Domestic Rates

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the Valuation Office Agency plans to use an automated valuation model for the 2010 business rates revaluation. [174365]

**John Healey:** The VOA is investigating the use of outputs from the use of multiple regression analysis techniques as a tool to assist the Agency's professional valuers when making judgments about appropriate value levels for the next revaluation of non-domestic property in 2010.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the joint Royal Institute of Chartered Surveyors/Valuation Office Agency guidance note on contractors' basis valuations. [174368]

**John Healey:** I refer the hon. Member to the reply I gave him on 17 December 2007 (question 173317).

### Charities: Islam

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government how many and what proportion of mosques and madrassahs are registered as charities; what work the Charity Commission's Social Cohesion Unit has undertaken in promoting good governance at mosques; how many people the unit employs; and on what the £1.2 million allocated by her Department on this matter has been spent. [173940]

**Mr. Dhanda:** I have asked the chief executive of the Charity Commission to write to the hon. Member and I will arrange for the letter to be published in the *Official Report*.

### Community Development

**Mr. Jeremy Browne:** To ask the Secretary of State for Communities and Local Government what plans she has to consult communities on the effects of the Government's *(a)* community and *(b)* counter-terrorism policies on community cohesion; and if she will make a statement. [173447]

**Mr. Dhanda:** My Department plans to consult shortly on two community-related policies laid out in the "Action Plan for Community Empowerment". Firstly whether there should be a statutory duty on local authorities to respond to petitions which pass some threshold of support and secondly the way in which the Secretary of State's powers in the Local Government Public Involvement in Health Act to exclude matters from the scope of Councillors Calls for Action (CCfA) should be applied.

My Department also plan to consult on a consultation document on inter faith dialogue and social action on 17 December. This follows the Commission on Integration and Cohesion's report, in which we envisage the final strategy being published in late spring.

My Department intend to make a written statement to Parliament on all of the consultations.

Counter-terrorism policy is a matter for my right hon. Friend the Home Secretary.

### Community Relations: Religion

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government pursuant to the statement of the Prime Minister of 14 November 2007, *Official Report*, columns 667-72, on national security, if she will publish the work of the Economic Research Council, Kings College and the Royal Society for Arts on dealing with radicalisation both at home and abroad announced by the Prime Minister. [168397]

**Mr. Dhanda:** This is a matter for my right hon. Friend the Secretary of State for Foreign and Commonwealth Affairs (David Miliband).

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government (1) by what criteria the £45 million available to local authorities to help combat violent extremism announced in her Department's press release of 31 October 2007 will be allocated to local authorities; and how the effectiveness of those grants will be assessed; [173929]

(2) how much of the £45 million available to local authorities to help combat violent extremism announced in her Department's press release of 31 October 2007 will be allocated for *(a)* each year from 2007-08 to 2010-11 and *(b)* each type of project; [173930]

(3) how she plans to evaluate the effectiveness of grants from the Preventing Violent Extremism Pathfinder fund. [173969]

**Mr. Dhanda:** On 31 October 2007, the Secretary of State announced an additional £45 million to go direct to local partnerships for work to prevent violent extremism over the next three years. Eligibility and distribution criteria for the funding are being developed and will be made public in due course.

A public consultation is currently under way on the national indicator set for local government, with indicator number 35 (Building resilience to violent extremism) focused on measuring local authority work on this agenda. These measures will be complemented by the work of the Audit Commission and other inspection bodies through the comprehensive area assessment.

For the Preventing Violent Extremism Pathfinder Fund in 2007-08, reporting against spend will happen twice yearly within the overall statement of grant usage process. Local authorities will also report formally against the delivery of project outcomes twice yearly through the local area agreement review process.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government (1) by what criteria the £25 million for national schemes to support communities in tackling violent extremism announced in her Department's press release of 31 October 2007 will be allocated; and who will allocate it; [173937]

(2) how much of the £25 million for the national scheme to support communities tackling violent extremism announced in her Department's press release on 31 October 2007 will be allocated *(a)* in each year from 2007-08 to 2010-11 and *(b)* to each type of project; [173944]

(3) how she plans to assess the effectiveness of the £25 million expenditure on national schemes to support communities in tackling violent extremism announced in her Department's press release of 31 October 2007. [173945]

**Mr. Dhanda:** In her speech on 31 October 2007 the Secretary of State announced that over £25 million would be invested in national schemes to directly support communities in the comprehensive spending review period 2008-09 to 2010-11. The Department is working with a range of partners to develop detail expenditure plan over the three year period and will make details of the grant funds available in due course.

The £25 million for national projects will be allocated to a range of work which will include:

Equipping faith leaders with the skills and understanding required to lead communities, building their capacity to engage with young people on the challenges they face, including extremism. For example, ensuring imams can communicate more effectively with young people;

Support communities to broaden the provision of citizenship education in mosque schools, equipping young people themselves with the understanding and arguments to reject extremists' messages;

Developing new minimum standards for public institutions (e.g. prisons, universities) engaging imams working with young or vulnerable people;

Supporting the Charity Commission's work to improve governance standards in faith institutions, including mosques;

Increase support and engagement to Muslim women and young people.

Evaluation processes will be developed for each project as an integral part of the planning process.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government how many local authority forums on tackling extremism and Islamophobia have been held; which local authorities organised them; when each forum met; and who attended each. [173938]

**Mr. Dhanda:** We are aware of 13 forums on extremism and Islamophobia currently in existence, in:

Blackburn
Bristol
Craven
Derby
Dudley
High Wycombe
Kirklees
Leicester
Pendle
Peterborough
Reading
Redbridge
Swansea

Forums are community lead and community run, though the local authorities play an important role in forums.

Because these forums are locally run (and in most cases directly funded by the local authority) Communities and Local Government do not keep details of those who attended or the dates of all meetings.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the progress made by the Mosques and Imams National Advisory Board in the five core areas highlighted in the Preventing Violent Extremism report. [173939]

**Mr. Dhanda:** The Mosques and Imams National Advisory Board (MINAB) steering group launched its draft constitution and set of core standards for consultation on the 29 November 2007. The document includes standards related to the five core areas set out in the Preventing Violent Extremism Action Plan: the accreditation of imams; the development of leadership skills for imams and mosque officials; progress in the inclusion of young people and women; improvement in the governance of mosques and; supporting mosques to contribute to the community cohesion and to tackling extremism. The consultation will last until mid-January 2008. MINAB is expecting to publish a revised document in spring 2008 and will continue to support mosques to meet the core standards.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government (1) how she plans to distribute the £250,000 per annum aimed at helping young people to tackle violent extremism announced in her speech to the Preventing Extremism Conference on 31 October; and how the effectiveness of this funding will be assessed; [173953]

(2) when she plans to host the youth conference on tackling extremism mentioned in her speech of 31 October to the Preventing Extremism Conference; and whom she plans to invite to the conference. [173954]

**Mr. Dhanda:** In her speech on 31 October 2007 the Secretary of State announced that she would provide at least £250,000 a year for the next three years to support projects which will benefit young people, and highlighted the importance of enabling young people to inform and drive this work. The Secretary of State has already identified a range of possible priorities for this funding including: peer mentoring; youth support networks; leadership programmes; arts and culture; and media and sport. We will open discussions with youth organisations and young people in order to involve them in developing funding priorities and processes which reflect their perceptions of the issue of violent extremism. Processes to assess the effectiveness of the funding will be developed as part of the work to develop funding plans and specific proposals.

Plans for the youth conference are being taken forward in partnership with DCSF and other Government Departments. The date and invitation lists for the conference have not yet been finalised.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government what progress has been made in the development of the new fully-accredited Continuous Professional Development Programme for Faith Leaders referred to in the Preventing Violent Extremism report. [173957]

**Mr. Dhanda:** The Continuous Professional Development Programme for Faith Leaders is in its pilot stage, with three pilots already launched and a further two sites expected to launch in early 2008.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government how she plans to evaluate the effectiveness of expenditure under the Preventing Violent Extremism Community Leadership Fund. [173971]

**Mr. Dhanda:** Each piece of work funded by the Preventing Violent Extremism: Community Leadership Fund is assessed individually according to the proposed measures for effectiveness of the specific activities and objectives of each project.

### Council Housing: Finance

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what the national level of housing revenue account subsidy was in each year since 1990; and what it is projected to be in each of the next 15 years, using the same assumptions which have been made for the housing revenue account pilot opt-outs. [165558]

**Mr. Iain Wright:** A table showing the national level of Housing Revenue Account (HRA) subsidy from 1995-96 to 2005-06 (the last year for which audited data is available) is as follows.

The table shows the value of the 'bricks and mortar' element of HRA subsidy. Prior to 2004-05, HRA subsidy also contained a rent rebate element. This is omitted from the table to ensure consistency with post 2004-05 data. Prior to 2004-05, surpluses in the 'bricks and mortar' element were applied to the cost of rent rebates for local authorities.

| | *HRA subsidy (£)* |
|---|---|
| 1995-96 | 390,050,431 |
| 1996-97 | 563,028,455 |
| 1997-98 | 668,307,497 |
| 1998-99 | 869,992,311 |
| 1999-2000 | 1,040,869,030 |
| 2000-01 | 1,123,786,228 |
| 2001-02 | 351,105,009 |
| 2002-03 | 252,059,142 |
| 2003-04 | 191,153,240 |
| 2004-05 | 77,994,764 |
| 2005-06 | 249,427,865 |

Pre 1995-96 data is available only at disproportionate cost.

As part of the self financing modelling exercise some broad forecasts of future HRA subsidy entitlement were generated at a national level. These forecasts were based upon a number of assumptions about factors such as the number of dwellings in the HRA subsidy system, interest rates and rates of inflation. The forecasts are highly sensitive to changes in any of these assumptions. It is based upon the 2007-08 HRA subsidy system.

The forecast subsidies generated were as follows:

| | *HRA subsidy (£ million)* |
|---|---|
| 2008-09 | -194 |
| 2009-10 | -216 |
| 2010-11 | -303 |
| 2011-12 | -421 |
| 2012-13 | -424 |
| 2013-14 | -376 |
| 2014-15 | -398 |
| 2015-16 | -434 |
| 2016-17 | -476 |
| 2017-18 | -543 |
| 2018-19 | -611 |
| 2019-20 | -680 |
| 2020-21 | -750 |
| 2021-22 | -822 |
| 2022-23 | -894 |

### Council Housing: Property Transfer

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many council-owned properties were transferred to housing associations via stock transfer in England in each year since 1997-98. [171529]

**Mr. Iain Wright:** The following table shows how many dwellings have been transferred to registered social landlords via stock transfer from 1997-98 to date.

*Dwellings Transferred to Registered Social Landlords via LSVT since 1997-98*

| | *Number* |
|---|---|
| 1997-98 | 32,982 |
| 1998-99 | 73,900 |
| 1999-2000 | 97,385 |
| 2000-01 | 134,219 |
| 2001-02 | 35,390 |
| 2002-03 | 167,270 |
| 2003-04 | 38,635 |
| 2004-05 | 101,511 |
| 2005-06 | 53,505 |
| 2006-07 | 69,069 |
| 2007 to date | 38,576 |
| Total | 842,442 |

### Council Tax: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government for what reason Best Value Performance Indicator 9, on council tax collection rates, is not included in the National Indicator set. [171595]

**John Healey:** The national indicators have been derived from public service agreements (PSAs) and the Departments' strategic objectives (DSOs) and agreed across Government through the 2007 comprehensive spending review. The set provides clarity about the balance between national and local priorities. There are many services and activities undertaken by local government, alone or in partnership, which are not directly reflected in the set but which will continue to be important to local areas and the people they serve as well as to business. Data on CT collection rates is also collected, and will continue to be collected, through final quarterly return of council taxes and non-domestic rates (QRC4) returns submitted by all billing authorities in England.

### Departmental Aviation

**Mr. Hayes:** To ask the Secretary of State for Communities and Local Government how much her Department spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171253]

**Mr. Dhanda:** I refer the hon. Member to the answers given to the hon. Member for Fareham (Mr. Hoban) on 3 September 2007, *Official Report*, columns 1648-49W and to the hon. Member for Beckenham (Mrs. Lait) on 15 October 2007, *Official Report*, columns 843-44W.

**Mr. Hayes:** To ask the Secretary of State for Communities and Local Government how much has been spent by her Department on international flights in each year since it was established. [174352]

**Mr. Dhanda:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the Ministerial Code.

### Departmental Buildings

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many square metres of *(a)* total and *(b)* vacant space is recorded on the Electronic Property Information Mapping Service database for (i) her Department and (ii) each of its agencies in the most recent period for which figures are available. [174456]

**Mr. Dhanda:** The total amount of space recorded on the Electronic Property Information Mapping Service (EPIMS) database for Communities and Local Government is 79,659 $m^2$. This figure includes approximately 10,000 $m^2$ of non-office space. The vacant space recorded is 289 $m^2$.

Information for the agencies is:

| | *Total $m^2$* | *Vacant space* |
|---|---|---|
| Fire Service College | [1]37,903 | 0 |
| Planning Inspectorate | 13,150 | 0 |
| Queen Elizabeth II Conference Centre | [1]16,560 | 0 |

[1] This includes non-office space.

This answer does not include land or buildings occupied by Government Offices, which carry out functions on behalf of 10 Government Departments.

### Departmental Carbon Emissions

**Chris Huhne:** To ask the Secretary of State for Communities and Local Government (1) how many air miles were travelled by Ministers in her Department in each year since 2000; and what estimate she has made of the total amount of carbon dioxide emissions produced as a result; [172230]

(2) how many miles she and other Ministers in her Department travelled on short haul flights in the last 12 months; and what estimate she has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172526]

**Mr. Dhanda:** Since 1999 the Government have published, a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code".

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

### Departmental Contracts

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government in which publications, and on what websites, her Department publishes invitations to tender. [174538]

**Mr. Dhanda:** Communities publish invitations to tender on the procurement portal of its own website. The Department also uses the websites of the Office of Government Commerce Buying Solutions, the Official Journal of the Europe Union and Supply2.gov.uk. Where appropriate Communities also publish invitations to tender in relevant trade journals.

### Departmental Data Protection

**Jo Swinson:** To ask the Secretary of State for Communities and Local Government how many confirmed security breaches of databases controlled by her Department occurred in each of the last five years; whether the breach resulted from internal or external sources in each case; how many records were compromised on each occasion; and what estimate was made of the total number of records accessible to the individuals concerned. [173690]

**Mr. Dhanda:** No confirmed breaches of personal data security in Communities and Local Government or its predecessor Department the Office of the Deputy Prime Minister have been brought to our attention over the past five years. There has been correspondence with members of the public who claim that we have disclosed their personal data without their knowledge or consent, but in all cases we have been able to confirm that such disclosure was in order to pursue their complaints/inquiries, and so not in contravention of the data protection legislation.

## Departmental Equality

**Philip Davies:** To ask the Secretary of State for Communities and Local Government how much was spent by her Department *(a)* in total and *(b)* on staff costs on promoting equality and diversity in each of the last three years for which figures are available; and how many people are employed by her Department for this purpose. [173846][1]

**Mr. Dhanda:** In 2004-2007, the Equality and Diversity Unit (EDU) recorded staff costs of £1,951,549 and non-pay spend of £989,022. The EDU was responsible for internal equality policy delivery.

In July 2007, the EDU transferred to the Race Equality Unit taking seven posts, a pay budget of £319,000 and a non-pay budget of £16,000. The newly formed Race Equality and Diversity Division has a forecast outturn in 2007-2008 of £1,951,549 pay costs (average 34.8 FTE posts) and £989,202 non-pay costs. Due to machinery of Government changes it is difficult for the Department to provide more detail.

One HEO maintained the workforce equalities taskforce at a cost of £21,286, from July 2006 until the creation of the workforce equalities team in October 2006. These units were established to mainstream equality and diversity within Communities. The workforce equalities team now comprises two HEOs, one full-time and one working 32 hours per week. The Grade 7 team leader post is currently vacant, but assuming the post is filled on a full-time basis the costs for the team would total £74,559 annually.

The workforce equalities team has an annual allocation of £20,000, of which £8,000 is allocated to the Department's various staff networks. This leaves £12,000 to be spent directly on mainstreaming equality and diversity within Communities.

Like other Government Departments and as part of its commitment to ensuring good practice, Communities also pays for membership of various organisations for benchmarking purposes (e.g. Stonewall, Employers Forum on Disability) costing approximately £13,100 annually.

## Departmental Manpower

**Mrs. May:** To ask the Secretary of State for Communities and Local Government how many *(a)* men and *(b)* women of each civil service grade are employed by her Department. [172731]

**Hazel Blears:** The latest statistics on the number of men and women by grade in The Department for Communities and local Government are published by The Office for National Statistics in their publication 2006 Civil Service Statistics. Table H of the publication presents permanent employees by Department, responsibility level, ethnic origin and gender.

http://www.statistics.gov.uk/downloads/theme_labour/2006CivilServiceStatistics.pdf

http://www.statistics.gov.uk/downloads/theme_labour/CivilService2006TablesandCharts.xls

## Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for Communities and Local Government how many staff work in her Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174964]

**Mr. Dhanda:** Five staff work in the Department's parliamentary branch and approximately 50 per cent. of their time is spent on dealing with parliamentary questions. The branch is not responsible for dealing with correspondence from hon. Members and peers.

## Departmental Pay

**Mr. Hayes:** To ask the Secretary of State for Communities and Local Government how many and what proportion of her Department's staff are employed within each salary band; what the title and role of each position within each salary band is; and for each salary band what the *(a)* bonus structure, *(b)* retirement provision, *(c)* expenses provision, *(d)* total expenses incurred in each of the last 10 years, *(e)* average age of employee, *(f)* number of (i) women and (ii) men and *(g)* ethnic composition is. [171411]

**Mr. Dhanda:** On 31 October 2007, the number and proportion of staff in each salary band were as shown in the following table.

| *Salary band* | *Number of staff (full-time equivalent)* | *Proportion of staff (Percentage)* |
|---|---|---|
| Industrial bands | 14 | 1 |
| Band 1 | 15 | 1 |
| Band 2 | 265 | 12 |
| Band 3 | 405 | 18 |
| Band 4 | 558 | 24 |
| Band 5 | 312 | 14 |
| Band 6 | 481 | 21 |
| Band 7 | 108 | 5 |
| SCS Pay Band 1 | 101 | 4 |
| SCS Pay Band 1A | 3 | 0 |
| SCS Pay Band 2 | 22 | 1 |
| SCS Pay Band 3 | 7 | 0 |
| Permanent Secretary | 1 | 0 |
| Total | 2,291 | 100 |

The title and role of each position within the Department can be provided only at disproportionate cost.

There are three bonus schemes in operation in the Department at present.

*1. The senior civil service (SCS) bonus scheme*

SCS pay arrangements are not delegated to Departments but set within a framework prescribed by the Cabinet Office. In line with Cabinet Office guidance, annual bonuses primarily reward delivery of agreed personal business objectives or targets. The bonuses are not pensionable or consolidated into basic salary.

*2. Annual Performance Awards*

Staff below the SCS receiving an overall 'exceeded' marking in their performance reports receive a one-off lump sum that is not pensionable or consolidated into basic salary. For the 2005-06 pay award the amounts varied from £350 to £1,200.

---

[1] *[Official Report, 18 February 2008, Vol. 472, c. 1MC.]*

*3. Special bonus scheme*

Staff below the SCS are also eligible to receive a special bonus to reward exceptional performance over a limited period in particularly demanding tasks or situations. Although awards are paid on an individual basis, line managers are able to make a number of awards to reward exceptional team effort—a 'team award'. Awards can be made at any time of the year and, ideally, should be paid as soon as possible after completion of the tasks to which they relate. These bonuses are not consolidated into basic salary or pensionable. Awards may be of any value up to a normal maximum of £600. The award of any sum greater than £600 is considered only very exceptionally.

There are five different civil service pension schemes in operation at all levels in Communities and Local Government at this time: classic, classic plus, nuvos, partnership and premium schemes. The pension scheme rules are determined by the Cabinet Office. Full information on the aforementioned schemes can be obtained from the civil service pensions website:

http://www.civilservice-pensions.gov.uk/.

In addition to the aforementioned schemes, civil servants including those who are not able to join one of the above schemes, may also contribute to a Stakeholder pension with Standard Life, subject to eligibility. The civil service does not make any contributions to this scheme but contributions by individuals may be made through payroll.

Employees are entitled to the following expenses:

(a) expenses when they travel on official business within the UK away from their normal workplace;

(b) expenses when they travel on official business overseas;

(c) certain expenses that might be payable, if the employee is offered and agrees to a permanent transfer at public expense;

(d) certain expenses that might be payable if the employee agrees to work away from the normal workplace on detached duty; and

(e) the reimbursement of excess fares arising from a permanent transfer at public expense.

Expenses must be actually and necessarily incurred and must be supported by receipts. The submission of a claim knowingly containing false or inaccurate information may constitute a disciplinary offence and may lead to disciplinary action. The full detail of the expenses policy is set out in the staff handbook.

The total expenses incurred for each salary band for each of the past 10 years can be provided only at disproportionate cost.

For each pay band the average age, numbers of men and women, and ethnic composition are given in the following table. In order to avoid disclosing confidential information about individual staff members we have grouped together certain salary bands.

| | | *Sex* | | *Ethnic origin (percentage)* | | |
|---|---|---|---|---|---|---|
| *Salary band* | *Average age (years)* | *Male (FTE)* | *Female (FTE)* | *White* | *BME* | *Unknown* |
| Industrial bands | 47 | 14 | 0 | 14 | 0 | 86 |
| Band 1 & 2 | 43 | 118 | 161 | 36 | 22 | 43 |
| Band 3 | 40 | 184 | 221 | 42 | 27 | 31 |
| Band 4 | 39 | 281 | 277 | 59 | 15 | 27 |
| Band 5 | 43 | 185 | 127 | 52 | 9 | 38 |
| Band 6 | 42 | 258 | 222 | 61 | 7 | 32 |
| Band 7 | 46 | 73 | 35 | 59 | 8 | 33 |
| SCS | 46 | 74 | 59 | 71 | 3 | 26 |

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much was paid in bonuses to staff in the home information pack division in the last year for which figures are available. [171496]

**Mr. Iain Wright:** Given the small number of staff in the home information packs division, it would be a breach of confidentiality and therefore inappropriate to give details.

### Departmental Public Expenditure

**Mr. Letwin:** To ask the Secretary of State for Communities and Local Government pursuant to the Winter Supplementary Estimates (HC 29), if she will break down her Department's *(a)* main estimate and *(b)* winter supplementary estimate provision by subhead in (i) near cash and (ii) non-cash terms. [174993]

**Mr. Dhanda:** The following tables show, for the main and winter supplementary estimates, the split of provision between near cash, non cash and capital grants by estimate line.

*(a) Main Estimate Provision 2007-08*

*£000*

| | | *Near cash* | *Non cash* | *Capital Grants* | *Total* |

## Departmental Public Participation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans she has to promote the use of *(a)* referendums and *(b)* direct democracy. [171721]

**John Healey:** Section 116 of the Local Government Act 2003 provides an express power for local authorities to hold advisory polls on local government matters; and under the Local Government Act 2000 referendums can be held in relation to local authorities' governance arrangements. Whether local authorities hold referendums or not is a matter for them. My right hon. Friend the Secretary of State launched an action plan on community empowerment on 19 October, which included measures to promote direct democracy such as more participatory budgeting, a consultation on local petitions and development of more voluntary agreements between local authorities and communities (through local charters).

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government pursuant to the answer of 29 November 2007, *Official Report*, column 681W to my hon. Friend the Member for Fareham (Mr. Hoban) on departmental public participation, if she will place in the Library a copy of *(a)* the pilot employee engagement survey by Ipsos Mori and *(b)* the last completed staff survey by Ipsos Mori; and what the subject is of the GfK study. [174412]

**Mr. Dhanda:** Completed staff surveys are published on the corporate website. As part of our ongoing research on homebuying reform, GfK were commissioned to explore understanding and perceptions of home information packs.

## Departmental Responsibilities

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government what *(a)* reviews, *(b)* consultations and *(c)* taskforces her Department is (i) responsible for and (ii) scheduled to initiate; on what date each (A) started and (B) is expected to be completed; and what the purpose is of each. [170155]

**Mr. Dhanda** *[holding answer 3 December 2007]*: Information relating to ad hoc reviews, groups and taskforces for which the Department is responsible is published at:

www.communities.gov.uk/publications/corporate/publicbodies2007

Information on consultations is published on the 10 Downing street website at:

www.pm.gov.uk

The Government keep policies under constant review and is in frequent contact with a range of stakeholders. The Department does not hold records of forthcoming reviews and consultations where the terms of reference or publication date have not yet been agreed. Within the disproportionate cost threshold, it has been possible to identify a number of reviews with a set remit and fixed completion date, details of which are set out in the following table:

*CLG reviews 18 December 2007*

| *Reviews* | *Start date* | *Completion date* | *Purpose* |
|---|---|---|---|
| The future of building control | 29 March 2007 | We do not yet have a fixed completion date | To review the principles and requirements for building standards and make recommendations on how the building control system can be revitalised |
| Councillors Commission | February 2007 | December 2007 | To make recommendations on the incentives and barriers to encouraging suitably able, qualified and representative people to become councillors |
| Evaluation of Social HomeBuy scheme | October 2006 | December 2007 | To understand the take up, and barriers to take up, of the pilot Social HomeBuy scheme by both housing association and local authority tenants and landlords |

*CLG reviews 18 December 2007*

| *Reviews* | *Start date* | *Completion date* | *Purpose* |
|---|---|---|---|
| Review of the future governance of the Planning Portal | July 2006 | March 2008 | To identify and analyse future ownership options for the Planning Portal and, if appropriate, plan a project to transfer to a successor body |
| Matthew Taylor MP Review of land use | 3 September 2007 | July 2008 | To review how land use and planning can better support rural business and deliver affordable housing |
| Brian Pomery Review of Shared Equity | July 2007 | December 2007 | To advise on development of the private shared equity market |

### Departmental Secondment

**Mrs. May:** To ask the Secretary of State for Communities and Local Government how many secondments of staff were made *(a)* to and *(b)* from her Department in each year since 1997; which organisations staff were seconded (i) to and (ii) from; how many staff were seconded in each year; for how long each secondment lasted; and what the cost was of each secondment in each year. [167279]

**Hazel Blears:** The table presents the number of inward and outward secondments that began in each complete financial year since the formation of the Office of the Deputy Prime Minister in May 2002.

| | *Inward secondments* | *Outward secondments* |
|---|---|---|
| 2006-07 | 54 | 26 |
| 2005-06 | 30 | 22 |
| 2004-05 | 60 | 26 |
| 2003-04 | 51 | 16 |

Listed are the destinations of outward secondments where these have been recorded centrally. During the period the destination of outward secondees has not been collected centrally on a comprehensive basis. This list represents the partial information that is available.

*Recorded Destination Organisations for Outward Secondments*

Bedford and Milton Keynes Waterway Trust
Bexley Council
Bracknell-Forest Council
Camden Council
Centre for Enterprise (CFE)
Circle Anglia
East Central Wisconsin Regional Planning Commission
English Partnerships
European Commission
Firebuy
Government Office London
Groundwork UK
Housing Corporation
Judicial Appointments Commission
London Development Agency
Lewisham Council
Local Government Association
London and Quadrant Housing Group
Ministry of Labour and Social Affairs, Madrid
Ministry of Social Development, New Zealand
Partnership for Urban South Hampshire (PUSH)
Prince of Wales Office
Regenter
South West Regional Development Agency
Southwark Council
The Royal borough of Kensington and Chelsea
The Scarman Trust
UNESCO Institute of statistics (Canada)
Valuation Office Agency
Youth Justice Board for England and Wales

Listed next are the origins of inward secondments where this has been recorded centrally. Again, during the period the origin of inward secondees has not been collected centrally on a comprehensive basis. This list represents the partial information that is available.

*Recorded Organisations from which Inward secondments have been drawn*

| | 2 | 1.2 | 1 | 2.3 |
| | 2 | 1.4 | 1 | 2.8 |
| | 2 | 1.5 | 1 | 3.3 |
| | 2 | 1.6 | 1 | 3.4 |
| | 4 | 1.7 | 1 | 4.4 |

| | Inward Secondment Lengths | | Outward Secondment Lengths | |
|---|---|---|---|---|
| | Number | Years | Number | Years |
| | 1 | 1.8 | — | — |
| | 1 | 1.9 | — | — |
| | 4 | 2 | — | — |
| | 1 | 2.5 | — | — |
| | 1 | 2.7 | — | — |
| | 1 | 2.9 | — | — |
| | 1 | 3.1 | — | — |
| | 1 | 3.7 | — | — |

For nearly all outward secondments we fully recover the costs from the importing organisation so the only costs to the Department are the associated administrative costs. Each year we fund a small number of secondments to bodies such as the European Commission to provide development opportunities for staff. These costs and the cost of each secondment for each year could be provided only at disproportionate cost.

### Departmental Telephone Services

**Julia Goldsworthy:** To ask the Secretary of State for Communities and Local Government which telephone contact centres are the responsibility of her Department; what mechanisms are in place to monitor their effectiveness; and how many people have been employed in each of those centres in each year since they were established. [166547]

**Mr. Dhanda:** Communities and Local Government (CLG) does not have a call centre. CLG shares a switchboard service with DfT. The service is provided by and managed by our telephony contractor, Siemens, who employ six agents to answer general inquiries. The contract has been in existence since October 2004 with the number of staff remaining the same. All calls are handled via a queuing system and are either responded to directly (if the information is available on their database) or transferred to a policy official. The service does not collect personal information and the only monitoring relates to statistical information on the performance of call handling activity. Both Departments meet monthly with suppliers to discuss switchboard performance.

**Julia Goldsworthy:** To ask the Secretary of State for Communities and Local Government what information her Department collects and monitors in relation to the telephone contact centres for which her Department is responsible. [166548]

**Mr. Dhanda:** Communities and Local Government does not collect personal data from inquirers to the switchboard. The Department only monitors the service in relation to its call handling performance against the contract requirements.

**Julia Goldsworthy:** To ask the Secretary of State for Communities and Local Government how much each telephone contact centre for which her Department is responsible has *(a)* cost and *(b)* generated in income in each financial year since their establishment. [166549]

**Mr. Dhanda:** Communities and Local Government (CLG) does not have a call centre, and its switchboard does not generate any income from calls. CLG shares this service with DfT paying £120,840 per annum for its share of the provision of this service.

### Domestic Wastes: Waste Disposal

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government which local authorities have cited moving to an alternate weekly collection of household rubbish as *(a)* cashable and *(b)* non-cashable efficiency savings in their submissions of (i) forward look and (ii) backward look annual efficiency statements to her Department in each year since their inception. [171598]

**Mr. Dhanda:** For information on citations in Annual Efficiency Statements up to the 2006-07 Forward Look, I refer the hon. Member to the answer given by my right hon. Friend the then Secretary of State to the hon. Member for Meriden (Mrs. Spelman) on 14 June 2007, *Official Report*, columns 1173-74W.

References for subsequent statements are as follows:

*2006-07 Backward Look*

Blackburn with Darwen Borough Council;
Bracknell Forest Borough Council;
Canterbury City Council;
Crewe and Nantwich Borough Council;
Doncaster Metropolitan Borough Council;
Kennet District Council;
South Cambridgeshire District Council;
Spelthorne Borough Council; and
and West Lancashire District Council.

*2007-08 Forward Look*

Bridgenorth District Council;
Canterbury City Council;
Kennet District Council;
Salisbury District Council;
Shrewsbury and Atcham Borough Council;
Test Valley Borough Council; and
West Lancashire District Council.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether savings from moving to an alternate weekly collection from a weekly collection of household rubbish can be counted as a *(a)* cashable and *(b)* non-cashable efficiency savings for the purposes of local authorities' returns to her Department. [171599]

**Mr. Dhanda:** I refer the hon. Member to the answer given to the hon. Member for Surrey Heath (Michael Gove) on 29 March 2007, *Official Report*, column 1736W.

### Fire Services: Consultants

**Mr. Dismore:** To ask the Secretary of State for Communities and Local Government how much was paid in fees to consultants for Fire Service-related work undertaken for her Department in each of the last five years for which figures are available; and what estimated fees her Department expects to pay to consultants working on Fire Service-related work in each year covered by the Comprehensive Spending Review 2007. [175281]

**Mr. Dhanda:** The information for which figures are available is as follows:

| | | | *£ million* |
|---|---|---|---|
| | *Consultants* | *Temp staff* | *Total* |
| 2002-03 | 3.38 | 0.19 | 3.57 |
| 2003-04 | 5.29 | 0.35 | 5.64 |
| 2004-05 | 13.27 | 0.74 | 14.01 |
| 2005-06 | 15.35 | 0.99 | 16.34 |
| 2006-07 | 20.83 | 1.29 | 22.12 |
| 2007-08 | 8.28 | 15.48 | 23.76 |

The cost of temporary staff has been included to reflect a recent re-categorisation of costs. The increased expenditure from 2004-05 is due to the programme of modernising the fire and rescue service. This includes the Fire and Resilience Programme, which will improve the service's capability to respond to major emergencies, including natural disasters, industrial accidents and acts of terrorism.

Estimates of fees to be paid during the CSR07 period are not yet available.

### Fire Services: Cost Effectiveness

**Mr. Harper:** To ask the Secretary of State for Communities and Local Government what Gershon savings the Government expect to obtain from *(a)* stand-alone fire authorities and *(b)* fire authorities which are part of a local authority. [175014]

**John Healey** *[holding answer 17 December 2007]:* At the start of SR04, all Fire and Rescue Authorities (FRAs) in England were set a national target to achieve £105 million gross cashable efficiency gains in the years 2005-06 to 2007-08. The evidence received by the Department to date indicates that FRAs are set to exceed this target and have achieved approximately £132 million in cashable efficiency gains in 2005-06 and 2006-07. Based on forecast figures provided by FRAs, a further £44 million will be achieved in 2007-08.

Cashable efficiency gains by authority type to the end of 2006-07 are as follows:

| | *Amount (£)* |
|---|---|
| Metropolitan Fire and Rescue Authorities | 50,850,000 |
| Combined Authorities | 45,993,000 |
| London | 20,813,000 |
| County Authorities | 15,287,000 |
| Total | 132.9 million |

### Homelessness: Greater London

**Paul Holmes:** To ask the Secretary of State for Communities and Local Government what steps her Department has taken to investigate the reasons for the 70 per cent. reduction in the number of statutory homelessness acceptances in the London borough of Newham. [172990]

**Mr. Iain Wright:** Homelessness prevention is key to our work on tackling homelessness and continues to be a very effective approach. Nearly all local authorities have a comprehensive prevention toolkit in place, which is leading to successful early interventions to help households avoid the crisis of homelessness altogether.

London borough of Newham have been particularly pro-active on the prevention agenda over the last 12 months which has led to significant reductions in homelessness acceptances. The successful number of homelessness preventions in the borough rose by 278 per cent. to 1,696 in 2006-07.

On 5 December, we announced homelessness grant funding of at least £150 million over the three years 2008-09 to 2010-11 to continue to support local authorities to tackle and prevent homelessness in their area. This a 6 per cent. increase on the current year. London borough of Newham's homelessness grant will increase from £200,000 to £300,000 for 2008-09, a rise of 50 per cent.

A Homelessness Action Team has been set up in partnership with the Department and the Housing Corporation. This team will continue to monitor and support the London borough of Newham and the other London boroughs in their efforts to tackle homelessness.

### Housing: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what changes the Government have *(a)* made and *(b)* announced to the (i) total amount of funding for, (ii) maximum allocated to individuals under, (iii) bidding process used in and (iv) eligibility requirements for private sector renewal grants in the last 12 months. [174547]

**Mr. Iain Wright:** £10.2 billion has been allocated by my Department for regional housing funding for 2008-11 for housing capital programmes including those which address the condition of private sector housing stock. Of this, almost £2 billion is for improvements and regeneration to the existing stock (both local authority owned and private sector). These allocations were announced on 12 December.

No changes have been made to the bidding process for the Regional Housing Pot and we are currently seeking the Regional Assemblies' recommendations on allocations to individual local authorities in their area drawn from the private sector renewal part of the Regional Housing Pot.

### Housing: Industrial Health and Safety

**Ms Buck:** To ask the Secretary of State for Communities and Local Government what information her Department will require from local authorities on the implementation of the housing health and safety ratings system. [174204]

**Mr. Iain Wright:** Through the Housing Strategy Statistical Appendix return we are collecting data from local authorities on the number of private sector dwellings with category one hazards, the estimated cost of removing the category 1 hazards and the number of private sector dwellings made free of category one hazards or demolished as a direct result of action by the local authority during 2006-07.

Through the Business Plan Statistical Appendix returns we are collecting data on the number of local authority homes that do not meet the statutory minimum standard for housing and the costs to put the defects right.

Subject to data quality the Department plans to publish these data in January.

### Housing: Low Incomes

**Jim Cousins:** To ask the Secretary of State for Communities and Local Government what guidance she proposes to give Bridging Newcastle Gateshead (BNG) on the proportion of new homes to be created by BNG in the Newcastle Housing Pilot Area which will be affordable to rent or buy. [172490]

**Mr. Iain Wright** *[holding answer 13 December 2007]:* I do not propose to issue any guidance on this matter. It is for individual Housing Pathfinders such as BNG to determine appropriate levels of affordable homes, working in conjunction with other authorities and with the involvement of the local community. In the case of Newcastle, decisions about the mix and level of affordability will be informed by the city's housing strategy, the Walker Riverside Area Action Plan, adopted in April 2007, the draft Core Strategy Development Plan Document, and the draft Benwell/Scotswood Area Action Plan.

### Housing: Owner Occupation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the causes for recent changes in the level of home ownership. [171602]

**Mr. Iain Wright:** Sustained economic growth and stability since 1997 have created the conditions for a growth in home ownership, with a million more home owners over the last 10 years. The Housing Green Paper, "Homes for the Future: more affordable, more sustainable" (CM 7191), published in July, set out the Government's assessment of progress on housing, together with plans to address the housing challenges the country faces.

We have recently published the Housing and Regeneration Bill, which will help deliver the commitments set out in the Housing Green Paper to deliver more and greener homes, in mixed and sustainable communities. The Bill also establishes the new Homes and Communities Agency which will focus on delivering more new and affordable homes across all tenures and will drive and invest in regeneration.

### Housing: Standards

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government how many children under the age of 16 years were housed in accommodation classified as overcrowded or unsuitable in each region in England for each of the last five years. [170357]

**Mr. Iain Wright:** It is estimated that, over the period 2001-02 to 2005-06, there were an average of 900,000 children under the age of 16 living in overcrowded conditions in England, with the following regional split.

*Number of children under 16 living in overcrowded conditions, average 2001-02 to 2005-06*

| *Government office region* | *Number* |
|---|---|
| North East | 30,000 |
| North West | 110,000 |
| Yorkshire and Humber | 70,000 |
| East Midlands | 50,000 |
| West Midlands | 110,000 |

*Source:*
Survey of English Housing.

Estimates for each year are not available because of small sample sizes.

The benchmark for assessing whether or not a household is overcrowded is the bedroom standard. This is determined for each household in accordance with its age/sex/marital status composition and the relationship of the members to one another. A separate bedroom is required:

for each married or cohabiting couple;

for any other person aged 21 or over;

for each pair of adolescents aged 10-20 of the same sex and

for each pair of children under 10.

Further, any unpaired person aged 10-20 is paired, if possible with a child under 10 of the same sex, or, if that is not possible, he or she is counted as requiring a separate bedroom, as is any unpaired child under 10.

This standard is then compared with the actual number of bedrooms (including bed-sitters) available for the sole use of the household. Bedrooms converted to other uses are not counted as available unless they have been denoted as bedrooms by the residents. Bedrooms not actually in use are counted unless uninhabitable.

If a household has fewer bedrooms than implied by the standard then it is deemed to be 'overcrowded'. Since one bedroom will be sufficient for single person households and for married/cohabiting couples, these households cannot be overcrowded according to the bedroom standard. If a household has two or more bedrooms, fewer than implied by the standard, then it is deemed to be 'severely overcrowded'.

On 12 December, my right hon. Friend, the Minister for Housing announced an additional £15 million funding for overcrowding and launched an action plan setting out the Government's commitment to tackling overcrowding—copies have been placed in the Library of the House. We have already announced an increase in the provision of new social housing including a year-on-year increase in the number of family homes, namely those with three or more bedrooms.

**Ms Keeble:** To ask the Secretary of State for Communities and Local Government (1) whether any local housing authorities have informed her Department that they will not be able to achieve the decent home standard by 2010; [171957]

(2) how many local housing authorities are on target to meet the decent home standard by 2010. [171959]

**Mr. Iain Wright:** Of the 354 district and single tier local authorities, 293 have delivered or have plans in lace to deliver decent homes for their own housing stock by the end of 2010. 61 have negotiated decent homes delivery deadlines later than 2010, or are in the process of negotiating those deadlines.

### Illegal Immigrants

**Damian Green:** To ask the Secretary of State for Communities and Local Government how many illegal immigrants have been discovered working for her Department and its agencies in the last year for which figures are available. [170481]

**Mr. Dhanda:** There is no information to suggest that anyone without the appropriate employment status has worked in the Department for Communities and Local Government.

### Local Authorities: Equal Opportunities

**Mr. Harper:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the cost of the implementation of the Disability Equality Duty on local authorities. [173550]

**John Healey:** It is for the Department introducing new legislation to undertake a regulatory impact assessment of the legislation, including the costs to different sectors, including—where appropriate—local government. This was done as part of the impact assessment for the Disability Equality Duty, published in April 2005.

### Local Authority Business Growth Incentive Scheme

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much local authorities in England have received in cash terms from the Local Authority Business Growth Incentive scheme in each year of its operation; and what amount is forecast to be received in each of the next three years. [171630]

**John Healey:** Details of the current Local Authority Business Growth Incentive Scheme (LABGI) were first announced in a written ministerial statement to the House on 21 July 2005, *Official Report*, columns 118-120WS. This said that local authorities would stand to gain up to £1 billion through the scheme in England and Wales over three years, with the first payment to be made in February 2006. Under LABGI, local authorities in England have received cash payments of £150 million in 2005-06 and £384 million in 2006-07. We remain committed to allocating up to £935 million across England over the three years of the scheme.

The future of LABGI will be determined in part by responses to an 'issues paper', published in October, which seeks views on reform of LABGI and its incorporation into the mainstream system of funding. This paper can be found at:

http://www.communities.gov.uk/publications/localgovernment/labgischemereforms

The reformed incentive scheme would be phased-in from 2009-10. £50 million will be available in England for 2009-10 and this will double to £100 million in 2010-11.

### Local Government Finance

**Ms Buck:** To ask the Secretary of State for Communities and Local Government if she will rank each English local authority by real terms *(a)* percentage change and *(b)* expenditure in revenue support grant in each year since 1992. [170637]

**John Healey:** Information on settlements in the years 2007-08 and 2006-07 are available on the Department's website at:

http://www.local.communities.gov.uk/finance/0708/grant.htm

and

http://www.local.communities.gov.uk/finance/0607/grant.htm.

Information on settlements are, as a matter of course, each year, placed in the Libraries of the House.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what proportion of specific grants to local government were ring-fenced in the latest period for which figures are available. [171716]

**John Healey:** Excluding Dedicated Schools Grant and other schools grants, the level of ring-fencing of local authority funding is 10.5 per cent. in 2007-08. On a comparable basis, ring-fencing in 2006-07 was also 10.5 per cent.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how much is expected to be allocated by her Department in *(a)* specific and *(b)* ring-fenced grants in each of the next three years. [173322]

**John Healey:** Information on specific revenue grants intended to be provided to local authorities from this Department is set out in the following table:

*£ million*

| | *Ringfenced/ unringfenced* | *2008-09* | *2009-10* | *2010-11* |
|---|---|---|---|---|
| Supporting people[1] | RF | 1,686.000 | 0.000 | 0.000 |
| Private finance initiative | UF | 677.000 | 853.000 | 1,069.000 |
| LAA reward grant | UF | 244.000 | 234.000 | 123.000 |
| Housing and planning delivery grant[2] | UF | 67.000 | 160.000 | 250.000 |
| Homelessness | UF | 49.204 | 49.204 | 49.204 |
| Housing market renewal fund | RF | 25.000 | 25.000 | 25.000 |

*£ million*

| | *Ringfenced/ unringfenced* | *2008-09* | *2009-10* | *2010-11* |
|---|---|---|---|---|
| Working neighbourhoods fund reward grant | UF | 0.000 | 0.000 | 50.000 |
| Growth areas, points and eco towns | UF | 14.000 | 14.000 | 14.000 |
| Total | | 2,762.204 | 1,335.204 | 1,580.204 |

[1] The aim is to include Supporting People funding in area based grant from 2009-10, dependent on pilots in 2008-09 not raising serious concerns.

[2] 2009-10 and 2010-11 HPDG figures are provisional. However, the total for HPDG resource plus capital over the three years of the CSR07 period will be £510 million.

In addition, the Department intends to provide £2,993.073, £4,829.169 and £4,742.056 million area based grant over the next three years. Area based grant is a new general grant to be paid by CLG. Supporting People funding is included within the total for 2009-10 and 2010-11, but is subject to review[1].

The Department will also provide specific grants to fire and rescue authorities to support their work on the resilience programme which, in the main, will be provided without conditions attached.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government which *(a)* specific and *(b)* ring-fenced grants will cease to be ring-fenced under her Department's plans to reduce ring-fencing in the period up to 2011. [173325]

**John Healey:** Under the Department's plans to reduce ring-fencing up to 2010-11, the following formerly ring-fenced specific revenue grants will have the ring-fence removed from 2008-09 onwards:

School Travel Advisers
School Improvement Partners
Primary National—Central Co-Ordination
Secondary National Strategy—Central Co-Ordination
Secondary National Strategy—Behaviour and Attendance
Extended Schools Start Up Costs
General Duty on Sustainable Travel to School
School Development Grant (Schools Element)
Extended Rights for Free Travel
Child and Adolescent Mental Health Services
Mental Health
Children's Services Grant
Teenage Pregnancy Local Implementation
Respect—Youth Taskforce Areas
Connexions
Children's Fund
Choice Advisers
Education Health Partnerships
Stronger Safer Communities Fund
Aggregates Levy Sustainability Fund
Working Neighbourhoods Fund (formerly Neighbourhood Renewal Fund)
Supporting People (2009-10 onwards)
Supporting People Administration
Waste Performance and Efficiency Grant
Local Enterprise Growth Initiative
Housing Market Renewal Grant
Growth Areas, Points and Eco Towns
Rural Bus Subsidy Grant.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether councils with above-average collection rates for *(a)* council tax and *(b)* business rates receive any financial reward in terms of additional revenue as a consequence of the higher collection rates. [173489]

**John Healey:** A council's performance on collecting council tax or business rates does not affect the amount of formula grant it receives.

**Mr. Swire:** To ask the Secretary of State for Communities and Local Government if she will provide additional funding to local authorities for work on the bids for unitary status from *(a)* Exeter city, *(b)* Bedford borough, *(c)* Chester city and *(d)* Ipswich borough council. [174640]

**John Healey:** No. In the course of their business, local authorities respond to many consultation exercises and requests for information, and consequently, budget for this as part of their business planning.

### Local Government Finance: Herefordshire

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what the local authority grant settlement was per capita for Herefordshire in each year since 1997; and if she will make a statement. [170964]

**John Healey:** The following table shows the average formula grant per head for Herefordshire for each year since 1997. Formula grant comprises Revenue Support Grant and redistributed business rates. In order to compare grant on a like-for-like basis we calculate a notional adjusted formula grant for the previous year which reflects the changes to funding and function. From 2006-07 support for schools was financed through the Dedicated Schools Grant; prior to 2006-07 support for schools was included within formula grant.

| *Current year*[1] | *Adjusted prior year's formula grant per head (£ per head)* | *Current year's formula grant per head (£ per head)* | *Change (£ per head)* | *Percentage change* |
|---|---|---|---|---|
| 1998-99 | 491.73 | 487.52 | -4.22 | -0.9 |
| 1999-2000 | 487.52 | 511.57 | 24.06 | 4.9 |
| 2000-01 | 511.58 | 533.21 | 21.64 | 4.2 |
| 2001-02 | 532.65 | 556.58 | 23.93 | 4.5 |

| Current year | Adjusted prior year's formula grant per head (£ per head) | Current year's formula grant per head (£ per head) | Change (£ per head) | Percentage change |
|---|---|---|---|---|
| 2002-03 | 545.55 | 575.17 | 29.62 | 5.4 |
| *Amended* | | | | |
| 2003-04 | 598.05 | 607.33 | 9.27 | 1.6 |
| 2004-05 | 590.82 | 631.81 | 40.99 | 6.9 |
| 2005-06 | 632.37 | 665.02 | 32.65 | 5.2 |
| 2006-07 | 256.94 | 259.45 | 2.51 | 1.0 |
| 2007-08 | 256.99 | 264.22 | 7.23 | 2.8 |

### Local Government Finance: Newcastle

**Jim Cousins:** To ask the Secretary of State for Communities and Local Government what baseline funding support for the city of Newcastle would be from the use of the *(a)* 2004 and *(b)* 2006 mid-year estimate of population. [169786]

**John Healey** *[holding answer 3 December 2007]:* The provisional formula grant settlement for 2008-09, 2009-10 and 2010-11 use the Office for National Statistics revised 2004-based sub-national population projection for 2008, 2009 and 2010 respectively as the main measure of the resident population.

These statistics are the best data available on a consistent basis for all local authorities and that are available at this time of calculating the next three-year formula grant settlement.

Mid-2006 estimates of population will also be used but only as part of other indicators that are used in the calculation of the relative needs component.

It is not possible to provide an estimate of how much formula grant would be allocated to the city of Newcastle if we use the mid-2004 or mid-2006 estimate of population as the main measure of population instead of the projection of population for 2008. This is because the Government might well have taken a different decision on the level of the grant floor using these scenarios, and projections for 2008 and beyond, based on the 2006 mid-year estimates, will not be available until summer 2008.

Under our proposals, Newcastle-upon-Tyne benefit from the grant floor over these three years by £8 million, £8.9 million and £9.6 million respectively.

We are currently consulting on these proposals, and we welcome any views on them by the 8 January 2008.

### Local Government Finance: Rural Areas

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what consideration she gives to rural factors when determining local authorities' grants allocation; and if she will make a statement. [170874]

**John Healey:** An authority's formula grant allocation is largely based on the socio-economic and demographic characteristics of the authority, together with the number of band D equivalent properties within its area. A measure of how sparsely the population is distributed in an area is included in the Local Authority Central Education Functions Relative Needs Formula (RNF), the Social Services for Older People RNF, the Police RNF and the district-level Environmental, Protective and Cultural Services RNF. We then ensure that no authority loses grant year-on-year on a like-for-like basis i.e. after adjusting for changes in funding and function. In order to pay for the cost of the floor, we scale back the increase above the floor for other authorities.

### Local Government Finance: Unitary Councils

**Bill Wiggin:** To ask the Secretary of State for Communities and Local Government what the average local authority grant settlement was per capita for unitary authorities in each year since 1997; and if she will make a statement. [170882]

**John Healey:** The following table shows the average formula grant per head for shire unitary authorities for each year since 1997. Formula grant comprises Revenue Support Grant and redistributed business rates. In order to compare grant on a like-for-like basis we calculate a notional adjusted formula grant for the previous year which reflects the changes to funding and function. From 2006-07 support for schools was financed through the Dedicated Schools Grant; prior to 2006-07 support for schools was included within formula grant.

| Current year | Adjusted prior year's formula grant per head (£ per head) | Current year's formula grant per head (£ per head) | Change (£ per head) | Percentage change |
|---|---|---|---|---|
| 1998-99 | 587.96 | 597.53 | 9.56 | 1.6 |
| 1999-2000 | 597.53 | 623.28 | 25.75 | 4.3 |
| 2000-01 | 623.28 | 646.54 | 23.26 | 3.7 |
| 2001-02 | 643.22 | 667.88 | 24.65 | 3.8 |
| 2002-03 | 643.51 | 674.70 | 31.18 | 4.8 |

| *Current year* | *Adjusted prior year's formula grant per head (£ per head)* | *Current year's formula grant per head (£ per head)* | *Change (£ per head)* | *Percentage change* |
|---|---|---|---|---|
| *Amended* | | | | |
| 2003-04 | 697.85 | 750.09 | 52.25 | 7.5 |
| 2004-05 | 726.87 | 767.68 | 40.82 | 5.6 |
| 2005-06 | 774.53 | 817.78 | 43.25 | 5.6 |
| 2006-07 | 329.25 | 335.92 | 6.67 | 2.0 |
| 2007-08 | 333.49 | 346.35 | 12.85 | 3.9 |

### Local Government: Bedfordshire

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what options her Department is considering for local government restructuring in *(a)* Bedfordshire and *(b)* Cheshire. [174461]

**John Healey:** I refer the hon. Member to the written ministerial statement I have made to the House today (18 December 2007).

### Local Government: Elections

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether she plans to offer *(a)* free doughnuts or *(b)* free lottery tickets to incentivise the electorate to vote in local elections. [174535]

**John Healey:** The Secretary of State has received the Councillors Commission report and is considering the broad range of proposals it puts forward, in consultation with the LGA, local authorities and other key stakeholders. My right hon. Friend will be issuing our response, along with an implementation plan, in the spring.

### Local Government: Exeter

**Mr. Swire:** To ask the Secretary of State for Communities and Local Government what information presented on Exeter City Council's bid for unitary status did not meet the criteria set out in the Invitation to Councils in England. [174192]

**John Healey:** I refer the hon. Member to the written ministerial statement 'Local Government', I made on 5 December 2007, *Official Report*, column 65WS.

**Mr. Swire:** To ask the Secretary of State for Communities and Local Government what the timescale is for the deferred decision on Exeter City Council's bid for unitary status. [174193]

**John Healey:** We aim to refer Exeter city council's unitary proposal to the Boundary Committee in time for them to begin their review as early as possible in the new year.

**Mr. Swire:** To ask the Secretary of State for Communities and Local Government who the Boundary Commission will consult on Exeter city council's bid for unitary status; and if she will ensure that the Boundary Commission publishes its terms of reference. [174194]

**John Healey:** Under the Local Government and Public Involvement in Health Act 2007, the Boundary Committee is required to consult the council of any area affected by the review and such local authorities, parish councils and other persons as appear to them to have an interest. The Government will publish the terms of their referral to the Boundary Committee.

**Mr. Swire:** To ask the Secretary of State for Communities and Local Government how many representations she has received which are opposed to Exeter City Council's bid for unitary status. [174237]

**John Healey:** We received some 700 responses to the stakeholder consultation in response to Exeter city council's proposal for unitary status. The consultation did not specifically ask consultees to indicate support specifically for or against the proposals. Of those responses, where this is discernable, approximately 80 per cent. broadly opposed the proposal.

### Local Government: Ipswich

**Mr. Ruffley:** To ask the Secretary of State for Communities and Local Government (1) what representations she has received on the estimated cost of investigating unitary status for Ipswich from *(a)* Suffolk county council and *(b)* Ipswich borough council; [174206]

(2) what representations she has received on the number of man hours spent investigating unitary status for Ipswich by *(a)* Suffolk county council and *(b)* Ipswich borough council. [174207]

**John Healey:** We have received no representations from Suffolk county council or Ipswich borough council about the number of staff hours spent or costs incurred on proposals for unitary status.

### Local Government: Publicity

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government when the code of recommended practice on local authority publicity was last revised; and what plans she has to change the code. [174544]

**John Healey:** The code of recommended practice on local authority publicity was issued in 1988 and was last revised in April 2001. Following consultation by my Department earlier this year, which indicated general support for a centrally-issued code, we intend to consider the future of the code with local government stakeholders in the new year.

### Local Government: Reorganisation

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government pursuant to the written statement of 5 December 2007, *Official Report*, column 65WS, on local government, what estimate she has made of the cost to the public purse *(a)* locally and *(b)* nationally of work on proposals for local government restructuring which will not be proceeded with. [173094]

**John Healey** *[holding answer 11 December 2007]*: The Invitation to councils issued on 26 October made clear that it was wholly at the discretion of a council as to whether or not it responded to the invitation to make a proposal for future unitary local government structures in their area.

Within my Department a small team, costing some £1.7 million per year, works on all aspects of local government restructuring, including the assessment of all the unitary proposals and, as appropriate, their implementation.

### Local Government: Standards

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether she plans to adopt the recommendations of the Councillors' Commission final report on *(a)* local government pensions, *(b)* the code of practice on local authority publicity, *(c)* removing political restrictions on local authority staff and *(d)* councillor allowances. [174459]

**John Healey:** The Secretary of State has received the Councillors Commission report and is considering the broad range of proposals it puts forward, in consultation with the LGA, local authorities and other key stakeholders. My right hon. Friend will be issuing her response, along with an implementation plan, in the spring.

### Local Government: Suffolk

**Mr. Ruffley:** To ask the Secretary of State for Communities and Local Government (1) what representations she has received on the cost of pursuing pathfinder status from *(a)* St. Edmundsbury borough council, *(b)* Forest Heath district council, *(c)* Babergh district council, *(d)* Mid Suffolk district council, *(e)* Suffolk coastal district council, *(f)* Waveney district council and *(g)* Suffolk county council; [174208]

(2) what representations she has received on the number of man hours spent pursuing pathfinder status from *(a)* St. Edmundsbury borough council, *(b)* Forest Heath district council, *(c)* Babergh district council, *(d)* Mid Suffolk district council, *(e)* Suffolk coastal district council, *(f)* Waveney district council and *(g)* Suffolk county council. [174209]

**Mr. Iain Wright:** I have received no representations from the named local authorities on the costs or number of man hours of pursuing pathfinder status.

### Local Government: Television Channels

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether her Department has incurred any expenditure, other than for publicity, on the Local Government Today television channel. [173298]

**Mr. Dhanda:** I am not aware that the Department has incurred any such expenditure.

### Maps: Copyright

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether Ordnance Survey plans to conduct an impact assessment in its review of the Paper Map Copying Licence fees, terms and conditions. [173319]

**Mr. Iain Wright:** A recent review by Ordnance Survey of the Paper Map Copying Licence has resulted in redrafting to clarify the terms and conditions. No previously available rights have been withdrawn as a result of this. An increase in licence royalties will be implemented from 1 January 2008, alongside a programme to make access to the licence easier, by allowing third party intermediaries to issue the licence and receive a fee for doing so.

Ordnance Survey undertakes regular reviews of all of its licence terms and conditions and charges. These reviews include routine assessments of the need for adjustments to licence terms and conditions, to maintain clarity for users and between licences intended for different purposes. The reviews take account of changes in market conditions, technology and the ways in which Ordnance Survey information is used. The assessments consider the balance between Ordnance Survey's financial obligations as a government trading fund and the impact of changes upon different types of user.

### Muslims: Females

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government when she plans to publish a good practice guide on effective initiatives to strengthen the role that Muslim women play in their communities as referred to in the Preventing Violent Extremism report. [173955]

**Mr. Dhanda:** The good practice guide on effective initiatives to strengthen the role that Muslim women play in their communities will be published early in the new year.

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government how many roundtables with academics, theologians and community leaders on women's access to mosque life have taken place as referred to in the Preventing Violent Extremism report; where they were held; and if she will make a statement. [173956]

**Mr. Dhanda:** Since April 2007, there have been two roundtable meetings with academics, theologians and leading Muslim women in which women's access to mosque life was discussed, which built on a previous roundtable earlier in the year. These roundtables were held at the Department for Communities and Local Government, Eland House, London.

The Department has also hosted two wider stakeholder roundtables in which a range of issues, including the empowerment of Muslim women, was discussed.

### Muslims: Vocational Training

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government what support her Department is providing to help develop leadership skills among Muslim women and young people; what the cost of this has been; and what expenditure is planned in the next three years. [173952]

**Mr. Dhanda:** In the financial year 2007-08 Communities and Local Government (CLG) supported the development of leadership skills among Muslim women and young people through the funding of projects from the Preventing Violent Extremism: Community Leadership Fund and providing media seminars.

£233,200 of the Preventing Violent Extremism: Community Leadership Fund has been spent on building the leadership capacity of Muslim women and young people.

CLG is both independently and jointly funding media seminars with the Foreign and Commonwealth Office to enable a greater number of young British Muslims, both men and women, to have the confidence and the skills to act as community leaders and ensure their voices are heard in wider public debate. The cost of this to date is £1,375 and work is ongoing.

The Secretary of State has undertaken to provide £45 million for local projects and £25 million for national schemes to support communities in preventing violent extremism. The Secretary of State made it clear in her speech at the Preventing Extremism: Strengthening Communities National Conference that women and young people will be prioritised.

### National Anthems

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what work *(a)* her Department and *(b)* the Equalities and Human Rights Commission is (i) undertaking and (ii) funding on changes to the national anthem. [174542]

**Mr. Dhanda:** Communities and Local Government and the Equality and Human Rights Commission are not undertaking or funding any work on changes to the national anthem.

### Office of the Local Government Ombudsman: Conditions of Employment

**Mr. Letwin:** To ask the Secretary of State for Communities and Local Government whether it is a requirement for staff in the Office of the Local Government Ombudsman not to have previously been local government employees. [174899]

**John Healey:** There is no such requirement.

### Pedestrian Areas: Safety

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government how many claims have been made against local authorities for trips and falls due to uneven pavements in each of the last five years. [173072]

**Mr. Dhanda:** This information is not held centrally.

### Planning

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether the *(a)* rural proofing analysis and *(b)* an environmental impact assessment was undertaken in the Impact Assessment for Housing and Planning Delivery Grant. [173341]

**Mr. Iain Wright:** The current consultation on the Housing and Planning Delivery Grant takes forward a key component of the Housing Green Paper, "Homes for the future" (Cm 7191), which set out how Government would deliver on their housing target of 240,000 new homes per year by 2016.

The Green Paper had been accompanied by a detailed impact assessment, which included its own rural proofing, sustainability and other environmental analyses.

### Planning and Compulsory Purchase Act 2004

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government which provisions of the Planning and Compulsory Purchase Act 2004 have yet to be commenced. [171505]

**Mr. Iain Wright:** The provisions yet to be commenced are included in the table that I have deposited in the Library of the House.

### Planning Permission: Greenbelt

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what powers the *(a)* new Infrastructure Planning Commission and *(b)* regional development agencies will have from 2010 to review or remove green belt planning protection. [174455]

**Mr. Iain Wright:** Under the terms of the Planning Bill, the Infrastructure Planning Commission (IPC) will take over the powers currently held by the Secretary of State, where a nationally significant infrastructure project would propose to use green belt land. The IPC would only be able to use these powers where this is in accordance with the national policy statement, which would set out (among other matters) how the Secretary of State believes applications referring to green belt land should be treated. Clause 125 of the Planning Bill makes clear that where an order granting development consent allows the acquisition or sale of green belt land, or frees it from any restrictions imposed on it under the Green Belt Act 1938, the IPC must notify all relevant local authorities and the Secretary of State.

With regard to regional development agencies, we have yet to consult on the details of their future role in spatial planning following on from our proposals set out in the Sub National Economic Development and

Regeneration Review (July 2007). We will be consulting in the new year on how these proposals are to be implemented.

### Planning: Leisure

**Mr. Betts:** To ask the Secretary of State for Communities and Local Government how much of the funding allocated for infrastructure in growth areas and growth points will be available for new build and refurbishment of sports and leisure facilities. [174846]

**Mr. Iain Wright:** Funding allocated through the £732 million Growth Fund to local authorities and their partnerships in the Growth Areas and Growth Points is intended to enable local authorities to make growth more sustainable, including provision of new community facilities. The funding is un-ringfenced and it is for local authorities to prioritise how this funding is used in their area, including whether to invest this funding for new build and refurbishment of sports and leisure facilities.

### Planning: Renewable Energy

**Gregory Barker:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the likely impact of allowing greater provision of energy from renewable sources off-site on the UK's capacity to contribute to the EU target that 20 per cent. of energy should come from renewable sources by 2020; and if she will make a statement. [167073]

**Mr. Iain Wright:** The Impact Assessment undertaken for our policy statement: Building a Greener Future, published in July 2007, estimated that the Government's zero carbon home policy could generate an increased contribution from renewables to the total UK electricity demand of around one per cent by 2020. The policy statement defined renewable energy supply for zero carbon homes in this context as coming from on site or local, decentralised energy sources connected to the development. The Impact Assessment did not disaggregate between these different sources.

### Planning: Retail Trade

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what her timetable is for revising planning policy statements on out-of-town retail developments. [174541]

**Mr. Iain Wright:** I refer the hon. Member to the answer I gave him on 10 December 2007, *Official Report*, column 149W.

### Preventing Violent Extremism Community Leadership Fund: Finance

**Mr. Paul Goodman:** To ask the Secretary of State for Communities and Local Government whether she plans to increase levels of funding for the Preventing Violent Extremism Community Leadership Fund over the next three years. [174757]

**Mr. Dhanda:** The Community Leadership Fund objectives are supporting women; building community leadership including leadership by young people and building community capacity to resist violent extremist ideologies. Grant funding for these objectives will increase substantially over the next three years.

### Public Bodies: Internet

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what work or research is being *(a)* undertaken and *(b)* commissioned by her Department on the development of XML schema for the sharing of data between public authorities. [173295]

**Mr. Dhanda:** Communities and Local Government (CLG) has a number of XML schemas in use at present as this is the currently preferred mechanism for collecting data in a standard format and in accordance with eGIF.

CLG are presently devising a data interchange mechanism that uses XML for collecting and sharing the National Indicator set as part of the New Performance Framework across Local, Regional and Central Government. As part of this programme CLG has commissioned a partner to build a data interchange hub.

### Recreation Spaces: Tamworth

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government how many acres of green space there are in the Borough of Tamworth, excluding the flood plain area. [174714]

**Mr. Iain Wright:** The amount of green space within the borough of Tamworth excluding the flood plain is 2,400 acres.

### Recycling: Birmingham

**Lynne Jones:** To ask the Secretary of State for Communities and Local Government what the household recycling rates were in Birmingham city council area in *(a)* each year since 2000-01 and *(b)* each quarter in 2006-07; and what municipal recycling rates were in 2006-07. [171101]

**Joan Ruddock:** I have been asked to reply.

The reported figures for Best Value Performance Indicators 182a and 182b (the percentage of household waste recycled or composted) for Birmingham city council for each year since 2000-01 are as follows:

| | *Percentage* |
|---|---|
| 2000-01 | 13.6 |
| 2001-02 | 8.4 |
| 2002-03 | 10.8 |
| 2003-04 | 12.93 |
| 2004-05 | 14.94 |
| 2005-06 | 16.99 |
| 2006-07 | 18.39 |

The household recycling/composting rate percentages for each quarter in 2006-07 were as follows:

| | Percentage |
|---|---|
| April to June | 23 |
| July to September | 25 |
| October to December | 17 |
| January to March | 20 |

Birmingham city council's municipal recycling rate for 2006-07 was 20.24 per cent.

### Regional Government: Brussels

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government which regional assemblies have offices in Brussels; and how much each spent on each of the offices in each of the last three years. [173316]

**John Healey:** Each of the regional assemblies makes a contribution with regional partners, including the regional development agency and regional local government association, towards an office in Brussels. Details of the cost incurred by each assembly are:

| | £ |
|---|---|
| *Assembly* | *Cost of maintenance* |
| *East* | |
| 2005-06 | [1]340,000 |
| 2006-07 | [1]350,000 |
| 2007-08 | [1]360,000 |
| *East Midlands* | |
| 2005-06 | 7,500 |
| 2006-07 | 20,000 |
| 2007-08 | 20,400 |
| *North East* | |
| 2005-06 | 90,190 |
| 2006-07 | 64,000 |
| 2007-08 | 66,000 |
| *North West* | |
| 2005-06 | 19,810 |
| 2006-07 | 19,810 |
| 2007-08 | 19,810 |
| *South East* | |
| 2005-06 | 51,500 |
| 2006-07 | 53,600 |
| 2007-08 | 75,000 |
| *South West* | |
| 2005-06 | 11,000 |
| 2006-07 | 11,330 |
| 2007-08 | 4,000 |
| *West Midlands* | |
| 2005-06 | 6,900 |
| 2006-07 | Nil |
| 2007-08 | Nil |
| *Yorkshire and the Humber* | |
| 2005-06 | 312,900 |
| 2006-07 | 340,000 |
| 2007-08 | [2]— |

[1] Figures for the east of England are estimates as the regional assembly is unable to provide precise figures.
[2] Information not yet available.
*Note*:
Figures for 2007-08 are estimates based on expenditure to date.

### Regional Government: East of England

**Bob Russell:** To ask the Secretary of State for Communities and Local Government what engagements the hon. Member for Welwyn Hatfield has attended in her capacity as Minister for the East of England since her appointment. [174236]

**Mr. Dhanda:** The Minister for the East of England, my hon. Friend the Member for Stevenage has met chief executives and leaders from local authorities as part of a programme of regional visits. My hon. Friend has also held a wide range of meetings and discussions with the Regional Development Agency, Regional Assembly, Learning Skills Council and Civil Servants. The Regional Minister has also undertaken high profile press events to understand the impact of Avian Influenza and the response to the Coastal Surge that affected the region. Engagements include the following:

| | *Engagement* |
|---|---|
| 26 July 2007 | Meeting chief executives and key stakeholder to introduce Regional Minister Role |
| 3 September 2007 | Visit to EEDA to discuss Regional Minister priorities |
| 10 September 2007 | Visit to EERA and then Ipswich to meet chief executives and leaders |
| 17 September 2007 | Meeting with Norfolk chief executives and leaders |
| 28 September 2007 | Chairing Regional Partnership Group |
| 1 October 2007 | Speaking at the LAA Launch Event |
| 11 October 2007 | Attending Greater South East Reception |
| 26 October 2007 | Attending Forum to meet with business leaders and my hon. Friend the Member for Waveney |
| 6 November 2007 | Attending EEDA's Destination Growth Event to meet key businesses |
| 9 November 2007 | Following Tidal Surge, visit to Yarmouth and Lowestoft with my hon. Friend the Minister for Local Government |
| 12 November 2007 | Meeting with the East of England Business Group |
| 12 November 2007 | Meeting with Regional Cities East |
| 16 November 2007 | First Government visit to Regional Operations Centre following outbreak of avian flu |
| 28 November 2007 | Attending event for Thames Gateway Delivery Plan Launch |
| 30 November 2007 | Attending the Rural Skills Conference, Peterborough |
| 3 December 2007 | Chairing the Regional Partnership Group |
| 10 December 2007 | Meeting with local authorities to discuss the growth agenda |
| 18 December 2007 | Chairing the first meeting of the Northstowe Liaison Group |

### Regional Government: South East Region

**Mrs. May:** To ask the Secretary of State for Communities and Local Government what the *(a)* date and *(b)* purpose has been of each visit made by the Minister for the South East to (i) Kent, (ii) Sussex, (iii) Surrey, (iv) Hampshire, (v) the Isle of Wight, (vi) Oxfordshire, (vii) Buckinghamshire and (viii) Berkshire. [174656]

**Hazel Blears** *[holding answer 17 December 2007]:* My hon. Friend the Minister for the South East has undertaken a number of visits across the South East region as set out in the following table:[1]

| *County* | *Date of visit* | *Reason for visit* |
|---|---|---|
| (i) Kent | 8 August 2007 | To discuss impact of Foot and Mouth Disease outbreak |
| (i) Kent | 30 October 2007 | Volunteering Seminar |
| (i) Kent | 22 November 2007 | Fisheries visit plus visit to Pines Calyx. Sustainable venue and conference centre |
| (i) Kent | 23 November 2007 | Visit to IMPACT Competition day—Instant Muscle (charity) programme |
| (ii) Sussex | 30 July 2007 | Fisheries visit |
| (ii) Sussex | 25 November 2007 | UNISON Regional Policy Weekend |
| (ii) Sussex | 3 December 2007 | Visit arranged by SEEDA on skills theme |
| (iii) Surrey | 8 October 2007 | Visit to GOSE and meeting with SE Regional Development Agency and SE Regional Assembly to discuss priority issues for the region |
| (iii) Surrey | 8 October 2007 | Legislative programme consultation event |
| (iii) Surrey | 21 November 2007 | CBI Regional Council Meeting |
| (iv) Hants | 15 October 2007 | Visit to meet Partnership for Urban Hampshire |
| (iv) Hants | 12 November 2007 | Visit to New Forest National Park |
| (iv) Hants | 14 November 2007 | Regional Assembly Plenary Meeting |
| (vii) Bucks | 9 August 2007 | To discuss impact of Foot and Mouth Disease outbreak |
| (vii) Bucks | 16 October 2007 | To launch the South East Fresh Start Academy |
| (viii) Berks | 24 July 2007 | Floods recovery visit |
| (viii) Berks | 2 August 2007 | Floods recovery visit |

### Regional Planning and Development

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government how many and what proportion of local planning authorities have had the core strategies of their Local Development Framework approved by the Government; and what her Department's targets are in this regard. [173297]

**Mr. Iain Wright:** As of 5 December 2007, 18 core strategies have been found sound at independent examination. This represents 5 per cent. of all local authorities in England.

The cross-governmental PSA no. 20 on Housing Supply has as its sixth indicator "Local Planning authorities to have adopted the necessary Development Plan Documents, in accordance with their Local Development Schemes, to bring forward developable land for housing in line with PPS3". The "national target" under this heading is "By March 2011, 80 per cent. of local planning authorities to have adopted the necessary Development Plan Documents, in accordance with their agreed Local Development Scheme". This is the Government's target.

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what the timetable is for *(a)* panel reports on each of the regional spatial strategies to be delivered to her Department and *(b)* her response to each report. [174540]

**Mr. Dhanda:** The timetable (indicative) sets out the actual dates or anticipated dates when panel reports and the Secretary of State's proposed changes for the eight English RSSs will be published

1. Panel reports on the following draft RSSs have been published.

| | *Panel report* |
|---|---|
| North East | August 2006 |
| North West | May 2007 |
| Yorkshire and Humber | May 2007 |
| East Midlands | November 2007 |
| West Midlands Phase 1 | April 2007 |
| East of England | June 2006 |
| South East | August 2007 |

2. Panel reports on the following draft RSSs are expected.

| | *Panel report* |
|---|---|
| West Midlands Phase 2 | December 2008 |
| South West | January 2008 |

3. The proposed changes on the following draft RSSs have been published.

| | *Proposed changes* |
|---|---|
| North East | May 2007 |
| Yorkshire and Humber | September 2007 |
| West Midlands Phase 1 | September 2007 |
| East of England | December 2006 |

---

[1] *[Official Report, 16 January 2008; Vol. 470, c. 11MC.]*

4. The proposed changes on the following draft RSSs are expected.

| | *Proposed changes* |
|---|---|
| North West | January 2008 |
| East Midlands | May 2008 |
| West Midlands Phase 2 | February 2009 |
| South East | February 2008 |
| South West | May 2008 |

The Secretary of State considers the recommendations in the panel report and representations made on the draft RSS before publishing proposed changes, which are then subject to further consultation before being finalised.

### Regional Planning and Development: Greenbelt

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what estimate her Department has made of the number of dwellings that will be built on land *(a)* designated and *(b)* previously designated as green belt in (i) 2007 and (ii) each year under the proposed regional spatial strategies. [171500]

**Mr. Iain Wright:** Information on how many dwellings may be built on designated or previously-designated green belt land is not held centrally and could be provided only at disproportionate cost. However, decisions about the use of land which is designated as green belt, or whether land should be designated as green belt, must be taken in accordance with the policy in Planning Policy Guidance Note 2 on green belts. This policy has performed an important role in preventing urban sprawl and protecting the countryside for 50 years. The Government remain committed to current green belt policy and has no intention of making fundamental changes to the policy. The Government are also committed to building at least 60 per cent. of new dwellings on previously-developed ("brownfield") land. In 2006 74 per cent. of new dwellings were built on previously-developed land, compared to 56 per cent. in 1997.

### Departmental Responsibilities

**Mrs. May:** To ask the Secretary of State for Communities and Local Government for which regulators and inspectorates her Department has had responsibility in each year since 1997; what the budget was of each such body in each year; and what the cost to the public purse was of any restructuring of each such body in each year. [175314]

**Hazel Blears:** The Department sponsors the following 'independent regulators' as identified by the Better Regulation Task Force in their report published on 1 October 2003: the Architects Registration Board, the Audit Commission, the Housing Corporation and the Standards Board for England. Details of these bodies' funding from Government and gross expenditure is set out in Cabinet Office's annual 'Public Bodies' directory and on the Department's website for 2007 at:

http://www.civilservice.gov.uk/about/public/bodies.asp

http://www.communities.gov.uk/publications/corporate/publicbodies2007

The Planning Inspectorate (PINS) is an executive agency of this Department. PINS' annual report and accounts can be found at:

http://www.planning-inspectorate.gov.uk

### Repairs and Maintenance: Finance

**Mr. Austin Mitchell:** To ask the Secretary of State for Communities and Local Government what average annual real terms change in the 2008-09 management and maintenance allowance would be required for the average allowance in England to reach the real terms level of management and maintenance expenditure set out in the estimate of the Need to Spend on Maintenance and Management in Local Authority Housing, published in June 2003 by 2010-11. [163509]

**Mr. Iain Wright:** The Department has not produced any sufficiently robust estimates of what average annual real terms change in the 2008-09 management and maintenance allowance would be required for the average allowance in England to reach, by the Decent Homes target year 2010-11, the real terms level of management and maintenance expenditure set out in the estimate of the Need to Spend on Maintenance and Management in Local Authority Housing published in June 2003, but intends to undertake rigorous analysis on management and maintenance needed to be spent as part of the review of the HRA subsidy system.

### Rough Sleepers

**Andrew Stunell:** To ask the Secretary of State for Communities and Local Government how much was spent in each district/unitary authority in England on rough sleepers by *(a)* central Government and *(b)* local authorities in each of the last five years. [170359]

**Mr. Iain Wright:** Since 2003-04, the majority of our homelessness grants are allocated to local authorities to support them in their work on tackling and preventing homelessness effectively which includes rough sleeping. Previous to that time the majority of funding was allocated direct to the voluntary sector. We do however continue to provide homelessness funding direct to some voluntary organisations, where appropriate.

All local authority homelessness grants are allocated to individual councils and it is for them to determine how they spend this grant.

The Supporting People Programme, which came into effect on 1 April 2003, allocates grant to administering authorities whom, in accordance with Supporting People grant conditions, decide how they spend this grant based on their knowledge of local need.

The following table indicates the total amount of revenue funding allocated to local authorities and the voluntary sector to tackle homelessness in each of the five years. The individual local authority homelessness grant allocations are available in the Library of the House.

*Homelessness grant for local authorities and voluntary sector*

| | Total (£ million) |
|---|---|
| 2003-04 | 70.9 |
| 2004-05 | 60.6 |
| 2005-06 | 59.5 |
| 2006-07 | 67.0 |
| 2007-08 | 74.0 |

I have deposited in the Library of the House a table of the revenue funding administrative authorities spent on rough sleeping under the Supporting People Programme.

On 5 December, we announced homelessness grant funding of at least £150 million over the three years 2008-09 to 2010-11 to continue to support local authorities to tackle and prevent homelessness in their area. This a 6 per cent. increase on the current year.

In addition to the homelessness grants, £90 million has been made available to authorities under the Hostels Capital Improvement Programme in the last three years to improve hostels and day centres used by rough sleepers. We announced a new £70 million three year Places of Change Programme on 13 November which builds upon the success of the £90 million 2005-08 Hostels Capital Improvement Programme.

### Smoking

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government whether any *(a)* Ministers and *(b)* staff have been disciplined for breaching the public smoking ban on her Department's premises, and the premises of its agencies, since its coming into force. [173303]

**Mr. Dhanda:** No Department for Communities and Local Government staff or Ministers have been disciplined for breaching the public smoking ban on departmental or departmental agency premises.

### Social Services: Elderly

**Mr. Laws:** To ask the Secretary of State for Communities and Local Government what guidance her Department has issued to local authority social services departments on the acceptability of strip washing for elderly people where disabled facility grants cannot cover all of the demands for shower and other adaptations; and if she will make a statement. [173246]

**Mr. Iain Wright:** In November 2004 Communities and Local Government issued "Delivering Housing Adaptations for Disabled People: A Good Practice Guide". The guidance advises that the provision of a lavatory and washing, bathing and showering facilities have been separated in order to clarify that a disabled or elderly person should have access to a washbasin, a WC and a shower or bath (or if more appropriate, both a shower and a bath) (The Housing Grants Construction and Renewal Act, chapter 53, part 1, section 23(1) (e) to (g)). Therefore a disabled facilities grant should be given to provide a disabled or older person with each of these facilities. The grant is subject to an assessment of the person's needs and a means test.

Chapter 5 of CLG's guidance covers the assessment of need for adaptations, and refers to Department of Health guidance for general principles of assessment for social care for adults.

### Standards Board: Finance

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what yearly financial savings the Standards Board is expected to make from its relocation from London to Manchester. [173302]

**John Healey:** The Standards Board has identified that, as a consequence of its relocation from London to Manchester, savings will be made of £847,000 in 2008-09, £1,267,000 in 2009-10 and £1,353,000 thereafter.

### Trade Unions

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what meetings *(a)* she and *(b)* Ministers in her Department has had with representatives of trades unions in the last 12 months. [173324]

**Mr. Dhanda:** Details of meetings between Ministers and outside interest groups, including trade unions, are provided on the Department's website at:

http://www.communities.gov.uk/corporate/about/freedom-of-information/Disclosure-iog/

### Urban Areas: Recreation Spaces

**Mr. Jenkins:** To ask the Secretary of State for Communities and Local Government what guidance her Department provides on how much public green space should be available per head of population in urban areas. [174715]

**Mr. Iain Wright:** Guidance on the provision of public green space is set out in planning policy guidance note 17 (PPG17) "Planning for Open Space, Sport and Recreation" (2002). Government policy is that open space standards, including standards for public green space as well as other types of open space, should be set locally since prescriptive national standards cannot cater for local circumstances such as differing demographic profiles and the extent of existing built development in an area. Local planning authorities should therefore undertake robust assessments of the existing and future needs of their communities for all forms of open space, sports and recreational facilities and audits of their existing open space and facilities. These can then be used to set appropriate local standards in development plans. Guidance on undertaking assessments and audits and deriving local standards is set out in "Assessing Needs and Opportunities: A Companion Guide to PPG17", published by the Office of the Deputy Prime Minister in 2002.

### Urban Areas: Sustainable Development

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government what plans she has to introduce the EU's Joint European Support for Sustainable Investment in City Areas funding mechanism in England. [171587]

**John Healey:** My Department would support use of the Joint European Support for Sustainable Investment in City Areas (JESSICA) instrument in English regions where regional partners wish to use European Regional Development Fund resources innovatively.

The regional development agencies have all made provision for its use over the 2007-13 spending period. But it is too early to expect finished proposals and there remain a number of questions about the application of JESSICA. EU member states are working with the European Commission and European Investment Bank (EIB) to clarify these questions, including through discussion of specific RDA proposals. For example, the EIB has, by agreement, commissioned a feasibility study for London.

**Peter Luff:** To ask the Secretary of State for Communities and Local Government when she will publish the criteria she will use to assess which proposals for eco-towns will be taken forward. [173872]

**Yvette Cooper** *[holding answer 17 December 2007]*: I refer the hon. Member to the answer I gave on 3 December 2007, *Official Report*, column 882W, to the hon. Member for Winchester (Mr. Oaten).

### Valuation Office Agency

**Mr. Pickles:** To ask the Secretary of State for Communities and Local Government if she will place in the Library a copy of the *(a)* presentation and *(b)* handouts, produced by the Valuation Office Agency on Automated Valuation Models presented at the National Rating Day in June. [173321]

**John Healey:** I have deposited a copy of the presentation, which was also provided as a handout, in the Library of the House.

### Voluntary Organisations: Finance

**Keith Vaz:** To ask the Secretary of State for Communities and Local Government what her Department's budget has been for supporting voluntary community organisations in each of the last five years. [173472]

**Mr. Dhanda:** The total departmental budget comprises support from specific programmes in addition to support through generic schemes such as the Neighbourhood Renewal Fund and Supporting People. The level of support through these programmes for the voluntary and community sector is not held centrally. We are working with the Office of the Third Sector to improve reporting on this funding support as part of the comprehensive spending review commitment to produce an annual report to Parliament.

We estimate that our specific funding programmes for the voluntary and community sector over the last five years have provided support totalling:

| | *Estimated total (£ million)* |
|---|---|
| 2003-04 | 21.5 |
| 2004-05 | 26.5 |
| 2005-06 | 29.5 |
| 2006-07 | 32.5 |
| 2007-08 | 29.5 |

### Water Supply: Safety

**Mary Creagh:** To ask the Secretary of State for Communities and Local Government what progress has been made in her Department's plans to improve hot water safety by reviewing Part G of the Building Regulations. [172973]

**Mr. Iain Wright:** Since announcing our intention in June 2007 to review the scope for improving all aspects of hot water safety in Part G of the Building Regulations we have held meetings with key stakeholders in London, Taunton and Doncaster and have held the first meeting of a Building Regulations Advisory Committee Working Group. This group includes experts on hot water systems and will advise on how new requirements can best be introduced and on the content of the accompanying guidance (the Approved Document). We expect to launch a full public consultation on the draft amendments to the Building Regulations and the revised supporting guidance in spring 2008 with a view to fully implementing the new requirements in April 2009.

### Young People

**Mr. Hayes:** To ask the Secretary of State for Communities and Local Government how many staff aged between 16 and 18 were employed by her Department and its predecessors *(a)* directly and *(b)* through an employment agency in each of the last 10 years; what proportion of these were given time off work to undertake some form of training; and what proportion were provided with some form of training (i) wholly and (ii) partially funded by her Department. [171279]

**Mr. Dhanda:** The numbers of individuals aged between 16 and 18 employed by the Department in each complete year since the formation of the Office of the Deputy Prime Minister in May 2002 are given in the following table.

*Number of 16 to 18-year-olds joining the Department*

| | *(a) directly* | *(b) through a recruitment agency* |
|---|---|---|
| 2006 | 0 | 3 |
| 2005 | 1 | 0 |
| 2004 | 1 | 0 |
| 2003 | 2 | 0 |

On joining the Department all new entrants have an induction meeting at which they are told about the corporately funded training that is offered such as the welcome event. In addition each directorate holds a training budget and line managers take responsibility to ensure that their staff receive training in order to carry out their tasks and for developmental purposes.

### Youth Services: Finance

**Mr. Kemp:** To ask the Secretary of State for Communities and Local Government what assessment she has made of the effect of double-damping on funding for children and young adult services in the City of Sunderland; and if she will make a statement. [173561]

**John Healey:** In the course of this summer's consultation on options for changing the Formula Grant distribution system, we published illustrations of what each council's level of grant in 2007-08 would have been if neither grant floor damping nor social services formula damping had been applied. This illustration showed Sunderland's grant would have been 2.4 per cent. higher, in the absence of formula damping but before overall grant floors damping.

## FOREIGN AND COMMONWEALTH OFFICE

### Afghanistan: Reconstruction

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what studies have been completed by the Post Conflict Reconstruction Unit into the UK reconstruction in *(a)* Afghanistan and *(b)* Iraq; and if he will make a statement. [174174]

**Mr. Douglas Alexander:** I have been asked to reply.

The Stabilisation Unit, formerly known as the Post Conflict Reconstruction Unit (PCRU), has completed two studies focused on the UK reconstruction in Afghanistan and Iraq. In November 2006, the Unit led a review of the UK-led Provincial Reconstruction Teams (PRTs) in Helmand and Basra. In August 2007, the Unit undertook a case study review of the planning for and execution of the Helmand PRT deployment.

### Africa: Security

**Mr. Keith Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps are under consideration to improve the security situation in the north west region of the Central African Republic and Chad. [173700]

**Meg Munn:** We are very concerned about the continuing security and humanitarian crisis in the Central African Republic and Chad. In response the UK co-sponsored UN Security Council Resolution 1778 (2007), which authorises the deployment of a European security and defence police force and a UN multidimensional mission to Chad and the north-east of the Central African Republic. The overall aim of the joint operation is to create the conditions necessary for voluntary, secure and sustainable return of refugees and internally displaced persons. The mission is planned to deploy in early 2008.

The UK has also supported the extension of the mandate of the UN Peace-Building Office in the Central African Republic. Its aim is to assist the government of the Central African Republic in consolidating peace and national reconciliation and strengthening democratic institutions. In addition, the UK supports the multinational force of Central Africa which has bases in the north-west of the Central African Republic and whose mandate is to contribute to the restoration of peace and security in the Central African Republic.

In the medium term, a national security seminar on the Central African Republic, organised by the government of the Central African Republic and the UN Development Programme, is due to be held in March 2008. We hope this will set out a road-map for security sector reform, including of the police, army and prisons. The EU will then play an important role in co-ordinating the agreed reforms.

### Aviation

**Chris Huhne:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many air miles were travelled by Ministers in his Department in each year since 2000; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result. [172237]

**Meg Munn:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code".

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of the Department for Environment, Food and Rural Affairs, the Department for International Development and my right hon. Friend the Prime Minister has been backdated to 1 April 2005, and in the case of the Foreign and Commonwealth Office, to the calendar year 2004.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http:www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

**Chris Huhne:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many air miles were travelled by *(a)* him and *(b)* Ministers in his Department on short haul flights over the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172456]

**Meg Munn:** I refer the hon. Member to the answer I gave him today (UIN 172237).

### Bangladesh: Entry Clearances

**Mr. Gerrard:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether the working holidaymaker scheme is available to applicants from Bangladesh. [175375]

**Mr. Jim Murphy:** The working holidaymaker scheme is available to applicants from Bangladesh, having been re-introduced on 1 August 2007, following a temporary suspension.

**Mr. Gerrard:** To ask the Secretary of State for Foreign and Commonwealth Affairs what requirements for medical screening are being applied to visa applicants from Bangladesh. [175402]

**Mr. Jim Murphy:** Applicants from certain countries, including Bangladesh, applying for a visa with more than six months validity, now require a certificate to show that they are free from infectious pulmonary tuberculosis (TB).

Certificates are not required for children under 11-years-old, diplomats and their families, this exemption does not include other members of diplomats' households such as domestic staff, or returning residents.

### Burma: Constitutions

**Mr. Keith Simpson:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the UK has made to the Burmese authorities on the inclusion of members of the opposition and other democratic and ethnic minority leaders in the process of drafting a national constitution. [173701]

**Meg Munn:** My right hon. Friends the Prime Minister, Foreign Secretary and I have repeatedly made clear our support for Aung San Suu Kyi's statement of 8 November calling for a genuine national reconciliation including the military, opposition parties and ethnic groups in Burma.

I underlined this point in my speech to the European Union/Association of South East Asian Nations Summit of 22 November, at which Burma was represented.

Our ambassador in Rangoon regularly presses the case for progress on democratic change in Burma. His most recent representation to the Burmese Foreign Ministry was on 11 December.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174969]

**Meg Munn:** The Foreign and Commonwealth Office's Parliamentary Relations Team consists of 11 officials. The team, managed by a head and deputy head, is split into two sections, 'Floor of the House' section, five officials, and 'Select Committee' section, four officials. Parliamentary questions are estimated to take up 75 per cent. of the floor of the house section.

A separate Ministerial Support Unit, 13 officials, deals with correspondence from hon. Members, Peers and members of the public.

### Detainees

**Mr. Tyrie:** To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterparts in other Council of Europe member states on the Secretary-General's proposals on secret detention and detainee transfers; what his position is on the future discussion of these proposals by the Committee of Ministers; and if he will make a statement. [175401]

**Mr. Jim Murphy:** Discussions in the Committee of Ministers and between delegations to the Council of Europe on the Secretary-General's recommendations are ongoing. However, the Government believe that domestic legislation and international legal instruments already exist to deal satisfactorily with the concerns he has raised.

### Diplomatic Service

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether plans have been developed for future closures of *(a)* embassies, *(b)* consulates and *(c)* British High Commissions in the financial years (i) 2008-09, (ii) 2009-10 and (iii) 2011-12; and if he will make a statement. [174792]

**David Miliband:** The Foreign and Commonwealth Office (FCO) has no plans to close any Posts in the financial years 2008-09 to 2011-12.

We continue to manage the FCO's overseas network to reflect changing demands and challenges, ensuring that our resources are aligned with our priorities, and that the UK has a cost-effective and flexible network of overseas representation.

### EU Reform: Treaties

**Bob Spink:** To ask the Secretary of State for Foreign and Commonwealth Affairs what the latest dates are by which each member state is required to ratify the draft EU Reform Treaty, according to their constitutional requirements, to allow it to enter into force by June 2009. [167067]

**Mr. Jim Murphy:** *[holding answer 3 December 2007]:* The Lisbon treaty will enter into force on the first day of the month following the deposit of the instrument of ratification by the last signatory state to take this step, and not before 1 January 2009.

### Instrument of Pre-Accession

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 3 December 2007, *Official Report*, columns 567-8W, on The Instrument of Pre-Accession, what criteria have been used in determining the level of financial assistance allocated within the Instrument to *(a)* Bosnia-Herzegovina, *(b)* Serbia and *(c)* Croatia in each financial year from 2007 to 2010. [175494]

**Mr. Thomas:** I have been asked to reply.

The criteria used in allocating funding under the Instrument for Pre-Accession Assistance (IPA) include:

The Commission's commitment to ensure that no country will receive less funding under IPA in 2007 than they did in 2006 under previous instruments;

Capacity of the beneficiary government to absorb the funding allocated, including implementation of the necessary systems for management of funds; and

Per capita allocations.

For pre-candidate countries in the Western Balkans such as Serbia and Bosnia-Herzegovina, the allocations will increase to reach €23 per capita (in 2004 prices) by 2010. As candidate countries, Croatia and Macedonia will receive at least €30 per capita by 2008.

Further detail on the allocations and the criteria used is set out in the 2009-11 Multi-Annual Indicative Financial Framework, which is available at:

http://ec.europa.eu/enlargement/pdf/key_documents/2007/nov/mifF_en.pdf

### Iran: Nuclear Power

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 19 November 2007, *Official Report*, column 562W, on Iran: nuclear power, what decisions have been made about the publication of the report by the EU High Representative for the Common Foreign and Security Policy on discussions with Iran. [172278]

**David Miliband:** Javier Solana made clear to the media following his discussions with Sa'id Jalili, Iran's chief nuclear negotiator, that he had been disappointed with his discussions. A representative of Dr. Solana reported orally to E3 plus 3 Political Directors on his behalf on 1 December, and confirmed that he was not able to conclude that his talks had led to a "positive outcome", which was the test set in the statement from E3 plus 3 Foreign Ministers in New York on 28 September 2007. Dr. Solana does not plan to submit a written report.

### Iran: USA

**David Taylor:** To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received of violations of Iranian airspace by US airforce fighter jets around Khorramshahr on 13 November; and if he will make a statement. [175392]

**Dr. Howells:** We have not received any reports of violations of Iranian airspace by US fighter jets around Khorramshahr on 13 November, although we are aware of media reports that similar incidents occurred twice in 2004.

### Iraq Neighbours Conference

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 3 December 2007, *Official Report*, columns 1054-55W, on Iraq Neighbours Conference, whether dates have been set for the next meeting of the working groups on *(a)* energy, *(b)* security and *(c)* refugees. [172787]

**David Miliband:** Dates have not yet been set for the next meetings of the Iraq Neighbours Working Groups.

### Members: Correspondence

**Sir Michael Spicer:** To ask the Secretary of State for Foreign and Commonwealth Affairs when he will provide a substantive response to the letter of 30 October 2007 from the hon. Member for West Worcestershire on the EU Treaty. [175488]

**Meg Munn:** I apologise for the delay in replying to the hon. Member. A reply was sent on 18 December.

### Palestinians: West Bank

**Annette Brooke:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effects on Palestinians of the restrictions on movement within the West Bank. [175400]

**Mr. Jim Murphy:** The ability of Palestinians to move within the west bank has deteriorated due to continued or increased use of: checkpoints; curfews; roadblocks; a permit system; and the barrier. Permit and checkpoint restrictions have isolated residents of the west bank from East Jerusalem and from each other. In September 2007, the United Nations Office for the Co-ordination of Humanitarian Affairs reported that 563 obstacles were present in the west bank.

My right hon. Friend the Foreign Secretary raised our concerns about movement and access issues with his Israeli interlocutors during his recent visit to Israel and the occupied Palestinian territories from 17 to 19 November. My right hon. Friend the Secretary of State for International Development also raised our concerns on this issue during his meeting with Israeli Defence Minister Ehud Barak in Israel on 10 December.

The implementation of the 2005 Agreement on Movement and Access stalled following the election of Hamas in January 2006. We continue to call on both parties to implement the agreement. We have repeatedly raised our concerns about movement and access issues with the Government of Israel.

### Papua: Human Rights

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Indonesian government on the seven West Papuans arrested for raising the Morning Star flag in the Catholic church compound at Kwamki Baru village, Timika, West Papua on 1st December; and if he will make a statement. [175378]

**Meg Munn:** My right hon. Friend the Foreign Secretary has not made representations on this case. Flying the Papuan national "Morning Star" flag is currently illegal under Indonesian law. Special Autonomy legislation allows for the use of Papuan symbols and anthems but the local legislation that is required to confirm the chosen symbols and anthems has yet to be passed. The UK supports the territorial integrity of Indonesia and therefore does not support independence for Papua.

### Papua: Politics and Government

**Mr. Hancock:** To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the political situation in West Papua, with particular reference to *(a)* human rights, *(b)* press freedom and *(c)* the independence of the judiciary there. [175377]

**Meg Munn:** We are aware of reports of human rights abuses in Papua, but the isolated nature of some areas of Papua makes it difficult to establish a clear picture. However, we investigate any credible reports of human rights abuses in Papua. Our Embassy in Jakarta regularly discusses human rights issues, including in Papua, with the Indonesian government.

We encourage the Indonesian Government to allow access to Papua for the media. We were therefore pleased that the BBC correspondent based in Jakarta was given permission to visit Papua in September this year. We will continue to press the authorities to permit other journalists to visit. We recognise that, overall, Indonesia has a flourishing free media and an increasingly liberal and plural political environment.

We have a general concern about corruption in Indonesia, particularly in the judiciary. The Indonesian government is committed to addressing the issue and has made some progress in tackling the problem. In December 2003, it established the Corruption Eradication Commission to investigate and tackle corruption past and present. We continue to work with the Indonesian government in order to promote good governance.

### Peacekeeping Operations

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs what specific processes the Government are proposing to ensure that reconstruction follows peacekeeping as referred to in the Prime Minister's Mansion House speech of 12 November; and how these proposals will be taken forward. [166137]

**David Miliband:** For reconstruction to follow peacekeeping, UN peace support operations need to be more integrated. UN bodies and other international agencies need to work towards common strategic interests and behind a common operations plan. The Peacebuilding Commission was established in 2005 as an advisory body to direct this integrated approach. The UK plays a key role in it. The international community also needs to have the right capabilities at its disposal and the procedure and funding in place to be able to deploy them quickly. My right hon. Friend the Prime Minister proposed as a starting point that UN Security Council Resolutions should not just mandate and direct the peacekeeping response to a given conflict, but also the longer term peace-building effort. He also proposed enhancing international capacity through a standby mechanism to deploy civilian reconstruction experts quickly.

### Peacekeeping Operations: Private Sector

**Mr. Moore:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether he plans to bring forward legislation to regulate the private military and security company industry; and if he will make a statement. [169977]

**David Miliband:** In late 2004 the then Foreign Secretary my right hon. Friend the Member for Blackburn (Mr. Straw) launched a review of the options for the regulation of the overseas operations of private military and security companies (PMSCs) registered in or operating from the United Kingdom. This was to follow up on the Green Paper of 2002, 'Private Military Companies: Options for Regulation' and to respond to the increase in activities of PMSCs in areas of conflict overseas.

The review was completed in mid 2005 and suggested a number of ways in which the industry could be regulated. The review also highlighted complex issues, particularly round the definition of what activities should be regulated and how any regulations would be enforced. These issues, along with the options for regulation, continue to be the subject of ministerial correspondence and official consultation. The Government have undertaken to keep Parliament fully informed of its proposals in this area. If it is agreed that regulation is appropriate, the Government will put the proposals to public consultation.

**Mr. Moore:** To ask the Secretary of State for Foreign and Commonwealth Affairs what rules govern the use of force by private military security companies employed by the Government; whether these rules are standardised for all Government contracts or are variable on a case-by-case basis; and if he will make a statement. [169978]

**David Miliband:** Private military and security companies employed by the Government operate according to strict rules of engagement and security operating procedures. The details of these rules of engagement, which are embedded within the contracts between the Government and the contractors involved, are kept undisclosed due to their sensitive nature, as public disclosure could be detrimental to operational security. In addition, Annex A to Coalition Provisional Authority Memorandum Number 17 (available in the Library of the House) sets out binding rules on the use of force which apply to all private security companies in Iraq, which form part of their security operating procedures.

**Mr. Hague:** To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 3 December 2007, *Official Report*, columns 1059-60W, on peacekeeping operations: private sector, whether his Department has concluded a formal study of the services provided to the Government by private military security companies in *(a)* Iraq and *(b)* Afghanistan; and if he will make a statement. [172786]

**David Miliband:** The implementation of the procedures for individual contracts is monitored closely and subject to revision when appropriate. In addition, the Foreign and Commonwealth Office (FCO) reviews areas of its work in which private military and security companies (PMSCs) are involved in. Given the range of PMSC contracts, the FCO has not conducted a formal study grouping all such contracts together.

### Russia: CFE Treaty

**Mr. Moore:** To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact of Russia's decision to suspend the Conventional Forces in Europe Treaty; whether he has discussed this issue with *(a)* Russian and *(b)* US counterparts; and if he will make a statement. [168394]

**David Miliband:** I refer the hon. Member to the written ministerial statement I made on 13 December, *Official Report*, columns 57-58WS, about Russia's "suspension" of its obligations under the Conventional Forces in Europe (CFE) treaty. We believe the concerns expressed by Russia would be addressed by entry into force of the adapted CFE treaty. We have pursued constructive proposals for parallel action by states parties, including North Atlantic Treaty Organisation (NATO) allies and Russia, to overcome the outstanding issues related to ratification of the adapted treaty. Along with our NATO allies, we will continue to promote engagement with Russia to that end.

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the Russian decision to suspend its participation in the Treaty on Conventional Forces in Europe as of 12 December. [172389]

**Mr. Jim Murphy:** I refer the hon. Member to the written ministerial statement made by my right hon. Friend the Foreign Secretary on 13 December 2007, *Official Report*, columns 57-58WS.

### Russia: Elections

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to his Russian counterpart on the Organisation for Security and Co-operation in Europe's Office of Democratic Institutions and Human Rights' ability to observe the upcoming presidential election in that country, in April 2008, without restrictions and in accordance with established practice. [172388]

**Mr. Jim Murphy:** The Government strongly encourage the Russian Federation to invite the Office for Democratic Institutions and Human Rights (ODIHR) election observers to the March presidential election without restrictions. I made the following statement at the Organisation for Security and Co-operation in Europe (OSCE) ministerial meeting in Madrid on 29 to 30 November, which Russian Foreign Minister Sergei Lavrov attended.

> "We hope that all states will honour their commitments and enable ODIHR to observe upcoming elections in full accordance with OSCE commitments and established practice, including by enabling long term observation if ODIHR judges that to be appropriate".

The presidency of the EU made a statement on behalf of all EU member states on the same lines.

### Russia: Moldova

**Mr. Evans:** To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the progress by Russia towards commitments made at the 1999 Istanbul summit of the Organisation for Security and Co-operation in Europe for withdrawal of Russian military forces from Moldova and Georgia. [172386]

**Mr. Jim Murphy:** The Russian Federation recently completed its withdrawal from the bases at Batumi and Akhalk'alak'i in Georgia. Only the status and future use of the Gudauta base remain unresolved. In Moldova, however, there has been no progress since 2004 on the withdrawal of remaining Russian Federation forces and ammunition from Transnistria.

The written ministerial statement made by my right hon. Friend the Foreign Secretary on 13 December 2007, *Official Report*, columns 57-58WS made clear that, with North Atlantic Treaty Organisation (NATO) allies, we look to the Russian Federation to regularise the status of its remaining forces in Moldova and Georgia. The principle that host nation consent is required for the stationing of foreign forces is central to European security. With NATO allies, we continue to promote engagement with the Russian Federation with a view to reaching an agreed way forward.

### Sudan: Peacekeeping Operations

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what decisions were reached at the EU-Africa summit on the deployment of the joint AU-UN force to Darfur; which African countries have offered to contribute troops to the force; what the African Union's position is on whether non-African troops are required to provide an effective peacekeeping force; and if he will make a statement. [174894]

**Meg Munn:** Representatives of the Government of Sudan and the UN Department of Peacekeeping Operations discussed the African Union (AU)/UN hybrid operation in Darfur (UNAMID) deployment at the EU-Africa summit in Lisbon on 8 December. The press statement released after the meeting noted that both sides agreed on the importance of the full and timely implementation of UN Security Council resolution 1769 and agreed to continue their discussions to resolve outstanding issues. Follow-up talks have taken place in Khartoum and we are awaiting a report from the UN on their outcome. Meanwhile, we have continued to press the Government of Sudan to co-operate fully with the UN Department of Peacekeeping Operations and AU on UNAMID deployment.

The UN Department of Peacekeeping Operations received offers of troops from a number of African countries and has conducted pre-deployment assessments. The UN Department of Peacekeeping Operations has not yet announced the final force composition of UNAMID. The AU and UN agreed that UNAMID should be 'predominantly African' in character. This allows for non-African troop contributions, particularly where specific capabilities are required. We are pressing the AU and UN to choose the best troops for the mission, irrespective of nationality.

### Uganda: Elections

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs what steps *(a)* his Department and *(b)* the European Union are taking to implement the recommendations of the European Union and Commonwealth Election Observers in Uganda; and if he will make a statement. [174896]

**Meg Munn:** The Government have been actively involved in efforts to bring about improvements to Uganda's democratic system. The UK is the largest donor to the Deepening Democracy Programme basket-fund and currently chairs its Steering Committee. The programme forms the cornerstone of international donors' (Partners for Democracy Group—PDG) efforts to address failings in the democratic processes of Uganda. The PDG, which has a wide-ranging membership, including resident EU ambassadors, actively raises governance and democracy concerns at a high level with the Government of Uganda. The European Union recently supported a Ugandan Parliament-led workshop to address reforms recommended by the European Union and Commonwealth Election Observers following the 2006 Ugandan elections.

### Zimbabwe: Sanctions

**Mr. Drew:** To ask the Secretary of State for Foreign and Commonwealth Affairs whether at the recent EU-Africa summit the African Union proposed the EU end all sanctions against Zimbabwe as a condition for signing new trade deals; and if he will make a statement. [174895]

**Meg Munn:** No such proposal was made.

It is the responsibility of EU member states to consider the lifting of sanctions in their working groups in Brussels. These meetings focus on whether the lift criteria laid down in the common position has been met. Zimbabwe is still a long way from meeting these lift criteria.

**Mr. Clifton-Brown:** To ask the Secretary of State for Foreign and Commonwealth Affairs how many bank accounts are affected by economic sanctions on Zimbabwe. [175154]

**Meg Munn:** 43 bank accounts in the UK are frozen under EU targeted measures against the Zimbabwe regime. EU member states do not systematically share detailed information concerning the bank accounts they have frozen.

## HEALTH

### Lucentis

11. **Mr. Laurence Robertson:** To ask the Secretary of State for Health what guidance he has issued on the prescribing of Lucentis; and if he will make a statement. [174620]

**Dawn Primarolo:** I have not issued any guidance on the prescribing of Lucentis.

Lucentis is licensed for the treatment of age-related macular degeneration and there are no national restrictions on the prescribing of this drug within its licensed indications.

The National Institute for Health and Clinical Excellence (NICE) is currently appraising Lucentis and Macugen for the treatment of age-related macular degeneration and expects to publish final guidance in the new year.

In the absence of NICE guidance, primary care trusts are expected to make their own decisions on the funding of specific treatments based on an assessment of the available evidence.

### Prescription Charges Exemption: Cystic Fibrosis

12. **Bob Russell:** To ask the Secretary of State for Health if he will exempt from prescription charges people with cystic fibrosis. [174621]

**Dawn Primarolo:** We will be inviting views shortly on options for possible changes to prescription charges in England that are cost neutral to the national health service.

### Hospitals: Cleaning

13. **Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government have taken to make hospitals cleaner since 1997. [174622]

**Ann Keen:** The NHS Plan in 2000 set hospital cleanliness as one of the top ten issues for the NHS; investment and initiatives since then have meant that spend on cleaning by the NHS has increased by over £250 million to £662 million in 2006-07. Hospital cleanliness remains of utmost importance for the Government, and this is reflected by its inclusion as a national priority for the NHS in the Operating Framework for 2008-09. In addition, this year every hospital will undergo a deep clean, supported by £57 million of investment by strategic health authorities (SHAs).

### Cardiac Rehabilitation

14. **Dr. Naysmith:** To ask the Secretary of State for Health when he expects that cardiac rehabilitation will be offered to at least 85 per cent. of heart attack and re-vascularisation patients in accordance with the National Service Framework for Coronary Heart Disease 2000. [174624]

**Ann Keen:** Chapter Seven of the National Service Framework for Coronary Heart Disease issued appropriate guidance to the national health services regarding the provision of cardiac rehabilitation services. Implementation of this guidance is a matter for the local NHS, working in partnership with stakeholders and the local community. It is for NHS organisations to plan and develop services based on their specific local knowledge and expertise.

### Social Care: Long-Term Funding

15. **Mr. Betts:** To ask the Secretary of State for Health what plans he has for the future long-term funding of the social care system. [174625]

**Mr. Ivan Lewis:** At the pre-Budget report 2007, the Government announced that it would be producing a Green Paper on "Reforming the Care and Support System".

The Green Paper is an opportunity to develop a new offer focusing on people who use services, giving individuals more personal choice and control.

### Stroke Services

16. **Lorely Burt:** To ask the Secretary of State for Health what plans he has to improve early access to stroke services. [174626]

**Ann Keen:** On 5 December the Department launched a new strategy for stroke services in England which sets a vision for transforming stroke care.

The strategy aims to accelerate the emergency response to stroke, by setting out a framework for care of stroke patients, and raising awareness about symptoms and risk factors. By following the guidelines, up to 6,800 deaths and cases of disability could be avoided. A further 1,600 strokes could be averted through preventative work.

### Health Inequalities

18. **Mr. Neil Turner:** To ask the Secretary of State for Health what steps he is taking to reduce health inequalities in England. [174628]

**Dawn Primarolo:** The Government's health inequalities strategy 'Tackling Health Inequalities: A Programme for Action', supports the 2010 national health inequalities targets for infant mortality and life expectancy at birth, and long-term, sustainable, reductions in health inequalities. My right hon. Friend the Secretary of State announced, in September 2007, a comprehensive strategy for reducing health inequalities which will be published in 2008.

### Primary Care Trusts: Rural Proofing

19. **Mr. Beith:** To ask the Secretary of State for Health what steps he has taken to ensure that rural proofing is carried out by primary care trusts in rural areas. [174629]

**Dawn Primarolo:** Primary care trusts (PCTs), together with local authorities (LAs), are responsible for ensuring that priorities are delivered in a way that ensures equity of service provision when commissioning services for their local area. This includes taking into account rural issues where appropriate.

### Smoking Ban: Effectiveness

20. **Mr. Devine:** To ask the Secretary of State for Health what recent assessment he has made of the effectiveness of the ban on smoking in public places for public health. [174630]

**Dawn Primarolo:** We have commissioned research on the health impacts of smokefree legislation in England. However, early assessments are that this legislation is proving to be effective in significantly reducing levels of second hand smoke in enclosed public places and workplaces.

Research from Scotland has reported a range of benefits since smokefree legislation was introduced there, including dramatic improvements in air quality in pubs, improved health, reduced tobacco consumption and no increase in the amount of smoking in the home.

### Patient Satisfaction

21. **Paddy Tipping:** To ask the Secretary of State for Health what recent research he has commissioned into levels of patient satisfaction with the NHS. [174631]

**Ann Keen:** The Government have one of the world's most comprehensive programmes of patient surveys, including the national patient survey, GP patient survey, Choice survey and NHS staff survey. This research tells us what people think about the care and treatment they have experienced, and is an essential part of improving services.

### Parliamentary Questions

22. **Mr. Hollobone:** To ask the Secretary of State for Health pursuant to the Westminster Hall debate of 27 November 2007, *Official Report*, columns 58-66WH, what steps he is taking to ensure that people in the East Midlands receive timely treatment for age-related macular degeneration. [174632]

**Dawn Primarolo:** The National Institute for Health and Clinical Excellence has already recommended the use of photodynamic therapy for treating wet age-related macular degeneration in some patients, and all PCTs are funding this treatment in accordance with its guidance.

NICE is currently carrying out an appraisal of Lucentis and Macugen and expects to publish final guidance in the new year. NICE published draft guidance on 14 December which is now subject to consultation with stakeholders.

Where NICE has not issued guidance, PCTs are expected to make their own decisions on the funding of specific treatments based on an assessment of the available evidence.

East Midlands SHA reports that the East Midlands Specialised Commissioning Group has a region-wide policy in which there are guidelines on whether patients are eligible based on their visual acuity. Decisions on which patients will be funded for treatment are taken at individual PCT level.

### Ovarian Cancer

**Mrs. Hodgson:** To ask the Secretary of State for Health whether he plans to include ovarian cancer in the awareness and early diagnosis programme announced in the Cancer Reform Strategy. [174611]

**Ann Keen:** We are committed to reducing cancer deaths. Key to this is early diagnosis. As confirmed by the National Clinical Director for Cancer at the Britain against Cancer conference on 4 December, we will be including ovarian cancer in the national awareness and early diagnosis initiative described in the strategy.

### Liver Disease

**Dr. Iddon:** To ask the Secretary of State for Health what representations he has received on a national plan for liver services; and if he will make a statement. [174627]

**Ann Keen:** We are concerned about the increasing incidence of and mortality from liver disease. We are investigating the possibility of developing a strategy for liver disease, which would cover health promotion as well as the full range of health services.

In working up proposals, officials have reviewed the available evidence and taken advice from a range of stakeholders. A number have referred to the National Plan for Liver Services produced in 2004 by professional bodies.

### Abortion

**Mr. Hancock:** To ask the Secretary of State for Health what research has he *(a)* initiated and *(b)* evaluated on the practice of female foeticide. [172626]

**Dawn Primarolo:** None.

**Mr. Amess:** To ask the Secretary of State for Health (1) if he will place a copy of the interim report produced by his Department on aspects of good practice for a model of future services for access to early abortion in the Library; to whom copies have been sent; at what cost; how much it cost to produce the report; and if he will make a statement; [174047]

(2) what plans he has to implement section 1(3A) of the Abortion Act 1967; what definition his Department uses of non-traditional settings for termination of pregnancy; what recent discussions his Department has had with *(a)* the medical profession and *(b)* primary care trusts on implementation of this section; what follow-up care he proposes to make available to women who receive treatment under this section; and if he will make a statement. [174129]

**Dawn Primarolo:** Two hospitals are currently being funded by the Department to run early medical abortion services in non-traditional settings to evaluate the effectiveness and safety of provision in these settings.

The pilots will establish a clearly defined protocol, describing the elements required for the provision of a safe, early medical abortion service in a non-traditional setting, which will include the after care women should receive. A non-traditional setting is defined as any setting that is not a national health service hospital or an approved independent sector place.

On 24 October 2007 I stated in oral evidence to the Science and Technology Committee inquiry into scientific developments relating to the Abortion Act 1967 that the response from these two pilots will be published early next year. We will consider the results carefully before reaching a decision on what a non-traditional setting might be.

We have not had any discussions with the medical profession or primary care trusts and are still in the process of agreeing the people who will review the final evaluation report.

The total cost of the evaluation of the early medical abortion pilots over a two year period 2006-07 and 2007-08 was £94,335.42.

### Accidents: Eyesight

**Mr. Jenkins:** To ask the Secretary of State for Health what estimate he has made of the annual cost to the NHS arising from injuries which occur due to poor eyesight. [173073]

**Ann Keen:** The Department does not collect data on the number of injuries caused by poor eyesight and has made no estimate of annual cost to the national health service. The Health Survey for England 2005 looked at falls in people aged 65 and over. The survey did not identify poor eyesight as a significant factor in falls.

### Alcoholic Drinks: Misuse

**Tom Brake:** To ask the Secretary of State for Health what assessment he has made of the effectiveness of the Alcohol Harm Reduction Strategy for England. [169377]

**Dawn Primarolo:** Since the publication of the 'Alcohol Harm Reduction Strategy for England' (2004), a copy of which is available in the Library, significant progress has been made: of the 41 actions in the 2004 strategy, 26 have been delivered and a further 14 are under way. For example, an agreement between the Government and the alcohol industry to include unit content and daily guidelines advice on alcohol labels was announced in May 2007. In addition, levels of alcohol-related violent crime and offences and sales of alcohol to under-age drinkers have fallen.

In June 2007 the Government introduced a renewed alcohol strategy 'Safe, Sensible, Social', a copy of which is available in the Library, that included a summary review of the 2004 alcohol harm reduction strategy (Annex C). 'Safe, Sensible, Social' is a comprehensive strategy to tackle the health and social effects of harmful drinking across the board and focuses on 18 to 24-year-old binge drinkers, young people under 18 who drink alcohol and adult harmful drinkers.

### Alcoholic Drinks: Young People

**Tom Brake:** To ask the Secretary of State for Health how many individuals aged 11 to 18 years resident in each *(a)* London borough and *(b)* Government region were treated for alcohol-related health problems in each of the last five years. [162535]

**Dawn Primarolo:** The information requested is in the following tables:

*All diagnoses count of finished admission episodes by London local authority district of residence for patients aged 11-18 for selected [1]alcohol related diseases, age at start of episode 11-18, national health service hospitals, England—2001-02 to 2005-06*

Hospital Episode Statistics, The Information Centre for health and social care

## Ambulance Services: Cumbria

**Tim Farron:** To ask the Secretary of State for Health when he expects every ambulance serving South Lakeland to be equipped with a 12 lead electrocardiogram machine. [175388]

**Ann Keen:** The information is not held centrally.

**Tim Farron:** To ask the Secretary of State for Health when the North West Ambulance Service expects to be able to provide at least one fully trained paramedic in addition to a driver on each ambulance serving the South Lakeland area. [175393]

**Ann Keen:** This information is not held centrally. However, the North West Ambulance Service Trust may be able to provide this information direct.

## Ankylosing Spondylitis: Medical Treatments

**Mr. Amess:** To ask the Secretary of State for Health what processes the National Institute for Health and Clinical Excellence has in place to ensure that the issuing of final guidance on the two anti-TNF treatments for ankylosing spondylitis it has recommended is not affected by appeals relating to the one anti-TNF treatment in that class that was rejected; and if he will make a statement. [174062]

**Dawn Primarolo:** The National Institute for Health and Clinical Excellence (NICE) will not publish final guidance on adalimumab, etanercept and infliximab for the treatment of ankylosing spondylitis until any appeals it has received have been heard. The closing date for appeals was 23 November and no appeals have yet been announced.

Funding for licensed treatments should not be withheld because guidance from NICE is unavailable. In December 2006, we issued refreshed good practice guidance which asks national health service bodies to continue with local arrangements for the managed introduction of new technologies where guidance from NICE is not available at the time the treatment or technology first becomes available.

## Arthritis

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how many finished episodes of care there were for patients with a *(a)* primary diagnosis and *(b)* secondary diagnosis of rheumatoid arthritis in each year since 1997-98. [172909]

**Ann Keen:** The total finished consultant episodes for patient with a primary and secondary diagnosis of rheumatoid arthritis are given in the following table.

| | *Total finished consultant episodes for primary diagnosis of Rheumatoid Arthritis*[1] | *Total finished consultant episodes for primary and secondary diagnosis of Rheumatoid Arthritis*[1] |
|---|---|---|
| 2005-06 | 49,982 | 134,862 |
| 2004-05 | 49,402 | 122,275 |
| 2003-04 | 47,298 | 113,269 |
| 2002-03 | 42,232 | 103,220 |
| 2001-02 | 34,269 | 88,416 |
| 2000-01 | 33,445 | 85,341 |
| 1999-2000 | 35,531 | 86,211 |
| 1998-99 | 36,198 | 85,644 |
| 1997-98 | 34,125 | 80,717 |

*Source:*
Hospital Episode Statistics, The Information Centre for health and social care

## Biotechnology

**Dr. Desmond Turner:** To ask the Secretary of State for Health (1) what discussions he has had with the Joint Formulary Committee on biotechnology medicines with respect to biosimilars; [173113]

(2) what assessment he has made of the potential risk to human health from adverse drug reactions arising from the interchange of innovator biological medicines with biosimilar medicines; [173114]

(3) if he will recommend that the British National Formulary designate biotechnology medicines as caution advised until research data demonstrate that they pose no risk to human health; [173115]

(4) if he will direct the Medicines and Healthcare Products Regulatory Agency to require biosimilar medicines to carry a warning symbol until research demonstrate that they pose no risk to human health; [173116]

(5) what guidance is issued to *(a)* clinicians and *(b)* pharmacists on (i) the potential substitution risks associated with switching from innovator biological medicines to biosimilar medicines and (ii) the role of clinician choice in the prescription and dispensing of innovator biological medicines and biosimilar medicines; [173117]

(6) if he will take steps to ensure that biopharmaceutical products are prescribed uniquely by brand name rather than by international nonproprietary name; [173118]

(7) what measures are in place to ensure it is clear which adverse drug reaction arises as a result of the administration of which biopharmaceutical product. [173119]

**Dawn Primarolo:** An article will be published in a forthcoming issue of the Medicines and Healthcare products Regulatory Agency (MHRA) bulletin Drug Safety Update in early January, which will remind prescribers that it is important to assign adverse drug reactions to a specific named product when reporting adverse reactions associated with biosimilar medicines. The European guidelines for marketing authorisation holders—Volume 9A of "The Rules Governing Medicinal Products in the European Union Guidelines on Pharmacovigilance for Medicinal Products for Human Use" is currently being updated to include the following text in relation to reporting of adverse reactions to biosimilar products:

> "For adverse reaction reports relating to biological products, the definite identification of the product with regard to its manufacturing is of particular importance. Therefore, Marketing Authorisation Holders should give advice to reporters to provide the (invented) name of the medicinal product and the batch number and should follow up the reports where this information is missing for completion."

A similar biological medicinal product (biosimilar) is one that is claimed to be similar to a reference biological medicinal product authorised in the European Union (EU). Because biosimilar medicines are not identical copies of reference products, subtle differences may exist which may make a difference to their effect or side effects when taken by patients. It is preferable, therefore, that when such products are prescribed they should be clearly identified and prescribed by brand name to ensure that patients receive the exact product prescribed and that their safety in use can be properly monitored.

The MHRA encourages companies who manufacture generic copies of biopharmaceutical products (known as "biosimilar products") to give them a brand name so that there is no possibility that the pharmacist can substitute another biosimilar product when dispensing the doctor's prescription.

MHRA has not issued a specific guideline to clinicians on substitution. All medicines, including biological medicines, should be prescribed by clinicians in accordance with the approved advice provided in the Summary of Product Characteristics which provides full information about the product, including its side effects and its use.

The Royal Pharmaceutical Society of Great Britain's Professional standards and guidance for the sale and supply of medicines provides advice to pharmacists on switching from innovator biological medicines to biosimilar medicines and states that, except in an emergency, a specifically named product should not be substituted by any other product without the approval of the patient or carer and the prescriber, and in the case of hospital drugs, the approval of the therapeutics committee, or in line with other similar locally agreed protocols.

All new medicines carry a black triangle symbol when they are first marketed in the United Kingdom. This denotes that the product is under intensive surveillance and this period usually lasts for two years in the first instance. All biosimilar products should also have in place at the time of licensing a full Risk Management Plan which describes what is known about the safety of a product and describes the activities required on behalf of the company to ensure that relevant safety information is collected in the post marketing period.

The British National Formulary (BNF) includes biotechnology medicines that are licensed in the UK. The BNF usually reflects the safety information contained within the Summary of Product Characteristics (SPC) that relates to the product. Biosimilar products will be designated "Black Triangle" medicines and will carry the black triangle symbol in the BNF.

The information contained in the BNF about a product can be different from information in the SPC when it is supported by reliable clinical evidence. The BNF takes advice on the information to include from expert clinical advisers and the BNF Joint Formulary Committee.

All biosimilar products are assessed for safety, and the safety data are compared with that of the innovator biological medicinal product to which similarity is claimed, prior to its authorisation. It is also mandatory for the applicant to submit an appropriate risk management plan at the time of initial marketing authorisation application, which is assessed to ensure that it demonstrates that adequate arrangements are made for continued safety evaluation.

### Breast Cancer: Humberside

**David Davis:** To ask the Secretary of State for Health for what reasons breast screening waiting times in the Humberside breast screening area are beyond the three year target; and what plans there are to bring such waiting times within the target. [173439]

**Ann Keen:** The Yorkshire and the Humber Strategic Health Authority (SHA) reports that in Humberside the age extension for breast screening, from 65 to 70 years, increased activity by over 30 per cent. As a result there has been an increase in the length of wait for breast screening locally.

The Hull and East Yorkshire Hospitals Trust in partnership with the East Riding of Yorkshire Primary Care Trust is putting in place a number of actions to help improve the current situation. Details of these can be found in the trust's press release which has been issued. A copy of this document has been placed in the Library.

We take the issue of the 36-month standard between screens very seriously. That is why Professor Mike Richards, the National Cancer Director, wrote to the chief executives of all ten SHAs in England on 9 February 2007 highlighting the importance of maintaining the 36-month interval.

### Cancer: Prescriptions

**Dr. Kumar:** To ask the Secretary of State for Health whether he plans to provide free prescriptions for people with cancer in England. [171780]

**Dawn Primarolo:** People are entitled to free prescriptions in respect of a number of long-term medical conditions, if they hold a valid medical exemption certificate. Cancer is not one of these long-term conditions.

The Government's review of prescription charges will be inviting views shortly on options for changes to prescription charges that are cost neutral to the national health service.

### Cancer: Wigs

**Mr. Drew:** To ask the Secretary of State for Health if he will take steps to ensure NHS provision of wigs for those people with cancer who have opted for private chemotherapy and whose treatment does not include such provision. [175282]

**Ann Keen:** No examination has been carried out centrally.

National health service wigs are provided on the basis of assessed clinical need regardless of whether the patient has received NHS or private treatment. It is for primary care trusts in partnership with other local stakeholders to assess the healthcare needs of the local population and commission services accordingly. This process provides the means for addressing local needs within the health community including the provision of wigs.

### Care Homes: Complaints

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health (1) what assessment he has made of the merits of establishing an independent complaints body for self-funders and part-funders in care homes; [174971]

(2) what discussions he has had on the establishment of an independent complaints body for self-funders and part-funders in care homes. [175353]

**Mr. Ivan Lewis:** People who have their care part-funded by the local authority can complain through the local authority social services complaints procedure and, if they are dissatisfied with the outcome of their complaint, they can ask the Local Government Ombudsman to investigate.

The issues relating to complaints by self-funders in care homes are currently under consideration, but there has not yet been any assessment of or consultation about the various options that might be available.

### Care Homes: Foreign Workers

**Mark Pritchard:** To ask the Secretary of State for Health what estimate he has made of the number of senior care workers from the Philippines working in care homes in England; and if he will make a statement. [174612]

**Mr. Ivan Lewis:** This information is not collected by the Department of Health.

### Childbirth

**Norman Lamb:** To ask the Secretary of State for Health how many births per whole-time equivalent NHS midwife there were in each year since 2001, broken down by primary care trust area. [171666]

**Ann Keen:** The following table shows the numbers of births per midwife in each strategic health authority (SHA) area.

*National health service hospital and community health services: Births in England per qualified midwifery staff by SHA area as at 30 September each specified year*[1]

| | *2001* | *2002* | *2003* | *2004* | *2005* | *2006* |
|---|---|---|---|---|---|---|
| England | 31 | 31 | 32 | 32 | 32 | 33 |
| *SHA area* | | | | | | |
| North East | 25 | 26 | 28 | 28 | 28 | 29 |
| North West | 25 | 24 | 26 | 25 | 26 | 27 |
| Yorkshire and the Humber | 30 | 29 | 30 | 30 | 29 | 33 |
| East Midlands | 32 | 34 | 36 | 37 | 37 | 40 |
| West Midlands | 29 | 29 | 29 | 30 | 31 | 32 |
| East of England | 40 | 37 | 38 | 40 | 37 | 38 |
| London | 37 | 38 | 37 | 37 | 36 | 36 |
| South East | 37 | 36 | 37 | 36 | 36 | 37 |
| South Central | 36 | 34 | 37 | 38 | 40 | 43 |
| South West | 27 | 28 | 29 | 29 | 29 | 31 |

[1] Births are for each calendar year. Total births includes live and still births.

*Note:*

Figures are calculated on full-time equivalent numbers of midwives.

*Source:*

The Information Centre for health and social care Non-Medical Workforce census. Annual Birth Statistics, Office for National Statistics.

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health if he will publish information his Department holds on the effects of diet *(a)* before and *(b)* during pregnancy on the birth weight of babies. [172924]

**Ann Keen:** In 2000, the Committee on Medical Aspects of Food and Nutrition Policy in their report "Scientific Review of the Welfare Food Scheme" recommended that improving the dietary intake of women of childbearing age has the potential to ensure that nutritional status at conception is adequate to support optimum fetal development.

Under the Healthy Start scheme, the Department currently provides nutritional support to low income and disadvantaged pregnant women and families with young children by offering vouchers to put towards the cost of buying milk, fresh fruit, fresh vegetables or infant formula at a participating retailer. Currently the Scientific Advisory Committee on Nutrition—Subgroup on Maternal and Child Nutrition is reviewing the effect of early maternal, fetal and child nutrition on the development of disease in later life. The report is due to be published by end of next year.

## Childbirth: Finance

**Adam Afriyie:** To ask the Secretary of State for Health what the cost of treating premature babies in the immediate post-natal period was in each of the last 10 years. [171936]

**Ann Keen:** We do not collect this information centrally.

## Chlamydia: Screening

**Mike Penning:** To ask the Secretary of State for Health which primary care trusts are not reporting data on Chlamydia screening to the Health Protection Agency. [174055]

**Dawn Primarolo:** The primary care trusts (PCTs) not reporting data to the Health Protection Agency (HPA) at the end of September are given as follows. Although they have not reported screening figures to the HPA, screening has already commenced in some of these PCTs.

*PCT name*

Havering
Kingston
Bromley
Greenwich Teaching
Barnet
Hillingdon
Barking and Dagenham
Newham
Bassetlaw
Rotherham
Ealing
Barnsley
Croydon
Wandsworth
Shropshire County
Richmond and Twickenham
Sutton and Merton
Telford and Wrekin
Wolverhampton City
Derbyshire County
Derby City
Lincolnshire
Redbridge
Waltham Forest
Northamptonshire
Dudley
North East Essex
Oxfordshire
Wiltshire
Devon
Bexley
Sandwell

*Source:* HPA

**Mike Penning:** To ask the Secretary of State for Health with reference to the answer of 11 October 2007, *Official Report*, column 705W, on Chlamydia infection: screening, what percentage of primary care trusts are participating in the Chlamydia screening programme in the latest period for which figures are available; and for what reasons *(a)* Devon, *(b)* Havering, *(c)* Hillingdon and *(d)* Sandwell had not submitted plans to the Health Protection Agency. [174056]

**Dawn Primarolo:** All primary care trusts (PCTs) now have a plan to start screening for Chlamydia, which have been submitted to the Heath Protection Agency.

Devon, Hillingdon and Sandwell PCTs are now screening and Hillingdon PCT are now in the process of setting up a screening office and plan to start full roll out in April 2008.

**Anne Milton:** To ask the Secretary of State for Health with reference to the answer of 29 October 2007, *Official Report*, column 996W, on Chlamydia screening, what steps he is planning to take to meet the 15 per cent. screening target. [173766]

**Mike Penning:** To ask the Secretary of State for Health how many screens for Chlamydia were reported to the Health Protection Agency in *(a)* the first quarter of 2007-08 and *(b)* the second quarter of 2007-08; and what proportion of the target screening population this represents in each case. [174005]

**Dawn Primarolo:** Strategic health authorities (SHAs) have submitted plans to the Department on how they intend reaching the target. The Department and the Health Protection Agency (HPA) are working with the primary care trusts (PCTs) who are finding the target challenging.

Information on the number of screens reported to the HPA is published in NHS Local Deliver Plan data monitoring line (PSA11d) (PCT) and (SHA) specific tables 1 April to 30 June and NHS Local Deliver Plan data monitoring line (PSA11d) PCT and SHA specific tables 1 July to 30 September, copies of which have been placed in the Library.

**Mike Penning:** To ask the Secretary of State for Health if he will make it his policy that implementation of the Chlamydia screening programme is included in the NHS operating framework. [174004]

**Dawn Primarolo:** The operating framework, published on 13 December, of which a copy is available in the Library and also at www.dh.gov.uk/operating framework, clarifies the health and services priorities for the year ahead.

In relation to Chlamydia screening, the document specifically states that organisations need to sustain and build on the achievements already made, including delivery of existing standards. As part of this, it lists out those existing commitments that will continue to be monitored, one of which is the implementation of the Chlamydia screening programme.

**Mike Penning:** To ask the Secretary of State for Health with reference to the answer of 25 October 2007, *Official Report*, columns 546-7W, on Chlamydia: screening, when he plans to have developed a national template for a Chlamydia screening local enhanced service through the community pharmacy contractual framework; and on what date he plans to publish the final evaluation of the Boots Chlamydia screening pathfinder. [174051]

**Dawn Primarolo:** We expect to have a national template for a service specification for Chlamydia screening from community pharmacies available early in 2008, if primary care trusts wish to commission an enhanced service.

Two reports of the evaluation being undertaken by TNS Healthcare of the Boots Chlamydia pathfinder have already been published. They are Chlamydia screening evaluation—interim report wave one and Chlamydia screening evaluation—interim report wave two. Both reports are available in the Library. The third and final report will be published early in the new year.

## CJD: Blood

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what studies are underway to assess the prevalence and incidence of asymptomatic carriers of vCJD amongst the population; when he expects these studies to be completed; and whether such studies will contribute to his Department's consideration of whether to introduce prion filtration to prevent the risk of contracting vCJD through blood transfusion. [174469]

**Dawn Primarolo:** On behalf of the Department, the Health Protection Agency is currently conducting a study of tonsils to assess the sub-clinical prevalence of variant Creutzfeldt-Jakob disease (the National Anonymous Tonsil Archive, NATA), and is in the process of undertaking a feasibility pilot study of tissues from post mortems. The duration of NATA, which aims to select 100,000 tonsil pairs, is under continual review and depends upon the rate of accession of tonsils to the archive. Initial results from testing 45,000 tonsil pairs will be considered by the Spongiform Encephalopathy Advisory Committee (SEAC) on 14 December 2007. The duration and completion date of the post mortem study are dependent upon the rate at which samples can be obtained from post mortems. In respect of prion filtration, I refer the hon. Member to the answer given to the hon. Member for Kettering (Mr. Hollobone) on 14 June 2007, *Official Report*, column 1298W.

## Commission for Social Care Inspection: Marketing

**Mr. David Anderson:** To ask the Secretary of State for Health what proportion of the Commission for Social Care Inspection's total budget was spent on publications and marketing in the last period for which figures are available. [172116]

**Mr. Ivan Lewis:** We are informed by the chair of the Commission for Social Care Inspection that the proportion of its total budget spent in the most recent financial year—1 April 2006 to 31 March 2007—on publications and marketing was 0.5 per cent. and 0.2 per cent. respectively.

## Common Cold: Publicity

**Mr. Lansley:** To ask the Secretary of State for Health (1) how much his Department is spending on its Catch it, Bin it, Kill it campaign broken down by *(a)* financial year and *(b)* expenditure on (i) the launch event on 28 November, (ii) fees for producing the logo, name and other marketing materials, (iii) other fees to consultants, (iv) printing costs, (v) distribution costs, (vi) staff costs and (vii) other costs; [172460]

(2) which consultancy firms worked with his Department on its Catch it, Bin it, Kill it campaign; and when his Department started working with each firm; [172461]

(3) what assessment he has made of the impact of the launch event for his Department's Catch it, Bin it, Kill it campaign on 28 November; [172462]

(4) what the total cost to the public purse is of the Catch it, Bin it, Kill it campaign, announced by his Department on 28 November; and if he will make a statement. [174676]

**Dawn Primarolo:** The Catch It, Bin It, Kill It campaign commenced on the 28 November with a wide range of activity, including public relations (PR), marketing and advertising. It will run through to March 2008.

The fees paid to consultancy firms and suppliers are commercial in confidence and it is not appropriate for us to reveal them. The total cost is approximately £609,000. For each item there is an element of consultancy fees included within the cost, which is broken down as follows:

the cost of advertising (including media) was £353,000;

media relations cost £112,000;

research costs were £92,000;

distribution costs will be around £48,000 and

the cost of printing 110,000 posters was £4,000.

It would not be appropriate to identify the staff cost associated with the campaign.

The Red Consultancy (PR Consultancy) was appointed to work on the Catch It PR campaign on 1 October 2007.

Pre-campaign evaluation was undertaken in September 2007. Post-campaign evaluation will be undertaken in March 2008.

## Community Nurses: Manpower

**Mr. Spring:** To ask the Secretary of State for Health how many community matrons were employed in Suffolk in each year since 2004; and how many were planned to be employed in each of those years. [174153]

**Mr. Ivan Lewis:** The information is not available in the format requested. Community matrons were not separately identifiable until the 2005 Census.

The following table shows community matrons in the Suffolk primary care trust area as at 30 September each specified year.

| *Suffolk PCT* | *Headcount* |
|---|---|
| 2005 | 0 |
| 2006 | 2 |

*Source:*
The Information Centre for health and social care Non-Medical Workforce Census.

## Dental Services

**Mr. Vara:** To ask the Secretary of State for Health pursuant to the answer of 4 December 2007, *Official Report*, columns 1114-6W, on dental services, what plans his Department has to increase the number of NHS orthodontists in the East of England Strategic Health Authority area. [173571]

**Ann Keen:** It is the responsibility of primary care trusts to commission services, including orthodontics, to meet the needs of for the communities they serve.

## Dental Services: Waiting Lists

**Tim Farron:** To ask the Secretary of State for Health how many residents of Westmorland and Lonsdale constituency are on the Cumbria Primary Care Trust's waiting list for NHS dentistry services. [175387]

**Ann Keen:** Information on numbers of people on waiting lists for national health service dentistry services is not collected centrally.

## Dentistry: Finance

**Sir Paul Beresford:** To ask the Secretary of State for Health how many dentists in each deanery received funding under the National Co-ordinating Centre for Research Capacity Development's Walport scheme for *(a)* academic clinical fellowships and *(b)* academic clinical lectureships in each year since the scheme's inception; and what the figures represented as a proportion of the total number of clinicians that have received funding. [174213]

**Ann Keen** *[holding answer 17 December 2007]*: The information requested is shown in the following table.

*Academic clinical fellowships*

| *Deanery* | *Dental school* | *Programme name* | *2006* | *2007* | *2008* | *2009* | *2010* |
|---|---|---|---|---|---|---|---|
| Northern | Newcastle | Dental Clinical Specialties | 1 | 1 | 1 | 1 | 1 |
| | Newcastle | Dental Primary Care | 0 | 1 | 1 | 0 | 0 |
| North West | Manchester | Orthodontics and Oral Surgery | 0 | 1 | 1 | 0 | 0 |
| London | King's College | Oral Surgery | 0 | 1 | 1 | 1 | 1 |
| | | Orthodontics | 0 | 1 | 0 | 0 | 1 |
| | Queen Mary University of London | Restorative Dentistry | 1 | 0 | 0 | 1 | 0 |
| Severn | Bristol | Dentistry (Restorative) | 0 | 1 | 1 | 0 | 0 |
| Total number of dentistry posts | | | 2 | 5 | 4 | 3 | 3 |

*Academic clinical fellowships*

| *Deanery* | *Dental school* | *Programme name* | *2006* | *2007* | *2008* | *2009* | *2010* |
|---|---|---|---|---|---|---|---|
| Total number of ACF posts | | | 127 | 167 | 214 | 146 | 142 |
| Number of dentistry posts as percentage of total posts | | | 2 | 3 | 2 | 2 | 2 |

*Clinical lectureships*

| *Deanery* | *Dental school* | *Programme name* | *2006* | *2007* | *2008* | *2009* | *2010* | *2011* |
|---|---|---|---|---|---|---|---|---|
| Northern | Newcastle | Dental Clinical Specialties | 1 | 0 | 1 | 0 | 1 | 0 |
| North West | Manchester | Dentistry | 1 | 1 | 1 | 1 | 1 | 1 |
| London | King's College | Oral Surgery | 0 | 1 | 0 | 0 | 0 | 1 |
| | University College London | Restorative Dentistry | 0 | 1 | 1 | 0 | 0 | 0 |
| | Queen Mary University of London | Dentistry: Restorative | 1 | 0 | 0 | 1 | 0 | 0 |
| Total number of dentistry posts | | | 3 | 3 | 3 | 2 | 2 | 2 |
| Total number of clinical lecturer posts | | | 81 | 102 | 93 | 72 | 72 | 13 |
| Number of dentistry posts as percentage of total posts | | | 4 | 3 | 3 | 3 | 3 | 15 |

### Departmental Public Participation

**Nick Herbert:** To ask the Secretary of State for Health how much his Department has spent on *(a)* citizens' juries, *(b)* focus groups and *(c)* other deliberative forms of public opinion research in each month since January 2006. [166586]

**Ann Keen:** Data from January 2006 on the cost of citizens' juries, focus groups and other deliberative forms of research undertaken by the Department are not readily available. Supplying the costs of all such research citizens' juries and focus groups would require a substantial investigation into all public engagement programmes undertaken by various divisions within the department and its arms length bodies, including the national health service, and would incur disproportionate cost.

However, the Department held nine citizens' juries around the future of the NHS in September 2007. Each jury cost £96.547.78, totalling £868,930.02.

### Dietary Supplements: Nutrition

**Mike Penning:** To ask the Secretary of State for Health (1) when Food Standards Agency officials proposed that Ministers from his Department should meet representatives of consumers of food supplements to discuss the setting of maximum permitted levels for nutrients in such supplements; and for what reasons no date for such a meeting has been set; [169179]

(2) which member states of the European Union have indicated they will support the United Kingdom's objective for and approach to the setting of maximum permitted levels for vitamins and minerals in food supplements; what progress has been made on achievement of the UK's objectives; and if he will make a statement; [169180]

(3) which Minister in his Department has responsibility for the achievement of his objectives for setting maximum permitted levels for nutrients in food supplements; and what discussions that Minister has had with *(a)* the European Commission and *(b)* other EU member state governments on the matter. [169181]

**Dawn Primarolo:** Food Standards Agency (FSA) met with the Health Food Manufacturers' Association in August. The FSA met with the Commission on 12 Sept and also held a stakeholder event to discuss the orientation paper on 14 September in advance of the first Commission working group meeting with member states which took place on 24 September. Such proactive stakeholder engagement will continue. FSA gave advice to Ministers in connection with the CHC reception held in October 2007.

Good progress has been made in promoting work carried out in the United Kingdom in establishing upper levels for vitamins and minerals and reference has been made to this in an orientation paper on setting maximum levels which was the starting point for Commission working group discussions which began on 24 September 2007.

We have been advised by the FSA that general discussions on the orientation paper in the working group revealed that while member states support the broad objective of setting of maximum levels on the basis of safety and science, many are yet to establish views on a range of issues and as such are not in a position to support any specific approach at such an early stage in the discussions.

Ministerial responsibility for matters relating to food supplements, including the setting of maximum permitted levels for vitamins and minerals in these products, rests with me. No recent meetings have been held between Health Ministers and the European Commission or with other European Union member state governments on this matter.

### Doctors

**Mike Penning:** To ask the Secretary of State for Health how many doctors graduated in England in each year since 1997; how many NHS vacancies there were for these doctors in each year; how many GP posts became available in each year; and how many foreign national doctors began employment in the UK in each year. [170617]

**Ann Keen:** The following table provides information for how many doctors graduated in England from 1997.

*Table 1. Medical school output in England 1997-98-2006-07*

| *Academic year* | *Graduate output* |
|---|---|
| 1997-98 | 3,261 |
| 1998-99 | 3,097 |
| 1999-2000 | 3,373 |
| 2000-01 | 3,286 |
| 2001-02 | 3,280 |
| 2002-03 | 3,522 |
| 2003-04 | 3,734 |
| 2004-05 | 3,935 |
| 2005-06 | 4,376 |
| 2006-07 | 4,904 |

*Source*
Higher Education Funding Council for England

The number of foreign national doctors commencing work each year in the United Kingdom, the number of national health service vacancies for these doctors and the number of general practitioner posts that became available in each year is not collated centrally. However, the following table provides information on the total number of house officer and foundation programme year 1.

*Table 2. Hospital and Community Health Services: medical and dental staff showing house officer and foundation programme year 1 by year—England as at 30 September each year*

| | | *Number (headcount)* |
|---|---|---|
| | *All staff* | *Of which: House officer and foundation programme year 1* |
| 1997 | 66,836 | 3,398 |
| 1998 | 68,458 | 3,496 |
| 1999 | 70,000 | 3,606 |
| 2000 | 71,688 | 3,691 |
| 2001 | 73,846 | 3,742 |
| 2002 | 77,031 | 4,010 |
| 2003 | 80,851 | 4,003 |
| 2004 | 86,996 | 4,273 |
| 2005 | 90,630 | 4,663 |
| 2006 | 93,320 | 4,905 |

*Source*
The Information Centre for health and social care Medical and Dental Workforce Census

## Drugs: Misuse

**Mike Penning:** To ask the Secretary of State for Health how many patients were prescribed *(a)* methadone and *(b)* other hard drug substitutes in the latest period for which figures are available; and what the size is of the waiting list for substitutes programmes. [170666]

**Dawn Primarolo:** In 2006-07, the latest period for which data are available, 118,500 individuals received a prescribing modality, such as methadone for the treatment of drug misuse.

The average waiting time to access general practitioner prescribing in 2006-07 was 0.87 weeks.

The average waiting time to access specialist prescribing in 2006-07 was 0-9 weeks.

## Drugs: Rehabilitation

**Jon Trickett:** To ask the Secretary of State for Health how much funding has been provided for residential drug treatment and rehabilitation centres in *(a)* the Wakefield area, *(b)* Hemsworth constituency and *(c)* England in 2007-08. [168010]

**Dawn Primarolo:** Funding for residential drug treatment and rehabilitation centres for the Wakefield area, Hemsworth constituency and England in 2007-08 is detailed as follows:

In 2007-08 the Wakefield partnership identified £84,400 from the local authority contribution to the pooled budget for residential rehabilitation. This ring fenced pot is accessed by the partnership on an individual needs basis.

As the Wakefield partnership covers all localities within the Wakefield area there is no separate allocation for the Hemsworth constituency. As all client applications to residential rehabilitation are based on need, it would be inappropriate to divide the funding to each suburb of the partnership.

Partnership areas send their annual treatment plans to the National Treatment Agency regional teams for consideration. Drawing on data from the planning grids of the partnership treatment plans for 2007-08, the amount budgeted by 142 drug action teams (DATs) to spend on residential rehabilitation and in-patient services was £84.1 million. However there were seven DAT partnerships that had not provided a figure in their treatment plans, thus the true national total may be higher than this.

## Drugs: Waiting Lists

**Mike Penning:** To ask the Secretary of State for Health what the average waiting time was to move from the waiting list to treatment programmes for hard drug substitutes in the latest period for which figures are available. [170665]

**Dawn Primarolo:** The latest waiting times data for substitute prescribing that we have available are for September 2007. The waiting time in this period for specialist prescribing is 0.9 weeks, and for general practitioners prescribing is 0.87 weeks.

## Education for Choice

**Mr. Amess:** To ask the Secretary of State for Health if he will make a statement on his Department's Education for Choice initiative. [172423]

**Dawn Primarolo:** The Department is funding Education for Choice to develop two best practice toolkits for practitioners titled "Pregnancy decision making support and Abortion Education". These were tested as part of the work in our teenage health demonstration sites. The toolkits will be launched nationally early in 2008.

### Eye Care Services Steering Group

**Sandra Gidley:** To ask the Secretary of State for Health pursuant to the answer of 4 December 2007, *Official Report*, column 1118W, on the eye care services steering group, when the group last met. [174518]

**Ann Keen:** The eye care services steering group last met on 4 October 2006.

### Foetal Tissue: Research

**Mr. Amess:** To ask the Secretary of State for Health what recent discussions *(a)* he, *(b)* Ministers in his Department and *(c)* officials have had with (i) hon. Members and (ii) Members of the House of Lords on (A) embryonic stem cell research and (B) the Human Fertilisation and Embryology Bill; and if he will make a statement. [174049]

**Dawn Primarolo:** Departmental Ministers and officials have had numerous discussions with hon. Members and Members of the House of Lords on several matters in connection with the review of the Human Fertilisation and Embryology Act, and the resulting Human Fertilisation and Embryology Bill, including on embryonic stem cell research.

### Genetically Modified Organisms: Food

**Mr. Laurence Robertson:** To ask the Secretary of State for Health how much food imported into the UK contained genetically modified ingredients in the last year for which figures are available; what labelling is required on those foodstuffs; and if he will make a statement. [173972]

**Dawn Primarolo:** All food imported into the United Kingdom from third countries, or in free circulation within the European Union (EU), must comply with relevant EU legislation. Official controls on food, including genetically modified food, imported from third countries are carried out by port health authorities and local authorities at points of entry into the UK. The collection of specific data on the quantity of imported food containing genetically modified ingredients is not a legal requirement under EU official controls legislation and such data are not collected for other purposes.

GM food is regulated in the EU under Regulation (EC) No. 1829/2003 (GM Food and Feed Regulation) and Regulation (EC) No. 1830/2003 (Traceability and Labelling of genetically modified organisms (GMOs)). GM food may only be marketed in the EU if it has been authorised following a process which involves a rigorous safety assessment. GMOs which have not been authorised for use in the EU are prohibited.

Food which contains, consists of, or has been produced from authorised GMOs has to be labelled as such regardless of the presence of detectable novel genetic material in the final product, or the quantity of intentionally used GM ingredient present. Labelling does not apply to foods which contain authorised GM material of 0.9 per cent. or less, provided that this presence is adventitious or technically unavoidable.

### Health Services: Forest of Dean

**Mr. Drew:** To ask the Secretary of State for Health what recent discussions he has had with those social enterprises operating health services in *(a)* the Forest of Dean and *(b)* Stroud. [173198]

**Mr. Ivan Lewis:** The Forest of Dean Health Enterprise Trust is one the Department's social enterprise pathfinders, which are leading the way in delivering innovative health and social care services. They are working closely with the Department, the NHS South West and other stakeholders and are making progress in reviewing options for developing innovative community services, covering health, social care and transport.

The Secretary of State (Alan Johnson) has not had any recent discussions with social enterprises operating health services in Stroud.

### Health Services: Infectious Diseases

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what account is taken of the precautionary principle in steps to mitigate vCJD transmission via the transfusion of blood from asymptomatic carriers. [174475]

**Dawn Primarolo:** A range of precautionary measures have been put in place by the Department to reduce the possible risk of variant Creutzfeldt-Jakob disease (vCJD) being passed through blood. For details of these precautionary measures I refer the hon. Member to the answer given to the hon. Member for Kettering (Mr. Hollobone) on 14 June 2007, *Official Report*, columns 1329-30W.

### Health: Screening

**Mr. Lansley:** To ask the Secretary of State for Health when he expects the UK National Screening Committee to publish its equality review of national screening programmes. [175107]

**Dawn Primarolo:** A scoping report was presented to the United Kingdom National Screening Committee (UK NSC) at its November 2007 meeting. This recommended that a UK-wide project should be undertaken to address equality in screening. The project is currently being commissioned and the results will be published in due course on the UK NSC website.

### Heart Diseases: Medical Equipment

**Adam Afriyie:** To ask the Secretary of State for Health (1) what the average change in the costs of drug eluting stents has been over the last four years; and if he will make a statement; [173948]

(2) what the cost to the NHS of drug eluting stents was over the past four years. [174589]

**Dawn Primarolo:** The Department does not collect information on the cost of stents centrally.

There is no national framework agreement for the supply of drug eluting stents, and trusts or their

Collaborative Procurement Hubs purchase or contract these directly from suppliers.

**Adam Afriyie:** To ask the Secretary of State for Health whether the National Institute for Health and Clinical Excellence health technology appraisal on drug eluting stents has been referred to the Decision Support Unit at Sheffield University for further work. [173949]

**Dawn Primarolo:** We understand that the National Institute for Health and Clinical Excellence has not asked the Decision Support Unit at Sheffield University to carry out any work relating to this appraisal.

**Adam Afriyie:** To ask the Secretary of State for Health what recommendations his Department has made to refer the technology appraisal on drug eluting stents to the Decision Support Unit at Sheffield university. [174922]

**Dawn Primarolo:** The National Institute for Health and Clinical Excellence (NICE) is conducting a review of earlier guidance issued in October 2003 on the use of drug eluting coronary artery stents in the treatment of heart disease. The conduct of the appraisal is a matter for NICE. We understand the Institute has not asked the Decision Support Unit at Sheffield university to carry out any work relating to this appraisal.

### Hospitals: Parking

**Mr. MacDougall:** To ask the Secretary of State for Health what steps his Department is taking to ensure that hospitals provide car parking concessions for patients travelling regularly for treatment. [175263]

**Mr. Bradshaw:** It is for each national health service trust to set the level of charges for its car parks, taking into account local circumstances. However, the Department issued revised guidance to the national health service in December 2006 entitled 'Income Generation: Car Parking Charges—Best Practice for Implementation' on the issues to be considered when setting up a car parking scheme or when reviewing existing ones, including what charges to impose and what concessions to consider. This guidance strongly encourages the NHS to be sensitive to those patients who have to use their car parks regularly, by, for instance, offering them reduced price or free car parking.

### Human Papilloma Virus: Screening

**Mr. Lansley:** To ask the Secretary of State for Health which sites will begin human papilloma virus testing as triage, as referred to in paragraph 3.15 of his Department's Cancer Reform Strategy; and if he will make a statement. [175137]

**Dawn Primarolo:** The sites which will begin human papilloma virus testing as triage are:

Sheffield Teaching Hospitals NHS Foundation Trust;

Central Manchester and Manchester Childrens University Hospitals NHS Trust;

North Bristol NHS Hospital Trust;

Royal Liverpool and Broadgreen University Hospitals NHS Trust;

North West London Hospitals NHS Trust; and

Norfolk and Norwich University Hospitals NHS Trust.

Results from these sites will be known by 2009 at which point further roll-out can be considered.

### Independent Reconfiguration Panel

**Mr. Lansley:** To ask the Secretary of State for Health (1) pursuant to the answer of 21 November 2007, *Official Report*, column 1002W, on the Independent Reconfiguration Panel, if he will list the members of the panel, stating in each case whether they are a *(a)* clinical, *(b)* managerial and *(c)* lay representative; [169859]

(2) on what dates the annual review meetings between the Panel and senior representatives from his Department were held; and if he will place copies of the *(a)* agenda and *(b)* minutes of each of these meetings in the Library; [169860]

(3) what the value of the contract between the Panel and the Central Office of Information for media work was in each financial year since the Panel was established. [169861]

**Ann Keen:** The Independent Reconfiguration Panel website lists both the members of the panel and their category of membership. It also includes details of business reviews for 2004-05, 2005-06 and can be found at:

www.irpanel.org.uk.

The business review for 2006-07 will be published on the website in due course.

The value of the contract between the panel and the Central Office of Information for media work in each financial year since the panel was established is given as follows. The increase in costs during 2006-07 is a result of the panel's increased work load during that time.

| | *Total (£)* |
|---|---|
| March 2004 to March 2005 | 28,662.84 |
| April 2005 to February 2006 | 18,626.33 |
| March 2006 to April 2007 | 73,650.69 |

### Industrial Diseases

**Mr. Stewart Jackson:** To ask the Secretary of State for Health what his estimate is of the annual financial cost of the incidence of chronic obstructive pulmonary disease to the National Health Service; and if he will make a statement. [173112]

**Ann Keen:** Chronic obstructive pulmonary disease accounts for more than £800 million in direct national health service healthcare costs each year.

### Infectious Diseases: Screening

**Mr. Lansley:** To ask the Secretary of State for Health what his Department's most recent estimate is of the number and proportion of *(a)* elective and *(b)* emergency patients screened for (i) MRSA and (ii) clostridium difficile in the last period for which figures are available. [165718]

**Ann Keen:** The decision to screen for MRSA is currently taken by local managers and clinicians in health organisations. The department does not routinely produce estimates of methicillin resistant *Staphylococcus aureus* (MRSA) screening or estimates of the extent of screening. Information on MRSA screening is not collected centrally.

Patients, whether elective or emergency admissions, are not usually screened for *Clostridium difficile* infection (CDI). However, if a patient presents with diarrhoea clinicians may request testing for GDI.

### Infertility: Females

**Mike Penning:** To ask the Secretary of State for Health how many diagnoses of *(a)* female infertility there have been (i) in total and (ii) of tubal origin and *(b)* male infertility there have been in England in each year since 1997-98. [174017]

**Dawn Primarolo** *[holding answer 13 December 2007]*: The information requested is shown in the following table.

*Count of finished consultant episodes in England where there was a primary or secondary diagnosis of female infertility, female infertility of tubal origin and male infertility since 1997-98*[1]

| | *Female infertility* | *Female infertility of tubal origin*[2] | *Male infertility* |
|---|---|---|---|
| 2006-07 | 22,061 | 2,482 | 699 |
| 2005-06 | 20,675 | 2,114 | 722 |
| 2004-05 | 20,125 | 2,147 | 734 |
| 2003-04 | 20,038 | 2,337 | 650 |
| 2002-03 | 20,130 | 2,464 | 713 |
| 2001-02 | 20,310 | 2,328 | 658 |
| 2000-01 | 21,349 | 2,481 | 792 |
| 1999-2000 | 23,667 | 2,771 | 858 |
| 1998-99 | 24,950 | 3,021 | 922 |
| 1997-98 | 25,688 | 3,257 | 948 |

[1] The figures do not represent a count of total diagnoses of infertility as many patients may have this diagnosis but not be admitted to hospital. The figures may also capture the same patient twice if they have more than one finished consultant episode where the infertility diagnosis was recorded.

[2] Data for 'female infertility of tubal origin' are also included in the data for total 'female infertility'.

Source:
Hospital Episode Statistics

### Influenza

**Mr. Lansley:** To ask the Secretary of State for Health what plans the Government has to stockpile *(a)* anti-inflammatory drugs and *(b)* immunomodulatory statins for use in the event of an influenza pandemic. [175092]

**Dawn Primarolo:** On 22 November, the Secretary of State (Alan Johnson) announced the commitment to increase stockpiles of antivirals and antibiotics in preparation for an influenza pandemic. The Department is also working on a number of measures to safeguard the supply of a range of other medicines including anti-inflammatories and statins. Stockpiling is one option among several that are being explored. Work on preparedness for an influenza pandemic continues.

### Maternity Services: Standards

**Mr. Jim Cunningham:** To ask the Secretary of State for Health what steps the Government have taken to improve the standard of services for women in labour since 1997. [170373]

**Ann Keen:** Since 1997, we have made great strides in improving maternity care. On 27 November 2007, the Healthcare Commission published a report of their survey of "women's experiences of maternity care in the NHS, England". The survey found that "89 per cent. of women rated the overall care received during labour and birth as 'excellent', 'very good' or 'good' ". However, we recognise that more work needs to be done.

The standard for maternity care is contained in Standard 11 of the National Service Framework for Children, Young People and Maternity Services (published September 2004) the standard sets out the Government's vision for maternity services, which is for women

> "to have easy access to supportive, high quality maternity services, designed around their individual needs and those of their babies".

Earlier this year we published "Maternity Matters: Choice, access and continuity of care in a safe service". This document introduces a new national choice guarantee for women. This means that by 2009 all women will have choice in where and how they have their baby and what pain relief to use, depending on their individual circumstances.

On 26 September 2007, the National Institute for Health and Clinical Excellence published a guideline on "Intrapartum care: management and delivery of care to women in labour". It provides additional information to help women and their partners to make a truly informed choice as to which setting is most appropriate for their own needs and wishes in where their baby is delivered, having discussed this with their midwife.

### Medical Treatments Abroad

**Dr. Richard Taylor:** To ask the Secretary of State for Health pursuant to the answer of 20 November 2007, *Official Report*, column 831W, whether the health care professionals who advised his Department on classification were informed that this classification would be used as the basis of a proposed pricing system. [171195]

**Dawn Primarolo:** Health care professionals reviewed responses to the consultation on the basis of items meeting similar medical need, and product features such as size and material.

This was designed as technical input and they were not requested to consider the item price of any of the items under consideration, and the application of the economic pricing model was not discussed. This was made clear in the Consultation published on 6 September 2007, "Arrangements under Part IX of the Drugs Tariff for the provision of stoma and incontinence appliances—and related services-to Primary Care: Annex C Proposals regarding reimbursement for items".

It should be noted that in November 2006, the Department consulted upon the principle of the economic model proposed, as this information and how it was proposed to be applied to any item classification was clearly laid out, for all stakeholders to review.

### Mentally Incapacitated: Protection

**Mr. David Anderson:** To ask the Secretary of State for Health what *(a)* role is performed by and *(b)* action is required from the Commission for Social Care Inspection when a local authority notifies it of an adult protection case. [172108]

**Mr. Ivan Lewis:** In 2000, the Department issued "No Secrets— guidance on developing and implementing multi-agency policies and procedures to protect vulnerable adults from abuse". Under the guidance, local authorities are allocated the lead and co-ordination responsibility in local safeguarding situations. The Commission for Social Care Inspection (CSCI) established a protocol with the Association of Directors of Adult Social Services and the Association of Chief Police Officers to clarify the role of key agencies collaborating in multi-agency safeguarding procedures. This was revised and updated in 2007.

As detailed in section 3.2 of CSCI's Safeguarding Adults Protocol and Guidance, CSCI works in partnership with other agencies to ensure that concerns or allegations of abuse are appropriately referred to and investigated by the most appropriate agency; and ensures regulated services comply with relevant regulations.

While CSCI will aim to co-ordinate any regulatory action with the police or commissioners of the service, the need to give primary consideration to its own statutory responsibilities follows the key principle which emerged from the 'Longacre' inquiry. This was that while working in partnership with other agencies, CSCI will not suspend its own statutory enforcement responsibilities pending the outcome of another (e.g. criminal) process where to do so would run counter to the safety and well-being of the people who use the service. In such circumstances, CSCI will aim wherever possible to coordinate actions in order to preserve evidence and avoid impeding each other's investigations or enforcement action.

Where there are no indications of serious risk requiring immediate regulatory action, the outcome of any investigation undertaken by partner agencies or the care provider will inform CSCI's decision making about further regulatory action.

### MRSA: Disease Control

**Mr. Lancaster:** To ask the Secretary of State for Health what guidance his Department provides on personal hygiene measures to be taken by patients prior to attending a pre-operation assessment to help minimise the spread of MRSA. [173882]

**Ann Keen:** The Department has not produced guidance about measures to be taken by patients before a pre-operation assessment and arrangements will be determined locally by trusts. However, in the course of 2008-09, methicillin resistant *Staphylococcus aureus* (MRSA) screening for all elective admissions will be introduced as part of the pre-operation assessment and this will help reduce MRSA infection rates.

### National Blood Service

**Mr. Robathan:** To ask the Secretary of State for Health what assessment he has made of the adequacy of levels of donations of blood to the National Blood Service; and if he will make a statement. [174145]

**Dawn Primarolo:** The National Blood Service (NBS) aims to have between 40,000 to 50,000 units of red blood cells in stock. This target allows for a sizable stock for contingency purposes above and beyond normal demand for red blood cells.

As of 14 December 2007, the NBS had 31,853 units of red blood cells in stock. While this is below target levels, the NBS continues to meet demand for blood from hospitals.

The NBS recognises the need to increase blood collection and has put in place a number of initiatives, such as increased marketing activity to current and potential blood donors and the introduction of an appointments system for donors.

However fewer people are giving blood regularly, a trend that the NBS is working to reverse.

### NHS Foundation Trusts: Public Appointments

**Mr. McCartney:** To ask the Secretary of State for Health which individuals have been appointed to the boards of NHS foundation trusts in the North West of England since 2001 to date, broken down by *(a)* employment background, *(b)* ethnicity, *(c)* sex and *(d)* political affiliation. [174924]

**Ann Keen:** Monitor, the statutory name of which is the independent regulator of NHS foundation trusts, authorised the first national health service foundation trusts (NHSFTs) on 1 April 2004.

The public register on Monitor's website contains a list of board members for each NHSFT. This is available at:

www.monitor-nhsft.gov.uk/register.php

More detailed information is not collected by Monitor but may be obtained by contacting the chair of each NHSFT in the north-west region. The following NHSFTs are located in the north-west region (as at 1 December 2007):

Aintree University Hospitals NHS Foundation Trust;
Blackpool, Fylde and Wyre Hospitals NHS Foundation Trust;
Cheshire and Wirral Partnership NHS Foundation Trust;
Christie Hospital NHS Foundation Trust;
Clatterbridge Centre for Oncology NHS Foundation Trust;
Countess of Chester Hospital NHS Foundation Trust;
Cumbria Partnership NHS Foundation Trust;
Lancashire Care NHS Foundation Trust;
Lancashire Teaching Hospitals NHS Foundation Trust;
Stockport NHS Foundation Trust;
University Hospital of South Manchester NHS Foundation Trust; and
Wirral University Teaching Hospital NHS Foundation Trust.

## NHS: Drugs

**Dr. Iddon:** To ask the Secretary of State for Health (1) how many biosimilar medicines are licensed for use in the United Kingdom; [173695]

(2) if the Government will take steps to preclude the automatic substitution of brands with similar biological medicines to ensure patients are not put at unnecessary risk from potential adverse drug reactions; [173696]

(3) if he will hold discussions with *(a)* the Medicines and Healthcare Products Regulatory Agency and *(b)* the European Medicines Agency to ensure that manufacturers of biosimilar medicines submit full clinical trial data on each indication for their products rather than extrapolated data from the reference product; [173697]

(4) if he will ensure that biosimilar medicine packaging and accompanying patient information leaflets *(a)* contain details of the formulation and manufacturing process for the biosimilar agent and *(b)* make reference to the potential risk of not being able to determine which drug resulted in an adverse drug reaction as a result of interchanging similar biological medicines. [173698]

**Dawn Primarolo:** The relevant European Union (EU) legislation requires that packaging and leaflets include information on the qualitative composition for active substances and excipients and the quantitative composition for active substances, the pharmaceutical form and content of the active drug substance in weight, volume or units of dosage, the name and address of the manufacturer, the name and address of the marketing authorisation holder and, where applicable, the name of his appointed representatives in the member states.

They must also include a description of the relevant adverse reactions which may occur under normal use of the medicinal product and, if necessary, the action to be taken in such a case. The patient should be expressly asked to communicate any adverse reaction which is not mentioned in the package leaflet to his doctor or pharmacist.

Details of the manufacturing processes are commercially confidential and are subject to intellectual property rights and cannot be made publicly available.

The demonstration of the similar nature of two biological medicinal products may not always be required for each indication applied for. European legislation does not exclude extrapolation of evidence based on the biosimilar product. Existing guidance provided by European Medicines Agency (EMEA) allows such extrapolation, when demonstrated in an appropriate clinical situation, as long as it is justified on a scientific basis. Therefore the type and amount of additional data to be provided shall be determined on a case-by-case basis in accordance with relevant scientific guidelines.

The Medicines and Healthcare products Regulatory Agency has not issued a specific guideline to clinicians on substitution. All medicines, including biological medicines, should be prescribed by clinicians in accordance with the approved advice provided in the Summary of Product Characteristics which provides full information about the product, including its side effects and its use.

The Royal Pharmaceutical Society of Great Britain's Professional standards and guidance for the sale and supply of medicines provides advice to pharmacists on switching from innovator biological medicines to biosimilar medicines and states that except in an emergency, a specifically named product should not be substituted by any other product without the approval of the patient or carer and the prescriber, and in the case of hospital drugs, the approval of the therapeutics committee, or in line with other similar locally agreed protocols.

To date there are five biosimilar medicinal products approved for use in the EU. This includes two preparations of the recombinant growth hormone, somatropin, namely Omnitrope and Valtropin and three preparations of epoetin alfa; Abseamed, Binocrit, and Epoetin alfa Hexal.

There are several more biosimilar medicinal products currently under assessment.

## NHS: ICT

**Dr. Desmond Turner:** To ask the Secretary of State for Health what representations he has received on the quality of evidence submitted by the Liverpool Reviews and Implementation Group to the National Institute for Health and Clinical Excellence's review of the economic models for determining cost-effectiveness in technology appraisals. [173120]

**Dawn Primarolo:** We have received no such representations.

## NHS: Speech Therapy

**Mr. Kemp:** To ask the Secretary of State for Health how many speech therapist hours per week are available within the NHS in the North East region. [173565]

**Ann Keen:** The information is not available in the format requested. The following table shows the number of qualified speech and language therapy staff in the North East Strategic Health Authority area as at 30 September 2006.

| | *Full-time equivalent* |
|---|---|
| England | 5,149 |
| *Of which:* | |
| North East Strategic Health Authority area | 311 |

*Notes:*

1. Full time equivalent figures are rounded to the nearest whole number.

2. One full-time equivalent is based on 37.5 hours per week.

*Source:*

The Information Centre for health and social care Non-Medical Workforce Census.

## Northern Lincolnshire and Goole Hospitals NHS Trust

**Shona McIsaac:** To ask the Secretary of State for Health how many finished consultant episodes there were in each specialty at Northern Lincolnshire and Goole NHS Foundation Trust in 2005-06; and if he will make a statement. [172521]

**Ann Keen:** The information requested has been set out in the following table.

*Count of finished consultant episodes by main speciality for the Northern Lincolnshire and Goole NHS Foundation Trust in 2005-06*

| *Main specialty* | *Goole treatment centre* | *Northern Lincolnshire and Goole Hospitals NHS Trust* | *Total finished consultant episodes* |
|---|---|---|---|
| Accident and Emergency | — | 502 | 502 |
| Anaesthetics | — | 318 | 318 |
| Cardiothoracic Surgery | — | 55 | 55 |
| Clinical Haematology | — | 3,026 | 3,026 |
| Clinical Immunology and Allergy | — | 123 | 123 |
| Critical Care Medicine | 6 | 461 | 467 |
| Dermatology | — | [1]— | [1]— |
| Ear, Nose and Throat | — | 2,171 | 2,171 |
| General Medicine | 8 | 26,892 | 26,900 |
| General Surgery | — | 17,622 | 17,622 |
| Geriatric Medicine | — | 3,825 | 3,825 |
| Gynaecology | — | 10,613 | 10,613 |
| Medical Oncology | — | 5,397 | 5,397 |
| Nephrology | — | [1]— | [1]— |
| Obstetrics | — | 6,408 | 6,408 |
| Ophthalmology | 478 | 2,822 | 3,300 |
| Oral Surgery | — | 1,909 | 1,909 |
| Paediatrics | — | 9,736 | 9,736 |
| Rehabilitation | — | [1]— | [1]— |
| Rheumatology | — | 681 | 681 |
| Trauma and Orthopaedics | 2,203 | 6,394 | 8,597 |
| Urology | — | 6,234 | 6,234 |
| Not Known | — | 17 | 17 |
| Total | 2,695 | 105,224 | 107,919 |

[1] Low numbers. Due to reasons of confidentiality, figures between one and five have been suppressed. Where it was possible to identify numbers from the total due to a single suppressed number in a row or column, an additional smallest number have been suppressed in order to protect patient confidentiality.

*Notes:*

1. Northern Lincolnshire and Goole NHS Foundation Trust is made up of the Northern Lincolnshire and Goole Hospitals NHS Trust and the Goole Treatment Centre. The total finished consultant episodes column is the total figure for the whole trust.
2. The specialty in each consultant episode is the specialty the consultant practices under.
3. Data quality. Hospital Episode Statistics (HES) are compiled from data sent by over 300 national health service trusts and primary care trusts (PCTs) in England. The Information Centre for health and social care liaises closely with these organisations to encourage submission of complete and valid data and seeks to minimise inaccuracies and the effect of missing and invalid data via HES processes. While this brings about improvement over time, some shortcomings remain.
4. Finished Consultant Episode (FCE). An FCE is defined as a period of admitted patient care under one consultant within one health care provider. The figures do not represent the number of patients, as a person may have more than one episode of care within the year.
5. Specialty. Care is needed when analysing HES data by specialty, or by groups of specialties (such as Acute). Trusts have different ways of managing specialties and attributing codes so it is better to analyse by specific diagnoses, operations or other recorded information.
6. Ungrossed Data. Figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

*Source:*

Hospital Episode Statistics (HES), The Information Centre for Health & Social Care

## Nurses: Manpower

**Anne Milton:** To ask the Secretary of State for Health how many specialist nurses are available to treat patients with long-term conditions; and what plans he has to increase the numbers of specialist nurses treating patients with long-term conditions. [173282]

**Ann Keen:** The national health service work force census does not separately identify specialist nurses available to treat patients with long-term conditions.

It is for local work force planners to determine their specialist nursing needs in order to meet the long term condition needs of their local population.

The Government recognise the important contribution made by specialist nurses and remain committed to both the continued development of such roles and to ensuring there are enough specialist nurses and other healthcare professionals to provide the high quality services for patients.

## Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how many people were *(a)* admitted to and *(b)* discharged from hospital with a primary or secondary diagnosis of (i) malnutrition, (ii) nutritional anaemias and (iii) other nutritional deficiencies in each year from 1997-98 to 2006-07; and if he will provide a breakdown of these figures by hospital for 2006-07. [174970]

**Dawn Primarolo:** The information requested has been placed in the Library.

## Obesity

**Sandra Gidley:** To ask the Secretary of State for Health what steps he has taken to increase public awareness of the body mass index as an indicator of health; and if he will make a statement. [174723]

**Dawn Primarolo:** The Department has produced a number of publications that include descriptions of body mass index (BMI) in the context of maintaining a healthy weight, for example, the "Your Weight Your Health" leaflet. The Department's website also defines BMI in the context of obesity in children and adults.

In addition, the Department commissioned the National Institute for Health and Clinical Excellence to produce guidance on the "prevention, identification, assessment and management of overweight and obesity in adults and children". Published in December 2006, this guidance includes information on BMI and more importantly advice to the public on achieving and maintaining a healthy BMI.

**Sandra Gidley:** To ask the Secretary of State for Health what estimate he has made of the proportion of parents who will access the online height-weight calculator being developed by his Department. [174749]

**Dawn Primarolo:** An interim version of the online height weight calculator has been available since July at www.direct.gov.uk/childweight We have been monitoring the use of the calculator since October 2007, and there have been over 4,500 hits. We are currently consulting with parents for their views on the calculator, and following this, will make changes to ensure a permanent tool is parent-friendly and useful. We will continue to monitor the use of the calculator.

**Mr. Lansley:** To ask the Secretary of State for Health when he intends to publish his Department's strategy for tackling obesity; which *(a)* Government Departments, *(b)* Government agencies, *(c)* other organisations and *(d)* other interested parties are involved in its development; and if he will make a statement. [174766]

**Dawn Primarolo:** The cross-Government strategy to tackle obesity will be published mid to late January 2008. The development of the strategy has been informed by discussions with several Government Departments, including: Children, Schools and Family, Culture, Media and Sport, Communities and Local Government, Transport, Environment and Rural Affairs and the Cabinet Office. We have also consulted with the Food Standards Agency and scientific experts from the Foresight Project along with a number of non-governmental organisations. I will be meeting with ministerial colleagues to continue discussions as we move towards publication.

## Organs: Donors

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health how many organs of each type were *(a)* donated and *(b)* required to treat people in each year since organ donation began. [172899]

**Ann Keen:** The number of organs donated from deceased and living donors, and the numbers added to the waiting list in each year is shown as follows. Records before 1972 are very sparse and are only properly validated since 1985. As such, these figures can be described as 'since records began' but cannot be treated as absolute.

*Organs donated for transplant, United Kingdom, from deceased donors*

| | kidney | heart | lung | liver | pancreas |
|---|---|---|---|---|---|
| 1972 | 590 | — | — | — | — |
| 1973 | 540 | — | — | 5 | — |

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health for what reasons an EU-wide legal framework for organ donation has been proposed. [173002]

**Ann Keen:** A European Union Commission analysis of organ donation and transplantation across EU member states has revealed large differences in organ donor rates and transplant activity. On 31 May 2007 the EU Commission adopted a communication on organ donation and transplantation proposing two mechanisms. Firstly an action plan to encourage closer cooperation between member states sharing expertise to maximise organ donation and to optimise equity of access to transplantation. The Commission would also monitor organ trafficking and consider any necessary additional action. Secondly, it would put in place a legal framework that would establish the basic level of quality and safety for transplantation at community level.

### Patients: Nutrition

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health what criteria are used by the Healthcare Commission for assessing adherence to core standards on food and nutritional care, as described on page 18 of his Department's document, Improving Nutritional Care; and in what ways these criteria are new. [170064]

**Ann Keen:** Core standard C15 focuses on the provision of food in relation to choice, safety, balanced diet, nutrition, dietary requirements and access. As part of their self-declaration process the Healthcare Commission have published the following criteria for assessment of C15:

*C15a*

1. Patients are offered a choice of food in line with the requirements of a balanced diet, reflecting the needs and preferences and rights (including faith and cultural needs) of its service user population[1]

2. The preparation, distribution, handling and serving of food is carried out in accordance with food safety legislation and national guidance (including the Food Safety Act 1990, the Food Safety (General Food Hygiene) Regulations 1995 and EC regulation 852/2004.

*C15b*

1. Patients have access to food and drink 24 hours a day[1]

2. The nutritional, personal and clinical dietary requirements of individual patients are assessed and met, including the right to have religious dietary requirements met[1]

3. Patients requiring assistance with eating and drinking are provided with appropriate support[1]

[1] Adequate levels of assurance can be provided by an outcome of 'excellent' for 'food' for each relevant site from Patient Environment Action Teams' assessments for 2008.

For the 2006-07 assessment year, there was only a minor clarification to the criteria the Healthcare Commission used for assessment purposes.

For the 2007-08 assessment year, the criteria dropped reference to the Better Hospital Food programme as the programme came to a close.

### Pharmacy Regulation and Leadership Oversight Group: Finance

**Sandra Gidley:** To ask the Secretary of State for Health what funding the Government will make available to the Pharmacy Regulation and Leadership Oversight Group in each of the next three financial years. [174012]

**Dawn Primarolo:** At the British Pharmaceutical Conference in September 2007, my hon. Friend the Minister of State, (Mr. Bradshaw), announced £3 million towards establishing the General Pharmaceutical Council (GPhC). This will be allocated in two amounts across two financial years: £1.5 million in 2008-09 and £1.5 million in 2009-10. At present, there is no allocation for the financial year 2010-11. As part of its work, the Pharmacy Regulation and Leadership Oversight Group will advise Ministers on the financial considerations of establishing the GPhC.

### Pharmacy: Personal Records

**Mr. Lansley:** To ask the Secretary of State for Health (1) how data are shared between pharmacists and the Prescription Pricing Division of the NHS Business Services Authority; and what medium is used to transmit the data; [174721]

(2) what encryption is used when sending data from pharmacists to the Prescription Pricing Division of the NHS Business Services Authority. [174722]

**Dawn Primarolo:** The prescription pricing division (PPD) of the NHS Business Services Authority currently uses the paper prescription forms received for reimbursement and remuneration purposes only.

PPD also receive prescription messages under Release 1 of the electronic prescription service (EPS) but no PPD processing takes place for reimbursement and remuneration purposes. Approximately 1.1 million messages have been received since August 2007, which are held for approximately 60 days then deleted. The service protects the confidentiality of the data received.

The data received through the EPS are encrypted under transport layer security termination and conform to the national health service cryptographic standards. The data are unencrypted at PPD and are processed through a secure batch processing system.

### Post-natal Depression

**Anne Milton:** To ask the Secretary of State for Health how many mothers have been diagnosed with post-natal depression in each year since 1997 *(a)* one week, *(b)* one month and *(c)* one year after giving birth; and how many mother and baby beds are available in mental health units. [173283]

**Ann Keen:** Information about the number of mothers who were diagnosed with postnatal depression, within any given time period following birth, is not collected centrally. Accurate data are not available about overall mother and baby bed numbers.

### Poultry Meat

**Chris Huhne:** To ask the Secretary of State for Health (1) what his Department's policy is on the addition of animal or vegetable proteins or other high nitrogen materials into chicken breasts; what assessment he has made of the effect of this practice on the accurate measurement of the amount of added water in the product; and if he will make a statement; [174921]

(2) what assistance the Food Standards Agency has *(a)* requested and *(b)* received from (i) the European Commission and (ii) the Dutch Government in relation to the use of added animal proteins in chicken breasts in the last five years. [174923]

**Dawn Primarolo:** The production and labelling of meat products are regulated in law. European legislation places no limit on the addition of proteins of animal or vegetable origin. If proteins are added to chicken breast products they must be correctly described on the label so as not to mislead consumers.

Added water is calculated using methodology agreed at European level. The method was developed to take account of the addition of hydrolysed collagen protein and works well for the type of product that it was developed for. The need for further methodological development is kept under consideration.

The Food Standards Agency (FSA) has urged the European Commission to take action on the use of hydrolysed proteins from different animal species in poultry products, including in chicken breast products. The European Commission responded with a number of actions, including:

a review of legal requirements, emphasising to member states that the practice of adding proteins to poultry products is legal, but that without proper labelling it would be fraudulent. The conclusion was that the legislation was adequate;

a European Food and Veterinary Office mission to assess poultry meat production including the use of water retention agents such as proteins. This mission covered both the United Kingdom and the Netherlands;

the inclusion of an assessment of the use of water retention agents in a European Coordinated Programme for the Official Control of Food Stuffs.

In relation to assistance from the Government of the Netherlands, adverse sampling and testing results on imported frozen chicken breasts with added water and protein from the Netherlands have been forwarded by the FSA during 2007 to the Dutch enforcement authorities. The Dutch authorities have taken action against the relevant company.

## Prescription Drugs

**Mr. Lansley:** To ask the Secretary of State for Health what the *(a)* pre-market launch and *(b)* post-market launch medicines are on which the National Prescribing Centre provides evaluated information; and which condition each treats. [175122]

**Dawn Primarolo:** The National Prescribing Centre publishes two newsletters on its website to assist the national health service in managing the introduction of new medicines. "On the Horizon—Future Medicines" contains information on selected medicines prior to launch, and "On the Horizon—Post-Launch Update" provides information on selected medicines after they have been launched in the United Kingdom.

The following tables show topics and indications from both publications from April 2005 to December 2007.

*Pre-market launch medicines*

| | *Topic* | *Indication* |
|---|---|---|
| 2005-06 | Capecitabine | Adjunct to surgery for Duke's C colon cancer |
| | Natalizumab | Relapsing-remitting multiple sclerosis |
| | Letrozole | Early hormone-responsive breast cancer |
| | Rimonabant | Obesity |
| | Pegaptanib | Age-related macular degeneration |
| | Trastuzumab | Adjuvant treatment of HER2 positive early breast cancer |
| | Tegaserod | Irritable bowel syndrome |
| | Deferasirox | Chronic iron overload |
| | Varenicline | Smoking cessation |
| 2006-07 | Agomelatine | Depression |
| | Sitagliptin and Vildagliptin | Type 2 diabetes |
| | Bevacizumab | Advanced non-squamous, non-small cell lung cancer |
| | Telbivudine | Chronic hepatitis B |
| | Continuous erythropoietin receptor activator (CERA) | Anaemia of chronic kidney disease |
| | Aliskiren | Hypertension |
| April 2007 to date | Febuxostat | Treatment of high uric acid levels in gout |
| | Dabigatran | Prevention of blood clots after orthopaedic surgery |
| | Ramelteon | Insomnia |
| | Lacosamide | Pain due to diabetic neuropathy |
| | Rivaroxaban (in production) | Prevention of blood clots after orthopaedic surgery |

*Source:*
National Prescribing Centre: On the Horizon—Future Medicines

*Post-market launch medicines*

| | *Topic* | *Indication* |
|---|---|---|
| 2006-07 | Inhaled insulin | Type 1 diabetes |
| | Natalizumab | Multiple sclerosis |
| | Rimonabant | Obesity |
| | Varenicline | Smoking cessation |
| April 2007 to date | Sitagliptin | Type 2 diabetes |
| | Vildagliptin (in production) | Type 2 diabetes |

*Source:*
National Prescribing Centre: On the Horizon—Post-launch Update

## Prescription Drugs: Side Effects

**Mike Penning:** To ask the Secretary of State for Health what *(a)* estimate he has made of and *(b)* research he has (i) commissioned and (ii) evaluated on the number of patients who have had adverse reactions to medicines due to (A) prescription and (B) use after the use-by date; and if he will make a statement. [171910]

**Dawn Primarolo:** The data collected on suspected adverse drug reactions (ADRs) through the Medicines and Healthcare Products Regulatory Agency's (MHRA) Yellow Card Scheme do not record whether the drug suspected to have caused an adverse reaction was received by prescription or if the drug was used after the use-by date.

No research into the numbers of patients who experience ADRs from medicines received by prescription or use of medicines after the use-by date has been commissioned by the MHRA.

### Prescriptions

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health pursuant to the answer of 3 December 2007, *Official Report*, column 1013W, on prescriptions, what operational issues were discussed. [175051]

**Dawn Primarolo:** Since January this year, a representative but not exhaustive list of the operational issues discussed at the monthly departmental meetings with the prescription pricing division of the National Health Service Business Services Authority, have been the performance report, the business plan, the capacity improvement programme, information services and the electronic prescription service.

### Prescriptions: Fees and Charges

**Danny Alexander:** To ask the Secretary of State for Health what percentage of prescription items were dispensed free of charge in the last 12 month period for which figures are available. [174795]

**Dawn Primarolo:** The information centre for health and social care's "Prescriptions Dispensed in the Community Statistics for 1996 to 2006: England" published in July 2007 shows that 88 per cent. of prescription items were dispensed in the community in England with no charge paid at the point of dispensing.

**Danny Alexander:** To ask the Secretary of State for Health what percentage of the 18 to 60-year-old population is not required to pay prescription charges. [174796]

**Dawn Primarolo:** Data are collected on the number of items dispensed and, when free of charge, the reason for the exemption. It is not possible to answer this question because prescription data on individuals are not collected.

**Danny Alexander:** To ask the Secretary of State for Health what assessment his Department has made of the levels of awareness of the NHS Low Income Scheme among people likely to be entitled to such help. [174798]

**Dawn Primarolo:** The Prescription Pricing Division of the National Health Service Business Services Authority, which is responsible for publicising the prescription charging arrangements in England including the NHS low income scheme, takes every opportunity to publicise the arrangements. This includes regular mailings to all pharmacies, general practitioner (GP) dispensing practices and all other GP practices.

**Mr. MacDougall:** To ask the Secretary of State for Health what proposals his Department has made to raise patients' awareness of prescription prepayment certificates. [175261]

**Dawn Primarolo:** I refer my hon. Friend to the answer I gave on 12 December 2007, *Official Report*, column 662W.

**Mr. MacDougall:** To ask the Secretary of State for Health what proposals he has to exempt those on low incomes from liability for prescription charges. [175262]

**Dawn Primarolo:** The Government will be inviting views shortly on possible options for changes to prescription charges that are cost neutral to the national health service.

### Prescriptions: Pre-payment

**Danny Alexander:** To ask the Secretary of State for Health how many patients have applied to pay for a prepayment prescription certificate by direct debit since this payment method was introduced in July 2007. [174799]

**Dawn Primarolo:** The prescription pricing division of the National Health Service Business Services Authority, who administer the prescription prepayment certificate (PPC) arrangements for the Department, received 69,675 applications to purchase a 12-month PPC through direct debit instalments during the period 1 July to 30 November 2007.

**Danny Alexander:** To ask the Secretary of State for Health what estimate his Department has made of the percentage of patients who have applied for a pre-payment prescription certificate (PPC) who are first-time PPC purchasers. [174800]

**Dawn Primarolo:** The Prescription Pricing Division of the National Health Service Business Services Authority estimates that around 63 per cent. of the applications to purchase a prescription pre-payment certificate during November 2007, were not generated from a previously held record.

### Primary Care Trusts

**Greg Mulholland:** To ask the Secretary of State for Health how many people received continuing care in England during *(a)* 2003, *(b)* 2004, *(c)* 2005, *(d)* 2006 and *(e)* 2007, broken down by primary care trust. [173216]

**Mr. Ivan Lewis** *[holding answer 11 December 2007]*: The information requested has been placed in the Library.

### Processed Food: Labelling

**Helen Southworth:** To ask the Secretary of State for Health what recent discussions he has had with the food industry on the relationship between provision of information on sugar, salt and fat content of processed foods and individuals' ability to manage diabetes, heart disease, stroke, obesity and other chronic medical conditions; and if he will make a statement. [170108]

**Dawn Primarolo:** The Department regularly engages with food manufacturers and retailers at ministerial and official level to discuss this issue.

## Prostate Cancer: Staff

**Dr. Stoate:** To ask the Secretary of State for Health what steps his Department has taken to improve the effectiveness of multi disciplinary teams working in the field of prostate cancer; and if he will make a statement. [174256]

**Ann Keen:** In 2002, the National Institute for Health and Clinical Excellence published 'Improving Outcomes in Urological Cancers'.

This guidance sets out recommendations on how services for patients with urological cancers, including prostate cancer, should be organised in order to ensure the best outcomes. In particular, the guidance sets out recommendations on the organisation and membership of urological cancer multi-disciplinary teams (MDT).

Strategic health authorities have submitted action plans to demonstrate how they will implement this guidance. The Department and the Healthcare Commission monitor progress against these plans.

The National Cancer Action Team has also funded Leeds teaching hospitals NHS trust to develop and run a pilot programme to enhance MDT working and improve the quality of surgical techniques available to prostate cancer patients.

## Psychiatry: Wirral

**Stephen Hesford:** To ask the Secretary of State for Health what assessment he has made of the adequacy of bed numbers in psychiatric wards in Wirral; and if he will make a statement. [174007]

**Ann Keen:** The number of available and occupied beds for the specialties of mental illness and learning disabilities at the Cheshire and Wirral Partnership NHS Foundation Trust has been set out in the following table:

| | *Total* | *Mental illness* | *Learning disabilities* |
|---|---|---|---|
| Available | 436 | 377 | 59 |
| Occupied | 393 | 343 | 50 |

*Source:*
DH Form KH03

Not everybody who needs care for a mental health related problem needs a psychiatric bed—even in an emergency. We have developed a range of alternatives to in-patient acute beds. These include new models of practice, robust care pathways and supported accommodation or respite care in ordinary settings.

In-patient psychiatric activity has fallen over time as we have established more than 700 new mental health teams providing community based care as an alternative to acute in-patient care.

## Sexually Transmitted Diseases

**Ann Winterton:** To ask the Secretary of State for Health what steps he is taking to combat the spread of sexually transmitted infections. [174623]

**Dawn Primarolo:** Tackling the prevalence of sexually transmitted infections is a top priority. We are making excellent progress towards offering people an appointment at a genito-urinary medicine clinic within 48 hours, have established the national Chlamydia screening programme, and launched an innovative media campaign aimed at those at highest risk.

## Sickle Cell Disease: Screening

**Lynne Featherstone:** To ask the Secretary of State for Health how many people have been diagnosed with a sickle cell disease through the National Newborn Screening Programme, broken down by *(a)* region, *(b)* primary care trust and *(c)* constituency. [173236]

**Ann Keen:** Information is not available by primary care trust or constituency.

Data by new strategic health authority (SHA) for 2005-06, where they are available, and for England as a whole for 2005-06, are given as follows from the NHS Sickle Cell and Thalassaemia Screening Programme. These are the rates of screen positive results for significant sickle cell disease detected per 1,000 newborn screening tests undertaken. Not all sites were providing newborn screening for the full year.

*Sickle Cell disease—screen positive rates per 1,000 newborn screening tests undertaken*

| *SHA* | *Total* |
|---|---|
| East Midlands | 0.21 |
| East of England | 0.40 |
| London | 1.91 |
| North East | n/a |
| North West | 0.21 |
| South Central | n/a |
| South East Coast | 0.08 |
| South West | 0.08 |
| West Midlands | 0.21 |
| Yorkshire and the Humber | 0.22 |
| England | 0.57 |

n/a = Not available
*Note:*
Significant sickle cell disorders included in these figures are Sickle Cell Anaemia—Hb SS, Sickle Haemoglobin C Disease—Hb SC, Sickle Haemoglobin D Disease—Hb SD, Sickle Beta Thalassaemia Disease—Hb S/b thalassaemia (b+, b$^0$, db, Lepore), Sickle O Arab Disease—Hb SO$^{Arab}$, and Sickle and hereditary persistence of fetal haemoglobin—Hb S/HPFH.

## Social Care Reform Grant

**Sandra Gidley:** To ask the Secretary of State for Health what the allocation of the social care reform grant will be to each local authority for each of the next three years. [174691]

**Mr. Ivan Lewis:** The information requested has been placed in the Library.

## Tinnitus

**Mr. Laurence Robertson:** To ask the Secretary of State for Health what funding he has made available for research into tinnitus; and if he will make a statement. [174699]

**Dawn Primarolo:** I refer the hon. Member to the written answer given on 12 September 2007, *Official Report*, column 2084W, to the hon. Member for North-West Leicestershire (David Taylor).

### UK Baby Friendly Initiatives

**Mr. Salmond:** To ask the Secretary of State for Health when he expects to reply to the letter of 22 October from the right hon. Member for Banff and Buchan on the Unicef UK baby friendly initiatives. [174462]

**Dawn Primarolo:** A reply was issued on 12 December 2007.

### Vaccination

**Sandra Gidley:** To ask the Secretary of State for Health what resources his Department has made available to the Joint Committee on Vaccinations and Immunisation to promote compliance with its guidance in the NHS. [174555]

**Dawn Primarolo:** The Department does not make resources available to the Joint Committee on Vaccinations and Immunisation (JCVI) for compliance with its guidance in the national health service. The role of JCVI is to advise the Secretaries of State for Health, Scotland, Wales and Northern Ireland on matters relating to communicable diseases, preventable and potentially preventable through immunisation. However, the Department does provide information materials to the NHS which reflect JCVI agreed advice.

**Sandra Gidley:** To ask the Secretary of State for Health what guidance his Department has given to the NHS on implementation of the Joint Committee on Vaccinations and Immunisation guidance. [174556]

**Dawn Primarolo:** The role of Joint Committee on Vaccinations and Immunisation (JCVI) is to advise the Secretaries of State for Health, Scotland, Wales and Northern Ireland on matters relating to communicable diseases, preventable and potentially preventable through immunisation. The Department's guidance based on JCVI advice is issued to the national health service through various information channels such as the chief medical officer letters, chief executives bulletin, the guide 'Immunisation against infectious disease', websites and a range of NHS immunisation leaflets.

### Vaccination: Children

**Mr. Stephen O'Brien:** To ask the Secretary of State for Health for what reasons *(a)* Blackburn with Darwen Primary Care Trust, *(b)* East Lancashire Primary Care Trust and *(c)* Milton Keynes Primary Care Trust did not submit COVER reports in the second quarter of 2007; and when each primary care trust (i) last submitted a COVER report and (ii) will next submit a COVER report. [171810]

**Dawn Primarolo:** The Health Protection Agency has informed the Department that both Blackburn with Darwen PCT and East Lancashire PCT were unable to submit data due to staffing problems. The reason that Milton Keynes PCT did not send a COVER return is not known. All three PCTs provided data for the previous (January to March 2007) quarter and have submitted data for the June to September 2007, due to be published at the end of the month.

## CULTURE, MEDIA AND SPORT

### Big Lottery Fund

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport what proportion of the money available under the Big Lottery Fund Children's Play initiative has been *(a)* committed and *(b)* spent. [175187]

**Mr. Sutcliffe:** The following figures reflect the proportion of money which has been committed and spent under the Big Lottery Fund's children's play initiative in England.

£

| *Programme name* | *Current value (committed)* | *Total paid to date (spent)* |
|---|---|---|
| Play Infrastructure | 14,663,933 | 5,165,269 |
| Playful Ideas | 8,183,390 | 955,632 |
| Children's Play | 113,889,266 | 4,719,106 |
| Total | 136,736,589 | 10,840,007 |

The total money available for the Children's Play initiative is £155 million. The Big Lottery Fund has committed 88 per cent. of the total available and expect to commit all funds under the play initiative by September 2008.

### Big Lottery Fund: Information Officers

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how many full-time equivalent press officers the Big Lottery Fund employs; and how many of those are based in its *(a)* London headquarters, *(b)* regional offices and *(c)* offices in Scotland, Wales and Northern Ireland. [175394]

**Mr. Sutcliffe:** The Big Lottery Fund currently employ eight full-time press officers. Five in England, one in Scotland, one in Northern Ireland and one in Wales. There are no press officers in regional offices.

### Departmental Information Officers

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how many full-time equivalent press officers were employed in his Department in the latest period for which figures are available. [175397]

**Mr. Sutcliffe:** There are 11 full-time equivalent press officers employed by the DCMS.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for Culture, Media and Sport how many staff work in his Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174957]

**Mr. Sutcliffe:** Five members of staff work in the DCMS parliamentary branch, and two of them deal solely with Commons and Lords written and oral questions. Correspondence from hon. Members and Peers is not dealt with by parliamentary branch.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Culture, Media and Sport what his Department's policy is on recycling. [174407]

**Mr. Sutcliffe:** The Department is committed to the sustainable operations targets for the Government estate. The Department is to increase its recycling figures to 40 per cent. of their waste arisings by 2010 and to 75 per cent. of their waste by 2020.

### English Heritage: Pay

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how many *(a)* members of the management board and *(b)* other staff received a salary of more than £99,999 per annum pro rata in (i) his Department, (ii) English Heritage, (iii) the Big Lottery Fund, (iv) the Arts Council and (v) the Royal Parks in the last financial year for which figures are available. [175396]

**Mr. Sutcliffe:** I refer the hon. Member to the resource accounts published on the appropriate web sites for the year 2006-07. The links are shown in the table.

### Gambling

**Mr. Bellingham:** To ask the Secretary of State for Culture, Media and Sport what plans his Department has to assess the effect on business of regulations introduced under the Gambling Act 2005. [175195]

**Mr. Sutcliffe:** As part of the DCMS Simplification Plan 2007 (published on 11 December 2007) we are undertaking a measurement exercise to assess administrative burdens on the gambling industry under the Gambling Act 2005. We expect to conclude the exercise in spring 2008, after external scrutiny of the initial findings by an expert panel including representatives from the gambling industry.

**Julie Morgan:** To ask the Secretary of State for Culture, Media and Sport if he will make a statement on the current position and future prospects of the UK gaming machine manufacturing sector. [175237]

**Mr. Sutcliffe:** My Department is engaging in active and constructive dialogue with the British Amusement Catering Trade Association, the main trade body which represents the gaming machines sector, and other trade bodies with an interest in the sector, such as the Bingo Association and the British Association of Leisure Parks, Piers and Attractions, to gain a full understanding of the current trading conditions in the gaming machine sector.

I have made it clear to these organisations that I will be happy to consider any evidence they can provide, in relation to the difficult trading conditions that some operators say they are currently experiencing, and any proposals for remedial action.

However, the Government's principal priority remains to protect the public. We will need to be satisfied that any proposals put forward for remedial action by the industry do not have an adverse impact in terms of the licensing objectives of the Act.

**Julie Morgan:** To ask the Secretary of State for Culture, Media and Sport what assessment his Department has made of the impact of the Gambling Act 2005 on competition in the gambling market. [175238]

**Mr. Sutcliffe:** A competition assessment of the Gambling Act 2005 was included in the regulatory impact assessment which was published in April 2005 to accompany the Act. In addition, impact assessments were prepared for each piece of secondary legislation required to implement the Act. These are published with the related explanatory memorandum on the Office for Public Sector Information website (www.opsi.gov.uk), and separately on the Department's website (www.culture.gov.uk).

### Giant's Causeway

**Mark Durkan:** To ask the Secretary of State for Culture, Media and Sport what his Department's responsibility is for ensuring the conformity of the planning application for a visitor's centre at Giant's Causeway with UNESCO's requirement for World Heritage status; what his Department's view is on whether the application is in conformity with that status; what representations his Department received on the matter *(a)* before and *(b)* after 10 September; what discussions his Department has had with (i) UNESCO and (ii) the Northern Ireland Executive on this matter; and if he will make a statement. [174578]

**Margaret Hodge:** My Department's responsibility for World Heritage issues is set out in the concordat with Northern Ireland reproduced as follows. This responsibility includes reporting to UNESCO on all UK World Heritage sites. Discussions on the planning application for a new visitor centre for the Giant's Causeway are still under way and it would be inappropriate to comment further at this stage.

My officials were contacted by DOENI officials on 10 September on which date DOENI officials also wrote to the World Heritage Centre. My officials have remained in contact to discuss details of the planning application process and the responsibilities of my Department as State Party signatory to the World Heritage Convention.

DCMS officials briefed World Heritage Centre officials in Paris on 15 October. My Department will send a report to the World Heritage Committee by the end of January 2008 for consideration by the World Heritage Committee at its meeting in July 2008.

I met the Northern Ireland Minister for Environment on 13 December.

*World Heritage Site Concordat with Northern Ireland*

World Heritage Sites: The Secretary of State for Culture, Media and Sport will be responsible for the UK Government's overall policy on World Heritage Sites and exercise a co-ordinating role in its relationship with UNESCO on this issue. Within this overall policy each of the devolved administrations will, however, continue to be responsible for identifying individual Sites within their territory, advising the UK Government on their suitability for nomination, and for dealing with issues which may arise about the proper management of those sites. DCMS will chair regular meetings to discuss World Heritage issues of mutual concern.

### Government Departments: Flags

**Mr. Hoban:** To ask the Secretary of State for Culture, Media and Sport what the cost has been of the review of the rules of flying the Union flag on Government buildings. [173680]

**Margaret Hodge:** No estimate has been made of the cost of the review of the arrangements for flying the Union Flag on UK Government buildings which was carried out in the normal course of the Department's business. The consultation document was produced internally and was published electronically on the Department's website www.culture.gov.uk. We also plan to publish the summary of responses electronically.

### Licensing

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport what assessment the Government have made of the effect of the introduction of late licensing on the work load of accident and emergency departments. [174827]

**Mr. Sutcliffe** *[holding answer 17 December 2007]:* The Department has seen no evidence that longer hours have been responsible for increases in alcohol related admissions. We understand that it is difficult to obtain accurate data as it is a subjective judgment as to whether alcohol is the cause of an accident or injury. However, research into violence related accident and emergency admissions last year concluded there had been a 2 per cent. drop and that licensing reform had not led to increases in violent crime in the night time economy.

**Mr. Ellwood:** To ask the Secretary of State for Culture, Media and Sport if he will take steps to reduce the bulk sale of alcohol from off-licences and supermarkets to young people in town centres. [174829]

**Mr. Sutcliffe** *[holding answer 17 December 2007]:* It is unlawful to sell alcohol to young people who are under 18. The last test purchase campaign showed that the failure rate among high risk premises had dropped to under 15 per cent. from a high point of 50 per cent and we are looking at what more can be done to drive home the message that sales to under 18s will not be tolerated.

The Government's Alcohol Strategy includes an independent review on the impact of price and promotion on specific alcohol harms in England. The findings are expected to be reported in summer 2008 and the review is expected to include any necessary recommendations for further actions to better protect young people.

### Members' Correspondence

**Mr. Harper:** To ask the Secretary of State for Culture, Media and Sport how many letters his Department received from hon. Members and Peers in each session of Parliament since 1997. [174939]

**Mr. Sutcliffe:** The Department does not hold this information in the format requested, and to provide it would incur disproportionate cost. Some of the information required can be found in DCMS annual reports, which can be found online at:

www.culture.gov.uk/Reference_library/Annual_Reports/

In addition, the Cabinet Office announces to Parliament details of correspondence performance on an annual basis. The report for 2006 was published on 28 March 2007, *Official Report*, columns 101-04WS. The report for 2005 was published on 30 March 2006, *Official Report*, columns 75-78WS.

### Museums and Galleries: Visits

**Mr. Boris Johnson:** To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the number of *(a)* (i) UK and (ii) London residents, broken down by socioeconomic group and *(b)* non-UK residents who visited (1) museums and (2) art galleries in London in each of the last eight years. [169811]

**Margaret Hodge:** *(a)* (i) (1) The number of visits to DCMS sponsored museums in London in millions.

| | *1999-2000* | *2000-01* | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|---|---|---|
| UK residents | 7.91 | 11.92 | 12.27 | 14.94 | 16.39 | 17.02 | 15.68 | 17.57 |
| Adult UK residents from lower socioeconomic groups | n/a | n/a | n/a | 3.77 | 3.96 | 4.31 | 2.85 | 2.82 |

(2) The number of visits to DCMS sponsored art galleries in London in millions

| | *1999-2000* | *2000-01* | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|---|---|---|
| UK residents | 7.91 | 11.92 | 12.27 | 14.94 | 16.39 | 17.02 | 15.68 | 17.57 |
| Adult UK residents from lower socioeconomic groups | n/a | n/a | n/a | 1.05 | 1.25 | 1.52 | 1.15 | 1.52 |

These figures may contain some visits to museums and art galleries outside London as it is not always possible to disaggregate the data where institutions have branches both in and outside London. The Department holds a single aggregated figure for lower socio-economic groups only and did not collect these data prior to 2002-03. From 2006-07 onwards, socio-economic classification is measured using the National Statistics Socio-economic Classification. Figures prior to 2005-06 may include children.

*(a)* (ii) Figures for the number of visits made to London museums and art galleries by London residents are not held by this Department. However, the 2005-06 Taking Part survey carried out by this Department showed that 30 per cent. of respondents from lower socio-economic groups living in London had visited a museum or gallery at least once in the last year, compared to 28 per cent. of respondents from the same groups who live elsewhere in England. In addition, 61 per cent. of respondents from the higher socio-economic groups living in London had visited a museum or gallery, compared to 50 per cent. of respondents from the same groups in the rest of the country.

*(b)* The number of visits by all non-UK residents to DCMS sponsored (1) museums and (2) art galleries in London in millions

| | *1999-2000* | *2000-01* | *2001-02* | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|---|---|---|
| Museums | 3.48 | 3.26 | 6.64 | 6.22 | 7.01 | 8.96 | 8.57 | 8.84 |
| Art galleries | 3.51 | 3.49 | 4.74 | 4.21 | 4.23 | 4.61 | 4.06 | 4.35 |

These figures may contain some visits to museums and art galleries outside London. Figures on the number of UK residents, London residents and overseas residents that visit all museums and art galleries in London each year are not available.

## New Opportunities Fund: Sports

**Mr. Don Foster:** To ask the Secretary of State for Culture, Media and Sport how many awards were made from the New Opportunities Fund for physical education and sport in *(a)* 2005-06, *(b)* 2006-07; how many have been made in 2007-08; and what the value was of such awards. [173782]

**Mr. Sutcliffe:** The following table gives the number and value of new awards made in the three years requested. It also gives the number of awards receiving their final payment within the financial year specified, excluding grants that have not yet closed which have received or are receiving payments. The tables use data provided by the Big Lottery Fund.

| | *Number of new awards* | *Value of awards (£ million)* | *Awards receiving their final payment within the financial year* | *Value of payments (£ million)* |
|---|---|---|---|---|
| 2005-06 | 169 | 46.1 | 211 | 250.2 |
| 2006-07 | 4 | 0.4 | 378 | 225.8 |
| 2007-08 (to date) | 0 | 0 | 384 | 90.8 |

## Olympic Games 2012

**Hugh Robertson:** To ask the Secretary of State for Culture, Media and Sport what projects will be funded from the £290 million allocated to elite and community sport in the Olympic budget. [174027]

**James Purnell** *[holding answer 13 December 2007]:* The Home Country Sports Councils will determine how this money is spent on support for elite athletes and coaches, facilities for elite and community use, and community programmes.

The breakdown of expenditure anticipated by Sport England from 2004-05 to 2008-09, as provided to my Department in the summer 2006, is set out in the table. This includes £50.5 million towards the costs of the Aquatics Centre and Velopark at the Olympic Park.

| *England* | *£ million* |
|---|---|
| Elite | 48.6 |
| Facilities | 63.3 |
| Community | 183.0 |
| Total | 294.9 |

## Olympic Games 2012: Culture

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport what recent assessment he has made of the likely effect the London 2012 Olympic Games will have on levels of participation in cultural activities; and over what period. [172079]

**Mr. Sutcliffe:** The Cultural Olympiad is a key part of the London 2012 Olympic and Paralympic Games. My department is working with the London Organising Committee for the Olympic and Paralympic Games (LOCOG) to develop a programme of cultural events which aim to inspire a new generation of young people to participate in cultural activities.

As this programme develops, consideration will be given to the impact of the programme including the number of people likely to participate in the Cultural Olympiad. LOCOG aims to measure the success of the Games in terms of three core values—adopted following LOCOG's extensive public consultation in the creation of the framework for the Cultural Olympiad. These values are: Celebrating London and the whole of the UK welcoming the world; Inspiring and involving young people and Generating a positive legacy.

## People's £50 Million Lottery

**Mr. Hunt:** To ask the Secretary of State for Culture, Media and Sport how much was spent on the bidding process for funds from the People's £50 Million Lottery, broken down by proposed project. [175395]

**James Purnell:** No funds were allocated to any of the 33 projects that applied to the People's Millions programme, other than the development funding allocated to the six projects that progressed to Stage 2 of the application process.

The projects received development funding designed to meet the costs incurred in developing their projects to meet the stage 2 application requirements of the People's Millions programme. The money was used to pay for the project summary against the programme priorities, business plan, stakeholder management plan, feasibility study, project execution plan, detailed costs plans, funding strategy, risk register and management plan, detailed design brief, outline design, procurement strategy and planning consent.

Development funding was one of the unique features of the People's Millions. It was put in place to provide applicants with the necessary support to develop their plans. The intention was that, where projects were not successful they would, as a result of the development funding, be in a much improved position to seek funding from other sources because their project had progressed further.

Following is the breakdown of the individual projects development funding:

| | *Received (£)* |
|---|---|
| Black Country Consortium Ltd.: A Million People—Black Country as an Urban Park | 499,939 |
| Eden Project: The Edge | 500,000 |
| Nottingham county council: Sherwood Forest—The Living Legend | 500,000 |
| Sustrans: Connect 2 | 500,000 |
| Somerset county council: Waterlinks | 500,000 |
| The board of trustees of the Science Museum: Inspired | 500,000 |

## Portable Antiquities Scheme

**Mr. Dismore:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect of the Museums, Libraries and Archives Council's proposal not to increase the funding of the Portable Antiquities Scheme on reporting of finds; and if he will make a statement. [175278]

**Margaret Hodge:** The Portable Antiquities Scheme (PAS) is funded by the Museums, Libraries and Archives Council (MLA) and so any decisions on its future funding are a matter for the MLA.

The MLA intends to maintain current levels of support for 2008-09, while considering options for future funding in the context of wider priorities for museum collections and public participation. It is for the MLA and PAS to determine how best to use the resources available.

**Mr. Dismore:** To ask the Secretary of State for Culture, Media and Sport what assessment he has made of the effect on the number of jobs at the Portable Antiquities Scheme (PAS) of the plans of the Museums, Libraries and Archives Council not to increase the PAS's funding. [175279]

**Margaret Hodge:** I have made no assessment of the effect on the number of jobs at the Portable Antiquities Scheme (PAS) of the plans of the Museums, Libraries and Archives Council (MLA) to maintain funding for PAS next year at its current level. The PAS is funded by the MLA and so any decisions on its future funding are a matter for the MLA. The MLA intends to maintain current levels of support for 2008-09, while considering options for future funding in the context of wider priorities for museum collections and public participation.

## Sport

**Mr. Hancock:** To ask the Secretary of State for Culture, Media and Sport what criteria are used to determine whether an activity constitutes a sport; and if he will make a statement. [174644]

**Mr. Sutcliffe:** Sport England's criteria for funding sport, under the Government's current Public Service Agreement (PSA 3), recognises those sports and moderate intensity physical activities which have positive health and wider social benefits.

Sport England is currently developing a new strategy to build a world class community sports infrastructure for 2008-11. As part of this work, it is considering what activities should fall within its remit to fund sport.

### Television: Licensing

**Jo Swinson:** To ask the Secretary of State for Culture, Media and Sport if he will extend the television licence fee concessionary scheme to refuge centres that shelter women and children from domestic violence. [172682]

**James Purnell** *[holding answer 10 December 2007]:* I refer the hon. Member to the answer given to her by my right hon. Friend the Member for St. Helens, South (Mr. Woodward) on 9 October 2006, *Official Report*, column 45W.

### Tourism

**Mr. Dodds:** To ask the Secretary of State for Culture, Media and Sport what estimate he has made of the expected number of foreign tourists coming to the UK in each year until 2013; and what proportion he estimates will be directly related to the Olympics. [174909]

**Margaret Hodge:** VisitBritain's latest forecasts are that the numbers of inbound visitors to the UK will be 31.7 million for 2007, and 32.3 million for 2008. The proportions of these totals which represent Olympic-related visitors are negligible for these years, at this stage of the preparations for the London games.

VisitBritain advises DCMS that numerical forecasts for later years, based on average international growth rates, are not reliable. This is due to the variety of factors which affect visitor levels to particular countries. DCMS agrees with that position.

Olympic-related visitor growth rates were projected in The Value of the Olympic and Paralympic Games to UK Tourism, a study jointly commissioned by VisitBritain and Visit London in September 2007. The study projects Olympic-related increases and decreases in total visitor numbers to the UK as follows:

| | *Percentage* |
|---|---|
| 2011 | -1.0 |
| 2012 | +3.0 |
| 2013 | +1.5 |
| 2014-17 | +1.0 a year |

## WORK AND PENSIONS

### Departmental Data Protection

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many electronic databases held by his Department contain *(a)* names, *(b)* addresses, *(c)* bank details and *(d)* other personal information of members of the general public; and when each such electronic database was created. [172329]

**Mrs. McGuire:** The Department does not record in its electronic databases personal information about members of the general public. Personal information, including names, addresses and bank details is only recorded in respect of customers of the Department. In particular, bank details are only recorded where this is required in order to process claims for benefit, make payments or carry out other financial transactions. The Department lawfully records personal data in many different types of electronic database. Details of these are not available centrally and could be obtained only at disproportionate cost.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions (1) how many security breaches regarding access to personal data have occurred within his Department in each year since 1997; [172330]

(2) how many staff have access to electronic databases held by his Department, which contain personal information on members of the general public, broken down by grade; [172331]

(3) how many times databases held by his Department, containing personal information on members of the general public have been accessed in each month for the last five years; [172332]

(4) what provisions his Department has in place to ensure that databases containing personal information on members of the general public are not accessed *(a)* by unauthorised steps and *(b)* for unauthorised purposes. [172334]

**Mr. Sanders:** To ask the Secretary of State for Work and Pensions what categories of claimants have their records protectively marked as supervisor access only by his Department. [171972]

**Mrs. McGuire:** I refer the hon. Member to the statement made by right hon. friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within departments and agencies for the storage and use of data. A statement on departments' procedures will be made on completion of the review.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions how many requests his Department has received from the National Audit Office for access to databases containing personal information on members of the general public in each year since 1997. [172333]

**Mrs. McGuire:** As required under the National Audit Office Act of 1983 and the Government Resources and Accounts Act 2000, the Department provides access to its records relating to the income, expenditure and liabilities appearing in the accounts. The National Audit Office has regular and routine access to all departmental records, including individual records which contain personal account data.

### Departmental Public Expenditure

**Mr. Philip Hammond:** To ask the Secretary of State for Work and Pensions if he will place in the Library a copy of the guidelines issued to staff maintaining his

Department's and its agencies' corporate identity; and what the estimated cost of *(a)* producing and *(b)* complying with such guidelines is. [170223]

**Mrs. McGuire:** The Department for Work and Pensions and its agencies has four sets of Corporate Identity; the Department for Work and Pensions, Jobcentre Plus, The Pension Service and the Child Support Agency. These guides are available to staff in electronic format copies have been placed in the House Library. The estimated total cost of producing these guidelines is £42,500.

Compliance with branding guidelines is the responsibility of all staff within the Department and as such providing an estimation of these costs across the Department can be made only at a disproportionate cost.

### Disabled Workers: Remploy

**Dr. Kumar:** To ask the Secretary of State for Work and Pensions what assessment he has made of the likely effects of the proposed Remploy restructuring on disabled workers in Teesside; what steps he plans to take to ensure the economic security of such workers; and if he will make a statement. [171858]

**Mrs. McGuire:** Remploy carried out a full equality impact assessment on the modernisation proposals. A full account of the assessment can be found on Remploy's website at www.remploy.co.uk and a copy is being placed in the House Library.

I have also given an assurance that there will be no compulsory redundancies for disabled employees and they can continue to enjoy their current terms and conditions with Remploy, as well as membership of the pension scheme.

During individual consultations, Remploy's disabled employees will be given a range of options, including a suitable alternative job, if they wish. The company will monitor the progress of those disabled people supported into jobs with mainstream employers, to ensure suitability and provide further support if necessary.

### Incapacity Benefit

**Anne Milton:** To ask the Secretary of State for Work and Pensions how his Department monitors the effectiveness of those medical assessments used in determining eligibility for incapacity benefit; in how many cases the outcomes of those medical assessments were appealed against in each of the last 10 years for which figures are available; and if he will make a statement. [165059]

**Mrs. McGuire:** The Department monitors the effectiveness of the medical assessments through the rigorous monitoring of performance against contractual targets and standards, covering a variety of aspects relating to throughput, quality and customer service. Information about appeals against the outcomes of medical assessments is in the following table.

*Appeals lodged against the incapacity benefit (IB) personal capability assessment (PCA)*

| | Number |
|---|---|
| 2000-01 | 40,770 |
| 2001-02 | 47,470 |
| 2002-03 | 53,130 |
| 2003-04 | 56,510 |
| 2004-05 | 54,580 |
| 2005-06 | 56,220 |

*Notes:*

1. All figures are subject to change as more up-to-date data become available.
2. Cases transferred on to the new appeals system G2 from 2006 may not have been updated on GAPS.
3. Figures are rounded to the nearest 10.
4. Totals may not sum due to rounding.
5. IB and PCA figures are only available from 2000 onwards.
6. Figures are not available after 2005-06 as data are not available from the G2 processing system.

*Source:*

100 per cent. download of the Generic Appeals Processing System (GAPS).

### Sick Leave: Arthritis

**Mr. Stephen O'Brien:** To ask the Secretary of State for Work and Pensions what estimate he has made of the number of working days lost due to rheumatoid arthritis in each of the last five years; and at what overall cost to the economy. [172906]

**Ann Keen:** I have been asked to reply.

We have made no estimate of the number of working days lost due to rheumatoid arthritis. Information on the overall cost to the economy of rheumatoid arthritis is not collected.

### Social Security Benefits: Personal Records

**Mr. Harper:** To ask the Secretary of State for Work and Pensions what categories of personal data relating to members of the public *(a)* his Department and *(b)* agencies of his Department hold. [167673]

**Mr. Heathcoat-Amory:** To ask the Secretary of State for Work and Pensions which agencies and organisations have access to personal data held by his Department or its agencies; and which agencies and organisations were provided with such data in each of the last two years. [167998]

**Mrs. McGuire** *[holding answer 26 November 2007]*: The categories of personal data relating to members of the public held by the Department and its agencies, and the organisations and other agencies that are provided with personal data by the Department, are set out in the Department's formal registration with the Information Commissioner, and available on the Commissioner's public website:

www.ico.gov.uk.

**Danny Alexander:** To ask the Secretary of State for Work and Pensions (1) what *(a)* procedures and *(b)* protocols govern the transfer of personal data by his Department to (i) other Government Departments, (ii) local authorities and (iii) Government agencies; [167679]

(2) on how many occasions CDs containing personal data of benefit recipients have been sent by his

Department to *(a)* other Government Departments, *(b)* agencies and *(c)* the National Audit Office in each of the last three years; and how many of those CDs were (i) encrypted and (ii) password protected. [167675]

**James Brokenshire:** To ask the Secretary of State for Work and Pensions what recent estimate he has made of the number of benefit recipients whose personal details have been misdirected or mislaid by his Department or may otherwise be at risk of becoming victims of identity fraud due to error or omission by his Department in the last five years; and if he will make a statement. [167544]

**Mr. Philip Hammond:** To ask the Secretary of State for Work and Pensions (1) what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if *(a)* his Department and *(b)* his Department's agencies will undertake a review of their compliance with data protection laws; [168071]

(2) on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before its transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168264]

(3) how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disc; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168286]

**Keith Vaz:** To ask the Secretary of State for Work and Pensions what procedures are in place in his Department to ensure that personal information relating to members of the public is *(a)* stored and *(b)* transported securely. [168461]

**Mr. Vara:** To ask the Secretary of State for Work and Pensions (1) on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years; [168821]

(2) how many breaches of data protection security there were in *(a)* his Department and *(b)* his Department's Agencies in each of the last five years; and if he will provide details of each breach. [168834]

**Tom Brake:** To ask the Secretary of State for Work and Pensions whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169381]

**Mr. Evans:** To ask the Secretary of State for Work and Pensions how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [170242]

**Mr. Harper:** To ask the Secretary of State for Work and Pensions (1) what *(a)* procedures and *(b)* safeguards his Department and its agencies have in place to ensure the secure storage and transfer of personal information about benefit claimants; [167670]

(2) what procedures his Department put in place on *(a)* dealing with requests by and *(b)* transferring personal data to (i) other Government Departments, (ii) public bodies and (iii) others. [167671]

**Mr. Walker:** To ask the Secretary of State for Work and Pensions whether his Department's information technology and data management systems are BS7799 compliant. [168737]

**Mr. Hayes:** To ask the Secretary of State for Work and Pensions what steps his Department has taken to protect the personal data on members of the public which it holds. [171422]

**Alistair Burt:** To ask the Secretary of State for Work and Pensions (1) what security breaches there have been at his Department's Newcastle office in relation to the personal data of those claiming benefits administered by local authorities; and if he will make a statement; [171238]

(2) what assessment he has made of the security of the data-sharing processes between local authorities and his Department; and whether any data have been compromised during such procedures in the last five years. [171240]

**Mrs. McGuire:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Social Services: Autism

**Mr. Harper:** To ask the Secretary of State for Work and Pensions what *(a)* guidance and *(b)* training is provided to social services staff dealing with people with autism. [173544]

**Mr. Ivan Lewis:** I have been asked to reply.

"Better services for people with an autistic spectrum disorder: A note clarifying current Government policy and describing good practice" was published on 16 November 2006. It clarifies the nature and intent of existing Government policy as it relates to adults with an Autistic Spectrum Disorder (ASD). This guidance is available to social services staff dealing with people with autism. A copy is available in the Library.

It is for local authorities to provide training and guidance for social services staff, taking into consideration locally identified needs and priorities, and assessments of individuals.

### State Retirement Pensions: Females

**Steve Webb:** To ask the Secretary of State for Work and Pensions how many divorced women receive a state retirement pension; what estimate he has made of the number of these who have enhanced their pension by substituting the national insurance record of their ex-husband; by what means his Department informs divorced women of their right to make such a substitution for the period of their marriage; what assistance his Department gives to such women unable to supply their ex-husband's national insurance number; and if he will make a statement. [175487]

**Mr. Mike O'Brien:** Information on the numbers of divorced women in receipt of state pension is not available as information on marital status is not required for payment of benefit.

At the new claim stage if a claim form shows that a woman is divorced, and does not have 100 per cent. basic state pension in her own right, substitution is automatically considered, subject to establishing the ex-husband's national insurance record and details. The customer is notified of the award and how her state pension was calculated, including any substitution calculation.

If divorce occurs after the award of state pension, the customer should inform the Pension Service of her change of circumstances as advised on the entitlement notice. If appropriate a substitution calculation will be automatically considered.

If the customer is unable to provide the national insurance number for her ex-husband the Pension Service will try to trace the details using their name, date of birth and last known address. If this proves unsuccessful they write to the customer to inform her of the situation and to request any other information which could assist them. In the rare event that all tracing methods prove unsuccessful they would be unable to perform the substitution.

### State Retirement Pensions: Personal Records

**Mr. Wallace:** To ask the Secretary of State for Work and Pensions how many people in receipt of state pensions have had their personal data disclosed to third parties in error in the last two years. [172720]

**Mrs. McGuire:** I refer the hon. Member to the reply given to the hon. Member for Eastbourne (Mr. Waterson) on 15 March 2007, *Official Report*, column 517W.

In addition, there was an incident in July 2007, where 7,800 state pension customers were sent a cheque payment intended for another customer.

In each case, prompt action was taken to apologise, and replace cheques where appropriate so as to minimise the impact on these pensioners. The Information Commissioner was informed.

## TRANSPORT

### A14: Cambridge

**Mr. Stewart Jackson:** To ask the Secretary of State for Transport when she expects contractors to be appointed in relation to the upgrading of the A14 between Cambridge and Huntingdon; and if she will make a statement. [174391]

**Mr. Tom Harris:** The appointment of the contractors for the A14 Ellington to Fen Ditton improvement scheme is planned for early in the new year.

### A30: Bodmin

**Mrs. Villiers:** To ask the Secretary of State for Transport what work her Department is carrying out into the possibility of dualling the A30 between Temple and Bodmin. [174379]

**Mr. Tom Harris:** the Highways Agency is not currently working on any plans to improve this section of road as the South West region did not identify the scheme as a priority in their regional funding allocation advice.

We are planning to ask the regions in 2008 to look at their priorities again and come back and tell us whether those priorities have changed.

**Mrs. Villiers:** To ask the Secretary of State for Transport what assessment her Department has made of road safety on the A30 between Temple and Bodmin. [174380]

**Mr. Tom Harris:** The Highways Agency continually monitors safety on its roads with a view to implementing improvements as priority allows. The accident rate for this length of the A30 is slightly less than the national average for single carriageways. No accident cluster-sites have been identified within this length.

### A303: Public Participation

**Robert Key:** To ask the Secretary of State for Transport (1) what the total cost has been to her Department and its predecessors of all *(a)* public enquiries, *(b)* consultations, *(c)* consultancy fees, *(d)* public exhibitions, *(e)* information initiatives, *(f)* publicity and *(g)* other costs in connection with proposals to upgrade the A303(T) from Countess Road roundabout to west of Chicklade since 1986; [173997]

(2) what the total cost has been to her Department and its predecessors of *(a)* public enquiries, *(b)* consultations, *(c)* public information initiatives, *(d)* consultancy fees and *(e)* other costs incurred in connection with the A303(T) trunk road improvement project and the proposed new visitors' centre at Stonehenge since 1986. [174092]

**Mr. Tom Harris** *[holding answer 17 December 2007]*: The length of A303(T) from Countess Roundabout to west of Chicklade covers three potential major schemes: Stonehenge Improvement, Wylye to Stockton Wood Improvement and Chicklade Bottom to Mere Improvement.

It is not possible to allocate precise figures to the categories of expenditure the hon. Member requested because Highways Agency records are not broken down in that way, but in round terms, the total approximate cost of expenditure incurred since 1990 for public inquiries, consultation, consultancy fees, public exhibitions, information initiatives, publicity and other costs in connection with proposals to upgrade these schemes is £21.85 million.

The Stonehenge Visitor Centre proposal is a separate project led by English Heritage. The Highways Agency is therefore, unable to provide this cost information.

### A303: Stonehenge

**Mrs. Villiers:** To ask the Secretary of State for Transport what the estimated cost was of the proposed northern route to divert road traffic from Stonehenge. [174378]

**Mr. Tom Harris:** The estimated cost of the Northern Route option for improving the A303 past Stonehenge was £317 million, assuming a start of construction in 2010 and a forecast inflation rate of 4.5 per cent. per annum beyond a price base of 2006. This information is available in the Scheme Review—Stage 2 Report, published on the Department for Transport website.

**Mrs. Villiers:** To ask the Secretary of State for Transport what the cost has been to *(a)* her Department and *(b)* the Highways Agency of preparatory work on the A303 Stonehenge improvement scheme since July 2005. [174382]

**Mr. Tom Harris:** Since July 2005, the Department of Transport and the Highways Agency have incurred costs of £2.5 million in undertaking further work related to the A303 Stonehenge Improvement scheme. This figure excludes the time of departmental officials which cannot be separately identified.

### Airports

**Andrew Selous:** To ask the Secretary of State for Transport what plans she has to bring forward secondary legislation to make *(a)* Luton airport and *(b)* other airports designated airports. [174842]

**Jim Fitzpatrick:** The Independent Review of Airport Policing completed last year, concluded that the current system of designation of airports for police purposes was outdated and unfit for purpose. The Government fully accepted this finding. We are working with stakeholders to deliver a solution which ensures that airports and the police can work together to identify where a police presence might be required and how industry will pay for this. This will require a legislative solution.

### Airports: Heathrow

**Mr. Boris Johnson:** To ask the Secretary of State for Transport what assessment she has made of the likely economic effects of the proposed expansion of Heathrow on *(a)* BAA airlines and aviation-related industries, *(b)* businesses working on the expansion of the airport, *(c)* London residents and *(d)* people outside London. [171790]

**Jim Fitzpatrick:** The economic assessment of additional capacity at Heathrow is set out at Annex B of the consultation document 'Adding Capacity at Heathrow Airport' (November 2007). The current approach does not take into account the benefits to airlines of additional capacity over and above the welfare benefits to its passengers. It also excludes benefits to businesses working on the expansion of the airport.

The analysis suggests that a third runway at Heathrow would generate around £17.1 billion worth of economic benefits in terms of net present value. We have not separately quantified how the benefits are distributed between Londoners and people outside London.

**Mr. Boris Johnson:** To ask the Secretary of State for Transport whether the proposed Heathrow expansion would result in an increase in the number of night flights. [171804]

**Jim Fitzpatrick:** The existing night flights regime lasts until 2012. This provides for no increase in the number of movements and a gradual reduction in noise as quieter aircraft are introduced. Decisions on the night regime to apply beyond 2012 will be subject to separate consultation and do not depend on the capacity of runways.

### Aviation

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the contribution made to the UK economy by transit passengers using UK airports in the last period for which figures are available. [168666]

**Jim Fitzpatrick:** This information is not available.

### Aviation: Noise

**Mrs. Villiers:** To ask the Secretary of State for Transport what steps she is considering to improve the reliability of measurement of aircraft noise. [170697]

**Jim Fitzpatrick:** Annual aircraft noise contours—which connect points having the same average noise exposure—are produced for the Department by the Environmental Research and Consultancy Department (ERCD) of the Civil Aviation Authority. Contours are generated by a computer model validated against actual noise measurements in line with latest internationally recommended guidance.

Future predictions, such as the contours for various possible scenarios in the Adding Capacity at Heathrow airport consultation, rely on assumptions about the likely fleet mix and are therefore necessarily indicative. I am nevertheless satisfied that ERCD's noise modelling, whether historical or prospective, is reliable and robust.

## Aviation: Railways

**Mrs. Villiers:** To ask the Secretary of State for Transport what assessment she has made of the effect on the demand for domestic flights of constructing new high-speed rail lines in the UK. [170713]

**Mr. Tom Harris:** The Department has made no detailed quantitative assessment of the effect on the demand for domestic flights of constructing new high speed rail lines in the UK.

The Government recognise that rail can provide a useful alternative to air travel especially over shorter distances. But many domestic flights provide connections into the international network at airports such as Heathrow, providing benefits to the UK regions and helping to maintain UK competitiveness.

## Cars: Exhaust Emissions

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what steps the Government has taken to encourage more people to buy environmentally friendly cars since 1997. [170282]

**Jim Fitzpatrick:** Incentives to encourage the purchase of cleaner vehicles include:

Vehicle Excise Duty, which is graduated according to a car's $CO_2$ emissions;

Company Car Tax, which is also geared to $CO_2$ emissions;

and

the cost of fuel.

These incentives relate to running costs rather than purchase cost but they have a direct effect as considerations when purchasing a vehicle. In March 2007 the Department for Transport launched the Act On $CO_2$ communications campaign providing information to consumers on purchasing new cars including the 'Best on $CO_2$' top 10 rankings in association with What Car? This reinforces the introduction of more informative labelling in car showrooms in 2005.

## Christmas

**Malcolm Bruce:** To ask the Secretary of State for Transport whether it is her Department's policy to use *(a)* incandescent light bulbs and *(b)* LED lights for festive decorations on departmental premises. [173494]

**Jim Fitzpatrick:** The Department for Transport has no specific policy on this matter. However, where use is permitted all such items must be subject to portable appliance testing. In addition, items must be fixed securely, switched off overnight and should not have trailing wires.

## Crossrail Line

**Mrs. Villiers:** To ask the Secretary of State for Transport what effect the decision to fund Crossrail has had on the status of other *(a)* road and *(b)* rail projects. [163301]

**Mr. Tom Harris:** Crossrail has formed a key element of the Department for Transport's infrastructure investment plans for several years. As such, confirmation of the funding package has not affected plans in other areas.

## Crossrail Line: Maidenhead

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the cost of extending Crossrail from Maidenhead to Reading; whether the upgrade of Reading station has had an effect on that cost; and what estimate she has made of the cost of adapting Maidenhead as the station at the end of the Crossrail line. [174384]

**Mr. Tom Harris:** The current capital cost estimate of extending Crossrail from Maidenhead to Reading is approximately £360 million in outturn prices.

The effect of the Reading upgrade project, which also includes re-signalling from Maidenhead to Reading, would be to reduce the cost of extending Crossrail to Maidenhead by approximately £50 million in outturn prices. The vast majority of that cost reduction would stem from the re-signalling works; only a small part of it relates to works at Reading station itself.

The current capital cost estimate of the Crossrail works at Maidenhead station is approximately £70 million in outturn prices.

## Cycling

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what action the Government have taken to encourage more people to ride bicycles to work since 1997. [170283]

**Ms Rosie Winterton:** The Government remain firmly committed to increasing cycling as it is a healthy, environmentally friendly transport mode.

We have taken many initiatives to encourage increases in cycling including some specific measures to increase cycling to work since 1997. These include encouraging local authorities who are responsible for the roads on which most cycling takes place to develop local cycling strategies and improved cycle networks through increased Local Transport Plan settlements. Local authorities outside London increased their spend on cycling, from £29.5 million in 2001-02 to £36 million in 2005-06. A report for Cycling England in 2004 showed over 80 per cent. of local authorities had improved their performance in providing facilities for cyclists.

We have doubled Cycling England's budget to £10 million last year and launched the new national cycle training standard in England 'Bikeability'.

Cycling England have established the six cycling demonstration towns and many of them are working with employers to encourage cycling to work.

Employers also have a part to pay in encouraging their staff to cycle to work. Secure cycle parking, showers and changing facilities can support Government initiatives such as the group consumer credit licence we have made available to all UK businesses to enable employers to purchase cycles for their employees to cycle to work and take advantage of tax savings. Around 70,000 people are already participating in the scheme.

### Departmental Aviation

**Mr. Hayes:** To ask the Secretary of State for Transport how much her Department spent on *(a)* business and *(b)* first class air travel in the last 12 months. [171252]

**Jim Fitzpatrick:** The Department for Transport (central) and five of its agencies currently do not record travel expenditure by class of travel. The information could be provided only at disproportionate cost.

The two agencies which do record this information between them spent £12,291 on Business Class air travel and nothing on First Class air travel in the last 12 months.

**Mr. Hayes:** To ask the Secretary of State for Transport how much has been spent by her Department on international flights in each year since it was established. [174353]

**Jim Fitzpatrick:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the ministerial code.

Information in respect of flights taken by officials could be provided only at disproportionate cost.

**Chris Huhne:** To ask the Secretary of State for Transport (1) how many air miles were travelled by Ministers in her Department in each year since 2000; and what estimate she has made of the total amount of carbon dioxide emissions produced as a result; [172266]

(2) how many air miles were travelled by *(a)* the Secretary of State and *(b)* Ministers in her Department on short haul flights over the last year; and what estimate she has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172453]

**Jim Fitzpatrick:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code"

.

All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

### Departmental Disclosure of Information

**Mrs. Villiers:** To ask the Secretary of State for Transport what data her Department *(a)* shares, *(b)* is in discussion to share and *(c)* has been approached in the last 12 months to share with other Government Departments; and which Departments have requested information. [163299]

**Jim Fitzpatrick:** The Department for Transport takes the issues of privacy and data security extremely seriously, and keeps its policies on data sharing under active review.

*The Department for Transport shares the following main categories of data with Government Departments (for reasons of national security, some data may not be included):*

Driver details (as it appears on the driving licence); Vehicle registration details (including vehicle keeper data); Personal data of property owners who might claim compensation payments when highways schemes are developed, Driver trainer details; Driving applicant details including test results; Type approval data (e.g. vehicle type, subject approval, manufacturers details, enforcement reports); Names of departmental and DfT stakeholder contact details for both work and out of hours; Defence and Civil Contingency Planning; Hydrographic data of UK seabed; Automatic Identification System for ships (AIS) including Vessel details; Seafarer data and statistics; Maritime vessels using Halon; UK Ships Register; Shipping company and vessel details for Tonnage Tax (e.g. vessel name, flag state, vessel IMO number, training commitment).

*The Department has arrangements to share the aforementioned categories of data as applicable and relevant with specific Government Departments in the following list (again, for reasons of national security, some data may not be included):*

Cabinet Office
Crown Prosecution Service
Department for Business Enterprise and Regulatory Reform
Department for Children Schools and Families
Department for Environment Food and Rural Affairs
Department of Health
Department for Work and Pensions
Foreign and Commonwealth Office
Forestry Commission
Her Majesty's Revenue and Customs
Home Office
Ministry of Defence
Ministry of Justice

Some data sharing also relates directly to the fact that Departments are also employers. As such, they will pass on personal data to Her Majesty's Revenue and Customs for tax collection purposes; when one of their employees moves to another Government Department, they may also pass personal information on to that Department; they also pass on to the Office of National Statistics the results of human resources statistical surveys. Some staff contact details are shared through the Government Secure Intranet directory.

The Department also gathers and produces a large amount of non-personal statistical data on travel and transport, and these are published on the DfT website.

The Department may have responded to other one off requests in the last 12 months for particular data from other Departments. These are dealt with on a case by case basis in the light of the legal requirements and any relevant policy considerations.

The Department for Transport is having ongoing discussions with other Government Departments such as the Home Office, Ministry of Justice and Department for Work and Pensions on how to further advance the Service Transformation Programme (December 2006) and the Government Vision for Information Sharing (September 2006).

Finally, I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review. An interim progress report on the review was published on 17 December 2007, *Official Report*, column 98WS by the Cabinet Office through a written ministerial statement. I also refer the hon. Member to the statement of 17 December 2007, *Official Report*, columns 626-6 by my right hon. Friend the Secretary of State on measures to improve the security of personal data.

### Departmental Parliamentary Questions

**Mr. Harper:** To ask the Secretary of State for Transport how many staff work in her Department's parliamentary branch; and what proportion of their time is spent on dealing with *(a)* Parliamentary Questions and *(b)* correspondence from hon. Members and Peers. [174960]

**Jim Fitzpatrick:** There are 13 members of staff in the ministerial support unit and parliamentary branch at the Department for Transport. Of these, three spend 90 per cent. of their time dealing with parliamentary questions and eight spend approximately 80 per cent. of their time dealing with correspondence from hon. Members and peers.

### Departmental Pay

**Mr. Philip Hammond:** To ask the Secretary of State for Transport how much her Department and its agencies spent on end-of-year bonus payments in each of the last five years. [171537]

**Jim Fitzpatrick:** The following table demonstrates how much the Department and its Agencies have spent in the last three years on end of year bonus payments. We have interpreted these to be performance related pay bonuses which are paid in line with Government policy.

Figures prior to 2004-05 can be produced only at disproportionate costs.

| | £ |
|---|---|
| 2004-05 | 1,742,136 |
| 2005-06 | 6,872,430 |
| 2006-07 | 9,948,684 |

*Note:*

These figures exclude: GCDA and DVLA in 2004/05. GCDA only became an agency in 2005 and figures for DVLA in 2004-05 are not available; and VOSA as bonus payment data can be supplied only at disproportionate cost.

### Departmental Public Buildings

**Andrew Stunell:** To ask the Secretary of State for Transport what percentage of new buildings approved by her Department were built to the Building Research Establishment Environmental Assessment Method *(a)* very good and *(b)* excellent standard in each of the last five years; and what the construction cost of those buildings was. [172294]

**Jim Fitzpatrick** *[holding answer 10 December 2007]*: The following data are representative of the new build projects undertaken by the Department for Transport over the last five years.

| | *Build projects* | *BREEAM rating* | *Construction cost (£ million)* |
|---|---|---|---|
| 2003 | 2 | 2 x very good | 5.3 |
| 2004 | 3 | [1]— | 13 |
| 2005 | 1 | 1 x very good | 2.4 |
| 2006 | 1 | 1 x excellent | 13.5 |
| 2007 | 9 | 8 x excellent, 1 x very good | 38.2 |

[1] No assessments undertaken

### Departmental Railway Travel

**Mr. Hayes:** To ask the Secretary of State for Transport how much was spent by her Department on first class train tickets in the last 12 months. [171265]

**Jim Fitzpatrick:** The Department for Transport and five of its agencies do not record rail travel expenditure by class of travel. The information could be provided only at disproportionate cost.

The two agencies which do record this information between them spent £2,236,283 on first class rail travel in the last 12 months.

### Driving Under Influence

**Angus Robertson:** To ask the Secretary of State for Transport what steps the Government are taking to reduce the incidence of drink-driving on UK roads. [175042]

**Jim Fitzpatrick:** The Government are committed to reducing drinking and driving through a combination of effective law enforcement, maintenance of a tough penalties regime and continuing investment in high-profile national publicity campaigns.

We have already given the police new powers to carry out evidential roadside breath testing, subject to type approval of appropriate equipment. This is supported by a number of other measures in the Road Safety Act 2006 which are designed to deter drink driving and reduce reoffending.

These include enabling powers to require serious, including repeat, offenders to retake the driving test at the end of their period of disqualification; to improve the operation of the drink drive rehabilitation scheme; to close certain loopholes in the law relating to high risk offenders; and to establish a statutory alcohol ignition interlock programme.

We have recently launched the THINK! 2007 Christmas drink drive publicity campaign which is running in parallel with the seasonal police enforcement campaign. This is a multi-media campaign based around the Moment of Doubt commercial launched this summer, which emphasises the very serious consequences of being convicted for drink driving and provides a powerful deterrent message for potential drink drivers.

We also intend to consult widely on further measures for tackling drink driving, including ways of making police enforcement easier, and are aiming to publish a consultation paper in the early part of 2008.

### Highways Agency

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what the average pay increase proposed for the Highways Agency's traffic officers in the 2007 pay round is; and what the retail price index inflation rate at the end of the 2006-07 pay year was. [173610]

**Mr. Tom Harris:** The Highways Agency is proposing an increase of 5 per cent. for the control room operators and 3.5 per cent. for the on-road traffic officers. The retail price index inflation rate for July 2007 was 3.8 per cent. and the consumer price index rate, which is used by Government, was 1.9 per cent.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what assessment she has made of the morale of traffic officers within the Highways Agency; and if she will make a statement. [173613]

**Mr. Tom Harris:** The last agency staff survey in December 2006 did not ask a specific question about morale in the traffic officer service.

However the survey did ask the question "How satisfied are you with the Highways Agency as a place to work?". The figures in response to this question were— 65 per cent. of traffic officers gave a positive response to the question, while 15 per cent. gave a negative response. 20 per cent. were neither satisfied or dissatisfied.

**Mrs. Dunwoody:** To ask the Secretary of State for Transport what percentage of *(a)* traffic officers and *(b)* other Highways Agency staff expressed confidence in the agency board in the last staff survey. [173614]

**Mr. Tom Harris:** The last Highways Agency staff survey in December 2006 did not include a question about confidence in the Agency's board.

### London Bridge Station: Repairs and Maintenance

**Mrs. Villiers:** To ask the Secretary of State for Transport what steps she is taking to ensure co-ordination of the upgrade work on London Bridge station and Thameslink in order to minimise disruption to passengers. [174320]

**Mr. Tom Harris:** The upgrade of London Bridge station is part of the Thameslink programme. Network Rail has set up a dedicated project team to deliver the necessary infrastructure enhancements, and will be working closely with train operating companies, TfL, and passenger groups to ensure that disruption to passengers is minimised.

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the cost of upgrading London Bridge station. [174322]

**Mr. Tom Harris:** The upgrade to London Bridge station forms part of the Thameslink programme, which will be delivered by Network Rail. Construction costs for London Bridge are expected to be around £400 million. There are also management and compensation costs which apply to the Thameslink programme as a whole and which are not allocated to individual elements of the project.

**Mrs. Villiers:** To ask the Secretary of State for Transport when she expects the upgrade of London Bridge station to start; how long she estimates the upgrade to take; and if she will place in the Library the contracts that have been let in relation to the upgrade. [174383]

**Mr. Tom Harris:** The works at London Bridge will be delivered by Network Rail, whose current programme shows that preliminary work will start in 2011, substantive works will start after the London Olympics, and the station works will complete during 2015.

All contracts regarding the upgrade of London Bridge station have been managed and let by Network Rail (and its predecessor organisation Railtrack). As Network Rail is not a public body it is not possible to place any contracts in the Library.

### Metronet

**Harry Cohen:** To ask the Secretary of State for Transport when she expects to be in a position to estimate public sector financial impacts of Metronet not fulfilling its contract on the London Underground; and what her policy is on the timetable for considering proposals on tackling such impacts. [170014]

**Ms Rosie Winterton:** The comprehensive spending review 2007 settlement sets out the expected levels of Transport for London grant and borrowing to 2017-18 and makes provision for costs arising from Metronet's administration. It is now for Transport for London to manage their costs and priorities within their overall financial envelope.

### Network Grant New: Wales

**Adam Price:** To ask the Secretary of State for Transport what estimated proportion of the budget for Network Grant New is to be spent in Wales in 2007-08. [168362]

**Mr. Tom Harris:** Government direct grants to Network Rail (NR) are not allocated to the company on a regional or territorial basis. However, historic expenditure by NR on rail infrastructure on a route by route basis, including those parts of the network in Wales, are published in NR's Annual Return which is available on their website at:

www.networkrail.co.uk.

### Network Rail: Cost Effectiveness

**Mrs. Villiers:** To ask the Secretary of State for Transport what funds will accrue to her Department as a result of any cost efficiencies achieved by Network Rail. [164634]

**Mr. Tom Harris:** No funds will accrue to the Department. Any Network Rail efficiency savings in excess of those required by the Office of Rail Regulation in setting Network Rail's income are re-invested by the company in the railway or used to reduce its debt.

### Public Transport: Elderly

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what steps the Government have taken to increase accessibility of public transport for elderly and disabled people. [174162]

**Ms Rosie Winterton:** There has been significant progress in making public transport accessible to elderly and disabled people through regulations made under the Disability Discrimination Act 1995. For a number of years all new buses, coaches and trains have had to meet accessibility standards and 58 per cent. of buses and over 40 per cent. of trains now do so. The entire national fleet of buses must meet accessibility standards by 2017, and trains by 2020.

We have made available £370 million to Network Rail to improve station accessibility by 2015, with over 90 stations already identified for improvement by 2011.

In December 2006 we extended civil rights to disabled people so that they can expect to be treated fairly and without discrimination when using land-based public transport. We have also been working at the international level to improve accessibility to air transport.

As well as physical accessibility, we are addressing elderly and disabled peoples' concerns by improving concessionary fares provision. Since 1 April 2006, people aged 60 and over and disabled people have been entitled to free bus travel within their local authority area from 9.30 am Monday to Friday and all day at weekends. The statutory minimum concession will be extended to allow free off-peak travel on local buses anywhere in England from 1 April 2008.

### Public Transport: Safety Measures

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what steps the Government have taken to improve passenger safety on public transport since 1997. [174161]

**Ms Rosie Winterton:** The Government, the transport industry, local authorities and others are investing in and undertaking wide-ranging initiatives to improve the personal security of transport staff and passengers.

Since 1997, the Government have developed and introduced the Secure Stations Scheme, which is designed to improve personal security at overground and underground rail stations. Guidance has also been issued to the rail industry on how to improve personal security on trains.

The Safer Travel on buses and coaches Panel (STOP) was set up in 2002. The panel is currently working on an update to earlier guidance it has produced, in the form of a toolkit that will help local authorities and operators tackle antisocial behaviour on buses.

A range of good practice guidance has been produced to interested parties who are involved in reducing crime and the fear of crime on the public transport system. This includes guidance on how best to use the legal system, and a guide to protecting bus and coach crews. We are also continuing to encourage Crime and Disorder Reduction Partnerships (CDRPs) to help tackle crime committed on public transport.

### Railway Track

**Mrs. Villiers:** To ask the Secretary of State for Transport further to the answer of 26 November 2007, *Official Report*, column 20W, on railway track, which 13 properties BRBR have disposed of which contain disused railway lines. [174321]

**Mr. Tom Harris:** The locations of the properties in question, along with details of the purchaser are as follows.

| *Property* | *Note* |
|---|---|
| Awre (Gloucs) | Auction |
| Brize Norton | Sale to Sustrans |
| Cassington (Oxon) | Sale to Sustrans |
| Collyhurst (Manchester) | Auction |
| Cranmore | Sale to East Somerset Railway |
| Dalston (London) | Auction |
| Darite (Cornwall) | Sale to Sustrans |
| Greetland (W. Yorks) | Auction |
| Lechlade | Sale to Sustrans |
| Montrose | Auction |
| Paisley | Sale to adjoining owner |
| Sennybridge (Powys) | Auction |
| Ynysybwl (South Wales) | Sale to Sustrans |

### Railways: Reading

**Mrs. Villiers:** To ask the Secretary of State for Transport what estimate she has made of the cost of electrification of the railway between Reading and Maidenhead. [174377]

**Mr. Tom Harris:** The Rail Safety and Standards Board (RSSB) has carried out a study of the costs and benefits of electrification, including the Great Western Main Line. Although Reading to Maidenhead was not estimated separately, a cost in the order of £50-£70 million could be expected for this section of route on the basis of the rates used.

### Railways: Standards

**Mr. Hancock:** To ask the Secretary of State for Transport pursuant to the answer of 11 December 2007, *Official Report*, column 430W, on railways: standards, how many passengers provided feedback to the ergonomic study relating to *(a)* medical matters and *(b)* comfort; and how the customer feedback was obtained. [175153]

**Mr. Tom Harris:** The ergonomic study was carried out by Stagecoach South Western Trains Ltd. The hon. Member should direct his inquiry to:

Stewart Plamer, Esq.
Managing Director
Stagecoach South Western Ltd.
Friars Bridge Court
41-45 Blackfrairs Road
London
SE1 8NZ

### Roads: Accidents

**Mr. Burns:** To ask the Secretary of State for Transport what percentage of road traffic accidents in West Chelmsford constituency resulted from *(a)* speeding, *(b)* excessive alcohol consumption and *(c)* drug abuse in each of the last three years. [174334]

**Jim Fitzpatrick:** The information requested is not available at constituency level.

**Tim Farron:** To ask the Secretary of State for Transport what plans she has to reduce the incidence of road deaths and serious injuries arising from road traffic accidents among young people in Cumbria. [175364]

**Jim Fitzpatrick:** The Government announced in February, the intention fundamentally to review the driver testing and training system with the aim of improving the way driving is taught and assessed as part of the Government's effort to reduce all road casualties. Work continues to inform this and we plan to consult publicly as soon as practicable.

The Department continues to campaign on road safety issues relevant to young drivers. For example, we are running a Christmas drink-driving campaign based on new material launched this summer and we have revived an influential rear seat belt wearing TV commercial.

**Susan Kramer:** To ask the Secretary of State for Transport how many road traffic accidents there were *(a)* in total and *(b)* involving road freight on the (i) M1, (ii) M2, (iii) M6, (iv) M20, (v) M25, (vi) M60, (vii) M62, (viii) A14 and (ix) A1(M) in each of the last five years. [175484]

**Mr. Tom Harris:** The total number of road traffic accidents including the number involving road freight is not available.

The total number of road traffic accidents that have resulted in personal injury (PIAs) in each of the last five years and the number involving at least one heavy goods vehicle (HGV), that is a vehicle over 3.5 tonnes gross weight, on the M1, M2, M6, M20, M25, M60, M62, A1(M), A1, and A14 are shown in the following tables.

*All PIA accidents*

| *Road* | *M1* | *M2* | *M6* | *M20* | *M25* | *M60* | *M62* | *A1(M)* | *A1* | *A14* | *Total* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 2002 | 1,430 | 69 | 1,058 | 180 | 1,227 | 239 | 411 | 219 | 826 | 400 | 6,059 |
| 2003 | 1,403 | 91 | 993 | 189 | 1,136 | 233 | 482 | 189 | 838 | 383 | 5,937 |
| 2004 | 1,351 | 104 | 1,122 | 203 | 1,239 | 245 | 433 | 158 | 823 | 402 | 6,080 |
| 2005 | 1,333 | 90 | 1017 | 207 | 1,254 | 221 | 431 | 201 | 757 | 383 | 5,894 |
| 2006 | 1,146 | 89 | 961 | 210 | 1,083 | 245 | 411 | 282 | 680 | 334 | 5,441 |
| Total | 6,663 | 443 | 5,151 | 989 | 5,939 | 1,183 | 2,168 | 1,049 | 3,924 | 1,902 | 29,411 |

*HGV PIA accidents*

| *Road* | *M1* | *M2* | *M6* | *M20* | *M25* | *M60* | *M62* | *A1(M)* | *A1* | *A14* | *Total* |
|---|---|---|---|---|---|---|---|---|---|---|---|
| 2002 | 427 | 10 | 325 | 70 | 431 | 51 | 113 | 68 | 205 | 145 | 1,845 |
| 2003 | 387 | 21 | 349 | 81 | 417 | 74 | 140 | 55 | 179 | 121 | 1,824 |
| 2004 | 407 | 23 | 406 | 99 | 426 | 56 | 150 | 41 | 190 | 142 | 1,940 |
| 2005 | 386 | 13 | 361 | 68 | 479 | 59 | 107 | 51 | 160 | 141 | 1,825 |
| 2006 | 356 | 13 | 351 | 74 | 397 | 67 | 108 | 63 | 136 | 121 | 1,686 |
| Total | 1,963 | 80 | 1,792 | 392 | 2,150 | 307 | 618 | 278 | 870 | 670 | 9,120 |

**Susan Kramer:** To ask the Secretary of State for Transport how many road traffic accidents involving *(a)* cyclists, *(b)* pedestrians and *(c)* road freight occurred in England in each of the last five years, broken down by police authority area. [175486]

**Jim Fitzpatrick:** A table showing the number of reported personal injury road accidents involving *(a)* cyclists, *(b)* pedestrians and *(c)* goods vehicles that occurred in England in each of the last five years, broken down by police force area has been deposited in the Libraries of the House.

**Mr. Todd:** To ask the Secretary of State for Transport how many accidents there were involving Class 3 vehicles in each year since 2000. [175504]

**Jim Fitzpatrick:** The Department for Transport does not currently collect national data on the number of accidents involving class 3 vehicles. However, in 2006, the Department published research into the use of class two and three mobility scooters and powered wheelchairs. Based on the evidence gathered, the Department does not believe that class 3 vehicles have a significant impact upon road safety at this point in time but continues to monitor the situation.

### South West Trains

**Anne Milton:** To ask the Secretary of State for Transport what assessment her Department has made of changes in congestion on South West Trains rail services following the decision not to allow South West Trains use of old Eurostar platforms at Waterloo station; and if she will make a statement. [173279]

**Mr. Tom Harris:** A decision not to allow Stagecoach South Western Trains (SSWT) rail services to make use of Waterloo International terminal has not been made.

It is primarily the railway infrastructure outside Waterloo that limits the number of trains that can use the station rather than the number of platforms. Therefore the need is to run longer trains rather than more trains. So we are planning a large scheme to make all the platforms long enough to accommodate 10 and 12 car trains and to modify the junction layout on the approaches to the station. Such a scheme would allow the use of up to 50 per cent. longer trains than currently use the short platforms and would result in a large increase in capacity. The scheme also presents opportunities at Waterloo International to reconfigure the passenger circulation space and the interchange with other transport modes, and to better integrate the station into the surrounding area. Such an ambitious scheme requires very detailed planning to make the most of this unique opportunity.

In order to make the best use of the facility in the meantime, the Department is working closely with Network Rail and SSWT to finalise the design and costs of the partial conversion of Waterloo International to accommodate some domestic services. Therefore some services could use platform 20 of Waterloo International from the timetable change date in December 2008.

### Thameslink Railway Line: Consultants

**Mrs. Villiers:** To ask the Secretary of State for Transport how much her Department has spent on consultants for work relating to the Thameslink programme since 1998. [175405]

**Mr. Tom Harris:** Prior to July 2005, the Strategic Rail Authority managed the Thameslink project who spent approximately £5.9 million on consultants.

The Department took over the project from the SRA in July 2005, since when it has spent £1.3 million on consultants.

### Transport

**Mr. Jim Cunningham:** To ask the Secretary of State for Transport what steps the Government has taken to understand the travel *(a)* needs, *(b)* behaviour and *(c)* aspirations of each section of the community. [174163]

**Ms Rosie Winterton:** The Department for Transport's aim is transport that works for everyone. It is committed to understanding the transport needs of all social groups and has a wide-ranging programme of work to support this.

In June 2007, the Department published an evidence-based review on mobility, which looked at travel choices, behaviour and attitudes, as well as barriers to travel and measures to overcome barriers for different social groups, including children and young people, adults on low income, those living in rural areas, black and minority ethnic groups, women, disabled people and older people.

In November 2007, the Department also published two research reports looking at travel needs, behaviours and aspirations of older people and young adults.

These reports can be found on the Department for Transport's website.

Further research is also currently being undertaken on disabled people's travel needs, behaviours and aspirations.

### Transport for London: Finance

**Mr. Boris Johnson:** To ask the Secretary of State for Transport pursuant to the answer of 29 November 2007 to the hon. Member for Chipping Barnet, *Official Report*, columns 605-6W, on Transport for London: finance, what assessment she has made of the effect on the grant and borrowing totals in each year of the entry of Metronet into administration. [172074]

**Ms Rosie Winterton:** The comprehensive spending review 2007 settlement sets out the expected levels of Transport for London grant and borrowing to 2017-18 and makes provision for costs arising from Metronet's administration. It is now for Transport for London to manage their costs and priorities within their overall financial envelope.

### Woodhead Tunnel

**Norman Baker:** To ask the Secretary of State for Transport if she will delay any decision on whether to allow cables to be laid in the southerly Woodhead tunnel until the publication of the final Yorkshire and Humber Route Utilisation Strategy. [172361]

**Mr. Tom Harris:** The decision on whether to lay cables in the southerly Woodhead tunnel is a matter for National Grid, who owns the tunnel. National Grid's proposal would not preclude future consideration of reopening the route for rail use.

**Norman Baker:** To ask the Secretary of State for Transport for what reason the Woodhead tunnel was taken out of railway use. [172362]

**Mr. Tom Harris:** The Woodhead route was taken out of use in 1981. This was because of the significant decline in coal and other heavy freight movements across the Pennines and the fact that an alternative route with spare capacity was available between Sheffield and Manchester.

**Norman Baker:** To ask the Secretary of State for Transport what assessment she has made of the potential strategic significance of the Woodhead railway tunnel for improving transport links, with particular reference to targets for cutting carbon dioxide emissions. [172363]

**Mr. Tom Harris:** No assessment has been made of the potential strategic significance of the Woodhead route for transport uses. Additional capacity on trans-Pennine rail routes is being funded as part of the Government's £15 billion commitment to rail set out in the recent White Paper. The White Paper outlines the contribution rail is making towards reducing carbon dioxide emissions.

**Norman Baker:** To ask the Secretary of State for Transport whether she has conducted an appraisal of the *(a)* costs and benefits and *(b)* the value for money of reopening the Woodhead tunnel to rail freight against the building of the Mottram-Tintwistle bypass through the Peak District National Park. [172364]

**Mr. Tom Harris:** No appraisal has taken place on the costs and benefits of re-opening the Woodhead tunnel to rail freight in the context of the proposed Mottram-Tintwistle bypass. The need for a bypass is driven by regional and local road traffic and environmental factors.

**Norman Baker:** To ask the Secretary of State for Transport (1) if she will intervene to prevent National Grid from implementing any plans to utilise the Woodhead tunnel for power cables and other purposes which would prevent the tunnel being able to be used in future for rail. [172365]

(2) if she will commit to safeguarding the trans-Pennine rail route with particular reference to the Woodhead tunnel for future rail use. [172366]

**Mr. Tom Harris:** The decision on whether to lay cables in the southerly Woodhead tunnel is a matter for National Grid, who owns the tunnel. There is no case for the Secretary of State to intervene. National Grid's proposal would not preclude future consideration of reopening the route for rail use.

**Norman Baker:** To ask the Secretary of State for Transport what assessment she has made of the compatibility of the reopening of the Woodhead tunnel with the *(a)* Delivering a Sustainable Railway White Paper, *(b)* Towards a Sustainable Transport System paper and *(c)* Eddington transport study. [172367]

**Mr. Tom Harris:** The approach set out in Towards a Sustainable Transport System adopts many of the recommendations made by the Eddington transport study. Proposing a single solution, such as the re-opening of the Woodhead route, to a problem that has not been clearly identified is not compatible with the approach proposed in Towards a Sustainable Transport System or the Eddington report. The rail White Paper—Delivering a Sustainable Railway, published in July 2007 does not identify a need to re-open lines to deliver additional capacity.

**Mrs. Villiers:** To ask the Secretary of State for Transport whether she plans to convert any of the Woodhead tunnels to road use. [172984]

**Mr. Tom Harris** *[holding answer 10 December 2007]:* There are no plans to convert the Woodhead tunnels to road use.

## DEFENCE

### Afghanistan: Peacekeeping Operations

**Lembit Öpik:** To ask the Secretary of State for Defence what communications his Department has had with injured personnel who received their injuries during service in Afghanistan and Iraq since January 2001; and if he will make a statement. [168064]

**Derek Twigg:** From the point of wounding to discharge from medical care, the progress of all injured personnel is managed and monitored by the Defence Medical Services (DMS), to ensure that they receive appropriate treatment and care at every stage. Patients are kept informed of the progress of their treatment, and the likely course that it will take. Welfare staff and single service representatives also maintain the appropriate links between the patients and their home units when they are in hospital or receiving treatment elsewhere, such as at the Defence Medical Rehabilitation Centre, Headley Court.

For those who have left the armed forces we have, since the beginning of 2007, put in place arrangements for the Department's Veterans Welfare Service to monitor those discharged with a seriously disabling injury; this covers cases of both physical and psychological injury. While this monitoring is primarily focused on welfare matters, the service will identify relevant sources of assistance where there is a medical issue.

Finally, Ministers themselves often meet injured personnel and their families, both when visiting operational theatres, and in medical facilities back in the UK.

**Patrick Mercer:** To ask the Secretary of State for Defence how many *(a)* commanders and *(b)* foot soldiers surrendered to (i) the International Security Assistance Force and (ii) the Afghan National Army in each month during 2007. [172155]

**Des Browne:** The Ministry of Defence does not collect the information requested.

**Ann Winterton:** To ask the Secretary of State for Defence (1) who decided that details of the Musa Qaleh operation should not be released for reasons of operational security; [173960]

(2) what assessment he has made of whether the operational security of the Musa Qaleh operation was breached by the Sunday newspapers and by radio and television over the weekend of 8 and 9 December 2007. [173961]

**Des Browne:** It is MOD policy not to release details of future operations because this would, or would be likely to, prejudice the capability, effectiveness or security of the armed forces. Media reporting over the weekend 8 to 9 December did not prejudice the conduct of the Musa Qaleh operation.

### Armed Forces

**Mr. Jenkins:** To ask the Secretary of State for Defence (1) what the average length of service of serving soldiers is; [174662]

(2) what the average age of retirement for a soldier was in the last period for which figures are available. [174712]

**Derek Twigg:** The average length of reckonable service for a serving Regular Army soldier as at 1 March 2007 is nine years and two months.

The average age of retirement for a Regular Army soldier on completion of service, based on the soldiers completing service between 1 April 2006 to 28 February 2007, is 41 years and four months.

### Armed Forces: Cadets

**Anne Snelgrove:** To ask the Secretary of State for Defence what financial contribution his Department has made to the *(a)* Army, *(b)* Sea and *(c)* Air Cadets for each of the last five financial years. [169807]

**Derek Twigg:** The Ministry of Defence has made the following financial contribution to the various cadet forces over the last five financial years:

*£ million*

| *Financial year* | *Sea Cadets* | *Army Cadets* | *Air Cadets* |
|---|---|---|---|
| 2002-03 | 8.9 | 37.1 | 22 |
| 2003-04 | 8.6 | 37.1 | 25 |
| 2004-05 | 8.9 | 35 | 27 |
| 2005-06 | 9.6 | 39.2 | 28 |
| 2006-07 | 8.9 | 46.2 | 31 |

### Armed Forces: Health Services

**Mike Penning:** To ask the Secretary of State for Defence how many serving military personnel have been treated as in-patients by the National Health Service over the last 12 months for which figures are available; and what proportion of those admittances were the result of incidents and accidents on frontline deployments. [170590]

**Derek Twigg:** Statistics are not held in the form requested. However, the most recent assessment by the Defence Medical Services of the number of military in-patients being treated at UK NHS hospitals on a particular day (1 November 2007) showed that there were 23 service in-patients being treated in NHS hospitals hosting Ministry of Defence hospital units (MDHUs), and 19 in-patients being treated under the auspices of the Royal Centre for Defence Medicine (RCDM) at Birmingham hospitals. A small number of military in-patients will also have been treated at other NHS hospitals. The precise number in this category on a particular day is not recorded centrally, and could be provided only at disproportionate cost. We assess from earlier data collection that around a further 15 to 25 service personnel are treated as in-patients in NHS hospitals on a typical day, in addition to those in the hospitals hosting the RCDM and MDHUs.

**Richard Younger-Ross:** To ask the Secretary of State for Defence how many former servicemen and women are in care homes funded by his Department; and what his Department spent on this in 2006-07. [172891]

**Derek Twigg:** There are 70 war pensioners in care homes whose nursing care is funded by the Ministry of Defence. £3.03 million was spent funding this in 2006-07.

### Armed Forces: Housing

**Mr. Jenkins:** To ask the Secretary of State for Defence how much has been spent by his Department on providing private rented accommodation for service personnel including and above the rank of colonel and their families in each of the last six years. [173517]

**Derek Twigg:** The following table lists the amount that has been spent on providing Substitute Service Family Accommodation for the rank of Colonel and the equivalents in the Royal Navy and Royal Air Force broken down for each of the last six years.

| | *Total (£ million)* |
|---|---|
| 2002 | 2.366 |
| 2003 | 2.216 |
| 2004 | 2.526 |
| 2005 | 2.964 |
| 2006 | 2.687 |
| 2007 up to and including 27 November | 1.874 |

**Mr. Bellingham:** To ask the Secretary of State for Defence what steps he is taking to facilitate owner-occupancy for young servicemen and women and their families. [170995]

**Derek Twigg:** The Ministry of Defence (MOD) operates a Long Service Advance of Pay scheme that provides a loan to assist service personnel to enter the housing market. Since September 2006, in conjunction with the Department for Communities and Local Government (DCLG), the MOD has negotiated Key Worker status for service personnel. This gives them access to the New Build HomeBuy and First Time Buyer Initiative schemes operating in the South, South East and East of England.

The MOD continues to look for innovative ways to work with the commercial sector to provide bespoke home buyer packages for service personnel who are encouraged to prepare for return to civilian life during their careers by purchasing their own homes. To further assist them, the Joint Service Housing Advice Office (JSHAO) provides service personnel with advice and guidance on all forms of accommodation, public and private.

**Dr. Kumar:** To ask the Secretary of State for Defence what assessment he has made of the effect of the reductions in his Department's housing budget on the standards of accommodation provided to service personnel. [171967]

**Derek Twigg:** The MOD is not reducing its spending on service housing accommodation. On the contrary, the Department has increased its expenditure on housing. Total expenditure in 2007-08 is currently forecast above that of 2006-07.

**Mr. Hancock:** To ask the Secretary of State for Defence how much was spent on *(a)* maintenance, *(b)* refurbishment and *(c)* new build in relation to armed forces' accommodation in each of the last five years; what the projected expenditure is over the next five years; and if he will make a statement. [172310]

**Derek Twigg:** Although most expenditure on service accommodation is managed by Defence Estates (DE), some expenditure remains in the hands of other top level budget holders, or is contained within private finance initiative (PFI) and this could be separately identified only at disproportionate cost.

The identifiable costs, covering the requested activities but excluding expenditure in Northern Ireland and overseas, is shown in the following table (figures before 2002-03 are not available).

*£ million*

| | *2002-03* | *2003-04* | *2004-05* | *2005-06* | *2006-07* |
|---|---|---|---|---|---|
| Maintenance of GB housing | 92.0 | 94.7 | 85.6 | 104.8 | 122.4 |
| Upgrade of GB housing to S1FC | n/a | 8.3 | 6.0 | 4.4 | 12.5 |
| New build-housing in GB and SLA | 50.7 | 156.7 | 299.1 | 241.0 | 235.7 |
| PFI expenditure | 10.6 | 17.4 | 19.3 | 19.1 | 21.0 |

*Note*
Standard 1 for Condition = S1FC
Single Living Accommodation = SLA.

Following the comprehensive spending review (CSR), budgets are currently being set for the next three years. However, the CSR has ring-fenced the £550 million investment on armed forces accommodation over the next three years. The Department has subsequently committed a further £80 million to Single Living Accommodation Modernisation phase 2 in addition to the £335 million programme previously announced.

### Armed Forces: Influenza

**Dr. Murrison:** To ask the Secretary of State for Defence on how many occasions since 1 March 2005 his Department's officials have discussed with officials of *(a)* the Department of Health, *(b)* NATO and *(c)* the United States administration planning for a potential influenza pandemic; on what dates those discussions took place; what the content of the discussions was; and if he will make a statement. [172831]

**Derek Twigg:** The MOD has discussed pandemic influenza planning with officials from NATO and the United States Administration but no central record of the number of occasions was kept.

The MOD has regular meetings with Department of Health and Health Protection Agency (HPA) officials. An MOD Consultant Public Health Physician is a standing member of the HPA Influenza and Respiratory Programme Board, which meets monthly to discuss influenza pandemic issues such as the latest research, exercises, port health, vaccines, anti-virals and developments.

In addition, UK National preparations are being co-ordinated by the Cabinet Office Civil Contingencies Secretariat (CCS), whose role is to ensure that the UK is resilient in the event of a disruptive challenge such as pandemic flu. Cross-departmental pandemic flu planning has been under way since early-2005 through the MISC 32 Flu Working Group (FWG) which a representative from the MOD attends. At the last meeting of this group on 12 December 2007, the 23rd to be held, its name was changed to the Pandemic Flu Implementation Group (PFIG) to signify a step change in its work programme from policy development to policy implementation. Additionally, in the last two years there have been two cross-government pandemic flu exercises; 'Shared Goal'(held in 2006) and 'Winter Willow' (held during January and February this year). The Department was involved in both exercises as part of the central Government response, providing development assistance, personnel to man the COBR cell and Min(AF) representing the MOD at the ministerial Civil Contingencies Committee. In the case of Winter Willow, MOD additionally participated through Joint Regional Liaison Officers (JRLOs) engagement in regional exercise play.

### Armed Forces: Pay

**Nick Harvey:** To ask the Secretary of State for Defence how many *(a)* overpayments and *(b)* underpayments there were to Armed Forces personnel in each month since January 2007; and at what cost. [168882]

**Derek Twigg:** The number of over, and underpayments made to armed forces personnel in each month since January 2007 are as follows:

| *Month* | *Overpaid* | *Underpaid* | *Total* |
|---|---|---|---|
| January | 161 | 1,383 | 1,544 |
| February | 70 | 0 | 70 |
| March | 229 | 54 | 283 |
| April[1] | 13,908 | 252 | 14,160 |
| May[2] | 0 | 1,181 | 4,521 |
| June | 0 | 90 | 90 |
| July[3] | 2,978 | 416 | 3,394 |
| August[4] | 0 | 46,305 | 46,305 |

| *Month* | *Overpaid* | *Underpaid* | *Total* |
|---|---|---|---|
| September[5] | 0 | 722 | 4,971 |
| October | 213 | 50 | 263 |

The following notes specifically relate to months with 2,000+ over/underpayments:

[1] Following migration of Army data onto the JPA system, a decision was taken not to recover some elements until the migration process had been validated. Recovered in May.

[2] The majority of the underpayment were caused by University Officer Training Corps inputs. 3,340 minor errors were encountered due to the non migration of some data elements resulting in minor over or underpayments. Resolved in month.

[3] The majority of the overpayments (2,611) were due to double payment of the female clothing grant to reservists (£4.50), recovered in October.

[4] Comprised 35,553 incorrect deductions of £3.00 in respect of contributions to the discontinued Royal Navy and Royal Marines Dependants' Fund, and 10,752 underpayments of Home to Duty Travel claims for Royal Navy reservists. The former was re-credited to pay accounts in October, and the latter underpayments paid in September.

[5] 4,249 additional cases occurred where the incorrect rank on the Joint Personnel Administration system would have generated an incorrect payment. Corrective action was taken in time for the October pay run.

Details of the specific over and underpayments to individuals could be provided only at disproportionate cost. Error rates are expected to decrease as the professional users (unit admin, manpower specialists) gain familiarity with the system and undergo follow on training, consolidating their knowledge with lessons identified from the JPA project and formal user groups both single and tri-service.

**Dr. Fox:** To ask the Secretary of State for Defence what the change was in military salaries measured against retail price index inflation in each financial year since 2001-02. [169472]

**Mr. Bob Ainsworth:** The percentage change year on year and the change in the retail prices index year on year were as follows:

|  |  | *Percentage* |
|---|---|---|
|  | *Change in the average salary* | *Change in RPI* |
| 2002-03 | 5.0 | 2.1 |
| 2003-04 | 6.2 | 2.8 |
| 2004-05 | 2.4 | 3.1 |
| 2005-06 | 4.2 | 2.6 |
| 2006-07 | 4.8 | 3.7 |

The percentage changes are reported to one decimal place.

The average salary per financial year from 2001-02 for military personnel has been calculated using (i) the number of full-time equivalent service personnel and (ii) the expenditure recorded in the department's accounts for service "salaries and wages". These figures include some allowances, such as separation allowance, and education allowance, which are included with pay.

**Dr. Fox:** To ask the Secretary of State for Defence how many personnel are part of the long service advance of pay scheme. [174473]

**Derek Twigg:** 11,800 personnel are members of the long service advance of pay scheme.

**Dr. Fox:** To ask the Secretary of State for Defence what his Department's budget is for telephone allowances as part of the deployment welfare package. [174501]

**Derek Twigg:** The Department does not have a specific budget ceiling for telephone allowances. Each eligible Service person is entitled to 30 minutes of publicly funded call time per week. The cost of this call time will vary according to whether the call is made on a cabin satellite telephone, an IRIDIUM satellite telephone, an INMARSAT telephone or by one of several other means and whether the call is made to a UK landline, mobile telephone or to an overseas destination. The amount paid will also vary dependent upon the amount of the allowance personnel use. Moreover, whilst telephone allowances for exercises and enduring tasks such as the Falkland Islands are paid for by the Department, the cost of the telephone allowance for personnel deployed on contingent operations, e.g. Iraq and Afghanistan, is met by HM Treasury and is not paid from the Ministry of Defence budget. For illustrative purposes only, the average amount paid to the welfare communications contractor for the second half of Financial Year 2006-2007, after the allowance had increased to 30 minutes, was £504,000 per month. This would equate to some £6 million per annum.

**Mr. Jenkins:** To ask the Secretary of State for Defence what the average pay is for serving soldiers at each rank in the armed forces. [174661]

**Derek Twigg:** The average annual basic pay for trained armed forces' personnel at each rank or rank grouping, based on 2007 rates of pay, is shown in the following table.

| *Rank* | *Average salary (£)* |
|---|---|
| Chief of the Defence Staff (CDS) | 221,923 |
| General | 158,320 |
| Lieutenant General | 122,085 |
| Major General | 98,504 |
| Brigadier | 87,667 |
| Colonel | 74,305 |
| Lieutenant Colonel | 64,879 |
| Major | 46,863 |
| Captain | 38,098 |
| Lieutenant/2nd Lieutenant | 26,171 |
| Warrant Officer I | 40,883 |
| Warrant Officer II/Staff Sergeant | 34,845 |
| Sergeant | 31,849 |
| Corporal | 28,019 |
| Lance Corporal/Private | 19,808 |

The figures refer to service personnel who are on the main pay scales and exclude specialist groups such as Chaplains, Veterinary Officers, Officers Promoted from the Ranks and Medical and Dental Officers. Basic pay refers to salary paid in accordance with an individual's rank, length of service and trade. Specialist pay, allowances and other payments have been excluded. For illustrative purposes Army ranks have been used.

All armed forces personnel are on incremental pay ranges. The above averages have been calculated by taking the pay bill for the incremental range for each rank or rank grouping and dividing by the number of service personnel on it.

The post of CDS has its own discrete pay range. Consequently the figure shown is an actual rate and not an average.

### Armed Forces: Prosthetics

**Richard Younger-Ross:** To ask the Secretary of State for Defence what prosthetic limbs his Department provides for servicemen and women for limbs lost in service. [172890]

**Derek Twigg:** Prosthetic limbs supplied are as follows:

| *Limb* | *Type* | *Manufacturer* |
|---|---|---|
| Knee | C-Leg | Otto Bock |
| Knee | Rheo Knee | Ossur |
| Knee | Smart IP | Blatchfords |
| Knee | Mercury | Blatchfords |
| Knee | Total Knee | Ossur |
| Knee | KX06 4-bar | Blatchfords |
| Knee | 3R95 | Otto Bock |
| Foot | Variflex | Ossur |
| Foot | Ceterus | Ossur |
| Foot | VSP | Ossur |
| Foot | Flexrun | Ossur |
| Foot | Flexfoot | Ossur |
| Foot | C-Sprint | Otto Bock |
| Foot | Elite | Blatchfords |
| Foot | Esprit | Blatchfords |
| Foot | C-Walk | Otto Bock |
| Upper limb | I-Limb | Touch Bionic |

### Armed Forces: Public Opinion

**Mr. Hoban:** To ask the Secretary of State for Defence (1) how much his Department has spent on *(a)* quantitative and *(b)* qualitative opinion research of (i) serving and (ii) former members of the armed forces; [173364]

(2) what use his Department has made of *(a)* focus groups and *(b)* other qualitative or quantitative opinion research of (i) serving and (ii) former members of the armed forces. [173365]

**Derek Twigg:** It is in the interests of the MOD to have a good understanding of the realities and concerns facing their personnel. The Ministry of Defence, therefore, conducts a wide variety of research among Serving personnel and former members of the armed forces using internal resources and through outside research and academic institutions.

These surveys and focus groups, which have been running in various forms for decades, can look at everything from attitudes about Service life to surveys that investigate physical and psychological health. The resulting data form part of the body of evidence that is used to inform the development of policies that better reflect the lives of Service personnel.

This Research is available across the MOD and Service areas but is not centrally administered so it is not possible to provide total costs for all surveys conducted without disproportionate cost.

### Armed Forces: Training

**Mr. Hancock:** To ask the Secretary of State for Defence (1) whether the original bidders for the Defence Training Rationalisation programme Package 2 will be invited to bid on the revised procurement strategy; [174183]

(2) whether the change in procurement strategy for the Defence Training Rationalisation Programme Package 2 will require *(a)* more time and *(b)* additional expenditure for the programme; [174239]

(3) what the proposed revised procurement strategy for the Defence Training Rationalisation Programme Package 2 is; whether the revised strategy was among the options initially considered; why the strategy initially chosen was not proceeded with; and if he will make a statement. [174240]

**Derek Twigg:** As I stated in my written ministerial statement on 25 October 2007, *Official Report*, column 15 WS, Defence Training Rationalisation Package 2 is the subject of further work focusing on how best to improve our accommodation and training facilities to meet the strategic objectives of the Defence Training Review Rationalisation Programme. A range of options are being considered from a conventional procurement to an adaptation to Metrix's original proposals. At this stage it would be inappropriate to provide further details on the cost, timescale or procurement strategy. However, I shall provide an update on the programme next year when this work has matured.

**Mr. Hancock:** To ask the Secretary of State for Defence what has been the cost of the work carried out on the Defence Training Rationalisation programme Package 2 by *(a)* his Department and *(b)* each of the principal bidders. [174288]

**Derek Twigg:** To date the cost of Package 2 work carried out by the Department is approximately £11.5 million. The Department has no visibility of the cost incurred by the bidders.

**Mr. Hancock:** To ask the Secretary of State for Defence what estimate he has made of the impact on the *(a)* capital and *(b)* running costs of the defence training rationalisation programme Package 1 of the elimination of Package 2 from consideration; and if he will make a statement. [174306]

**Derek Twigg:** As I stated in my written ministerial statement on 25 October 2007, *Official Report*, column 15WS the Package 2 is the subject of further work focusing on how best to improve our accommodation and training facilities to meet the strategic objectives of the defence training review rationalisation programme. As both Packages remain contractually separate there is no impact on the costs of Metrix's Package 1 proposal as a result of this further work on Package 2.

**Dr. Fox:** To ask the Secretary of State for Defence how many hours each day military units may train at the Otterburn training area. [174488]

**Derek Twigg:** Units may train on the Otterburn Training Area for a total of 300 days per year. During that time dry training (no live firing) can be conducted over the full 24-hour period, seven days a week. Live firing is restricted within the 300 day period as follows:

| | *Times* |
|---|---|
| Summer | 0900-1700 and 2000-0001 |
| Winter | 1000-1600 and 1800-2200 |

**Mr. Hancock:** To ask the Secretary of State for Defence what requests his Department has received from each of the principal bidders under the Defence Training Rationalisation Programme Package 2 for compensation for nugatory activity; and how much has been requested in *(a)* each case and *(b)* total. [174641]

**Derek Twigg:** To date no compensation requests for nugatory activity have been received from principal bidders involved in the DTR Package 2 competition.

### Charities: Fees and Charges

**Nick Harvey:** To ask the Secretary of State for Defence if he will provide a break down of the costs charged to the Army Benevolent Fund for the use of the Royal Military Academy Sandhurst on 22, 23 and 24 September 2006 for the Music on Fire event. [163147]

**Derek Twigg:** Each application for the use of Ministry of Defence land for fund raising or other purposes is considered on its individual merits and an appropriate system of charges is applied. A charge of £7,041.01 was raised against the Army Benevolent Fund (ABF) for the use of the Royal Military Academy Sandhurst, for the Music on Fire Event held in 2006. This total contained VAT of £1,049, commercial insurance of £2,500 and a Defence Estates licence fee of £100. I am withholding a more detailed breakdown of costs as its release would, or would be likely to, prejudice commercial interests. However, the charges reflect an abated figure of the full amount permissible in accordance with Treasury Government accounting rules.

### Christmas

**Mr. Philip Hammond:** To ask the Secretary of State for Defence how much his Department and its agencies have spent on Christmas *(a)* cards, *(b)* parties and *(c)* decorations in each of the last five years. [171437]

**Derek Twigg:** MOD expenditure on Christmas cards has been:

| | £ |
|---|---|
| 2002 | 348 |
| 2003 | 1,743 |
| 2004 | 1,664 |
| 2005 | 3,200 |
| 2006 | 1,000 |

These figures include printing, purchase and postage, but exclude a small amount spent by Defence attachés (for permitted representational purposes) which is not identifiable without disproportionate cost. The sending of Christmas cards at public expense is governed by the principles of Managing Public Money, regulated by departmental guidance on financial procedures and propriety, and must be in pursuit of specific Defence objectives.

Staff Christmas parties and building decorations are paid for from non-public funds or staff subscription. The exception is the contracted-out facilities management services for the Main Building and Old War Office Building in Whitehall, which include an annual £5,000 provision for Christmas decorations in reception areas.

### Departmental Aviation

**Mr. Hayes:** To ask the Secretary of State for Defence what his Department's policy is on recycling. [174404]

**Derek Twigg:** The Ministry of Defence policy on recycling is fully aligned with the overall objective of Government policy on waste to protect human health and the environment by producing less waste and by using it as a resource wherever possible. Our sustainable approach to waste management involves reduction, re-use and recycling.

The Department's policy is that non-hazardous waste products—especially those from offices—should be recycled. This includes, for example, paper, glass, aluminium cans, fluorescent tubes, printer cartridges, and toners. Where suitable recycling infrastructure exists, waste metals, oils, building rubble and similar waste streams should also be consigned to recycling.

MOD policy is that all procurement decisions should take into account the maximum potential for recycling of procured items, and the maximum use of products based on recycled materials. Use of recycled materials should be considered if they are fit for purpose, meet technical specification requirements and cost the same or less than new products.

More information on MODs policy on waste management can be found in Joint Service Publication (JSP) 418, the MOD Sustainable Development and Environment Manual, a copy of which can be found in the Library of the House. In addition, MOD has published a Sustainable Waste Management Strategy, which can be found at:

http://www.mod.uk/DefenceInternet/AboutDefence/WhatWeDo/HealthandSafety/DSC/DsandcEnvironmentSustainableDevelopmentDocumentLibrary.htm

### Departmental Corporate Hospitality

**David Simpson:** To ask the Secretary of State for Defence on how many occasions he has accepted corporate hospitality in the last 12 months. [171316]

**Des Browne:** Chapter 7 of the Ministerial Code sets out the rules on the registration of hospitality.

## Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Defence (1) what reviews have been undertaken of his Department's rules on data protection in the last two years; if he will place in the Library a copy of the report of the last review of his Department's compliance with data protection laws; and if *(a)* his Department and *(b)* his Department's agencies will undertake a review of their compliance with data protection laws; [168086]

(2) on how many occasions in *(a)* his Department and *(b)* its agencies confidential data have been downloaded on to compact discs (i) without and (ii) with encryption in the last 12 month period for which figures are available; how many of those discs have been posted without using recorded or registered delivery; what procedures his Department has in place for the (A) transport, (B) exchange and (C) delivery of confidential or sensitive data; what records are kept of information held by his Department being sent outside the Department; what changes have been made to his Department's rules and procedures on data protection in the last two years; on how many occasions his Department's procedures and rules on data protection have been breached in the last five years; what those breaches were; what procedures his Department has in place on downloading confidential data on to computer discs before their transfer; what technical protections there are in his Department's computer systems to prevent access to information held on those systems which is not in accordance with departmental procedures; and if he will place in the Library a copy of each of his Department's rules and procedures on the protection of confidential data on individuals, businesses and other organisations; [168252]

(3) how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disc; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168272]

**Mr. Vara:** To ask the Secretary of State for Defence (1) on how many occasions the Information Commissioner was contacted by his Department to report breaches of data protection security in each of the last five years; [168813]

(2) how many breaches of data protection security there were in *(a)* his Department and *(b)* his Department's agencies in each of the last five years; and if he will provide details of each breach. [168827]

**Tom Brake:** To ask the Secretary of State for Defence whether he proposes to review how his Department transports data; and whether his Department uses TNT to transport data. [169217]

**Mr. Rob Wilson:** To ask the Secretary of State for Defence how many breaches of the Data Protection Act 1998 requiring investigation there have been in the last five years in his Department; what the nature of such breaches were; and what the results of the investigations were in each case. [169260]

**Mr. Evans:** To ask the Secretary of State for Defence how many confirmed data security breaches there have been in his Department in the last 36 months; and what action was taken after each occurrence. [169897]

**Des Browne:** I refer the hon. Member to the statement made by right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

## Departmental Marketing

**Ann Winterton:** To ask the Secretary of State for Defence which personnel are responsible for his Department's public relations. [173962]

**Derek Twigg:** The Ministry of Defence Directorate of Public Relations comprises 69 personnel, working across internal and external communication channels. The personnel breakdown as follows:

| | *Personnel* |
|---|---|
| Royal Navy PR | [1]15 |
| British Army PR | 10 |
| Royal Air Force PR | 8 |
| Defence and Schools PR | 14 |
| Multimedia and Internal Communications (Bureau) | 21 |

[1] Including photographers

Accurate information on personnel levels in Defence agencies, top level budget areas, trading funds, joint headquarters, single service commands and military units is not held centrally, and could be provided only at a disproportionate cost.

## Departmental Postal Services

**Mr. Hayes:** To ask the Secretary of State for Defence (1) how many items of post sent by his Department were reported missing by the intended recipient in each year since 1997; [171287]

(2) what steps his Department has taken to protect the personal data on members of the public which it holds. [171417]

**Derek Twigg:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Public Participation

**Dr. Fox:** To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Fareham of 10 December 2007, *Official Report*, column 59W, on Departmental Public Participation, if he will place in the Library the findings of the opinion polls conducted by his Department. [174553]

**Derek Twigg:** The results of the top level reputation tracking by Ipsos/MORI are already available in the Library of the House. Results from the other opinion polls listed in my previous answer will be placed there as soon as possible.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Defence what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172506]

**Derek Twigg:** Data for the amount of waste generated and recycled in the Ministry of Defence (MOD) over the past five years are outlined in the following table. This is based on partial data, since not all parts of the MOD are yet able to report the amount of waste generated. The information for 2005-06 and the figures for the amount of waste produced and the percentage recycled in 2004-05 were included in the sixth annual Sustainable Development in Government report published by the Sustainable Development Commission. A copy of that report can be found at:

http://www.sd-commission.org.uk/publications.php?id=514

| | *Amount of waste produced (Tonnes)*[1] | *Amount of waste recycled (Tonnes)* | *Percentage recycled* |
|---|---|---|---|
| 2005-06 | 69,392 | 26,696 | 38.5 |
| 2004-05 | 50,404 | 11,391 | 22.6 |
| 2003-04 | [2]— | [2]— | [2]— |
| 2002-03 | [2]— | [2]— | [2]— |
| 2001-02 | [2]— | [2]— | [2]— |

[1] Waste arisings data are given as the amount produced (weight) in metric tonnes and not in volume (m3).

[2] Not known.

The collection of data on the amount of waste produced and the amount of waste streams consigned to recycling continues to improve. The Department is working towards full waste data coverage in line with departmental policy set out in the MOD Sustainable Waste Management Strategy.

Data for 2006-07 will be reported by the Sustainable Development Commission early in 2008.

### Firing Ranges: National Parks

**Dr. Fox:** To ask the Secretary of State for Defence (1) when the licence of each training area which requires a licence from a national park authority expires; [174470]

(2) how many training areas require licences from a national park authority before military training can be conducted. [174492]

**Derek Twigg:** One of the parcels of land used for military training in the Peak District National Park requires a licence as it is owned by and licensed from the Park Authority rather than a private landowner. Military training in National Parks is usually authorised by a planning consent.

The licence from the Peak District National Park expires on 17 April 2085. The lease on a parcel of land owned by the Peak District National Park Authority expires on the same date.

### Foreign and Commonwealth Nationality Report

**Dr. Fox:** To ask the Secretary of State for Defence if he will place in the Library copies of the monthly Defence Analytical Services Foreign and Commonwealth Nationality Report issued since April 1997. [174480]

**Derek Twigg:** Copies of the Defence Analytical Service Agency Nationality of British Army Personnel report has only been published in this format on a monthly basis since April 2005. Copies of these documents will need to be collated. I will place copies of the documents in the Library of the House when the work has been completed.

### Illegal Immigrants

**Damian Green:** To ask the Secretary of State for Defence how many illegal immigrants have been discovered working for his Department and its agencies in the last year for which figures are available. [170477]

**Derek Twigg:** Recruitment to the civil service is carried out in accordance with the civil service nationality rules, which are available at:

www.civilservice.gov.uk/nationality.

There is no record of any illegal immigrants being discovered working for the MOD during the last 12 months.

### Iraq: Peacekeeping Operations

**Mr. Hancock:** To ask the Secretary of State for Defence how much the Government have spent on its own legal *(a)* advice and *(b)* representation on the inquest into the service personnel killed in the Hercules crash in Iraq; what future costs have been projected; and if he will make a statement. [175284]

**Des Browne:** The total costs that have been charged to MOD for external legal advice and representation in respect of the inquest into fatalities arising from the Hercules crash in Iraq on 30 January 2005 is £25,414.94. This covers bills up to the end of October. No estimate can be provided for the future costs, as it is not possible to predict with any certainty what further work will be required.

The MOD's own in-house legal advisers have also provided assistance in matters relating to preparation for the Hercules inquest. However, this work will have been done as part of their routine duties and cannot separately be costed.

**Dr. Murrison:** To ask the Secretary of State for Defence how many chest seals were issued to personnel in *(a)* Iraq and *(b)* Afghanistan in each year since 2003. [164546]

**Derek Twigg:** Chest seals are supplied in Team Medic Packs, which are issued from a central pool for both theatres. These are issued to personnel who have been trained to fulfil an extended first aid role within the unit only. The number of packs issued to a unit will depend on the operational context at any given time. There have been no shortages in fulfilling operational demands for chest seals.

It is possible to provide data on the numbers issued from 2006 only when new information management structures were introduced in theatre. Quantities of chest seals issued to the supply sections of the respective theatres are as follows:

| | *Operation Telic* | *Operation Herrick* |
|---|---|---|
| 2006 | 67 | 294 |
| 2007 | 1,867 | 2,520 |

The increase in numbers does not correlate with usage and does not reflect a rise in the number of chest wounds within operational theatres as un-used chest seals can be reissued to incoming units and replacement is required when the packaging, is damaged. Additionally, the introduction of the Team Medic, a combat soldier who has been identified, trained and equipped to take charge of the treatment and evacuation of casualties, has also contributed to the increase in numbers.

**Dr. Fox:** To ask the Secretary of State for Defence which out-of-service dates for *(a)* armoured vehicles, *(b)* aircraft, *(c)* helicopters and *(d)* weapons systems will change as a result of combat operations in Iraq and Afghanistan; and if he will make a statement. [171900]

**Mr. Bob Ainsworth:** We keep the out-of-service dates of military equipment under review to reflect the impact of operations as well as other factors.

### Prisoners of War: Compensation

**Mr. Austin Mitchell:** To ask the Secretary of State for Defence pursuant to the answer of 22 November 2007, *Official Report*, columns 312-3W, on prisoners of war: compensation, how many claims under the scheme for compensation for British civilian prisoners of the Japanese came forward after the Elias case; and how many of these have been rejected. [174201]

**Derek Twigg:** As at 10 December, the position with claims for compensation for injury to feelings resulting from having been discriminated against on the grounds of national origin by having had an application under the ex-gratia payment scheme for former Far East prisoners of war and civilian internees rejected under criteria based on place of birth (the "birthlink") was as follows:

Claims received: 299

Offers of payment made: 208

Claims rejected: 58

Claims under consideration: 33

Reasons for rejections were: that the original claim was made by a surviving spouse; that the claimant had not been a British subject at the time of internment or that they had not been interned; that the claim had not been rejected under the birthlink; and that the claimant had not been discriminated against on the grounds of national origin.

### Royal Military Academy: Army Benevolent Fund

**Nick Harvey:** To ask the Secretary of State for Defence what the breakdown was of costs charged to the Army Benevolent Fund for the use of the Royal Military Academy Sandhurst on 22, 23 and 24 September 2006 for the Music on Fire event. [170849]

**Derek Twigg:** Each application for the use of Ministry of Defence land for fund raising or other purposes is considered on its individual merits and an appropriate system of charges is applied. A charge of £7,041.01 was raised against the Army Benevolent Fund for the use of the Royal Military Academy Sandhurst for the Music on Fire event held in 2006. This total contained VAT of £1,049, commercial insurance of £2,500 and a Defence Estates licence fee of £100.

I am withholding a more detailed breakdown of costs as its release would, or would be likely to, prejudice commercial interests. However, the charges reflect an abated figure of the full amount permissible in accordance with Treasury Government Accounting Rules.

## BUSINESS, ENTERPRISE AND REGULATORY REFORM

### Aviation

**Chris Huhne:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many air miles were travelled by Ministers in his Department in each year since its establishment; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result; [172232]

(2) how many miles he and Ministers in his Department travelled on short haul flights in the last 12 months; and what estimate he has made of the total amount of carbon dioxide emissions produced as a result of these flights. [172571]

**Mr. Thomas:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the ministerial code. All central Government ministerial and official air travel has been offset from 1 April 2006. Departmental aviation emissions are calculated on an annual basis and subsequently offset through payments to a central fund. The fund purchases certified emissions reductions credits from energy efficiency and renewable energy projects with sustainable development benefits, located in developing countries.

In addition, offsetting the flights of Department for Environment, Food and Rural Affairs, the Foreign and Commonwealth Office, the Department for International Development, and the Prime Minister has been backdated to 1 April 2005.

A list of Government Carbon Offsetting Fund members, their emission figures and what activities they have offset through the fund is available online at:

http://www.defra.gov.uk/environment/climatechange/uk/carbonoffset/government.htm

### Biofuels: South West Region

**Mr. Steen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much energy is produced from miscanthus grass crops in the South West; and how much miscanthus produce is in storage *(a)* in energy producing facilities, *(b)* in agricultural settings and *(c)* underground. [165182]

**Mr. Woolas:** I have been asked to reply.

Information on the energy produced from miscanthus or where the harvested crop is stored is not collected.

On the basis of average yields, the following table estimates the potential yields in tonnes that could be produced in the south-west:

| | | *Potential yields (in tonnes) in* | | |
|---|---|---|---|---|
| *Planting year* | *Hectares (ha) claimed under ECS* | *Second year (based on 4-10t/(ha)* | *Third year (10-13t/ha)* | *Subsequent years (12-16t/ha)* |
| 2005 | 154 | 620-1,540 | 1,540-2,000 | 1,850-2,460 |
| 2006 | 35 | 140-250 | 350-450 | 420-560 |
| 2007 | 677 | 2,710-6,770 | 6,770-8,800 | 8,120-10,830 |

*Notes:*

1. The crop is harvested annually after the second year for 15 to 20 years.

2. A further 158 ha were planted under objective 1 from 2000-2007 but an annual breakdown is not available.

3. Miscanthus has a new calorific value, on a dry matter basis, of 17 mega joules/kilogramme. This means that the energy value of 1 tonne of dry miscanthus is equivalent to 0.4 tonnes of coal.

### Coal Industry Social Welfare Organisation: Nottinghamshire

**John Mann:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what land and buildings the Coal Industry Social Welfare Organisation owns in *(a)* Bassetlaw and *(b)* Nottinghamshire. [174658]

**Malcolm Wicks** *[holding answer 17 December 2007]:* The Coal Industry Social Welfare Organisation is a registered charity wholly independent of any Government Department. Information on its current ownership of land and buildings would best be obtained from the organisation itself.

### Defence Export Services Organisation

**Tom Brake:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what costs have been incurred by the transfer of the Defence Export Services Organisation to UK Trade and Investment of its responsibilities; and if he will make a statement. [175371]

**Mr. Thomas:** The cost of machinery of Government changes will be met by relevant Departments within existing departmental budgets.

### Departmental Consultants

**Mr. Walker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what contracts his Department has with external consultants; what the total value, including all VAT and disbursements, of these contracts are for the current financial year; how long each contract lasts; and what the forecasted total value is of each contract. [163811]

**Mr. Thomas:** Central records indicate that the total value of contracts with external consultants for the current financial year is £8.7 million.

Further information is not held centrally and could be provided only at disproportionate cost.

### Departmental Correspondence

**Sarah Teather:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what percentage of inquiries received by his Department from the public were responded to within *(a)* one week, *(b)* 14 days, *(c)* 28 days, *(d)* two months and *(e)* three months in the last period for which figures are available; and in what percentage of cases it took (i) over three months and (ii) over one year to respond. [167378]

**Mr. Thomas:** The Department does not keep statistics on these response times therefore a response could be provided only at disproportionate cost.

**John Penrose:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he will reply to the letters of 25 May, 25 July and 4 September from the hon. Member for Weston-Super-Mare regarding his constituent Mr. Ivor Chivers and his company Eco Solutions. [173936]

**Mr. Thomas:** There have been responses to two of the hon. Member's letters, a third response will be issued shortly. I have asked for all responses to be faxed to the hon. Member's parliamentary office.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many employees of each grade in his Department *(a)* have access to confidential or sensitive data and *(b)* are authorised to download such data to disc; how many of his Department's employees have undergone data protection training in the last 12 months; what the average length of time is that each employee of (i) his Department and (ii) his Department's agencies has spent on data protection training; how many investigations of employees of his Department for improperly accessing confidential information have taken place in the last 12 months; how many such investigations resulted in cases of disciplinary action; and what the circumstances of each of those cases were. [168267]

**James Brokenshire:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what records are kept by his Department of attempted hacking or suspected cyber attacks or other malicious computer security breaches committed against his Department's computer systems. [174431]

**Mr. Thomas:** I refer the hon. Member to the statement made by my right hon. Friend the Prime Minister on 21 November 2007, *Official Report*, column 1179. The review by the Cabinet Secretary and security experts is looking at procedures within Departments and agencies for the storage and use of data. A statement on Departments' procedures will be made on completion of the review.

### Departmental Manpower

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many reports have been made to his Department's nominated officers under paragraph 16 of the revised Civil Service Code since its publication on 6 June 2006. [162450]

**Mr. Thomas:** I refer the hon. Member to the answer given by the Minister for the East Midlands my hon. Friend the Member for Lincoln (Gillian Merron) on 19 November 2007, *Official Report*, column 596W.

**Mrs. Gillan:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many Welsh speakers his Department employs. [162891]

**Mr. Thomas:** The information requested is not held centrally and can be obtained only at disproportionate cost.

**Mr. Dai Davies:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what organisations within his responsibilities were discovered to have security staff who were illegal immigrants by the recent review of licences granted by the Security Industry Authority; and if he will make a statement. [165153]

**Mr. Thomas:** To date BERR has not been advised by the SIA of any security staff who are employed by the Department's security contractor who have been or who are illegal immigrants.

### Departmental Ministerial Policy Advisors

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the office costs for his Department's special advisers for 2007-08 are expected to be, including costs of support staff; and how many full-time equivalent civil servants work in support of such special advisers. [164937]

**Mr. McFadden:** The Code of Conduct for Special Advisers states that

> "In order to enable special Advisers to work effectively, departments may allocate permanent civil servants to provide support of a non-political nature".

There are three full-time equivalent staff who are directly employed to support BERR's departmental special advisers. All three provide administrative support of a non-political nature in accordance with the Code of Conduct for Special Advisers. Information on the cost of these staff cannot be provided. The numbers are so few that to reveal the cost could identify an individual's salary, which is confidential between the individual and the employer.

Office costs will be accounted for in the 2007-08 departmental annual report and accounts.

### Departmental Pay

**Sarah Teather:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many people in his Department and its predecessors were paid over £100,000 in each year since 1997. [167187]

**Mr. Thomas:** The number of staff earning £100,000 or more for BERR and predecessor Departments since 2005 is provided as follows. Information before 2005 can be provided only at disproportionate cost.

| *Financial year* | *Number of people* |
|---|---|
| 2005-06 | 32 |
| 2006-07 | 44 |

Salaries of senior staff are reported in the Department's annual resource accounts, copies of which are accessible via the BERR public website.

### Departmental Publicity

**Mr. Philip Hammond:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will place in the Library a copy of the guidelines issued to staff maintaining his Department's and its agencies' corporate identity; and what the estimated annual cost is of *(a)* producing and *(b)* complying with such guidelines. [170241]

**Mr. Thomas:** The Department does not update its branding rules annually. Following the creation of BERR in June 2007, we produced guidelines on using the new logo. A fully revised version of the branding rules is currently being produced. The estimated one-off cost of producing these guidelines is £24,000. My Department will place a copy of this document in the Library when it is available, expected to be around the end of January 2008. I am unable to identify how much staff time is spent on complying with the corporate guidelines without incurring disproportionate costs.

Following the establishment of BERR, Companies House has used staff resources of approximately £32,000 on co-branding compliance.

Insolvency Service has branding guidelines which were produced internally at a one-off cost in staff time of £2,500. I am unable to identify how much staff time is spent on complying with the corporate guidelines without incurring disproportionate costs.

UK Trade and Investment's costs in maintaining its brand guidelines are £850.00 per month for hosting on the UKTI website. They estimate that one third of one FTE of their communications' staff time is spent on managing brand guidelines.

### Departmental Recycling

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what *(a)* volume and *(b)* percentage of its waste his Department recycled in each of the last five years. [172511]

(2) how much and what proportion of its waste his Department and its predecessor recycled in each of the last five years. [174428]

**Mr. Thomas:** The following table details the total waste arisings and recovered and recycled weights, where available for the past five years.

The remaining volume of waste that is not recovered or recycled is accounted for by the fly and bottom ash as a result of incineration. This is then often used in the road construction process.

| | *Total waste arisings* | *Recovered (kg)* | *Recycled* | *Percentage Recovered* | *Recycled* |
|---|---|---|---|---|---|
| 2002-03 | 581,630.00 | 463,630.00 | | 79.7 (recovered and recycled combined) | |
| 2003-04 | | | Data unavailable | | |
| 2004-05 | 814,323.00 | 771,236.00 | 434,108.00 | 94.70 | 53.30 |
| 2005-06 | 622,841.00 | 498,273.00 | 349,707.00 | 80.00 | 56.10 |
| 2006-07 | 530,390.00 | 424,312.00 | 281,530.00 | 80.00 | 53.00 |

To further improve recycling across the **BERR** estate, extended recycling facilities have been rolled out, which captures cans, plastics, paper, card, glass and batteries. Additionally the Department will be trialling the removal of desk bins to encourage staff to segregate waste for recycling.

**Mr. Hayes:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what his Department's policy is on recycling. [174400]

**Mr. Thomas:** The Department has an environmental policy and operates an environmental management system which incorporates its procedures for dealing with waste minimisation and waste disposal. The Department practices the waste hierarchy of prevention, minimisation, re-use, recycling, energy recovery, disposal to landfill.

### Departmental Reorganisation

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost of *(a)* designing and *(b)* implementing the usage of the Department's interim logo in use immediately after 27 June was. [173181]

**Mr. Thomas:** I refer the hon. Gentleman to the reply I gave to PQ 157389, answered on 25 October 2007, *Official Report*, column 491W, in which I said that costs to date associated with the use of the name of the new Department were approximately £77,000. These included the costs of design, items such as new signage and changes to the website and other electronic media.

The costs specifically relating to the design of the interim logo (including creating and providing formats for print and web usage) were £11,132.46 excluding VAT.

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost of *(a)* designing and *(b)* implementing the usage of the Department's existing logo was. [173182]

**Mr. Thomas:** The cost of designing the current version of the Department's logo was £6,125 excluding VAT.

As at 21 November 2007, total design and branding costs incurred in setting up **BERR** were £218,063. These included stationery, IT changes including revised e-mail addresses, new signage, web based changes, new logo and print costs, including the re-launch of **BERR** on 1 November 2007, and the anticipated cost of branding guidelines, which are expected to be completed in January 2008.

### Departmental Stationery

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much was spent by his Department on headed paper in each of the last five years; and what the cost per sheet was in each such year. [173163]

**Mr. Thomas:** Central records indicate that spend on headed paper in each of the last five calendar years is as follows (costs include some of the Department's agencies and delivery partners and include news release paper):

| | *Total £ (excluding VAT)* | *Cost per sheet (pence)* |
|---|---|---|
| 2007 | 6,702 | 9 |
| 2006 | 6,633 | 6 |
| 2005 | 7,187 | 9 |
| 2004 | 29,043 | 1 |
| 2003 | 26,373 | 4 |

### Domestic Accidents

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many serious injuries there were in the home in the following age groups *(a)* under 16, *(b)* 16 to 24, *(c)* 25 to 65 and *(d)* over 65 in each of the last five years. [173553]

**Mr. Thomas:** The Department stopped collecting this information in 2002. However, information prior to 2002 can be obtained from the Royal Society for the Prevention of Accidents.

### Electricity Generation: Wastes

**Mr. Laurence Robertson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the volume of emissions generated by the incineration of waste for the purpose of electricity generation compared to the burning of *(a)* coal, *(b)* gas and *(c)* oil for the same purpose; and if he will make a statement. [174568]

**Malcolm Wicks** *[holding answer 17 December 2007]*: The main emissions associated with electricity generation, together with the quantity of electricity generated by fuel in 2005 are shown in the table as follows.

| | *Emissions (thousand tonnes)* | | | | | |
|---|---|---|---|---|---|---|
| | *Bio-carbon*[1] | *Carbon* | *Carbon monoxide* | *Nitrogen Oxide* | *Sulphur Dioxide* | *Electricity generated (GWh)* |
| Coal | 0 | 31,124 | 53 | 315 | 371 | 134,848 |
| Oil | 0 | 589 | 3 | 11 | 11 | 5,135 |
| Gas | 0 | 14,937 | 9 | 39 | 0 | 152,710 |
| Waste[2] | 2,021 | 322 | 6 | 8 | 3 | [3]9,615 |

[1] Carbon emissions derived from biomass, these are excluded from emissions inventories as they are part of the carbon cycle

[2] Waste oils, municipal solid waste, sewage gas, landfill gas, straw and poultry litter.

[3] An exact breakdown is not available, this figure includes non-biodegradable wastes, landfill gas, sewage sludge digestion, municipal solid waste combustion, co-firing with fossil fuels, farm waste digestion, poultry litter combustion, meat and bone combustion, straw and energy crops. However it excludes waste products from chemical processes.

*Source:*

National Atmospheric Emissions Inventory, Digest of UK Energy Statistics 2007

### Foreign Workers: North East Region

**Jim Cousins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what *(a)* direct and *(b)* indirect expenditure has been incurred by One in (i) marketing the North East and (ii) offering a programme of assistance to move to the North East to workers from eastern Europe. [172022]

**Mr. Timms:** One NorthEast has invested £16.8 million in marketing the region in the UK and internationally over the last three years (year on year split shown in the following table). This spend includes the "Passionate People, Passionate Places" regional image campaign, national TV advertising and promoting the region to inward investors in key markets including the USA, India and China. It also covers all national and international tourism marketing which includes campaigns in Australia, Norway, Holland and New Zealand.

| | *£ million* |
|---|---|
| 2005-06 | 5,616,337.65 |
| 2006-07 | 7,239,115.57 |
| 2007-08 | 4,017,830.02 |
| Total | 16,873,283.24 |

One NorthEast has never had a programme targeted at encouraging workers to move to the north-east from eastern Europe.

### Fossil Fuelled Power Stations: Planning Permission

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what advice is provided to local authorities considering applications for new, unabated fossil fuel power plants. [175425]

**Malcolm Wicks:** No specific advice has been issued to local authorities. However the Department has issued general guidance on how the section 36 of the Electricity Act 1989 consenting regime works.

### Fossil Fuels: Imports

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much he estimates will be spent on imports of *(a)* oil and *(b)* gas in (i) 2008, (ii) 2012, (iii) 2015, (iv) 2020 and (v) 2030 at 2007 prices. [173880]

**Malcolm Wicks:** Some of the gas and most of the oil produced on the UK Continental Shelf is exported rather than being consumed domestically, so the gross volume of imports is not equivalent to total UK consumption minus total UK production. The Department does not estimate the gross volume of imports of oil or gas expected in future years.

Projections of future net imports can be derived by subtracting projected UK Continental Shelf production from projected UK demand, although projections of the latter have been made for only the years 2010, 2015 and 2020. These are available in Annex J to the paper on Updated Energy and Carbon Emissions Projections published alongside the May 2007 Energy White Paper at:

http://www.berr.gov.uk/energy/whitepaper/page39534.html.

Based on the published projections, net imports of oil in 2010 would be 176 million barrels; in 2015, 301 million barrels; and in 2020, 392 million barrels. The average price for oil so far in 2007 is $72/barrel, about £36/barrel. If net imports in future years were bought at that price, the cost would therefore be about £6.4 billion in 2010; £10.9 billion in 2015; and £14.1 billion in 2020.

For gas, net imports in 2010 would be about 36 billion cubic metres (bcm); in 2015, 68 bcm; and in 2020, 79 bcm. The average wholesale spot price for gas so far in 2007 is 30p/therm, equivalent to about £109 million/bcm. Thus, if imports in future years were bought at 2007 prices, the cost would be about £3.9 billion in 2010; £7.4 billion in 2015; and £8.6 billion in 2020.

### Illegal Immigrants

**Damian Green:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many illegal immigrants have been discovered working for his Department and its agencies in the last year for which figures are available. [170501]

**Mr. Thomas:** No illegal immigrants have been discovered working for the Department or its agencies in the past year.

### Meat: Imports

**Mr. Laurence Robertson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much meat was imported from Brazil in each of the last five years for which figures are available. [174443]

**Mr. Thomas:** The figures in the following table are taken from HMRC Overseas Trade Statistics.

*UK imports of meat and meat preparations from Brazil*

| | *£ million* | *thousand tonnes* |
|---|---|---|
| 2002 | 176 | 132 |
| 2003 | 177 | 137 |
| 2004 | 198 | 144 |
| 2005 | 210 | 148 |
| 2006 | 192 | 114 |

### Members: Correspondence

**Sir Gerald Kaufman:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he expects to reply to the letter of 29 October 2007 from the right hon. Member for Manchester, Gorton regarding Mr. J Shah. [173126]

**Mr. Thomas:** The Department has no record of receiving my hon. Friend's letter. We have now received a copy of his letter. It appears that it is a matter for the Home Office and has been transferred to them for a response.

**Mr. Winnick:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will ensure that a reply is sent to the hon. Member for Walsall North's letter to the chief executive of Ofgem of 30 October; and what the reasons are for the time taken to send a reply. [174582]

**Mr. Thomas** *[holding answer 17 December 2007]:* My hon. Friend will understand that, as an independent regulator, Ofgem is responsible for its operational activities, including dealing with correspondence. However, I understand that, in this case, Ofgem will respond very soon to my hon. Friend.

### Nanotechnology: Finance

**Dr. Gibson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how much funding the Technology Strategy Board plans to allocate to nanotechnology in each of the next five years. [167528]

**Ian Pearson:** The Technology Strategy Board, established as an executive NDPB in July 2007, has inherited a number of nanotechnology-focused activities from the former DTI, including collaborative R and D projects, nanotechnology centres, and knowledge transfer network.

It is currently in the process of developing its strategic and delivery plans for the next three years starting April 2008, and the role of nanotechnology will be fully considered in developing these plans. During this period, the Technology Strategy Board will overall coordinate public sector investment worth more than £1 billion (including contributions from the English RDAs and the Research Councils), to provide business with a coherent package of technology and innovation support, to help companies turn good ideas into new products and services.

### National Association of Cigarette Machine Operators

**Mr. Jenkins:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when he last held discussions with the National Association of Cigarette Machine Operators. [173267]

**Mr. Timms:** Departmental Ministers have not met the National Association of Cigarette Machine Operators in recent years.

### Natural Gas: Regulation

**Mr. Oaten:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make it his policy to ensure that all suppliers of gas are regulated by the energy supply ombudsman. [175109]

**Malcolm Wicks** *[holding answer 17 December 2007]:* Gas and electricity supply is regulated by the Office of Gas and Electricity Markets (Ofgem). The Energy Supply Ombudsman is not a regulator. It is an independent body that was established by the six major gas and electricity suppliers following an investigation by Ofgem into suppliers' billing practices. It investigates billing and transfer complaints made by domestic customers who have been unable to resolve the matter with their supplier. Under the Consumers, Estate Agents and Redress Act 2007, redress arrangements will be put on a statutory basis, and will apply to all suppliers. The Government recently consulted on the scope of these new arrangements, including proposals to provide small businesses with access to the schemes. The individual schemes brought forward by industry will be subject to approval by the relevant regulator.

### Nuclear Decommissioning Authority: Finance

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the budget of the Nuclear Decommissioning Authority was in *(a)* each of the last five years and *(b)* each year of the 2007 comprehensive spending review period. [173159]

**Malcolm Wicks:** The Nuclear Decommissioning Authority began operation on 1 April 2005. Its actual gross expenditure since then and its budget for 2007-08 and for each year of the 2007 comprehensive spending review period is as follows:

| | | | *Funded by:* | |
|---|---|---|---|---|
| | | *Total expenditure (£000)* | *Grant in aid (£000)* | *Commercial income (£000)* |
| 2005-06 | Actual expenditure | 2,420 | 1,168 | 1,252 |
| 2006-07 | Actual expenditure | 2,679 | 1,452 | 1,227 |

| | | *Forecast budget* | *Grant in aid* | *Forecast commercial income* |
|---|---|---|---|---|
| 2007-08 | Budget | 2,806 | 1,367 | 1,439 |
| 2008-09 | CSR 2007 | 2,855 | 1,534 | 1,321 |
| 2009-10 | CSR 2007 | 2,818 | 1,610 | 1,208 |
| 2010-11 | CSR 2007 | 2,785 | 1,705 | 1,080 |

## Nuclear Power

**Norman Baker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what work is being undertaken by the Generation IV International Forum in examining new forms of nuclear reactor technology; and what role the UK is playing in the forum. [173862]

**Malcolm Wicks:** The Generation IV International Forum (GIF) aims to develop, by research collaboration, the most promising advanced nuclear energy systems for international deployment from around 2030. More information is available at www.gen-4.org.

The UK stood down as an active member of the Forum in summer 2006. The decision to stand down reflected the need to match financial and other resources with the Department's strategic priorities. While valuable in some respects, further involvement in the Forum was not considered to be as relevant to the Department's mission as other competing priorities.

## Post Office: Christmas

**Paul Rowen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he has sought assurances from the Post Office that the Horizon payments system will cope with the number of transactions expected to take place on 24 December 2007. [174868]

**Mr. McFadden:** I understand that Post Office Ltd. is confident that its Horizon system has the capacity to cope with the number of transactions expected to take place on 24 December. State pensions for 1.4 million Post Office card account holders will be payable from 21 December giving those pensioners the choice of three days on which to draw their pensions and spreading the transaction volumes for sub post offices and the Horizon system. Post Office Ltd. will monitor performance of their systems closely in the days preceding the holiday period and has comprehensive contingency plans in place.

## Post Office: Wales

**Charles Hendry:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many submissions the Post Office has received in its consultation on the Cardiff and Glamorgan Valleys Area Plan. [173871]

**Mr. McFadden** *[holding answer 13 December 2007]:* This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, managing director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

## Post Offices: Access

**Peter Luff:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many functioning sub post offices are required to meet the Government's access criteria as outlined in the Network Change Programme; [172488]

(2) if an update has been undertaken of the analysis within the 2000 Performance and Innovation Unit Counter-revolution report on the minimum number of sub post offices required to meet certain distance-based access criteria, based on present post office numbers and the Government's new access criteria as outlined in the Network Change Programme. [172489]

**Mr. McFadden:** *[holding answer 12 December 2007]:* Post Office Ltd currently estimates that the minimum size of network necessary to meet the access criteria is around 7,500 offices but it is Government policy to maintain a sustainable network of around 11,500 post offices. The £1.7 billion funding package announced on 17 May supports the network at that level to 2011.

The access criteria set a minimum floor for the network size and Post Office Ltd are being asked to undertake, in consultation with Postwatch, an updated study and analysis of the minimum number of post offices required to meet the access criteria.

## Post Offices: Christmas

**Paul Rowen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) what assurances he has sought from the Post Office that all pensioners will be able to receive their pensions from post offices before Christmas 2007; [175023]

(2) what contingency plans there are should pension and benefit claimants be unable to access their payments from post offices before Christmas. [175024]

**Mr. McFadden** *[holding answer 17 December 2007]:* I understand that Post Office Ltd. is confident that its Horizon system has the capacity to cope with the number of transactions expected to take place on 24 December. State pensions for 1.4 million Post Office card account holders will be payable from 21 December giving those pensioners the choice of three days on which to draw their pensions and spreading the transaction volumes for sub post offices and the Horizon system. Post Office Ltd. will monitor performance of their systems closely in the days preceding the holiday period and has comprehensive contingency plans in place.

### Post Offices: Closures

**Sarah Teather:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what discussions he has had with Post Office Ltd. on the factors to be taken into account in setting the timetable for the Post Office Closure Consultation Programme; and if he will make a statement. [171990]

**Mr. McFadden:** In preparing the Government's response to the national public consultation on the post office network, discussions were held with Post Office Ltd. about the overall timetable for the network change programme. It was the company's view that implementation of the changes was deliverable by the end of 2008 and the Government response confirmed that the aim was to complete the programme within that period. In July, Post Office Ltd. published an indicative timetable for local consultations on their area plan proposals to complete the programme by the end of 2008. In finalising their timetable for local consultations for post office closures and new outreach services, Post Office Ltd. were asked to take into account Cabinet Office guidelines regarding election periods. These clearly state that consultations should not be launched, and decisions relating to them announced, in a local election period. Successive administrations of both parties have observed these arrangements for many years. The aim remains to complete the network change programme by the end of 2008.

**Mr. Weir:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform when the Government *(a)* decided to defer the Post Office network change programme in England and Wales and *(b)* informed and instructed Post Office Limited to impose a freeze on running any public consultations prior to the May 2008 municipal and local authority elections in England and Wales. [173482]

**Mr. McFadden:** Post Office Ltd was advised in early November of the need to apply the principles set out in the Cabinet Office guidelines relating to public consultations in the period preceding local elections.

### Post Offices: Kent

**Sir John Stanley:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) how many customers use the Shipbourne Road, Tonbridge Post Office on average each day; [174916]

(2) how many customers use the South End, Edenbridge, Post Office on average each day; [174917]

(3) how many customers use the Hectorage Road, Tonbridge, Post Office on average each day; [174918]

(4) how many post offices there are within a mile of *(a)* the Hectorage Road, Tonbridge, Post Office, *(b)* the Shipbourne Road, Tonbridge, Post Office and *(c)* the South End, Edenbridge, Post Office. [174920]

**Mr. McFadden:** This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

### Post Offices: Peterborough

**Mr. Stewart Jackson:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform how many post offices were open in Peterborough constituency in *(a)* 1997, *(b)* 2001 and *(c)* 2006; and if he will make a statement. [174467]

**Mr. McFadden** *[holding answer 17 December 2007]*: This is an operational matter for Post Office Ltd (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member. Copies of the letter will be placed in the Libraries of the House.

### Postal Services: Rural Areas

**Tim Farron:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make an assessment of the effect on postal delivery times in rural areas of the EU regulations which require 7.5 tonne tachograph vehicles to travel at or below 56 mph; and if he will bring forward proposals to exempt postal delivery vehicles from those regulations. [173859]

**Mr. McFadden** *[holding answer 13 December 2007]*: Royal Mail has responsibility for running the day-to-day operations of the business and has to comply with relevant legislation.

The EU Directive 92/6/EEC concerning all vehicles weighing more than 7.5 tonnes is intended to promote road safety, and to improve working conditions for drivers.

I understand that compliance with this directive has had an impact on Royal Mail's network because vehicles arrive at destinations later.

The Department for Transport has responsibility for the implementation of this directive and it is for them to consider whether there should be exemptions from the regulations.

### Postwatch: Finance

**Sir John Stanley:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the cost to the public purse was of Post Watch in the latest year for which figures are available. [174919]

**Mr. McFadden:** Details of Postwatch's expenditure for the latest year can be found in its annual report for 2006-07 which can be accessed through the Postwatch website at:

http://www.postwatch.co.uk/images/stories/pdfs/PostwatchAR2006-07.pdf

### Power Stations: Greenhouse Gas Emissions

**Gregory Barker:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether plans exist for minimum efficiency standards for greenhouse gas emissions to be applied to applications for new power plants. [175418]

**Malcolm Wicks:** The Government have issued guidance for all applicants for non renewable fossil fuelled stations to demonstrate they have considered combined heat and power. In addition the Environment Agency consider the efficient use of fuel when considering any large combustion plant application made under the Integrated Pollution Prevention and Control regime.

### Radioactive Materials: Waste Disposal

**Mr. Hancock:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what plans he has to *(a)* store and *(b)* dispose of (i) spent nuclear fuel and (ii) other nuclear waste in each 10 year period up to 2077; what sites have been identified for (A) storage and (B) disposal in each case; and if he will make a statement. [174232]

**Malcolm Wicks:** Spent nuclear fuel is currently stored on the site where it arises or is transported to Sellafield for long-term storage or reprocessing. Spent fuel is not classified as a waste.

High Level Waste (HLW) created by reprocessing spent fuel is routinely put into a passively safe form through a process known as vitrification and then safely and securely stored in a custom built facility at Sellafield.

Intermediate Level Waste (ILW) is generally held in safe and secure storage on nuclear sites where it arises, pending availability of a disposal facility for higher activity waste.

Low Level Waste (LLW) is mostly disposed of at the national Low Level Waste Repository near Drigg in Cumbria, which is expected to operate until 2050. A further near surface LLW disposal facility is currently planned for the Dounreay site in Scotland. Some LLW, not suitable for near-surface disposal, is held in storage pending the availability of a disposal facility for higher activity waste.

In July 2006 the independent Committee on Radioactive Waste Management (CoRWM) reported to Government its recommendations for the long term management of higher activity radioactive waste. In October 2006 Government accepted the primary recommendations of geological disposal coupled with robust, safe and secure interim storage until such time as a geological disposal facility is available. Government also confirmed they wished to explore a site selection approach for this facility based on the concept of voluntarism, as recommended by CoRWM. Government recently held a public consultation on the framework for implementing geological disposal and will report their findings shortly, with a White Paper anticipated in the new year to set out the way forward for the implementation process designed to deliver a geological disposal facility and ensure interim storage remains safe and secure in the meantime.

**Mr. Hancock:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what estimate he has made of the amount of *(a)* spent nuclear fuel and *(b)* other nuclear waste to be disposed of in the UK in each 10 year period to 2077; and if he will make a statement. [174235]

**Malcolm Wicks:** The last published 'snapshot' of the UK Radioactive Waste Inventory, that includes both existing and expected legacy waste volumes, was for a stock date of 1 April 2004. The Committee on Radioactive Waste Management (CoRWM) drew on this when it compiled its own inventory estimates. The packaged volumes of High Level Waste (HLW), Intermediate Level Waste (ILW) and Low Level Waste (LLW) as reported by CoRWM are as follows:

| *Material* | *Packaged volume (m3)* |
|---|---:|
| HLW | 1,290 |
| ILW | 353,000 |
| LLW[1] | 37,200 |

[1] This refers to long lived LLW not suitable for near surface disposal.

In addition most LLW is routinely disposed of as it arises to the near surface facility near Drigg in West Cumbria.

From the 2004 UK Radioactive Waste Inventory, given a number of assumptions, if waste is packaged the figures in cubic metres are as follows:

| | *HLW* | *ILW* | *LLW* |
|---|---:|---:|---:|
| In stock | 1,222 | 105,570 | 30,426 |
| Arisings 2004-09 | 440 | 27,553 | 172,881 |
| Arisings 2010-19 | 92 | 29,703 | 260,168 |
| Arisings 2020-29 | 0 | 18,218 | 162,768 |
| Arisings 2030-39 | 0 | 12,035 | 132,534 |
| Arisings 2040-59 | 0 | 35,076 | 228,123 |
| Arisings 2060-99 | 0 | 45,445 | 1,232,787 |

These figures do not include spent fuel arisings as they are not currently declared as waste intended for disposal.

### Small Businesses: Young People

**Mrs. James:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what steps the Government are taking to promote small business start-up schemes among young people. [168326]

**Mr. Timms:** The Government's aim is to get a generation of young people to start thinking about the benefits of running their own business, and to recognise the positive impact that enterprising attitudes can have in every area of their lives.

According to the Global Entrepreneurship Monitor UK Report 2006, 10.1 per cent. of 18 to 24-year-olds said they expected to start a business in the next three years, the highest level of any age group reported.

We want to empower young people and change the attitudes of those who influence them, such as parents, teachers and employers. And we want to raise young people's awareness of the practical help that already exists—such as training programmes, mentoring, information and guidance, and the various support networks around the country.

We are doing this by:

Funding Enterprise Insight's 'Make Your Mark: Change Lives' campaign—which promotes enterprise to young people aged 14 to 30;

Supporting the UK's annual Enterprise Week;

Promoting enterprise education within schools;

Supporting the National Council for Graduate Entrepreneurship to promote business start-up as a viable alternative to working for somebody else.

In Wales, this is being done by:

Delivering the Youth Enterprise and Entrepreneurship Strategy (YES) launched in 2004;

Offering support through a range of programmes including Business Eye, a comprehensive and popular source of impartial information and general support for business.

There were around 34,000 new start-ups by young people (under 25) in England and Wales in 2006. This is 8 per cent. of all start-ups, up from 7 per cent. in 2003.

*Source:*

ONS Labour Force Survey and Barclays Bank

### Social Security Benefits: ICT

**Paul Rowen:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what assessment he has made of the performance and reliability of the Horizon payments system in delivering benefits. [174869]

**Mr. McFadden:** This is an operational matter for Post Office Ltd. (POL). I have therefore asked Alan Cook, Managing Director of POL, to reply direct to the hon. Member.

Copies of the letter will be placed in the Libraries of the House.

### Telent

**Mr. Hoyle:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform if he will make a statement on the takeover of Telent by the Pensions Corporation. [167594]

**Mr. Timms** *[holding answer 26 November 2007]:* The proposed transaction is a commercial matter for the enterprises concerned and their shareholders.

I understand that the union Unite has asked the Pensions Regulator to consider the issues associated with this takeover.

### Trade Unions

**Mr. Maude:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification Officer has produced on whether trade union employees not funded by a trade union political fund can utilise their time to engage in political campaigning. [174865]

**Mr. McFadden:** Neither the Department nor the Certification Officer has produced guidance on whether trade union employees not funded by a trade union political fund can utilise their time to engage in political campaigning.

**Mr. Maude:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what guidance *(a)* his Department and *(b)* the Certification Officer has produced on whether employees taking leave from their employment to undertake their trade union activities can engage in political campaigning as part of those trade union duties. [174866]

**Mr. McFadden:** Neither the Department not the Certification Officer has produced specific guidance on whether employees taking leave from their employment to undertake their trade union activities can engage in political campaigning as part of those trade union duties. The Department has produced general guidance on the law relating to time off for trade union duties and activities in a publication entitled "Union membership: rights of members and non-members".

**Mr. Maude:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether he plans to introduce proposals for new *(a)* legislation, *(b)* regulation and *(c)* guidance on the administration and conduct of trades union ballots. [175166]

**Mr. McFadden:** The Department for Business, Enterprise and Regulatory Reform has no current plans to introduce new legislation, regulation and guidance on the administration and conduct of trade union ballots.

### Trade Unions: Finance

**Mr. Tyrie:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer to the right hon. Member for Horsham of 28 November 2007, *Official Report*, column 467W, on trade unions: finance, if he will introduce regulations to provide that trades union members who opt out of a union's political fund must be charged a proportionately lower subscription rate. [174704]

**Mr. McFadden:** The Department has no plans to introduce additional regulation regarding the level of subscriptions paid by trade union members.

### Trade Unions: Regional Development Agencies

**Mr. Maude:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 4 December 2007, *Official Report*, column 1141W, on trades unions: regional development agencies (RDAs), which RDAs have no trade union member on their board. [175039]

**Mr. Timms:** All of the eight RDAs for which BERR makes appointments (appointments to the LDA are the responsibility of the Mayor) have a trade union representative on their board.

**Mr. Maude:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform pursuant to the answer of 4 December 2007, *Official Report*, column 1141W, on trade unions: regional development agencies (RDAs), what *(a)* his policy and *(b)* the policy of the assessment panels is on whether a trade union representative should be appointed to each RDA board. [175040]

**Mr. Timms:** It is Government policy that there is a trade union representative on the board of each of the eight RDAs for which BERR makes appointments (appointments to the LDA are the responsibility of the Mayor).

The appointments process for trade union representatives is then run in accordance with the Commissioner for Public Appointments Code of Practice, in the same way as other appointments: the specification for the trade union appointment is subject to external consultation; the selection panel is responsible for sifting and interviewing candidates for each of the vacancies in the different sectors, putting forward all candidates that satisfy the selection criteria and are therefore appointable, ready for my consideration.

### UK Trade and Investment: Defence

**Mr. Benyon:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform what the new unit in UK Trade and Investment responsible for defence exports will be called. [173404]

**Mr. Thomas** *[holding answer 11 December 2007]:* As outlined in the written statement of 11 December, *Official Report*, column 16WS, by my right hon. Friend the Secretary of State, the new unit has provisionally been given the name UKTI Defence and Security Group.

### Unfair Practices: Sales

**Mr. Tyrie:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform (1) whether the Unfair Commercial Practices Directive will apply to consumers purchasing goods or services from trade unions; [173713]

(2) what the timetable is for the full implementation of the Unfair Commercial Practices Directive; and on what date the revised consumer protection rules will come into force. [173714]

**Mr. Thomas** *[holding answer 13 December 2007]:* I propose to lay before Parliament in early January draft Consumer Protection from Unfair Trading Regulations, implementing the Unfair Commercial Practices Directive. If approved in debate the regulations will come into force on 6 April 2008.

It is possible that the directive could apply to a trade union that has a trading arm providing goods and services to consumers within the meaning of the directive. In these circumstances a trade union's trading entity could be acting as a trader for the purposes of the directive.

### Union Modernisation Fund

**Mr. Hoban:** To ask the Secretary of State for Business, Enterprise and Regulatory Reform whether his Department commissioned any external assessment of applications for funding under the union modernisation fund programme. [173168]

**Mr. McFadden:** We have engaged an independent supervisory board to assess all applications against the union modernisation fund criteria. The bids were assessed to ensure that they fell within the scope of the fund; to ensure that they had been realistically costed, offered value for money; and had suitable project management arrangements in place for effective delivery of the project.

In addition BERR is working with Leeds University Business School to conduct a phased evaluation of the fund. Phase one evaluated the operational effectiveness of the first round of bidding. Phase two will evaluate the success of supported projects and the impact of monies via a series of case studies. An interim phase two evaluation report will be published shortly.

## TREASURY

### Assets: Capital Gains Tax

**Mr. Hoban:** To ask the Chancellor of the Exchequer what estimate he has made of the cost of rebasing the cost of assets subject to capital gains tax to April 1998 values. [173677]

**Jane Kennedy:** The revenue cost of rebasing assets subject to capital gains tax to April 1998 values would be of the order of £700 million a year by comparison with the current (2007-08) regime. This is a broad estimate and takes into account the likely taxpayer response to the change.

### Central Heating: Yorkshire and Humber

**Mr. Graham Stuart:** To ask the Chancellor of the Exchequer how many and what proportion of households in each parliamentary constituency in Yorkshire and the Humber were without central heating in each of the last 10 years; and if he will make a statement. [174300]

**Mr. Iain Wright:** I have been asked to reply.

My Department does not collect information on central heating for each parliamentary constituency. From the most recently available data from the Survey of English Housing 9 per cent. of households reported they did not have central heating in Yorkshire and Humber in 2005-06, compared to 19 per cent. in 1995-96. The following table provides the trend within the region for the last 10 years.

*Yorkshire and Humber: households without central heating, 1995-96 to 2005-06*

| | *Percentage of households without central heating* |
|---|---|
| 1995-96 | 19 |
| 1996-97 | 19 |

*Yorkshire and Humber: households without central heating, 1995-96 to 2005-06*

| | Percentage of households without central heating |
|---|---|
| 1997-98 | 18 |
| 1998-99 | 18 |
| 1999-2000 | 18 |
| 2000-01 | 15 |
| 2001-02 | 13 |
| 2002-03 | 12 |
| 2003-04 | 11 |
| 2004-05 | 9 |
| 2005-06 | 9 |

### Child Benefit: Personal Records

**Mr. Gauke:** To ask the Chancellor of the Exchequer how many people have access to a full copy of data held by *(a)* his Department and *(b)* HM Revenue and Customs on tax credit claimants. [168054]

**Jane Kennedy** *[holding answer 26 November 2007]:* No individuals at the Treasury have access to data on tax credits claimants.

HMRC provides its staff with controlled access to customer information to facilitate the delivery and maintenance of service for customers.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the Chair of Pricewaterhouse Coopers.

The interim report was published yesterday and is available in the Library of the House.

**Mr. Dunne:** To ask the Chancellor of the Exchequer whether the computer software being used to store the Child Benefit database in HM Revenue and Customs in March 2007 was capable of encrypting data. [168707]

**Jane Kennedy** *[holding answer 27 November 2007]:* On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

**Mr. Hoban:** To ask the Chancellor of the Exchequer what vetting process is applied to officials in HM Revenue and Customs who have access to the full database of child benefit records. [173358]

**Jane Kennedy:** Access to all HMRC systems is assigned according to user-roles. HMRC seeks to minimise access levels to its systems, restricting access to only those staff who can demonstrate a current defined business need.

All HMRC staff are security cleared to an appropriate level in line with departmental security procedures.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

### Clear Line of Sight Project

**Mr. Letwin:** To ask the Chancellor of the Exchequer what progress his Department is making on the Clear Line of Sight project; and if he will make a statement. [175208]

**Andy Burnham:** The Government announced in the "Governance of Britain" Green Paper (Cm7170) in July that it would simplify its reporting to Parliament by bringing together the processes for planning, parliamentary approval and reporting of public spending on to a more consistent basis, in line with the fiscal rules. The Government made clear that they would consult widely on the detailed changes needed to effect this major reform, which is designed to make the system of government finance easier to understand and operate and improve government's accountability to Parliament.

The process of preliminary research and analysis needed to deliver a successful outcome to the project is now well under way, and the Government very much welcome the involvement of representatives from Parliament, the National Audit Office and the Financial Reporting Advisory Board, as well as from across government.

### Customs Officers: Training

**Justine Greening:** To ask the Chancellor of the Exchequer how much was spent on training and staff development of HM Revenue and Customs customs officers in each year since 2000; and if he will make a statement. [174550]

**Jane Kennedy:** There is no separate group of staff identified as "customs officers". The external costs of training and staff development for the Customs and Excise department are shown below for 2001-02 to 2004-05; figures for 2000-01 are not available without incurring disproportionate cost.

| | *£000* |
|---|---|
| 2001-02 | 7,490 |
| 2002-03 | 6,585 |
| 2003-04 | 5,718 |
| 2004-05 | 5,751 |

Following the merger with former Inland Revenue, producing HM Revenue and Customs (but excluding the Valuation Office Agency), the corresponding total training and staff development costs for 2005-06 and 2006-07 were:

| | *£000* |
|---|---|
| 2005-06 | 9,147 |
| 2006-07 | 8,984 |

### Departmental Aviation

**Mr. Hayes:** To ask the Chancellor of the Exchequer how much was spent by his Department on international flights in each year since 1997. [174533]

**Angela Eagle:** Since 1999 the Government have published a list of all overseas travel by Cabinet Ministers costing over £500. Information for the last financial year was published on 25 July 2007. Details for the current financial year will be published as soon as possible after the end of the financial year. From next year, the list will include details of overseas visits undertaken by all Ministers. All ministerial travel is undertaken in accordance with the "Ministerial Code".

Information in respect of flights taken by officials could be provided only at disproportionate cost.

### Departmental Computers

**James Brokenshire:** To ask the Chancellor of the Exchequer what records are kept by his Department of attempted hacking or suspected cyber attacks or other malicious computer security breaches committed against his Department's computer systems. [174429]

**Angela Eagle:** HM Treasury keeps operational logs of firewall and anti-virus activity. All suspected breaches or hacking attempts are investigated.

### Departmental Data Protection

**Mr. Philip Hammond:** To ask the Chancellor of the Exchequer on how many occasions compact discs containing unencrypted confidential data have been sent out by his Department in the last 12 month period for which figures are available. [168210]

**Dr. Cable:** To ask the Chancellor of the Exchequer how many electronic databases within his Department contain *(a)* names, *(b)* addresses, *(c)* bank details and *(d)* other personal information on members of the public. [169710]

**Jane Kennedy:** On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of Pricewaterhouse Coopers.

The interim report was published yesterday and is available in the Library of the House.

**Mr. Amess:** To ask the Chancellor of the Exchequer what mechanisms are in place to ensure that information kept by *(a)* his Department and *(b)* its agencies is (i) accurate and up-to-date and (ii) kept securely. [169420]

**Jane Kennedy:** HMRC, including the Valuation Office Agency has in place a range of measures to ensure its information is both accurate and up to date and kept securely.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

### Drug Seizures

**Mr. Ruffley:** To ask the Chancellor of the Exchequer how many seizures of *(a)* methamphetamine, *(b)* cannabis, *(c)* cocaine and *(d)* heroin have been made by HM Revenue and Customs in each year since 1997; and what the total quantity seized of each substance was. [166843]

**Angela Eagle:** The following table shows the number of seizures and quantities of heroin, cocaine and cannabis seized by HM Revenue and Customs in each of the years since 1997.

Methamphetamine was reclassified as a Class A drug on the 18 January 2007, prior to this HMRC did not collect seizure data on methamphetamine. No seizures of methamphetamine were made in the period 18 January 2007 to 31 March 2007.

When the Serious Organised Crime Agency (SOCA) became operational on 1 April 2006, primacy for the resources associated with the investigation of class A drugs cases transferred to SOCA. Details of services relating to this activity are included in SOCA's Annual Report (2005-06) available online at:

www.soca.gov.uk.

| *Financial year* | *Cannabis (KGs)* | *Cannabis (Number of seizures)* | *Cocaine (KGs)* | *Cocaine (Number of seizures)* | *Heroin (KGs)* | *Heroin (Number of seizures)* |
|---|---|---|---|---|---|---|
| 2006-07[1] | 62,966 | 4,244 | 2,368 | 1,165 | 527 | 60 |
| 2005-06 | 41,611 | 3,234 | 5,798 | 1,176 | 1,507 | 61 |
| 2004-05 | 57,504 | 3,359 | 8,606 | 1,093 | 1,613 | 79 |
| 2003-04 | 57,617 | 3,470 | [2]20,727 | 1,169 | 1,626 | 87 |
| 2002-03 | 59,035 | 4,454 | 8,767 | 1,181 | 2,069 | 52 |
| 2001-02 | 67,061 | 4,170 | 6,075 | 1,655 | 1,489 | 83 |
| 2000-01 | 41,776 | n/a | 7,420 | n/a | 2,043 | n/a |
| 1999-2000 | 77,853 | n/a | 2,525 | n/a | 2,707 | n/a |
| 1998-99[3] | 62,028 | — | 3,540 | — | 594 | — |
| 1997-98 | 80,380 | — | 2,356 | — | 1,821 | — |

[1] When the Serious Organised Crime Agency (SOCA) became operational on 1 April cases transferred to SOCA.

[2] The large quantity of cocaine seized in this year is due to the culmination of several long running operations.

[3] For financial years 1997-98, 1998-99 the drugs statistics published gave the total number of seizures for cocaine, heroin, cannabis and synthetic drugs. The total amount of seizures made in 1997-98 were 7,796 and for 1998-99 7,738.

For financial year 1999-2000 the drugs statistics published in the Annual Report gave the total number of drugs seized in value (£ million). The weight of drugs seized during this financial year is reflected in the table. For financial year 2000-01 the drugs statistics published in the Annual Report gave the total number of drugs seized by weight only.

### Employment: Greater London

**Mr. Boris Johnson:** To ask the Chancellor of the Exchequer how many *(a)* 16, *(b)* 17, *(c)* 18, *(d)* 19, *(e)* 20, *(f)* 21, *(g)* 22, *(h)* 23 and *(i)* 24 year old (i) women and (ii) men were in employment but not receiving education or training in each London borough in each of the last 10 years. [169823]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 18 December 2007:*

As National Statistician, I have been asked to reply to your Parliamentary Question asking how many *(a)* 16, *(b)* 17, *(c)* 18, *(d)* 19, *(e)* 20, *(f)* 21, *(g)* 22, *(h)* 23 and *(i)* 24 year old (i) women and (ii) men were in employment but not receiving education or training in each London borough in each of the last 10 years. (169823)

Information in the form requested is not readily available and could only be obtained at disproportionate cost.

### Enterprise Management Incentives

**Mr. Hoban:** To ask the Chancellor of the Exchequer what the average market value was of share options exercised under the Enterprise Management Incentive scheme in each year since 2001-02. [162967]

**Angela Eagle:** The Enterprise Management Incentives scheme was introduced in Finance Act 2000, and offers generous tax-advantaged share options to help small, higher risk independent trading companies recruit and retain the high calibre people they need to grow and succeed. EMI is open to qualifying companies or groups with gross assets not exceeding £30 million.

The following table shows the average market value of shares acquired per employee exercising EMI share options during each of the years 2001-02 to 2005-06 together with the numbers of those employees. The figures in the above table include the average gain as well as average market value since it is only the gain which is relieved of income tax and NICS under EMI.

| *Tax year* | *Number of employees exercising EMI share options* | *Average market value of shares acquired (£)* | *Average amount paid for shares acquired (£)* | *Average gain on exercise (£)* |
|---|---|---|---|---|
| 2001-02 | 400 | 33,000 | 9,000 | 24,000 |
| 2002-03 | 1,300 | 41,000 | 7,000 | 34,000 |
| 2003-04 | 2,100 | 49,000 | 8,000 | 41,000 |
| 2004-05 | 4,600 | 49,000 | 8,000 | 41,000 |
| 2005-06 | 6,100 | 59,000 | 10,000 | 49,000 |

*Note:* Averages are per employee.

### Exports

**Mr. David Hamilton:** To ask the Chancellor of the Exchequer what the value of goods and services exported overseas from *(a)* Scotland and *(b)* the UK was in each of the last 10 years for which figures are available. [174147]

**Jane Kennedy:** The information is as follows.

*Value of goods exported[1] from the UK, 1997 to 2006*

| | *Value of goods exported (£ million)* | |
|---|---|---|
| | *Total UK exports* | *Exports from Scotland[2]* |
| 1997 | 171,779 | 15,395 |
| 1998 | 164,247 | 17,575 |
| 1999 | 166,318 | 17,615 |
| 2000 | 187,159 | 20,228 |
| 2001 | 189,376 | 16,686 |
| 2002 | 186,978 | 15,616 |
| 2003 | 188,382 | 13,200 |
| 2004 | 190,548 | 11,932 |
| 2005 | 211,756 | 12,661 |
| 2006 | 243,821 | 13,460 |

[1] Exports refer to both EU and non-EU destined goods

[2] Exports from Scotland based on Regional Trade Statistics methodology

*Note:*

Data on services are not available on a comparable basis. Figures for the UK are available from the Office for National Statistics (ONS) and data for Scottish service exports are available from the Scottish Executive.

*Source:*

HM Revenue and Customs, Regional Trade Statistics

### Freight: Roads

**Mr. Kidney:** To ask the Chancellor of the Exchequer what recent assessment he has made of the economic prospects for the UK road freight sector, with particular reference to the effects of *(a)* freight taxes, *(b)* excise duties and *(c)* fuel prices. [174137]

**Angela Eagle:** In taking taxation decisions as part of the Budget process the Government consider all relevant environmental, social and economic factors—including those relating to specific industry sectors—into consideration.

Further to this process, the Haulage Industry Task Group, consisting of Government officials and representatives from the road haulage industry and business sector, published a report in December 2006, designed to better understand the issues raised in 2005 Burns Inquiry into fuel prices, freight taxes and foreign competition. The report is published at:

http://www.hm-treasury.gov.uk/pre_budget_report/prebud_pbr06/other_docs/prebud_pbr06_odhaulage_cfm

### Gift Aid

**Mr. Fabian Hamilton:** To ask the Chancellor of the Exchequer if he will change the gift aid rules under section 3.46.12 of the guidance to include grandparents of minors. [174503]

**Jane Kennedy:** Minors (those under the age of 18 who are not married) are the legal responsibility of their parents or legal guardians. Membership subscriptions paid on behalf of minors by their parents or legal guardians can be regarded as qualifying donations providing the usual Gift Aid conditions are met. There is no scope within the existing legislation to extend this treatment. The Government continue to look at ways of building on the success of the Gift Aid scheme and increasing donations to charity, and is currently considering responses to the recent consultation on Gift Aid to this end.

### Government Equalities Office

**Mr. Letwin:** To ask the Chancellor of the Exchequer pursuant to the Winter Supplementary Estimates (HC 29), (1) if he will break down the Government Equalities Office new estimate provision by subhead in (i) near cash and (ii) non-cash terms; [174999]

(2) if he will break down the *(a)* Office for Standards in Education, Children's Services and Skills, *(b)* Food Standards Agency and *(c)* Office of Rail Regulation (i) main estimate and (ii) winter supplementary estimate provision by subhead in (A) near cash and (B) non-cash terms; [175000]

(3) if he will break down the *(a)* Assets Recovery Agency, *(b)* Charity Commission and *(c)* Northern Ireland Court Service (i) main estimate and (ii) winter supplementary estimate provision by subhead in (A) near cash and (B) non-cash terms; [175001]

(4) if he will break down the *(a)* National Archives, *(b)* Crown Prosecution Service and *(c)* Serious Fraud Office (i) main estimate and (ii) winter supplementary estimate provision by subhead in (A) near cash and (B) non-cash terms; [175002]

(5) if he will break down the *(a)* HM Procurator General and Treasury Solicitor, *(b)* Office of Gas and Electricity and *(c)* Postal Services Commission (i) main estimate and (ii) winter supplementary estimate provision by subhead in (A) near cash and (B) non-cash terms; [175003]

(6) if he will break down the *(a)* Forestry Commission, *(b)* HM Revenue and Customs and *(c)* National Savings and Investments (i) main estimate and (ii) winter supplementary estimate provision by subhead in (A) near cash and (B) non-cash terms; [175004]

(7) if he will break down the *(a)* Office for National Statistics, *(b)* National School of Government and *(c)* Privy Council Office (i) main estimate and (ii) winter supplementary estimate provision by subhead in (A) near cash and (B) non-cash terms. [175005]

**Andy Burnham:** The breakdown of voted resources in supply estimates is primarily a matter for the Departments concerned. I understand that the right hon. Gentleman has tabled the same question to all Departments directly in separate parliamentary questions.

### National Insurance: Data Protection

**Jim Cousins:** To ask the Chancellor of the Exchequer how frequently discs are sent to pension providers containing information on national insurance rebates; how many are sent each year; and how many such discs have gone missing in transit over the last three years. [171494]

**Jane Kennedy** *[holding answer 6 December 2007]:* HMRC may only disclose information which it holds in accordance with the Commissioners for Revenue and Customs Act 2005. Most transfers of data take place under statutory gateways which specify circumstances in which HMRC may disclose such information. All disclosures must be compliant with the Data Protection Act 1998 and the Human Rights Act 1998.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim findings were published yesterday and available in the Library of the House.

### Pensioners

**Mr. Graham Stuart:** To ask the Chancellor of the Exchequer how many and what percentage of the population in *(a)* England and *(b)* each parliamentary constituency are over the age of 65; and if he will make a statement. [174293]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 18 December 2007:*

As National Statistician, I have been asked to reply to your question asking how many and what percentage of the population in (a) England and (b) each parliamentary constituency are over the age of 65 years. (174293).

The latest population estimates available are for mid-2006. The estimated population in England aged 65 and over is 8,086,000. This is 16 per cent of the total estimated population in England in mid-2006.

ONS does not have population estimates for parliamentary constituencies for the whole of the UK. However mid-2006 estimates for parliamentary constituencies covering England and Wales and Scotland are due to be published early in 2008. Estimates for Northern Ireland are available on the Northern Ireland Statistics and Research Agency website at:

http://www.nisra.gov.uk/demography/default.asp?cmsid=20_21_24&cms=demography_population%20statistics_Mid-year+population+estimates&release=

### Personation

**Martin Horwood:** To ask the Chancellor of the Exchequer pursuant to the answer of 4 December 2007, *Official Report*, column 1203W, on personation, what risks his Department has identified of identity theft arising from tax-related correspondence between HM Revenue and Customs and members of the public; and what steps his Department is taking to reduce those risks. [173681]

**Jane Kennedy:** I refer the hon. Member to the oral statement my right hon. Friend the Chancellor gave to the House on 17 December.

### Recycling

**Mr. Hayes:** To ask the Chancellor of the Exchequer what his Department's policy is on recycling. [174406]

**Angela Eagle:** The Treasury is committed to meeting the government's target to increase recycling figures on the office estate to 40 per cent. of waste arisings by 2010 and to 75 per cent. by 2020.

**Mr. Hayes:** To ask the Chancellor of the Exchequer how much and what proportion of its waste his Department recycled in each of the last five years. [174419]

**Angela Eagle:** I refer the hon. Gentleman to the answer given on 11 December 2007, *Official Report*, column 365W.

### Revenue and Customs: Data Protection

**Keith Vaz:** To ask the Chancellor of the Exchequer what security clearance is required before a member of staff is allowed access to personal information at HM Revenue and Customs. [168468]

**Jane Kennedy:** Access to any HMRC system is assigned according to user-roles. HMRC seeks to minimise access levels to its systems, restricting access to only those staff who can demonstrate a current defined business need.

All HMRC staff are security cleared to an appropriate level in line with departmental security procedures.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

**Mr. Amess:** To ask the Chancellor of the Exchequer which *(a)* organisations, *(b)* agencies and *(c)* individuals have (i) partial and (ii) total access to personal tax or benefit data held by HM Revenue and Customs; under what conditions such access is given; what legislation regulates such access; and if he will make a statement [169529]

**Mr. Willetts:** To ask the Chancellor of the Exchequer (1) how data are shared between HM Revenue and Customs and the Student Loans Company; and what medium is used to transmit the data; [173555]

(2) what encryption is used when sending data *(a)* from HM Revenue and Customs to the Student Loans Company and *(b)* from the Student Loans Company to HM Revenue and Customs. [173556]

**Jane Kennedy:** HMRC may only disclose information which it holds in accordance with the Commissioners for Revenue and Customs Act 2005. Most transfers of data take place under statutory gateways which specify circumstances in which HMRC may disclose such information. All disclosures must be compliant with the Data Protection Act 1998 and the Human Rights Act 1998.

On 20 November, the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

**Mr. Wallace:** To ask the Chancellor of the Exchequer what concerns about security at HM Revenue and Customs have been reported by the Departmental Security Officer of *(a)* his Department and *(b)* HM Revenue and Customs in the last two years. [169736]

**Jane Kennedy:** The Departmental Security Officer (DSO) of HM Revenue and Customs (HMRC) provides HMRC's Chairman with an Annual Report on Security Incidents. The remit of HM Treasury's Departmental Security Officer does not cover HMRC, although issues of common concern about shared premises are discussed regularly between the security officials of the two Departments.

**Mr. Hoban:** To ask the Chancellor of the Exchequer whether HM Revenue and Customs uses secure electronic networks to transfer data; and what criteria are used in deciding what methods of data transfer to use. [173679]

**Jane Kennedy:** HMRC uses a number of secure electronic networks to transfer data, as one of several methods of data transfer.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

I also refer the hon. Member to the remarks I made on 28 November 2007, *Official Report*, column 344 setting out the key steps all staff in HMRC must now follow for bulk data transfers.

### Revenue and Customs: Personal Records

**Mr. Amess:** To ask the Chancellor of the Exchequer which information the National Audit Office (NAO) is entitled to request from *(a)* his Department and *(b)* HM Revenue and Customs (HMRC) on (i) personal tax and (ii) benefit data; by what mechanisms such information is provided to the NAO by HMRC; and if he will make a statement [169530]

**Jane Kennedy:** The National Audit Office (NAO) derive their authority from four main Acts of Parliament; these are the Exchequer and Audit Department Acts 1866 and 1921, the National Audit Act 1983 and the Government Resources and Accounts Act 2000. Under section 8 of the National Audit Act 1983 the Comptroller and Auditor General has a right of access at all reasonable times to all official documents reasonably required for the purposes of an audit. The mechanisms by which such information is provided to the NAO vary according to the request.

On 13 November HM Revenue and Customs (HMRC) initiated immediate increased security with a new process:

transfers will now only take place if they are absolutely necessary

written authorisation for the transfer has to be given by senior HMRC manager; and a clear instruction has been given regarding the appropriate standard of protection for the transfer.

Where directors decide that a data transfer by disc is unavoidable such media must, in every case, be securely encrypted at the appropriate level.

On 20 November the Chancellor announced an independent review of HMRC's data handling procedures to be conducted by Kieran Poynter, the chair of PricewaterhouseCoopers.

The interim report was published yesterday and is available in the Library of the House.

### Revenue and Customs: Standards

**Mr. Hoban:** To ask the Chancellor of the Exchequer if he will list each Lean target for staff at HM Revenue and Custom's office in Washington since December 2005. [173745]

**Jane Kennedy:** Teams working in HMRC work streams have a range of targets which change regularly. Teams using Lean ways of working typically improve quality and lead times ensuring that customers receive the right amount of child benefit more quickly.

### Social Security Benefits: EC Nationals

**Andrew Selous:** To ask the Chancellor of the Exchequer whether birth or adoption certificates are required as proof of entitlement before the payment of family benefits for the children of European Economic Area nationals resident abroad. [174674]

**Jane Kennedy:** I refer the hon. Member to the answer given on 26 November 2007, *Official Report*, column 48W, to the right hon. Member for Wells (Mr. Heathcoat-Amory).

### Tax Credits: Overpayments

**Danny Alexander:** To ask the Chancellor of the Exchequer (1) whether previous versions of HM Revenue and Customs Code of Practice (COP) 26 allowed the suspension of the recovery of tax credit overpayments for the whole of the appeal process, including reference to the Adjudicator or Ombudsman; and if he will place in the Library the current edition of COP 26; [173584]

(2) in what circumstances the recovery of tax credit overpayments is suspended while the Adjudicator or Ombudsman considers an appeal. [173585]

**Jane Kennedy:** HM Revenue and Customs (HMRC) have been suspending recovery of all tax credit overpayments following receipt of any new dispute, or where new evidence has been provided in support of a dispute, since November 2005.

HMRC will not ask a customer to pay back a tax credit overpayment until they have fully investigated a referral from the offices of the adjudicator or parliamentary ombudsman involving a new dispute or where fresh evidence has been provided.

A new COP 26 will be available and implemented in full from January 2008. Copies will be placed in the Library.

### Taxation: Gyms

**Mr. Betts:** To ask the Chancellor of the Exchequer if he will review the ways in which employer-provided gym and sports club memberships are treated for tax purposes. [174813]

**Jane Kennedy:** The Government keep all taxes under review as part of the Budget process.

### Taxation: Overpayments

**Mr. Waterson:** To ask the Chancellor of the Exchequer how many individuals used appeals procedure ESC A19 in each year since 1997. [175068]

**Jane Kennedy:** The standard procedure in relation to ESC A19 is that its application will be considered automatically whenever HMRC notifies a customer of a tax charge more than 12 months after the end of the tax year concerned and circumstances covered by the terms of this concession are apparent. There is no central record of the number of cases in which the application of ESC A19 was considered but details of tax given up under this concession are published in the Board of HMRC Annual Report, available in the House of Commons Library.

### Trade Competitiveness

**Mr. Kidney:** To ask the Chancellor of the Exchequer what measures in his Pre-Budget Report contribute to the international competitiveness of the UK's nations and regions. [174231]

**Angela Eagle:** The UK continues to perform well on a wide variety of measures of competitiveness—including GDP, productivity growth, labour market performance and economic stability. The Government remain committed to further achieving continued long-term improvements in UK competitiveness through raising long-term productivity. The recent comprehensive spending review (CSR) and pre-Budget report (PBR) illustrate this with policies aimed at improving performance through the key drivers of productivity. This includes increased investment in higher education and skills, continued development of a world-class science base and simplifications to the tax system. These actions are further underpinned by the Government's commitment to maintaining macroeconomic stability, which provides firms and individuals with the certainty needed to invest for our future.

The Government's strategy focuses on raising productivity and innovation across the whole UK economy. Further details on the national and regional implications of the CSR and PBR measures can be found in the regional and country leaflets accompanying the CSR and PBR available through:

http://www.hm-treasury.gov.uk/pbr_csr/
pbr_csr07_regionalleaflets.cfm

### Unemployment: Yorkshire and Humber

**Mr. Graham Stuart:** To ask the Chancellor of the Exchequer what percentage of young people in each parliamentary constituency in Yorkshire and the Humber were unemployed in each year since 1997; and if he will make a statement. [174297]

**Angela Eagle:** The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

*Letter from Karen Dunnell, dated 18 December 2007:*

As National Statistician, I have been asked to reply to your Parliamentary Question asking what percentage of young people in each parliamentary constituency in Yorkshire and the Humber were unemployed in each year since 1997. (174297)

The Office for National Statistics (ONS) compiles statistics of unemployment for local areas from the annual local area Labour Force Survey (LFS) and Annual Population Survey (APS) following International Labour Organisation definitions.

Table 1, attached, shows estimates for each Parliamentary Constituency in Yorkshire & the Humber, for the 12 month periods ending in February from 1998 to 2004 from the annual LFS, and for the 12 months from March 2005 to March 2007 from the APS. Table 1 shows the number of unemployed aged 16-24 resident in each constituency.

These estimates, as with any from sample surveys, are subject to a margin of uncertainty. Changes in the estimates from year to year should be treated with particular caution.

ONS also compiles statistics for local areas of people claiming Jobseeker's Allowance (JSA). Table 2, attached, shows the annual averages for people aged 18 to 24 claiming JSA in each constituency in Yorkshire & the Humber for 1997 to 2006. Proportions for the 18 to 24 age group are not available for parliamentary constituencies.

*Table 1: Number of unemployed persons aged 16-24: parliamentary constituencies: Yorkshire and the Humber*

## Welfare Tax Credits: Overpayments

**Lady Hermon:** To ask the Chancellor of the Exchequer what HM Revenue and Customs' policy is on the recovery of overpaid tax credit in cases where a joint award was made but the couple has separated. [166319]

**Jane Kennedy:** In cases where a household has broken down, both customers remain jointly and severally liable in law for any outstanding overpayment.

However, the law also allows HM Revenue and Customs to exercise discretion over how much of any overpayment it seeks to recover. In cases where a couple have separated, HMRC will consider carefully how much it should seek to recover from each of the parties, while still recognising that it has the legal authority to collect back the full amount from either of the parties and a duty to protect the public finances.

**Danny Alexander:** To ask the Chancellor of the Exchequer how much was collected in repayment of tax credit overpayments by HM Revenue and Customs in each month since April 2003. [175156]

**Jane Kennedy:** The information requested is available only at disproportionate cost.

Information relating to the recovery of overpayments of 2003-04, 2004-05 and 2005-06 tax credit awards is contained in section 2, table 4, of the Comptroller and Auditor General's Standard Report in the HM Revenue and Customs 2006-07 Accounts, which is available on the HMRC website at:

# Ministerial Corrections

*Tuesday 18 December 2007*

## JUSTICE

### European Court of Human Rights

**John Robertson:** My hon. Friend will be aware of the ruling in the House of Lords at the end of October that the 12-month rule on applications under human rights law did not apply in Scotland. Thus, £70 million in compensation may be paid to prisoners. With the recent case of a prisoner who was denied IVF treatment getting a €5,000 award from the court through the convention, does my hon. Friend think that the convention is tipped the wrong way, and that it is time we started thinking of victims and put an end to this ludicrous state of affairs?

*[Official Report, 11 December 2007; Vol. 469, c. 151.]*

*Letter of correction from Bridget Prentice:*

An error has been identified in the oral answer given to the hon. Member for Glasgow, North-West (John Robertson) on 11 December 2007, *Official Report*, column 151. The correct answer should have been:

**Bridget Prentice:** My hon. Friend refers to the judgment in Somerville and others *v.* Scottish Ministers. As he says, it has an effect on time scales for bringing actions, but clarifies the legal structure of the Scotland Act 1998. Careful consideration is required across Government here in Westminster and by Scottish Ministers.

The Government are disappointed by the Grand Chamber's judgment—on the right to family life in Dickson *v.* the UK—and are studying it with great care.

## WOMEN AND EQUALITY

### Prostitution: Foreign Workers

**Jo Swinson:** To ask the Minister for Women what estimate she has made of the proportion of non-British sex workers who have been *(a)* trafficked and *(b)* subject to coercion. [165770]

*[Official Report, 19 November 2007; Vol. 467, c. 537W.]*

*Letter of correction from Barbara Follett:*

An error has been identified in the written answer given to the hon. Member for East Dunbartonshire (Jo Swinson) on 19 November 2007, *Official Report*, column 537W. The correct answer should have been:

**Barbara Follett:** Anecdotal evidence suggests that in London 10 years ago 85 per cent. of women in brothels were UK citizens, now 85 per cent. are from outside the UK. Estimates suggest that at any one time in 2003 there were approximately 4,000 victims of trafficking for prostitution in the UK.

No research has been undertaken which would provide either evidence or provide a basis for estimates on the proportion of non-British sex workers who have been *(a)* trafficked and *(b)* subject to coercion.
